# reminders

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

## Rules Going Into Effect Today

HEW/SRS—Public assistance programs; standards of personnel administration. 7393; 2-18-76  
Labor/BLS/LRAC Committees—Committee on Productivity, Technology, and Growth, Washington, D.C., 5-18-76. 16620; 4-20-76

## List of Public Laws

This is a continuing numerical listing of public bills which have become law, together with the law number, the title, the date of approval, and the U.S. Statutes citation. The list is kept current in the FEDERAL REGISTER and copies of the laws may be obtained from the U.S. Government Printing Office.

H.R. 11876... Pub. Law 94-285  
An act to amend the Water Resources Planning Act (79 Stat. 244) as amended (May 12, 1976; 90 Stat. 516)

## AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

Ten agencies have agreed to a six-month trial period based on the assignment of two days a week beginning February 9 and ending August 6 (See 41 FR 5453). The participating agencies and the days assigned are as follows:

Monday	Tuesday	Wednesday	Thursday	Friday
NRC	USDA/ASCS		NRC	USDA/ASCS
DOT/COAST GUARD	USDA/APHIS		DOT/COAST GUARD	USDA/APHIS
DOT/NHTSA	USDA/FNS		DOT/NHTSA	USDA/FNS
DOT/FAA	USDA/REA		DOT/FAA	USDA/REA
	CSC			CSC
	LABOR			LABOR

Documents normally scheduled on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this trial program are invited. Comments should be submitted to the Director of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

**ATTENTION:** Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202-523-5286. For information on obtaining extra copies, please call 202-523-5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202-523-5022.

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for \$5.00 per month or \$50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

FEDERAL REGISTER, VOL. 41, NO. 97—TUESDAY, MAY 18, 1976

## HIGHLIGHTS—Continued

### MOHAVE INDIANS

Interior/BIA publishes plan for distribution and use of judgment funds 20429

### STREPTOMYCIN DRUGS

HEW/FDA proposes amendment; comments by 7-19-76 20414

### RESERVOIRS

DOD/Engineers issues regulations on use of storage allocated for flood control or navigation; effective 5-15-76 20400

### PESTICIDES

EPA amends tolerances for Benomyl and Chlorpyrifos (2 documents), effective 5-18-76; comments by 6-17-76 20408

### NATIONAL REGISTER OF HISTORIC PLACES

Interior/NPS lists properties nominated for inclusion; comments by 5-28-76 20430

### FMC PROCEDURES

FMC proposes to streamline rate proceedings; comments by 6-18-76 20419

### MEETINGS—

CRC: Colorado Advisory Committee (2 documents), 6-2 and 6-3-76 20439  
District of Columbia Advisory Committee, 6-8-76 20439  
Illinois Advisory Committee, 6-9-76 20439  
Kansas Advisory Committee, 6-7-76 20440  
Kansas/Missouri Advisory Committee, 6-2-76 20440  
New York Advisory Committee, 6-9-76 20440  
Pennsylvania/Delaware Advisory Committee, 6-10-76 20440  
South Carolina Advisory Committee, 6-10-76 20440  
CSC: Federal Employees Pay Council, 6-1-76 20444  
FEA: Environmental Advisory Committee, 6-4-76 20436  
HEW/NIH: Breast Cancer Task Force, Combined Committee, 7-7-76 20436  
National Advisory Eye Council, Vision Research Program Planning Subcommittee, 6-10-76 20436  
National Advisory General Medical Sciences Council, 6-15 and 6-16-76 20436  
Pharmacology-Toxicology Research Program Committee, 6-17-76 20436  
OE: National Advisory Council on Vocational Education, 6-8 through 6-10-76 20437  
Labor/OSHA: National Advisory Committee on Occupational Safety and Health, 6-3-76 20458

Marine Mammal Commission: Committee of Scientific Advisors on Marine Mammals, 7-22 through 7-24-76 20454  
USDA/AMS: Advisory Committee on Regulatory Programs, 6-8 and 6-9-76 20431  
APHIS: Hog Cholera Eradication, Advisory Committee, on, 6-17-76 20433  
Salmonella Advisory Committee, 6-17-76 20431

### HEARINGS—

Commerce/NOAA: Climate and Health, Interagency workshop, 6-8 and 6-9-76 20435  
Commission on Federal Paperwork, 6-1 and 6-2-76 20442

### CHANGED MEETINGS—

JUSTICE/LEAA: Juvenile Justice and Delinquency Prevention Task Force, National Advisory Committee on Criminal Justice Standards and Goals, rescheduled to 6-4 and 6-5-76 20428

### PART II:

### CARBON BLACK MANUFACTURING

EPA issues interim effluent guidelines and standards, comments by 6-17-76, and proposes additional guidelines and standards (2 documents); comments by 6-17-76 20496, 20502

### PART III:

### GUM AND WOOD CHEMICALS MANUFACTURING

EPA issues interim effluent guidelines and standards, comments by 6-17-76, and proposes additional guidelines and standards (2 documents); comments by 6-17-76 20506, 20515

### PART IV:

### URBAN RENEWAL PROJECTS

HUD amends requirements for financial settlement (2 documents); effective 5-18-76 20522, 20523

### PART V:

### SUMMER YOUTH RECREATION PROGRAMS

CSA revises rules and application procedures for grants; applications to be received by 5-31-76, comments by 6-4-76 20529

## contents

### ACTUARIES, JOINT BOARD FOR ENROLLMENT

Proposed Rules  
Enrollment eligibility of actuaries 20424

Notices  
Privacy Act of 1974; additional routine use 20454

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 5—Administrative Personnel  
CHAPTER I—CIVIL SERVICE COMMISSION  
PART 213—EXCEPTED SERVICE  
Miscellaneous Revocations

Subpart A of part 213 is amended to show that effective May 18, 1976, the following Schedule A authorities, having been superseded by Schedule A, § 213.3106(d) (1), are revoked.

§ 213.3107 Department of the Army.  
(a) General.  
(1) [Revoked]

§ 213.3108 Department of the Navy.  
(a) General.  
(1) [Revoked]  
(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954-1958 Comp., p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,  
[SEAL] JAMES C. SPRY,  
Executive Assistant to the Commissioners.  
[FR Doc.76-14376 Filed 5-17-76;8:45 am]

PART 213—EXCEPTED SERVICE  
Department of Defense

Section 213.3306 is amended to show that one position of Confidential Assistant to the Assistant Secretary of Defense (Legislative Affairs) is excepted under Schedule C.

Effective on May 18, 1976, § 213.3306 (a) (80) is added as set out below:  
§ 213.3306 Department of Defense.  
(a) Office of the Secretary. . . .  
(80) One Confidential Assistant to the Assistant Secretary of Defense (Legislative Affairs).  
(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954-1958 Comp., p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,  
[SEAL] JAMES C. SPRY,  
Executive Assistant to the Commissioners.  
[FR Doc.76-14377 Filed 5-17-76;8:45 am]

PART 213—EXCEPTED SERVICE  
Department of Health, Education, and Welfare

Section 213.3316 is amended to show that one position of Special Assistant for Special Groups is reestablished under Schedule C.

Effective on May 18, 1976, § 213.3316 (q) (4) is amended as set out below:  
§ 213.3316 Department of Health, Education, and Welfare.

(q) Office of the Special Assistant to the Secretary for Civil Rights. . . .  
(4) Three Special Assistants for Special Groups.  
(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954-1958 Comp., p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,  
[SEAL] JAMES C. SPRY,  
Executive Assistant to the Commissioners.  
[FR Doc.76-14378 Filed 5-17-76;8:45 am]

Title 7—Agriculture  
CHAPTER I—AGRICULTURAL MARKETING SERVICE (STANDARDS, INSPECTION, MARKETING PRACTICES), DEPARTMENT OF AGRICULTURE

PART 52—PROCESSED FRUITS AND VEGETABLES, PROCESSED PRODUCTS THEREOF, AND CERTAIN OTHER PROCESSED FOOD PRODUCTS

Canned Solid-Pack Apricots Standards for Grades; Correction

In FR Docket 76-10383 published at page 15016 in the issue dated April 9, 1976 item number 4 Canned Solid-Pack Apricots is in error in its entirety and is corrected to read as follows:

4. Canned Solid-Pack Apricots. A. In § 52.6241 the product description is amended to conform to the Food and Drug Standard of Identity for canned solid-pack apricots as follows:

§ 52.6241 Product description.

"Canned solid-pack apricots" is the product represented as defined in the standards of identity for canned apricots (21 CFR 27.10) issued pursuant to the Federal Food, Drug, and Cosmetic Act and prepared in one of the styles specified in § 52.6242 and is sealed in a container and before or after sealing is so processed by heat as to prevent spoilage. The food may be seasoned with one or more of the optional ingredients permitted in the aforementioned standards of identity.

B. In § 52.6242(c) change the name of the style previously designated as "Mixed pieces of irregular sizes and shapes" to read "Pieces or irregular pieces."

Dated: May 12, 1976.

IRVING W. THOMAS,  
Acting Administrator.  
[FR Doc.76-14332 Filed 5-17-76;8:45 am]

CHAPTER III—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

PART 354—OVERTIME SERVICES RELATING TO IMPORTS AND EXPORTS  
Commuted Traveltime Allowances

• The purpose of this document is to publish commuted traveltime established for agricultural inspection service. •

This amendment establishes commuted traveltime periods as nearly as may be practicable to cover the time necessarily spent in reporting to and returning from the place at which an employee of the Plant Protection and Quarantine Programs performs overtime or holiday duty when such travel is performed solely on account of such overtime or holiday duty. Such establishment depends upon facts within the knowledge of the Animal and Plant Health Inspection Service.

Therefore, pursuant to the authority conferred upon the Deputy Administrator, Plant Protection and Quarantine Programs, by 7 CFR 354.1 of the regulations concerning overtime services relating to imports and exports, the administrative instructions appearing at 7 CFR 354.2, as amended, February 10, 1976 (41 FR 5804), prescribing the commuted traveltime that shall be included in each period of overtime or holiday duty are further amended by adding (in appropriate alphabetical sequence) or deleting the information as shown below:

The following entry is added to the table in 7 CFR 354.2:

§ 354.2 Administrative instructions prescribing commuted traveltime.

Commuted traveltime allowances  
(in hours)

(94 Stat. 561; (7 U.S.C. 2260).)

It is to the benefit of the public that this instruction be made effective at the earliest practicable date. Accordingly, it is found upon good cause, under the administrative procedure provisions of 5 U.S.C. 553, that notice and other public procedure with respect to the foregoing amendment are impracticable and unnecessary and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

**Effective date.** The foregoing amendment shall become effective May 18, 1976.

Done at Washington, D.C., this 12th day of May 1976.

JAMES O. LEE, Jr.,  
Deputy Administrator, Plant  
Protection and Quarantine  
Programs, Animal and Plant  
Health Inspection Service.

#### CHAPTER VII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (AGRICULTURAL ADJUSTMENT), DEPARTMENT OF AGRICULTURE

##### SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

[Amtd. 1]

#### PART 719—RECONSTITUTION OF FARMS AND ALLOTMENTS

##### Effective Date of Reconstitutions

On March 26, 1976, there was published in the FEDERAL REGISTER (41 FR 12690) a notice proposing to amend the rules

concerning the effective date of reconstitution for allotment crops. The purpose of the proposed amendment was set forth in the notice. Interested parties were given the opportunity to submit, not later than April 26, 1976, comments on the proposal.

No comments were received pursuant to the notice, and the amendment, as so proposed, is hereby adopted without change. The amended subparagraph 719.7(b) (1) of the reconstitution regulations, 7 CFR Part 719, is set forth below.

**Effective date:** This amendment shall become effective on May 18, 1976.

Signed at Washington, D.C., on May 7, 1976

KENNETH E. FRICK,  
Administrator, Agricultural Sta-  
bilization and Conservation  
Service.

#### § 719.7 Reconstitution of farm allotments and history acreages.

(b) . . . . .

(1) **Allotment crops.** (i) The reconstitution shall be effective for an allotment crop for the current program year if such reconstitution is initiated before such crop is or would have been planted.

(ii) The reconstitution shall be effective for an allotment crop for the current program year (1) if such reconstitution is initiated after such crop has been or would have been planted, and (2) if there was a bona fide change in operation before the planting period; the land involved is owned by one person; and the reconstitution would have been required under this part had the facts been known by the county committee before the planting period: *Provided, however,* That where the change in operation was solely the addition of one or more operators, the reconstitution shall not be effective for the current program year if the county committee determines that an adverse effect to the program will result.

(iii) The reconstitution may be made effective for the current program year after the crop has been or would have been planted if the county committee determines that no adverse effect to the program will result and the farm owner(s) and operator(s) agree to make the reconstitution effective for such year?

[FR Doc. 76-14205 Filed 5-17-76; 8:45 am]

#### PART 730—RICE

##### Subpart—1976-77 Marketing Year Miscellaneous Amendments

The provisions of §§ 730.1501 to 730.1505 of Title 7 of the Code of Federal Regulations are issued pursuant to sections 301, 352, 353, 354 and 375 of the Agricultural Adjustment Act of 1938, as amended (7 U.S.C. 1281 et seq.) (referred to as the "act"). Pub. L. 94-214, 90 Stat. 181, approved February 16, 1976, entitled the "Rice Production Act of 1975", amended sections 352, 353, and 354 of the act.

Pub. L. 94-214 suspended section 354 of the act with respect to the 1976 and 1977 crops of rice. This section provided the authority for proclamation of rice

marketing quotas. With the suspension of this section, marketing quotas shall not be in effect for the 1976 and 1977 crops of rice. In addition, Pub. L. 94-214 amended section 352 of the act and suspended section 353 with respect to the 1976 and 1977 crops of rice. These sections provided a formula for the calculation of the national rice acreage allotment and directives for apportionment of the national allotment to States and to counties, and permitted the Secretary to withhold up to one percent of the national acreage allotment for use in adjustments and corrections. As provided in Pub. L. 94-214, the national rice acreage allotment for 1976 and 1977 is 1,800,000 acres, to be apportioned to farms and producers on the basis of allotments established for the 1975 crop of rice. State committees may reserve up to one percent of the allotment apportioned within their State for new growers and for adjustments and corrections. These amendments require changes in the earlier determinations and proclamations with respect to §§ 730.1501 to 730.1505.

Since planting of the 1976 crop of rice has begun and planting plans will need to be adjusted to utilize the acreage allotment, it is of the utmost importance that farmers be notified of their 1976 producer and farm rice acreage allotments as soon as possible. Therefore, it is determined that compliance with the notice, public procedure, and 30 day effective date provisions of 5 U.S.C. 553 is impracticable and contrary to public interest. Accordingly, these amendments shall become effective upon filing with the Director, Office of Federal Register.

Sections 730.1501 to 730.1505 are hereby amended with respect to the 1976 crop of rice to read as follows:

#### § 730.1501 [Removed]

1. § 730.1501 is deleted.

2. § 730.1502 is revised to read as follows:

§ 730.1502 National acreage allotment of rice for 1976.

The national acreage allotment for the 1976 crop of rice shall be 1,800,000 acres.

3. § 730.1503 is revised to read as follows:

§ 730.1503 Apportionment of the 1976 national acreage allotment of rice to farms and producers.

The national acreage allotment for the 1976 crop of rice is apportioned to farms and producers on the basis of the rice allotments established for the 1975 crop of rice. The allotment so apportioned within each of the several rice producing States is as follows:

State:	Acres
Arizona	3
Arkansas	434,630
California	326,568
Florida	1,012
Louisiana:	
Farm Administrative Area	499,316
Producer Administrative Area	18,473
State Total	517,789
Mississippi	50,849
Missouri	5,185
North Carolina	41
Oklahoma	163
South Carolina	3,009

State:	Acres
Tennessee	563
Texas	480,188
Total United States	1,800,000

4. § 703.1504 is revised to read as follows:

#### § 730.1504 State reserve acreages.

The State reserve acreages set forth in the table in this section were established by the State Committees in accordance with section 353 of the act, as amended.

State:	Reserve <sup>1</sup>
Arizona	0
Arkansas	0
California	50
Florida	10
Louisiana:	
Farm Administrative Area	0
Producer Administrative Area	0
Mississippi	175
Missouri	0
North Carolina	0
Oklahoma	0
South Carolina	0
Tennessee	0
Texas	50

<sup>1</sup> State reserve for new growers, corrections and adjustments.

#### § 730.1505 [Removed]

5. § 730.1505 is deleted.

(Sec. 301, 352, 353, 354, 375, 52 Stat. 38, 60, 61, 66 as amended; 7 U.S.C. 1301, 1352, 1353, 1354, 1375).

**Effective date:** These amendments are effective on May 17, 1976.

Signed at Washington, D.C. on: May 12, 1976.

EARL L. BUTZ,  
Secretary.

#### CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Regulation 38, Amendment 1]

#### PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

##### Limitation of Handling

This regulation increases the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period May 9-15, 1976. The quantity that may be shipped is increased due to improved market conditions for California-Arizona lemons. The regulation and this amendment are issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910.

(a) **Findings.** (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended

marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for an increase in the quantity of lemons available for handling during the current week results from changes that have taken place in the marketing situation since the issuance of Lemon Regulation 38 (41 FR 18805). The marketing picture now indicates that there is a greater demand for lemons than existed when the regulation was made effective. Therefore, in order to provide an opportunity for handlers to handle a sufficient volume of lemons to fill the current market demand thereby making a greater quantity of lemons available to meet such increased demand, the regulation should be amended, as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this amendment until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of lemons grown in California and Arizona.

(b) **Order, as amended.** Paragraph (b) (1) of § 910.338 (Lemon Regulation 38 (41 FR 18805)) is hereby amended to read as follows: "The quantity of lemons grown in California and Arizona which may be handled during the period May 9, 1976 through May 15, 1976, is hereby fixed at 300,000 cartons."

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: May 12, 1976.

CHARLES R. BRADER,  
Deputy Director, Fruit and Vegetable Division, Agricultural  
Marketing Service.

#### CHAPTER XVIII—FARMERS HOME ADMINISTRATION, DEPARTMENT OF AGRICULTURE

[FmHA Instruction 444.4]

##### SUBCHAPTER B—LOANS AND GRANTS PRIMARILY FOR REAL ESTATE PURPOSES

#### PART 1822—RURAL HOUSING LOANS AND GRANTS

##### Farm Labor Housing Loan Policies, Procedures and Authorizations

On page 58151 of the FEDERAL REGISTER dated December 15, 1975, there was published a notice of proposed rulemaking to revise §§ 1822.72 and 1822.73 of Subpart C of Part 1822, Title 7, Code of Federal Regulations (31 FR 14148) to eliminate requirements that County Committees certify eligibility of Labor Housing loan applicants.

Interested persons were given 30 days to submit written comments, suggestions, or objections regarding the proposed revisions. No unfavorable comments have been received and as a result the proposed revisions are hereby adopted without change and set forth below:

Sections 1822.72(c) and 1822.73(b) (1) as revised read as follows:

§ 1822.72 Final preparation and processing of loan docket.

(c) **County Committee certification.** County Committees will not be used to review Labor Housing loan applications.

Section 1822.73(b) (1) is removed as follows:

§ 1822.73 Loan approval.

(b) **Loan approval official's responsibility.**

(1) [Removed]

(42 U.S.C. 1480; delegation of authority by the Secretary of Agriculture, 7 CFR 2.23; delegation of authority by the Assistant Secretary for Rural Development, 7 CFR 2.70)

**Effective date.** These revisions shall become effective May 18, 1976.

Dated: May 4, 1976.

FRANK W. NAYLOR, Jr.,

Acting Administrator,

Farmers Home Administration.

[FmHA Instruction 444.6]

#### PART 1822—RURAL HOUSING LOANS AND GRANTS

##### Farm Labor Housing Grant Policies, Procedures and Authorizations

On page 58151 of the FEDERAL REGISTER dated December 15, 1975, there was published a notice of proposed rulemaking to revise § 1822.218 of Subpart E of Part 1822, Title 7, Code of Federal Regulations (35 FR 14437) to eliminate the requirement that County Committees certify eligibility of Labor Housing grant applicants.

Interested persons were given 30 days to submit written comments, suggestions, or objections regarding the proposed revision. No unfavorable comments have been received and as a result the proposed revision is hereby adopted without change and set forth below:

Section 1822.218(b) as revised reads as follows:

§ 1822.218 Actions prior to grant approval.

(b) **County Committee certification.** County Committees will not be used to review labor housing grant applications.

(42 U.S.C. 1480; delegation of authority by the Secretary of Agriculture, 7 CFR 2.23; delegation of authority by the Assistant Secretary for Rural Development 7 CFR 270)

Effective date. This revision shall be effective May 18, 1976.

Dated: May 4, 1976.

FRANK W. NAYLOR, JR.,  
Acting Administrator,  
Farmers Home Administration.

# PART 1822—RURAL HOUSING LOANS AND GRANTS

## Rural Housing Site Loan Policies, Procedures, and Authorizations

On page 5815 of the FEDERAL REGISTER dated December 15, 1975, there was published a notice of proposed rulemaking to revise § 1822.271 of Subpart G of Part 1822, Title 7, Code of Federal Regulations (35 FR 10687) to eliminate the requirement in paragraph (d) (2) of this section that County Committees certify eligibility of Rural Housing Site loan applicants.

Interested persons were given 30 days to submit written comments, suggestions, or objections regarding the proposed revision. No unfavorable comments have been received. However, as the result of miscellaneous changes published at 41 FR 7487 dated February 19, 1976, for the purpose of changing certain forms that will be used by Administrative personnel in obligating funds and to change the method of obligating funds for Rural Housing Site loans, a revised § 1822.271 (d) (3) was promulgated. It is intended that the following adoption provide that County Committees are not to be used to review Rural Housing Site loan applications, therefore, § 1822.271(d) as proposed at 40 FR 5815 and as revised at 41 FR 7487 reads as follows:

§ 1822.271 Processing applications.

(d) Preparation of docket forms. (1) Request for obligation of funds. Form FmHA 440-1, "Request for Obligation of Funds," will be completed in accordance with guidelines for preparing this Form available at any FmHA office.

(2) Fund analysis. Form FmHA 444-5, "Multiple Housing Fund Analysis," will be completed in accordance with guidelines for preparing this Form available at any FmHA office. Items 1, 2, and 3 of Part I of the form will be left blank, with items 4 through 10 being completed when appropriate.

(3) County Committee certification. County Committees will not be used to review RHS loan applications.

(4) [Removed]

(42 U.S.C. 1480; delegation of authority by the Secretary of Agriculture, 7 CFR 2.23; delegation of authority by the Assistant Secretary for Rural Development, 7 CFR 270.)

Effective date. These revisions shall become effective May 18, 1976.

Dated: May 4, 1976.

FRANK W. NAYLOR, JR.,  
Acting Administrator,  
Farmers Home Administration.

## RULES AND REGULATIONS

### Title 10—Energy CHAPTER II—FEDERAL ENERGY ADMINISTRATION

#### PART 211—MANDATORY PETROLEUM ALLOCATION REGULATIONS

##### Revocation of Special Rule No. 6 and Adjustment to Small Refiner Bias Under Entitlements Program

On February 28, 1976, the Federal Energy Administration issued a notice of proposed rulemaking and public hearing (41 FR 9391; March 4, 1976), to amend Title 10, Part 211, of the Code of Federal Regulations with respect to the domestic crude oil allocation or entitlements program (hereinafter referred to as the "entitlements program") set forth at 10 CFR 211.67. Comments on the proposed amendments were invited through March 24, 1976 and 96 written comments were received by FEA. Public hearings were held on March 23 and 24 at which 30 persons presented statements.

In this proposal, FEA specifically requested comments on the validity of its tentative determinations that the exemption from payments under the entitlements program for certain small refiners as provided in subsection 4(e) of the Emergency Petroleum Allocation Act of 1973 ("EPAA"), as amended by the Energy Policy and Conservation Act ("EPCA"), and as implemented by Special Rule No. 6 in the Appendix to Subpart C, Part 211 of Title 10, Code of Federal Regulations, seriously impairs FEA's ability to attain the objectives set forth in section 4(b) (1) of the EPAA, and results in an unfair economic or competitive advantage for certain small refiners with respect to other small refiners. FEA further invited comments on whether all small refiners including sellers and purchasers under the entitlements program should receive increased benefits by means of an adjustment to the small refiner bias and whether small refiners with a capacity of less than 10,000 barrels per day should be fully exempted. Finally, FEA solicited comments on the procedures for granting exception relief under the entitlements program and whether exception decisions should be made effective for longer periods.

FEA received numerous comments from all sectors of the petroleum industry including major and small and independent refiners, trade associations, branded and non-branded independent jobbers and others concerning the proposed amendments. FEA is satisfied that the comments received fairly represent the broad range of interests which would be affected by any such changes in the benefits received by small refiners under the entitlements program.

The amendments adopted herein would eliminate the purchase exemption for certain small refiners by revoking Special Rule No. 6 and would increase the amount of additional entitlements issuable to all small refiners (whether entitlement purchasers or sellers) under the small refiner bias. These amendments will not become effective, however, if disapproved by either House of Con-

gress under the procedures set forth in section 551 of the EPCA.

#### ADJUSTMENT TO THE SMALL REFINER BIAS

In conjunction with its modification of the small refiner entitlement purchase exemption discussed below by the revocation of Special Rule No. 6, FEA is hereby adopting an adjustment to the small refiner bias that increases the number of additional entitlements provided for all small refiners. In the proposal, FEA specifically invited comments as to whether the amendment adopted in this proceeding should simply increase the amount of the small refiner bias for all small refiners, which would place all small refiners on the same competitive basis under the entitlements program. At the public hearing and in the written comments on the proposal numerous small refiners, both entitlement purchasers and sellers, supported this approach and the overwhelming majority also supported an increase in the small refiner bias for both sellers and purchasers. The unanimous view expressed in this regard was that it was inequitable to favor one class of small refiners over another as far as benefits under the entitlements program are concerned.

FEA's analysis of this issue indicates that an increase in the small refiner bias in conjunction with the revocation of Special Rule No. 6 has greater merit than any other alternative course of action available to the Agency as to the overall status of small refiners under the entitlements program. This approach both eliminates any special treatment afforded to small refiner entitlement purchasers and comports more fully with the general concern as to the competitive viability of small refiners expressed throughout the EPAA and the EPCA.

FEA initially adopted the small refiner bias after a significant amount of analysis and public comment on the issue when the entitlements program was instituted in late 1974. At that time FEA determined that the historical preference granted to small refiners under the oil import program as in effect in 1972 was sufficient to preserve the competitive viability of this class. However, over the first year in which the program was in effect FEA received substantial evidence that the amount of the bias may in fact not be adequate for its intended purpose. For example, a large number of small refiners have been forced to seek exception relief since, for these firms, bias amounts were not sufficient to enable them to compete effectively or even in certain cases to maintain their financial viability. Due to the more restrictive exception standards for entitlement sellers as opposed to entitlement purchasers, FEA has received numerous indications that many small refiner entitlement sellers are also in need of additional bias amounts to remain competitive and financially viable. Many operating and other costs for these firms have increased since 1972, and thus the bias amounts may not be representative of the current competitive disadvantages of this class and the industry may have generally be-

come more competitive due to increased consumer sensitivity to the higher prices.

In addition, FEA is basing its determination to increase the small refiner bias to a significant extent on the congressional concern for small refiners expressed generally, both in sections 403 and 455 of the EPCA and in the legislative history connected with the passage of the EPCA.

Therefore, FEA is hereby adopting an increase to the small refiner bias on the following basis, in conjunction with the revocation of the small refiner exemption. The small refiner bias would be modified for firms with volumes of crude oil runs to stills of less than 100,000 barrels per day by increasing the benefits at the 10,000 barrel per day crude run level by an additional 2¢ per gallon and by a declining additional amount as the refiner's volume of crude oil runs increases. At the 100,000 and up barrel per day run level, no increase over the present bias amounts is provided for. These additional benefits are expressed in terms of incremental entitlements that would be issued to small refiners based on their crude run levels. For example, a 10,000 barrel per day refiner under the bias presently in effect receives 123.8 additional entitlements for each 1,000 barrels of its crude runs up to 10,000 barrels per day; under the revised bias set forth herein such a small refiner would receive an additional 228.8 entitlements for each such 1,000 barrels per day of his crude runs, or an increase of 105 entitlements. Under the revised bias, FEA estimates that a refiner running 10,000 barrels per day will receive total benefits approximating 4.4 cents per gallon; a refiner running 30,000 barrels per day, 2 cents per gallon; a refiner running 50,000 barrels per day, 8 cents per gallon; and a refiner running 100,000 barrels per day, 24 cents per gallon, which latter amount is the same amount receivable under the bias currently in effect.

#### REVOCATION OF SPECIAL RULE NO. 6

Authority for the small refiner purchase exemption implemented by Special Rule No. 6 and the revocation thereof adopted herein is granted to FEA pursuant to sections 403(a) and 455 of the EPCA. Section 455 of the EPCA amends the EPAA by adding a new section 12 (g) which provides that:

(g) Notwithstanding the provisions of subsection (e) of section 4, the President may, if he determines that the exemption from payments for certain small refiners required by such subsection—

(1) Results in unfair economic or competitive advantage with respect to other small refiners; or

(2) Otherwise has the effect of seriously impairing the President's ability to provide in the regulation under section 4(a) for the attainment of the objective specified in section 4(b) (1) (D) and for the attainment of those other objectives specified in section 4(b) (1);

submit, in accordance with the procedures specified in section 551 of the Energy Policy and Conservation Act, an amendment to modify the regulation under section 4(a)

## RULES AND REGULATIONS

with respect to the provisions of such regulation as they relate to such exemption. Such amendment shall not take effect if disapproved by either House of Congress under the procedures specified in such section 551.

On the basis of its preliminary findings and analysis of the competitive benefits accruing to exempted small refiners, FEA indicated in the February 28 proposal its tentative conclusion that any crude cost advantage accruing to a small refiner entitlement purchaser exceeding one cent per gallon would constitute an unfair economic or competitive advantage within the meaning of section 12(g) of the EPAA. Thus, an increase in the small refiner's bias was proposed by FEA which would have limited permitted crude cost benefits flowing from that adjustment to one cent per gallon over and above the amounts received under the small refiner bias if the small refiner exemption were also revoked.

In the proposal, FEA set forth the range of benefits accruing to small refiners from the operation of the exemption for the months October through December 1975. The crude cost advantages received by small refiners under the exemption during that period ranged as high as 10 cents per gallon, and in some isolated cases higher and monthly benefits from the exemption were in excess of \$4,000,000 in one instance. Benefits of this magnitude were also received by exempted firms for the months January and February 1976.

The following table shows for the months April through September 1975 during which Special Rule No. 6 was not in effect the number of small refiner entitlement purchasers that applied to FEA's Office of Exceptions and Appeals for relief from entitlement purchase requirements.

ENTITLEMENT EXEMPTION RELIEF FOR APRIL THROUGH SEPTEMBER 1975

	Totally exempted <sup>1</sup>	Partially exempted <sup>1</sup>
Number of applicants for relief for April to September 1975...	42	4
Number of firms receiving total relief.....	16	.....
Number of firms receiving partial relief.....	10	.....

<sup>1</sup> If a firm was partially exempted in any month it is counted in the partially exempted column.

Thus, it may be fairly assumed that of the total number of small refiner entitlement purchasers which have received benefits from the exemption, only 26 of these small refiners were found to be operating at below their historical level of return on sales as a result of the requirement to purchase entitlements, so as to warrant the grant of exception relief.

#### IMPACT ON COMPETITION

Information currently available to FEA suggests that the exemption as implemented by Special Rule No. 6 is resulting in unfair competitive advantages in favor of exempted small refiners over other small refiners. Comments from small refiner sellers of entitlements and marketers supplied by such refiners cited

severe price disparities as against exempted small refiner entitlement purchasers with which they have been competing directly. They stated that under Special Rule No. 6, the market shares of exempted small refiners and marketers supplied by them were tending to increase as a result of benefits conferred by the exemption. A large number of those commenting supported FEA's preliminary conclusions that competitive imbalances among competing small refiners are occurring and that the continuation of exemption benefits to the class of exempted small refiner entitlement purchasers will inevitably contribute to further competitive distortions among small refiners generally. Some small refiners benefitting from the exemption having access primarily to upper tier domestic supplies advocated limitation of the exemption because competitive disadvantages were being experienced when such firms compete with other exempted small refiners having access to primarily lower tier oil. Other small refiners argued that an exemption operating in favor of only some small refiners constitutes unwarranted preferential treatment among all small refiners and impacts unfavorably upon all other refiners. While a significant number of small refiners commenting advocated granting additional benefits to small refiner entitlement sellers, these refiners uniformly opposed any exemption which benefited any single group within the class of small refiners.

Many of the comments stated that the full exemption provided by Special Rule No. 6 is having effects in the marketplace which are inconsistent with the EPAA objective in section 4(b) (1) (D) of fostering an economically sound and competitive petroleum industry. In addition, FEA has determined that the current exemption constitutes a serious impediment to the attainment of the EPAA's objectives in that section for the preservation of the competitive viability of various sectors of the petroleum industry including small refiners, their marketers and branded independent marketers. Comments from branded independent marketers were generally to the effect that marketing outlets of exempted small refiners with which they compete were substantially undercutting retail gasoline and distillate prices and thereby are creating competitive distortions in the marketplace. They stated that the impact of an exemption is exaggerated in the context of a highly competitive retail market caused by increased consumer sensitivity to price and an abundance of supplies. Many branded retailers which compete directly with exempted small refiners marketing at the retail level alleged that they are unable to withstand the competitive pressures being exerted by such small refiners.

Branded independent marketers, and the national and regional associations representing them, cited substantial competitive difficulties attributable to the exemption, and advocated its complete elimination. In this regard, branded marketers were uniformly supported by

their major oil company suppliers. These firms voiced their concern that the market shares of independent branded marketers and major oil companies in general are being reduced. Their comments also recognized that increased price sensitivity of the consumer, the softness of the product market, the imposition of lower cost marketing techniques and the competitive impact of offering self-service rather than full service gasoline retail sales were also significant factors contributing to changes in market share. Many firms commenting cited the overall negative impacts being exerted on their marketing operations and indicated that the additional unfavorable impact of granting exemption benefits to competitors is unnecessary and a serious intervention in the operations of the market. Comments were submitted which suggested that the average price differential between major brand and independent brand gasoline varied on a regional basis and that an independent brand advantage was evidenced with such advantage being largest in the areas where small refiner entitlement purchasers in competition with major brands have been exempted by Special Rule No. 6.

Groups representing branded jobbers stated that, while many independent branded marketers do not compete directly with exempted small refiners, in those areas where a marketer has to compete with a small refiner, the marketer is faced with a significant competitive disadvantage and small refiners have in fact expanded their market share in these areas because of their ability to undercut substantially branded prices. Such groups suggested that the exemption be eliminated entirely and that relief where appropriate be given on an equitable basis to small refiners by means of FEA's exceptions procedures. Short of complete elimination of the exemption, these firms indicated support for FEA's one cent per gallon limitation as proposed.

#### IMPACT ON MARKET

FEA has also determined that continuation of the full exemption constitutes unnecessary interference with market mechanisms and seriously inhibits FEA's ability to provide for the minimization of economic distortion and inflexibilities in the petroleum market under section 4(b)(1)(D) of the EPAA. Many comments maintained that where the impact of the exemption is felt it seriously distorts the economics of the market affected by providing benefits in the form of substantial crude cost advantages to one marketing entity over another. Small refiners benefitting from the exemption rebutted this by arguing that the full exemption provided by Special Rule No. 6 is not interfering with market mechanisms because of the insignificant market share of such firms. Furthermore, they stated that they lack the flexibility to alter refining procedures or crude input to exploit any such competitive advantage. Such firms believe that their limited volume and type of

products reduces the competitive influence that such small firms can have in the marketplace.

Numerous other small refiners, however, indicated in their comments that the exemption provides preferential benefits to small refiner purchasers to the detriment of small refiner sellers of entitlements. This is particularly evident in cases where such small refiners are in direct competition. Many argued for adjustments to the bias to provide additional benefits to all small refiners. Absent this type of adjustment, there was a substantial amount of support for FEA's proposed one cent per gallon crude cost differential limitation on the exemption to ease the substantial competitive imbalances that are occurring among small refiners.

Most major companies advocated a complete elimination of the exemption, stating that the class of small refiners as a whole is currently at a competitive advantage and that the granting to some small refiners additional benefits is excessive. While most of these firms opposed the exemption many agreed that the one cent per gallon differential proposed by FEA would limit to a substantial degree the market distortions arising from the full exemption.

FEA has determined that the substantial crude cost benefits granted to some firms by application of the full exemption contribute to disparities in prices among sectors of the industry thus impairing the Agency's ability to provide for equitable prices among sectors of the petroleum industry as contemplated by section 4(b)(1)(F). In addition, the substantial artificial crude cost advantages provided by the exemption may also tend to discourage economic efficiency in a general sense within certain sectors of the industry where the full benefits are in excess of the actual need, since uneconomic refineries would be enabled to continue in operation by virtue of the exemption. Thus, retention of the exemption would run counter to the objective provided for by section 4(b)(1)(H) of the EPAA.

#### DISINCENTIVES TO MAXIMIZE CRUDE RUNS AND TO EXPAND CAPACITY

In the public comment and hearing procedures, a number of firms stated that the small refiner purchase exemption as implemented by Special Rule No. 6 provided a strong disincentive to expansion of a small refiner beneficiary's refining capacity over the 100,000 barrels per day limit. In addition, since the first 50,000 barrels per day of a refiner's crude runs are exempted from entitlement purchase obligations under Special Rule No. 6, a similar disincentive exists to maximize crude runs above the 50,000 barrel per day level. FEA believes that these disincentives are contrary to the objective of "economic efficiency" set forth in section 4(b)(1)(H) of the EPAA and also run counter to the objective provided for in section 4(b)(1)(I) of "minimization of economic distortion, inflexibility, and unnecessary interference with market mechanisms."

#### AGENCY'S DETERMINATIONS AS TO SMALL REFINER ENTITLEMENT PURCHASE EXEMPTION

On the basis of the foregoing, FEA has determined pursuant to section 12(g) of the EPAA that the small refiner exemption from purchasing entitlements as currently implemented by Special Rule No. 6 under section 4(e) of the EPAA is resulting in unfair competitive advantages among small refiners and is seriously impairing FEA's ability to attain the objective set forth in section 4(b)(1)(D) of providing for "preservation of an economically sound and competitive petroleum industry; including the priority needs to restore and foster competition in the producing, refining, distribution, marketing, and petrochemical sectors of such industry, and to preserve the competitive viability of independent refiners, small refiners, non-branded independent marketers, and branded independent marketers;" the objective set forth in section 4(b)(1)(F) of providing for "equitable distribution of crude oil, residual fuel oil, and refined petroleum products at equitable prices among all regions and areas of the United States and sectors of the petroleum industry, including independent refiners, small refiners, nonbranded independent marketers, branded independent marketers, and among all users;" the objective set forth in section 4(b)(1)(H) of providing for "economic efficiency;" and the objective set forth in section 4(b)(1)(I) of providing for "minimization of economic distortion, inflexibility, and unnecessary interference with market mechanisms."

#### MODIFICATION OF EXCEPTION PROCEDURES

In the proposal FEA also requested comments as to the manner in which FEA's exceptions procedures with respect to the entitlements program should operate in the future. Specific comments were invited as to whether exception decisions should be made effective for longer periods than have normally been provided for by FEA and as to whether any other specific procedures relating to the filing of an exception application should be facilitated.

FEA received numerous comments on these issues and has determined in conjunction with the amendments adopted hereby to provide that, except in unusual and extenuating circumstances, exception decisions under the entitlements program would be effective for a six-month period. This contrasts with FEA's practice in the past of providing for exception relief for two and three month periods. In addition, FEA is continuing its review of the standards which will apply in its exception decisions and the types of information required to be submitted by applicants, with a view to requiring the minimum amount of information needed in order to properly evaluate exception applications.

(Emergency Petroleum Allocation Act of 1973, as amended by Pub. L. 94-163; Federal Energy Administration Act of 1974, Pub. L. 93-276; E.O. 11790, 39 FR 23185.)

In consideration of the foregoing Part 211, Chapter II of Title 10, Code of Federal Regulations, is amended as set forth below, effective upon expiration of the fifteen day review period under section 551 of the EPCA, unless this amendment is disapproved by either House of Congress pursuant to the review procedures set forth in section 551 of the EPCA.

Issued in Washington, D.C., May 12, 1976.

MICHAEL F. BUTLER,  
General Counsel.

1. Section 211.67(e) is revised to read as follows:

§ 211.67 Allocation of old oil.

(e) *Small refiner bias.* (1) In addition to the number of entitlements issuable under paragraph (a) of this section, subject to the limitation set forth in paragraph (e)(2) below, each small refiner with a daily average volume of crude oil runs to stills of less than 175,000 barrels for a particular month shall be issued the following number of additional entitlements for each day of that month: (i) For each small refiner with a daily average volume of crude oil runs to stills of 100,000 to 175,000 barrels, 1,258 entitlements less the number of entitlements obtained by multiplying the difference between that small refiner's daily average volume of crude oil runs to stills (in thousands of barrels) and 100 by 16.7733; (ii) for each small refiner with a daily average volume of crude oil runs to stills of 50,000 to 100,000 barrels, 2,079 entitlements less the number of entitlements obtained by multiplying the difference between that small refiner's daily average volume of crude oil runs to stills (in thousands of barrels) and 50 by 16.42; (iii) for each small refiner with a daily average volume of crude oil runs to stills of 30,000 to 50,000, 3,123 entitlements less the number of entitlements obtained by multiplying the difference between that small refiner's daily average volume of crude oil runs to stills (in thousands of barrels) and 30 by 52.2; (iv) for each small refiner with a daily average volume of crude oil runs to stills of 10,000 to 30,000 barrels, 2,288 entitlements plus the number of entitlements obtained by multiplying the difference between that small refiner's daily average volume of crude oil runs to stills (in thousands of barrels) and 10 by 41.75; and (v) for each small refiner with a daily average volume of crude oil runs to stills of zero to 10,000 barrels, 2,288 entitlements for each 1,000 barrels of that small refiner's daily average volume of crude oil runs to stills.

(2) No entitlements shall be issuable under paragraph (e)(1) above with respect to any volume of a small refiner's crude oil runs to stills attributable to a processing agreement for the account of that small refiner with another refiner where the crude oil processed pursuant to that processing agreement is purchased from and the refined products produced under that agreement are sold,

directly or indirectly, to that other refiner.

(3) Each small refiner shall separately identify in its reports filed pursuant to § 211.66(h) of this subpart any volumes of its crude oil runs to stills not eligible (under the provisions of paragraph (e)(2) of this section) for small refiner bias entitlements.

2. Special Rule No. 6 in the Appendix to Subpart C of Part 211 is revoked.

#### APPENDIX

Special Rule No. 6 [Revoked].  
[FR Doc.76-14331 Filed 5-13-76; 10:02 am]

#### Title 12—Banks and Banking

#### CHAPTER II—FEDERAL RESERVE SYSTEM SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Reg. Z; Docket No. R-0036]

#### PART 226—TRUTH IN LENDING

##### Descriptions of Transactions

By separate order of even date the Board has proposed amendments to § 226.7(b)(1)(ii) of Regulation Z for comment. These proposed amendments, should they be finally adopted, would change and clarify the requirements for identifying transactions reflected on open end credit periodic statements.

Because of the uncertainty which may be engendered by the pendency of that amendatory process and to provide enough time to receive and evaluate public comment on that proposal, the July 1, 1976, beginning date for the transition period provided in § 226.7(b)(1)(ii)(E)(2) and the ending date for the transition period provided in § 226.7(b)(1)(ii)(E)(3) must be suspended. This is done herein without repealing or rescinding the entire § 226.7(b)(1)(ii). Consequently, the requirements currently imposed by § 226.7(b)(1)(ii)(E)(3) will remain in effect until dates for the transition periods can be established in accordance with the outcome of the amendatory processes regarding the proposed changes to § 226.7(b)(1)(ii). The new beginning date for the transition period shall be not later than September 1, 1976, and may be embodied in a corresponding section of any final regulation adopted pursuant to the proposals to amend this section.

In determining the new changeover date from one transition period to the other, the Board will take into account the increased flexibility which may be added by the proposed amendments when determining the lead time necessary for compliance.

In consideration of the foregoing and pursuant to the authority granted in 15 U.S.C. § 1604 (1970) the Board amends Regulation Z, 12 C.F.R. Part 226 as follows:

§ 226.7 [Amended]

Section 226.7(b)(1)(ii) as presently written is hereby amended by the suspension of the July 1, 1976, date for the transition periods provided in paragraphs (E)(2) and (E)(3) thereof; provided

such suspension shall end not later than September 1, 1976.

By order of the Board of Governors,  
May 7, 1976.

[SEAL] THEODORE E. ALLISON,  
Secretary of the Board.

[FR Doc.76-14364 Filed 5-17-76; 8:45 am]

[Docket No. R-0037]

#### PART 265—RULES REGARDING DELEGATION OF AUTHORITY

In order to expedite and facilitate the handling of certain of its functions, the Board has amended its Rules Regarding Delegation of Authority adopted pursuant to the provisions of section 11(k) of the Federal Reserve Act (12 U.S.C. § 248(k)) to delegate to the Director of the Division of Banking Supervision and Regulation the authority under the provisions of section 17A(c)(3)(C) of the Securities Exchange Act of 1934, as amended, (15 U.S.C. § 78q-1(c)(3)(C)) to withdraw or cancel by order the transfer agent registration of a member State bank or a subsidiary thereof, a bank holding company, or a subsidiary of a bank holding company that is a "bank" as defined in section 3(a)(6) of that Act (other than a bank specified in clause (i) or (iii) of section 3(a)(34)(B) of that Act (15 U.S.C. § 78c(3)(a)(34)(B))).

The provisions of section 553 of Title 5, United States Code, relating to notice and deferred effective date, were not followed in connection with the adoption of this amendment because the rule involved herein relates to internal agency management and accordingly does not constitute a substantive rule subject to the requirements of that section.

Effective May 10, 1976, § 265.2 is amended by adding paragraph (c)(18) as follows:

§ 265.2 Specific Functions Delegated to Board Employees and to Federal Reserve Banks.

(c) The Director of the Division of Banking Supervision and Regulation (or in his absence, the Acting Director) is authorized:

(18) Under the provisions of section 17A(c)(3)(C) of the Securities Exchange Act of 1934, as amended, (15 U.S.C. § 78q-1(c)(3)(C)) to withdraw or cancel the transfer agent registration of a member State bank or a subsidiary thereof, a bank holding company, or a subsidiary bank of a bank holding company that is a bank as defined in section 3(a)(6) of the Act (other than a bank specified in clause (i) or (iii) of section 3(a)(34)(B) of the Act (15 U.S.C. § 78c(3)(a)(34)(B))) that has filed a written notice of withdrawal with the Board or upon a finding that such transfer agent is no longer in existence or has ceased to do business as a transfer agent.

By order of the Board of Governors,  
May 10, 1976.

[SEAL] THEODORE E. ALLISON,  
Secretary of the Board.

[FR Doc.76-14362 Filed 5-17-76; 8:45 am]

**Title 24—Housing and Urban Development**  
**CHAPTER VII—NEW COMMUNITY DEVELOPMENT CORPORATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT**

[Docket No. R-76-391]

**PART 700—BYLAWS**

**Technical Amendments**

Title 24 CFR Chapter VII is being changed and the Bylaws of the Community Development Corporation, 24 CFR Part 700, are being revised as set forth below, both principally because of technical amendments to the Corporation's authorizing statute, Part B of the Urban Growth and New Community Development Act of 1970 (42 U.S.C. 4511, et seq., part of Title VII of the Housing and Urban Development Act of 1970, 42 U.S.C. 4501, et seq.). The specific changes mandated by the statutory amendments, contained in Section 803 of the Housing and Urban Development Act of 1974 (Pub. L. 93-383, 88 Stat. 633, 725), are a change in name of the Corporation from the "Community Development Corporation" to the "New Community Development Corporation" and an increase in the authorized number of members of the Board of Directors of the Corporation from five to seven. In conjunction with those changes, quorum requirements for the Board of Directors are being modified, and appropriate editorial changes are being made in the Bylaws. In addition, to conform to the adjustment taking place this year in the fiscal year of the United States Government, the fiscal year of the Corporation is being changed to end on September 30 of each year.

Inasmuch as this revision concerns the internal organization and procedure of the Corporation and because the changes are technical in nature and of limited interest to the public, it is hereby determined that advance publication for comment is unnecessary. Accordingly, this revision shall be effective on May 18, 1976.

It is hereby certified that the economic and inflationary impacts of this regulation have been carefully evaluated in accordance with OMB Circular No. A-107. 24 CFR Chapter VII is hereby revised as follows:

1. The title of Chapter VII is amended to read: "New Community Development Corporation, Department of Housing and Urban Development."

2. The table of contents for 24 CFR Part 700 is revised to read as follows:

**Subchapter A—General**

Sec. 700.1 Bylaws of the Corporation. Appendix.

**AUTHORITY:** Secs. 726, 729 of the Housing and Urban Development Act of 1970, as amended; 42 U.S.C. 4327, 4532.

3. Section 700.1 is revised to read as follows:

§ 700.1 Bylaws of the Corporation.

The bylaws of the New Community Development Corporation, duly adopted March 3, 1971, amended May 7, 1971, amended February 6, 1975, and hereby

certified to, are set forth in the following appendix.

4. The Appendix is amended to read as follows:

**APPENDIX**

**ARTICLE I—GENERAL PROVISIONS**

**SECTION 1.01 Name.** The name of the corporation is the New Community Development Corporation (the "Corporation").

**Sec. 1.05 Fiscal year.** The fiscal year of the Corporation shall end on the 30th day of September of each year.

**Sec. 3.02 Composition, vacancies, etc.** The Board of Directors shall consist of seven members as follows: (1) The Secretary, who shall be Chairman of the Board; (2) the General Manager, who shall be appointed by the President of the United States by and with the advice and consent of the Senate and who shall serve at the pleasure of the President; (3) five persons appointed by the Secretary, who shall serve at the pleasure of the Secretary, not more than one of whom shall be selected from among officers and employees of the Department. Appointments to fill vacancies on the Board shall be in the same manner as the appointment of the vacating member.

**Sec. 3.03 Regular meetings.** Regular meetings of the Board shall be held without notice in the Secretary's conference room of the Department in the city of Washington, D.C., on the first Wednesday of each month, or if that day be a legal holiday, on the next succeeding business day at 4 p.m., unless notice of another hour or place is given.

**Sec. 3.05 Quorum.** At any meeting a quorum of the Board shall be four Directors when six or seven Directors are duly serving under Section 3.02 hereof; when five or less Directors are so serving, a quorum shall be three Directors. The act of a majority of the Directors present at any meeting at which there is a quorum shall be the act of the Board. A Director shall be considered present and may participate in any meeting of the Board by means of conference telephone or similar communications equipment by means of which all persons participating in the meeting can hear each other.

**Sec. 3.09 Resignation.** The five Directors appointed by the Secretary may resign at any time upon written notice to the Corporation and the Secretary.

**CARLA A. HILLS,**  
*Chairman of the Board,*  
*New Community Development Corporation.*

**CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT**

[Docket No. FI-1136]

**PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE**

**Suspension of Community Eligibility**

The purpose of this notice is to list communities wherein the sale of flood insurance as authorized under the Na-

tional Flood Insurance Program (42 U.S.C. 4001-4128) will be suspended because of noncompliance with the program regulations (24 CFR Part 1909 et seq.).

The Flood Disaster Protection Act of 1973 requires the purchase of flood insurance as a condition of receiving any form of Federal or Federally related financial assistance for acquisition or construction purposes in a flood plain area having special hazards within any community identified by the Secretary of Housing and Urban Development.

The requirement applies to all identified special flood hazard areas within the United States, and no such financial assistance can legally be provided for acquisition or construction in these areas unless the community has entered the program and insurance is purchased. Accordingly, for communities listed under this Part such restriction exists as of the effective date of suspension because insurance, which is required, cannot be purchased.

Section 1315 of the National Flood Insurance Act of 1968, as amended (42 U.S.C. 4022) prohibits flood insurance

**§ 1914.4 List of eligible communities.**

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	Community No.

New Jersey	Atlantic	Absecon, city of	Dec. 23, 1971, emergency; Mar. 5, 1976, regular; June 21, 1976, suspended.	June 25, 1974	340001A
Do	Monmouth	Deal, borough of	Jan. 14, 1972, emergency; Mar. 5, 1976, regular; June 21, 1976, suspended.	Feb. 21, 1975	310292A
Pennsylvania	Berks	West Reading, borough of	Sept. 3, 1971, emergency; Mar. 16, 1976, regular; June 21, 1976, suspended.	Nov. 9, 1973	420156A

(National Flood Insurance Act of 1968 (title XIII of the Housing and Urban Development Act of 1968); effective Jan. 28, 1969 (33 FR 17804, Nov. 28, 1968), as amended, 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, Feb. 27, 1969) as amended 39 FR 2787, Jan. 24, 1974.

Issued: May 7, 1976.

**J. ROBERT HUNTER,**  
*Acting Federal Insurance Administrator.*

[FR Doc.76-14319 Filed 5-17-76;8:45 am]

[Docket No. FI-1137]

**PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE**

**Status of Participating Communities**

The purpose of this notice is to list those communities wherein the sale of flood insurance is authorized under the National Flood Insurance Program (42 U.S.C. 4001-4128).

Insurance policies can be obtained from any licensed property insurance agent or broker serving the eligible community, or from the National Flood Insurers Association servicing company for the state (addresses are published at 40 FR 57210-212 and 41 FR 1062). A list of servicing companies is also available from the Federal Insurance Administration (FIA), HUD, 451 Seventh Street, S.W., Washington, D.C. 20410.

The Flood Disaster Protection Act of 1973 requires the purchase of flood insurance as a condition of receiving any form of Federal or Federally related financial assistance for acquisition or construction purposes in a flood plain area having special hazards within any community identified by the Secretary of Housing and Urban Development.

The requirement applies to all identified special flood hazard areas within the United States, and no such financial assistance can legally be provided for acquisition or construction in these areas unless the community has entered the program. Accordingly, for communities listed under this Part no such restriction exists, although insurance, if required, must be purchased.

The Federal Insurance Administrator finds that delayed effective dates would

be contrary to the public interest. The Administrator also finds that notice and public procedure under 5 U.S.C. 553(b) are impracticable and unnecessary.

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence new entries to the table. In each entry, a complete chronology of effective dates appears for each listed community.

<sup>1</sup> New community number.

**Title 24—Housing and Urban Development**  
**CHAPTER VII—NEW COMMUNITY DEVELOPMENT CORPORATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT**

[Docket No. R-76-391]

**PART 700—BYLAWS**

**Technical Amendments**

Title 24 CFR Chapter VII is being changed and the Bylaws of the Community Development Corporation, 24 CFR Part 700, are being revised as set forth below, both principally because of technical amendments to the Corporation's authorizing statute, Part B of the Urban Growth and New Community Development Act of 1970 (42 U.S.C. 4511, et seq., part of Title VII of the Housing and Urban Development Act of 1970, 42 U.S.C. 4501, et seq.). The specific changes mandated by the statutory amendments, contained in Section 803 of the Housing and Urban Development Act of 1974 (Pub. L. 93-383, 88 Stat. 633, 725), are a change in name of the Corporation from the "Community Development Corporation" to the "New Community Development Corporation" and an increase in the authorized number of members of the Board of Directors of the Corporation from five to seven. In conjunction with those changes, quorum requirements for the Board of Directors are being modified, and appropriate editorial changes are being made in the Bylaws. In addition, to conform to the adjustment taking place this year in the fiscal year of the United States Government, the fiscal year of the Corporation is being changed to end on September 30 of each year.

Inasmuch as this revision concerns the internal organization and procedure of the Corporation and because the changes are technical in nature and of limited interest to the public, it is hereby determined that advance publication for comment is unnecessary. Accordingly, this revision shall be effective on May 18, 1976.

It is hereby certified that the economic and inflationary impacts of this regulation have been carefully evaluated in accordance with OMB Circular No. A-107. 24 CFR Chapter VII is hereby revised as follows:

1. The title of Chapter VII is amended to read: "New Community Development Corporation, Department of Housing and Urban Development."

2. The table of contents for 24 CFR Part 700 is revised to read as follows:

Subchapter A—General  
 Sec.  
 700.1 Bylaws of the Corporation.  
 Appendix.

**AUTHORITY:** Secs. 728, 729 of the Housing and Urban Development Act of 1970, as amended; 42 U.S.C. 4327, 4532.

3. Section 700.1 is revised to read as follows:

§ 700.1 Bylaws of the Corporation.

The bylaws of the New Community Development Corporation, duly adopted March 3, 1971, amended May 7, 1971, amended February 6, 1975, and hereby

certified to, are set forth in the following appendix.

4. The Appendix is amended to read as follows:

**APPENDIX**

**ARTICLE I—GENERAL PROVISIONS**

**SECTION 1.01 Name.** The name of the corporation is the New Community Development Corporation (the "Corporation").

**Sec. 1.05 Fiscal year.** The fiscal year of the Corporation shall end on the 30th day of September of each year.

**Sec. 3.02 Composition, vacancies, etc.** The Board of Directors shall consist of seven members as follows: (1) The Secretary, who shall be Chairman of the Board; (2) the General Manager, who shall be appointed by the President of the United States by and with the advice and consent of the Senate and who shall serve at the pleasure of the President; (3) five persons appointed by the Secretary, who shall serve at the pleasure of the Secretary, not more than one of whom shall be selected from among officers and employees of the Department. Appointments to fill vacancies on the Board shall be in the same manner as the appointment of the vacating member.

**Sec. 3.03 Regular meetings.** Regular meetings of the Board shall be held without notice in the Secretary's conference room of the Department in the city of Washington, D.C., on the first Wednesday of each month, or if that day be a legal holiday, on the next succeeding business day at 4 p.m., unless notice of another hour or place is given.

**Sec. 3.05 Quorum.** At any meeting a quorum of the Board shall be four Directors when six or seven Directors are duly serving under Section 3.02 hereof; when five or less Directors are so serving, a quorum shall be three Directors. The act of a majority of the Directors present at any meeting at which there is a quorum shall be the act of the Board. A Director shall be considered present and may participate in any meeting of the Board by means of conference telephone or similar communications equipment by means of which all persons participating in the meeting can hear each other.

**Sec. 3.09 Resignation.** The five Directors appointed by the Secretary may resign at any time upon written notice to the Corporation and the Secretary.

CARLA A. HILLS,  
 Chairman of the Board,  
 New Community Development  
 Corporation.

**CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT**

[Docket No. FI-1136]

**PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE**

**Suspension of Community Eligibility**

The purpose of this notice is to list communities wherein the sale of flood insurance as authorized under the Na-

tional Flood Insurance Program (42 U.S.C. 4001-4128) will be suspended because of noncompliance with the program regulations (24 CFR Part 1909 et seq.).

The Flood Disaster Protection Act of 1973 requires the purchase of flood insurance as a condition of receiving any form of Federal or Federally related financial assistance for acquisition or construction purposes in a flood plain area having special hazards within any community identified by the Secretary of Housing and Urban Development.

The requirement applies to all identified special flood hazard areas within the United States, and no such financial assistance can legally be provided for acquisition or construction in these areas unless the community has entered the program and insurance is purchased. Accordingly, for communities listed under this Part such restriction exists as of the effective date of suspension because insurance, which is required, cannot be purchased.

Section 1315 of the National Flood Insurance Act of 1968, as amended (42 U.S.C. 4022) prohibits flood insurance § 1914.4 List of eligible communities.

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	Community No.
Massachusetts	Bristol	Fairhaven, town of	Oct. 8, 1971, emergency; Mar. 16, 1976, regular; June 16, 1976, suspended.	May 31, 1974	250054A
New Jersey	Atlantic	Absecon, city of	Dec. 23, 1971, emergency; Mar. 5, 1976, regular; June 21, 1976, suspended.	June 25, 1974	340001A
Do.	Monmouth	Deal, borough of	Jan. 14, 1972, emergency; Mar. 5, 1976, regular; June 21, 1976, suspended.	Feb. 21, 1975	34022A
Pennsylvania	Berks	West Reading, borough of	Sept. 3, 1971, emergency; Mar. 16, 1976, regular; June 21, 1976, suspended.	Nov. 9, 1973	120156A

(National Flood Insurance Act of 1968 (title XIII of the Housing and Urban Development Act of 1968); effective Jan. 28, 1969 (33 FR 17804, Nov. 28, 1968), as amended, 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, Feb. 27, 1969) as amended 39 FR 2787, Jan. 24, 1974.

Issued: May 7, 1976.

J. ROBERT HUNTER,  
 Acting Federal Insurance  
 Administrator.

[FR Doc.76-14319 Filed 5-17-76;8:45 am]

[Docket No. FI-1137]

**PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE**

**Status of Participating Communities**

The purpose of this notice is to list those communities wherein the sale of flood insurance is authorized under the National Flood Insurance Program (42 U.S.C. 4001-4128).

Insurance policies can be obtained from any licensed property insurance agent or broker serving the eligible community, or from the National Flood Insurers Association servicing company for the state (addresses are published at 40 FR 57210-212 and 41 FR 1062). A list of servicing companies is also available from the Federal Insurance Administration (FIA), HUD, 451 Seventh Street, S.W., Washington, D.C. 20410.

The Flood Disaster Protection Act of 1973 requires the purchase of flood insurance as a condition of receiving any form of Federal or Federally related financial assistance for acquisition or construction purposes in a flood plain area having special hazards within any community identified by the Secretary of Housing and Urban Development.

The requirement applies to all identified special flood hazard areas within the United States, and no such financial assistance can legally be provided for acquisition or construction in these areas unless the community has entered the program. Accordingly, for communities listed under this Part no such restriction exists, although insurance, if required, must be purchased.

The Federal Insurance Administrator finds that delayed effective dates would

be contrary to the public interest. The Administrator also finds that notice and public procedure under 5 U.S.C. 553(b) are impracticable and unnecessary.

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence new entries to the table. In each entry, a complete chronology of effective dates appears for each listed community.

Insurance Administrator.

[FR Doc. 76-14321 Filed 5-17-76; 8:45 am]

**Title 33—Navigation and Navigable Waters**  
**CHAPTER II—CORPS OF ENGINEERS,**  
**DEPARTMENT OF THE ARMY**  
**PART 208—FLOOD CONTROL**  
**REGULATIONS**

**Use of Storage Allocated for Flood Control or Navigation at Reservoirs Constructed Wholly or in Part With Federal Funds**

On 26 November 1975 notice was published in the FEDERAL REGISTER (40 FR 54799) that the Corps of Engineers was proposing revised regulation's prescribing the policy and procedures to govern the use of storage allocated for flood control and/or navigation at all reservoirs constructed wholly or in part with Federal funds as directed by Section 7 of the Flood Control Act of 1944. Interested persons were given until 15 December 1975 to submit written comments. Full and careful consideration was given to all written comments received.

The final Regulation has been revised to reflect applicable comments and other suggested improvements:

(a) *Summary of comments.* (1) The National Newspaper Association suggested in their comments dated 16 December 1975, that § 208.4(h) of the proposed Regulation be amended to provide for informing the general public through the use of public notices in newspapers. This suggestion has been adopted and the final Regulation is revised to include the requirement for publishing public notices in one or more newspapers of general circulation in each county affected by the water control plan.

(2) The Tennessee Valley Authority in their comments dated 17 December 1975 pointed out that, while the proposed procedures differ in several respects from techniques used by them in the operation of their facilities, the Regulation appears workable and well thought out. No specific comments were furnished by the Authority.

(3) The Office of the Secretary, U.S. Department of Agriculture (USDA) in letter dated 29 December 1975 recommended that reservoirs with less than 12,500 acre-feet of flood control storage capacity, as well as ungated structures, be excluded from the Regulation.

(4) The Deputy Assistant Secretary, Mr. Paul A. Vander Myde stated in his letter that the USDA programs which would be affected by the Section 7 Regulation are principally those administered by the Soil Conservation Service and the Forest Service. The small reservoirs administered by these agencies are designed to accomplish limited flood control objectives in relatively small watersheds automatically, without regulation of releases. In no case does their flood

control storage capacity exceed 12,500 acre-feet. Furthermore, only 15-20 dams have control devices that permit joint use of the flood control storage and these are designed for optimum use of the sites for flood control and irrigation water supply.

The Corps of Engineers agrees with the Secretary that compliance with the Section 7 Regulation would be excessively time consuming, constitute hardship on the many non-Federal owners of these small dams, and serve no useful purpose for ungated dams administered by those agencies. Consequently, § 208.3 of the proposed Regulation has been amended to permit exclusion of small reservoir projects containing flood control and/or navigation storage of less than 12,500 acre-feet.

(ii) Other comments furnished in the referenced letter from the Office of the Secretary, USDA, cited the need to revise the proposed Regulation to provide for input from other agencies when a project is located on Federal land, as well as to provide for public involvement.

The Corps of Engineers recognizes the need for input to the water control plan by other interested agencies and the involvement of the general public in the development of the plan. Accordingly, § 208.4(h) of the proposed Regulation has been clarified in this regard and the final Regulation provides for joint sponsorship of public involvement activities by other interested Federal and State agencies whenever it is practicable to do so.

(4) Comments were furnished separately by the Office of the Secretary, U.S. Department of the Interior (USDI) and the Commissioner of the Bureau of Reclamation (USBR).

(i) In his letter of 12 January 1976, Commissioner Stamm, USBR, expressed the Bureau's concurrence in the Corps of Engineers proposal for streamlining the procedures for issuing flood control regulations on multiple-purpose dams that include authorization for flood control. He agreed with most of the provisions of the Regulation. In his letter, the Commissioner made recommendations and suggestions for revising certain paragraphs of the Regulation as follows:

(A) The Bureau recommends that paragraph 208.2(b) of the proposed Regulation be revised to state that the Regulation be implemented by a "memorandum of agreement" between the Corps of Engineers and the project owner prior to the time construction renders the project capable of significant impoundment of water for flood control and navigation, and by a subsequent water control diagram or release schedule signed by both parties prior to the deliberate impound-

ment for such storage purpose or . . . .

The Corps of Engineers is directed by Section 7 of the 1944 Flood Control Act, Public Law 78-534, "to prescribe regulations for the use of storage allocated for flood control or navigation at all reservoirs constructed wholly or in part with Federal funds . . . ." Although, as indicated by Commissioner Stamm, cooperative efforts reported by the Bureau's field offices have been highly successful, in a few instances complete agreement on a water control plan and execution of the prescribed regulation plan have not been consummated. As it is mandatory for the Corps of Engineers to prescribe regulations, with or without agreement with the project owner, the Corps feels it is necessary to retain the concept of the letter of understanding, in lieu of a memorandum of agreement as recommended. Paragraph (c)(3) of § 208.11 has been added to the final Regulation which specifies minimum requirements for consummating the letter of understanding. The policy of full cooperation with the owner and designated operating agency in the development of the water control plan will remain a Corps of Engineers objective and will be extended to the maximum extent practicable.

(B) All or portions of the Bureau's recommendations regarding the wording in §§ 208.3(d), 208.4(e)(3), 208.4(i) and 208.5 of the proposed Regulation have been accepted and appropriate revisions made in the final Regulation.

Specific recommendations regarding these paragraphs which have not been found acceptable are the deletion of the latter part, remaining portion following the first sentence, of § 208.4(a) and changes in the wording of the third sentence of § 208.4(e)(2). These recommendations have not been accepted because the Corps of Engineers feels the referenced portions are needed for clarity in setting out procedures to be followed in prescribing specific regulations for projects subject to this Regulation.

(C) The Bureau's recommendation for revising the first sentence and deleting the last sentence of paragraph 208.4(c) of the proposed Regulation has not been found acceptable because the Corps of Engineers prescribes day-to-day (real-time) regulation of several projects as a routine practice and not just in special cases. This is necessary because these projects are part of a reservoir system and must be regulated in concert with other basin elements for effective and efficient project performance. Paragraph (d)(8) of § 208.11 of the final Regulation has been revised however, to better define the cooperative relationships needed for carrying out the objectives of the Regulation.

(D) The Bureau's recommendation to delete the first sentence and the latter portion of the second sentence of § 208.4(d) of the proposed Regulation is not acceptable. The Corps of Engineers feels that visits to the project by water control managers are desirable, if not necessary, prior to project completion so that familiarity with the water control facilities can be gained. A degree of cooperative-

ness can also be established between water control managers and operating personnel assigned to the project.

(E) The recommendation of the Bureau regarding deletion of a portion of the first sentence of § 208.4(k) of the proposed Regulation is unacceptable.

Any significant storage within a reservoir for whatever purpose can have an appreciable effect upon basin flooding and may require purposeful and specific operation of facilities. Consequently, as a minimum, an interim plan of regulation must be developed and documented. Accordingly, the final Regulation retains the requirement for publication of Section 7 regulations prior to any significant impoundment within a project.

(ii) In letter dated 22 January 1976, the Deputy Assistant Secretary, USDI, recommended revision of the proposed Regulation to include specific mention and reference to the Fish and Wildlife Coordination Act. He also indicated language that should be incorporated to insure that coordination relative to reservoir drawdown is carried out by the Corps with the appropriate fish and wildlife administrating agencies.

Paragraphs (c) and (d)(8) of § 208.11 have been amended in accordance with these recommendations to include reference to the Fish and Wildlife Coordination Act and special mention has been made in the final Regulation of coordination efforts to be accomplished with other interested Federal and State agencies. Reference has also been made to Public Law 92-500, the Federal Water Pollution Control Act Amendments of 1972.

(b) Revision to the proposed Regulation prior to promulgation.

(1) Other significant changes have been made in the proposed Regulation as follows:

(i) Paragraph 208.11(a). Excepted projects have been extended to those under the jurisdiction of the Columbia River Treaty.

(ii) Paragraph 208.11(d)(5)(iv) has been added so as to retain the opportunity for promulgation of specific regulations for a project in compliance with the authorizing Act and to cover those projects which have specific regulations promulgated but do not now have water control agreements consummated as specified in §§ 208.11(c)(3) and 208.11(c)(4).

(iii) Paragraph 208.11(d)(2) has been amended to include procedures for handling project regulations in the event of noncompliance by the project owner or designated operating agency, and to indicate that measures may be taken should an impasse arise between the Corps of Engineers and the project owner regarding compliance.

(iv) Paragraph 208.11(e). Certain projects have been removed from the listing of initially applicable projects pending consummation of water control agreements in accordance with provisions of § 208.11(d)(5).

c. *Final rule making:* Notice is hereby given that the Secretary of the Army (acting through the Chief of Engineers)

is revising regulations prescribing the policy and procedures to govern the use of storage allocated for flood control or navigation at all reservoirs constructed wholly or in part with Federal funds as directed by Section 7 of the Flood Control Act of 1944. These regulations are intended to establish an understanding between project owners, operating agencies and the Corps of Engineers with regard to certain activities and responsibilities concerning water control management throughout the nation in the interest of flood control and navigation. Initially, these generalized regulations will be applicable to those projects for which specific regulations have been published in the FEDERAL REGISTER under this section (Part 208) of the Code and which will be superseded by these regulations. Specific information as defined in § 208.11(d)(11), for the initially applicable projects has been abstracted from the appropriate codified regulations to be deleted, and published in § 208.11(e) of this regulation. Periodically, and at least annually, additional projects will be added to the list in § 208.11(e) by publication of required information, defined in § 208.11(d)(11), in the FEDERAL REGISTER.

(d) *Effective date:* This regulation shall become effective on May 15, 1976.

Dated: May 11, 1976.

MARVIN W. REES,  
Colonel, Corps of Engineers,  
Executive Director of Civil Works.

Section 208.11 is added to read as follows:

AUTHORITY: Sec. 7, Pub. L. 78-534, 58 Stat. 890 (33 U.S.C. 709).

§ 208.11 Regulations for use of storage allocated for flood control or navigation at reservoirs constructed wholly or in part with Federal funds.

(a) *Purpose.* Revision of Policy and Procedures. This Regulation prescribes the policy and procedure for regulating the use of storage allocated for flood control or navigation purposes at all reservoirs capable of such regulation and constructed wholly or in part with Federal funds provided on the basis of such purposes, except projects owned and operated by the Corps of Engineers; the International Boundary and Water Commission, United States and Mexico; and those under the jurisdiction of the Columbia River Treaty. The intent of this Regulation is to establish an understanding between project owners, operating agencies, and the Corps of Engineers.

(b) *Policy.* The basic policy of the Corps of Engineers for carrying out the Congressional mandate of the cited authority is set forth below:

(1) Section 7 of the Flood Control Act of 1944 (58 Stat. 890, 33 U.S.C. 709) directs the Secretary of the Army to prescribe regulations for flood control and navigation in the following manner:

Hereafter, it shall be the duty of the Secretary of War to prescribe regulations for the use of storage allocated for flood control or navigation at all reservoirs con-

structed wholly or in part with Federal funds provided on the basis of such purposes, and the operation of any such project shall be in accordance with such regulations: Provided, that this section shall not apply to the Tennessee Valley Authority, except that in case of danger from floods on the lower Ohio and Mississippi Rivers the Tennessee Valley Authority is directed to regulate the release of water from the Tennessee River into the Ohio River in accordance with such instructions as may be issued by the War Department.

(2) The Chief of Engineers, U.S. Army, Corps of Engineers, is designated the duly authorized representative of the Secretary of the Army to exercise the authority set out in the Act. This Regulation will normally be implemented by letters of understanding between the Corps of Engineers and project owner and will incorporate the provisions of such letters of understanding prior to the time construction renders the project capable of significant impoundment of water. A water control agreement signed by both parties will follow when deliberate impoundment first begins or . . . at such time as the responsibility for physical operation, maintenance, and certain water control responsibilities of any Corps-owned projects may be transferred to another entity. Promulgation of this Regulation for a given project will occur at such time as the name of the project appears in the FEDERAL REGISTER in accordance with paragraph (d)(11) of this section. When agreement on a water control plan cannot be reached between the Corps and the project owner after coordination with all interested parties, the project name will be entered in the FEDERAL REGISTER and the Corps of Engineers plan will be the official water control plan until such time as differences can be resolved.

(c) *Scope and terminology.* This regulation applies to Federally authorized flood control and/or navigation storage projects during the planning, design and construction phases, and throughout the life of the project. In compliance with the authority cited above, this regulation defines certain activities and responsibilities concerning water control management throughout the nation in the interest of flood control and navigation. In carrying out the conditions of this regulation, the owner and/or operating agency will comply with applicable provisions of Pub. L. 85-624, the Fish and Wildlife Coordination Act of 1958, and Pub. L. 92-500, the Federal Water Pollution Control Act Amendments of 1972. This regulation does not apply to local flood protection works governed by § 208.10, Title 33 of the Code and permits exclusion of small reservoirs containing flood control or navigation storage of less than 12,500 acre-feet.

(1) The terms "reservoir" and "project" as used herein include all water resource impoundment projects constructed or modified, including natural lakes, that are subject to this regulation.

(2) The term "project owner" refers to the entity responsible for maintenance, physical operation, and safety of

V  
4  
1

7  
6  
  
U  
M  
I

the project, and for carrying out the water control plan in the interest of flood control and/or navigation as prescribed by the Corps of Engineers. Special arrangements may be made by the project owner for "operating agencies" to perform these tasks.

(3) The term "letter of understanding" as used herein includes statements which consummate this Regulation for any given project and define the general provisions or conditions of the local sponsor, or owner, cooperation agreed to in the authorizing legislative document, and the requirements for compliance with Section 7 of the 1944 Flood Control Act. This information will be specified in the water control plan and manual. The letter of understanding will be signed by a duly authorized representative of the Chief of Engineers and the project owner. A "field working agreement" may be substituted for a letter of understanding, provided that the specified minimum requirements of the latter, as stated above, are met.

(4) The term "water control agreement" refers to a compilation of water control criteria, guidelines, diagrams, release schedules, rule curves, and specifications that basically govern the use of reservoir storage space allocated for flood control or navigation and/or release functions of a water control project for these purposes. In general, they indicate controlling or limiting rates of discharge and storage space required for flood control and/or navigation, based on the runoff potential during various seasons of the year.

(5) For the purpose of this Regulation, the term "water control plan" is limited to the plan of regulation for a water resources project in the interest of flood control and/or navigation. The water control plan must conform with proposed allocations of storage capacity and downstream conditions or other requirements to meet all functional objectives of the particular project, acting separately or in combination with other projects in a system.

(6) The term "real-time" denotes the processing of current information or data in a sufficiently timely manner to influence a physical response in the system being monitored and controlled. As used herein the term connotes . . . the analysis for and execution of water control decisions for both minor and major flood events and for navigation, based on prevailing hydrometeorological and other conditions and constraints, to achieve efficient management of water resource systems.

(d) *Procedures.* (1) *Conditions during project formulation.* During the planning and design phases, the project owner should consult with the Corps of Engineers regarding the quantity of space to reserve in the reservoir for flood control and/or navigation purposes, and for utilization of the space. Relevant matters that bear upon flood control and navigation accomplishment include: runoff potential, reservoir discharge capability, downstream channel characteristics, hydrometeorological data collec-

tion, flood hazard, flood damage characteristics, real estate acquisition for flowage requirements (fee and easement), and resources required to carry out the water control plan. Advice may also be sought on determination of and regulation for the probable maximum or other design flood under consideration by the project owner to establish the quantity of surcharge storage space, and freeboard elevation of top of dam or embankment for safety of the project.

(2) *Corps of Engineers involvement.* If the project owner is responsible for real-time implementation of the water control plan, consultation and assistance will be provided by the Corps of Engineers when appropriate and to the extent possible. During any emergency that affects flood control and/or navigation, the Corps of Engineers may temporarily prescribe regulation of flood control or navigation storage space on a day-to-day (real-time) basis without request of the project owner. Appropriate consideration will be given for other authorized project functions. Upon refusal of the project owner to comply with regulations prescribed by the Corps of Engineers, a letter will be sent to the project owner by the Chief of Engineers or his duly authorized representative describing the reason for the regulations prescribed, events that have transpired, and notification that the project owner is in violation of the Code of Federal Regulations. Should an impasse arise, in that the project owner or the designated operating entity persists in noncompliance with regulations prescribed by the Corps of Engineers, measures may be taken to assure compliance.

(3) *Corps of Engineers implementation of real-time water control decisions.* The Corps of Engineers may prescribe the continuing regulation of flood control storage space for any project subject to this regulation on a day-to-day (real-time) basis. When this is the case, consultation and assistance from the project owner to the extent possible will be expected. Special requests by the project owner, or appropriate operating entity, are preferred before the Corps of Engineers offers advice on real-time regulation during surcharge storage utilization.

(4) *Water control plan and manual.* Prior to project completion, water control managers from the Corps of Engineers will visit the project and the area served by the project to become familiar with the water control facilities, and to insure sound formulation of the water control plan. The formal plan of regulation for flood control and/or navigation, referred to herein as the water control plan, will be developed and documented in a water control manual prepared by the Corps of Engineers. Development of the manual will be coordinated with the project owner to obtain the necessary pertinent information, and to insure compatibility with other project purposes and with surcharge regulation. Major topics in the manual will include: authorization and description of the project, hydrometeorology, data collection and communication networks, hydro-

logic forecasting, the water control plan, and water resource management functions, including responsibilities and coordination for water control decision-making. Special instructions to the dam-tender or reservoir manager on data collection, reporting to higher Federal authority, and on procedures to be followed in the event of a communication outage under emergency conditions, will be prepared as an exhibit in the manual. Other exhibits will include copies of this Regulation, letters of understanding consummating this Regulation, and the water control agreements. After approval by the Chief of Engineers or his duly authorized representative, the manual will be furnished to the project owner.

(5) *Water control agreement.* (i) A water control diagram (graphical) will be prepared by the Corps of Engineers for each project having variable space reservation for flood control and/or navigation during the year; e.g., variable seasonal storage, joint-use space, or other rule curve designation. Reservoir inflow parameters will be included on the diagrams when appropriate. Concise notes will be included on the diagrams prescribing the use of storage space in terms of release schedules, runoff, non-damaging or other controlling flow rates downstream of the damsite, and other major factors as appropriate. A water control release schedule will be prepared in tabular form for projects that do not have a variable space reservation for flood control and/or navigation. The water control diagram or release schedule will be signed by a duly authorized representative of the Chief of Engineers, the project owner, and the designated operating agency, and will be used as the basis for carrying out this Regulation. Each diagram or schedule will contain a reference to this Regulation.

(ii) When deemed necessary by the Corps of Engineers, information given on the water control diagram or release schedule will be supplemented by appropriate text to assure mutual understanding on certain details or other important aspects of the water control plan not covered in this Regulation, on the water control diagram or in the release schedule. This material will include clarification of any aspects that might otherwise result in unsatisfactory project performance in the interest of flood control and/or navigation. Supplementation of the agreement will be necessary for each project where the Corps of Engineers exercises the discretionary authority to prescribe the flood control regulation on a day-to-day (real-time) basis. The agreement will include delegation of the responsibility. The document should also cite Section 7 of the 1944 Flood Control Act and congressional legislation authorizing construction of the project.

(iii) All flood control regulations published in the Federal Register under this Section (Part 208) of the Code prior to the date of this publication and listed in paragraph 208.11(e) are hereby superseded.

(iv) Nothing in this Regulation prohibits the promulgation of specific regu-

lations for a project in compliance with the authorizing Act (Sec. 7, Pub. L. 78-534, 58 Stat. 890 (33 U.S.C. 709)), when agreement on acceptable regulations cannot be reached between the Corps of Engineers and the owner.

(6) *Hydrometeorological instrumentation.* The project owner will provide instrumentation in the vicinity of the damsite and will provide communication equipment necessary to record and transmit hydrometeorological and reservoir data to all appropriate Federal authorities on a real-time basis. For those projects where the owner retains responsibility for real-time implementation of the water control plan, the owner will also provide or arrange for the measurement and reporting of hydrometeorological parameters required within and adjacent to the watershed and downstream of the damsite, sufficient to regulate the project for flood control and/or navigation in an efficient manner. When data collection stations outside the immediate vicinity of the damsite are required, and funds for installation, observation, and maintenance are not available from other sources, the Corps of Engineers may agree to share the costs for such stations with the project owner. Availability of funds and urgency of data needs are factors which will be considered in reaching decisions on cost sharing.

(7) *Project safety.* The project owner is responsible for the safety of the dam and appurtenant facilities and for regulation of the project during surcharge storage utilization. Emphasis upon the safety of the dam is especially important in the event surcharge storage is utilized, which results when the total storage space reserved for flood control is exceeded. Any assistance provided by the Corps of Engineers concerning surcharge regulation is to be utilized at the discretion of the project owner, and does not relieve the owner of the responsibility for safety of the project.

(8) *Notification of the general public.* The Corps of Engineers and other interested Federal and State agencies, and the project owner will jointly sponsor public involvement activities, as appropriate, to fully apprise the general public of the water control plan. Public meetings or other effective means of notification and involvement will be held, with the initial meeting being conducted as early as practicable but not later than the time the project first becomes operational. Notice of the initial public meeting shall be published once a week for three consecutive weeks in one or more newspapers of general circulation published in each county covered by the water control plan. Such notice shall also be used when appropriate to inform the public of modifications in the water control plan. If no newspaper is published in a county, the notice shall be published in one or more newspapers of general circulation within that county. For the purposes of this Section a newspaper is one qualified to publish public notices under applicable state law. Notice shall be

given in the event significant problems are anticipated or experienced that will prevent carrying out the approved water control plan or in the event that an extreme water condition is expected that could produce severe damage to property or loss of life. The means for conveying this information shall be commensurate with the urgency of the situation. The water control manual will be made available for examination by the general public upon request at the appropriate office of the Corps of Engineers, project owner or designated operating agency.

(9) *Other generalized requirements for flood control and navigation.* (i) Storage space in the reservoirs allocated for flood control and navigation purposes shall be kept available for those purposes in accordance with the water control agreement, and the plan of regulation in the water control manual.

(ii) Any water impounded in the flood control space defined by the water control agreement shall be evacuated as rapidly as can be safely accomplished without causing downstream flows to exceed the controlling rates; i.e., releases from reservoirs shall be restricted insofar as practicable to quantities which, in conjunction with uncontrolled runoff downstream of the dam, will not cause water levels to exceed the controlling stages currently in force. Although conflicts may arise with other purposes, such as hydropower, the plan or regulation may require releases to be completely curtailed in the interest of flood control or safety of the project.

(iii) Nothing in the plan of regulation for flood control shall be construed to require or allow dangerously rapid changes in magnitudes of releases. Releases will be made in a manner consistent with requirements for protecting the dam and reservoir from major damage during passage of the maximum design flood for the project.

(iv) The project owner shall monitor current reservoir and hydrometeorological conditions in and adjacent to the watershed and downstream of the damsite, as necessary. This and any other pertinent information shall be reported to the Corps of Engineers on a timely basis, in accordance with standing instructions to the damtender or other means requested by the Corps of Engineers.

(v) In all cases where the project owner retains responsibility for real-time implementation of the water control plan, he shall make current determinations of: reservoir inflow, flood control storage utilized, and scheduled releases. He shall also determine storage space and releases required to comply with the water control plan prescribed by the Corps of Engineers. The owner shall report this information on a timely basis as requested by the Corps of Engineers.

(vi) The water control plan is subject to temporary modification by the Corps of Engineers if found necessary in time of emergency. Requests for and action

on such modifications may be made by the fastest means of communication available. The action taken shall be confirmed in writing the same day to the project owner and shall include justification for the action.

(vii) The project owner may temporarily deviate from the water control plan in the event an immediate short-term departure is deemed necessary for emergency reasons to protect the safety of the dam, or to avoid other serious hazards. Such actions shall be immediately reported by the fastest means of communication available. Actions shall be confirmed in writing the same day to the Corps of Engineers and shall include justification for the action. Continuation of the deviation will require the express approval of the Chief of Engineers, or his duly authorized representative.

(viii) Advance approval of the Chief of Engineers, or his duly authorized representative, is required prior to any deviation from the plan of regulation prescribed or approved by the Corps of Engineers in the interest of flood control and/or navigation, except in emergency situations provided for in paragraph d(9)(vii) above. When conditions appear to warrant a prolonged deviation from the approved plan, the project owner and the Corps of Engineers will jointly investigate and evaluate the proposed deviation to insure that the overall integrity of the plan would not be unduly compromised. Approval of prolonged deviations will not be granted unless such investigations and evaluations have been conducted to the extent deemed necessary by the Chief of Engineers, or his designated representative, to fully substantiate the deviation.

(10) *Revisions.* The water control plan and all associated documents will be revised by the Corps of Engineers, as necessary, to reflect changed conditions that come to bear upon flood control and navigation, e.g., reallocation of reservoir storage space due to sedimentation or transfer of storage space to a neighboring project. Revision of the water control plan, water control agreement, water control diagram, or release schedule requires approval of the Chief of Engineers or his duly authorized representative. Each such revision shall be effective upon the date specified in the approval. The original (signed document) water control agreement shall be kept on file in the Office, Chief of Engineers, Department of the Army, Washington, D.C. Copies of the agreement shall be kept on file in and may be obtained from the office of the project owner, or from the office of the appropriate Division Engineer, Corps of Engineers.

(11) *FEDERAL REGISTER.* The following information for each project subject to Section 7 of the 1944 Flood Control Act shall be published in the FEDERAL REGISTER prior to the time the project becomes operational and prior to any significant impoundment before project completion or . . . at such time as the responsibility for physical operation and maintenance of the Corps of Engineers

owned projects is transferred to another entity: (i) reservoir, dam, and lake names, (ii) stream, county and state corresponding to the damsite location, (iii) the maximum current storage space in acre-feet to be reserved exclusively for flood control and/or navigation purposes,

or any multiple-use space (intermingled) when flood control or navigation is one of the purposes, with corresponding elevations in feet above mean sea level, and area in acres, at the upper and lower limits of said space, (iv) the name of the project owner, and (v) congressional

legislation authorizing the project for Federal participation. (e) List of projects. The following tables, "PERTINENT PROJECT DATA—SECTION 208.11 REGULATION," show the pertinent data for projects which are subject to this Regulation.

# Title 38—Pensions, Bonuses, and Veterans' Relief

## CHAPTER I—VETERANS ADMINISTRATION

### PART 3—ADJUDICATION

#### Subpart A—Pension, Compensation, and Dependency and Indemnity Compensation

##### DELETION OF OBSOLETE AND DUPLICATIVE LANGUAGE

The Administrator of Veterans' Affairs amends Part 3 of Title 38, Code of Federal Regulations, to delete obsolete and duplicative language relating to veterans' pension benefits.

Public Law 94-109 (89 Stat. 1013), effected general increase in pension and parents' dependency and indemnity compensation rates, including housebound and aid and attendance allowance rates. Section 3.351 of Title 38, Code of Federal Regulations, prescribes the basic eligibility requirements for aid and attendance in pension, dependency and indemnity compensation and death compensation cases and housebound benefits in veteran's pension cases. Paragraph (a) of this section relating to aid and attendance is amended to delete an obsolete reference to Indian War Veterans. Paragraph (d) relating to housebound benefits is amended to delete citations of specific dollar amounts payable as aid and attendance allowance and housebound benefits. These rates are established by statutory amendments to Title 38, United States Code. The statutory rates are incorporated in rate schedules published by the Veterans Administration for use in the processing of claims. These rate schedules are up-dated whenever statutory changes are effected. For this reason, incorporating the specific rates in the regulation is a duplication which is of little benefit and requires up-dating the regulation as well when changes are effected. No change in entitlement to benefits is effected by these regulatory changes.

Compliance with the provisions of § 1.12 of this chapter, as to notice of proposed regulatory development and delayed effective date, is unnecessary in this instance and would serve no useful purpose because the amendments are editorial in nature.

In § 3.351, paragraphs (a) and (d) introduction are revised to read as follows:

§ 3.351 Special monthly dependency and indemnity compensation, death compensation and pension ratings.

(a) *Aid and attendance; general.* Additional pension for veterans in need of regular aid and attendance is provided for Spanish-American War veterans (38 U.S.C. 512) and for veterans of the Mexican border period, World War I, World War II, the Korean conflict or the Vietnam era (38 U.S.C. 521). Additional pension for widows and widowers in need of regular aid and attendance is provided for widows and widowers of veterans of all periods of war, including those entitled to pension under the law in effect on June 30, 1960, based on service in

World War I, World II or the Korean conflict (38 U.S.C. 544). Additional dependency and indemnity compensation and death compensation for widows and widowers and for parents in need of regular aid and attendance is provided for widows and widowers and for parents of veterans of all periods of service. (38 U.S.C. 322(b), 411(c); 415(h)).

(d) *Permanent and total plus 60 percent, or housebound;* 38 U.S.C. 521. The monthly rate of pension otherwise payable to a veteran who is entitled to pension under 38 U.S.C. 521 and who does not qualify for increased pension under 38 U.S.C. 521(d) based on need of regular aid and attendance shall be increased as prescribed in 38 U.S.C. 521(e) if, in addition to having a single permanent disability rated as 100 percent without resort to individual unemployability, the veteran:

*Effective date.* This VA Regulation is effective January 1, 1976.

Approved: May 12, 1976.

(SEAL)

R. L. ROUDEBUSH,  
Administrator.

(FR Doc 76-14470 Filed 5-17-76; 8:45 am)

### PART 3—ADJUDICATION

#### Subpart A—Pension, Compensation, and Dependency and Indemnity Compensation

##### FEDERAL EMPLOYEES' COMPENSATION

The Administrator of Veterans' Affairs amends Part 3 of Title 38, Code of Federal Regulations, to reflect a reorganization and change of name in the agency administering Federal Employees' Compensation Act benefits.

Cases are occasionally encountered in which the Veterans Administration determines a veteran's disability or death was due to military service and the Office of Workers' Compensation Programs (formerly Bureau of Employees' Compensation), which administers benefits under the Federal Employees' Compensation Act, determines the same disability or death was due to the veterans' civilian employment. In such cases there is entitlement to benefits payable by both agencies. There is also dual entitlement to benefits for disability or death of a reservist incurred in peacetime service prior to January 1, 1957. However, in both types of cases where there is dual entitlement the claimant must elect which agency's benefits he or she wishes to receive because under the enabling statutes, benefits may not be paid by both agencies concurrently based on the same disability or death. There is no prohibition against a claimant receiving concurrent benefits from both agencies when the two benefits are not based on the same disability or death.

Under a reorganization in the Department of Labor the Bureau of Employees' Compensation was abolished. Its former functions have been transferred to the Office of Workers' Compensation Pro-

grams in the Department of Labor. These regulatory changes delete the obsolete references to "Bureau of Employees' Compensation" and substitute "Federal Employees' Compensation" and "Office of Workers' Compensation Programs" where appropriate.

Compliance with the provisions of § 1.12 of this chapter, as to notice of proposed regulatory development and delayed effective date, is unnecessary in this instance and would serve no useful purpose because the amendments are editorial in nature.

1. In § 3.400, paragraphs (d), (e), and (f) are revised to read as follows:

§ 3.400 General.

(d) *Age; veteran 65, widow (widower) 70 (§ 3.208).* In other than original claims date of receipt of claim or 65th (or 70th) birthday, whichever is later, if evidence filed within 1 year after date of request.

(e) *Apportionment (§§ 3.450 through 3.461, 3.551, 3.557).* On original claims, in accordance with the facts found. On other than original claims from the first day of the month following the month in which:

(1) Claim is received for apportionment of a veteran's award, except that where payments to him (her) have been interrupted, apportionment will be effective the day following date of last payment if a claim for apportionment is received within 1 year after that date;

(2) Notice is received that a child included in the widow's or widower's award is not in the widow's or widower's custody, except that where payments to the widow or widower have been interrupted, apportionment will be effective the day following date of last payment if such notice is received within 1 year after that date.

(f) *Federal employees' compensation cases (§ 3.708).* Date authorized by applicable law, subject to any payments made by the Office of Workers' Compensation Programs under the Federal Employees' Compensation Act over the same period of time.

2. In § 3.958, paragraph (a) is revised to read as follows:

§ 3.956 Public Law 86-211.

(a) Any person receiving or entitled to receive pension on June 30, 1960, under title 38, United States Code, based on service in World War I, World War II or the Korean conflict may receive pension under all applicable provisions of that title in effect on that date for such period or periods thereafter for which he or she can qualify under such provisions. This protection ceases when the claimant (or the claimant's fiduciary) has elected benefits under Pub. L. 86-211. (Sec. 9, Pub. L. 86-211; 73 Stat. 432)

3. Section 3.968 is revised to read as follows:

### § 3.958 Federal employees' compensation cases.

Any award approved prior to September 13, 1960, authorizing Veterans Administration benefits concurrently with an award of benefits under the Federal Employees' Compensation Act based on a finding that the same disability or death was due to civilian employment is not affected by the prohibition against concurrent awards contained in 5 U.S.C. 8116(b).

**Effective date.** These VA Regulations are effective May 12, 1976.

Approved: May 12, 1976.

[SEAL] R. L. ROUDEBUSH,  
Administrator.

[FR Doc.76-14471 Filed 5-17-76; 8:45 am]

### Title 39—Postal Service

#### CHAPTER I—U.S. POSTAL SERVICE PART 601—PROCUREMENT OF PROPERTY AND SERVICES

##### Postal Contracting Manual; Updating Information

The purpose of this document is to revise the description of the contents of the Postal Contracting Manual contained in § 601.103 to reflect the previous addition to the Manual of sections 8, 14, 20, 22, 24 and 27, and to revise and expand the description of section 18.

In addition, § 601.104, dealing with availability of the Manual, is amended to delete reference to the price of the Manual, which upon becomes out of date as a result of the continuing inflation. Certain addresses and offices in § 601.104 are also updated.

Accordingly, effective immediately, the following amendments are made to 39 CFR 601:

1. In § 601.103 paragraphs (g)-(j) are redesignated (h)-(k), paragraphs (k) and (l) are redesignated (m) and (n), paragraph (n) is redesignated (p), Paragraphs (p) and (q) are redesignated (v) and (w). Paragraphs (m) and (o) are redesignated (d) and (u) and revised to read as follows, and new paragraphs (g), (l), (q), (r), (s) and (t) are added as follows:

§ 601.103 Content of Postal Contracting Manual.

(g) Section 8 describes principles and procedures applicable to the termination of contracts for convenience or for default.

(l) Section 14 covers inspection and acceptance.

(o) Section 18 prescribes policies and procedure for the acquisition and control of land, for leasing postal facilities, for the procurement of construction and minor repairs and improvements.

(q) Section 20 deals with administrative matters including numbering

procedures for procurement documents and formats for contracts.

(r) Section 22 prescribes procedures for the solicitation, award, and administration of job cleaner contracts.

(s) Section 24 deals with disposition of personal property in possession of contractors.

(t) Section 27 defines policies and procedures applicable to research and development contracts.

(u) Sections 4, 13, 17, 21, 23, and 25-26 are reserved for future use.

2. Paragraph (a) of § 601.104 is amended to read as follows:

§ 601.104 Availability of Postal Contracting Manual.

(a) Copies of the Postal Contracting Manual, Publication 41, may be purchased, and changes to the Manual may be obtained, from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. The Manual may be examined during normal business hours at the U.S. Postal Service, Office of Contracts, 475 L'Enfant Plaza West, SW., Washington, D.C. 20260, and at the following U.S. Postal Service Regional Contract and Supply Management Branches:

Northeastern Region, 33d Street & Eighth Avenue, New York, N.Y. 10008.  
Eastern Region, 1845 Walnut Street, Philadelphia, PA 19101.

Southeastern Region, 5100 Poplar Avenue, Clark Tower Building, Memphis, TN 38166.  
Central Region, 433 West Van Buren Street, Chicago, IL 60699.  
Western Region, 860 Cherry Street, San Bruno, CA 94099.

(5 USC 552(a); 39 USC 401, 404, 410, 411, 2008)

ROGER P. CRAIG,  
Deputy General Counsel.

[FR Doc.76-14402 Filed 5-17-76; 8:45 am]

### Title 40—Protection of Environment

#### CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

[PP6E1710/R83 FRL 544-5]

#### PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

##### Benomyl

On March 25, 1976 the Environmental Protection Agency (EPA) published a notice of proposed rulemaking in the FEDERAL REGISTER (41 FR 12305) to amend 40 CFR 180.294 to include a tolerance for residues of the fungicide benomyl (methyl 1-(butylcarbamoyl)-2-benzimidazolecarbamate) and its metabolites containing the benzimidazole moiety (calculated as benomyl) in or on the raw agricultural commodity pumpkins at 1 part per million. This notice of proposed rulemaking was published in response to a pesticide petition (PP6E1710) submitted to the Agency by Dr. C. C. Compton, Coordinator, Interregional Research Project No. 4, New Jersey State Agricultural Experiment Station, P.O. Box 231,

Rutgers University, New Brunswick, NJ 08903, on behalf of the IR-4 Technical Committee and the State Agricultural Experiment Stations of Arkansas, Connecticut, North Carolina, and New York. No comments or requests for referral to an advisory committee were received by the Agency in regard to this notice of proposed rulemaking.

Effective on the date of publication, therefore, 40 CFR 180.294 is amended as proposed. This tolerance will protect the public health.

Any person adversely affected by this regulation may, on or before May 18, 1976, file written objections with the Hearing Clerk, Environmental Protection Agency, East Tower, Room 1019, 401 M St. SW, Washington DC 20460. Such objections should be submitted in quintuplicate and should specify both the provisions of the regulation deemed to be objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

Effective May 18, 1976, 40 CFR 180.294 is amended as set forth below.

Dated: May 11, 1976.

AUTHORITY: Sec. 408(e) of the Federal Food, Drug, and Cosmetic Act [21 U.S.C. 346a(e)].

JAY TURIM,  
Acting Deputy Assistant Administrator for Pesticide Programs.

Part 180, Subpart C, § 180.294, is amended by revising the paragraph "1 part per million in or on almond hull . . ." to include the raw agricultural commodity pumpkins, to read as follows:

§ 180.294 Benomyl; tolerances for residues.

1 part per million in or on almond hulls, avocados, cucumbers, melons, pumpkins, summer squash, and winter squash.

[FR Doc.76-14349 Filed 5-24-76; 8:45 am]

[PP6F1673/R86 FRL 544-3]

#### PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

##### Chlorpyrifos

On March 12, 1976, notice was given (41 FR 10709) that Dow Chemical Corp., PO Box 1706, Midland MI 48640, had filed a pesticide petition (PP 6F1673) with the Environmental Protection Agency (EPA). This petition proposed that 40 CFR 180.342 be amended to establish a tolerance for residues of the insecticide chlorpyrifos (O,O-diethyl O-(3,5,6-trichloro-2-pyridyl) phosphorothioate) and its metabolite 3,5,6-trichloro-2-pyridinol

in or on the raw agricultural commodities cottonseed at 0.5 part per million (ppm), and in meat, fat, and meat byproducts of poultry (except turkeys) and the eggs of poultry at 0.01 ppm. No comments were received by the Agency in response to this notice of filing.

The data submitted in the petition and other relevant material have been evaluated. The pesticide is considered useful for the purpose for which the tolerance is sought. The established tolerances, as well as the proposed tolerances, are adequate to cover residues of the pesticide that will result in eggs and the meat, fat, and meat byproducts of cattle, goats, hogs, horses, and poultry. Therefore, 40 CFR 180.342 is being amended as proposed. The tolerances established by amending the regulation will protect the public health.

Any person adversely affected by this regulation may file written objections with the Hearing Clerk, Environmental Protection Agency, Rm. 1019, East Tower, 401 M St. SW, Washington, D.C. 20460, on or before June 17, 1976. Such objections should be submitted in quintuplicate and should specify both the provisions of the regulation deemed to be objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

Effective May 18, 1976, 40 CFR 180.342 is amended as set forth below.

Dated: May 10, 1976.

AUTHORITY: Sec. 408(d) (2) of the Federal Food, Drug, and Cosmetic Act [21 U.S.C. 346a (d) (2)].

JAY TURIM,  
Acting Deputy Assistant Administrator for Pesticide Programs.

Title 40, Part 180, Subpart C, § 180.342, is amended by establishing tolerances for cottonseed at 0.5 ppm and the meat, fat, and meat byproducts of poultry (except turkeys) and the eggs of poultry at 0.01 ppm and by revising the section to read as follows.

§ 180.342 Chlorpyrifos: tolerances for residues.

Tolerances are established for combined residues of the pesticide chlorpyrifos (O,O-diethyl O-(3,5,6-trichloro-2-pyridyl) phosphorothioate and its metabolite 3,5,6-trichloro-2-pyridinol in or on the following raw agricultural commodities:

Commodity:	Parts per million

[FRL 545-3]

#### PART 414—ORGANIC CHEMICALS MANUFACTURING POINT SOURCE CATEGORY

##### Revocation of Regulations; Correction

Notice is hereby given that the Environmental Protection Agency (EPA) is correcting typographical errors appearing in the notice published in the FEDERAL REGISTER on April 1, 1976 (41 FR 13936) which revoked all of 40 CFR 414 promulgated on April 25, 1974 (39 FR 14676) except that portion related to the manufacture of butadiene and also revoked all of 40 CFR 414 promulgated and proposed January 5, 1976 (41 FR 902).

The second paragraph of the April 1, 1976 notice is corrected to read as follows: Sections 414.60, 414.61, 414.62, 414.63, 414.64, 414.65 and 414.66 of subpart B are revoked.

Dated: May 11, 1976.

ANDREW W. BREIDENBACH,  
Assistant Administrator for  
Water and Hazardous Materials.

As corrected, the amendments to 40 CFR Part 414 (41 FR 13936, April 1, 1976) read as follows:

Subparts A, C and D are revoked and reserved.

Sections 414.60, 414.61, 414.62, 414.63, 414.64, 414.65 and 414.66 of Subpart B are revoked.

Sections 414.20, 414.21, 414.22, 414.23, 414.24, 414.25 and 414.26 of Subpart B are revoked as they apply to all commodities except butadiene. These sections, as they apply to butadiene shall remain in effect.

### Title 43—Public Lands: Interior

#### SUBTITLE A—OFFICE OF THE SECRETARY OF THE INTERIOR LAND RESOURCE MANAGEMENT

##### Miscellaneous Amendments & Revisions

This rulemaking makes 3 amendments and revisions of a technical or procedural nature to regulations dealing with the land management program of the Department of the Interior. No increase in funds and manpower requirements will result and no program shifts are indicated. These amendments and revisions will update 43 CFR, Parts 7 and 9 to make them consistent with current policy and with the regulations in 43 CFR, Chapter II. For these reasons, proposed rulemaking and public participation are not necessary.

These amendments and revisions will accomplish the following:

1. Section 7.5 is revised to reflect the change from Grazing Advisory Boards to Multiple Use Advisory Boards pursuant to the authority contained in the Federal Advisory Committee Act of 1970 (86 Stat. 770; 5 U.S.C. App. I).

2. Section 9.2(b) is amended to state the current address and office in which to file a lease, permit, or easement application for public works.

3. Section 9.3 is amended to conform with 43 CFR 2921.0-6 reflecting the Department's current policy on advertising displays along the Interstate System and the primary system of highways.

The regulations are amended as follows and become effective May 18, 1976.

#### PART 7—EMPLOYEES: INTEREST IN LANDS AND RESOURCES

1. Section 7.5 is revised to read as follows:

§ 7.5 Multiple Use Advisory Boards.

Nothing contained in this part shall disqualify local stockmen appointed pursuant to the Federal Advisory Committee Act of 1970 (86 Stat. 770; 5 U.S.C. App. I) as members of advisory boards from acquiring or retaining grazing licenses or permits issued pursuant to Section 3 of the Taylor Grazing Act (43 U.S.C. 315b), or any other interest in land or resources administered by the Bureau of Land Management: *Provided*, That in no case shall the member of any such board participate in any advice or recommendation concerning such license or permit in which such member is directly or indirectly interested.

#### PART 9—LEASES, PERMITS AND EASEMENTS FOR PUBLIC WORKS

2. Section 9.2(b) is amended to read as follows:

§ 9.2 Applicability of regulations: Where to apply.

(b) For public lands under the administration of the Bureau of Land Management, applications shall be filed in

that office of the Bureau of Land Management having jurisdiction over the lands. See § 1821-2-1.

3. Section 9.3(e) is revised and paragraphs (f) and (g) are added to read as follows:

### § 9.3 General provisions.

(e) No permits for advertising displays will be issued for lands within rights-of-way, or within 660 feet of rights-of-way of the National System of Interstate and Defense Highways (Interstate System) and the primary system (title 23, United States Code), or for displays which would be visible from such highways.

(f) Permits for advertising displays on other areas will be issued only for displays advertising activities on or within 50 feet of the property where the display is located.

(g) Notwithstanding any other provision of this subpart, no permit will be issued for the erection and maintenance of any advertising display which would be inconsistent with national programs for the preservation of natural beauty.

JACK O. HORTON,  
Assistant Secretary  
of the Interior.

MAY 10, 1976.

### Title 45—Public Welfare

### CHAPTER X—COMMUNITY SERVICES ADMINISTRATION

### PART 1068—COMMUNITY ACTION PROGRAM GRANTEE FINANCIAL MANAGEMENT

### Subpart—Eligibility for Waiver of Increased Non-Federal Share Contribution

#### CSA Instruction 6802-5

The following regulations are hereby promulgated to publish additional eligibility criteria for waiver of the non-Federal share. Publication of these regulations is a continuation of an effort to assure that communities are able to participate in community action programs despite their present lack of local economic resources to match Federal grant funds.

Although these regulations will not be effective until June 17, 1976 CSA is requesting that grantees submit their requests for waivers of the non-Federal share by May 21, 1976, since submission at the earliest possible date is in their best financial interests.

Final action on the requests will not be taken until the effective date of this subpart.

Effective: June 17, 1976.

SAMUEL R. MARTINEZ,  
Director.

Sec.  
1068.22-1 Applicability.  
1068.22-2 Background.  
1068.22-3 Purpose.  
1068.22-4 Policy.  
1068.22-5 Procedures.

AUTHORITY: The provisions of this subpart issued under sec. 602, 78 Stat. 530; 42 U.S.C. 2942.

### § 1068.22-1 Applicability.

This subpart is applicable to all grants funded under Title II, Sections 221 and 222(a) of the Community Services Act of 1974 if the assistance is administered by the Community Services Administration.

### § 1068.22-2 Background.

On January 4, 1975 the Community Services Act was enacted into law. The new legislation mandated an increase in the percentage of non-Federal share contributions for certain Title II programs beginning with funds granted in FY 1976 with an additional increase for grants made with FY 1977 funds. One of the objectives of this increase was to encourage more State and local cooperation. The rationale was based on the assumption that State and local governments would be able to meet increased demands for contributions to the CSA-funded programs and that the resultant local commitment would assure a sound and continuing program. However, in the interim it appears that many State and local units of government find themselves in difficult financial situations. Therefore, regardless of the commitment many communities may have to community action programs, some units of government and private agencies may not be in a financial position to meet requests for increased contributions. To continue to require non-Federal share contributions in excess of 20% in communities where these conditions currently exist would be inconsistent with a major intent of the legislation. Consequently, the Director of CSA is exercising his authority under Section 225(c) of the Community Services Act to develop additional objective criteria under which part or all of the additional non-Federal share may be waived.

### § 1068.22-3 Purpose.

The purpose of this subpart is to introduce additional waiver criteria under which CSA-funded grantees who operate programs in communities where the unit(s) of government are experiencing severe economic problems and/or where the private sector in general has been likewise impacted, will be eligible for waivers of part or all of the increased non-Federal share contributions.

### § 1068.22-4 Policy.

(a) *New Waiver Criteria.* (1) Any grantee funded under Title II Sections 221 and 222(a) of the Community Services Act may apply for a waiver of a part or all of the required non-Federal share contribution which exceeds 20% when it can document that its inability to raise the additional funds is based on those severe economic problems in the community which result in the inability to mobilize local, State or private resources.

(2) This waiver policy covers those grants made from July 1, 1975 and is retroactive for all grants.

(b) *Existing Waiver Criteria.* § 1068.20-1—§ 1068.20-7 and § 1068.21-1—§ 1068.21-3 remain in effect. However, effective immediately, any grantee who requests a waiver under the provisions of these subparts must comply with the time frame and procedures outlined in § 1068.22-5.

### § 1068.22-5 Procedures.

(a) *For FY 1976 Grants.* A request for waiver of part or all of the increased non-Federal share contribution for FY 1976 will be in the form of a letter to the Regional or Headquarters office responsible for administering the grant and should be submitted to the administering office no later than May 21, 1976. Any amendments to these submissions should accompany the grantee's application for any additional FY 1976 funds. The letter will state (1) the amount (dollars) and percentage of non-Federal share required; (2) the amount (cash plus the value of in-kind) and percentage the community can provide; (3) that the applicant has made a reasonable effort to raise more non-Federal share and has been unsuccessful; and (4) the unit(s) of government/agencies/organizations contacted. In addition the letters will be accompanied by certifications from each of those officials contacted whose contributions were below the amount requested (including "0" contributions) that they were approached; the type and value of the contribution requested; type and amount contributed in the past funding period; what they will contribute toward the current grant requirement and reasons for not being able to make contributions at the level requested. (See Exhibit 1 for example of a certification letter.)

(b) *For FY 1977 Grants.* Grantees will be informed of the time frame and procedures for submission of requests for waiver of the non-Federal share for FY 1977 at the appropriate point in FY 1977.

(c) CSA reserves the right to require that additional evidence be submitted in support of these representations.

To: Regional Director or Appropriate Headquarters Official Community Services Administration

### EXHIBIT I

This is to certify that on \_\_\_\_\_ (date) \_\_\_\_\_ requested that our \_\_\_\_\_

(CSA grantee) unit of government/organization/agency provide cash ( ) and/or in-kind ( ) valued at \$\_\_\_\_\_ to be credited as a contribution to that portion of the program costs in its grant made by the Community Services Administration which must be borne by the community.

This unit of government/organization/agency has provided the following resources toward the CSA grantee's non-Federal share requirement in the previous grant period.

Cash: \$\_\_\_\_\_ Value of in-kind: \$\_\_\_\_\_ (space) \$\_\_\_\_\_ (volunteer services)

\$\_\_\_\_\_ (other)  
\$\_\_\_\_\_ Total  
Due to the circumstances described below in "Remarks" we are not able to make a contribution at the level requested for this grant period.

The value of our cash contribution toward the grantee's current grant has been or will be \$\_\_\_\_\_.

The value of our in-kind contribution toward the grantee's current grant has been or will be as follows:

\$\_\_\_\_\_ (space)  
\$\_\_\_\_\_ (volunteer services)  
\$\_\_\_\_\_ (other)

\$\_\_\_\_\_ Total  
Remarks:

(Authorizing Official)

(Unit of Government/  
Agency/Organization)

### Title 50—Wildlife and Fisheries

### CHAPTER II—NATIONAL MARINE FISHERIES SERVICE, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE

### PART 285—ATLANTIC TUNA FISHERIES Final Rule Making

On March 30, 1976, the National Marine Fisheries Service (NMFS) published in the FEDERAL REGISTER (41 FR 13364) a notice of proposed rulemaking concerning the taking of Atlantic bluefin tuna in Atlantic waters. The purpose of the proposed rulemaking was to amend regulations governing Atlantic bluefin tuna promulgated on August 13, 1975 (40 FR 33978) in order to continue implementation of the conservation measures adopted by the International Commission for the Conservation of Atlantic Tunas (ICCAT). Authority for regulation is the Atlantic Tunas Convention Act of 1975, 16 U.S.C. 971, et seq. The Notice of March 30 proposed to amend, under subpart B, the annual catch quotas for bluefin tuna between 14 and 115 pounds and larger than 300 pounds, to delete several provisions concerning incidental catch, to impose additional reporting requirements, to implement a license system and to provide for a tag and release permit.

The public had the opportunity to comment on these proposals at a public hearing held in Boston, Massachusetts on April 14, 1976, and to submit written comments until April 29, 1976. Full and careful consideration has been given to all comments received.

1. The majority of the statements delivered at the public hearing and received in writing thereafter concerned the lowering of the 1976 catch quota for giant bluefin tuna taken by all methods or gear except purse seining from 2,250 fish to 2,000 fish and the reduction in the purse seine quota for small bluefin tuna from 1,100 tons to 1,000 tons. A higher quota of 3,000 giant fish and an increase in the small fish quota to 2,200 tons were

suggested. The proposed 1976 quota of 2,000 giant fish represents a reduction of 11.1 percent or 250 fish from the 1975 quota. It is the position of NMFS that this reduction is justified. In reaching this conclusion, it has taken into account an analysis made available to the public, proposed by scientists at the Southeast Fisheries Center, Miami, Florida. The analysis revealed that regardless of the catch of giant bluefin tuna, the population of these tuna will decline due to natural causes. Since these fish comprise the major reproductive capacity of the species, our objective, in the short term, is to preserve this capacity so as to increase the probability of favorable year-classes in coming seasons, and establish a stable pattern of population growth. By reducing the harvest of small fish over the long term, we hope to provide the stock with a steady influx of mature young fish in order to assure continued productive capacity.

ICCAT has recommended that we "take necessary measures to limit the fishing mortality of bluefin tuna to recent levels." Since fishing mortality is a function of stock levels, we believe that the combination of quotas we have proposed falls well within the letter and spirit of that recommendation. Therefore, the proposed quotas are adopted.

2. As a result of the widely expressed dissatisfaction with the early (September 15, 1975) closure of the 1975 giant bluefin tuna season for gear other than purse seining, due to the unrestricted harvesting rate allowed in the 1975 regulations, we proposed a daily bag limit for giant bluefin tuna in § 285.12(b)(3) of one fish per vessel up to August 13, and 3 fish per vessel thereafter until the quota was reached. Some dissatisfaction with this proposal was expressed, and numerous written objections and counter-proposals were received during the comment period. In consideration of the overwhelming agreement by all parties for a need to extend the season over the maximum period possible, the daily bag limit proposal is revised to provide a daily bag limit of one fish per vessel through August 13 and a weekly bag limit of 7 fish per vessel thereafter. The weekly provision has the distinct advantage of allowing a vessel owner or operator the flexibility of deciding whether he wishes to catch all 7 fish in one day, catch only one fish each day during the week, etc., knowing that no more than 7 fish may be taken during the week. For purposes of the weekly bag limit provision, the week is defined so as to begin at 0001 hours, Saturday and to end at 2400 hours the following Friday, thus coinciding with the weekly reporting requirements established in § 285.14(e). This approach provides the opportunity for the public to engage in this fishery over a longer time period than occurred in 1975.

3. In § 285.12(b)(1), a more precise definition is presented to clarify that the boundary line extends south from a point on the southern coast of Massachusetts through Gay Head Light, Massachusetts.

4. Section 285.14(d) is rewritten to simplify the reporting requirements of dealers. The revised language will require dealers to report their commercial activity on a weekly basis for any tuna handled rather than a separate reporting period for tuna less than 300 pounds and for tuna 300 pounds and greater. There was no comment on this item at the hearing, but we believe that the original proposal was unnecessarily complicated.

5. In § 285.16, the term "license" is replaced by the term "certificate." References to such terms are changed throughout the text. We felt that "certificate" was the more appropriate term since it was largely an informative document issued without fee. The requirement remains that all purse seine vessels fishing for Atlantic bluefin tuna must obtain a vessel certificate from the Director, Northeast Region, National Marine Fisheries Service, 14 Elm Street, Gloucester, Massachusetts 01930.

6. In § 285.17, there appears some confusion as to what was actually proposed under the tag and release permit. Therefore, to simplify the activities intended, we have separated the catch and release activities from the tagging permit. It is our intent, under paragraph (a), to allow anglers to catch and release bluefin tuna at any time provided that tuna caught in excess of the daily bag limit described in § 285.12(b)(3) or during the closed season are not brought on board but released as soon as possible using care not to injure the fish. In addition, under paragraph (b), a tagging permit is provided for those anglers authorized by the Director, Southeast Fisheries Center. Anglers who wish to participate in the NMFS giant bluefin tuna official tag and release research program should send their request to the Director, Southeast Fisheries Center, National Marine Fisheries Service, 75 Virginia Beach Drive, Miami, Florida 33149, along with the name of the vessel, name of owner(s), master of vessel, type(s) of fishing gear to be used, and general area in which the activity will be carried out. Permits, appropriate tags and detailed instructions of the tagging procedure will be provided by the Director, Southeast Fisheries Center.

Section 9 of the Atlantic Tunas Convention Act of 1975 provides for regulations to be effective within the territorial sea of the United States (generally the area over which the States have jurisdiction pursuant to the Submerged Lands Act, 43 U.S.C. 1301-1343), provided that the Secretary first determines that:

a. Within a reasonable period of time after promulgation of these regulations States have not adopted measures which implement the Commission's recommendations; or

b. If a State has adopted regulations they are:

- (1) Less restrictive; or
- (2) Not effectively enforced.

There is also provision in the law for a State to request a hearing on the record

to consider these issues. (These provisions are implemented by § 285.8.) Consequently, it is necessary to initially define the regulatory area to exclude the territorial sea of the United States. In the event the Director makes a finding that the laws and regulations of a State(s), or the absence thereof, do not meet the criteria of section 9 of the Act, and publishes notice thereof pursuant of § 285.8 of subpart A, the regulatory area for bluefin tuna will be extended to include the territorial sea or any part thereof as appropriate. (Section 285.5 of these regulations allows States 30 days from the date of promulgation of regulations to adopt appropriate measures). States may request a hearing on the record, if appropriate. It should be understood that all fish caught in the territorial sea under regulation by the Federal Government or a State(s) will be counted toward the quota as set forth in § 285.12.

Since the time the recommendations concerning Atlantic bluefin tuna went into effect on August 10, 1975, significant progress has been made by ICCAT members in adopting measures implementing the recommendations of the Commission, particularly in those countries whose fishermen are active in the Western Atlantic.

In light of the fact that the open season for Atlantic bluefin tuna has already commenced, and in order to more fully carry out the purposes of the regulations, these amendments are effective May 18, 1976.

Issued at Washington, D.C., and dated May 13, 1976.

JOSEPH W. SLAVIN,  
Acting Director,  
National Marine Fisheries Service.

In consideration of the foregoing, 50 CFR, Part 285, Subpart B, is amended to read as follows:

**Subpart B—Atlantic Bluefin Tuna (*Thunnus thynnus*)**

- 285.10 Authorized fishing.
- 285.11 Open and closed seasons.
- 285.12 Quotas.
- 285.13 Incidental catch.
- 285.14 Reporting requirements.
- 285.15 Presumptions.
- 285.16 Certificates.
- 285.17 Release and tag permits.

**AUTHORITY:** Atlantic Tuna Convention Act of 1975, Pub. L. 94-70, 16 U.S.C. 971-971h.

**Subpart B—Atlantic Bluefin Tuna (*Thunnus thynnus*)**

**§ 285.10 Authorized fishing.**

Fishing for Atlantic bluefin tuna that weigh between 14 pounds round weight (6.4 kg.) and 115 pounds round weight (52.3 kg.) or in excess of 300 pounds round weight (136.4 kg.) by persons or fishing vessels subject to the jurisdiction of the United States is authorized in the regulatory area only during open season. Fishing for Atlantic bluefin tuna that weigh less than 14 pounds round weight or in excess of 115 pounds round weight but less than 300 pounds round weight by persons or fishing vessels subject to the jurisdiction of the United States is

not authorized at any time in the regulatory area. However, Atlantic bluefin tuna that weigh less than 14 pounds or in excess of 115 pounds round weight but less than 300 pounds round weight may be incidentally taken in the course of fishing in the regulatory area by persons or fishing vessels subject to the jurisdiction of the United States only in the manner and in the numbers or weights, as the case may be, as set forth in § 285.13.

**§ 285.11 Open and closed seasons.**

(a) The Director shall announce in the FEDERAL REGISTER the opening and the closing of the seasons or areas for the taking of Atlantic bluefin tuna. In determining whether a season or area shall be opened and when a season or area shall be closed for the calendar year 1976, the Director will take into consideration the number or tons, as the case may be, of Atlantic bluefin tuna taken during the period from 1 January 1976 to the date these regulations are promulgated.

**§ 285.12 Quotas.**

The quotas, by method of fishing, for Atlantic bluefin tuna in the regulatory area during the open season are as follows:

**(a) Purse Seining:**

(1) The total annual quota for Atlantic bluefin tuna that weigh between 14 pounds (6.4 kg.) round weight and 115 pounds (52.3 kg.) round weight is 1,000 short tons (910 metric tons). Of the total annual quota 1,000 short tons, 800 short tons will be available for capture during the open season. An additional 200 short tons may be taken incidentally to conducting a scientific bluefin tuna tagging project. This tagging project will be conducted under the direct supervision of the National Marine Fisheries Service or its contractor.

(2) The total annual quota for Atlantic bluefin tuna that weigh in excess of 300 pounds (136.4 kg.) round weight is 180 short tons (164 metric tons).

**(b) Fishing by other than purse seining:**

(1) The total annual quota of Atlantic bluefin tuna which weigh in excess of 300 pounds round weight is 2,000 tuna. Of this total, a quota of 1,850 tuna will be permitted to be taken north and east of a line drawn from a point on the southern coast of Massachusetts extending south through Gay Head Light, Massachusetts, into the Atlantic Ocean and 150 tuna will be permitted to be taken west of said line.

(2) The daily bag limit per person for persons who angle for Atlantic bluefin tuna which weigh between 14 pounds round weight and 115 pounds round weight is four Atlantic bluefin tuna.

(3) The daily bag limit per vessel operated by persons who fish for Atlantic bluefin tuna which weigh over 300 pounds round weight is one Atlantic bluefin tuna per day until August 13 and seven tuna per week from August 14, until the quota has been reached.

(c) When the quota for a particular weight of Atlantic bluefin tuna has been reached, the Director shall, in accordance with § 285.11 close the season for Atlantic bluefin tuna of that weight.

**§ 285.13 Incidental catch.**

(a) Purse seine vessels fishing for Atlantic bluefin tuna weighing more than 300 pounds round weight may incidentally take, on any one trip, Atlantic bluefin tuna weighing less than said weight, provided that the number of such tuna taken shall not exceed 3 percent by weight of the total taken. Purse seine vessels fishing for Atlantic bluefin tuna weighing more than 14 pounds round weight but less than 115 pounds round weight, may incidentally take on any one trip Atlantic bluefin tuna outside said weight limit, provided that the number of such tuna taken shall not exceed 15 percent of the total number of Atlantic bluefin tuna taken which do not exceed said limits or 4 percent by weight of the total weight of Atlantic bluefin tuna taken which do not exceed said limits.

(b) Persons angling for Atlantic bluefin tuna, which weigh between 14 pounds round weight and 115 pounds round weight, may include in the daily bag limit one Atlantic bluefin tuna less than 14 pounds round weight and one Atlantic bluefin tuna greater than 115 pounds round weight but less than 300 pounds round weight.

(c) Persons or fishing vessels subject to the jurisdiction of the United States fishing principally for species of fish other than Atlantic bluefin tuna shall not retain any Atlantic bluefin tuna taken incidentally on any trip, except in the case of traps. Persons or fishing vessels taking Atlantic bluefin tuna incidentally shall release and return such tuna to the ocean. Operators of traps may retain Atlantic bluefin tuna taken incidentally in these operations provided that said tuna do not exceed by weight 2 percent of the total weight of all fish taken within any 30-day period.

(d) Atlantic bluefin tuna taken incidentally by traps shall be included in the quotas set forth in § 285.12(b).

**§ 285.14 Reporting requirements.**

(a) Reports and records required by this section when required to be forwarded to the National Marine Fisheries Service, should be forwarded to:

Director, Northeast Region  
National Marine Fisheries Service  
14 Elm Street, Federal Building  
Gloucester, Massachusetts 01930

The tags referred to in (b) and (c) of this section may be obtained by writing to the same address.

(b) Any person, master or operator of any fishing vessel subject to the jurisdiction of the United States that takes an Atlantic bluefin tuna in excess of 300 pounds round weight shall affix through the narrowest part of the fish just forward of the tail, at the time of taking an individually numbered tag furnished by the National Marine Fisheries Service. The taking and tagging of

such tuna shall be recorded in the log books provided by the National Marine Fisheries Service.

(c) The tag affixed to the tuna in paragraph (b) must remain attached to the tuna until the fish is cut into portions for domestic sale or exported from the United States. The tag may be removed from tuna packed whole or headed and eviscerated for export, but, in such cases, the tag must be attached to the container holding the fish until it is shipped from the United States.

(d) Dealers shall on a weekly basis, following instructions provided, maintain and forward to the Service, on forms available from the Service, a complete record of their commercial activity involving any bluefin tuna handled during the reporting period. Such record will include numbers of fish, disposition (names, addresses and where applicable country of destination), source (names, addresses and where applicable country of origin), tag numbers (where applicable), and round weight (by individual fish for those over 300 pounds).

(e) The owner or master of any vessel certified under § 285.16 and fishing for Atlantic bluefin tuna that weigh in excess of 300 pounds round weight shall maintain an accurate log of operations, showing hours fished each day, number and weight of Atlantic bluefin tuna caught (in the case of purse seine vessels, each set made), the date, type of gear used, size of net, area fished, place landed, disposition of fish, tag numbers, and the estimated round weight in pounds and number of tuna taken during the reporting period. A duplicate copy of the log sheets must be submitted to the National Marine Fisheries Service at the end of each reporting period per instructions accompanying the log books. Log books will be issued with the certificate and shall be available for inspection by authorized officials.

(f) The owner or master of a purse seine vessel certified under § 285.16(b) or his designated representative to take Atlantic bluefin tuna shall call the National Marine Fisheries Service every even numbered day while engaged in fishing to report the catch of tuna during the past 48 hours. The owner or master of a purse seine vessel may call either number: 617-992-7711 or 516-475-4854. The call will be recorded automatically. The message must include name and number of the vessel, general location of the vessel, and the estimated catch of tuna by weight.

**§ 285.15 Presumptions.**

For purposes of this Part 285, there shall be a rebuttable presumption that Atlantic bluefin tuna which are of the following lengths when measured in a straight line from the tip of the nose to the fork of the tail weigh the amount noted in association with the length:

- 27 inches (68 cm.)—14 pounds (6.4 kg.).
- 56 inches (142 cm.)—115 pounds (52.3 kg.).
- 75 inches (191 cm.)—800 pounds (364 kg.).

For any Atlantic bluefin tuna which is less than or in excess of the lengths set forth herein, there shall be a rebuttable presumption that such Atlantic bluefin tuna correspondingly weighs less than or in excess of, as the case may be, the appropriate associated weights.

**§ 285.16 Certificates.**

(a) The owner of a vessel fishing for Atlantic bluefin tuna weighing in excess of 300 pounds round weight within the regulatory area must obtain a certificate.

(b) Certificates may be obtained by furnishing on a form provided by the National Marine Fisheries Service information specifying the names and addresses of the vessel owner(s) and mas-

ter, the name of the vessel, official number, type of fishing gear to be used, capacity (if commercial), and home port of the vessel. The form shall be submitted in duplicate to the Regional Director, National Marine Fisheries Service, 14 Elm Street, Gloucester, Massachusetts 01930, who shall issue the requested certificate without fee for 1976. The certificate will expire on December 31 of the year of issue.

(c) The certificate must be carried, at all times, on board the vessel for which it was issued and such certificate shall be subject to inspection at reasonable times by authorized officials.

(d) Certificates issued under this subpart may be revoked by the Regional Director for violation of the provisions of this subpart. Revocation will be in accordance with the hearing procedures referenced in § 285.6 of this part.

**§ 285.17 Release and tag permit.**

(a) Anglers may take Atlantic bluefin tuna at any time provided that the tuna taken in excess of the daily bag limit described in § 285.12(b) (3) or during the closed season are not brought on board but released as soon as possible, using care not to injure the fish.

(b) Anglers desiring to participate in a tag and release research program should submit their request to the Director, Southeast Fisheries Center, National Marine Fisheries Service, 75 Virginia Beach Drive, Miami, Florida 33149, along with the name of vessel, name of owner(s), master of vessel, type(s) of fishing gear to be used, and general area in which the fishing activity will be carried out. Permit, appropriate tags and detailed instructions of the tagging procedure will be provided by the Director, Southeast Fisheries Center.

[FR Doc.76-14400 Filed 5-17-76; 8:45 am]

## proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

### DEPARTMENT OF AGRICULTURE

Food and Nutrition Service

[7 CFR Part 271]

FOOD STAMP PROGRAM

[Amendment No. 84]

#### Proposal To Terminate State Agency Acceptance of Vouchers

Pursuant to the authority contained in the Food Stamp Act of 1964 (78 Stat. 703, as amended; 7 U.S.C. 2011-2026), the Food and Nutrition Service gives notice that it intends to amend part 271 of its regulations governing the operation of the Food Stamp Program, 7 CFR 271. The proposed amendment would terminate, as of April 30, 1977, the provision which allows State agencies to accept vouchers, warrants, etc. from public and private agencies in lieu of recipients' purchase requirements.

Agency experience shows that the untimely conversion of vouchers to cash is a continuing problem. Moreover, the use of vouchers can result in late depositing of the cash. Accordingly the Food and Nutrition Service proposes to terminate State agency acceptance of vouchers. However, as this may be a major change in some areas, we are allowing time for State agencies to phase out their voucher programs.

Interested parties may submit written comments, suggestions, or objections regarding the proposed amendment to the Food Stamp Division, Food and Nutrition Service, U.S. Department of Agriculture, Washington, D.C. 20250 not later than June 21, 1976.

All comments, suggestions or objections received by this date will be considered before the final regulations are issued.

All written comments, suggestions or objections, will be open to public inspection pursuant to 7 CFR 1.27(b) at the Office of the Director, Food Stamp Division, during regular business hours (8:30 a.m. to 5 p.m.) at 500 12th Street SW., Washington, D.C., Room 650.

It is proposed to amend § 271.6(e) to read as follows:

#### PART 271—PARTICIPATION OF STATE AGENCIES AND ELIGIBLE HOUSEHOLDS

§ 271.6 Methods of distributing, issuing and accounting for coupons and receipts.

(e) The State agency may authorize under written agreement with public or private agencies the acceptance of vouchers, or warrants issued by such agencies in payment for coupon allotments issued to eligible households: *Provided*, That no such voucher or warrant

shall be accepted in payment for coupon allotments after April 30, 1977. Vouchers or warrants accepted on or before April 30, 1977, pursuant to such an agreement shall be converted into cash as soon as practicable after acceptance as determined by FNS.

(78 Stat. 703, as amended; 7 U.S.C. 2011-2026)

(Catalog of Federal Domestic Assistance Programs No. 10.551, National Archives Reference Services)

Dated: May 13, 1976.

RICHARD L. FELTNER,  
Assistant Secretary.

### STREPTOMYCIN AND STREPTOMYCIN-CONTAINING DRUGS

Updating and Technical Revisions

The Food and Drug Administration is proposing to amend the antibiotic regulations by updating and making technical changes to those regulations that provide for streptomycin and streptomycin-containing drugs for human use, comments by July 19, 1976.

The proposed changes are grouped in two classes for discussion in this preamble: (1) Revocation of inactive sections or partial sections; and (2) technical changes.

1. *Revocations.* Six sections are proposed to be revoked. They are: § 444.72a Sterile streptonicozid sulfate (21 CFR 444.72a), § 444.170a Streptomycin-polymyxin-bacitracin tablets (21 CFR 444.170a), § 444.270c Streptomycin sulfate for injection (21 CFR 444.270c), § 444.570a Streptomycin ointment; dihydrostreptomycin ointment (21 CFR 444.570a), § 444.570b Streptomycin for topical use; streptomycin with (the blank being filled in with the name of the vehicle if a packaged combination) for topical use (21 CFR 444.570b), and § 444.570c Streptomycin - bacitracin-polymyxin gauze pads (21 CFR 444.570c). Requests for certification of these antibiotic drugs are no longer being received. In two additional sections, §§ 444.70a and 444.270a (21 CFR 444.70a and 444.270a), provisions are proposed to be deleted for the certification of streptomycin hydrochloride, streptomycin phosphate, and streptomycin trihydrochloride calcium chloride. These salts of streptomycin are no longer produced for use in the manufacture of drugs. As a result of this proposal, the revised §§ 444.70a and 444.270a would provide only for the sterile bulk drug streptomycin sulfate and an injectable dosage form, respectively.

2. *Technical changes.* In keeping with current policy, certain technical changes are proposed as part of updating the regulations. A maximum potency limit is proposed for § 444.70a, and maximum and minimum potency limits are proposed for § 444.270b (21 CFR 444.270b). These proposed limits are based on certification experience.

The existing § 444.70a provides for both a microbiological agar diffusion assay and a turbidimetric assay, which produce equivalent results. The Commissioner of Food and Drugs finds that one method should be designated as official, and he therefore proposes that the tur-

bidimetric assay be used to determine potency.

Other minor technical changes proposed include designating the sterile bulk drug as sterile in the heading of § 444.70a, deleting streptonicozid sulfate from the table in § 436.33 (21 CFR 436.33), and referencing all tests and methods of assay prescribed in the streptomycin regulations to the general methods in Part 436 (21 CFR Part 436).

The Commissioner has reviewed the potential environmental impact of the proposed amendments and has concluded that the proposed action will not significantly affect the quality of the human environment and that an environmental impact statement is not required. The Commissioner has also considered the inflation impact of the proposed amendments and no major inflation impact has been found, as defined in Executive Order 11821, OMB Circular A-107, and interim guidelines issued April 1, 1975, by the Department of Health, Education, and Welfare. A copy of the inflation impact assessment is on file with the Hearing Clerk, Food and Drug Administration, at the address below.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463 as amended (21 U.S.C. 357)) and under authority delegated to him (21 CFR 2.120), the Commissioner proposes to amend Parts 436 and 444 as follows:

§ 436.33 [Amended]

1. Part 436 is amended in § 436.33 *Safety test*, paragraph (b), by deleting the entry for "Streptonicozid sulfate" from the table therein.

2. Part 444 is amended:

a. By revising § 444.70a to read as follows:

§ 444.70a Sterile streptomycin sulfate.

(a) *Requirements for certification—(1) Standards of identity, strength, quality, and purity.* Sterile streptomycin sulfate is the sulfate salt of a kind of streptomycin or a mixture of two or more such salts. It is so purified and dried that:

(i) Its potency is not less than 650 micrograms and not more than 850 micrograms of streptomycin per milligram. If it is packaged for dispensing, its content is satisfactory if it is not less than 90 percent and not more than 115 percent of the number of milligrams of streptomycin that it is represented to contain.

(ii) It is sterile.

(iii) It is nonpyrogenic.

(iv) It passes the safety test.

(v) It contains no histamine or histamine-like substances.

(vi) Its loss on drying is not more than 5.0 percent.

(vii) Its pH in an aqueous solution containing 200 milligram per milliliter is not less than 4.5 and not more than 7.0.

(viii) It passes the identity test.

(2) *Labeling.* It shall be labeled in accordance with the requirements of § 432.5 of this chapter.

### PROPOSED RULES

(3) *Requests for certification; samples.* In addition to complying with the requirements of § 431.1 of this chapter, each such request shall contain:

(i) Results of tests and assays on the batch for potency, sterility, pyrogens, safety, histamine, loss on drying, pH, and identity.

(ii) Samples required:

(a) If the batch is packaged for repackaging or for use in manufacturing another drug:

(1) For all tests except sterility: 10 packages, each containing approximately 500 milligrams.

(2) For sterility testing: 20 packages, each containing approximately 300 milligrams.

(b) If the batch is packaged for dispensing:

(1) For all tests except sterility: A minimum of 12 immediate containers.

(2) For sterility testing: 20 immediate containers, collected at regular intervals throughout each filling operation.

(b) *Tests and methods of assay—(1) Potency.* Proceed as directed in § 436.106 of this chapter, preparing the sample for assay as follows: Dissolve an accurately weighed sample in sufficient sterile distilled water to give a stock solution of convenient concentration; and also, if it is packaged for dispensing, reconstitute as directed in the labeling. Then, using a suitable hypodermic syringe and needle, remove all of the withdrawable contents from each container represented as a single-dose container; or, if the labeling specifies the amount of potency in a given volume of the resultant preparation, withdraw an accurately measured representative portion from each container. Accurately dilute the sample thus obtained with sterile distilled water to give a stock solution of convenient concentration. Further dilute an aliquot of the stock solution with sterile distilled water to the reference concentration of 30 micrograms of streptomycin per milliliter (estimated).

(2) *Sterility.* Proceed as directed in § 436.20 of this chapter, using the method described in paragraph (e)(1) of that section.

(3) *Pyrogens.* Proceed as directed in § 436.32(b) of this chapter, using a solution containing 10 milligrams of streptomycin per milliliter.

(4) *Safety.* Proceed as directed in § 436.33 of this chapter.

(5) *Histamine.* Proceed as directed in § 436.35 of this chapter.

(6) *Loss on drying.* Proceed as directed in § 436.200(b) of this chapter.

(7) *pH.* Proceed as directed in § 436.202 of this chapter, using a solution containing 200 milligrams per milliliter.

(8) *Identity—(1) Reagents.* (a) 10 percent ferric chloride stock solution: Dissolve 5 grams of FeCl<sub>3</sub>·6H<sub>2</sub>O in 50 milliliters of 0.1N HCl.

(b) 0.25 percent ferric chloride solution: Dilute 2.5 milliliters of 10 percent ferric chloride in 0.1N HCl to 100 milliliters with 0.01N HCl. Prepare the solution fresh daily.

(ii) *Procedure.* Using distilled water, dilute the sample to be tested to a concentration of approximately 1,000 micro-

grams per milliliter. To 5.0 milliliters of this solution, add 2.0 milliliters of 1N NaOH and heat in a boiling water bath for 10 minutes. Cool in ice water for 3 minutes and then acidify the solution by adding 2.0 milliliters of 1.2N HCl. Add 5.0 milliliters of 0.25 percent ferric chloride reagent. A violet color indicates the presence of streptomycin.

§ 444.72a [Revoked]

b. By revoking § 444.72a *Sterile streptonicozid sulfate*.

§ 444.170a [Revoked]

c. By revoking § 444.170a *Streptomycin-polymyxin-bacitracin tablets*.

d. By revising § 444.270a to read as follows:

§ 444.270a Sterile streptomycin sulfate.

The requirements for certification and the tests and methods of assay for sterile streptomycin sulfate, packaged for dispensing, are described in § 444.70a.

e. By revising § 444.270b to read as follows:

§ 444.270b Streptomycin sulfate injection.

(a) *Requirements for certification—(1) Standards of identity, strength, quality, and purity.* Streptomycin sulfate injection is an aqueous solution of streptomycin sulfate. It may contain one or more suitable and harmless buffer substances and stabilizing agents. Each milliliter contains streptomycin sulfate equivalent to 400 milligrams, 420 milligrams, or 500 milligrams of streptomycin. Its potency is satisfactory if it is not less than 90 percent and not more than 115 percent of the number of milligrams of streptomycin that it is represented to contain. It is sterile. It is nonpyrogenic. It passes the safety test. It contains no histamine or histamine-like substances. Its pH is not less than 5.0 and not more than 8.0. The streptomycin sulfate used conforms to the standards prescribed by § 444.70a(a)(1).

(2) *Labeling.* It shall be labeled in accordance with the requirements of § 432.5 of this chapter.

(3) *Requests for certification; samples.* In addition to complying with the requirements of § 431.1 of this chapter, each such request shall contain:

(i) Results of tests and assays on:

(a) The streptomycin sulfate used in making the batch for potency, histamine, loss on drying, pH, and identity.

(b) The batch for potency, sterility, pyrogens, safety, histamine (except that the results of this test performed on the streptomycin sulfate used in making the batch may be submitted instead), and pH.

(ii) Samples required:

(a) The streptomycin sulfate used in making the batch: 10 packages, each containing approximately 500 milligrams.

(b) The batch:

(i) If the batch is packaged for use in the manufacture of another drug:

(1) For all tests except sterility: Five containers, each containing not less than 2.0 milliliters.

## PROPOSED RULES

(ii) For sterility testing: 20 containers, each containing not less than 2.0 milliliters.

(2) If the batch is packaged for dispensing:

(i) For all tests except sterility: A minimum of eight immediate containers. (ii) For sterility testing: 20 immediate containers, collected at regular intervals throughout each filling operation.

(b) *Tests and method of assay*—(1) *Potency*. Proceed as directed in § 436.106 of this chapter, preparing the sample for assay as follows: Using a suitable hypodermic syringe and needle, remove all of the withdrawable contents if it is represented as a single-dose container; or if the labeling specifies the amount of potency in a given volume of the resultant preparation, remove an accurately measured representative portion from each container. Accurately dilute the portion with sterile distilled water to give a stock solution of convenient concentration. Further dilute an aliquot of the stock solution with sterile distilled water to the reference concentration of 30 micrograms of streptomycin per milliliter (estimated).

(2) *Sterility*. Proceed as directed in § 436.20 of this chapter, using the method described in paragraph (e)(1) of that section.

(3) *Pyrogens*. Proceed as directed in § 436.32(b) of this chapter, using a solution containing 10 milligrams of streptomycin per milliliter.

(4) *Safety*. Proceed as directed in § 436.33 of this chapter, except use a test dose concentration of 1.5 milligrams per milliliter in lieu of 2.0 milligrams per milliliter.

(5) *Histamine* (the histamine test may be omitted if it is performed on the streptomycin sulfate used in preparing the injection). Proceed as directed in § 436.35 of this chapter.

(6) *pH*. Proceed as directed in § 436.202 of this chapter, using the undiluted solution.

§§ 444.270c, 444.570, 444.570a, 444.570b, 444.570c [Revoked]

f. By revoking §§ 444.270c. Streptomycin sulfate for injection, 444.570 Streptomycin dermatologic dosage forms, 444.570a Streptomycin ointment; dihydrostreptomycin ointment, 444.570b Streptomycin for topical use; streptomycin with (the blank being filled in with the name of the vehicle if a packaged combination) for topical use, and 444.570c Streptomycin-bacitracin - polymyxin gauze pads.

Interested persons may, on or before July 19, 1976, submit to the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate and identified with the Hearing Clerk docket number found in brackets in the heading of this document) regarding this proposal. Received comments may be seen in the above of-

file during working hours, Monday through Friday.

Dated: May 12, 1976.

SAM D. FINE,  
Associate Commissioner  
for Compliance.

## Office of Education

[ 45 CFR Part 182a ]

## ALCOHOL AND DRUG ABUSE EDUCATION PROGRAM

## Proposed Rulemaking

Pursuant to the authority contained in the Alcohol and Drug Abuse Education Act (Pub. L. 93-422, 21 U.S.C. 1001 through 1007), notice is hereby given that the Commissioner of Education, with the approval of the Secretary of Health, Education, and Welfare, proposes to issue regulations to carry out programs for the prevention of and early intervention in alcohol and drug abuse.

The Office of Education, under the Alcohol and Drug Abuse Education Program, will make funds available to local public and private educational agencies and community-based public and private nonprofit agencies, institutions, and organizations to defray the cost of teams attending regional training centers to learn how to develop and administer alcohol and drug abuse prevention and early intervention programs. After training at the regional training centers (supported by the U.S. Office of Education), the teams will return to their respective schools and communities to carry out programs to meet local needs.

These proposed regulations do not cover matters relating to general fiscal and administrative matters which are covered under the overall Office of Education General Provisions Regulations, published in the *Federal Register* on November 6, 1973 in 38 FR 30664.

As required by section 431(a) of the General Education Provisions Act (20 U.S.C. 1232(a)) and section 503 of the Education Amendments of 1972, a citation of statutory or other legal authority for each section of the regulations has been placed in parentheses on the line following the text of the section.

On occasion, a citation appears at the end of a subdivision of the section. In that case, the citation refers to all that appears in that section between the citation and the preceding citation. When the citation appears only at the end of the section, it applies to the entire section.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed regulations to the National Alcohol and Drug Education Program, U.S. Office of Education, Room 2049, Federal Office Building 6, 400 Maryland Avenue SW., Washington, D.C. 20202. Responses to this notice may be inspected by the

public at the above office Monday through Friday between 8:30 a.m. and 4:00 p.m.

All comments, suggestions, or objections to be considered must be received not later than June 17, 1976.

Dated: April 6, 1976.

T. H. BELL,  
U.S. Commissioner  
of Education.

(Catalog of Federal Domestic Assistance Program No. 13.420, Drug Abuse Education)

Approved: May 12, 1976.

MARJORIE LYNCH,  
Acting Secretary of  
Health, Education, and Welfare.

As proposed Part 182a reads as follows:

## PART 182a—NATIONAL ALCOHOL AND DRUG ABUSE PREVENTION PROGRAM

## Subpart A—General

Sec. 182a.1 Scope.  
182a.2 Definitions.  
182a.3 Technical assistance.

Subpart B—Alcohol and Drug Abuse Prevention and Early Intervention Program for Elementary and Secondary School Students and Educational Personnel

182a.11 Scope and purpose of training.  
182a.12 Eligible applicants.  
182a.13 Application requirements.  
182a.14 Funding criteria.  
182a.15 Composition of teams.  
182a.16 Team activities.  
182a.17 Coordinator.  
182a.18 Allowable costs.

Subpart C—Help Communities Help Themselves Program

182a.21 Purpose.  
182a.22 Eligible applicants.  
182a.23 Selection of applications.  
182a.24 Application requirements.  
182a.25 Funding criteria.  
182a.26 Composition of teams.  
182a.27 Team activities.  
182a.28 Allowable costs.

## Subpart A—General

§ 182a.1 Scope.

(a) The Commissioner is authorized to carry out a program of making grants to and contracts with institutions of higher education, State and local educational agencies, and public and private educational or community agencies, institutions, and organizations to support and evaluate demonstration projects, to encourage the establishment of these projects throughout the Nation, to train educational and community personnel, and to provide technical assistance in program development. In carrying out such a program, the Commissioner of Education will give priority to school-based programs and projects.

(b) Programs and projects authorized under this part may include:

(1) Projects for the development, testing, evaluation, and dissemination of exemplary materials for use in elementary, secondary, adult, and community education programs, and for training in the selection and use of these materials;

(2) Comprehensive demonstration programs which focus on the causes of drug and alcohol abuse rather than on the symptoms; which include both schools and the communities where the schools are located; which emphasize the affective as well as the cognitive approach; which reflect the specialized needs of communities; and which include, in planning and development, school personnel, the target population, community representation, and parents;

(3) Creative primary prevention and early intervention programs in schools, utilizing an interdisciplinary "school team" approach, developing in educational personnel and students skills in planning and conducting comprehensive prevention programs which include such activities as training drug and alcohol education specialists and group leaders, peer group and individual counseling, and student involvement in intellectual, cultural, and social alternatives to drug and alcohol abuse;

(4) Preservice and inservice training programs on drug and alcohol abuse prevention for teachers, counselors, and other educational personnel, law enforcement officials, and other public service and community leaders and personnel;

(5) Community education programs on drug and alcohol abuse, especially for parents and others in the community;

(6) Programs or projects to recruit, train, organize, and employ professionals and other persons, including former drug and alcohol abusers and former drug and alcohol-dependent persons, to organize and participate in programs of public education in drug and alcohol abuse; and

(7) Projects for the dissemination of valid and effective school and community drug and alcohol abuse educational programs.

(c) Program and projects authorized under this part may include bilingual activities.

(d) Assistance provided under this part is subject to applicable provisions contained in Subchapter A of this Chapter (relating to fiscal, administrative, property management, recordkeeping and other matters in 45 CFR 100a).

(21 U.S.C. 1001-1007)

## § 182a.2 Definitions.

(a) "Community" means a group of individuals within identifiable geographic boundaries with common needs, goals, or purposes. A community may include a town, neighborhood, rural area, or a school district, college campus, or military base.

(b) "Drug" means any chemical substance which affects a person in such a way as to bring about psychological, emotional, or behavioral change.

(c) "Alcohol and drug abuse education" means a broad range of concerted activities which attempt to maximize opportunities for the intellectual, emotional, psychological, and physiological development of individuals, which involve the total educational process embracing both cognitive and affective do-

main, and which focus on the root causes of alcohol and drug abuse instead of the symptoms.

(d) "Prevention" means a constructive process designed to prevent physical, mental, or social impairment resulting from the use of chemical substances, and to promote personal and social growth to full human potential as a means of reducing the probability of destructive drug use.

(e) "Local educational agency" means a public board of education or other public authority legally constituted within a State for either administrative control or direction of or to perform a service function for public elementary or secondary schools in a city, county, township, school district, or other political subdivision of a State, or such combinations of school districts and counties as are recognized in a State as an administrative agency for its public elementary or secondary schools. The term also includes any other public institution or agency having administrative control and direction of a public elementary or secondary school.

(f) "Private educational agency" means a school or schools which are controlled by other than a public authority, and which either comply with the State compulsory attendance laws or are otherwise recognized by some procedure customarily used in the State.

(21 U.S.C. 1002)

## § 182a.3 Technical assistance.

(a) (1) The Secretary will provide, if requested, technical assistance to local educational agencies, public and private nonprofit organizations, and institutions of higher education for the purpose of developing and implementing alcohol and drug abuse prevention education programs.

(2) The Attorney General will provide, if requested, technical assistance to these agencies, organizations, and institutions on matters of law enforcement in the area of alcohol and drug abuse.

(b) Technical assistance may include providing information regarding effective methods of coping with problems of alcohol and drug abuse and providing personnel of the Department of Health, Education, and Welfare, the Department of Justice, or other persons qualified to assist in coping with these problems or carrying out alcohol and drug abuse prevention education programs.

(21 U.S.C. 1004)

Subpart B—Alcohol and Drug Abuse Prevention and Early Intervention Program for Elementary and Secondary School Students and Educational Personnel

## § 182a.11 Scope and purpose of training.

The purpose of this subpart is to provide training and technical assistance to local public and private educational agencies to enable teams of educational personnel from these agencies to participate in training programs so that they may effectively deal with alcohol and drug abuse problems among students in grades 5 through 12; and to enable

trained team members to assist in the development and implementation of alcohol and drug abuse prevention and early intervention programs. The training that these team members will receive will emphasize the understanding of alcohol and drug use and abuse problems among students and approaches for dealing with these problems in a school setting, the development of communication and leadership skills, alternatives to alcohol and drugs, needs assessment and utilization of local resources, and team building. This training will be without cost to the participating teams.

(21 U.S.C. 1002)

## § 182a.12 Eligible applicants.

Parties eligible to receive funds under this subpart are local public and private educational agencies.

(21 U.S.C. 1002)

## § 182a.13 Application requirements.

(a) Applications for assistance under this subpart shall be submitted to the regional training centers supported by the U.S. Office of Education before the closing date for such applications established annually by the Commissioner. The regional training center shall evaluate the applications on the basis of the criteria set forth in § 182a.14 and shall make recommendations to the Commissioner as to which applicants should be selected to receive training.

(b) Applications for assistance under this subpart shall contain the following information and other information the Commissioner may from time to time prescribe:

(1) A description of the applicant agency's size, number of students, and number of schools;

(2) A description of the community in which the applicant agency is located in terms of:

(i) Geographic size;

(ii) Whether it is urban, suburban, or rural;

(iii) Number and types of ethnic groups residing in the area;

(iv) The number of persons with limited English-speaking ability residing in the area; and

(v) Community socioeconomic profile.

(3) An assessment of the extent of the alcohol and drug abuse problem in the schools and community to be served;

(4) A description of the applicant's present alcohol and drug abuse education program;

(5) A list of the groups or organizations which will participate in the implementation of the program;

(6) A description of the team members including their current positions and experience which will enable them to carry out an alcohol and drug abuse prevention program effectively;

(7) A description of how team members will be utilized after training to develop a new or modify an existing alcohol and drug abuse prevention program; and

(8) A description of the support, both administrative and financial, which the

applicant will make available to the team to facilitate its alcohol and drug abuse prevention activities after training.

(c) Applicants shall assure that: (1) Team members will be available to participate on a team basis in the development and administration of school alcohol and drug abuse education programs in the local school district upon completion of training at the regional training centers;

(2) Reports shall be submitted in such a form and containing such information as the Commissioner may reasonably require;

(3) They will maintain records and afford access to them as the Commissioner may find necessary to assure the correctness and verification of the reports; and

(4) Federal funds made available under this subpart will be used to supplement and, to the extent practical, increase the level of funds that would, in the absence of the Federal funds, be made available by the applicant for the purposes of this program, and in no case supplant these funds.

(d) An applicant local educational agency shall submit a copy of its application to its State educational agency. The State educational agency shall, not more than thirty days after the date of receipt of the application, submit its written comments on the application to the Commissioner and to the applicant.

(21 U.S.C. 1002)

#### § 182a.14 Funding criteria.

(a) In addition to the criteria set forth in 45 CFR 100a.26(b), the Commissioner will utilize the following additional criteria in evaluating applications for funds under this subpart:

(1) The extent of the alcohol and drug abuse problem in the schools and local community to be served;

(2) The extent to which team membership includes persons who have demonstrated leadership capabilities;

(3) The extent to which the proposed alcohol and drug abuse prevention and early intervention program activities of the applicant are addressing or will address unmet alcohol and drug abuse problems in the schools and local communities to be served;

(4) The extent to which alcohol and drug abuse prevention and early intervention efforts by the applicant will be coordinated with related efforts in the schools and communities served by the applicant;

(5) The degree of the applicant's commitment to support and facilitate the alcohol and drug abuse education activities of the team after training is completed as demonstrated by the applicant's stated intent to support these activities administratively and financially; and

(6) The extent and manner in which the team will be utilized after training in the development and administration of alcohol and drug abuse prevention and early intervention programs in the schools of the applicant educational agency.

(b) In the awarding of funds under this subpart, the Commissioner will take into consideration the extent to which the funds will be distributed throughout the Nation among school systems of varying characteristics such as geographic size, ethnic composition, concentration of persons with limited English-speaking ability, and socioeconomic levels in urban, suburban, and rural areas.

(21 U.S.C. 1002)

#### § 182a.15 Composition of teams.

(a) Teams for which assistance is provided to receive training in alcohol and drug abuse prevention and early intervention at regional training centers supported by the U.S. Office of Education shall be composed of educational personnel including school administrators, counselors, teachers, psychologists, school board members, paraprofessionals, and other persons providing education services in the school system on a full-time basis regardless of whether they are employees of the school system.

(b) Each team shall be composed of five persons except that a six-member team will be permitted if one of the persons is a school board member.

(c) Each team shall include at least one administrator, one teacher, and one counselor or school psychologist. Team members may represent various schools within the educational agency.

(21 U.S.C. 1002)

#### § 182a.16 Team activities.

After training, teams will return to their school districts to develop and carry out alcohol and drug abuse prevention programs to meet local needs. Programs developed by the teams could include activities such as: Peer counseling, individual counseling, inservice training for teachers, workshops for parents, alternatives to alcohol and drug abuse, community education workshops, alternative education activities, curriculum development, communication skills and problem-solving workshops, referral services, drop-in centers, fund raising and resource mobilization.

(21 U.S.C. 1002)

#### § 182a.17 Coordinator.

One team member, who shall be a full-time employee of the grantee, shall be designated as the program coordinator. He or she shall:

(a) Coordinate the planning and implementation of alcohol and drug abuse and early intervention education programs in the school or schools of the grantee agency;

(b) Serve as liaison on matters relating to the implementation of the program between the regional training center and the grantee; and

(c) Submit to the training center quarterly progress and final technical reports so that the center may provide appropriate technical assistance.

(21 U.S.C. 1002)

#### § 182a.18 Allowable costs.

(a) Funds received by local educational agencies under this subpart may be used to pay:

(1) The cost of travel of team members to and from the U.S. Office of Education supported regional training centers;

(2) The cost of providing substitute teachers, thereby permitting the teacher members of the team to be trained;

(3) An amount to be determined annually by the Commissioner not exceeding \$6,000 to permit the grantee to pay for part of the salary of the coordinator and/or team members to implement the program in the grantee agency for twelve months following training; and

(4) Hardship expenses for individual team members deemed to be reasonable by the Commissioner; i.e., expenses which, if not reimbursed, would prevent a team member from participating, such as baby sitting expenses.

(b) Funds received under this subpart by a private educational agency may be used to pay:

(1) The cost of travel of team members to and from the U.S. Office of Education supported regional training centers; and

(2) Hardship expenses for individual team members deemed to be reasonable by the Commissioner; i.e., expenses which, if not reimbursed, would prevent a team member from participating, such as baby sitting expenses.

(21 U.S.C. 1002)

#### Subpart C—Help Communities Help Themselves Program

#### § 182a.21 Purpose.

The purpose of this subpart is to provide leadership training and technical assistance to teams from local communities in order that they may develop and implement alcohol and drug abuse prevention programs to effectively deal with alcohol and drug abuse problems in their communities. The training that these team members will receive will emphasize leadership, communication, and planning skills needed to:

(a) Assess alcohol and drug abuse problems in their communities;

(b) Mobilize community resources; and

(c) Develop and administer coordinated community programs. The training will be without cost to the participating teams.

(21 U.S.C. 1002)

#### § 182a.22 Eligible applicants.

Parties eligible for participation under this subpart are community-based public and private nonprofit agencies, institutions, and organizations.

(21 U.S.C. 1002)

#### § 182a.23 Selection of applications.

(a) Applications for assistance under this subpart shall be submitted to the regional training centers supported by the U.S. Office of Education before the closing date for these applications established annually by the Commissioner. The regional training center shall evaluate the applications on the basis of the

criteria set forth in § 182a.25 and shall make recommendations to the Commissioner as to which applicants should be selected to receive training.

(b) In the selection of applicants under this subpart, the Commissioner will take into consideration the recommendations of the training centers and the extent to which the applicants selected will reflect a distribution throughout the Nation among communities of varying characteristics such as geographic size, ethnic composition, concentration of persons with limited English-speaking ability, and socioeconomic levels in urban, suburban, and rural areas.

(21 U.S.C. 1002)

#### § 182a.24 Application requirements.

(a) Applications for assistance under this subpart shall contain the following information and such other information as the Commissioner may from time to time prescribe:

(1) A description of the applicant agency in terms of its organization, size, and capability to administer an alcohol and drug abuse prevention program;

(2) A description of the community in which the applicant agency is located in terms of:

(i) Geographic size;

(ii) Whether it is urban, suburban, or rural;

(iii) Number and types of ethnic groups residing in the area;

(iv) The number of persons with limited English-speaking ability residing in the area; and

(v) Community socioeconomic profile;

(3) A description of the alcohol and drug abuse problem in the community and a description of the activities of the organizations, agencies, or institutions which are dealing with the present alcohol and drug abuse problems;

(4) A list of the groups or organizations which will participate in the implementation of the program, following the training of team members;

(5) A list of the population groups within the community which would be affected by the implementation of alcohol and drug abuse prevention programs by the team;

(6) A description of the team members including their current positions and their experience and leadership capabilities which will enable them to carry out an alcohol and drug abuse prevention program effectively;

(7) A description of how team members will be utilized after training to develop a new or modify an existing alcohol and drug abuse prevention program; and

(8) A description of the support, both administrative and financial, which the applicant will make available to the team to facilitate its alcohol and drug abuse prevention activities after training.

(b) Applicants shall assure that:

(1) Reports shall be submitted in such a form and containing information the Commissioner may reasonably require; and

(2) They will maintain records and afford access to them as the Commissioner may find necessary to assure the correctness and verification of the reports.

(21 U.S.C. 1002)

#### § 182a.25 Funding criteria.

In addition to the criteria set forth in 45 CFR 100a.26(b), the following additional criteria will be utilized in evaluating applications for selection under this subpart:

(a) The extent of the alcohol and drug abuse problem in the local community to be served;

(b) The extent to which team membership includes persons who have demonstrated leadership capabilities;

(c) The extent to which the proposed program activities address unmet alcohol and drug abuse prevention needs in the local community to be served;

(d) The extent to which alcohol and drug abuse prevention efforts by the applicant will be coordinated with related efforts in the schools and communities served by the applicant;

(e) The degree of the applicant's commitment to support and facilitate the alcohol and drug abuse education activities of the team after training is completed as demonstrated by the applicant's stated intent to support these activities administratively and financially; and

(f) The extent and manner in which the team will be utilized after training in the development and administration of drug abuse prevention programs in the community.

(21 U.S.C. 1002)

#### § 182a.26 Composition of teams.

(a) Teams for which assistance is provided to receive training at regional training centers supported by the U.S. Office of Education shall be composed of five to seven members representing a variety of professions and experience, who are representatives of the community and are capable of functioning together as a team within the community.

(b) In the selection of team members, priority should be given to persons who have demonstrated leadership within their community prior to selection and who, in the past, have demonstrated concern for or interest in alcohol and drug abuse problems.

(c) Each team selected shall have:

(1) One member who is directly involved with elementary and secondary education, preferably in a decision-making capacity; and

(2) At least one but not more than two youth representatives, these youth representatives shall not be less than 18 years of age.

(d) The applicant organization will be responsible for the selection of team members and alternate team members. If a person selected as a team member is unable to undergo training, his or her place shall be taken by an alternate with similar attributes and experiences.

(e) Each person selected by the applicant organization shall be available to work with the leadership team in the development and administration of an alcohol and drug abuse education program upon returning from the training sessions.

(f) The applicant organization will designate one member of the team as liaison between the applicant organization and the regional training development resource center, and between the applicant organization and the Office of Education.

(21 U.S.C. 1002)

#### § 182a.27 Team activities.

After training, teams will return to their communities to develop and carry out alcohol and drug abuse prevention programs to meet local needs. The following types of activities may be carried out: Community education workshops, drop-in centers, group and individual counseling, parent workshops, alternatives to alcohol and drug abuse, communication skills and problem-solving workshops, court diversion, teacher training, interagency coordination, student training, referral services, fund raising and resource mobilization.

(21 U.S.C. 1002)

#### § 182a.28 Allowable costs.

The Commissioner will pay the following costs through the regional training centers:

(a) Travel of team members to and from the regional training centers; and

(b) Hardship expenses for individual team members deemed to be reasonable by the Commissioner; i.e., expenses which, if not reimbursed, would prevent a team member from participating, such as baby sitting expenses.

(21 U.S.C. 1002)

[FR Doc. 76-14338 Filed 5-17-76; 8:45 am]

#### FEDERAL MARITIME COMMISSION

[46 CFR Part 502]

[General Order 16; Docket No. 76-27]

#### RULES OF PRACTICE AND PROCEDURE

##### Notice of Proposed Rulemaking

The Commission has been engaged in a continuing effort to improve its rules of practice and procedure with a special view toward expediting proceedings. In the area of rate proceedings, for instance, the Commission observed that despite the statutory requirement that such proceedings be expedited and the fact that the Commission's authority to suspend rate changes is limited to a four-month period, such proceedings consume months and even years to complete. In some instances, furthermore, a carrier may even file new rates before the lawfulness of the preceding rates under investigation can be determined.

Accordingly, the Commission proposed a rule in Docket No. 75-36, Miscellaneous Amendments to Rules of Practice and Procedure, 40 FEDERAL REGISTER 43925,

V  
4

I

which would have established a specially expedited procedure designed to avoid lengthy evidentiary hearings, if possible, where it appeared that the issues were primarily legal rather than factual. The proposed rule was criticized in certain respects regarding specific standards incorporated therein although it was acknowledged that the basic purpose of the proposed rule was salutary. Therefore, by separate notice issued in Docket No. 75-36, we are withdrawing that proposed rule. However, since the Commission believes that there continues to be a need to improve procedures in these proceedings, the Commission is now proposing a revised rule eliminating the objectionable features of the previous one. Essentially, the procedure established by this rule would require the carrier to submit additional information in the form of its direct case, comparable information would be submitted by parties protesting the rate changes, underlying materials would be exchanged, and discussions held with a view toward resolving as many issues as possible and making appropriate recommendations to the Commission as to what, if any, subsequent proceedings would be necessary to determine unresolved issues.

Another source of delay which the Commission has observed is that caused by uncertainty as to the extent of the authority of the presiding officer to delineate the scope of a proceeding instituted by order of the Commission and to limit the issues framed therein. Although presently the presiding officer is authorized to interpret the Commission's order, in some instances parties may be able to circumvent his rulings by asking the Commission itself to "clarify" its order. In other instances, it is not clear whether the presiding officer has merely interpreted the order rather than modified or amended it or whether the parties are seeking interpretations, amendments, or modifications. Consequently no one is certain as to the proper means of disposing of the problems involved. Furthermore, if the parties are free to seek relief directly from the Commission whenever such problems arise without leave of the presiding officer, the orderly progress of the proceeding is disrupted. By authorizing the presiding officer to make definitive rulings as to the scope of the proceeding and the issues, whether by modifying, amending, interpreting, or clarifying the Commission's order, this uncertainty is eliminated and the parties are able to proceed under the presiding officer's rulings forthwith.<sup>1</sup> Like any other of his rulings, of course, any party may seek his leave to appeal pursuant to Rule 10(m), 46 CFR 502.153, and in case the ruling constitutes a dismissal of the proceeding in whole or in

<sup>1</sup> It is especially important that he be able to make definitive rulings regarding the scope of the proceeding at an early phase of the proceeding since such rulings will govern the use of the Commission's prehearing discovery procedures. He will not, of course, be authorized to alter any Commission decision to exercise or refrain from exercising the Commission's suspension authority.

part, an aggrieved party has an automatic right to appeal.

Finally, the Commission has become aware of a defect in its rules pertaining to the issuance of subpoenas in connection with the taking of depositions. The problem arises because under the present rules, a person to be deposed may file a motion to quash a subpoena within 10 days after service thereof or apparently even at the time specified for the taking of the deposition (Rule 9(b), 46 CFR 502.132(a)) or may file a motion for a protective order if the motion is "seasonably made" (Rule 12(b), 46 CFR 502.204(b)). The latter rule also requires no minimum notice for the taking of a deposition, since the party desiring to take a deposition need only give "reasonable notice in writing" to the proposed deponent and the parties. The rules as presently constituted give no consideration to problems which may arise when a party seeks to take a deposition but makes no allowance for the possibility that an opposing motion may be filed within 10 days after service of a subpoena or "seasonably" or even at the time of the deposition. Usually, rulings should be made by the presiding officer well in advance of the time scheduled for the taking of the deposition so that parties intending to participate in the deposition proceeding, which may be at a distant location, will know before making travel plans whether the deposition will be taken as scheduled and, if so, under what conditions. Nevertheless, the rules, as presently constituted, are so unstructured as to leave the parties without guidelines as to how they are supposed to obtain necessary rulings in sufficient time in the event that the parties cannot agree on the time, location, and conditions under which the deposition is to be taken.<sup>2</sup> In order to aid parties in the use of the deposition device, the proposed rules would establish such procedural guidelines. In the event that the normal time requirements established by the rule cannot be met (such as when a witness is about to leave the country) or if delay in the mails interferes with the timely receipt of pertinent pleadings of if the parties request or circumstances warrant more rapid resolution of issues, the presiding officer is not prevented by the proposed rules from utilizing other procedures, e.g., by summoning the parties to a meeting for the purpose of making rulings necessary to prevent delay or undue inconvenience, pursuant to Rule 12(a), 46 CFR 502.201(b)(2).

Therefore, pursuant to section 4 of the Administrative Procedure Act (5 U.S.C.

<sup>2</sup> Good practice would seem to dictate that any counsel desiring to take a deposition especially where travel is involved, would contact opposing counsel to arrange a convenient time and location and to resolve other issues which may arise or agree upon a procedure to seek appropriate rulings in advance of the taking of the deposition. The proposed rules are necessary, however, because counsel have not always followed such practice in which event the present rules establish no procedures which would insure that timely rulings could be obtained.

553), sections 27 and 43 of the Shipping Act, 1916 (46 U.S.C. 826, 841(a)), and section 3 of the Intercoastal Shipping Act, 1933 (46 U.S.C. 845), Part 502 of Title 46, Code of Federal Regulations, is proposed to be amended as set forth below.

1. Section 502.67 is proposed to be amended by adding a new paragraph (c) as follows:

§ 502.67 Proceedings under section 3 of the Intercoastal Act.

(c) Whenever a carrier files with the Federal Maritime Commission a tariff or tariffs containing rate increases or decreases as defined in § 512.3(d) (1) of this chapter, the Commission may determine that the matter will be decided under a specially expedited procedure and will issue an order to that effect. Such order will require that the carrier furnish by a specified date information supplemental to that required by § 512.3(d) and consisting of the exhibits and statements of direct testimony in support of the rate changes and, if warranted, other information responsive to the issues raised by the Commission's staff or protestants, if any, and may also require that parties protesting the rate changes file by the same or a later date comparable information supporting their positions supplemental to that required by paragraph (a) of this rule. Such order may additionally require that the parties exchange the above materials among themselves and provide each other access to underlying materials in support thereof and direct the parties to discuss the issues, attempt to reach stipulations or settlements, and submit individual or joint recommendations to the Commission by a specified date identifying all unresolved issues and specifying the type of procedure best suited to resolve them. After consideration of these recommendations, the Commission will issue an appropriate order limiting the issues and establishing the procedure for their resolution or, alternatively, refer the matter to the Office of Administrative Law Judges for the establishment of such a procedure. To the extent possible, evidentiary hearings, if such are necessary, shall be held in one continuous session and shall be completed and the record closed no later than four months after the carrier's proposed effective date of the rate changes.

§ 502.147 [Amended]

2. Section 502.147(a) is proposed to be amended by inserting the following words between the semicolon following the word "pleadings" and the word "Hold": "delineate the scope of a proceeding instituted by order of the Commission by amending, modifying, clarifying or interpreting said order, except with regard to that portion of any order involving the Commission's suspension authority set forth in Section 3, Intercoastal Shipping Act, 1933."

§ 502.132 [Amended]

3. a. Section 502.132(a) is proposed to be amended by inserting the following

words between the comma following the word "hearing" and the word "within": "or in connection with the taking of a deposition."

b. Section 502.132 is proposed to be amended further by adding a new paragraph (c) as follows:

(c) If served in connection with the taking of a deposition pursuant to § 502.204, unless otherwise ordered by the presiding officer, the party who has requested the subpoena shall arrange that it be served at least twenty (20) days prior to the date specified in the subpoena for compliance therewith, the person to whom the subpoena is directed may move to quash or modify the subpoena within ten (10) days after service of the subpoena, and a reply to such motion shall be served within five (5) days thereafter.

§ 502.204 [Amended]

4. a. Section 502.204(a) is proposed to be amended by revising the first sentence to read as follows:

(a) *Notice of examination: time and place.* A party desiring to take the deposition of any person upon oral examination shall, unless otherwise ordered by the presiding officer, give at least 20-days' notice in writing to such person and to every other party to the action. . . .

b. Section 502.204(b) is proposed to be amended by revising the first sentence through and including the word "shown" to read as follows:

(b) *Orders for the protection of parties and deponents.* After notice is served for taking a deposition by oral examination, unless otherwise ordered by the presiding officer, upon motion by any party or by the person to be examined made within ten (10) days after date of service of the notice of deposition, after consideration of replies to such motion served no later than five (5) days thereafter, and upon notice and for good cause shown, . . .

Interested persons may participate in this rulemaking proceeding by filing with the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before June 18, 1976, an original and fifteen copies of their views or arguments pertaining to the proposed rule.

Since the proposals set forth in this rulemaking proceeding concern procedural matters limited to the conduct of formal proceedings before the Commission, their adoption could in no way be considered to result in major federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.). Consequently no environmental assessment will be undertaken and no environmental impact statement will be issued in this proceeding.

By Order of the Federal Maritime Commission.

[SEAL] FRANCIS C. HURNEY,  
Secretary.

[FR Doc. 76-14430 Filed 5-17-76; 8:45 am]

## FEDERAL RESERVE SYSTEM

[12 CFR Part 226]

[Docket No. R-0036 Reg. Z]

### TRUTH IN LENDING

#### Description of Transactions; Miscellaneous Amendments

On September 19, 1975, the Board published in the FEDERAL REGISTER amendments to Regulation Z setting forth disclosure requirements for identifying transactions reflected on open end credit account periodic statements and for other purposes (40 FR 43200). Since those amendments were adopted, questions have been raised which may require further amendment of the Regulation. Accordingly, the Board is publishing for comment these proposed amendments to Regulation Z which are intended to clarify certain requirements of the Regulation, add flexibility to the requirements as necessary, and insure that consumers are able to procure complete information regarding their open end credit accounts quickly and without undue expense. Although the proposed amendments would have some impact on so-called "country club" billing systems, their main effect would be on creditors who use the so-called "descriptive" billing systems.

#### IDENTIFICATION OF TRANSACTIONS

Under the proposal the requirements for identifying transactions on open end credit periodic statements as required by § 226.7(b)(1)(ii) would be changed in the following ways:

1. To enhance the clarity of the text, a new § 226.7(k) would be added to the Regulation. This new section would contain the requirements for identifying transactions. Section 226.7(b)(1)(ii) would merely reference § 226.7(k) and require that the disclosures set forth therein be made.

2. Presently, § 226.7(b)(1)(ii)(D) requires that, after October 28, 1977, the creditor must provide a reference number or identifying symbol (such as a sales voucher number) which appears on the document evidencing the transaction in those cases in which the primarily required information is not available. Questions have been raised regarding the usefulness in many cases of such a number or symbol to the consumer and regarding the cost to creditors of instituting a capability to capture the number or symbol for potential transmission in all transactions when it may, in fact, be needed for only a few. The proposed amendment would permit a creditor, as at present, to provide an identifying number or symbol when any of the primarily required information is not available. Alternatively, it would permit the creditor to disclose only that information which is available and treat any inquiry regarding the description or identification of the transaction as a billing error and an erroneous billing subject to the provisions of § 226.14. Further, the creditor would be required to provide documentary evidence of the transaction without charge.

This addition to the Regulation is designed to provide an alternative to the requirement that an identifying number or symbol be provided when the primarily required information is not available. It is designed to insure a better and more complete description to the consumer without financial disadvantage, to provide creditors with an alternative to the costly requirement of developing the capability to provide a voucher number for all transactions and to supply an incentive for the creditor to provide a complete description in the first instance. The creditor remains obligated under the proposed language to maintain procedures reasonably adapted to procure the primarily required information.

3. The proposed amendment would provide an alternative similar to that discussed in paragraph 2 for the transition period provided to creditors to adjust forms, procedures, and computer programs which last until October 28, 1977. The regulation as published on September 19, 1975, would have required the creditor to provide an identifying number or symbol when the information regarding the seller's name and address or description of merchandise or services purchased was not available. Further, it would have required the creditor to disclose the date of debiting the credit transaction to the customer's account when the primarily required date is unavailable. This proposal would allow the creditor the alternative of providing that information which is available to him while requiring the creditor to treat any inquiry regarding the identification of the transaction as a billing error and an erroneous billing when the primarily required information is not available of supplying the identifying number or symbol when primarily required information is not available during the transition period.

4. The language regarding the transition period for compliance, which ends October 28, 1977, has been changed in two other respects. First, the language has been changed to further clarify the fact that the alternatives provided in this section are generally available and that creditors do not need to institute procedures reasonably adapted to procure the information which will be required to be disclosed after October 28, 1977, in the first instance during this transition phase.

Second, by a separately adopted amendment of even date, the Board suspends the July 1, 1976, beginning date for the changeover to the transition period which is due to expire October 28, 1977. This is done, because the amendatory process may not be completed in time, without rescinding or repealing the entire § 226.7(b)(1)(ii). Consequently, the requirements currently imposed by § 226.7(b)(1)(ii)(E)(3) will remain in effect until dates for the transition period can be established in accordance with the outcome of the amendatory processes. The Board will supply a new date to be not later than September 1, 1976, for the beginning of this transition

period when this amendatory process is completed. This new date will take into account the added flexibility which may be added by these amendments when determining the lead time necessary for compliance.

5. The proposed amendments would also provide guidance regarding the disclosure of an address in certain types of transactions which are not encompassed within the usual scenario of a purchase made at a fixed seller location. Recognizing that it is often problematic to assign one address or designation which is helpful to customers in all situations. Where the transaction occurs, for example, by telephone or mail order, in the customer's home or at a non-fixed location, such as aboard a public conveyance, the proposed amendments would provide some flexibility. They would permit the creditor to (a) omit the address, which would be especially helpful in cases where supplying an address could, in itself, be misleading, or (b) supply an address or appropriate designation, such as "mail order," which, in the creditor's opinion, is helpful in identifying the transaction or in relating the transaction to a document previously furnished. Use of the disclosure provisions of this paragraph should not be for the purpose of evading or circumventing the Act or Regulation Z, however.

6. Guidance for disclosing the seller's name in certain cases is also provided by the amendment. It would permit the creditor to provide a more complete spelling of a seller's name which has been alphabetically abbreviated on the document evidencing the transaction.

Additionally, when a seller's name has been encoded in a way which is not meaningful to consumers (for example, where only a store number is supplied on a sales voucher), the creditor must provide the code symbol and a more complete spelling of the seller's name. This is intended to provide a basis for identifying the transaction if copies of sales vouchers are not retained or allowing the customer to relate the description to a sales voucher which he may have retained.

7. Proposed footnote 9d (footnote 7c as currently written) has been positioned within the regulation to indicate that all references to "the same person or related persons" in proposed § 226.7(k) are governed by the guidelines set forth in that footnote.

8. The language regarding the disclosure of an identifying number or symbol which appears on the document evidencing the transaction has been changed to indicate that such a number or symbol need be supplied only once even though more than one of the primarily required pieces of information may be unavailable.

9. Recognizing the difficulties of procuring the primarily required information for transactions in foreign countries, the amendment would (a) allow the creditor to disclose the date the amount of the transaction is debited to the customer's account and (b) use the error resolution procedure as discussed

in paragraph (2) in all cases without the obligation to maintain procedures adapted to procure the information in every instance. This provision is meant to be permissive and a creditor may, of course, disregard it and fully comply with the requirements otherwise imposed by § 226.7(k).

#### MISCELLANEOUS AMENDMENTS

1. The proposal would amend § 226.7(b)(1)(ii) to provide that the date of crediting a payment or credit to the customer's account need not be disclosed in those situations where the failure to credit on any particular day will not result in the imposition of any finance charges or other charges upon the customer. This amendment is proposed in the belief that such a disclosure is of little or no value or economic concern to the consumer but does impose a substantial cost upon creditors to make the necessary changeover for their billing systems if they have not provided such a date heretofore. The requirement that payments to a customer's account be credited promptly, however, would not be changed or suspended thereby.

2. The proposal would amend § 226.7(c)(1) to clarify the Board's intent in its publication of September 19, 1975. The proposed language for § 226.7(c)(1) permits certain information to be disclosed other than on the face of a periodic statement provided that the totals of the respective debits and credits under each of the paragraphs referenced therein are disclosed on the face of the periodic statement. Concern had been expressed that the section, as amended by the September 19 publication, requires disclosure of a total of all purchases or other loan transactions and finance charges on the face of the periodic statement. This was not the Board's intent.

3. The proposal amends § 226.13(i) by adding a footnote to paragraph 4 specifically permitting a creditor to report disputed amounts under § 226.13(i) as "in dispute" but not as "delinquent." This is consistent with the treatment of credit reports under § 226.14 and avoids the implication that a creditor must have a dual credit reporting system which would have to reflect the different kinds of disputes that may be raised.

The Board invites written comment on the proposed amendments. In particular, the Board would like to receive comments or information concerning the following:

1. The impact of the proposed changes to the regulation on problems that some consumers and creditors may have regarding transactions which occur in foreign countries.

2. Identification of any special or unusual types of transactions which may present problems of disclosure under the proposed regulations and which should be addressed at this time.

3. The problems of creditors in describing on periodic statements property or services obtained from sellers providing a homogeneous merchandise line or property or services which are difficult to describe by departmental category,

because purchases are made at a central cash register location or for other reasons. Any proposed solutions to those problems should be included.

4. The problems or suggestions consumers may have regarding identifying transactions on their open end credit account statements in general.

The deadline for receipt of written comments on the proposed amendments is June 18, 1976. Comments should be addressed to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551. Comments should include a reference to Docket No. R-0036.

Pursuant to the authority granted in 15 U.S.C. § 1604 (1970) the Board proposes to amend Regulation Z, 12 CFR Part 226, as follows:

1. To fully implement § 411, Title IV, Pub. L. 93-495, § 226.7(b)(1)(ii) would provide, and a new § 226.7(k) would be added, as follows:

§ 226.7 Open End Credit Accounts—  
Specific Disclosures.

(b) Periodic statements required (1) . . . . .

(ii) The information required by § 226.7(k) . . . . .

(k) Identification of transactions (1) . . . . .

Each extension of credit for which an actual copy of the document evidencing the credit transaction (which does not include a so-called "facsimile draft") accompanies the periodic statement on which the transaction is first reflected shall be identified by disclosing on the periodic statement, or on accompanying statement(s) or document(s), the amount of the transaction and either the date of the transaction or the date the transaction is debited to the customer's account.

(2) Each extension of credit for which an actual copy of the document evidencing the credit transaction does not accompany the periodic statement shall be identified by disclosing on or with the periodic statement on which that credit transaction is first reflected at least:

(i) The date on which the transaction took place, and the amount of the transaction; and

(ii) A brief identification of any property or services purchased for trans-

With respect to transactions which are not billed in full on any single statement but for which precomputed installments are billed periodically, the date the transaction takes place for purposes of this paragraph shall be deemed to be the date on which the amount is debited to the customer's account.

For purposes of this paragraph, designations such as "merchandise" or "miscellaneous" shall not be considered sufficient identification of property or services, but a reference to a department in a sales establishment which accurately conveys the identification of the type(s) of property or services which are available in such department shall be sufficient under this paragraph. Identification may be made on an accompanying slip or by symbol relating to an identification list printed on the statement.

actions in which the creditor and the seller are the same person or related persons, or the seller's name (as disclosed on the document evidencing the transaction provided to the customer) and the address (city and State or foreign country, using understandable and generally accepted abbreviations if the creditor so desires) where the transaction took place for transactions in which the creditor and the seller are not the same person or related persons.

(3) Notwithstanding the provisions of §§ 226.7(k)(1) and 226.7(k)(2), transactions involving nonsale credit, such as a cash advance or an overdraft or other checking plan transactions, shall be identified on or with the periodic statement upon which the transaction is first reflected by providing at least:

(i) An actual copy of the document evidencing the transaction which shows the amount of the transaction and either the date of the transaction, the date the transaction was debited to the customer's account, or the date placed on the document or instrument by the customer (if the customer signed the document or instrument); or

(ii) A description of the transaction, which characterizes it as a cash advance, loan, overdraft loan, or other designation as appropriate, and which includes the amount of the transaction and the date of the transaction or the date which appears on the document or instrument evidencing the transaction (if the customer signed the document or instrument).

(4) (i) For any transaction for which any of the information required to be disclosed under §§ 226.7(k)(1), (2), or (3), as applicable, is not available the creditor shall disclose that information which is available and shall:

(A) Without affecting the customer's ability to make inquiry under § 226.14, disclose an identifying number or symbol which appears on the document evidencing the transaction given to or used by the customer at the time of or in connection with the transactions, which identifying number or symbol need only be disclosed once for any transaction; or

For purposes of paragraph 226.7(k) a person is not related to the creditor simply because the person and the creditor have an agreement or contract pursuant to which the person is authorized to honor the creditor's credit card under the terms specified in the agreement or contract. Franchised or licensed sellers of a creditor's product shall be considered to be related to the creditor for purposes of paragraph 226.7(k). Sellers who assign or sell open end customer sales accounts to a creditor or arrange for such credit under an open end credit plan which allows the customer to use the credit only in transactions with that seller shall be considered related to the creditor for purposes of § 226.7(k).

In cases in which an amount is debited to a customer's open end credit account under an overdraft checking plan, the date of debiting the open end credit account shall be considered the date of the transaction for purposes of this paragraph.

(B) Treat the absence of the information required by §§ 226.7(k)(1), (2), or (3), as applicable, as a billing error, as provided in §§ 226.2(j) and 226.14. If a customer submits a proper written notification of a billing error relating to the absence of such information and the information was, in fact, not disclosed as required by §§ 226.7(k)(1), (2), or (3) as applicable, the transaction shall be treated as an erroneous billing under § 226.14(b) and documentary evidence of the transaction must be furnished whether or not the customer requests it (despite the provisions of §§ 226.2(j) and 226.14(a)(2)), within the time period allowed in § 226.14 for resolution of a billing error, without charge to the customer.

(i) The provisions of § 226.7(k)(4)(i) shall not relieve the creditor of responsibility for maintaining procedures reasonably adapted to enable the creditor to obtain the primarily required information at the time the amount of the transaction is transmitted to the creditor for debiting to the customer's account.

(5) In any case in which a transaction occurs other than in a State:

(i) The creditor may disclose the date of debiting the amount of the transaction to the open end credit account in place of any other date required elsewhere in § 226.7(k); and

(ii) The provisions of § 226.7(k)(4)(i) shall apply and the creditor need not maintain procedures reasonably adapted to procure the information otherwise required by § 226.7(k). (6) In complying with the disclosure requirements of paragraphs 226.7(k)(1), (2), (3), or (4):

(A) The creditor may rely upon and disclose the information supplied by the seller with respect to the date and amount of transactions for which the creditor and the seller are not the same person or related persons.

(B) With regard to disclosing the seller's address where the transaction took place for purposes of § 226.7(k)(2)(ii), the creditor may omit the address or provide an address or other suitable designation which, in the creditor's opinion, will assist the customer in identifying the transaction or in relating the transaction, as reflected, to a document(s) evidencing the transaction previously furnished when no meaningful address is readily available because the transaction took place at a location which is not fixed (for example, aboard a public conveyance), or in the customer's home (in which case "customer's home" or a similar description is sufficient) or because the transaction was the result of a mail or telephone order (in which case "telephone order," "mail order," or similar description is sufficient); provided that any such disclosure made or omitted shall not be for the purpose of circumvention or evasion of this Part.

(iii) (A) If the seller's name as required by § 226.7(k)(2)(ii) is alphabetically abbreviated or otherwise incomplete on the document evidencing the

transaction, the creditor may provide a more complete spelling of the seller's name.

(B) If the seller's name as required by § 226.7(k)(2)(ii) is encoded other than by alphabetic abbreviation (for example, by number or symbol not meaningful to the customer) on the document evidencing the transaction, the creditor must disclose the encoded symbol as well as a more complete designation of the seller's name in terms understandable by customers.

(7) (i) As an alternative to the provisions of §§ 226.7(k)(1) through 226.7(k)(5), from [date to be supplied upon completion of amendatory process] until October 28, 1977: (A) the creditor may disclose the date of debiting the amount of the transaction to the customer's account for the date of the transaction or the date placed on the document evidencing a credit transaction if, due to operational limitations, either such date is unavailable to the creditor for purposes of billing; and the creditor may disclose an identifying number or symbol which appears on the document evidencing the credit transaction given to or used by the customer at the time of or in connection with the credit transaction in place of the seller's name and address or description of the property or services purchased if, due to operational limitations, such information is unavailable to the creditor for purposes of billing; or (B) the creditor may identify the transaction by disclosing such information as is reasonably available and treating the absence of the information required by §§ 226.7(k)(1), (2), or (3), as applicable, as a billing error, as provided in §§ 226.2(j) and 226.14. If a customer submits a proper written notification of a billing error relating to the absence of such information and the information was, in fact, not disclosed as required by §§ 226.7(k)(1), (2), or (3), as applicable, the transaction shall be treated as an erroneous billing under § 226.14(b) and documentary evidence of the transaction must be furnished whether or not the customer requests it (despite the provisions of §§ 226.2(j) and 226.14(a)(2)), within the time period allowed in § 226.14 for resolution of a billing error, without charge to the customer.

(ii) The effective date of §§ 226.7(k)(1) through 226.7(k)(6)(i), inclusive, is [date to be supplied upon completion of amendatory process]. Until [date to be supplied upon completion of amendatory process], the creditor shall disclose the date of each extension of credit or the date to the account during the billing cycle, date such extension of credit is debited the amount of such extension of credit and, unless previously furnished, a brief identification of any goods or services purchased or the extension of credit.

2. Section 226.7(b)(1)(iii) would be amended by the deletion of the period at

\* Identification may be made on an accompanying slip or by symbol relating to an identification list printed on the statement.

the end thereof and the addition of the following: "except that the date of crediting to the customer's account need not be provided if a delay in crediting does not result in the imposition of any finance charges, late payment charges, or other charges for that billing cycle or a later billing cycle."

3. Section 226.7(c)(1) would be amended to read as follows:

§ 226.7 Open end credit account—specific disclosures.

(c) . . . . .

(1) The information required to be disclosed under paragraph (b)(1)(ii) of this section and itemization of the amounts and dates required to be disclosed under paragraph (b)(1)(iii) of this section and of the amount of any finance charge required to be disclosed under paragraph (b)(1)(iv) of this section may be made on the reverse side of the periodic statement or on a separate accompanying statement(s), provided that the totals of the respective debits and credits under each of those paragraphs are disclosed on the face of the periodic statement.

4. Section 226.13(1)(4) would be amended to add a footnote as follows:

§ 226.13 Credit card transactions—special requirements.

(1) Right of cardholder to assert claims or defenses against card issuer. . . . .

(4) If the cardholder refuses to pay the amount of credit outstanding with respect to the property or services which gave rise to the claim(s) or defense(s) under this section, the creditor may not report to any person that particular amount as delinquent until the dispute is settled or judgment is rendered.<sup>22</sup>

By order of the Board of Governors,  
May 7, 1976.

THEODORE E. ALLISON,  
Secretary of the Board.

## JOINT BOARD FOR THE ENROLLMENT OF ACTUARIES

[20 CFR Part 901]

### ENROLLMENT OF ACTUARIES

#### Proposed Procedures and Requirements

By a notice of proposed rulemaking, published in the Federal Register for Wednesday, August 27, 1975, (40 FR 38171), regulations with respect to rules establishing requirements for eligibility to perform actuarial services under the Employee Retirement Income Security Act of 1974 (ERISA) were proposed to be prescribed by the Joint Board for the Enrollment of Actuaries. In such proposed regulations, § 901.13 was reserved to deal with the eligibility for enrollment

<sup>22</sup> Nothing in this paragraph prohibits a creditor from reporting the disputed amount or account as being in dispute.

of individuals applying for enrollment on or after January 1, 1976. Notice is hereby given that the regulations set forth below in tentative form are proposed to be prescribed by the Joint Board for the Enrollment of Actuaries in order to provide rules dealing with the eligibility for enrollment of individuals applying for enrollment on or after January 1, 1976.

Consistent with the legislative history of ERISA, § 901.13 would require individuals applying for enrollment on or after January 1, 1976, to meet more stringent requirements than those applying for enrollment before January 1, 1976.

The experience requirement for individuals applying on or after January 1, 1976 is the same as for pre-1976 applicants, except only experience during the 10 year period immediately preceding the date of application will be considered as satisfying the post-1975 requirements, compared to 15 years for the pre-1976 requirements.

The regulations proposed herein set forth a basic actuarial knowledge requirement, as indicated in section 3042 of ERISA. The basic actuarial knowledge requirement may be satisfied by successful completion of an examination prescribed by the Joint Board, successful completion of a proctored examination given by an actuarial organization and determined by the Joint Board to be equivalent to its examination, or by having received a bachelor's or higher degree with a major in actuarial mathematics or the equivalent.

In addition to the basic actuarial knowledge requirement, the regulations set forth a pension actuarial knowledge requirement to assure knowledge in specialized areas of actuarial knowledge relating to pension plans. The pension actuarial knowledge requirement may be satisfied by successful completion of an examination prescribed by the Joint Board or by successful completion of a proctored examination given by an actuarial organization and determined by the Joint Board to be equivalent to its pension examination.

Successful completion of these actuarial knowledge requirements will require a higher level of competence than that required for individuals applying for enrollment before January 1, 1976.

To be enrolled under the Joint Board examinations will require passing two examinations, one in basic actuarial mathematics and one in pension actuarial mathematics, compared to a single Joint Board examination for pre-1976 applicants. The basic actuarial mathematics examination will cover areas not covered by the test for pre-1976 applicants. The pension actuarial mathematics examination will cover the same general subject matter as the pre-1976 examination except that it will also include the calculations to be made on plan terminations. Further, the Joint Board contemplates that the post-1975 examination will require a higher level of competence than the pre-1976 examinations.

Successful completion of proctored examinations of actuarial organizations will be allowed in place of Joint Board examinations only if, after careful analysis, the Joint Board determines such examinations are at least equivalent to Joint Board examinations. Although examinations of actuarial organizations were recognized for pre-1976 applicants, there was no requirement that such examinations be determined equivalent to Joint Board examinations.

An educational requirement in the form of a bachelor's or higher degree in actuarial mathematics or a degree with equivalent course content will be accepted in lieu of the basic actuarial examination of the Joint Board (or the equivalent examinations of an actuarial organization). Actuarial degree programs vary, and fall into several patterns. It is contemplated that an individual claiming to have an equivalent degree will be required to provide a transcript of his academic work, which will be compared with various degree programs in actuarial mathematics.

The pre-1976 requirements had an educational requirement of a degree in actuarial science or a degree in mathematics, statistics or computer science with at least 6 semester hours or 9 quarter hours of courses in life contingencies. This alternative, available for pre-1976 applicants, did not require the equivalent of a degree in actuarial mathematics, but was designed only to assure at least minimal knowledge of certain subjects used in actuarial science.

An applicant with a degree in actuarial mathematics will not be required to take the basic actuarial examination of the Joint Board, (or the equivalent examinations of an actuarial organization) but will be required to take a pension actuarial examination. Pre-1976 applicants with a degree in actuarial science were not required to pass any actuarial examination of the Joint Board or any actuarial organization.

In addition, the proposed rules providing for denial of an application for enrollment if the applicant is found to have engaged in disreputable conduct are different than the rules applicable to pre-1976 applicants.

Before final adoption of the proposed rules set forth below, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing (preferably seven copies) to the Executive Director, Joint Board for the Enrollment of Actuaries, c/o Department of the Treasury, Washington, D.C. 20220, on or before June 17, 1976. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Executive Director on or before June 17, 1976. In such case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER, unless the person or persons who have requested a hearing withdraw their requests for a

hearing before notice of the hearing has been filed with the Office of the Federal Register. The proposed regulations are to be issued under the authority contained in section 3042, Subtitle C of Title 3 of the Employee Retirement Income Security Act of 1974. (88 Stat. 1002, 29 U.S.C. 1241, 1242.)

As proposed § 901.13 reads as follows:

§ 901.13 Eligibility for enrollment of individuals applying for enrollment on or after January 1, 1976.

(a) *In general.* An individual applying on or after January 1, 1976, to be an enrolled actuary, must fulfill the experience requirement of paragraph (b) of this section, and the pension actuarial knowledge requirement of paragraph (c) of this section, and the pension actuarial knowledge requirement of paragraph (d) of this section.

(b) *Qualifying experience.* Within a 10 year period immediately preceding the date of application, the applicant shall have completed either:

(1) A minimum of 36 months of responsible pension actuarial experience, or

(2) A minimum of 60 months of responsible actuarial experience, including at least 18 months of responsible pension actuarial experience.

(c) *Basic actuarial knowledge.* The applicant shall demonstrate knowledge of basic actuarial mathematics and methodology by one of the following:

(1) *Joint Board basic examination.* Successful completion, to a score satisfactory to the Joint Board, of an examination, prescribed by the Joint Board, in basic actuarial mathematics and methodology including compound interest, principles of life contingencies, commutation functions, multiple-decrement functions, and joint life annuities.

(2) *Organization basic examinations.* Successful completion, to a score satisfactory to the Joint Board, of one or more proctored examinations which are given by an actuarial organization and which the Joint Board has determined cover substantially the same subject areas, have at least a comparable level of difficulty, and require at least the same competence as the Joint Board basic examination referred to in subparagraph (C)(1) of this section.

(3) *Qualifying formal education.* Receipt of a bachelor's or higher degree from an accredited college or university after the satisfactory completion of a course of study:

(i) In which the major area of concentration was actuarial mathematics, or

(ii) Which included at least as many semester hours or quarter hours each in mathematics, statistics, actuarial mathematics and other subjects as the Board determines represent equivalence to paragraph (1) of this section.

(d) *Pension actuarial knowledge.* The applicant shall demonstrate pension actuarial knowledge by one of the following:

(1) *Joint Board pension examination.* Successful completion, to a score satisfactory to the Joint Board, of an examina-

tion, prescribed by the Joint Board, in actuarial mathematics and methodology relating to pension plans, including the provisions of ERISA relating to the minimum funding requirements and allocation of assets on plan termination.

(2) *Organization pension examinations.* Successful completion, to a score satisfactory to the Joint Board, of one or more proctored examinations which are given by an actuarial organization and which the Joint Board has determined cover substantially the same subject areas, have at least a comparable level of difficulty, and require at least the same competence as the Joint Board pension examination referred to in paragraph (1) of this section.

(e) *Denial of enrollment.* An applicant may be denied enrollment if:

(1) The Joint Board finds that the applicant, during the 15-year period immediately preceding the date of application and on or after the applicant's eighteenth birthday has engaged in disreputable conduct. The term disreputable conduct includes, but is not limited to:

(i) An adjudication, decision, or determination by a court of law, a duly constituted licensing or accreditation authority (other than the Joint Board), or by any federal or state agency, board, commission, hearing examiner, administrative law judge, or other official administrative authority, that the applicant has engaged in conduct evidencing fraud, dishonesty or breach of trust.

(ii) Giving false or misleading information, or participating in any way in the giving of false or misleading information, to the Department of the Treasury or the Department of Labor or any officer or employee thereof in connection with any matter pending or likely to be pending before them, knowing such information to be false or misleading.

(iii) Willfully failing to make a federal tax return in violation of the revenue laws of the United States, or evading, attempting to evade, or participating in any way in evading or attempting to evade any federal tax or payment thereof, knowingly counseling or suggesting to a client or prospective client an illegal plan to evade federal taxes or payment thereof, or concealing assets of himself or another to evade federal taxes or payment thereof.

(iv) Directly or indirectly attempting to influence, or offering or agreeing to attempt to influence, the official action of any officer or employee of the Department of the Treasury or the Department of Labor by the use of threats, false accusations, duress or coercion, by the offer of any special inducement or promise of advantage or by the bestowing of any gift, favor, or thing of value.

(v) Disbarment or suspension from practice as an actuary, attorney, certified public accountant, or public accountant by any state, possession, territory, Commonwealth, the District of Columbia, or by any Federal Court of record.

(vi) Contemptuous conduct in connection with matters before the Department of the Treasury, or the Department of

Labor, including the use of abusive language, making false accusations and statements knowing them to be false, or circulating or publishing malicious or libelous matter.

(2) The applicant has been convicted of any of the offenses referred to in section 411 of ERISA.

(3) The applicant has submitted false or misleading information on an application for enrollment to perform actuarial services or in any oral or written information submitted in connection therewith or in any report presenting actuarial information to any person, knowing the same to be false or misleading.

Approved for publication in the FEDERAL REGISTER.

Dated: May 4, 1976.

[SEAL] ROWLAND E. CROSS,  
Chairman, Joint Board for  
the Enrollment of Actuaries.

## VETERANS ADMINISTRATION

[38 CFR Part 21]

### VETERANS EDUCATION

#### Counseling; Change or Reentrance

The following regulatory change is made to modify existing provisions.

Section 21.4106 is amended to delete the requirement that the Veterans Administration counselor shall refer to the Vocational Rehabilitation Board recommendations disapproving reentrance into training or changes of programs of a veteran or eligible person following discontinuance due to unsatisfactory progress or conduct.

Interested persons are invited to submit written comments, suggestions or objections regarding the proposal to the Administrator of Veterans Affairs (271A), Veterans Administration, 810 Vermont Avenue NW., Washington, D.C. 20420. All relevant material received before June 17, 1976 will be considered. All written comments received will be available for public inspection at the above address only between the hours of 8 am and 4:30 pm Monday through Friday (except holidays), during the mentioned 30-day period and for 10 days thereafter. Any person visiting Central Office for the purpose of inspecting any such comments will be received by the Central Office Veterans Assistance Unit in room 132. Such visitors to any VA field station will be informed that records are available for inspection only in Central Office and furnished the address and the above room number.

Notice is also given that it is proposed to make these changes effective on the date of final approval.

In § 21.4106, paragraph (b) is revised to read as follows:

§ 21.4106 Counseling; change or reentrance.

(b) *Approval.* The counselor will recommend approval of a change of pro-

gram or reentrance into the same program, if he or she finds that the program which the veteran or eligible person proposes to pursue is suitable to his or her aptitudes, interests, and abilities; and where the veteran's or eligible person's program has been interrupted, or he or she has failed to progress in, his or her

program due to his or her own misconduct, neglect or lack of application, the cause for the unsatisfactory conduct or progress has been removed and there exists a reasonable likelihood that there will not be a recurrence of such an interruption or failure to progress. Subject to this approval criteria, approval for

changes of program subsequent to the second change may be recommended.

Approved: May 11, 1976.

## DEPARTMENT OF THE TREASURY

Office of the Secretary

### INCOME TAX TREATY NEGOTIATIONS

The Treasury Department today announced the countries with which it is engaged in income tax treaty negotiations, released the text of its current "model" income tax treaty, and invited comments.

The Treasury Department has a general policy of announcing initial income tax treaty negotiations with particular countries, and giving an opportunity for comment. However, often negotiations are scheduled on short notice, making notice impractical, and often negotiations extend over a period of several years, so that earlier comments no longer reflect current problems. In order to give better guidance and in order to obtain comments from interested persons, the Treasury Department today announced that negotiations are currently in process (or contemplated in the near future) with the following countries:

Australia	Jamaica
Bangladesh	Malta
Botswana	Morocco
Brazil	Netherlands
Canada	Singapore
Costa Rica	Spain
Denmark	Tunisia
India	Yugoslavia
Iran	Zambia

The Treasury Department would welcome amendments to previous comments, or new or supplemental comments concerning negotiations with those countries. Comments should be sent in writing to Charles M. Walker, Assistant Secretary of the Treasury, U.S. Treasury Department, Washington, D.C. 20220. In addition, the Treasury Department always welcomes comments with respect to the advisability of entering into or revising income tax treaties with any country.

The Treasury Department also made available today the text of its current "model" income tax treaty. The Treasury Department is currently suggesting this model as a starting point for negotiations. The model conforms closely to the revised draft treaty now being developed by the Organization for Economic Co-operation and Development. Any comments on this model may also be sent to Charles M. Walker.

The Treasury Department also announced today that negotiations are completed or are approaching completion with the following countries:

Indonesia	Republic of China
Kenya	(Taiwan)
Philippines	South Korea

Income tax treaties with Cyprus, Egypt, Israel, and the United Kingdom

## notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

were signed on April 19, 1974, October 28, 1975, November 20, 1975, and December 31, 1975, respectively. The treaties with Egypt and Israel have been submitted to the Senate for approval.

Dated: May 13, 1976.

No. 13-76]

### TREASURY NOTES OF SERIES M-1978

Dated and Bearing Interest From  
June 1, 1976

#### I. INVITATION FOR TENDERS

Due May 31, 1978.

1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites tenders on a yield basis for \$2,250,000,000, or thereabouts, of notes of the United States, designated Treasury Notes of Series M-1978. The interest rate for the notes will be determined as set forth in Section III, paragraph 3, hereof. Additional amounts of these notes may be issued at the average price of accepted tenders to Government accounts and to Federal Reserve Banks for themselves and as agents of foreign and international monetary authorities. Tenders will be received up to 1:30 p.m., Eastern Daylight Saving time, Wednesday, May 19, 1976, under competitive and noncompetitive bidding, as set forth in Section III hereof. The 6 percent Treasury Notes of Series M-1976 maturing May 31, 1976, will be accepted at par in payment, in whole or in part, to the extent tenders are allotted by the Treasury.

#### II. DESCRIPTION OF NOTES

1. The notes will be dated June 1, 1976, and will bear interest from that date, payable on a semiannual basis on November 30, 1976, May 31, 1977, November 30, 1977, and May 31, 1978. They will mature May 31, 1978, and will not be subject to call for redemption prior to maturity.

2. The income derived from the notes is subject to all taxes imposed under the Internal Revenue Code of 1954. The notes are subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The notes will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.

4. Bearer notes with interest coupons attached, and notes registered as to principal and interest, will be issued in denominations of \$5,000, \$10,000, \$100,000, and \$1,000,000. Book-entry notes will be available to eligible bidders in multiples of those amounts. Interchanges of notes of different denominations and of coupon and registered notes, and the transfer of registered notes will be permitted.

5. The notes will be subject to the general regulations of the Department of the Treasury, now or hereafter prescribed, governing United States notes.

#### III. TENDERS AND ALLOTMENTS

1. Tenders will be received at Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, D.C. 20226, up to the closing hour, 1:30 p.m., Eastern Daylight Saving time, Wednesday, May 19, 1976. Each tender must state the face amount of notes bid for, which must be \$5,000 or a multiple thereof, and the yield desired, except that in the case of noncompetitive tenders the term "noncompetitive" should be used in lieu of a yield. In the case of competitive tenders, the yield must be expressed in terms of an annual yield, with two decimals, e.g., 7.11. Fractions may not be used. Noncompetitive tenders from any one bidder may not exceed \$500,000.

2. Commercial banks, which for this purpose are defined as banks accepting demand deposits, and dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions with respect to Government securities and borrowings thereon, may submit tenders for account of customers provided the names of the customers are set forth in such tenders. Others will not be permitted to submit tenders except for their own account. Tenders will be received without deposit from banking institutions for their own account, Federally-insured savings and loan associations, States, political subdivisions or instrumentalities thereof, public pension and retirement and other public funds, international organizations in which the United States holds membership, foreign central banks and foreign States, dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions with respect to Government securities and borrowings thereon, and Government accounts. Tenders from others must be accompanied by payment (in cash or the notes referred to in Section I which will be accepted at par) of 5 percent of the face amount of notes applied for.

3. Immediately after the closing hour tenders will be opened, following which public announcement will be made by the Department of the Treasury of the amount and yield range of accepted bids. Those submitting competitive tenders will be advised of the acceptance or rejection thereof. In considering the acceptance of tenders, those with the lowest yields will be accepted to the extent required to attain the amount offered. Tenders at the highest accepted yield will be prorated if necessary. After the determination is made as to which tenders are accepted, an interest rate will be determined at a  $\frac{1}{8}$  of one percent increment that translates into an average accepted price close to 100.000 and a lowest accepted price above 99.750. That rate of interest will be paid on all of the notes. Based on such interest rate, the price on each competitive tender allotted will be determined and each successful competitive bidder will be required to pay the price corresponding to the yield bid. Price calculations will be carried to three decimal places on the basis of price per hundred, e.g., 99.943, and the determinations of the Secretary of the Treasury shall be final. The Secretary of the Treasury expressly reserves the right to accept or reject any or all tenders, in whole or in part, including the right to accept tenders for more or less than the \$2,250,000,000 of notes offered, and his action in any such respect shall be final. Subject to these reservations, noncompetitive tenders for \$500,000 or less without stated yield from any one bidder will be accepted in full at the average price<sup>1</sup> (in three decimals) of accepted competitive tenders.

## IV. PAYMENT

1. Settlement for accepted tenders in accordance with the bids must be made or completed on or before Tuesday, June 1, 1976, at the Federal Reserve Bank or Branch or at the Bureau of the Public Debt. Payment must be in cash, notes referred to in Section I (interest coupons dated May 31, 1976, should be detached), in other funds immediately available to the Treasury by June 1, 1976, or by check drawn to the order of the Federal Reserve Bank to which the tender is submitted, or the United States Treasury if the tender is submitted to it, which must be received at such Bank or at the Treasury no later than: (1) Wednesday, May 26, 1976, if the check is drawn on a bank in the Federal Reserve District of the Bank to which the check is submitted, or the Fifth Federal Reserve District in case of the Treasury, or (2) Monday, May 24, 1976, if the check is drawn on a bank in another district. Checks received after the dates set forth in the preceding sentence will not be accepted unless they are payable at a Federal Reserve Bank. Payment will not be deemed to have been completed where registered notes are requested if the appropriate identifying number as required on tax returns and other documents submitted to the Internal Revenue Service (an individual's social security number or an employer identification number) is not furnished. In every case where full payment is not completed, the payment with the tender up to 5 percent of the amount of notes allotted shall, upon declaration made by the Secretary of the Treasury in his discretion, be forfeited to the United States. When payment is made with notes, a cash adjustment will be made to or required of the bidder for any difference between the face amount of notes submitted and the amount payable on the notes allotted.

## V. ASSIGNMENT OF REGISTERED NOTES

1. Registered notes tendered as deposits and in payment for notes allotted hereunder are not required to be assigned if the notes are to be registered in the same names and forms as appear in the registrations or assignments of the notes surrendered. Specific instructions for the issuance and delivery of the notes, signed by the owner or his authorized representative, must accompany the notes presented. Otherwise, the notes should be assigned by the registered payees or assignees thereof in accordance with the general regulations governing United States securities, as hereinafter set forth. When the new notes are to be registered in names and forms different from those in the inscriptions or assignments of the notes presented the assignment should be to "The Secretary of the Treasury for Treasury Notes of Series M-1978 in the name of (name and taxpayer identifying number)." If notes in coupon form are desired, the assignment should be to "The Secretary of the Treasury for coupon Treasury Notes of Series M-1978 to be delivered to \_\_\_\_\_." Notes tendered in payment should be surrendered to the Federal Reserve Bank or Branch or to the Bureau of the Public Debt, Washington, D.C. 20226. The notes must be delivered at the expense and risk of the holder.

## VI. GENERAL PROVISIONS

1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive tenders, to make such allotments as may be prescribed by the Secretary of the Treasury, to issue such notices as may be necessary, to receive payment for and make delivery of notes on full-paid tenders allotted, and they may issue interim receipts pending delivery of the definitive notes.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

GEORGE H. DIXON,  
Acting Secretary of the Treasury.  
[FR Doc. 76-14533 Filed 5-14-76; 1:34 pm]

<sup>1</sup> Average price may be at, or more or less than 100.000.

DEFENSE SCIENCE BOARD TASK FORCE  
ON NET TECHNICAL ASSESSMENT

## Advisory Committee Meeting

The Defense Science Board Task Force on "Net Technical Assessment" will meet in closed session on 9-10 June 1976 at the Central Intelligence Agency, Langley, Virginia.

The overall mission of this Task Force is to advise the Secretary of Defense and the Director of Defense Research and Engineering on US/USSR overall research and engineering technology programs and to provide guidance for US technology exploitation in these areas to the Department of Defense.

The Task Force will examine in detail the important problem of determining critical intelligence technical requirements of the Department of Defense, the ways in which answers to these requirements would influence future US R&D/operational actions, any time urgency associated with the requirements and collection methods for satisfying these requirements.

In accordance with Section 10(d) of Appendix I, Title 5, United States Code, it has been determined that this Task Force meeting concerns matters listed in Section 552(b) of Title 5 of the United States Code, specifically subparagraph (1) thereof, and that accordingly this meeting will be closed to the public.

MAURICE W. ROCHE,  
Director, Correspondence and  
Directives OASD (Comptroller).

## DEPARTMENT OF THE INTERIOR

## Bureau of Indian Affairs

## MOHAVE TRIBE OF INDIANS

Plan for the Use and Distribution of Mohave Judgment Funds Awarded in Dockets 283 and 295 Before the Indian Claims Commission

MAY 6, 1976.

This notice is published in exercise of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2.

The Act of October 19, 1973 (P.L. 93-134, 87 Stat. 466), requires that a plan be prepared and submitted to Congress for the use or distribution of funds appropriated to pay a judgment of the Indian Claims Commission or Court of Claims to any Indian tribe. Funds were appropriated by the Act of January 3, 1974, 87 Stat. 1071, in satisfaction of the award granted to the Mohave Tribe of Indians in Indian Claims Commission Dockets 283 and 295. The plan for the use and distribution of the funds was submitted to the Congress with a letter dated January 23, 1976, and was received (as recorded in the Congressional Record) by the House of Representatives on February 2, 1976, and by the Senate on February 3, 1976. Neither House of Congress having adopted a resolution disapproving it, the plan became effective on April 12, 1976, as provided by Section 5 of the 1973 Act, supra.

The plan reads as follows:

"The funds appropriated by the Act of January 3, 1974, 87 Stat. 1071, in satisfaction of the award granted to the Mohave Indians who are members of the Colorado

River Indian Tribes and to the Fort Mojave Tribe in Dockets 283 and 295 before the Indian Claims Commission, including all interest and investment income accrued, less attorney fees and expenses, shall be used and distributed as herein provided.

## DIVISION OF THE JUDGMENT FUNDS

A roll shall be prepared in accordance with the procedures enacted by the tribal governing body and approved by the Secretary of the Interior (hereinafter "Secretary"), of all members of the Fort Mojave Tribe of the Fort Mojave Reservation who were born on or prior to and living on the effective date of this plan.

In addition, pursuant to rules and regulations published in the FEDERAL REGISTER, the Secretary shall prepare a separate roll of those members of the Colorado River Indian Tribes of the Colorado River Indian Reservation who are lineal descendants of the aboriginal Mohave Tribe, who did not share in the funds distributed by the Chemehuevi Distribution Act of September 25, 1970, 84 Stat. 868, and who were born on or prior to and living on the effective date of this plan.

After the completion of both rolls, the Secretary shall divide the funds, except for an amount of \$131,641.93, including all interest and investment income accruing thereon, between the Fort Mojave Tribe and the eligible Mohave members of the Colorado River Indian Tribes on a proportional basis as determined by the number enrolled with each group as of the effective date of this plan.

The above-expected sum of \$131,641.93, including all interest and investment income accruing thereon, shall be divided between the two groups on an inverse proportional basis as determined by the number enrolled with each group as of the effective date of this plan.

## THE FORT MOJAVE TRIBE

The entire amount of the Fort Mojave Tribe's share of these funds shall be utilized by the tribe for the purposes and in the percentages described below, as approved by the Secretary.

Forty (40) percent for community and commercial development. To be used as matching funds for the construction of a community hall and a building to house the small businesses of the tribal members; priorities for construction shall be determined by the tribal governing body.

Fifteen (15) percent for consultant and legal fees.

Ten (10) percent for an emergency medical fund and for health benefits for elderly tribal members.

Ten (10) percent for a bus to provide transportation for tribal members.

Ten (10) percent for educational purposes.

Fifteen (15) percent for a reserve fund for tribal programs. Should the funds in any of the above-cited categories be determined to be in excess of needs, the tribal governing body, on an annual budgetary basis, may make appropriate adjustments from one category to another, subject to the approval of the Secretary.

## MOHAVE DESCENDANTS OF THE COLORADO RIVER INDIAN TRIBES

The Secretary shall make a per capita distribution of the totality of the Colorado River Mohave share of the funds, in a sum as equal as possible, to each eligible Mohave descendant enrolled pursuant to the provisions of this plan.

The per capita shares of living competent adults shall be paid directly to them. The per capita shares of legal incompetents shall be placed in individual Indian money (IIM) accounts and handled under 25 CFR 104.5.

The per capita shares of deceased individual beneficiaries shall be determined and distributed in accordance with 43 CFR, Part 4, Subpart D.

Minors' per capita shares, in excess of \$100, including all investment income accruing thereto, will be retained in individually segregated IIM accounts and shall not be disbursed until the minor attains the age of eighteen years, or the minors' shares, including all investment income, will be placed in a private trust as approved by the Secretary. In those cases where a minor would reach the age of eighteen within six months after establishment of a trust, such funds shall instead be retained in IIM accounts. Upon reaching the age of eighteen, unless under a legal disability, the beneficiary shall be entitled to withdraw the per capita share and accrued investment income thereon as provided in 25 CFR 104.3. If a beneficiary is under a legal disability upon attaining the age of eighteen, the per capita share and accrued investment income thereon shall be handled pursuant to 25 CFR 104.5. If a minor's per capita share is not in excess of \$100, it may be expended for the minor's benefit as provided in 25 CFR 104.4."

MORRIS THOMPSON,  
Commissioner of Indian Affairs.

## Bureau of Land Management

[OR 15675 (Wash.)]

## WASHINGTON

Proposed Withdrawal and Reservation of  
Land

MAY 7, 1976.

The Corps of Engineers, U.S. Department of the Army, has filed application, serial No. OR 15675 (Wash.), for withdrawal of the land described below, subject to valid existing rights, from all forms of appropriation under the public land laws, including the mining laws (30 U.S.C., Ch. 2), and mineral leasing laws.

The applicant desires the land for the Box Canyon Public Use Site, Chief Joseph Dam Project, on the Columbia River in Washington.

All persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing no later than June 12, 1976, to the undersigned officer of the Bureau of Land Management, Department of the Interior, P.O. Box 2965 (729 N.E. Oregon Street), Portland, Oregon 97208.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the land and its resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the land for purposes other than the applicant's, to eliminate land needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the land and its resources.

He will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not

the land will be withdrawn as requested by the applicant agency.

The determination by the Secretary on the application will be published in the Federal Register. A separate notice will be sent to each interested party of record.

If circumstances warrant it, a public hearing will be held at a convenient time and place which will be announced.

The land involved in the application is as follows:

WILLAMETTE MERIDIAN  
BOX CANYON PUBLIC USE SITE

T. 30 N., R. 27 E.,  
Sec. 19, lot 7;  
Sec. 20, lot 5;  
Sec. 27, lot 4;  
Sec. 28, lots 2, 3, 4, 5, and 6, S $\frac{1}{2}$ NW $\frac{1}{4}$ , NW $\frac{1}{4}$ SE $\frac{1}{4}$ , and SE $\frac{1}{4}$ SE $\frac{1}{4}$ ;  
Sec. 29, lots 1 and 2 and NE $\frac{1}{4}$ NW $\frac{1}{4}$ ;  
Sec. 34, lots 3, 4, 5, and 6, SW $\frac{1}{4}$ NW $\frac{1}{4}$ , E $\frac{1}{2}$ SW $\frac{1}{4}$ , and SW $\frac{1}{4}$ SE $\frac{1}{4}$ .

The area described includes approximately 867.59 acres in Douglas County, Washington.

HAROLD A. BERENDS,  
Chief, Branch of Lands  
and Minerals Operations.

## DEPARTMENT OF AGRICULTURE

### Agricultural Marketing Service

### ADVISORY COMMITTEE ON REGULATORY PROGRAMS

#### Notice of Meeting

Pursuant to the provisions of Section 10(a)(2) of the Federal Advisory Committee Act (86 Stat. 770) notice is hereby given of a meeting of the Advisory Committee on Regulatory Programs established March 5, 1976, by Secretary's Memorandum No. 1895. The Committee will meet at the U.S. Department of Agriculture, Washington, D.C., on June 8-9, 1976. The meeting will begin at 9 a.m. on June 8 in Room 218A, Administration Building, 14th Street and Independence Avenue, SW, and is scheduled to end by 4 p.m. on June 9.

The purpose of this meeting is to review selected regulatory programs and formulate recommendations to the Secretary of Agriculture. The agenda includes a summary and current analysis of USDA regulatory programs.

The meeting is open to the public. The Chairman may invite public participation to the extent time permits. Written statements may be submitted to the Committee either before or after the meeting. Anyone wishing further information pertaining to the agenda or the meeting should contact Donald E. Wilkinson, Administrator, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250; telephone (202) 447-5115.

Dated: May 13, 1976.

DONALD E. WILKINSON,  
Administrator.

### Animal and Plant Health Inspection Service SALMONELLA ADVISORY COMMITTEE

#### Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-

463), notice is hereby given that a meeting of the Salmonella Advisory Committee will be held on June 17, 1976, beginning at 9 a.m. in Room 3109, South Building, U.S. Department of Agriculture, Washington, D.C.

The following Committee reports will be presented: (1) Processors and Distribution, (2) Breeder and Hatchery, (3) Production, (4) Consumer Education, (5) Research, and (6) Feeds and Feed Ingredients. The Committee will also discuss methods other countries have used to reduce Salmonella and other matters relating thereto.

Space will be reserved for Committee members and scheduled speakers. The public will be admitted on a first come, first serve basis. Comments of interested persons may be filed with the Committee before or after the meeting.

Information pertaining to the meeting may be obtained from Room 2165-South, Department of Agriculture, 14th and Independence Avenue SW., Washington, D.C. 20250, Area Code (202) 447-3840.

Dated: May 13, 1976.

W. H. DUBBERT,  
Executive Secretary.

#### Forest Service

##### DIAMOND CREEK PLANNING UNIT Notice of Availability of Draft Environmental Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for Diamond Creek Planning Unit, Caribou National Forest, Idaho. The Forest Service report number is USDA-FS-DES (Adm) R4-76-15.

A draft environmental statement has been prepared on four possible surface management alternatives for the Diamond Creek Planning Unit. Lands in the Diamond Creek Planning Unit contain extensive, high-grade phosphoria deposits. Three assumed levels of phosphate development on National Forest and nearby lands are presented. Variations of the four surface management alternatives are discussed under each phosphate development level. Pending applications for 71,500 acres of phosphate prospecting permits, 1,770 acres of fringe lease applications, and 4,280 acres of competitive lease applications are also discussed in the Environmental Statement.

The Diamond Creek Environmental Statement closely relates to the U.S. Geological Survey, U.S. Bureau of Land Management, and U.S. Forest Service Interagency Task Force Environmental Statement, entitled "Development of Phosphate Resources in Southeastern Idaho," No. 76-45.

This draft environmental statement was transmitted to CEQ on May 10, 1976. Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Bldg., Room 3230, 12th St. & Independence Ave. SW, Washington, D.C. 20250.  
Forest Supervisor, Caribou National Forest, 427 North Sixth Avenue, Pocatello, Idaho 83201.

District Forest Ranger, Soda Springs Ranger District, 420 E. Second South, Soda Springs, Idaho 83276.  
Regional Planning Office, USDA, Forest Service, Federal Bldg., Room 4408, 324-25th St., Ogden, Utah 84401.  
District Forest Ranger, Montpelier Ranger District, 431 Clay, Montpelier, Idaho 83254.

A limited number of single copies are available upon request to Forest Supervisor Adrian E. Dalton, Caribou National Forest, 427 North Sixth Avenue, Pocatello, Idaho 83201.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ Guidelines.

Comments are invited from the public, and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Forest Supervisor Adrian E. Dalton, Caribou National Forest, 427 North Sixth Avenue, Pocatello, Idaho 83201, by July 27, 1976, in order to be considered in the preparation of the final environmental statement.

Dated: May 10, 1976.

P. M. REES,  
Director,  
Regional Planning and Budget.

[FR Doc.76-14381 Filed 5-17-76; 8:45 am]

##### LAMB-UPPER WEST BRANCH PLANNING UNIT

##### Notice of Availability of Draft Environmental Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for Lamb-Upper West Branch Planning Unit, Forest Service Report Number USDA-FS-DES (Adm) R1-76-.

The environmental statement concerns a proposed land use plan for Lamb-Upper West Branch Planning Unit, Pend Oreille County, Washington, and Bonner County, Idaho. Approximately 101,820 acres are included in the planning unit of which 94,490 acres are National Forest land. This plan allocates resources and specifies land use prescriptions for National Forest land only. Resource information for lands in other ownership is also included for owners/managers to use as they wish.

With the exception of private holdings generally located in meadows and along major creeks, most of the National Forest ownership is continuous. For five of the

seven management units the proposed plan would emphasize varying combinations of timber management, wildlife habitat, and recreation. Wildlife habitat and primitive recreation are the only land uses which would be allocated for a sixth management unit. Appropriate interim land uses would be allocated for the management unit adjacent to a portion of the Priest River being studied as a potential addition to the Wild and Scenic Rivers System.

This draft environmental statement was transmitted to CEQ on April 30, 1976.

Copies are available for inspection during regular working hours at the following locations:

USDA Forest Service, South Agriculture Bldg., Room 3230, 12th St. & Independence Ave., SW, Washington, DC 20250.

USDA Forest Service, Northern Region, Federal Building, Missoula, MT 59801.

USDA Forest Service, Idaho Panhandle National Forests, P.O. Box 310, Coeur d'Alene, ID 83814.

USDA Forest Service, Priest Lake Ranger District, Route No. 5, Priest River, ID 83856.

A limited number of single copies are available upon request to Forest Supervisor Ralph Kizer, Idaho Panhandle National Forests, P.O. Box 310, Coeur d'Alene, ID 83814.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ guidelines.

Comments are invited from the public and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Forest Supervisor Ralph Kizer, Idaho Panhandle National Forests, P.O. Box 310, Coeur d'Alene, ID 83814.

Comments must be received by June 30, 1976 in order to be considered in the preparation of the final environmental statement.

RALPH D. KIZER,  
Forest Supervisor.

APRIL 30, 1976.

##### Packers and Stockyards Administration MORGAN LIVESTOCK MARKETING, DELTA, COLORADO, ET AL

##### Proposed Posting of Stockyards

The Chief, Registrations, Bonds, and Reports Branch, Packers and Stockyards Administration, United States Department of Agriculture, has information that the livestock markets named below are stockyards as defined in Section 302 of the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 202), and should be made subject to the provisions of the Act.

CO-146 Morgan Livestock Marketing, Delta Colorado  
CO-147 Stratton Livestock Marketing Center, Stratton, Colorado  
KY-160 Bullitt County Stockyards, Shepherdsville, Kentucky  
MN-163 Gibbon Feeder Pig Market, Gibbon, Minnesota  
MS-166 Wilbanks Stockyard, Carthage, Mississippi  
NM-116 Spear Cross Ranch, Tijeras, New Mexico

Notice is hereby given, therefore, that the said Chief, pursuant to authority delegated under the Packers Stockyards Act, 1921, as amended (7 U.S.C. 181 et seq.), proposes to issue a rule designating the stockyards named above as posted stockyards subject to the provisions of the Act as provided in Section 302 thereof.

Any person who wishes to submit written data, views, or arguments concerning the proposed rule, may do so by filing them with the Chief, Registrations, Bonds, and Reports Branch, Packers and Stockyards Administration, United States Department of Agriculture, Washington, D.C. 20250, by June 2, 1976.

All written submissions made pursuant to this notice shall be made available for public inspection at such times and places in a manner convenient to the public business (7 U.S.C. 1.27(b)).

Done at Washington, D.C., this 12th day of May 1976.

EDWARD L. THOMPSON,  
Chief, Registrations, Bonds, and  
Reports Branch, Livestock  
Marketing Division.

##### Rural Electrification Administration CAJUN ELECTRIC POWER COOPERATIVE, INC., NEW ROADS, LOUISIANA Proposed Loan Guarantee

Under the authority of Public Law 93-32 (87 Stat. 65) and in conformance with applicable agency policies and procedures as set forth in REA Bulletin 20-22 (Guarantee of Loans for Bulk Power Supply Facilities), notice is hereby given that the Administrator of REA will consider providing a guarantee supported by the full faith and credit of the United States of America for a loan in the approximate amount of \$629,000,000 to Cajun Electric Power Cooperative, Inc., of New Roads, Louisiana. These loan funds will be used to finance a project consisting of two (2) 540 MW coal-fired generating units, railroad coal cars and other items associated with the generating units.

Legally organized lending agencies capable of making, holding and servicing the loan proposed to be guaranteed may obtain information on the proposed project, including the engineering and economic feasibility studies and the proposed schedule for the advances to the borrower of the guaranteed loan funds from Mr. Merle L. Burgin, Manager, Cajun Electric Power Cooperative, Inc., P.O. Box 578, New Roads, Louisiana 70760.

In order to be considered, proposals must be submitted (within 30 days from the date of this notice) to Mr. Burgin. The right is reserved to give such consideration and make such evaluation or other disposition of all proposals received, as Cajun Electric and REA deem appropriate. Prospective lenders are advised that the guaranteed financing for this project is available from the Federal Financing Bank under a standing agreement with the Rural Electrification Administration.

Copies of REA Bulletin 20-22 are available from the Director, Information Services Division, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250.

Dated at Washington, D.C., this 10th day of May, 1976.

DAVID A. HAMILL,  
Administrator, Rural  
Electrification Administration.  
[FR Doc.76-14206 Filed 5-17-76; 8:45 am]

##### Office of the Secretary ADVISORY COMMITTEE ON HOG CHOLERA ERADICATION Meeting

A meeting of the Advisory Committee on Hog Cholera Eradication will be held at 9:00 a.m., on June 17, 1976, in Room 509-A, Administration Building, Washington, DC.

The purpose of the committee is to advise and counsel the Secretary of Agriculture regarding program operations or measures to eradicate hog cholera from this country.

The purpose of this meeting is to review program progress, problems, and recommended actions.

The meeting is open to the public; however, space and facilities are limited. Written statements may be filed with the committee before or after the meeting. Any member of the public who wishes to file a statement or who has further questions may contact Dr. F. J. Mulhern, Administrator, Animal and Plant Health Inspection Service, United States Department of Agriculture, Room 316E, Washington, DC 20250, telephone number (202) 447-3668.

Dated: May 12, 1976.

JOHN W. WALKER,  
Executive Secretary.  
[FR Doc. 76-14375 Filed 5-17-76; 8:45 am]

##### ADVISORY COMMITTEE ON FOREIGN ANIMAL AND POULTRY DISEASES Notice of Meeting

A meeting of the Advisory Committee on Foreign Animal and Poultry Diseases will be held at 8:30 a.m., on June 2 and 3, 1976, in the Emergency Programs Information Center on the 7th floor of the Federal Building, 6505 Belcrest Road, Hyattsville, Maryland.

The purpose of the committee is to advise the Secretary of Agriculture

regarding program operations or measures to prevent, suppress, control or eradicate an outbreak of foot-and-mouth disease (FMD) or other destructive foreign animal and poultry diseases in the event such diseases should enter this country.

The purposes of this meeting are to review the status of the Pan American Highway and the Fleming Key Animal Import Center, Fleming Key, Florida, and to discuss other pertinent subjects relating to the threat of introduction and dissemination of foreign animal and poultry diseases into the United States.

The meeting is open to the public, however, space and facilities are limited. Written statements may be filed with the committee before or after the meeting. Any member of the public who wishes to file a statement or who has further questions may contact Dr. E. C. Sharman, United States Department of Agriculture, Emergency Programs, Veterinary Services, Room 757, Federal Building, Hyattsville, Maryland 20782, telephone number (301) 436-8087.

Dated: May 17, 1976.

E. C. SHARMAN,  
Executive Secretary.

#### DEPARTMENT OF COMMERCE

##### Office of Import Programs

##### APPLICATIONS

##### Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, on or before June 7, 1976.

Amended regulations issued under cited Act, (15 CFR 301) prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C. 20230.

Docket Number: 76-00384. Applicant: New York State Department of Health, Division of Laboratories and Research, New Scotland Avenue, Albany, NY 12201. Article: MS 30 Double Beam Mass Spectrometer. Manufacturer: AEI Scientific Apparatus Ltd., United Kingdom. Intended Use of Article: The article is intended to be used for studies of epoxy and phenolic metabolites of polychlorinated biphenyl (PCB) arising from metabolism by liver microsomal mixed functional oxidases of commercially produced PCB plasticizer mixtures. Investigations

will be conducted (a) to determine the metabolites and intermediates produced in liver metabolism of PCB, (b) to determine which oxidase is responsible for metabolism of PCB and (c) to determine whether the metabolites characterized are implicated in the toxicity of PCB preparations. In another research project, phenolic and alcoholic metabolites of "warfarin" produced by liver metabolism in the rat and human will be studied in pursuit of the following:

(a) Elucidation of the path of detoxification of warfarin in rodents.

(b) A search for possible substitutes for warfarin for rodent control and also in human medicine, and

(c) Elucidation of the mechanism of liver mixed functional oxidase metabolism of aromatic compounds. Organic constituents of lake and stream water extracted from large volumes of natural waters at different pH and with different extracting solvents will also be investigated. Application received by Commissioner of Customs: April 27, 1976.

Docket Number: 76-00385. Applicant: University of California, Lawrence Livermore Laboratory, Post Office Box 808, Livermore, California 94550. Article: Monochromator type THRP and accessories. Manufacturer: Jobin-Yvon, France. Intended Use of Article: The article is intended to be used in a laser isotope separation program. Specifically the unit will be used in the laser stabilization system as an absolute standard for the setting of the laser array wavelengths. Investigations will be conducted for evaluation of laser stabilization schemes suitable for use in commercial processes for laser photoseparation of isotopes. Application Received by Commissioner of Customs: April 27, 1976.

Docket Number: 76-00886. Applicant: Virginia Institute of Marine Science, Route 17, Gloucester Point, Virginia 23062. Article: Turbidity Monitor Console consisting of two electronic consoles (modules). Manufacturer: Partek Ltd., United Kingdom. Intended Use of Article: The article is intended to be used to determine the extent, thickness and rate of movement of the fluid mud which is detrimental to ecology. The unit will be deployed both for time-series measurements and for vertical profiles near the bed. Application Received by Commissioner of Customs: April 27, 1976.

Docket Number: 76-00387. Applicant: The Pennsylvania State University, Department of Biochemistry & Biophysics, 618 Life Sciences Building, University Park, PA 16802. Article: Cryokit, Model LKB 14800-1 and accessories. Manufacturer: LKB Produkter AB, Sweden. Intended Use of Article: The article is intended to be used for producing frozen thin-sections of (a) the epiphyseal plate of normal and vitamin D deficient young rats and/or chicks, (b) intestinal mucosa of the same animals, (c) avian shell gland at various phases of the laying cycle, (d) possibly developing teeth of young rats which will be studied in the electron microscope with particular attention being given to the existence and

location of the mineral inclusions. Application Received by Commissioner of Customs: April 27, 1976.

Docket Number: 76-00388. Applicant: Medical College of Ohio, P.O. Box 6190, Arlington at South Detroit, Toledo, Ohio 43614. Article: Scanning Electron Microscope, Model S180. Manufacturer: Cambridge-Imanco, United Kingdom. Intended use of article: This article is intended to be used in various research projects by faculty and students which include the following:

1. Yeast Survival: An Indicator of Environmental Health.

2. Bacterial Control of Aquatic Blue-Green Algae.

3. Quantitative Analysis of Scanning Electron Microscopic Images.

4. Scanning Transmission Electron Microscopy of Autoradiographs.

5. Sertoli Cell-Germ Cell Association.

6. Detection and Measurement of Extracellular Material (Seminiferous Tubules).

7. Structural difference of chemically-treated and untreated normal and abnormal human sperm without any artifact due to a prolonged waiting period.

8. Detecting and estimating the low level of radioactivity in autoradiographs of very small intracellular structures of mouse and sea urchin sperm.

9. Study of mouse egg fertilized under in vitro and in vivo conditions.

10. Other research in anatomy, pathology, obstetrics and gynecology, and surgery.

In addition, the article is intended to be used for educational purposes in the following courses: Electron Microscopy, Scanning Electron Microscopy, Advanced Techniques in Microscopy for anatomy, pathology, microbiology and physiology; and Graduate M.D. training. Application received by Commissioner of Customs: April 27, 1976.

Docket Number: 76-00389. Applicant: College of Medicine & Dentistry of New Jersey-Rutgers Medical School, Anatomy Department, P.O. Box 101, Piscataway, New Jersey 08854. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used to section tissues primarily of embryonic or neonatal origin. Experiments to be conducted include a comparison of normal in vitro tissue with treated and/or pathological tissue cultures. These studies will determine the degree of ultrastructural changes as a result of the various treatments. The entire degenerative process characteristic of, for example, Amyotrophic Lateral Sclerosis will be studied at an ultrastructural level. The article will also be used for educational purposes in the course Investigative Methods in Cytology in which students learn to section material for electron microscopy. Application received by Commissioner of Customs: April 27, 1976.

Docket Number: 76-00390. Applicant: DHEW/FDA, National Center for Toxi-

cological Research, Jefferson, Arkansas 72079. Article: Mass Display and Marker—accessory for CH-5 mass spectrometer. Manufacturer: Varian-MAT, West Germany. Intended Use of Article: The articles are accessories which will be added to an existing Field-Desorption Mass Spectrometer that is currently being utilized to investigate the chemical structural identity of carcinogenic residues from animal tissue, blood, urine and feces. These accessories are required for determining exact mass starting values and mass peak apex determination for data acquisition which is now necessary under current research protocols. Application Received by Commissioner of Customs: April 27, 1976.

Docket Number: 76-00391. Applicant: Laboratory of Neuro-otology, NINCDS, National Institutes of Health, Building 36, Room 5D32, Bethesda, Maryland 20014. Article: Manipulator frame with pneumatic locking device and coordinate adjustment and Insulated Base Plate with animal mounting frame. Manufacturer: AB Transvertex, Sweden. Intended Use of Article: The articles are accessories to an existing micromanipulator which will be used to record activity from single cells of the organ of Corti and from single nerve fibers of the auditory nerve in the cat, in other mammals, and in organ culture. Application Received by Commissioner of Customs: April 27, 1976.

Docket Number: 76-00392. Applicant: The Ohio State University Research Foundation, 1314 Kinnear Road, Columbus, Ohio 43212. Article: Weather Station, RIMCO MKIII and accessories. Manufacturer: Rauchfuss Instruments and Staff Pty. Ltd., Australia. Intended Use of Article: The article is intended to be used to accomplish the objectives of National Science Foundation Grant ATM75-15513, "The Paleoclimate of the Quelccaya Ice Cap, Peru, and its relationship to Paleoclimate in high latitudes." The following specific observations will be conducted:

At one or, preferably, two sites on the ice cap (at the top of the main and southern domes) long-period self-recording weather stations will be erected. Records of wind velocity and direction, dry-bulb temperature, sunshine duration, atmospheric pressure and humidity will be recorded over the following 12-month period.

During the period of the field work on the ice cap standard surface meteorological observations will be made at synoptic hours, including surface wind velocity and direction (handheld instrument), dry- and wet-bulb temperatures (sling psychrometer), atmospheric pressure (aneroid), and sunshine duration (sunshine recorder). The primary purpose of these observations is to calibrate and establish the reliability of the self-recording systems, but they will also be of value, when used in conjunction with satellite photographs, for preliminary interpretations of the variations of data obtained on the 1975 specimens.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials.)

Application Received by Commissioner of Customs: April 27, 1976.

RICHARD M. SEPPA,  
Director, Special Import  
Programs Division.

#### National Oceanic and Atmospheric Administration CLIMATE AND HEALTH WORKSHOP Notice of Workshop

Announcement is made of the following interagency workshop:

Name: Climate and Health Workshop.  
Dates and Times: June 8, 1976 (0900-1700);  
June 9, 1976 (0900-1500).

Place: Conference room, National Institute for Environmental Health Sciences, Research Triangle Park, N.C.

Topics to be Discussed: Climatic data formats needed by the health and biomedical communities. The planning and coordination of data bases. Data needed by workers in health and climatology.

Sponsors: Department of Commerce, NOAA, Environmental Data Service; Department of Health, Education and Welfare, National Institute for Environmental Health Sciences, The Office of Human Development, the Public Health Service, and the National Center for Health Statistics; Environmental Protection Agency, National Environmental Research Center; and Energy Research and Development Administration, Division of Biomedical and Environmental Research.

The workshops are open to public attendance. However, since space is limited, seating of the public will be on a "first come, first serve" basis.

For further information, contact the Director, National Climatic Center, NOAA, EDS, Federal Building, Asheville, NC 28801.

T. P. GLEITER,  
Assistant Administrator  
for Administration.

[FR Doc.76-14382 Filed 5-17-76; 8:45 am]

#### Office of the Secretary CENSUS ADVISORY COMMITTEE ON THE BLACK POPULATION FOR THE 1980 CENSUS Renewal

In accordance with the provisions of the Federal Advisory Committee Act, Public Law 92-463, and Office of Management and Budget Circular A-63 of March 1974, and after consultation with OMB, the Secretary of Commerce has determined that the renewal of the Census Advisory Committee on the Black Population for the 1980 Census is in the public interest in connection with the performance of duties imposed on the Department by law.

The Committee was first established in September 1974, with an initial termination date of June 30, 1976. Its purpose is to provide an organized and continuing channel of communication between the black population and the Bureau of the Census on problems and opportunities of the Twentieth Decennial Census as they relate to the black popu-

lation of the United States. Major efforts to improve decennial census data are necessary since such data are widely used for such critical matters as legislative apportionment, allocation of government funds, and public and private program planning.

Having an established channel of communication has been helpful to the Census Bureau in its efforts to develop the procedures and techniques which are expected to result in a reduction in the undercount of the black population. To the extent that these efforts are successful, there will be direct and substantial gains to the black population.

The Committee will continue to draw on the knowledge and expertise of its members to provide advice during the planning of the 1980 Census of Population and Housing on such elements as improving the accuracy of the population count, recommending subject content and tabulations of special use to the black population, expanding the dissemination of census results among present and potential users of census data in the black community, and generally maximizing the usefulness of the census product to the Nation's largest minority group.

As initially established (39 FR 34314, 9-24-74), the Committee will consist of 21 members appointed by the Secretary of Commerce from among a broad spectrum of community leaders, such as neighborhood council members, elected public officials, executives of minority organizations, marketing and media people, and clergymen from inner cities. The Committee will report and be responsible to the Director, Bureau of the Census. The Committee will function solely as an advisory body, and in compliance with the Federal Advisory Committee Act and Office of Management and Budget Circular A-63 (revised March 27, 1974).

Copies of the Committee's revised charter will be filed with appropriate Committees of Congress and with the Library of Congress 15 days after the date this notice appears.

Inquiries or comments may be addressed to the Committee Control Officer, Mr. Clifton S. Jordan, Demographic Census Staff, Bureau of the Census, Room 3779, Federal Building 3, Suitland, Maryland 20233, telephone number (301) 763-5169.

Dated: May 11, 1976.

JOSEPH E. KASPUTYS,  
Assistant Secretary  
for Administration.

#### CLEARINGHOUSE ON ENVIRONMENTAL CARCINOGENS

##### Notice of Establishment

The Director, National Institutes of Health, announces the establishment on May 5, 1976 of the advisory committee indicated below by the Director, National Cancer Institute, under the authority of section 410(a)(3) of the Public Health Service Act (42 U.S.C. 286d). Such advisory committees shall be governed by the provisions of the Federal Advisory Committee Act (Public Law 92-463) setting forth standards governing the establishment and use of advisory committees.

Name: Clearinghouse on Environmental Carcinogens.

Purpose: The Committee provides to the Director, NCI, and the Director, Division of Cancer Cause and Prevention, advice concerning matters relating to the identification and evaluation of environmental carcinogens. Authority for this committee will expire May 5, 1978.

Dated: May 11, 1976.

#### National Institutes of Health NIH PUBLIC ADVISORY COMMITTEES Committee Renewals

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Public Law 92-463, 86 Stat. 770-776), the National Institutes of Health announces the renewal by the Secretary, HEW, with the concurrence of the Office of Management and Budget Committee Management Secretariat, of the following committees:

##### COMMITTEE AND TERMINATION DATE

Aging Review Committee, June 30, 1978.  
Artificial Kidney-Chronic Uremia Advisory Committee, May 31, 1977.  
Automation in the Medical Laboratory Sciences Review Committee, May 31, 1978.

Biomedical Library Review Committee, May 31, 1977.  
 Board of Scientific Counselors, NIAMDD, May 31, 1977.  
 Mammalian Cell Lines Committee, May 31, 1978.  
 Maternal and Child Health Research Committee, May 31, 1977.  
 Mental Retardation Research Committee, May 31, 1977.  
 National Advisory Environmental Health Sciences Council, May 31, 1977.  
 Pharmacology-Toxicology Research Program Committee, May 31, 1978.

Authority for these committees will expire on the dates indicated unless the Secretary formally determines that continuance is in the public interest.

Dated: May 11, 1976.

DONALD S. FREDRICKSON, M.D.,  
*Director,*  
*National Institutes of Health.*

**National Institute of General Medical Sciences**  
**NATIONAL ADVISORY GENERAL MEDICAL SCIENCES COUNCIL**  
**Meeting**

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the National Advisory General Medical Sciences Council, National Institute of General Medical Sciences, June 15-16, 1976, Building 31C, Conference Room 8, and in the Westwood Building, Room 9A10. This meeting will be open to the public on June 15 from 9:00 a.m. to 12 noon in Building 31C, for opening remarks; report of the Director, NIGMS; and other business of the Council. Attendance by the public will be limited to space available.

In accordance with the provisions set forth in Section 552(b)(4), 552(b)(5), and 552(b)(6), Title 5, U.S. Code and Section 10(d) of Pub. L. 92-463, the meeting will be closed to the public on June 15 from 1:30 p.m. to 5:00 p.m. in the Westwood Building, and on June 16 from 9:00 a.m. to adjournment in Building 31C for the review, discussion and evaluation of initial pending, supplemental, and renewal grant applications; and applications for the National Research Service Awards. The closed portion of the meeting involves solely the internal expression of views and judgments of committee members on individual grant applications which contain information of proprietary or confidential nature, including detailed research protocols; designs and other technical information; financial data, such as salaries; and personal information concerning individuals associated with the applications.

Mr. Paul Deming, Research Reports Officer, NIGMS, Westwood Building, Room 919, Bethesda, Maryland 20014, Telephone: 301, 496-7301, will provide a summary of the meeting and a roster of Council members.

Dr. Ruth L. Kirschstein, Executive Secretary, NAGMS Council, Building 31, Room 4A52, Telephone: 301, 496-5231, will furnish substantive program information.

**National Institute of General Medical Sciences**  
**PHARMACOLOGY-TOXICOLOGY RESEARCH PROGRAM COMMITTEE**  
**Meeting**

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Pharmacology-Toxicology Research Program Committee, National Institute of General Medical Sciences, June 17, 1976, National Institutes of Health, Building 31C, Conference Room 8, Bethesda, Maryland.

This meeting will be open to the public from 9:00 a.m. to 10:00 a.m. for opening remarks and general administrative business.

In accordance with the provisions set forth in Sections 552(b)(5), and 552(b)(6), Title 5, U.S. Code and Section 10(d) of Pub. L. 92-463, the meeting will be closed to the public from 10:00 a.m. to 5:00 p.m. for the review, discussion and evaluation of renewal center applications. The closed portion of the meeting involves solely the internal expression of views and judgments of committee members on individual grant applications which contain information of proprietary or confidential nature, including detailed research protocols, designs, and other technical information; financial data such as salaries; and personal information concerning individuals associated with the applications.

Mr. Paul Deming, Research Reports Officer, NIGMS, Westwood Building, Room 909, Bethesda, Maryland 20014, Telephone: 301, 496-7301, will provide a summary of the meeting and a roster of committee members.

Substantive program information may be obtained from Dr. Raymond E. Babor, Executive Secretary, Westwood Building, Room 9A03, Bethesda, Maryland 20014, Telephone: 301, 496-7707.

**PUBLIC ADVISORY COMMITTEES**  
**Notice of Renewal**

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Public Law 92-463, 88 Stat. 770-776), the National Institutes of Health announces the renewal by the Secretary, HEW, with the concurrence of the Office of Management and Budget Committee Management Secretariat, of the following committees:

**COMMITTEE AND TERMINATION DATE**

National Advisory Child Health and Human Development Council, May 31, 1977.  
 National Advisory General Medical Sciences Council, May 31, 1978.

Authority for these committees will expire on the date indicated unless the Secretary formally determines that continuance is in the public interest.

The following committees which are established by an Act of Congress shall file a charter upon the expiration of each successive two-year period in accordance with P.L. 92-463. That rechartering date is indicated below.

**COMMITTEE AND RECHARTERING DATE**

National Arthritis, Metabolism, and Digestive Diseases Advisory Council, May 31, 1977.  
 Board of Regents of the National Library of Medicine, May 31, 1977.  
 National Advisory Council on Aging, June 30, 1978.

Dated May 11, 1976.

**Office of Education**  
**NATIONAL ADVISORY COUNCIL ON VOCATIONAL EDUCATION**  
**Meeting**

Notice is hereby given, pursuant to PL-92-463, that the next meeting of the Research Task Force of the National Advisory Council on Vocational Education will be held on June 8, 1976 from 7:00 P.M. to 9:00 P.M., local time at Stouffer's University Inn, Columbus, Ohio; and on June 9, 1976, from 9:00 A.M. to 5:00 P.M., local time and June 10, 1976, from 9:00 A.M. to 12:00 Noon, local time, at the Ohio State University Center for Vocational Education.

The National Advisory Council on Vocational Education is established under section 104 of the Vocational Education Amendments of 1968 (20 U.S.C. 1244). The Council is directed to advise the Commissioner of Education concerning the Administration of preparation of general regulations for, and operation of, vocational education programs, supported with assistance under the act; review the administration and operation of vocational education programs under the act; including the effectiveness of such programs in meeting the purposes for which they are established and operated, make recommendations with respect thereto, and make annual reports of its findings and recommendations to the Secretary of HEW for transmittal to the Congress, and conduct independent evaluation of programs carried out under the act and publish and distribute the results thereof.

The meeting of the Council shall be open to the public. The proposed agenda includes:

June 8, 1976: Briefing on Staff Activities.  
 June 9, 1976: Discussion of OE Priorities, Review of Council Member Activities, Briefing by Center for Vocational Education Staff.  
 June 10, 1976: Report on Legislation, Report of Duplication Study, Discussion of Council Activities.

Records shall be kept of all Council proceedings and shall be available for public inspection at the office of the Council's Executive Director, located in Suite 412, 425 13th Street, NW., Washington, D.C. 20004.

Signed at Washington, D.C. on May 13, 1976.

REGINALD PETTY,  
*Executive Director.*

**POSTSECONDARY EDUCATION COMPREHENSIVE STATEWIDE PLANNING GRANTS PROGRAM**  
**Allocation Formula and Program Guidelines**

On Pages 9002 and 9003 of the FEDERAL REGISTER of March 2, 1976, there was published a notice of proposed allocation formula, and program guidelines which set forth both the formula to be used in allocating the fiscal year 1976 funds available for the Postsecondary Education Comprehensive Statewide Planning Grants Program among the State Postsecondary Education Commissions and certain guidelines for use of program funds. Interested persons were given 30 days in which to submit written comments, suggestions, or objections regarding the proposed allocation formula and program guidelines.

**Comment and Response.** Only one comment was received. The commenter suggested that the program guidelines be clarified to indicate that the State Postsecondary Education Commissions should coordinate their planning in student guidance, counseling and financial assistance with other organizations involved in these areas. No change in the guidelines is deemed necessary. The statute (20 U.S.C. 1142b) provides that one of the purposes of grants to the Commissions is planning for the coordination of public and private postsecondary educational resources in the States. Furthermore, the program guidelines specifically provide that comprehensive studies and inventories funded by grants under the Statewide Comprehensive Planning Grants Program should be developed in coordination with all segments of postsecondary education in the State.

**Effective Date.** Pursuant to Section 431(d) of the General Education Provisions Act, as amended (20 U.S.C. 1232 (d)), this notice of allocation formula and program guidelines has been transmitted to the Congress concurrently with the publication in the FEDERAL REGISTER. That section provides that regulations subject thereto shall become effective on the forty-fifth day following the date of

such transmission, subject to the provisions therein concerning Congressional action and adjournment.

(Catalog of Federal Domestic Assistance Number 13.550: State Postsecondary Education Commissions)

Dated: April 16, 1976.

DUANE J. MATTHEIS,  
*Acting U.S. Commissioner*  
*of Education.*

Approved: May 12, 1976.

MARJORIE LYNCH,  
*Acting Secretary of Health,*  
*Education, and Welfare.*

Pursuant to the authority contained in Title XII, section 1203, of the Higher Education Act of 1965, as amended (20 U.S.C. 1142b), notice is hereby given that the Commissioner of Education, with the approval of the Secretary of Health, Education, and Welfare, adopts the allocation formula and program guidelines set forth below for the Postsecondary Education Comprehensive Statewide Planning Grants Program in fiscal year 1976.

1. **Allocation formula.** Such funds as may become available for grant awards during fiscal year 1976 under the Postsecondary Education Comprehensive Statewide Planning Grants Program will be allocated in the following manner among those State Postsecondary Education Commissions which have filed the required information concerning establishment with the Office of Education and which have applied for funds:

(a) A base amount of \$30,000 will be distributed to each such State Commission.

(b) The balance of the funds available will be distributed on the basis of the ratio of the population of a postsecondary age, namely 17 and above (as indicated in the latest data available from the U.S. Bureau of the Census), in a given State to the total population of a postsecondary age in all States with such Commissions.

2. **Program guidelines.** Grants made under these provisions must be used by a State Commission to conduct comprehensive inventories of, and studies with respect to, all public and private postsecondary educational resources in the State, including planning necessary for such resources to be better coordinated, improved, expanded, or altered so that all persons within the State who desire, and who can benefit from, postsecondary education may have an opportunity to do so. Such comprehensive studies and inventories should be developed in coordination with all segments of postsecondary education in the State and should be of such a nature as will assist the State Commission in planning for:

(a) Maximizing the development of human resources within the State through encouragement of student entrance to postsecondary education and the provision to the students of needed guidance, counseling and financial assistance;

(b) Providing comprehensive post-secondary education programs and services;

(c) Achieving efficient operation and orderly growth;

(d) Providing the fullest possible financial support together with efficient use of resources;

(e) Attracting and retaining qualified faculty and professional personnel; and

(f) Providing adequate and appropriate facilities and instructional equipment and securing efficiency in their use.

(20 U.S.C. 1142b)

## CIVIL AERONAUTICS BOARD

[Docket No. 29237]

ALASKA INTERNATIONAL AIR  
CERTIFICATION PROCEEDING  
Notice of Prehearing Conference

Notice is hereby given that a prehearing conference in this proceeding is assigned to be held on August 10, 1976, at 9:30 a.m. (local time), in Room 1003, Hearing Room B, North Universal Building, 1875 Connecticut Avenue, NW., Washington, D.C., before Administrative Law Judge Burton S. Kolko.

In order to facilitate the conduct of the conference, parties are instructed to submit one copy to each party and six copies to the Judge of (1) proposed statements of issues; (2) proposed stipulations; (3) proposed requests for information and for evidence; (4) statements of positions; and (5) proposed procedural dates. The Bureau of Operating Rights will circulate its material on or before July 16, 1976, and the other parties on or before July 30, 1976. The submissions of the other parties shall be limited to points on which they differ with the Bureau, and shall follow the numbering and lettering used by the Bureau to facilitate cross-referencing.

Dated at Washington, D.C., May 12, 1976.

[SEAL] ROBERT L. PARK,  
Chief Administrative Law Judge.  
[FR Doc.76-14441 Filed 5-17-76; 8:45 am]

[Docket 27592; Agreement C.A.B. 25776, R-1 and R-2; Agreement C.A.B. 25774; Order 76-5-53]

INTERNATIONAL AIR TRANSPORT  
ASSOCIATION  
Currency Matters

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 13th day of May, 1976.

Agreements have been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations, between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of the Traffic Conferences of the International Air Transport Association (IATA). The agreements were adopted at a composite currency conference held in Geneva during March 1976.

Agreement C.A.B. 25776 relates to prior Agreement C.A.B. 25159 which proposed the framework for a new system of fare and rate specification based on the International Monetary Fund's Special Drawing Right (SDR).<sup>1</sup> The new agreement provides that in the event the next currency conference, expected to take place this autumn, fails to reach unanimous agreement to revalidate the SDR resolutions in Agreement C.A.B. 25159, such resolutions shall expire 30 days after the commencement of such conference. The agreement would also amend the SDR fare adjustment resolution to provide a uniform, three-percent tolerance for both appreciating and depreciating currencies. The adjustment resolution as originally adopted had proposed a 2½ percent tolerance for depreciations, which would require a fare increase, and a five-percent tolerance for appreciations, which would require a fare decrease. The Board, in Order 76-4-135 (April 26, 1976) disapproved the five-percent tolerance for appreciations on the basis that there was no reason for such a difference in the tolerances which appeared to tilt the proposed system in favor of fare increases only. The subject agreement would now establish a uniform, three-percent tolerance for both appreciating and depreciating currencies, and additionally expands the time for operation of the tolerance from 15 to 20 consecutive business days. These provisions appear much more reasonable than those incorporated in the original agreement, and accordingly will be approved herein. Action on the tolerance provisions of any final SDR agreement presented to the Board for approval will, of course, reflect the prevailing conditions in foreign exchange markets at that time.

Agreement C.A.B. 25774 would amend the rounding-off provisions for cargo rates in Afghanistan "Afghan" and will also be approved herein.

The Board, acting pursuant to the Federal Aviation Act of 1958, and particularly sections 102, 204(a) and 412 thereof, does not find the following resolutions, incorporated in the agreements indicated, to be adverse to the public interest or in violation of the Act provided that approval is subject, where applicable, to conditions previously imposed by the Board:

<sup>1</sup> Agreement C.A.B. 25159 was approved by the Board, with certain conditions and exceptions, in Order 76-4-135, April 26, 1976.

Agreement CAB	IATA No.	Title	Application
25776:			
R-1	001aa	Special Effectiveness Resolution (Amending)	1; 2; 3
R-2	033	Conversion Rates and Tariff Level Factor Administrative Provisions (Amending)	1; 2; 3
25774	028b	Rounding-off Cargo Rates (Amending)	1; 2; 3; 1/2; 3/1; 1/2/3

Accordingly, it is ordered, That: Agreements C.A.B. 25776, R-1 and R-2, and C.A.B. 25774, be and hereby are approved subject, where applicable, to conditions previously imposed by the Board. This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.  
[SEAL] PHYLLIS T. KAYLOR,  
Acting Secretary.

# SOUTH CAROLINA ADVISORY COMMITTEE

## Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a planning meeting of the South Carolina Advisory Committee (SAC) to this Commission will convene at 1:30 p.m. and end at 4:00 p.m. on June 10, 1976, at the S.C. Human Affairs Commission, 1111 Bellevue, Columbia, South Carolina 29211.

Persons wishing to attend this meeting should contact the Committee Chairperson, or the Southern Regional Office of the Commission, Citizens Trust Bank Bldg., Rm. 362, 75 Piedmont Avenue, NE., Atlanta, Georgia 30303.

The purpose of this meeting is to plan for the next project in South Carolina and review of the case study in Williamsburg County.

This meeting will be conducted pursuant to the Rules and Regulations of the Commission.

Dated at Washington, D.C., May 12, 1976.

ISAIAH T. CRESWELL, Jr.,  
Advisory Committee  
Management Officer.

# CIVIL SERVICE COMMISSION

## FEDERAL EMPLOYEES PAY COUNCIL Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that the Federal Employees Pay Council will meet at 10:00 on Tuesday, June 1, 1976. This meeting will be held in room 5323 of the U.S. Civil Service Commission building, 1900 E Street, N.W., and will consist of continued discussions on future comparability adjustments for the statutory pay systems of the Federal Government, which are defined in section 5301 of title 5, United States Code.

The Chairman of the U.S. Civil Service Commission is responsible for the making of determinations under section 10(d) of the Federal Advisory Commit-

tee Act as to whether or not meetings of the Federal Employees Pay Council shall be open to the public. He has determined that this meeting will consist of exchanges of opinions and information which, if written, would fall within exemptions (2) or (5) of 5 U.S.C. 552(b). Therefore, this meeting will not be open to the public.

For the President's Agent.

RICHARD H. HALL,  
Advisory Committee Management  
Officer for the President's Agent.  
[FR Doc. 76-14379 Filed 5-17-76; 8:45 am]

# FEDERAL ENERGY ADMINISTRATION Grant of Authority To Make Noncareer Executive Assignment

Under authority of section 9.20 of Civil Service Rule IX (5 CFR 9.20), the Civil Service Commission authorizes the Federal Energy Administration to fill by noncareer executive assignment in the excepted service the position of Director, Office of Planning and Evaluation, Assistant Administrator for Management and Administration.

[SEAL] JAMES C. SPRY,  
UNITED STATES CIVIL SERVICE COMMISSION,  
Executive Assistant to  
the Commissioners.

# FEDERAL EMPLOYEES PAY COUNCIL Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, Pub. L. 92-463, notice is hereby given that the Federal Employees Pay Council will meet at 10:00 a.m. on Wednesday, June 2, 1976. This meeting will be held in room 5323 of the U.S. Civil Service Commission building, 1900 E Street, N.W., and will consist of continued discussions on future comparability adjustments for the statutory pay systems of the Federal Government, which are defined in section 5301 of title 5, United States Code.

The Chairman of the U.S. Civil Service Commission is responsible for the making of determinations under section 10(d) of the Federal Advisory Committee Act as to whether or not meetings of the Federal Employees Pay Council shall be open to the public. He has determined that this meeting will consist of exchanges of opinions and information which, if written, would fall within exemptions (2) or (5) of 5 U.S.C. 552(b). Therefore, this meeting will not be open to the public.

For the President's Agent:

RICHARD H. HALL,  
Advisory Committee Management  
Officer for the President's Agent.

# CONSUMER PRODUCT SAFETY COMMISSION

[Petition Number CP 76-7]

## BICYCLE SAFETY STANDARD

### Notice of Denial of Petition Requesting Issuance of a Consumer Product Safety Standard for Bicycles

The purpose of this notice is to announce that the Consumer Product Safety Commission has denied a petition, CP 76-7, to issue a consumer product safety standard for bicycles under the Consumer Product Safety Act.

Background. In a petition dated December 12, 1975, the Bicycle Manufacturers Association of America, Inc.; Raleigh Industries, Ltd.; Raleigh Industries of America, Inc.; and Schwinn Bicycle Company, under section 10 of the Consumer Product Safety Act (CPSA) (15 U.S.C. 2051, 2059), petitioned the Commission to commence a proceeding for the issuance of a consumer product safety standard for bicycles and to hold a public hearing thereon. The petitioners also requested that, if the Commission granted the petition, it should then consider whether its existing bicycle regulation (16 CFR Part 1512, July 16, 1974, as amended November 13, 1975) under the Federal Hazardous Substances Act (FHSA) (15 U.S.C. 1261 et seq.) would, if published under the CPSA, eliminate or reduce the unreasonable risk of injury associated with bicycles. The petitioners stated that if such a finding could be made, under section 7(c) of the CPSA (15 U.S.C. 2056(c)), the Commission

could publish the FRSA regulation as a proposed consumer product safety standard under the CPSA.

An important issue underlying the petition concerns the interpretation and applicability of section 30(d) of the CPSA (15 U.S.C. 2079(d)). Section 30(d) requires in part that "[a] risk of injury which is associated with consumer products and which could be eliminated or reduced to a sufficient extent by action taken under the Federal Hazardous Substances Act . . . may be regulated by the Commission only in accordance with the provisions of [the FHSA]." In order for the Commission to grant the petition and commence a proceeding to issue a consumer product safety standard for bicycles under the CPSA, it must find that it cannot sufficiently reduce or eliminate the risk of injury presented by bicycles by action taken under the FHSA.

In support of their petition, the petitioners make the following contentions:

1. The promulgation of the bicycle regulation under the FHSA is illegal because (a) it exceeds the Commission's statutory authority under the FHSA by regulating both adult and children's bicycles; (b) The Commission lacks the authority to promulgate a safety standard under the FHSA; and (c) the Commission has "grafted" certain provisions of the CPSA, such as sections 14(c), 15(b), and 16, onto the FHSA and has thus explicitly recognized, in accordance with section 30(d) of the CPSA, that the FHSA is inadequate to sufficiently eliminate or reduce many risks of injuries associated with bicycles.

2. The risk of injury from bicycles cannot be eliminated or reduced to a sufficient extent by an FHSA regulation, and the Commission should therefore regulate bicycles under the CPSA, in accordance with section 30(d) of the CPSA.

3. The provisions of the CPSA are "stronger and more appropriate" than those of the FHSA.

Response of the Commission. A. *Contention number 1.* Regarding the contention that promulgating the bicycle regulation which regulates both adult and children's bicycles exceeds the Commission's statutory authority under the FHSA, the Commission disagrees that simply because the bicycle standard issued under the FHSA may regulate both adult and children's bicycles it is illegal. In regulating bicycles under the FHSA, the Commission is limited by sections 2 and 3 of that act (15 U.S.C. 1261, 1262) to regulating bicycles "intended for use by children." The Commission is of the opinion that most of the bicycles on the market today could be shown to be bicycles "intended for use by children." The fact that many of those bicycles are also used by adults does not alter the Commission's obligations under the law. (The Commission has discussed this issue fully at pages 16-17 of its July 8, 1975 "Majority Opinion Regarding the Regulation of Bicycles and Toys under the Federal Hazardous Substances Act," available from the Office of the Secretary.)

Further, the Commission disagrees with the petitioners' contention that the Commission lacks the authority to promulgate a safety standard under the FHSA. The Commission is authorized under the FHSA to classify as a "hazardous substance" "any toy or other article intended for use by children which . . . presents an electrical, mechanical, or thermal hazard" (section 2(f)(1)(D), 15 U.S.C. 1261(f)(1)(D)). According to section 2(q)(1)(A) (15 U.S.C. 1261(q)(1)(A)), all such children's articles are further classified as "banned hazardous substances" and the introduction or delivery for introduction into interstate commerce of such articles is prohibited by section 4(a) of the FHSA (15 U.S.C. 1263(a)). The Commission issued its bicycle regulation (15 CFR Part 1512, July 16, 1974, as amended November 13, 1975) under section 2(q)(1)(A) on the basis of mechanical hazard.

The FHSA section 2(s) definition of "mechanical hazard" is general and applies to any type of children's article which could present a hazard from propulsion, protrusion, instability, or any of the other specifically-named hazards, including the general hazard covering "any other aspect of the article's design or manufacture" (15 U.S.C. 1261(s)). In authorizing the banning of children's articles that present a mechanical hazard, Congress anticipated that the Commission (originally the Secretary of HEW) would clarify the definition of "mechanical hazard" so that it could be applied to specific categories of children's articles, such as bicycles. The Senate Committee on Commerce stated in 1969 in Senate Rep. No. 91-237, 91st Cong., 1st Sess., June 19, 1969 at 6:

It is intended that most determinations made by the Secretary will be in the form of general prescriptive rules, further amplifying the definitions of electrical, mechanical, and thermal hazards set forth in the bill or other categories of hazardous substances where necessary.

The House Committee on Interstate and Foreign Commerce explained that the Secretary could ban a children's article as a hazardous substance "because of the presence of an electrical, mechanical, or thermal hazard which would result from application of the statutory definitions of electrical, mechanical, and thermal hazards and any clarification of those definitions by regulations prescribed under section 10 of the Act" (House Rep. No. 91-389, 91st Cong., 1st Sess., July 24, 1969 at 10). (Section 10 of the FHSA provides authority "to promulgate regulations for the efficient enforcement" of the FHSA (15 U.S.C. 1269).)

As long as a children's article presents a mechanical hazard, the Commission can ban it. To define "mechanical hazard," the Commission may, by regulation, issue criteria that particular products must meet to avoid classification as a "banned hazardous substance." This authority was specifically clarified by the U.S. District Court for the District of Columbia in the case of *Tuchinsky v. CPSC*, Civil Action No. 219-73 (D.C. D.C.,

November 14, 1974) (unreported) when it said at page 3 of the slip opinion, "... the court concludes that the agency is under an obligation to promulgate general prescriptive regulations."

By issuing such safety specifications as proposals and considering comments from the public, the Commission gives manufacturers of potentially banned children's articles and other interested persons prior notice of what the Commission will consider to be a mechanical hazard for a particular category of products. This course of action was followed by the Commission in its regulation of bicycles, although any bicycle could be banned under section 2(q)(1)(A) without the clarifying regulation if the Commission determines it to present a "mechanical hazard" according to the section 2(s) definition. The Senate Committee on Commerce specifically anticipated that the mechanical aspects of bicycles might be regulated under the FHSA without an outright ban of bicycles:

There are numerous toys and other articles on the market which can cause personal injury because of their mechanical aspects but would probably not as a class be banned. Bicycles are one example. (Senate Rep. No. 91-237 at 7.)

(The Commission's July 8, 1975 "Majority Opinion Regarding the Regulation of Bicycles and Toys under the Federal Hazardous Substances Act" discusses this issue at pages 4-11.)

Finally, the Commission disagrees with the petitioners' contention that the Commission has illegally "grafted" remedial provisions of the CPSA, such as sections 14(c), 15(b), and 16, onto the FHSA and that therefore the Commission has already determined, under section 30(d) of the CPSA, that it cannot regulate under the FHSA the risk of injury presented by bicycles. The petitioners characterize the Commission's issuance of requirements for "Substantial Product Hazard Notifications" (16 CFR Part 1115 as amended and clarified December 17, 1975, 40 FR 56449) under section 15(b) of the CPSA as an attempt to "graft" certain provisions of the CPSA onto the FHSA. Section 15(b) of the CPSA requires that manufacturers, distributors, and retailers of consumer products report to the Commission information concerning possible "substantial product hazards."

In the preamble to the Federal Register publication issuing final regulations under section 15(b), the Commission made a finding under section 30(d) of the CPSA that "the numerous possibilities of risk to the consuming public by products falling within the authority of [other acts which the Commission administers] ... can neither be eliminated nor reduced to a sufficient extent in a timely fashion unless the Commission is notified under section 15(b) of the CPSA." (39 FR 6062, February 19, 1974). This preamble also specifically discussed the effect that the section 30(d) finding concerning section 15(b) notification of products within the au-

thority of other acts administered by the Commission might have on the regulation of those products. The Commission stated in that discussion and re-emphasizes here that it "... intends to regulate those products subject to the [other] acts according to the provisions of such acts; the requirement of section 15(b) notification does not carry with it automatic regulation of the product under the Consumer Product Safety Act" (39 FR 6062-6063, February 19, 1974). Application of the CPSA reporting requirements to bicycles and other products within the jurisdiction of other acts administered by the Commission, therefore, was clearly not a determination by the Commission that regulations issued under the FHSA cannot sufficiently reduce or eliminate the risk of injury presented by bicycles.

The petitioners also assert that "grafting" of other CPSA provisions onto the FHSA affects the Commission's authority to address under the FHSA the risk of injuries presented by bicycles. However, those other provisions involve either proposed regulations or staff-level draft proposed regulations. The Commission has made no final determination to issue the proposed recordkeeping regulations under section 16 of the CPSA, cited in the petition. The Commission has not yet even preliminarily considered whether the CPSA section 14 provision on labeling, also cited, is applicable to products falling within the jurisdiction of other acts administered by the Commission. The Commission is not persuaded that any preliminary actions toward issuing regulations under these sections affect in any way its authority to issue bicycle regulations under the FHSA.

For all of the above reasons, petitioners' contention No. 1 is without merit, and the Commission concludes that it is acting within its statutory authority by issuing broad prescriptive banning regulations for bicycles under sections 2(f)(1)(D), 2(q)(1)(A), and 3(e) of the FHSA.

B. Contentions numbers 2 and 3. The second contention of the petitioners, that the risk of injury from bicycles cannot be eliminated or reduced to a sufficient extent by a regulation issued under the FHSA, has been addressed in detail by the Commission on its July 8, 1975 "Majority Opinion" (see pages 3-4). The Commission concluded on page 3 of that opinion that "the risks of injury [presented by bicycles] can be reduced to a sufficient extent by utilizing the FHSA," and that it is therefore "directed by section 30(d) of the CPSA" to regulate bicycles under the FHSA. The petitioners have not presented any new arguments or evidence that have persuaded the Commission that its earlier finding is no longer an accurate, justifiable, and appropriate interpretation of section 30(d) as it applies to the regulation of bicycles.

In view of the Commission's findings that it can sufficiently reduce the risk of injury presented by bicycles by utiliz-

ing the FHSA, the third contention of the petitioners, that the provisions of the CPSA are "stronger and more appropriate" than those of the FHSA, need not be reached by the Commission.

Conclusion. Accordingly, pursuant to section 10(d) of the Consumer Product Safety Act (15 U.S.C. 2059(d)), notice is given of the Commission's denial of the petition dated December 12, 1975.

A copy of the petition and related materials may be seen during working hours, Monday through Friday, in the Office of the Secretary, Consumer Product Safety Commission, 1750 K Street, N.W., Washington, D.C. 20207.

Dated: May 12, 1976.

SADYE E. DUNN,  
Secretary, Consumer Product  
Safety Commission.

#### COMMISSION ON FEDERAL PAPERWORK PUBLIC HEARINGS

Notice is hereby given of two public hearings of the Commission on Federal Paperwork to be held in Indiana. The first hearing will be held on June 1, 1976, in the Wittenberger Auditorium on the Indiana University campus in Bloomington. The second hearing will be held on June 2, 1976, in the Krannert Auditorium on the Purdue University campus in Lafayette.

The hearings will commence each day at 8:30 a.m. and end at 1:00 p.m. The Commission will receive comments about the impact of Federal paperwork upon manufacturing, retailing, State and local governments, health services, primary and higher education, community services, contractors, pharmaceuticals, insurance, and energy.

Testimony presented at these hearings will be used by the Commission on Federal Paperwork in making recommendations to the Congress and the President on changes which would ease the burden of Federal paperwork.

Persons wishing further information about the hearings should contact the Commission on Federal Paperwork, located at 1111 20th Street, N.W., Suite 200, Washington, D.C. 20582, telephone (202) 254-6786.

FRANK HORTON,  
Chairman.

#### Issuance of Experimental Use Permit to Elanco Products Company

Pursuant to section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), an experimental use permit has been issued to Elanco Products Company, Indianapolis, Indiana 46206. Such permit is in accordance with, and subject to, the provisions of 40 CFR Part 172; Part 172 was published in the FEDERAL REGISTER on April 30, 1975 (40 FR 18780), and defines EPA procedures with respect to the use of pesticides for experimental purposes.

This experimental use permit (No. 1471-EUP-44) allows the use of 1,387.5 pounds A.I. of the herbicide Oryzalin on fruit and nut trees to evaluate control of annual and broadleaf weeds. A total of 925 acres is involved; the program is authorized only in the States of Arizona, California, Colorado, Florida, Georgia, New Mexico, North Carolina, Oregon, South Carolina, Texas and Washington. The experimental use permit is effective from April 26, 1976, to April 26, 1977. Temporary tolerances for residues of the active ingredient in or on almonds, figs, nuts, pistachios, citrus fruits, pome fruits, small fruits, and stone fruits have been established.

Interested parties wishing to review the experimental use permit are referred to Room E-315, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St., S.W., Washington, D.C. 20460. It is suggested that such interested persons call 202/755-4851 before visiting the EPA Headquarters Office, so that the appropriate permit may be made conveniently available for review purposes. These files will be available for inspection from 8:30 a.m. to 4:00 p.m. Monday through Friday.

Dated: May 11, 1976.

MARTIN H. ROGOFF,  
Acting Director,  
Registration Division.

#### Issuance of Experimental Use Permit to PPG Industries, Inc.

Pursuant to section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), an experimental use permit has been issued to PPG Industries, Inc., Pittsburgh, Pennsylvania 15222. Such permit is in accordance with, and subject to, the provisions of 40 CFR Part 172; Part 172 was published in the Fed-

ERAL REGISTER on April 30, 1975 (40 FR 18780), and defines EPA procedures with respect to the use of pesticides for experimental purposes.

This experimental use permit (No. 748-EUP-10) allows the use of 4,300 pounds A.I. of the fungicide potassium azide on rice to evaluate control of various aquatic weeds. A total of 1,100 acres is involved; the program is authorized only in the States of Arkansas, Louisiana and Texas. The experimental use permit is effective from April 27, 1976, to April 27, 1977. A temporary tolerance for residues of the active ingredient in or on rice has been established.

Interested parties wishing to review the experimental use permit are referred to Room E-315, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St., S.W., Washington, D.C. 20460. It is suggested that such interested persons call 202/755-4851 before visiting the EPA Headquarters Office, so that the appropriate permit may be made conveniently available for review purposes. These files will be available for inspection from 8:30 a.m. to 4:00 p.m. Monday through Friday.

#### Issuance of Experimental Use Permit to PPG Industries, Inc.

Pursuant to section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), an experimental use permit has been issued to PPG Industries, Inc., Pittsburgh, Pennsylvania 15222. Such permit is in accordance with, and subject to, the provisions of 40 CFR Part 172; Part 172 was published in the FEDERAL REGISTER on April 30, 1975 (40 FR 18780), and defines EPA procedures with respect to the use of pesticides for experimental purposes.

This experimental use permit (No. 748-EUP-12) allows the use of 2,640 pounds of the fungicide sodium azide on rice to evaluate control of various aquatic weeds. A total of 850 acres is involved; the program is authorized only in the States of Arkansas, Louisiana, and Texas. The experimental use permit is effective from April 27, 1976, to April 27, 1977. A temporary tolerance for residues of the active ingredient in or on rice has been established.

Interested parties wishing to review the experimental use permit are referred to Room E-315, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St., S.W., Washington, D.C. 20460. It is suggested that such interested persons call 202/755-4851 before visiting the EPA Headquarters Office, so that the appropriate permit may be made conveniently available for review purposes. #### Issuance of Experimental Use Permit to Sandoz, Inc.

Pursuant to section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), an experimental use permit has been issued to Sandoz, Inc., Homestead, Florida 33030. Such permit is in accordance with, and subject to, the provisions of 40 CFR Part 172; Part 172 was published in the FEDERAL REGISTER on April 30, 1975 (40 FR 18780), and defines EPA procedures with respect to the use of pesticides for experimental purposes.

This experimental use permit (No. 11273-EUP-12) allows the use of 2,880 pounds of the herbicide elemental copper in ponds, lakes, and reservoirs to evaluate control of chara, widgeongrass, southern naiad, and Brazilian elodea. A total of 300 acres is involved; the program is authorized only in the States of Alabama, Arizona, Arkansas, California, Florida, Georgia, Illinois, Indiana, Iowa, Louisiana, Missouri, North Carolina, Oregon, South Carolina, Texas, and Washington. The experimental use permit is effective from April 28, 1976, to April 28, 1977.

Interested parties wishing to review the experimental use permit are referred to Room E-315, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St., S.W., Washington, D.C. 20460. It is suggested that such interested persons call 202/755-4851 before visiting the EPA Headquarters Office, so that the appropriate permit may be made conveniently available for the review purposes. These files will be available for inspection from 8:30 a.m. to 4:00 p.m. Monday through Friday.

#### PESTICIDE PROGRAMS

Receipt of Application To Register a Pesticide Product Entailing a Changed Use Pattern

Thompson-Hayward Chemical Co., PO Box 2383, Kansas City KS 66110, has submitted to the Environmental Protection Agency (EPA) an application to register the product Dimilin W-25 for control of mosquito larvae (EPA File Symbol 148-RELO) containing 25% of the active pesticidal ingredient N-[[4-(4-chlorophenyl) amino]carbonyl]-2,6-di-

fluorobenzamide. This application proposes a change in the pesticide's use pattern from control of Gypsy moth larvae to include control of mosquito larvae in temporarily flooded areas, drainage ditches and lagoons from dairy, poultry and swine housing and feed areas, fresh water swamps and marshes, and salt water marshes. The application also proposes that the product be classified for restricted use, PM17.

Application was made by Thompson-Hayward Chemical Co. pursuant to the provisions of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973, 7 U.S.C. 136 et seq.) and the regulations thereunder (40 CFR 162). Notice of receipt of this application is given in accordance with the provisions of Section 3(c) (4) of FIFRA (40 CFR 162.2(b) (6)) and does not indicate a decision by the Agency on the application.

Any Federal agency or other interested persons are invited to submit written comments on this application to the Federal Register Section, Technical Services Division (WH-569), Office of Pesticide Programs, Environmental Protection Agency, Rm. 401, East Tower, 401 M St. SW, Washington DC 20460. Three copies of the comments should be submitted to facilitate the work of the Agency and others interested in inspecting them. The comments must be received on or before June 17, 1976, and should bear a notation indicating the EPA File Symbol 148-RELO. Comments received within the specified time period will be considered before a final decision is made with respect to the application. Comments received after the specified time period will be considered only to the extent possible without delaying processing of the application. Notice of approval or denial of this application to register Dimilin W-25 will be announced in the Federal Register. The label furnished by the applicant, as well as all written comments filed pursuant to this notice will be available for public inspection in the office of the Federal Register Section from 8:30 a.m. to 4:00 p.m. Monday through Friday.

Dated: May 10, 1976.

MARTIN ROGOFF,  
Acting Director,  
Registration Division.

#### PPG INDUSTRIES, INC.

##### Issuance of Experimental Use Permit

Pursuant to section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), an experimental use permit has been issued to PPG Industries, Inc., Pittsburgh, Pennsylvania 15222. Such permit is in accordance with, and subject to, the provisions of 40 CFR Part 172; Part 172 was published in the Federal Register on April 30, 1975 (40 FR 18780), and defines EPA procedures with

respect to the use of pesticides for experimental purposes.

This experimental use permit (No. 748-EUP-11) allows the use of 945 pounds A.I. of the fungicide sodium azide on rice to evaluate control of various aquatic weeds. A total of 300 acres is involved; the program is authorized only in the States of Arkansas, Louisiana, and Texas. The experimental use permit is effective from April 27, 1976, to April 27, 1977. A temporary tolerance for residues of the active ingredient in or on rice has been established.

Interested parties wishing to review the experimental use permit are referred to Room E-315, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St., S.W., Washington, D.C. 20460. It is suggested that such interested persons call 202/755-4851 before visiting the EPA Headquarters Office, so that the appropriate permit may be made conveniently available for review purposes. These files will be available for inspection from 8:30 a.m. to 4:00 p.m. Monday through Friday.

Dated: May 11, 1976.

MARTIN H. ROGOFF,  
Acting Director,  
Registration Division.

#### FEDERAL COMMUNICATIONS COMMISSION

##### FCC SCHEDULES ADDITIONAL RCC

##### Telephone Interconnection Meetings

MAY 13, 1976.

The Commission's Common Carrier Bureau has scheduled additional meetings concerning interconnection between the wireline telephone companies and the Radio Common Carriers (RCCs), which furnish two-way radiotelephone and one-way signaling service to the public.

The meetings will be held on Wednesday, May 19 and Friday, May 21 at the following locations:

May 19—U.S. Independent Telephone Association, 1801 K St., N.W., Suite 1201, Washington, D.C. (enter L. St. entrance). Scheduled to begin at 9:30 a.m.

May 21—FCC, 205 M Street, N.W., Room 8210, Washington, D.C. Scheduled to begin at 9:30 a.m.

Because of the possibility of last-minute room and time changes, participants should contact Mrs. Borthwick at 632-6400 on the morning of each meeting to verify the room location and time.

#### FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] VINCENT J. MULLINS,  
Secretary.

[FR Doc.76-14403 Filed 5-17-76;8:45 am]

#### FEDERAL ENERGY ADMINISTRATION ENVIRONMENTAL ADVISORY COMMITTEE Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Public Law

92-463, 86 Stat. 770), notice is hereby given that the Environmental Advisory Committee will meet Friday, June 4, 1976, Room 5041, 12th and Pennsylvania Avenue, N.W., Washington, D.C.

The Committee was established to provide advice and information to FEA concerning environmental aspects of FEA policies and programs.

The agenda for the meeting is as follows:

1. Introduction of new members.
2. EAC/FEA procedures:
  - a. Review of EAC subcommittees.
  - b. FEA procedures to involve EAC in FEA issues process.
  - c. Nominations by EAC members of priority issues for Committee consideration.
3. Status report on analysis of EAC PIES scenario.
4. Discussion of Btu tax as policy option; questions and answers with FEA Administrator.
5. Report and recommendations from Energy Conservation Subcommittee.
6. Report and recommendations from Coal Leasing and Mining Subcommittee.
7. Report and recommendations from OCS Development/Energy Facility Siting Subcommittee.

Subcommittees may meet informally in Washington, the preceding evening, at the discretion of the Subcommittee Chairmen; the meetings will be open to the public. For further information on subcommittee activities, call Lois Weeks, Director, Advisory Committee Management at (202) 961-7022.

The meeting is open to the public. The Chairman of the Committee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Committee will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements should inform the Director, Advisory Committee Management at least 5 days prior to the meeting and reasonable provision will be made for their appearance on the agenda.

Further information concerning this meeting may be obtained from the Advisory Committee Management Office.

Minutes of the meeting will be made available for public inspection at the Federal Energy Administration.

Issued at Washington, D.C., on May 12, 1976.

MICHAEL F. BUTLER,  
General Counsel.

#### FEDERAL POWER COMMISSION

[Project No. 349]

##### ALABAMA POWER CO.

##### Application for Change in Land Rights

MAY 12, 1976.

Public notice is hereby given that on April 8, 1976, an application was filed under the Federal Power Act (16 U.S.C. §§ 791a-825r) by Alabama Power Company (Correspondence to: Mr. F. L. Clayton, Jr., Vice President, Alabama Power Company, P.O. Box 2641, Birmingham, Alabama 35202) for a change in land rights for the constructed Martin Project No. 349 located on the Tallapoosa River in Elmore, Tallapoosa, and Coosa Counties, Alabama. The proposed change in land rights would be located in Tallapoosa County.

Applicant seeks Commission approval for the granting of an easement to Jackson's Gap Water Authority over project lands of a sufficient width for the installation and maintenance of a water distribution system to serve approximately 303 residences within and adjacent to the project boundary. Included in the system would be nine miles of six- and eight-inch mains of which approximately 2.3 miles are within the project boundary and approximately 10.6 miles of two- and three-inch distribution lines within the project boundary. According to the application, the pipelines would be laid in a trench with a minimum depth of 30 inches. The trench will be back-filled and rolled to the original ground elevation and all angle points would be marked with permanent monuments detailing the pipeline location.

Any person desiring to be heard or to make protest with reference to said application should on or before June 28, 1976, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. The application is on file with the Commission and is available for public inspection.

Take further notice that, pursuant to the authority contained in and confer-

red upon the Federal Power Commission by Sections 308 and 309 of the Federal Power Act (16 U.S.C. § 825g, § 825h) and the Commission's Rules of Practice and Procedure, specifically Section 1.32 (b) (18 CFR § 1.32(b)), as amended by Order No. 518, a hearing may be held without further notice before the Commission on this application if no issue of substance is raised by any request to be heard, protest or petition filed subsequent to this notice within the time required herein and if the applicant or initial pleader requests that the shortened procedure of § 1.32(b) be used. If an issuance of substance is so raised or applicant or initial pleader fails to request the shortened procedure, further notice of hearing will be given.

Under the shortened procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant or initial pleader to appear or be represented at the hearing before the Commission.

KENNETH F. PLUMB,  
Secretary.

[FR Doc.76-14406 Filed 5-17-76;8:45 am]

[Docket No. CP76-221]

**ARKANSAS LOUISIANA GAS CO.  
Amendment to Application**

MAY 11, 1976.

Take notice that on April 6, 1976, Arkansas Louisiana Gas Company (Arkla), P.O. Box 1734, Shreveport, Louisiana 71151, filed in Docket No. CP 76-221 an amendment to its application filed January 5, 1976, in the subject docket pursuant to Section 7(c) of the Natural Gas Act by requesting an appropriate Commission determination as may be required by law with regard to the exempt status of certain facilities, all as more fully set forth in the amendment which is on file with the Commission and open to public inspection.

Arkla states that its application in this proceeding requests authorization to exchange gas with Lone Star Gas Company (Lone Star) for the purpose of supplying the needs of Arkla's distribution system in Kingston, Oklahoma, and environs, with a daily maximum gas supply of 1,000 Mcf. Arkla proposes to construct and operate approximately 4.8 miles of 3½-inch pipeline from the point of interconnection with Lone Star to the Kingston distribution system. Arkla asserts that the application noted that the facilities would be exempt either under Section 1(b) or Section 1(c) of the Natural Gas Act.

By the instant amendment it is requested that an appropriate determination as may be required by law be made with regard to the exempt status of the facilities used to receive the gas from

<sup>1</sup> Although the subject amendment was tendered for filing April 6, 1976, the fee required by Section 159.1 of the Regulations under the Natural Gas Act (18 CFR 159.1) was not paid until April 13, 1976; thus, filing was not completed until the latter date.

Lone Star, and if it is construed necessary by the Commission, Arkla requests a declaration of exemption pursuant to Section 1(c) of the Natural Gas Act.

Any person desiring to be heard or to make any protest with reference to said amendment should on or before June 2, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. Persons who have heretofore filed petitions to intervene, notices of intervention, or protests with respect to the application need not file again.

KENNETH F. PLUMB,  
Secretary.

[Docket No. ER76-396]

**BANGOR HYDRO ELECTRIC CO.  
Notice Vacating Procedural Dates**

MAY 12, 1976.

By order issued May 7, 1976, in Docket No. ER76-496, the Commission consolidated the proceedings in the above captioned docket with those in Docket No. ER76-496 and fixed a date of November 9, 1976, for service of Staff's top sheets in the consolidated proceeding. Notice is hereby given that the procedural dates fixed in Docket No. ER76-396 by order of the Presiding Administrative Law Judge dated April 30, 1976, are hereby vacated in accordance with the Commission's order.

KENNETH F. PLUMB,  
Secretary.

[FR Doc.76-14409 Filed 5-17-76;8:45 am]

[Docket No. ER76-664]

**EMPIRE DISTRICT ELECTRIC CO.  
Tender of Amendments to Letter Agreement**

MAY 11, 1976.

Take notice that on May 3, 1976, The Empire District Electric Company (EDE) tendered for filing amendments to a letter agreement between it and Southwestern Power Administration (SPA) dated February 16, 1973, (FPC Rate Schedule No. 78, according to EDE) which letter agreement provides, according to EDE, for the delivery from SPA to EDE of excess hydro-electric energy and for a return of this energy on a Kw for Kw basis from EDE to SPA with any balance of energy owed to SPA

at the end of the exchange period being paid for under SPA rate schedule IC at the rate of 5 mills/Kwh.

EDE states that it submitted the following letters amending the letter agreement:

(1) A letter from SPA to EDE dated April 20, 1976, which provides for an extension of the letter agreement to June 30, 1977; also for a delivery from SPA to EDE up to July 1, 1976, and for a return of energy by EDE to SPA after July 1, 1976, and for a settlement of the energy account as of a July 1, 1977 audit of the account.

(2) A letter dated April 1, 1975 providing for similar extensions to July 1, 1976.

(3) A letter dated December 13, 1973 providing for similar extension to July 1, 1975.

(4) An amendment dated February 7, 1974 providing for increasing the top limit of the Energy Exchange Account from 100,000,000 Kwh to 150,000,000 Kwh.

EDE requests waiver of the 30-day notice period and that the above letters be accepted for filing by the Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Section 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 25, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[Docket No. ER76-568]

**HARTFORD ELECTRIC LIGHT CO.  
Notice of Filing; Correction**

APRIL 26, 1976.

In the Notice of filing issued March 30, 1976, change caption reading "Connecticut Light and Power Company" to read

"Hartford Electric Light Company." Change the first sentence reading " . . . on March 19, 1976 the Connecticut Light and Power Company (CL&P) tendered for filing . . . " to read " . . . on March 19, 1976, the Hartford Electric Light Company (HELCO). . . . " Change the sentence reading "CL&P states that the aforementioned parties to the Agreements have been sent copies of it" to read "HELCO states that the aforementioned parties to the Agreement have been sent copies of this filing."

MARY KIDD PEAK,  
Acting Secretary.

[FR Doc.76-14428 Filed 5-17-76;8:45 am]

[Docket No. ER76-656]

**INDIANA & MICHIGAN ELECTRIC CO.  
Notice of Tariff Change**

MAY 11, 1976.

Take notice that American Electric Power Service Corporation (AEP) on April 29, 1976, tendered for filing on behalf of its affiliate, Indiana & Michigan Electric Company (I&M), Modification No. 3 dated June 1, 1976, to the Interconnection Agreement dated February 21, 1964, between I&M and Public Service Company of Indiana, Inc., designated I&M Rate Schedule FPC No. 24.

AEP states that Section 1 of Modification No. 3 provides for an increase in the Demand Charge for Short Term Power from \$0.45 to \$0.50 per kilowatt per week. AEP also states that since the use of Short Term Power cannot be accurately estimated, it is impossible to estimate the increase in revenues resulting from the Modification.

AEP states further that Section 2 of Modification No. 3 increases the Demand Charge for Limited Term Power from \$2.50 to \$2.75 per kilowatt per month. AEP requests that the said Modification No. 3 be permitted to become effective as of June 1, 1976.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 24, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc.76-14414 Filed 5-17-76;8:45 am]

[Docket No. ER76-660]  
**INTERSTATE POWER CO.  
Notice of Filing of Schedules**

MAY 11, 1976.

Take notice that on April 30, 1976, Interstate Power Company (Interstate) tendered for filing certain financial schedules in support of a proposed rate-increase for service to Cooperative Power Association (CPA) under Interstate's rate schedule FPC No. 88.

Interstate states that on August 8, 1975, Interstate transmitted to the Commission an application for an increase in rates for service to CPA under Interstate's rate schedule FPC No. 88 (which was accepted for filing effective May 1, 1968). By order issued September 10, 1975, the Commission rejected that filing on the basis that the filing was predicated upon "stale data." Subsequent to Interstate's filing of the Petition for Rehearing and Reconsideration and a Petition for Intervention filed by CPA, the Commission in an order issued November 5, 1975, stated that the existing contract was in effect a fixed-rate contract and that "accordingly, Interstate's proposed increase in rates is barred by the rule of Mobile-Sierra."

According to Interstate, Interstate and CPA are in negotiations with respect to a possible agreement as to an increase in the rate contained in rate schedule FPC No. 88. Interstate states that it has compiled a cost of service for the twelve months ended September 30, 1975, which it has presented to CPA for review and is a basis for the negotiations taking place. In order, however, to get this test year data on file with the Commission prior to the end of the seven month period following the end of that test year, Interstate states that it is submitting copies of the basic financial schedules consisting of Statements A through N for the twelve months ended September 30, 1975, in support of a proposed rate increase. Interstate also enclosed copies of a Stipulation signed by Interstate and CPA in which the Company sets forth the agreement of both parties as a basis for filing the basic financial schedules with the Commission in a timely manner, with this filing to be supplemented subsequently hereto with a settlement agreement between Interstate and CPA in the event such settlement agreement is consummated.

In addition, Interstate specifically requests that the Commission at this time accept this filing with a waiver of the requirements for the following: (1) The most twelve months billing information and the subsequent twelve month billing information on the proposed rates; (2) A revised rate schedule; (3) Testimony; (4) Notice of Proposed Change in Rates and Charges.

According to Interstate, due to the nature of a settlement agreement, the above information can only properly be provided in conjunction with the Stipulation for Settlement at such time as it is filed with the Commission for approval.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure. All such petitions or protests should be filed on or before May 24, 1976. Protests will be considered by the Commission in determining an appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[Docket No. G-18419, et al.]

**MICHIGAN WISCONSIN PIPE LINE CO.  
Filing of Refund Report**

MAY 11, 1976.

Take notice that on November 3, 1975, Michigan Wisconsin Pipe Line Company filed in the above-designated proceedings a refund report as required by the Commission's order issued herein on August 8, 1975.

Michigan Wisconsin states that on September 5 and 8, 1975, it made refunds to its jurisdictional customers as required by the August 8, 1975, order. The refund amounts are listed below.

Ordering paragraph	Date of refund	Amount
(C) . . . . .	Sept. 5, 1975	\$361,500.11
(H) . . . . .	Sept. 8, 1975	1,025,791.83
Total . . . . .		1,387,291.94

Any person wishing to do so may submit comments in writing concerning Michigan Wisconsin's refund report. All comments should be submitted to the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, on or before June 4, 1976. Michigan Wisconsin's refund report is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,  
Secretary.

Secretary.

[FR Doc.76-14427 Filed 5-17-76;8:45 am]

[Docket No. CP76-357]

**NATURAL GAS PIPELINE CO. OF AMERICA  
Notice of Application**

MAY 11, 1976.

Take notice that on April 30, 1976, Natural Gas Pipeline Company of America (Applicant), 122 South Michigan Avenue, Chicago, Illinois 60603, filed in Docket No. CP76-357 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas in interstate commerce for Iowa-Illinois Gas and Electric Company (Iowa-Illinois), all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that it has entered into a gas transportation and rescheduling agreement with Northern Natural Gas Company (Northern) and Iowa-Illinois pursuant to which Applicant proposes to receive from Northern at an existing interconnection at Glenwood in Mills County, Iowa, such volumes of gas as Iowa-Illinois might release from its contract demand with Northern. It is stated that Northern would deliver up to 5,000 Mcf of gas per day, or more if mutually agreed by all parties, to Applicant from March 27 through October 28, with total deliveries during this period not to exceed 100,000 Mcf of gas. Applicant would transport and deliver the gas to Iowa-Illinois at the existing Moline Town Station No. 3 in Rock Island County, Illinois, for liquefaction and storage in Iowa-Illinois' LNG facility.

The application states that on days from October 27 through March 26 when Iowa-Illinois' firm load in its Fort Dodge district would exceed quantities available within contract demand, Iowa-Illinois would release the volumes required from volumes of gas available to it from Applicant. Applicant would deliver equivalent volumes to Northern at Glenwood for redelivery to Iowa-Illinois

at its Fort Dodge district. Total deliveries during the October 27-through-March 26 period might not exceed the net volumes of gas placed in storage in Iowa-Illinois' LNG facility under the transportation and rescheduling agreement.

Applicant proposes to utilize existing facilities to render the proposed service and states that it will not require any new or additional facilities. Applicant states further that it would have system capacity available to transport the specified volumes since Applicant's gas supply is not sufficient to utilize fully the capacity of its Amarillo main transmission line.

Applicant proposes to charge Iowa-Illinois \$700 per month for the transportation service. This rate is said to be based on an estimated unit cost of 0.031 cents per Mcf mile of haul for 100,000 Mcf of gas to be transported 260 miles.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 1, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[FR Doc.76-14412 Filed 5-17-76;8:45 am]

[Docket No. CP76-353]

**NATURAL GAS PIPELINE CO. OF AMERICA  
Notice of Application**

MAY 6, 1976.

Take notice that on April 29, 1976, Natural Gas Pipeline Company of Amer-

ica (Applicant), 122 South Michigan Avenue, Chicago, Illinois 60603, filed in Docket No. CP76-353 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the delivery of natural gas in interstate commerce to Michigan Wisconsin Pipe Line Company (Michigan Wisconsin) for the account of Northern Indiana Public Service Company (Nipsco), all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that it has agreed in principle that Applicant would deliver to Michigan Wisconsin for Nipsco's account 6,000,000 Mcf of gas from March 1 through October 31 of each year through 1990. Applicant would make such deliveries at existing points of interconnection of the facilities of Applicant and Michigan Wisconsin at a daily rate of up to 30,000 Mcf with an additional volume of gas for compressor fuel equal to 5 percent of the volume delivered. It is said that Applicant's deliveries would enable Nipsco to fulfill its delivery obligations under the transportation agreements dated January 23, 1976, between Nipsco and Michigan Wisconsin which are the subject of Michigan Wisconsin's application in Docket No. CP76-225<sup>1</sup> and thus allow Nipsco to avail itself of the storage service under the storage agreements dated January 23, 1976, between Nipsco and Michigan Consolidated Gas Company (Consolidated) which are the subject of Consolidated's application in Docket No. CP76-254.<sup>2</sup>

The application states that possession of the gas and title to the gas would remain together. It is said that title would pass to Michigan Wisconsin with deliveries by Applicant and that Applicant is advised that Nipsco would not receive title until the gas is delivered by Michigan Wisconsin to the intrastate system of Nipsco.

Applicant states that it would charge Nipsco for the service proposed in the instant application. Applicant states further that it and Nipsco anticipate that they will execute a formal agreement which specifies the terms and conditions under which delivery would be provided by Applicant.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 1, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party

<sup>1</sup> Notice published March 15, 1976 (41 FR 10957).<sup>2</sup> Notice published March 8, 1976 (41 FR 9923).

to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[FR Doc.76-14405 Filed 5-17-76;8:45 am]

[Docket No. CP75-71]

**NATURAL GAS PIPELINE CO. OF AMERICA  
AND TRANSWESTERN PIPELINE CO.****Amendment to Application**

MAY 11, 1976.

Take notice that on May 3, 1976, Natural Gas Pipeline Company of America (Natural), 122 South Michigan Avenue, Chicago, Illinois 60603, and Transwestern Pipeline Company (Transwestern), Southern National Bank Building, Houston, Texas 77002, filed in Docket No. CP75-71 an amendment to their application filed in said docket pursuant to Section 7(c) of the Natural Gas Act by which amendment Applicants request authorization to exchange natural gas at a point in Eddy County, New Mexico, in addition to the point at which they propose to exchange natural gas in the initial application, all as more fully set forth in the amendment on file with the Commission and open to public inspection.

In the initial application Applicants propose to exchange natural gas at a point in Eddy County to enable Natural to receive natural gas purchased from Perry R. Bass and Bass Enterprises Company (Bass) produced from the Big Eddy No. 40 Well during the time that Bass would perform an experimental fracture treatment of said well. The gas would be delivered to Transwestern for redelivery to Natural at the outlet of Cities Service Oil Company's Bluit Plant, a common purchase point of Applicants in Roosevelt County, New Mexico.

The instant amendment states that Natural has entered into a long-term contract with Bass to purchase gas from the Big Eddy No. 44 Area in Eddy County. It is stated that since Natural's existing facility to which the gas supply

from this area might be connected is approximately 6.5 miles away and since Transwestern has facilities in the immediate area which may be used to receive the gas, Applicant's have amended their exchange agreement to establish an additional exchange point so that Transwestern might take gas for Natural's account. Transwestern would redeliver thermally equivalent volumes of gas to Natural at the previously proposed Bluit exchange point.

In order to effectuate the exchange proposed in the instant amendment Transwestern proposes to construct and operate a tap connection on its existing pipeline in Eddy County and Natural proposes to construct and operate approximately 325 feet of 4-inch lateral pipeline and a 4-inch measuring facility. Applicants state that Natural would reimburse Transwestern for the cost of constructing the tap, estimated at \$5,520, and that the cost of Natural's facilities, estimated to be \$26,300, would be financed with funds on hand.

Any person desiring to be heard or to make any protest with reference to said amendment should on or before June 1, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. Persons who have heretofore filed petitions to intervene, notices of intervention, or protests need not file again.

KENNETH F. PLUMB,  
Secretary.

[Docket No. ER76-638]

**OHIO EDISON CO.****Filing of Supplement to Rate Schedule**

MAY 11, 1976.

Take notice that Ohio Edison Company on the 26th day of April 1976, tendered for filing a letter agreement dated March 4, 1976 with the City of Oberlin, Ohio, for additional service to Oberlin.

According to Ohio Edison, the letter agreement supplements the present provision for service under FPC No. 112.2 by temporarily permitting Oberlin to transfer load to Ohio Edison Company overnight to conserve fuel and by providing for loop supply and parallel operation at 69 KV upon conversion of existing 69 KV supply configurations.

A copy of the filing was served on the City Manager of Oberlin.

Any person desiring to be heard or to protest said proposal should file a peti-

tion to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 28, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

[Docket No. ER76-672]

**ORANGE AND ROCKLAND UTILITIES, INC.****Notice of Rate Filing**

MAY 11, 1976.

Take notice that Orange and Rockland Utilities, Inc. (O&R) on May 3, 1976, tendered for filing as an Initial Rate Schedule an Electric Generating Capability Exchange Agreement between O&R and Long Island Lighting Company (Lilco). O&R states that the Agreement provides for the daily exchange of up to 100 MW of electric generating capability and associated energy between O&R and Lilco beginning April 25, 1976, and continuing until terminated by either party upon thirty days notice of its intent to terminate said Agreement.

O&R requests waiver of the notice requirements of the Commission's Regulations to permit the tendered Agreement to become effective as of April 25, 1976.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 24, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[FR Doc.76-14415 Filed 5-17-76;8:45 am]

[Docket No. CP76-358]

**TEXAS EASTERN TRANSMISSION CORP.**

**Notice of Application**

MAY 11, 1976.

Take notice that on May 3, 1976, Texas Eastern Transmission Corporation (Applicant), P.O. Box 2521, Houston, Texas 77001, filed in Docket No. CP76-358 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of compression facilities on Production Platform A in Block 349, Eugene Island Area, South Addition, offshore Louisiana, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant proposes to install and operate one 3,540 horsepower compressor unit with related metering and appurtenant facilities. Applicant states that it has entered into gas purchase contracts with Louisiana Land Offshore Exploration Company, Marathon Oil Company, and Texas Eastern Exploration Company for their interests in the Block 349 field. Applicant states that it had projected that initial purchases from the shallow sands in Block 349 would be about 70,000 Mcf of gas per day. Deliveries are said to have commenced on November 27, 1975 and during March 1976 are said to have averaged 102,000 Mcf of gas per day.

The application states that the producers are engaged in a continuing development program which is expected to provide additional well capacity. Based upon representations from the producers, Applicant states, Applicant now estimates that well capacity in Block 349 as a result of the drilling program will be increased from the current average capacity of about 100,000 Mcf of gas per day to at least 170,000 Mcf of gas per day before 1977. It is stated further that at the delivery conditions expected on January 1, 1977, the capacity of the compression facilities presently installed would be about 95,000 Mcf of gas per day.

The application states that in addition to allowing Applicant to avail itself of the additional well capacity, the proposed facilities would allow Applicant to make purchases from Block 349 at continuing higher rates over the life of reservoir. Further, it is stated, the facilities would permit Applicant to lower the pressure at the delivery point as the natural pressures decline and thereby permit more efficient and economical recovery of Applicant's gas supply.

The proposed facilities are estimated to cost \$1,670,000, which would be financed with funds on hand.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 2,

1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[Docket No. ER76-063]

**TOLEDO EDISON CO.**

**Notice of Service Agreement**

MAY 11, 1976.

Take notice that The Toledo Edison Company, on April 30, 1976 tendered for filing proposed changes in its FPC Electric Service Tariff, Original Volume Number 1 applicable to sales to Municipalities for Resale. The changes consist of filing a Service Agreement executed by the Village of Bradner, Ohio and Rourth Revised Sheet Number 3, List of Purchasers.

Toledo Edison states that the executed Service Agreement with the Village of Bradner provides that the Village will be served under rate Municipal Resale Service Rate—Small and that the Service Agreement replaces a contract (Rate Schedule FPC Number 6) which will expire on May 31, 1976. An effective date of June 1, 1976 has been requested for the filed Service Agreement.

Copies of this filing were served upon the Village of Bradner, Ohio and the Public Utilities Commission of Ohio.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the

Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Section 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 28, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

MAY 11, 1976.

Take notice that on May 6, 1976, Vermont Electric Power Company (VELCO) tendered for filing a bulk power transmission contract with Vermont Electric Cooperative, Inc., dated May 31, 1975. VELCO requests an effective date of June 1, 1975, when service commenced, and waiver of Section 35.11 of the Commission's Regulations.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 24, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[Docket No. ER76-674]

**VERMONT ELECTRIC POWER COMPANY,  
INC.**

**Tender of Purchase Agreements**

MAY 11, 1976.

Take notice that on May 6, 1976, Vermont Electric Power Company, Inc. (VELCO) tendered for filing bulk power purchase contracts with Central Ver-

mont Public Service Corporation and Green Mountain Power Corporation dated January 16, 1976. VELCO states that service under both contracts commenced on January 31, 1976 and will terminate on October 31, 1978. An effective date of February 1, 1976, and waiver of the requirements of Section 35.11 of the Commission's Regulations are requested.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 24, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[Docket No. ER76-675]

**VIRGINIA ELECTRIC AND POWER CO.**

**Tender of Contract Supplement**

MAY 11, 1976.

Take notice that on May 6, 1976, Virginia Electric and Power Company (Virginia) tendered for filing a Contract Supplement dated March 22, 1976, to the Agreement designated as Virginia's Rate Schedule FPC No. 82-19 between Virginia and Prince George Electric Cooperative.

Said supplement requests Commission authorization for a change in transformer facilities from 1 MVA to 1.5 MVA at Wilkerson's Corner Delivery Point, located on the east side of Route 686 near Carson, Sussex County, Virginia.

Virginia requests waiver of notice requirements to permit an effective date as of the date of change of transformer facilities which is March 2, 1976.

Virginia states that copies of the filing have been mailed to the interested parties and regulatory authorities.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 28, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this

# **FEDERAL RESERVE SYSTEM CLEVETRUST CORPORATION**

## **Order Approving Acquisition of Bank**

ClevTrust Corporation, Cleveland, Ohio ("Applicant"), a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under § 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares (less directors' qualifying shares) of the successor by merger to The Savings Deposit Bank Company, Medina, Ohio ("Bank"). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with § 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in § 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the largest banking organization in Ohio, controls eight banks with aggregate deposits of approximately \$3.2 billion, representing 10.8 per cent of the total deposits in commercial banks in the State.<sup>1</sup> Acquisition of Bank (deposits of \$18.3 million) would increase Applicant's share of Statewide deposits by only 0.06 per cent, and would have no appreciable effect upon the concentration of banking resources in Ohio.

Bank, which is located in the city of Medina about 25 miles south of downtown Cleveland, competes on the fringe of the Cleveland banking market<sup>2</sup> and controls about 0.2 per cent of total market deposits.<sup>3</sup> Some 37 banking organizations (including Ohio's eight largest) with a total of 432 banking offices, compete in the Cleveland banking market. Applicant is the largest banking organization in the market and holds approximately 31.1 per cent of market deposits. Bank is one of the smaller banking orga-

<sup>1</sup> Unless otherwise indicated, all banking data are as of September 30, 1975, and reflect bank holding company formations and acquisitions approved through April 30, 1976.

<sup>2</sup> The Cleveland banking market, which is the relevant banking market, is approximated by all of Cuyahoga, Lake and Geauga Counties, the northwestern quarter of Portage County, the northern third of Summit County, all but the southern-most tier of townships in Medina and Lorain Counties (which appear to have stronger ties to Akron) and the City of Vermilion which straddles the border of Lorain and Erie Counties.

<sup>3</sup> All market data are as of June 30, 1974.

nizations in the Cleveland market and ranks 26th among the banking organizations in that market. Thus, in view of Bank's relative size (Bank also ranks only 5th out of 9 banks in Medina County), its acquisition by Applicant would increase only slightly Applicant's market share and the concentration of deposits in Cleveland. However, the evidence of record shows that the Cleveland banking market has become less concentrated over time.<sup>4</sup> Applicant's banking subsidiary closest to Bank is located 11.4 miles north of Bank, in Cuyahoga County, and is separated from Bank by a number of intervening banking offices. Even though Applicant and Bank operate in the same market, the facts of record show there is no overlap of service areas nor would approval result in the elimination of any significant amount of existing competition.

In assessing the effects of the proposal on potential competition, the Board is of the view that although Applicant may possess the capabilities to enter Medina County de novo and acquisition of Bank would eliminate one independent banking alternative in the relevant market, there are several other facts of record which mitigate these slightly adverse competitive effects. Ohio's restrictive branching law, which limits branching to home office counties, prohibits Applicant's present subsidiaries from branching into the Medina County portion of the market; moreover, it appears unlikely that Applicant would enter Medina County de novo since its population and deposits-per-banking-office ratios are well below State averages. Furthermore, following approval, there would remain 19 other independent banks as possible entry points into the market for competitors. Accordingly, it is concluded that consummation of the proposal would have only slightly adverse effects on potential competition.

However, the Board's inquiry does not end here. Under the provisions of § 3(c) of the Bank Holding Company Act of 1956, as amended, the Board must determine whether these anticompetitive effects are outweighed by other positive considerations reflected in the record such as financial and managerial resources and future prospects of Applicant and Bank or the convenience and needs of the communities to be served.

The financial and managerial resources and future prospects of Applicant and its subsidiaries are regarded as satisfactory. However, while the financial resources of Bank are satisfactory, its net earnings have been declining over time (from 1971 to 1975).<sup>5</sup> Furthermore, Bank

<sup>4</sup> During the period June 1968 to June 1974, the deposit share of the four largest banking organizations in the Cleveland banking market declined from 77.8 per cent to 72.3 per cent.

<sup>5</sup> In 1974, the average percentage of net income to total assets for member banks in the Fourth District of the same deposit-size group was 1.1 percent, while the figure for Bank was 0.45 percent.

appears to possess limited managerial resources. Affiliation with Applicant will result in the strengthening of Bank's financial and managerial base. Therefore, banking factors lend weight toward approval. Moreover, Bank's physical plant appears to be somewhat inadequate. Affiliation with Applicant will result in a remodeling and modernizing of Bank's physical plant. Other benefits to be derived from affiliation are that Applicant would enable Bank to expand and improve the range of banking services presently offered to Bank's customers. Applicant has also indicated it will make available to Bank, and Bank's customers, equipment leasing, trust management services, accounts receivable financing, and data processing services for maintaining account records. The Board concludes, therefore, that considerations relating to the convenience and needs of the community to be served outweigh the slight anticompetitive effects of the proposal. Accordingly, it is the Board's judgment that the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Cleveland pursuant to delegated authority.

By order of the Board of Governors,  
effective May 10, 1976.

[SEAL] GRIFFITH L. GARWOOD,  
Assistant Secretary of the Board.  
[FR Doc. 76-14357 Filed 5-17-76; 8:45 am]

# **MARYVILLE BANCSHARES, INC. Formation of Bank Holding Co.**

Maryville Bancshares, Inc., Kansas City, Missouri, has applied for the Board's approval under § 3(a)(1) of the Bank Holding Company Act (12 U.S.C. § 1842(a)(1)) to become a bank holding company through acquisition of 94 per cent or more of the voting shares of Citizens State Bank, Maryville, Missouri. The factors that are considered in acting on the application are set forth in § 3(c) of the Act (12 U.S.C. § 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Kansas City. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551 to be received no later than June 8, 1976.

\*Voting for this action: Vice Chairman Gardner and Governors Wallich and Jackson. Voting against this action: Governor Coldwell. Absent and not voting: Chairman Burns and Governors Holland and Partee.

Board of Governors of the Federal Reserve System, May 7, 1976.

[SEAL] GRIFFITH L. GARWOOD,  
Assistant Secretary of the Board.  
[FR Doc. 76-14358 Filed 5-17-76; 8:45 am]

# **D. H. BALDWIN CO.**

## **Proposed Joint Venture Formation of FMC-Baldwin Leasing Company**

D. H. Baldwin Company, Cincinnati, Ohio, has applied, pursuant to § 4(c)(8) of the Bank Holding Company Act (12 U.S.C. § 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR § 225.4(b)(2)), for permission to form de novo a joint venture partnership, FMC-Baldwin Leasing Company, Chicago, Illinois. The partners of the joint venture are to be The Baldwin Company, a wholly-owned subsidiary of the Applicant and FMC Finance Corporation, a wholly owned subsidiary of FMC Corporation; both of Chicago, Illinois. Notice of the application was published on September 17, 1975 in the Chicago Tribune, a newspaper circulated in Chicago, Illinois.

Applicant states that the proposed subsidiary would engage in the activities of personal property leasing or acting as agent, broker, or advisor in leasing such property. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Kansas City.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than June 7, 1976.

Board of Governors of the Federal Reserve System, May 12, 1976.

GRIFFITH L. GARWOOD,  
Assistant Secretary of the Board.  
[FR Doc. 76-14359 Filed 5-17-76; 8:45 am]

# **MANUFACTURERS HANOVER TRUST COMPANY**

## **Order Approving Application for Merger of Banks**

Manufacturers Hanover Trust Company, New York, New York ("Applicant"), a member State bank of the Federal Reserve System, has applied for the Board's approval pursuant to the Bank Merger Act (12 U.S.C. 1828(c)) of the merger of that bank with Manufacturers Hanover Trust Company/Mid-Hudson, Monroe, New York ("Mid-Hudson Bank"), and Manufacturers Hanover Trust Company/Suffolk, National Association, Bay Shore, New York ("Suffolk Bank"), under the charter and title of Applicant. As an incident to the proposed merger, all of the existing offices of the Mid-Hudson Bank and Suffolk Bank would become branch offices of the resulting bank. The banks involved in this proposal are subsidiaries of Manufacturers Hanover Corporation, New York, New York, a registered bank holding company under the Bank Holding Company Act of 1956, as amended (12 U.S.C. § 1841 et seq.).

As required by the Act, notice of the proposed transaction, in a form approved by the Board, has been published, and the Board has requested reports on competitive factors from the Attorney General, the Comptroller of the Currency, and the Federal Deposit Insurance Corporation. The Board has considered the application and all comments and reports received in the light of the factors set forth in the Act.

Applicant, with domestic deposits of approximately \$15 billion,<sup>1</sup> is the third largest commercial bank in New York City and also in the State, and controls approximately 13 per cent of the total deposits in the New York Metropolitan banking market.<sup>2</sup> Suffolk Bank (\$110 million deposits), is also located in the New York Metropolitan banking market but controls only a negligible share of the total market deposits. Mid-Hudson Bank (\$35 million deposits), is located in the Middletown banking market<sup>3</sup> where it controls approximately 6 per cent of total market deposits.

Since the three banks involved in this proposal are subsidiaries of the same bank holding company, consummation of the proposal would not eliminate any

<sup>1</sup> All banking deposit data are as of December 31, 1975.

<sup>2</sup> The New York Metropolitan banking market consists of New York City, the counties of Nassau, Putnam, Rockland and Westchester, the western portion of Suffolk County, the northern two-thirds of Bergen County and eastern Hudson County in New Jersey, and southwestern Fairfield County in Connecticut.

<sup>3</sup> The Middletown banking market consists of Sullivan County and Orange County with the exception of the municipalities of Newburgh, Newburgh City, New Windsor, Montgomery, Cornwall, and Highlands.

existing or potential competition, or increase the concentration of banking resources, nor does it appear that it would have any adverse effect on other banks within the respective banking markets. Accordingly, the Board concludes that competitive considerations are consistent with approval of the application.

The financial and managerial resources and prospects of Applicant are consistent with approval of the application. It is anticipated that the proposed merger would result in operational economies and a more efficient use of management skills and resources by manufacturers Hanover Corporation. In addition, public convenience in the service areas of Mid-Hudson Bank and Suffolk Bank may be enhanced somewhat as a result of the more efficient access to the range of Applicant's services. Accordingly, considerations relating to the convenience and needs of the communities to be served lend some weight toward approval of the application. It is the Board's judgment that consummation of the proposal would be in the public interest, and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the date of this Order nor (b) later than three months after the date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of New York pursuant to delegated authority.

By Order of the Board of Governors,  
effective May 12, 1976.

[SEAL] THEODORE E. ALLISON,  
Secretary of the Board.  
[FR Doc. 76-14361 Filed 5-17-76; 8:45 am]

# **MOUNTAIN GROVE BANCSHARES, INC. Formation of Bank Holding Company**

Mountain Grove Bancshares, Inc., Mountain Grove, Missouri, has applied for the Board's approval under § 3(a)(1) of the Bank Holding Company Act (12 U.S.C. § 1842(a)(1)) to become a bank holding company through acquisition of 91 percent of the voting shares of Mountain Grove National Bank, Mountain Grove, Missouri. The factors that are considered in acting on the application are set forth in § 3(c) of the Act (12 U.S.C. § 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of St. Louis. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than June 7, 1976.

## GENERAL ACCOUNTING OFFICE

### REGULATORY REPORTS REVIEW

#### Notice of Receipt of Report Proposals

The following requests for clearance of reports intended for use in collecting information from the public were received by the Regulatory Reports Review Staff, GAO, on May 11, 1976 (FCC), and May 12, 1976 (NRC). See 44 U.S.C. 3512 (c) and (d). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public of such receipt.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed FCC and NRC forms are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed forms, comments (in triplicate) must be received on or before June 7, 1976, and should be addressed to Mr. Carl F. Bogar, Assistant Director, Office of Special Programs, United States General Accounting Office, Room 5216, 425 I Street, N.W., Washington, D.C. 20548.

Further information may be obtained from Patsy J. Stuart of the Regulatory Reports Review Staff, 202-376-5425.

#### FEDERAL COMMUNICATIONS COMMISSION

FCC requests clearance of a revision of Form 303, Application for Renewal of License for Commercial Television Station. This form is required to be filed by approximately 705 Broadcast Station licensees applying for renewal of a commercial television station license pursuant to Section 1.539(d) (1) of the Commission's Rules. (Licensees applying for renewal of an AM or FM radio station license are required to use new Form 303-R, Application for Renewal of License for Commercial AM or FM Radio Station.) FCC estimates reporting burden for Form 303 to be 56 hours per response.

FCC requests clearance of a new Form 303-R, Application for Renewal of License for Commercial AM or FM Radio Broadcast Station. This form is required to be filed by 2400 licensees applying for renewal of a commercial AM or FM radio broadcast station license. Previously, FCC Form 303 was used for this purpose. (FCC Form 303 has been revised and is now titled, Application for Renewal of License for Commercial Television Broadcast Station.) FCC estimates reporting burden for Form 303-R to be 32 hours per response.

#### NUCLEAR REGULATORY COMMISSION

NRC requests clearance of a revision of Form NRC/ERDA-742, "Material Status Report", formerly Form AEC-742. This report serves as a confirmation document pertaining to the location, composition, and status of special nuclear material inventories in the possession of NRC licensees. The information called for on Form NRC/ERDA-742 is needed by the Commission to carry out its responsibilities for assuring that special nuclear materials are adequately safeguarded in the interest of the common defense and security of the United States. Respondents are 200 NRC special nuclear material licensees who file a separate Form NRC/ERDA-742 for each type of special nuclear material semi-annually. NRC estimates a reporting burden of one hour for each form.

CARL F. BOGAR,  
Assistant Director,  
Regulatory Reports Review.  
[FR Doc.76-14399 Filed 5-17-76; 8:45 am]

## INTERNATIONAL TRADE COMMISSION

[AA1921-155]

### HOLLOW OR CORED CERAMIC BRICK AND TILE

#### Amendment of Notice of Investigation and Hearing

The United States International Trade Commission's Notice of Investigation and Hearing on Hollow or cored Ceramic Brick and Tile from Canada, investigation No. AA1921-155 under section 201 (a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), published in the FEDERAL REGISTER on May 12, 1976 (41 FR 19383), is amended by changing the time of the hearing from 10 a.m., e.d.t., to 10 a.m., p.d.t.

By order of the Commission.

Issued: May 13, 1976.

[SEAL] KENNETH R. MASON,  
Secretary.

[AA1921-154]

### ACRYLIC SHEET FROM JAPAN

#### Amendment of Notice of Investigation and Hearing

The United States International Trade Commission's Notice of Investigation and Hearing on Acrylic Sheet from Japan, investigation No. AA1921-154 under section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), published in the FEDERAL REGISTER on May 10, 1976 (41 FR 19163), is amended by changing the date advice was received from April 23, 1976, to April 26, 1976.

By order of the Commission.

Issued: May 13, 1976.

[SEAL] KENNETH R. MASON,  
Secretary.  
[FR Doc.76-14453 Filed 5-17-76; 8:45 am]

## JOINT BOARD FOR THE ENROLLMENT OF ACTUARIES

### PRIVACY ACT OF 1974

#### Notice of Additional Routine Use

Pursuant to the Privacy Act of 1974 (P.L. 93-579), the Joint Board for the Enrollment of Actuaries hereby gives notice of a routine use which it proposes to adopt for the systems of records described in its previously published notice (40 FR 39227):

Disclosure from the record of an individual may be made to a congressional office, in response to an inquiry which such congressional office presents as being made on behalf of, and at the request of, that individual.

Public comment is invited with respect to this routine use. Comments may be filed on or before June 17, 1976, addressed to the Joint Board for the Enrollment of Actuaries, c/o Department of the Treasury, Washington, D.C. 20220.

ROWLAND E. CROSS,  
Chairman.

[FR Doc.76-14455 Filed 5-17-76; 8:45 am]

## MARINE MAMMAL COMMISSION MEETING

Notice is hereby given that the Marine Mammal Commission and the Committee of Scientific Advisors on Marine Mammals will meet on 22-24 July 1976 in Santa Cruz, California. Notice of the specific location, time, and agenda items of the meeting will be published in the near future.

The purpose of this notice is to invite the suggestions of interested persons concerning issues and subjects to be considered at the meetings. Suggestions should be submitted in writing to the Marine Mammal Commission, 1625 Eye Street, N.W., Washington, D.C. 20006 by 15 June 1976.

Dated: May 11, 1976.

JOHN R. TWISS, Jr.,  
Executive Director,  
Marine Mammal Commission.

[FR Doc. 76-14394 Filed 5-17-76; 8:45 am]

## OFFICE OF MANAGEMENT AND BUDGET

### CLEARANCE OF REPORTS

#### List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on May 10, 1976 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

Requests for extension which appear to raise no significant issues are to be approved after brief notice through this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503, (202-395-4529), or from the reviewer listed.

#### EMPLOYEE BENEFIT PLANS

Pendency of Exemption Relating to a Transaction Involving Stryco Manufacturing Company Pension Trust, et al. (Application No. D-417)

Notice is hereby given of the pendency before the Department of Labor (the

Department) and the Internal Revenue Service (the Service) of a proposed exemption from the restrictions of sections 406(a) and 406(b) (1) and (2) of the Employee Retirement Income Security Act of 1974 (the Act) and from the taxes imposed by sections 4975 (a) and (b) of the Internal Revenue Code of 1954 (the Code), by reason of section 4975(c) (1) (A) through (E) of the Code. The pending exemption was requested in an application filed by Stryco Manufacturing Company (Stryco), 860 Hamilton Corporation (860 Hamilton), Ernest N. C. Moore (Moore), Christian C. E. Hoebrich (Hoebrich), Dean E. Plankenhorn (Plankenhorn) and Russell C. Arquette (Arquette) (collectively referred to as "Applicants") for a transaction involving an extension of credit by the Stryco Manufacturing Company Pension Trust (the Plan) to Stryco and for related transactions.

The Applicants are defendants in a lawsuit brought by a former participant in and vested beneficiary of the Plan. The defendants (except Plankenhorn) and the Secretary of Labor, as plaintiff-intervenor in that litigation, entered into a stipulation pursuant to which a prior alleged prohibited transaction involving the Plan and the defendants is to be revised, and it is this revised transaction for which an exemption is requested. The application was filed pursuant to section 408(a) of the Act and section 4975(a) (2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975) and Rev. Proc. 75-26, 1975-1 C.B. 722.

Summary of representations. The application contains representations with regard to the pending exemption which are summarized below. Interested persons are referred to the application and supporting documents on file with the Department and the Service for a complete statement of the representations of the Applicants.

1. Stryco was incorporated in California in 1957. Until the sale of its assets in 1975, it was engaged in the manufacture and sale of resistance welding equipment and related pursuits.

2. In 1966, Stryco established the Plan and continued to make contributions to it until approximately June 1971 when contributions ceased.

3. In May 1970, a fire destroyed Stryco's main manufacturing plant and its contents. A dispute with the fire insurance company regarding fire insurance coverage ensued, and Stryco eventually sued the insurance company in order to obtain a major portion of the proceeds of its fire insurance policy. Following the fire, Arquette loaned Stryco approximately \$40,000.

4. In 1971, Stryco was encountering financial difficulties. As a result, from June 1971 to November 1972, Stryco borrowed from the plan \$116,446.58, which represented substantially all of the Plan's assets. In exchange for the loans, Stryco issued a total of seven notes to the Plan, each note maturing in two years and secured by the inventory and unencumbered fixed assets of Stryco.

5. The notes were not repaid when they came due, but were renewed in September 1973. A new series of nine notes was issued in October 1974 for a principal amount of \$131,720,000, with maturity dates in 1975 and 1976. The security interest held by the Plan for the notes renewed in September 1973 and the new notes issued in October 1974 remained unchanged from the original security interest.

6. In the latter part of 1974, Moore and Hoebich, as principals in 860 Hamilton, offered to purchase the assets of Stryco subject to certain conditions, including resolution of the recurring problem of Stryco's indebtedness to the Plan. The notes then held by the Plan (i.e., the notes issued in October 1974) would begin maturing in June 1975, and it appeared that Stryco once again would not be able to pay the notes as they came due.

7. On December 6, 1974, Moore became President of Stryco, and on December 16th, Moore and Hoebich became members of the Stryco board of directors and remained as directors until the purchase of Stryco's assets by 860 Hamilton on September 30, 1975.

8. The board of directors of Stryco appoints the members of the Plan's Investment Committee. The authority of the Plan's trustee to, among other things, loan Plan assets and renew or extend the time of payment of any obligation due or becoming due can be exercised only in accordance with the written directions of the Investment Committee.

9. On January 6, 1975, Stryco agreed to sell all of its assets to 860 Hamilton, pursuant to an Agreement of Purchase and Sale of Assets (Sale Agreement). Arquette was a party to the agreement as Chairman of the Board and a principal shareholder of Stryco. Mrs. Arquette signed the agreement as an officer and a principal shareholder of Stryco. Moore and Hoebich executed the agreement on behalf of, and as principal shareholders of 860 Hamilton.

10. Pursuant to the terms of the Sale Agreement, Stryco agreed to sell its tangible and intangible assets to 860 Hamilton for \$110,000, payable as follows: (a) \$25,000 at closing; (b) a secured promissory note executed by Moore for \$5,000 plus interest payable six months after closing; and (c) a secured promissory note for \$80,000 plus interest, payable pursuant to a schedule set forth in the Sale Agreement, with the final payment due in 1981. 860 Hamilton agreed that it would assume certain liabilities of Stryco, including Stryco's indebtedness to the Plan.

11. The parties to the Sale Agreement (except Stryco) also executed, on the same date, a Business Support Agreement which provided for the payment of \$54,000 over four years by 860 Hamilton to Mr. and Mrs. Arquette for consultation, a right to inventions, and an agreement not to compete. In addition, Mr. and Mrs. Arquette were to be paid \$5,000 per year (or, at the option of Mr. and Mrs. Arquette, a percentage of profits)

for their guarantee of bank loans to 860 Hamilton. This guarantee, which was originally for \$100,000 and was subsequently increased to \$200,000, was to be in effect, at the option of Mr. and Mrs. Arquette, for at least three years after the close of the sale of Stryco's assets to 860 Hamilton.

12. Beginning approximately in December 1974, Stryco made various proposals to the Plan regarding schedules for repaying the debt owed to the Plan. On May 15, 1975, Plankenhorn, as trustee of the Plan, and Moore, as president of Stryco, executed an Amended Loan Agreement which extended the Loan repayment period. The Amended Loan Agreement provided, among other things, that the Plan agreed to the sale of Stryco's assets to 860 Hamilton and to the discharge of Stryco from any obligation to the Plan upon assumption by 860 Hamilton of Stryco's debt. On the same date, Bank of America, a creditor of Stryco, and the Plan signed an Intercreditor Agreement. This agreement set forth the respective security interests of the parties in the assets of Stryco. Under the Intercreditor Agreement, the Plan received security interests in collateral which, absent the agreement, the Plan believed might have been subordinate to the interests of the Bank of America.

13. Pursuant to the terms of the Amended Loan Agreement, Stryco was to pay \$20,000 to the Plan by no later than June 30, 1975. Any amount previously deposited in the Plan's account would be credited against this \$20,000. In addition, Stryco was to make monthly payments beginning in July 1975 of \$1,850 of principal and interest with interest at 10 percent per year on the unpaid balance. Stryco was to pay the total amount owed by no later than June 30, 1984, with the final monthly payment adjusted, if necessary, to complete the payments by that date. Under the terms of this agreement, 860 Hamilton would assume all liabilities of Stryco (including those to the Plan) after the sale of Stryco's assets to 860 Hamilton.

14. Under the Amended Loan Agreement and the Intercreditor Agreement, the Plan was to receive in return for refinancing the loan: (a) a first security interest in the equipment of Stryco; (b) a second security interest in inventory and/or the proceeds of inventory up to \$150,000; (c) a first security interest in all inventory and/or proceeds of inventory over \$150,000; and (d) the personal guarantees of Moore and Hoebich up to \$30,000. The Amended Loan Agreement further required Stryco to acquire a life insurance policy on the life of Moore under which at least \$50,000 (up to the unpaid balance of the loan) would inure to the benefit of the Plan in the event of Moore's death, and a disability insurance policy providing for payments of \$1,850 per month to the Plan for so long as Moore was unable to perform his duties as president of Stryco, if such a policy could be obtained. Stryco also agreed to limit its indebtedness to certain percentages of its accounts receivable,

inventory and equipment. In accordance with the terms of the Amended Loan Agreement, Stryco obtained the life insurance policy and a disability insurance policy providing for monthly payments of \$1,750 in case of total disability and \$875 in case of partial disability.

15. On August 29, 1975, one month before the sale of Stryco's assets to 860 Hamilton was to be closed, Joel C. Harris, a former participant in and vested beneficiary of the Plan, filed suit in Federal District Court, Northern District of California, against Stryco and 860 Hamilton and certain of their officers to enjoin the sale of Stryco's assets until the debt to the Plan had been repaid. He alleged that violations of the prohibited transaction provisions of the Act would occur if the sale were completed as planned.

16. On September 29, 1975, the District Court ordered that the sale could proceed, provided that the Amended Loan Agreement between the Plan and Stryco were further amended so that Stryco would remain liable to the Plan on its indebtedness, that any sale proceeds received by Stryco would not be disbursed except for taxes and an amount not to exceed \$5,000 distributed in the ordinary course of business, and that all payments in excess of \$5,000 under the Business Support Agreement would be made to a trustee account until further order of the court. The Amended Loan Agreement was amended on September 30 in conformity with the court order and the sale was consummated.

17. On October 14, 1975, the Secretary of Labor moved to intervene as plaintiff in this litigation. The Secretary's motion was granted, without opposition, on November 13, 1975. In his complaint, the Secretary alleged that from January 1, 1975 to September 30, 1975, defendants Arquette, Plankenhorn, Moore and Hoebich were fiduciaries with respect to the Plan and that these defendants as well as Stryco, 860 Hamilton and Dorothy Arquette were parties in interest with respect to the Plan. The Secretary further alleged that from May 15, 1975, the defendants knew or should have known that the transactions effected by the Amended Loan Agreement were prohibited by, and had not been exempted from, the prohibitions of section 406 of the Act and that the Plan was entitled to be repaid by the Plan fiduciaries for losses sustained by the Plan as a result of engaging in prohibited transactions.

18. The Secretary alleged that the transactions as set forth in the Sale Agreement, Business Support Agreement, Amended Loan Agreement and related documents had the effect, inter alia, of making available to Stryco and Arquette money which could have been, and ought to have been, applied toward the repayment of debts owed by Stryco to the Plan. The Secretary also alleged that the defendants had not made a reasonable effort to correct or remedy the situation created as a result of the prohibited transactions embodied in the Amended Loan Agreement, and requested that the defendants be required to propose to the court and other parties a scheme to re-

store the Plan's funds; that until such a proposal was approved by the court all payments owing under the Sale Agreement, Business Support Agreement and Amended Loan Agreement be deposited in an interest-bearing escrow account, and that defendants Stryco and Arquette be required to deposit in that account all monies theretofore received by them from defendants 860 Hamilton, Moore or Hoebich in connection with the sale or any other agreement.

19. The Secretary and the defendants agreed by stipulation dated January 30, 1976, that the Amended Loan Agreement, the Sale Agreement and the Business Support Agreement would be modified as provided in the stipulation to create a "New Transaction" and that the defendants would apply to the Department and the Service for an exemption for the New Transaction.

20. The New Transaction provides for repayment to the Plan by 860 Hamilton of Stryco's indebtedness by December 30, 1980, instead of by June 30, 1984. The monthly payments of \$1,850 with interest at 10 percent per annum on the unpaid balance, which is the maximum interest allowable to the Plan under applicable California law, are to remain the same. The initial payment to the Plan is to be increased by \$30,000, which is the amount that would otherwise have been paid to Stryco pursuant to the Sale Agreement. This amount is to be paid in addition to the \$20,000 payable to the Plan by June 30, 1975 pursuant to the Amended Loan Agreement.

21. The indebtedness to the Plan will be secured by a first security interest in equipment with a value approximately 100 percent of the amount outstanding on the loan, a second security interest in inventory and/or the proceeds of inventory through \$150,000, and a first security interest in all inventory and/or proceeds of inventory over \$150,000. Moore and Hoebich will increase their personal guarantees for repayment of the loan to the Plan to \$54,000, and their guarantee to Mr. and Mrs. Arquette under the Business Support Agreement will be subordinated to their guarantee to the Plan. Moore and Hoebich represent, by affidavits dated April 1, 1976, that each currently owns assets of sufficient value to cover the amount of the proposed personal guarantees to the Plan. As a result of the above security interests, the indebtedness of the Plan is more than 100 percent secured.

22. Payments to Mr. and Mrs. Arquette under the Business Support Agreement will be limited to \$20 per hour for a maximum of 600 hours actually worked by Arquette in any 12-month period, although Mr. and Mrs. Arquette are still to be paid the guarantee fee for their personal guarantee of certain bank loans. If Arquette is paid for fewer than 600 hours of work in any year, the difference between the maximum he could have been paid and the amount he is paid for work actually done is to be paid to the Plan. No payments are to be made to Arquette or Stryco other than the speci-

fied payments to Mr. and Mrs. Arquette until the indebtedness to the Plan has been liquidated.

23. The Secretary of Labor and the defendants have moved the court for a 90-day stay to permit the defendants to apply for an exemption for the New Transaction described above. The stay was granted, and defendants applied for an exemption on February 13, 1976.

24. Notice of the pending exemption as published in the FEDERAL REGISTER will be given by registered mail to all beneficiaries of the Plan, as well as to the attorneys for beneficiary Joel C. Harris and the Stryco Pension Trust Investment Committee. Such notice will be postmarked no later than five days following receipt by applicants, using all due diligence, of any notice of such publication in the FEDERAL REGISTER. Notice of the filing of the application was provided to the same persons by personal service or registered mail postmarked on or before February 18, 1976.

General information. The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption granted under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary with respect to a plan to which the exemption is applicable from certain other provisions of the Act and the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act which, among other things, require a fiduciary to discharge his duties respecting the plan solely in the interest of the plan's participants and beneficiaries and in a prudent fashion in accordance with subsection (a)(1)(B) of section 404 of the Act, nor does it affect the requirement of section 401(a) of the Code that a plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) The pending exemption, if granted, will not extend to transactions prohibited under section 406(b)(3) of the Act or section 4975(c)(1)(F) of the Code;

(3) Before an exemption may be granted under section 408(a) of the Act and section 4975(c)(2) of the Code, the Department and the Service must find that the exemption is administratively feasible, in the interests of the Plan and of its participants and beneficiaries, and protective of the rights of participants and beneficiaries of the Plan; and

(4) The pending exemption, if granted, will be supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory exemptions and transitional rules. Furthermore, the fact that a transaction is the subject of an exemption is not dispositive of whether the transaction would have been a prohibited transaction in the absence of such exemption or, though it would have been a prohibited transaction, is exempt by operation of a statutory exemption or a transitional rule.

Pursuant to section 408(a) of the Act and section 4975(c)(2) of the Code, the Department and the Service are required to offer an opportunity for a public hearing where a pending exemption relates to section 406(b) of the Act and section 4975(c)(1)(E) or (F) of the Code. A public hearing has already been requested with respect to this application for exemption by the plaintiff in the pending litigation. Any other interested person may submit a written request that a hearing be held relating to the requested exemption. Such written request must be received by the Department on or before June 18, 1976, and should state the reasons for such person's request for a hearing and the nature of such person's interest in the pending exemption.

All interested persons are also invited to submit written comments on the requested exemption contained herein. In order to receive consideration, such comments must be received by the Department on or before June 18, 1976.

All written comments and all requests for a hearing (preferably six copies) should be addressed to the Office of Employee Benefits Security, Room N-4716, U.S. Department of Labor, Washington, D.C. 20216, Attention: Application No. D-417. The application for exemption referred to herein, all comments relating thereto, and all requests for a hearing will be available for public inspection at the Public Document Room, Office of Employee Benefits Security, U.S. Department of Labor, Room N-4677, 200 Constitution Avenue NW., Washington, D.C. 20216.

Pending exemption. Based upon the facts and representations set forth in the application, it has been requested that an exemption be granted under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75-1 and Rev. Proc. 75-26 so that: (1) effective May 15, 1975 the restrictions of sections 406(a) and 406(b)(1) and (2) of the Act shall not apply to a transaction described in the Amended Loan Agreement, the Agreement of Purchase and Sale of Assets, Business Support Agreement and related documents as modified by the stipulation dated January 30, 1975, entered into by the Department, Stryco, 860 Hamilton, Moore, Hoebich and Arquette; and (II) effective February 13, 1976, the taxes imposed by sections 4975(a) and (b) of the Code, by reason of sections 4975(c)(1)(A) through (E) of the Code shall not apply to a proposed transaction described in the Amended Loan Agreement, the Agreement of Purchase and Sale of Assets, Business Support Agreement and related documents as modified by the stipulation dated January 30, 1976, entered into by the Department, Stryco, 860 Hamilton, Moore, Hoebich and Arquette.

The pending exemption, if granted, will be subject to the express conditions that the material facts and representations contained in the application are

V 4 1 1 9 7

M A Y 1 8

7 6 U M I

true and complete, and that the application accurately describes all material terms of the transactions to be consummated pursuant to the exemption.

Signed at Washington, D.C., this 13th day of May, 1976.

JAMES D. HUTCHINSON,  
Administrator of Pension and  
Welfare Benefit Programs,  
U.S. Department of Labor.

DONALD C. ALEXANDER,  
Commissioner of Internal Revenue.

#### Occupational Safety and Health Administration

#### NATIONAL ADVISORY COMMITTEE ON OCCUPATIONAL SAFETY AND HEALTH Meeting

Notice is hereby given that the Subgroup on Policy and Issues, National Advisory Committee on Occupational Safety and Health, will meet on June 3, 1976 in Room N-4437, Department of Labor Building, 3rd Street and Constitution Avenue, N.W., Washington, D.C. 20210.

The meeting will begin at 9:00 a.m. The public is invited to attend. The Subgroup will develop recommendations on the relationship of OSHA and small business. The Subgroup also will discuss possible subjects for future agendas.

Anyone wishing to submit written data or views concerning these agenda items should submit them, preferably with 20 duplicate copies, to the Committee's Executive Secretary as soon as possible. These documents will be presented to the Subgroup and included in the official record of the meeting.

Anyone wishing to make an oral presentation should contact the Committee Management Office prior to the meeting. The request should state the amount of time desired, the capacity in which the person will appear, and a brief outline of the content of the presentation. Oral presentations will be scheduled at the discretion of the Subgroup chairman.

Please address all communications as follows:

N. Huckle, Committee Management Office,  
National Advisory Committee on Occupational Safety and Health, Room N-3635,  
3rd Street and Constitution Avenue, N.W.,  
Washington, D.C. 20210.

Official records of the meeting will be available for public inspection at the above address.

Signed at Washington, D.C., this 10th day of May 1976.

J. GOODSELL,  
Executive Secretary.

#### Office of the Secretary (TA-W 802)

#### COMPLETE AUTO TRANSIT, INC.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976 the Department of Labor received a petition dated April 19,

1976 which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") on behalf of the workers and former workers of Complete Auto Transit, Inc., St. Louis, Missouri, a division of Ryder Systems, Inc., Miami, Florida (TA-W-802). Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with transportation services provided by Complete Auto Transit, Inc., or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 28, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C., this 23rd day of April 1976.

MARVIN M. FOOKS,  
Director, Office of  
Trade Adjustment Assistance.

#### MUSHROOMS

#### Industry Study Report

On March 17, 1976, the International Trade Commission determined that increased imports of mushrooms are a substantial cause of serious injury to the domestic industry for purposes of the import relief provisions of the Trade Act of 1974 (41 FR 12358).

Section 224 of the Trade Act directs the Secretary of Labor to initiate an industry study whenever the ITC begins an investigation under the import relief provisions of the Act. The purpose of the study is to determine the number of workers in the domestic industry petitioning for relief who have been or are

likely to be certified as eligible for adjustment assistance and the extent to which existing programs can facilitate the adjustment of such workers to import competition. The Secretary is required to make a report of this study to the President and also make the report public (with the exception of information which the Secretary determines to be confidential).

The Department of Labor has concluded its report on mushrooms. The report found as follows:

1. Since April 3, 1975, the effective date of the adjustment assistance program, the Department of Labor has not received any petitions for certification of eligibility to apply for worker adjustment assistance from workers engaged in the growing and processing of mushrooms.

2. Over the next twelve months some of the estimated 100 or fewer employees on layoff status from processing plants since 1975 may apply for certification of eligibility to apply for adjustment assistance and may be certified by the Department of Labor. There is no evidence of any widespread or significant unemployment among the farm workers. Since the industry has only slight seasonality, these workers would not be excluded from trade readjustment and relocation allowances by the requirement in the Act that all eligible workers must have been employed at least 26 of the 52 weeks immediately preceding their separations.

3. Somewhat fewer than 100 workers are likely to be laid off from mushroom processing plants over the next year if the decline in the industry of the past few years continues. Many of these workers can be expected to apply for adjustment assistance.

4. The workers that were separated from the industry are located primarily in southeastern Pennsylvania and northern Delaware. Local unemployment rates in all of the impacted areas were close to 7 percent or higher. In view of these high general unemployment rates and the lack of demand for these workers in other food processing plants in the impacted areas, their employment prospects are not good.

5. The Comprehensive Employment and Training Act (CETA) programs may not be capable of meeting the needs of the displaced workers, with the possible exception of northern Delaware. On balance, the actual levels of enrollment in many of these programs are very close to the expected levels, indicating few current vacancies. The Employment and Training Administration through the State Employment Service has the authority to purchase additional training when CETA funds are not available.

Copies of the Department report containing nonconfidential information developed in the course of the 6-month investigation may be purchased by contacting the Office of Trade Adjustment Assistance, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210 (phone 202-523-7665).

Signed at Washington, D.C., this 12th day of May 1976.

JOEL SEGALL,  
Deputy Under Secretary,  
International Affairs.

#### INTERSTATE COMMERCE COMMISSION

[AB 109]

#### QUANAH, ACME AND PACIFIC RAILWAY COMPANY ABANDONMENT BETWEEN ACME AND FLOYDADA, IN HARDEMAN, COTTE, MOTLEY AND FLOYD COUNTIES, TEXAS

Present: Virginia Mae Brown, Commissioner, to whom the matter which is the subject of this order has been assigned for action thereon.

Upon consideration of the record in the above-entitled proceeding, and of a staff-prepared environmental threshold assessment survey which is available to the public upon request; and

*It appearing*, That no environmental impact statement need be issued in this proceeding because this proceeding does not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. §§ 4321, et seq.; and good cause appearing therefor:

*It is ordered*, That applicant be, and it is hereby, directed to publish the appended notice in a newspaper of general circulation in Hardeman, Cottle, Motley and Floyd Counties, Tex., on or before May 27, 1976 and certify to the Commission that this has been accomplished.

*And it is further ordered*, That notice of this finding shall be given to the general public by depositing a copy of this order and the attached notice in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection, and by delivering a copy of the notice to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER as notice to interested persons.

Dated at Washington, D.C., this 5th day of May 1976.

By the Commission, Commissioner Brown.

[SEAL] ROBERT L. OSWALD,  
Secretary.

The Interstate Commerce Commission hereby gives notice that by order dated May 5, 1976, it has been determined that the proposed abandonment by the Quanah, Acme and Pacific Railway Company of a line of railroad between Acme and Floydada, Tex., a distance of 104.8 miles, if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. §§ 4321, et seq., and that preparation of

a detailed environmental impact statement will not be required under section 4332(2) (C) of the NEPA.

It was concluded, among other things, that diversion of rail traffic at the levels of recent years should result in only minimal increases in energy consumption, highway traffic, air pollution, and noise intrusions. Although certain efforts at economic development along the line are occurring, the abandonment is not expected to have a serious adverse effect on these efforts or on rural economic or community development in the area.

This determination was based upon the staff preparation and consideration of an environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-275-7692.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C. 20423, on or before June 11, 1976.

This negative environmental determination shall become final unless good and sufficient reason demonstrating why an environmental impact statement should be prepared for this action is submitted to the Commission by the above-specified date.

[No. 36253]

#### ROADWAY EXPRESS, INC., PETITION FOR DECLARATORY ORDER—CLASSIFICA- TION DESCRIPTION

At a Session of the Interstate Commerce Commission, Division 2, held at its office in Washington, D.C., on the 7th day of May, 1976.

*It appearing*, That, on September 8, 1975, a petition was filed by Roadway Express, Inc. requesting a declaratory order, concerning a commodity described in the petition as "wire protector sleeves, plastic, split."

*It further appearing*, That the issue raised by Roadway in its petition for declaratory order is whether the transportation of "wire protector sleeves, plastic, split", having a density of two pounds per cubic foot, but less than four pounds, are properly ratable according to National Motor Freight Classification Item 156600, Sub 3, as plastic articles, other than expanded, NOI, at LTL Class 250 or whether they are properly ratable as plastic tubing, in straight lengths, inside diameter two inches or less, not exceeding 21 feet in length, according to Classification Item 156994, Sub 4, at LTL Class 70.

*It further appearing*, That the petition discloses a controversy or uncertainty which would warrant the entry by the Commission of a declaratory order for the future;

*And it further appearing*, That by petitions filed October 1, 1975, and October 8, 1975, Essex International, Inc., and the National Classification Committee, respectively, seek leave to intervene should a proceeding be instituted; that the Na-

tional Classification Committee is a part of the Association which publishes the National Motor Freight Classification including the classification ratings at issue in this proceeding; and that Essex International, Inc., is a consignee receiving shipments of the commodity herein involved and will be affected by the decision herein;

Wherefore, and for good cause:

*It is ordered*, That the petition be, and it is hereby, granted to the extent of instituting this proceeding to determine the question presented.

*It is further ordered*, That the National Classification Committee and Essex International, Inc. be, and they are hereby, permitted to intervene and be treated as parties to this proceeding, provided, however, that the permission to intervene herein granted shall not be construed to allow intervenors to broaden unduly the issues raised in this proceeding.

*And it is further ordered*, That any person interested in the matter which is the subject of the petition and who wishes to participate actively in further proceedings herein shall notify this Commission, by filing with the Office of Proceedings, Room 5342, 12th Street and Constitution Avenue, N.W., Washington, D.C. 20423, on or before May 31, 1976, an original and one copy of a statement of his intention to participate. Thereafter, this proceeding will be set for handling under the modified procedure. The petition and statements of intention to participate, if any, will be available for public inspection at the offices of the Commission during regular business hours.

A copy of this order will be served upon the petitioner, and notice of the filing of the petition will be given to the general public by depositing a copy of this order in the Office of the Commission's Secretary at Washington, D.C., and by delivering a copy to the Director, Office of the Federal Register, for publication therein.

By the Commission, Division 2, Commissioners Hardin, O'Neal and Clapp.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[Notice No. 48]

#### ASSIGNMENT OF HEARINGS

MAY 13, 1976.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearing will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 41404 Sub-122, Argo-Collier Truck Lines, now being assigned July 27, 1976 (1 day), at New Orleans, La., in a hearing room to be later designated.

MC 119792 Sub-51, Chicago Southern Transportation Company, a Corporation, now being assigned July 28, 1976 (3 days), at New Orleans, La., in a hearing room to be later designated.

No. 36098, *Sterling Colorado Beef Company, Inc. v. The Atchison, Topeka and Santa Fe Railway Company*, et al., now being assigned for continued hearing on May 28, 1976, at the Office of the Interstate Commerce Commission, Washington, D.C.

MC 140902 Sub-1, DPD, Inc., now being assigned for continued hearing on May 26, 1976, at the Office of the Interstate Commerce Commission, Washington, D.C.

MC 59135 (Sub-No. 31), Red Star Lines of Auburn, Inc. DBA Red Star Express Lines now assigned July 12, 1976, at Pittsburgh, Pa. and July 19, 1976, at New York, N.Y. now being advanced to June 21, 1976 (1 week), at Pittsburgh, Pa. and June 28, 1976, at New York (1 week); in a hearing room to be later designated.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[Notice No. 250]

#### MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

MAY 18, 1976.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to Sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before June 7, 1976. Pursuant to Section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-76417. By order of May 13, 1976 the Motor Carrier Board approved the transfer to R. T. Truck Service, Inc., Hardinsburg, Ky., of the operating rights in Certificate No. MC 136072 issued April 12, 1972, to Scott County Freight Lines, Inc., Scottsburg, Ind., authorizing the transportation of general commodities, with exceptions, over regular routes, between Scottsburg, Ind., and Louisville, Ky., serving no intermediate points, and restricted against interchange at Scottsburg and Louisville and to the transportation of traffic originating in or destined to Scottsburg and Louisville. Rudy Yes-sin, 314 Wilkinson St., Frankfort, Ky. 40601, attorney for applicants.

No. MC-FC-76428. By order of May 12, 1976 the Motor Carrier Board approved the transfer to C. Summers, Inc., Elizabethtown, Pa., of the operating rights in Permits No. MC 129886, MC 129886 (Sub-No. 1), MC 129886 (Sub-No. 2), MC 129886 (Sub-No. 3), MC 129886 (Sub-No. 4), MC 129886 (Sub-No. 7), and MC 129886 (Sub-No. 9), issued May 8, 1969, February 10, 1970, September 4, 1970, March 24, 1972, December 21, 1970, May 16, 1973, and May 10, 1974, respectively, to Calvin E. Summers, Elizabethtown, Pa., authorizing the transportation of meats, meat products, and frozen foods from and to specified points and areas in Pennsylvania, Delaware, Maryland, New York, New Jersey, Ohio, Virginia, West Virginia, Maine, New Hampshire, Vermont, Connecticut, Massachusetts, Rhode Island, Kentucky, Tennessee, North Carolina, South Carolina, Alabama, Georgia, Florida, Mississippi, Michigan, Arkansas, Illinois, Indiana, Louisiana, Missouri, Texas, Wisconsin, and the District of Columbia. John W. Frame, 2207 Old Gettysburg Rd., Camp Hill, Pa. 17011, applicant's representative.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[FR Doc.76-14450 Filed 5-17-76;8:45 am]

#### FOURTH SECTION APPLICATIONS FOR RELIEF

MAY 13, 1976.

An application, as summarized below, has been filed requesting relief from the requirements of Section 4 of the Interstate Commerce Act to permit common carriers named or described in the ap-

plication to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1100.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

FSA No. 43161—*Newsprint Paper, Also Returned Shipments of Newsprint Paper Winding Cores, from Sheldon, Texas to Points in Illinois*. Filed by Southwestern Freight Bureau, Agent, (No. B-604), for interested rail carriers. Rates on newsprint paper, also returned shipments of newsprint paper winding cores, in carloads, as described in the application, from Sheldon, Texas, to points in Illinois.

Grounds for relief—Rate relationship. Tariff—Supplement 68 to Southwestern Freight Bureau, Agent, tariff 306-P, I.C.C. No. 5104. Rates are published to become effective on June 12, 1976.

FSA No. 43162—*Phosphatic Fertilizer Solution to Points in Western Trunk Line Territory*. Filed by Trans-Continental Freight Bureau, Agent, (No. 503), for interested rail carriers. Rates on phosphatic fertilizer solution, in tank-car loads, as described in the application, from Silver Bow, Montana, to points in western trunk-line territory, Illinois, and Kentucky.

Grounds for relief—Market competition, short-line distance formula and grouping.

Tariff—Supplement 196 to Trans-Continental Freight Bureau, Agent, tariff 14-P, I.C.C. No. 1785. Rates are published to become effective on June 15, 1976.

FSA No. 43163—*Joint Water-Rail Container Rates—A. P. Moller-Maersk Line*. Filed by A. P. Moller-Maersk Line (No. 4), for itself and interested rail carriers. Rates on general commodities, between rail and motor freight terminals on the U.S. Gulf and Atlantic Coasts, and ports in Japan, Hong Kong, The Philippines, Taiwan, Thailand, Singapore, Malaya, Korea and Indonesia.

Grounds for relief—Water competition. Tariff—A. P. Moller-Maersk Line tariff I.C.C. No. 8. Rates are published to become effective on May 30, 1976.

By the Commission.

[SEAL] ROBERT L. OSWALD,  
Secretary.

#### PART II:

## ENVIRONMENTAL PROTECTION AGENCY

### CARBON BLACK MANUFACTURING POINT SOURCE CATEGORY

Effluent Limitations Guidelines and Standards

federal register

V 4 1 1 9 7 MAY 18 7 6 UMI

**Title 40—Protection of Environment**  
**CHAPTER I—ENVIRONMENTAL**  
**PROTECTION AGENCY**  
**SUBCHAPTER N—EFFLUENT LIMITATIONS,**  
**GUIDELINES AND STANDARDS**  
**PART 458—CARBON BLACK MANUFACTURING POINT SOURCE CATEGORY**

[FRL 540-4]

**Interim Final Rule Making**

Notice is hereby given that effluent limitations and guidelines for existing sources to be achieved by the application of best practicable control technology currently available as set forth in interim final form below are promulgated by the Environmental Protection Agency (EPA). The regulation set forth below establishes Part 458—carbon black manufacturing point source category and will be applicable to existing sources for the carbon black furnace process subcategory (Subpart A), the carbon black thermal process subcategory (Subpart B), the carbon black channel process subcategory (Subpart C), and the carbon black lamp process (Subpart D) of the carbon black manufacturing point source category pursuant to sections 301, 304 (b) and (c), of the Federal Water Pollution Control Act, as amended (33 U.S.C. 1251, 1311, 1314 (b) and (c), 86 Stat. 816 et seq.; P.L. 92-500) (the Act). Simultaneously, the Agency is publishing in proposed form effluent limitations and guidelines for existing sources to be achieved by the application of best available technology economically achievable, standards of performance for new point sources and pretreatment standards for new sources for the carbon black furnace process subcategory (Subpart A), the carbon black thermal process subcategory (Subpart B), the carbon black channel process subcategory (Subpart C), and the carbon black lamp process subcategory (Subpart D).

(a) Legal authority. (1) Existing point sources. Section 301(b) of the Act requires the achievement by not later than July 1, 1977, of effluent limitations for point sources, other than publicly owned treatment works, which require the application of the best practicable control technology currently available as defined by the Administrator pursuant to section 304(b) of the Act. Section 301(b) also requires the achievement by not later than July 1, 1983, of effluent limitations for point sources, other than publicly owned treatment works, which require the application of best available technology economically achievable which will result in reasonable further progress toward the national goal of eliminating the discharge of all pollutants, as determined in accordance with regulations issued by the Administrator pursuant to section 304(b) of the Act.

Section 304(b) of the Act requires the Administrator to publish regulations providing guidelines for effluent limitations setting forth the degree of effluent reduction attainable through the application of the best practicable control

technology currently available and the degree of effluent reduction attainable through the application of the best control measures and practices achievable including treatment techniques, process and procedural innovations, operating methods and other alternatives. The regulation herein sets forth effluent limitations and guidelines, pursuant to sections 301 and 304(b) of the Act, for the carbon black furnace process subcategory (Subpart A), the carbon black thermal process subcategory (Subpart B), the carbon black channel process subcategory (Subpart C), and the carbon black lamp process subcategory (Subpart D) of the carbon black manufacturing point source category.

Section 304(c) of the Act requires the Administrator to issue to the States and appropriate water pollution control agencies information on the processes, procedures or operating methods which result in the elimination or reduction of the discharge of pollutants to implement standards of performance under section 306 of the Act. The report or "Development Document" referred to below provides, pursuant to section 304 (c) of the Act, information on such processes, procedures or operating methods.

(2) New Sources. Section 306 of the Act requires the achievement by new sources of a Federal standard of performance providing for the control of the discharge of pollutants which reflects the greatest degree of effluent reduction which the Administrator determines to be achievable through application of the best available demonstrated control technology, processes, operating methods, or other alternatives, including, where practicable, a standard permitting no discharge of pollutants.

Section 306 also requires the Administrator to propose regulations establishing Federal standards of performance for categories of new sources included in a list published pursuant to section 306 of the Act. The regulations proposed herein set forth the standards of performance applicable to new sources for the carbon black furnace process subcategory (Subpart A), the carbon black thermal process subcategory (Subpart B), the carbon black channel process subcategory (Subpart C), and the carbon black lamp process subcategory (Subpart D) of the carbon black manufacturing point source category.

Section 307(b) of the Act requires the establishment of pretreatment standards for pollutants introduced into publicly owned treatment works and 40 CFR 128 establishes that the Agency will propose specific pretreatment standards at the time effluent limitations are established for point source discharges.

Section 307(c) of the Act requires the Administrator to promulgate pretreatment standards for new sources at the same time that standards of performance for new sources are promulgated pursuant to section 306. In another section of the FEDERAL REGISTER regulations are proposed in fulfillment of these requirements.

(b) Summary and basis of interim final effluent limitations and guidelines for existing sources, proposed effluent limitations and guidelines for existing sources to be achieved by the application of the best available technology economically achievable, proposed standards of performance for new sources, and proposed pretreatment standards for new sources.

(1) General methodology. The effluent limitations and guidelines set forth herein were developed in the following manner. The point source category was first studied for the purpose of determining whether separate limitations are appropriate for different segments within the category. This analysis included a determination of whether differences in raw material used, product produced, manufacturing process employed, age, size, wastewater constituents and other factors require development of separate limitations for different segments of the point source category. This included a survey of the source, flow and volume of water used in the process employed, the sources of waste and wastewaters in the operation and the constituents of all wastewater. The constituents of the wastewaters which should be subject to effluent limitations were identified.

The control and treatment technologies existing within each segment were identified. This included an identification of each distinct control and treatment technology, including both in-plant and end-of-process technologies, which is existent or capable of being designed for each segment. It also included an identification of, in terms of the amount of constituents and the chemical, physical and biological characteristics of pollutants, the effluent level resulting from the application of each of the technologies. The problems, limitations and reliability of each treatment and control technology were also identified. In addition, the nonwater quality environmental impact, such as the effects of the application of such technologies upon other pollution problems, including air, solid waste, noise and radiation were identified. The energy requirements of each control and treatment technology were determined as well as the cost of the application of such technologies.

The information, as outlined above, was then evaluated in order to determine what levels of technology constitute the "best practicable control technology currently available." In identifying such technologies, various factors were considered. These included the total cost of application of technology in relation to the effluent reduction benefits to be achieved from such application, the age of equipment and facilities involved, the process employed, the engineering aspects of the application of various types of control techniques, process changes, nonwater quality environmental impact (including energy requirements) and other factors.

The data upon which the above analysis was performed included EPA permit applications, EPA sampling and inspection

reports, consultant reports, and industry submissions.

(2) Summary of conclusions with respect to the carbon black furnace process subcategory (Subpart A), the carbon black thermal process subcategory (Subpart B), the carbon black channel process subcategory (Subpart C), and the carbon black lamp process subcategory (Subpart D) of the carbon black manufacturing point source category.

(i) Categorization.

For the purpose of establishing effluent limitations, guidelines and standards, carbon black manufacturing was divided into four subcategories, the furnace black, thermal black, channel black and lamp black subcategories. Factors such as type of product, water requirements, type of manufacturing processing, treatability of wastewaters, and other means were used to establish effluent limitations guidelines and standards of performance for each of the specific subcategories. The largest contributing factors are processing and treatability based on production volume and specific water requirements. For example, the production of carbon black by the furnace and thermal processes are net users of water. That is, more water enters the processes than is discharged; therefore, the carbon black furnace and thermal processes subcategories operations can achieve a no discharge of process wastewater pollutants by recycling process effluent waters to the quench step. The channel and lamp black processes are dry operations also resulting in no discharge of process wastewater pollutants.

(ii) Waste characteristics.

The known significant wastewater pollutants and pollutant properties resulting from carbon black manufacturing include TDS, TSS, pH, acidity, alkalinity, iron, copper and manganese.

(iii) Origin of wastewater pollutants.

Sources of wastewater pollutants in the carbon black industry include aqueous wastes from exhaust scrubbers, process equipment cleanouts, production area washdowns, spill washdowns, and laundry operations.

Pollutant parameters for carbon black manufacturing pertain to wastewaters from process operations. Process wastewater pollutants are proportional to the level of production and it was therefore possible to establish limitations and standards on the basis of production. Other pollutant sources within carbon black manufacturing plants from non-process sources such as utilities, laboratories and others are generally not related to production unless otherwise noted.

(iv) Treatment and control technology.

Wastewater treatment and control technologies have been studied for each subcategory of this industry to determine what is the best practicable control technology currently available.

Two of the four subcategories are "dry processes", i.e., they have only facilities which do not discharge wastewaters. The following discussion of treatment technology provides the basis for the effluent limitations guidelines. This discussion does not preclude the selection of other wastewater treatment alternatives which provide equivalent or better levels of treatment.

Wastewater impoundments have been identified as a practicable pollution control technology, for all subcategories other than channel black, which is not a water user. However, if not properly designed, maintained and operated, they may be subject to runoff from their drainage area. New sources can be properly located and designed to avoid this problem. Furthermore, existing impoundments can be modified by construction of diversion ditches or by increasing the amount of surge capacity of the impoundment with either a higher dam or a lower operating water level.

The application and performance of various control and treatment technologies to reduce the quantities of pollutants discharged to navigable waters as a result of the production or processing operations in carbon black manufacturing are specific to the product manufactured or processed. However, many in-process control measures, may be generally applied to several process subcategories. Good in-process control is a significant pollution abatement technique for all products produced in the carbon black industry. Practices such as minimization and containment of spills and leaks, segregation of waste streams, monitoring process wastewater, water conservation and reuse, wastewater equalization and good housekeeping, process operation and equipment maintenance are necessary to eliminate or reduce the volume of process wastewater requiring treatment.

Most carbon black production from the furnace and thermal processes generates no effluent discharge if end-of-pipe evaporation/recycle of process waters are used. Plants in this subcategory frequently achieve no discharge by virtue of use of evaporative ponds.

The channel and lamp black processes are essentially dry, requiring no additional effluent treatment, because the existing technology averts the discharge of process wastewater pollutants under normal operating conditions. One plant employs a wet scrubber system, but this facility also achieves no discharge.

Solid waste control must be considered. Pollution control technologies generate many different amounts and types of solid wastes and liquid concentrates through the removal of pollutants. These substances vary greatly in their chemical and physical composition and may be either hazardous or non-hazardous. A variety of potential techniques may be employed to dispose of these substances depending on the degree of hazard.

If thermal processing (incineration) is the choice for disposal, provisions must be made to ensure against entry of hazardous pollutants into the atmosphere. Consideration should also be given to recovery of materials of value in the wastes.

For those waste materials considered to be nonhazardous where land disposal is the choice for disposal, practices sim-

ilar to proper sanitary landfill technology may be followed. The principles set forth in the EPA's Land Disposal of Solid Wastes Guidelines 40 CFR Part 241 may be used as guidance for acceptable land disposal techniques.

Best practicable control technology requires disposal of the pollutants removed from wastewaters in this industry in the form of solid wastes and liquid concentrates. In most cases these are nonhazardous substances requiring only minimal custodial care. However, some constituents may be hazardous and may require special consideration. In order to ensure long-term protection of the environment from these hazardous or harmful constituents, special consideration of disposal sites must be made. All landfill sites where such hazardous wastes are disposed should be selected so as to prevent migration of these contaminants to ground or surface waters. In cases where geologic conditions may not reasonably ensure this, adequate legal and mechanical precautions (e.g., impervious liners) should be taken to ensure long-term protection to the environment from hazardous materials. Where appropriate, the location of solid hazardous materials disposal sites should be permanently recorded in the appropriate office of legal jurisdiction.

(v) Cost estimates for control of wastewater pollutants.

Capital and annual costs were computed for each product type/process within a subcategory on the basis of the cost per 1,000 pounds of production. Some simplifying assumptions were made to determine costs on a product by product basis. These assumptions are:

(1) that each product type/process is a discrete plant whose process wastewater is treated in a single end-of-process waste treatment system.

(2) that all wastewaters are treated by the model end-of-process system regardless of alternate disposal techniques and in-process changes.

The cost for carbon black plants using the furnace process or the thermal process is low enough to be passed on through as price changes or absorbed into the profit margin with minimum economic effects. The total investment cost to meet BPCTCA and BATEA is \$2,380,000. Annual cost for the carbon black subcategories for BPCTCA and BATEA is \$500,000. Hence, the economic impact of regulating the carbon black industry is expected to be small.

New plants being built can avoid major future waste abatement costs by inclusion of: (1) dikes, emergency holding ponds, catch basins and other containment facilities, for leaks, spills and washdowns, in those cases where it is not possible to minimize these by means of in-plant operations, (2) piping, trenches, sewers, sumps, and other isolation facilities to keep leaks, spills and process water separate from cooling and sanitary water, (3) non-contact condensers for cooling water, (4) efficient reuse, recycling and recovery of all possible raw materials and by-products and

(5) closed cycle water utilization whenever possible.

Alternate disposal methods such as incineration or like processes are also commonly used for disposal of highly concentrated and difficult wastes. In any specific case, the manufacturer can best determine the most attractive economic alternatives for in-process controls and end-of-process treatment which will meet the limitations required.

Cost information was obtained from industry, from engineering firms, equipment suppliers, government sources, and available literature. Costs are based on actual industrial installations or engineering estimates for projected facilities as supplied by contributing companies. In the absence of such information, cost estimates have been developed from either plant-supplied costs for similar waste treatment installation at plants making similar products or general cost estimates for treatment technology.

(vi) Energy requirements and non-water quality environmental impacts.

There are no major nonwater quality considerations which may be associated with ultimate waste disposal since the wastes flows range from zero to quite small quantities.

Other nonwater quality aspects, such as noise levels, will not be perceptibly affected. Most chemical plants generate fairly high noise levels (85-95 decibels) within the battery limits because of equipment such as pumps, compressors, steam jets, flare stacks, etc. Equipment associated with in-process control systems would not add significantly to these levels.

Energy requirements associated with treatment and control technologies are not significant when compared to the total energy requirements for this industry. Power consumption for the in-plant recycle system would require 0.2 of one percent of the total plant power consumption for typical carbon black plants.

(vii) Economic and inflationary impact analysis.

Executive Order 11821 (November 27, 1974) requires that major proposals for legislation and promulgation of regulations and rules by Agencies of the executive branch be accompanied by a statement certifying that the inflationary impact of the proposals has been evaluated. The Administrator has directed that all regulatory actions that are likely to result in (1) annualized costs of \$100 million, (2) additional costs of production more than 5% of the selling price, or (3) an energy consumption increase equivalent to 25,000 barrels of oil per day will require a certified inflationary impact statement. The analysis indicates that the total investment required to meet these regulations is \$2.4 million with an annualized cost of \$0.5 million. The costs as a percent of selling price are no more than 0.8%. Although the criteria for performing a certified inflationary impact statement have not been exceeded, the analysis that has been performed meets all the necessary requirements. It is

hereby certified that the economic and inflationary effects of this proposal have been carefully evaluated in accordance with Executive Order 11821.

The Agency has considered the economic impact of the internal and external costs of the effluent limitations. Internal costs given in 1974 dollars are defined as investment and annual cost, where annual cost is composed of operating costs, maintenance cost, the cost of capital, and depreciation. The cost of pollution treatment was obtained from the Development Document and is based upon water recycle technology. The costs do not include work such as storm sewer piping or changes in plant equipment that might be necessary in some plants. These plant modifications would cause the economic and inflationary impact to be greater than indicated below, but not so much as to cause a severe effect on the industry. External cost deals with the assessment of the economic impact of the internal costs in terms of price increases, production curtailments, plant closures, resultant unemployment, community and regional impacts, international trade, and industry growth.

The furnace black subcategory requires an investment of \$1,870,000 and incurs annual costs of \$380,000. These costs are incurred in 1977 with no additional expense required in 1983. The unit treatment costs are only 0.4% of selling price, thus limiting the price increase to a like magnitude. These furnace black plants have small washdown and stormwater runoff streams that could be segregated. This process uses fuel oil as a feedstock rather than the higher priced natural gas as used by the thermal black process, causing some growth of the furnace black process.

There is a thermal black plant which is a direct discharger, using wet scrubbers for air pollution control. This plant has significantly higher wastewater flows than the norm for the subcategory. Other plants who have no discharge also use wet scrubbers. It is possible that this thermal black plant could incur substantially higher costs for meeting the 1977 standards than the figures indicated.

The thermal black subcategory requires an investment of \$510,000 and incurs annual costs of \$120,000. These costs are incurred in 1977 with no additional expense necessary in 1983. The unit treatment costs are 0.8%, thus limiting the likely price increase to a similar amount. This manufacturing process uses natural gas as a feedstock, causing the use of the thermal black process to decline as natural gas became relatively more expensive than fuel oil. There are currently three thermal black plants that are achieving zero discharge. There appear to be no major differences in product between the one discharging and the three nondischarging plants in this subcategory. Additionally, the recent up-swing in automotive production, to which carbon black production is closely tied, has increased the demand and decreased the price elasticity. It is primarily this increase in demand cou-

pled with the relatively low treatment costs involved that cause the economic impact to this industry to be minimal.

Neither the channel black or lamp black subcategories discharged process wastewater, so there is no economic impact on these subcategories.

The report entitled "Development Document for Interim Final Effluent Limitations, Guidelines and Proposed New Source Performance Standards for the Carbon Black Manufacturing Point Source Category" details the analyses undertaken in support of the interim final regulations set forth herein and is available for inspection in the EPA Public Information Reference Unit, Room 2922 (EPA Library), Waterside Mall, Washington, D.C., 20460, at all EPA regional offices, and at State water pollution control offices. A supplementary analysis prepared for EPA of the possible economic effects of the regulation is also available for inspection at these locations. Copies of both of these documents are being sent to persons or institutions affected by the proposed regulation or who have placed themselves on a mailing list for this purpose (see EPA's Advance Notice of Public Review Procedures, 38 F.R. 21202, August 6, 1973). An additional limited number of copies of both reports are available. Persons wishing to obtain a copy may write the Environmental Protection Agency, Effluent Guidelines Division, Washington, D.C. 20460, Attention: Distribution Officer, WH-552.

When this regulation is promulgated in final rather than interim form, revised copies of the Development Document will be available from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. Copies of the economic analysis document will be available through the National Technical Information Service, Springfield, VA 22151.

(c) Summary of public participation. Prior to this publication, the agencies and groups listed below were consulted and given an opportunity to participate in the development of effluent limitations, guidelines and standards proposed for the carbon black manufacturing category. All participating agencies have been informed of project developments. An initial draft of the Development Document was sent to participants and comments were solicited on that report. The following are the principal agencies and groups consulted: Effluent Standards and Water Quality Information Advisory Committee (established under section 515 of the Act); all State and U.S. Territory Pollution Control Agencies; Monsanto Company; U.S. Department of Health, Education and Welfare; Cabot Corporation; National Ecological Research Center; Office of Environmental Affairs; Ohio River Valley Sanitation Commission; The Conservation Foundation; Businessmen for the Public Interest; Environmental Defense Fund, Inc.; Natural Resources Defense Council; American Society of Civil Engineers; Water Pollution Control Federation; National

Wildlife Federation; Carbon Adsorption Systems; American Carbon Committee; Carbon Black Producers Traffic Committee; Manufacturing Chemists Association; American Society of Mechanical Engineers; American Medical Association, Public Health Division; U.S. Water Resources Council; U.S. Department of Defense; U.S. Department of Interior; Ashland Carbon Company; Cabot Corporation; Cities Services; Continental Carbon Company; J. M. Huber Corporation; Sid Richardson Carbon and Gasoline Company; Thermoatomic Carbon Company.

It should be noted that some of the recipients of the contractor's draft documents appear to be from persons involved in manufacturing activities not covered in this regulation. This situation may be due to the fact that eight industries were handled administratively within the project called miscellaneous chemicals, and that the development document put out for public comment embraced all eight industries.

The following responded with comments: Cabot Corporation; Effluent Standards and Water Quality Information Advisory Committee; J. M. Huber Corporation; Michigan Department of Natural and Economic Resources; National Ecological Research Center; North Carolina Department of Natural and Economic Resources; State of Delaware Department of Natural Resources and Environmental Control; U.S. Department of Interior; U.S. EPA Region VI; and U.S. Water Resource Council.

The primary issues raised in the development of these interim final effluent limitations and guidelines are as follows:

(1) One commenter's concern was thermal pollution can be as drastic in groundwater as in surface water and should be considered in setting effluent limitations guidelines.

All cooling water in this industry is direct contact quench water and is vented as steam to the atmosphere; therefore thermal pollution to groundwater is not a problem in the carbon black segment.

(2) One commenter was concerned with the potential groundwater problem of landfilling solid wastes.

This is not expected to be a problem for the carbon black manufacturing point source category since all known potentially toxic or hazardous materials in carbon black are essentially inert. Some plants, due to a lack of available space and the fact that carbon is combustible, are burning the solid wastes in enclosed brick-lined pits. This is an inexpensive viable alternate to the landfill problem.

(3) Several commenters felt that the no discharge of process wastewater for the furnace black process was unrealistic. The no discharge level could not be met without product contamination resulting due to excess dissolved solids build-up resulting in high ash content on the carbon product.

This problem does not exist in the arid region of the southwest where all fifteen furnace plants have achieved no discharge of process wastewater, nor is this

expected to be a problem in the water surplus region. The EPA survey presented in the development document clearly shows that eight out of nineteen of these plants manufacturing all grades of carbon black in water surplus regions have also achieved no discharge of process wastewater pollutants without product contamination. The other eleven plants in the water surplus regions, making the same range of products, can easily convert to no discharge without product contamination. Data available at this time indicate that recycle will not cause a quality problem since the ratio of recycled water to total quench water is small.

(4) One commenter believed that dual-media filtration is not a demonstrated control technology.

It should be understood that the treatment system is presented only for a cost model. The choice of treatment is up to the individual plant. Dual-media filtration is well known and demonstrated technology, currently used in the petroleum refining, grain milling and other industries for effluent solids control. The basic characteristics of the solids in this effluent are amenable to treatment in this way.

A number of other comments were received and were considered not to be applicable to the subcategory(ies) being promulgated today and have been omitted from the preceding discussion. Appropriate consideration and responses will be made at the time of publication of the regulations applicable to those subcategories.

The Agency is subject to an order of the United States District Court for the District of Columbia entered in *Natural Resources Defense Council v. Train et al.* (Cv. No. 1609-73) which requires the promulgation of regulations for this industry category no later than April 30, 1976. This order also requires that such regulations become effective immediately upon publication.

It has not been practicable to develop and publish regulations for this category in proposed form, to provide a 30 day comment period, and to make any necessary revisions in light of the comments received within the time constraints imposed by the court order referred to above. Accordingly, the Agency has determined pursuant to 5 USC § 553(b) that notice and comment on the interim final regulations would be impracticable and contrary to the public interest. Good cause is also found for these regulations to become effective immediately upon publication.

Interested persons are encouraged to submit written comments. Comments should be submitted in triplicate to the Environmental Protection Agency, 401 M St. S.W., Washington, D.C. 20460, Attention: Distribution Officer, WH-552. Comments on all aspects of the regulation are solicited. In the event comments are in the nature of criticisms as to the adequacy of data which are available, or which may be relied upon by the Agency, comments should identify and, if possible,

provide any additional data which may be available and should indicate why such data are essential to the amendment or modification of the regulation. In the event comments address the approach taken by the Agency in establishing an effluent limitation or guideline EPA solicits suggestions as to what alternative approach should be taken and why and how this alternative better satisfies the detailed requirements of sections 301 and 304(b) of the Act.

A copy of all public comments will be available for inspection and copying at the EPA Public Information Reference Unit, Room 2922 (EPA Library), Waterside Mall, 401 M Street, S.W., Washington, D.C. 20460. A copy of preliminary draft contractor reports, the Development Document and economic study referred to above, and certain supplementary materials supporting the study of the industry concerned will also be maintained at this location for public review and copying. The EPA information regulation, 40 CFR Part 2, provides that a reasonable fee may be charged for copying.

All comments received on or before June 17, 1976 will be considered. Steps previously taken by the Environmental Protection Agency to facilitate public response within this time period are outlined in the advance notice concerning public review procedures published on August 6, 1973 (38 FR 21202). In the event that the final regulation differs substantially from the interim final regulation set forth herein the Agency will consider petitions for reconsideration of any permits issued in accordance with these interim final regulations.

In consideration of the foregoing, 40 CFR Part 458 is hereby established as set forth below.

Dated: April 30, 1976.

RUSSELL R. TRAIN,  
Administrator.

458.42 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

**AUTHORITY:** SECS. 301, 304 (b) and (c), 306 (b), 307 (b) and (c), Federal Water Pollution Control Act, as amended (33 U.S.C. 1251, 1311, 1314(b) and (c), 1316(b), and 1317(b) and (c), 86 Stat. 816 et. seq.; Pub. L. 92-500) (the Act).

**Subpart A—Carbon Black Furnace Process Subcategory**

§ 158.10 Applicability; description of the carbon black furnace process subcategory.

The provisions of this subpart are applicable to discharges resulting from the from the production of carbon black by the furnace process.

§ 158.11 Specialized definitions.

For the purpose of this subpart:  
(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in Part 401 of this chapter shall apply to this subpart.  
(b) The term "product" shall mean carbon black by the furnace process.

§ 158.12 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategorization and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fun-

damentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged from the manufacture of carbon black by the furnace process a point source subject to the provisions of this paragraph after application of the best practicable control technology currently available: There shall be no discharge of process wastewater pollutants to navigable waters.

**Subpart B—Carbon Black Thermal Process Subcategory**

§ 158.20 Applicability; description of the carbon black thermal process subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of carbon black by the thermal process.

§ 158.21 Specialized definitions.

For the purpose of this subpart:  
(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in Part 401 of this chapter shall apply to this subpart.  
(b) The term "product" shall mean carbon black by the thermal process.

§ 158.22 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategorization and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamen-

tally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged from the manufacture of carbon black by the thermal process a point source subject to the provisions of this paragraph after application of the best practicable control technology currently available: There shall be no discharge of process wastewater pollutants to navigable waters.

**Subpart C—Carbon Black Channel Process Subcategory**

§ 158.30 Applicability; description of the carbon black channel process subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of carbon black by the channel process.

§ 158.31 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in Part 401 of this chapter shall apply to this subpart.  
(b) The term "product" shall mean carbon black by the channel process.

§ 158.32 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategorization and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence

to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged from the manufacture of carbon black by the channel process a point source subject to the provisions of this paragraph after application of the best practicable control technology currently available: There shall be no discharge of process wastewater pollutants to navigable waters.

**Subpart D—Carbon Black Lamp Process Subcategory**

§ 158.40 Applicability; description of the carbon black process subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of carbon black by the lamp process.

§ 158.41 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in Part 401 of this chapter shall apply to this subpart.  
(b) The term "product" shall mean carbon black by the lamp process.

§ 158.42 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategorization and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the

State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged from the manufacture of carbon black by the lamp process a point source subject to the provisions of this paragraph after application of the best practicable control technology currently available: There shall be no discharge of process wastewater pollutants to navigable waters.

# ENVIRONMENTAL PROTECTION AGENCY

[ 40 CFR Part 458 ]

[ FRL 540-4 ]

## CARBON BLACK MANUFACTURING POINT SOURCE CATEGORY

Effluent Limitations, Guidelines and Standards for Existing Sources; Standards of Performance for New Sources and Pretreatment Standards for Existing and for New Sources

Notice is hereby given that effluent limitations and guidelines for existing sources, standards of performance and pretreatment standards for new sources set forth in tentative form below are proposed by the Environmental Protection Agency (EPA). Simultaneously with this notice of proposed rulemaking, EPA is promulgating a regulation adding Part 458 to Chapter 40 of the Code of Federal Regulations. That regulation establishes effluent limitations and guidelines for existing sources based on the best practicable control technology currently available for the carbon black manufacturing point source category. The regulation proposed below will amend 40 CFR 458—carbon black manufacturing point source category by adding sections 458.13, 458.14, 458.15 and 458.16 to the carbon black furnace process subcategory (Subpart A), sections 458.23, 458.24, 458.25 and 458.26 to the carbon black thermal process subcategory (Subpart B), sections 458.33, 458.34, 458.35 and 458.36 to the carbon black channel process subcategory (Subpart C) and sections 458.43, 458.44, 458.45 and 458.46 to the carbon black lamp process subcategory (Subpart D) pursuant to sections 306(b) and 307(b) and (c) of the Federal Water Pollution Control Act, as amended (33 U.S.C. 1251, 1316(b) and 1317(b) and (c), 86 Stat. 816 et seq.; P.L. 92-500) (the Act). Simultaneously with this proposed rule making EPA is promulgating interim final regulations which establish the above listed subparts.

(a) Legal authority. Section 301(b) of the Act requires the achievement by not later than July 1, 1977, of effluent limitations for point sources, other than publicly owned treatment works, which require the application of the best practicable control technology currently available as defined by the Administrator pursuant to section 304(b) of the Act. Section 301(b) also requires the achievement by not later than July 1, 1983, of effluent limitations for point sources, other than publicly owned treatment works, which require the application of best available technology economically achievable which will result in reasonable further progress toward the national goal of eliminating the discharge of all pollutants, as determined in accordance with regulations issued by the Administrator pursuant to section 304(b) of the Act.

Section 304(b) of the Act requires the Administrator to publish regulations providing guidelines for effluent limitations setting forth the degree of effluent

reduction attainable through the application of the best practicable control technology currently available and the degree of effluent reduction attainable through the application of the best control measures and practices achievable including treatment techniques, process and procedural innovations, operating methods and other alternatives. The regulation herein sets forth effluent limitations and guidelines, pursuant to sections 301 and 304(b) of the Act, for the carbon black furnace process subcategory (Subpart A), the carbon black thermal process subcategory (Subpart B), the carbon black channel process subcategory (Subpart C) and the carbon black lamp process subcategory (Subpart D) of the carbon black manufacturing point source category.

Section 306 of the Act requires the achievement by new sources of a Federal standard of performance providing for the control of the discharge of pollutants which reflects the greatest degree of effluent reduction which the Administrator determines to be achievable through application of the best available demonstrated control technology, processes, operating methods, or other alternatives, including, where practicable, a standard permitting no discharge of pollutants.

Section 306(b) (1) (B) of the Act requires the Administrator to propose regulations establishing Federal standard of performance for categories of new sources included in a list published pursuant to section 306(b) (1) (A) of the Act. Simultaneously with the appearance of the proposed rulemaking is a Federal Register notice titled "Addition to the List of Categories of Sources." This notice adds the carbon black manufacturing point source category and is in accordance with the provisions of section 306(b) (1) (A) of the Act. The regulations proposed herein set forth the standards of performance applicable to new sources for the carbon black furnace process subcategory (Subpart A), the carbon black thermal process subcategory (Subpart B), the carbon black channel process subcategory (Subpart C) and the carbon black lamp process subcategory (Subpart D) of the carbon black manufacturing point source category.

Section 307(c) of the Act requires the Administrator to promulgate pretreatment standards for new sources at the same time that standards of performance for new sources are promulgated pursuant to section 306. Sections 458.16, 458.26, 458.36 and 458.46, proposed below, provide pretreatment standards for new sources within the carbon black furnace process subcategory (Subpart A), the carbon black thermal process subcategory (Subpart B), the carbon black channel process subcategory (Subpart C) and the carbon black lamp process subcategory (Subpart D) of the carbon black manufacturing point source category. Section 307(b) of the Act requires the establishment of pretreatment standards for pollutants introduced into publicly owned treatment works and 40 CFR 128 establishes that the Agency will propose

specific pretreatment standards at the time effluent limitations are established for point source discharges. However due cause is found to set aside for this regulation the applicability of that portion of 40 CFR 128.133 requiring the Agency to proposed pretreatment standards concerning the application of effluent limitations to pretreatment at the time such effluent limitations are promulgated. The Agency may establish pretreatment standards for existing sources within the carbon black furnace process subcategory (Subpart A), the carbon black thermal process subcategory (Subpart B), the carbon black channel process subcategory (Subpart C) and the carbon black lamp process subcategory (Subpart D) of the carbon black manufacturing point source category at a future date.

(b) Summary and basis of proposed standards of performance and pretreatment standards for new sources and pretreatment standards for existing sources. The general methodology and summary of conclusions are discussed in considerable detail in the preamble of the interim final regulations for the carbon black furnace process subcategory (Subpart A), the carbon black thermal process subcategory (Subpart B), the carbon black channel process subcategory (Subpart C) and the carbon black lamp process subcategory (Subpart D) of the carbon black manufacturing point source category at a future date.

The general methodology and summary of conclusions are discussed in considerable detail in the preamble of the interim final regulations for the carbon black furnace process subcategory (Subpart A), the carbon black thermal process subcategory (Subpart B), the carbon black channel process subcategory (Subpart C) and the carbon black lamp process subcategory (Subpart D) of the carbon black manufacturing point source category at a future date.

The general methodology and summary of conclusions are discussed in considerable detail in the preamble of the interim final regulations for the carbon black furnace process subcategory (Subpart A), the carbon black thermal process subcategory (Subpart B), the carbon black channel process subcategory (Subpart C) and the carbon black lamp process subcategory (Subpart D) of the carbon black manufacturing point source category at a future date. The information contained in the preamble to the interim final regulation is incorporated herein by reference. The proposed regulation set forth below proposes pretreatment standards for pollutants introduced into publicly owned treatment works. The proposal will establish for each subpart the extent of application of effluent limitations to existing sources and to new sources which discharge to publicly owned treatment works. This regulation is intended to be complementary to the general regulation for pretreatment standards for existing sources set forth at 40 CFR 128. The general regulation was proposed July 19, 1973 (38 FR 19236), and published in final form on November 8, 1973 (38 FR 30982). The regulation proposed below applies to users of publicly owned treatment works which fall within the description of the point source category to which the limitations and standards apply. However, the proposed pretreatment regulation applies to the introduction of pollutants which are directed into a publicly owned treatment works, rather than to discharges of pollutants to navigable waters.

The general pretreatment standard divides pollutants discharged by users of publicly owned treatment works into two broad categories; "compatible" and "incompatible." Compatible pollutants are generally not subject to specific numerical pretreatment standards. However, 40 CFR 128.131 (prohibited wastes) may be applicable to compatible pollutants. Additionally, local pretreatment requirements may apply (See 40 CFR 128.110).

Incompatible pollutants are subject generally to pretreatment standards as provided in 40 CFR 128.133.

Sections 458.14, 458.24, 458.34 and 458.44 of the regulation reserved below are intended to implement the intent of § 128.133, by setting forth specific numeric limitations for particular pollutants subject to pretreatment requirements at a future date.

Questions were raised during the public comment period on the proposed general pretreatment standard (40 CFR 128) about the propriety of applying a standard based upon best practicable control technology currently available to all plants subject to pretreatment standards. In general, EPA believes the analysis supporting the effluent limitations and guidelines is adequate to make a determination regarding the application of those standards to users of publicly owned treatment works. However, to ensure that those standards are appropriate in all cases, EPA now seeks additional comments focusing upon the application of effluent limitations and guidelines to users of publicly owned treatment works.

The report entitled "Development Document for Interim Final Effluent Limitations, Guidelines and Proposed New Source Performance Standards for the Carbon Black Manufacturing Point Source Category" details the analysis undertaken in support of the regulation being proposed herein and is available for inspection at the EPA Public Information Reference Unit, Room 2922 (EPA Library), Waterside Mall, 401 M St. SW., Washington, D.C. 20460, at all EPA regional offices, and at State water pollution control offices. A supplementary analysis prepared for EPA of the possible economic effects of the proposed regulation is also available for inspection at these locations. Copies of both of these documents are being sent to persons or institutions affected by the proposed regulation or who have placed themselves on a mailing list for this purpose (see EPA's Advance Notice of Public Review Procedures, 38 FR 21202, August 6, 1973). An additional limited number of copies of both reports are available. Persons wishing to obtain a copy may write the Environmental Protection Agency, Effluent Guidelines Division, Washington, D.C. 20460, Attention: Distribution Officer, WH-552.

When this regulation is promulgated, revised copies of the Development Document will be available from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. Copies of the Economic Analysis will be available through the National Technical Information Service, Springfield, Virginia 22151.

(c) Summary of public participation. A full listing of participants and discussion of comments and responses is included in the preamble of the interim final regulation for the subcategories being simultaneously promulgated by EPA and are incorporated herein by reference.

Interested persons may participate in this rulemaking by submitting written

comments in triplicate to the Environmental Protection Agency, 401 M St., SW., Washington, D.C. 20460. Attention: Distribution Officer, WH-552. Comments on all aspects of the proposed regulation are solicited. In the event comments are in the nature of criticisms as to the adequacy of data which are available, or which may be relied upon by the Agency, comments should identify and, if possible, provide any additional data which may be available and should indicate why such data are essential to the development of the regulations. In the event comments address the approach taken by the Agency in establishing a standard of performance or pretreatment standard, EPA solicits suggestions as to what alternative approach should be taken and why and how this alternative better satisfies the detailed requirements of sections 306 and 307 (b) and (c) of the Act.

A copy of all public comments will be available for inspection and copying at the EPA Public Information Reference Unit, Room 2922 (EPA Library), Waterside Mall, 401 M Street, SW., Washington D.C. A copy of preliminary draft contractor reports, the Development Document and economic study referred to above, and certain supplementary materials supporting the study of the industry concerned will also be maintained at this location for public review and copying. The EPA information regulation, 40 CFR Part 2, provides that a reasonable fee may be charged for copying.

All comments received on or before June 17, 1976 will be considered. Steps previously taken by the Environmental Protection Agency to facilitate public response within this time period are outlined in the advance notice concerning public review procedures published on August 6, 1973 (38 FR 21202).

Dated: April 30, 1976.

RUSSELL R. TRAIN,  
Administrator.

## PART 458—CARBON BLACK MANUFACTURING POINT SOURCE CATEGORY

### Subpart A—Carbon Black Furnace Process Subcategory

Sec. 458.13 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

458.14 [Reserved]

458.15 Standards of performance for new sources.

458.16 Pretreatment standards for new sources.

### Subpart B—Carbon Black Thermal Process Subcategory

458.23 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

458.24 [Reserved]

458.25 Standards of performance for new sources.

458.26 Pretreatment standards for new sources.

### Subpart C—Carbon Black Channel Process Subcategory

Sec. 458.33 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

458.34 [Reserved]

458.35 Standards of performance for new sources.

458.36 Pretreatment standards for new sources.

### Subpart D—Carbon Black Lamp Process Subcategory

458.43 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

458.44 [Reserved]

458.45 Standards of performance for new sources.

458.46 Pretreatment standards for new sources.

AUTHORITY: Sec. 301, 304 (b) and (c), 306 (b), 307 (b) and (c), Federal Water Pollution Control Act, as amended (33 U.S.C. 1251, 1311, 1314 (b) and (c), 1316(b) and 1317 (b) and (c), 86 Stat. 816 et seq.; Pub. L. 92-500) (the Act).

### Subpart A—Carbon Black Furnace Process Subcategory

§ 458.13 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged from the carbon black furnace process by a point source subject to the provisions of this subpart after application of the best available technology economically achievable. There shall be no discharge of wastewater pollutants to navigable waters.

§ 458.14 [Reserved]

§ 458.15 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged from the carbon black furnace process by a new source subject to the provisions of this subpart: There shall be no discharge of process wastewater pollutants to navigable waters.

§ 458.16 Pretreatment standards for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the carbon black furnace process subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR 128 (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR 128, for existing sources, except that, for the purpose of this section, 40 CFR 128.121, 128.-

122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

Pollutant or pollutant property	Pretreatment standard
BOD <sub>5</sub> .....	No limitation.
TSS.....	Do.
Oil and grease.....	100 mg/l.

#### Subpart B—Carbon Black Thermal Process Subcategory

§ 458.23 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged from the carbon black thermal process by a point source subject to the provisions of this subpart after application of the best available technology economically achievable: There shall be no discharge of wastewater pollutants to navigable waters.

§ 458.24 [Reserved]

§ 458.25 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged from the carbon black thermal process by a new source subject to the provisions of this subpart: There shall be no discharge of process wastewater pollutants to navigable waters.

§ 458.26 Pretreatment standard for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the carbon black thermal process subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR 128 (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR 128, for existing sources, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment

works by a new source subject to the provisions of this subpart:

Pollutant or pollutant property	Pretreatment standard
BOD <sub>5</sub> .....	No limitation.
TSS.....	Do.
Oil and grease.....	100 mg/l.

#### Subpart C—Carbon Black Channel Process Subcategory

§ 458.33 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged from the carbon black channel process by a point source subject to the provisions of this subpart after application of the best available technology economically achievable: There shall be no discharge of wastewater pollutants to navigable waters.

§ 458.34 [Reserved]

§ 458.35 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged from the carbon black channel process by a new source subject to the provisions of this subpart: There shall be no discharge of process wastewater pollutants to navigable waters.

§ 458.36 Pretreatment standard for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the carbon black channel process subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR 128 (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR 128, for existing sources, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

Pollutant or pollutant property	Pretreatment standard
BOD <sub>5</sub> .....	No limitation.
TSS.....	Do.
Oil and grease.....	100 mg/l.

#### Subpart D—Carbon Black Lamp Process Subcategory

§ 458.43 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged from the carbon black lamp process by a point source subject to the provisions of this subpart after application of the best available technology economically achievable: There shall be no discharge of wastewater pollutants to navigable waters.

§ 458.44 [Reserved]

§ 458.45 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged from the carbon black lamp process by a new source subject to the provisions of this subpart: There shall be no discharge of process wastewater pollutants to navigable waters.

§ 458.46 Pretreatment standard for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the carbon black thermal process subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR 128 (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR 128, for existing sources, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

Pollutant or pollutant property	Pretreatment standard
BOD <sub>5</sub> .....	No limitation.
TSS.....	Do.
Oil and grease.....	100 mg/l.

### PART III:

## ENVIRONMENTAL PROTECTION AGENCY

### GUM AND WOOD CHEMICALS MANUFACTURING POINT SOURCE CATEGORY

#### Effluent Limitations Guidelines and Standards

federal register

Title 40—Protection of the Environment  
CHAPTER I—ENVIRONMENTAL  
PROTECTION AGENCY

SUBCHAPTER N—EFFLUENT LIMITATIONS,  
GUIDELINES AND STANDARDS

[FRL 540-7]

PART 454—GUM AND WOOD CHEMICALS  
MANUFACTURING POINT SOURCE  
CATEGORY

Interim Final Rule Making

Notice is hereby given that effluent limitations and guidelines for existing sources to be achieved by the application of best practicable control technology currently available as set forth in interim final form below are promulgated by the Environmental Protection Agency (EPA). The regulation set forth below establishes Part 454—gum and wood chemicals manufacturing point source category and will be applicable to existing sources for char and charcoal briquets subcategory (Subpart A); the gum rosin and turpentine subcategory (Subpart B); the wood rosin, turpentine and pine oil subcategory (Subpart C); the tall oil rosin, pitch and fatty acids subcategory (Subpart D); the essential oils subcategory (Subpart E); and the rosin-based derivatives subcategory (Subpart F) of the gum and wood chemicals manufacturing point source category pursuant to sections 301, 304 (b) and (c), of the Federal Water Pollution Control Act, as amended (33 U.S.C. 1251, 1311, 1314 (b) and (c), 86 Stat. 816 et seq.; P.L. 92-500) (the Act). Simultaneously, the Agency is publishing in proposed form effluent limitations and guidelines for existing sources to be achieved by the application of best available technology economically achievable, standards of performance for new point sources and pretreatment standards for new sources for the char and charcoal briquets subcategory (Subpart A); the gum rosin and turpentine subcategory (Subpart B); the wood rosin, turpentine and pine oil subcategory (Subpart C); the tall oil rosin, pitch and fatty acids subcategory (Subpart D); the essential oils subcategory (Subpart E); and the rosin-based derivatives subcategory (Subpart F).

(a) Legal authority. (1) Existing point sources. Section 301(b) of the Act requires the achievement by not later than July 1, 1977, of effluent limitations for point sources, other than publicly owned treatment works, which require the application of the best practicable control technology currently available as defined by the Administrator pursuant to section 304(b) of the Act. Section 301(b) also requires the achievement by not later than July 1, 1983, of effluent limitations for point sources, other than publicly owned treatment works, which require the application of best available technology economically achievable which will result in reasonable further progress toward the national goal of eliminating the discharge of all pollutants, as determined in accordance with regulations issued by the Administrator pursuant to section 304(b) of the Act.

Section 304(b) of the Act requires the Administrator to publish regulations providing guidelines for effluent limitations setting forth the degree of effluent reduction attainable through the application of the best practicable control technology currently available and the degree of effluent reduction attainable through the application of the best control measures and practices achievable including treatment techniques, process and procedural innovations, operating methods and other alternatives. The regulation herein sets forth effluent limitations and guidelines, pursuant to sections 301 and 304(b) of the Act, for the char and charcoal briquets subcategory (Subpart A), the gum rosin and turpentine subcategory (Subpart B), the wood rosin, turpentine and pine oil subcategory (Subpart C), the tall oil rosin, pitch and fatty acids subcategory (Subpart D), the essential oils subcategory (Subpart E), and the rosin-based derivatives subcategory (Subpart F) of the gum and wood chemicals manufacturing point source category.

Section 304(c) of the Act requires the Administrator to issue to the States and appropriate water pollution control agencies information on the processes, procedures or operating methods which result in the elimination or reduction of the discharge of pollutants to implement standards of performance under section 306 of the Act. The report or "Development Document" referred to below provides, pursuant to section 304(c) of the Act, information on such processes, procedures or operating methods.

(2) New sources. Section 306 of the Act requires the achievement by new sources of a Federal standard of performance providing for the control of the discharge of pollutants which reflects the greatest degree of effluent reduction which the Administrator determines to be achievable through application of the best available demonstrated control technology, processes, operating methods, or other alternatives, including, where practicable, a standard permitting no discharge of pollutants.

Section 306 also requires the Administrator to propose regulations establishing Federal standards of performance for categories of new sources included in a list published pursuant to section 306 of the Act. The regulations proposed herein set forth the standards of performance applicable to new sources for the char and charcoal briquets subcategory (Subpart A), the gum rosin and turpentine subcategory (Subpart B), the wood rosin, turpentine and pine oil subcategory (Subpart C), the tall oil rosin, pitch and fatty acids subcategory (Subpart D), the essential oils subcategory (Subpart E), and the rosin-based derivatives subcategory (Subpart F) of the gum and wood chemicals manufacturing point source category.

Section 307(b) of the Act requires the establishment of pretreatment standards for pollutants introduced into publicly owned treatment works and 40 CFR 128 establishes that the Agency will propose specific pretreatment standards at the

time effluent limitations are established for point source discharges.

Section 307(c) of the Act requires the Administrator to promulgate pretreatment standards for new sources at the same time that standards of performance for new sources are promulgated pursuant to section 306. In another section of the Federal Register regulations are proposed in fulfillment of these requirements.

(b) Summary and basis of interim final effluent limitations and guidelines for existing sources, proposed effluent limitations and guidelines for existing sources to be achieved by the application of the best available technology economically achievable, proposed standards of performance for new sources, and proposed pretreatment standards for new sources.

(1) General methodology. The effluent limitations and guidelines set forth herein were developed in the following manner. The point source category was first studied for the purpose of determining whether separate limitations are appropriate for different segments within the category. This analysis included a determination of whether differences in raw material used, product produced, manufacturing process employed, age, size, wastewater constituents and other factors require development of separate limitations for different segments of the point source category. The raw waste characteristics for each such segment were then identified. This included an analysis of the source, flow and volume of water used in the process employed, the sources of waste and wastewaters in the operation and the constituents of all wastewater. The constituents of the wastewaters which should be subject to effluent limitations were identified.

The existing control and treatment technologies within each segment were examined. This included an identification of each distinct control and treatment technology, including both in-plant and end-of-process technologies, which exists or is capable of being designed for each segment. It also included an identification of, in terms of the amount of constituents and the chemical, physical, and biological characteristics of pollutants, the effluent level resulting from the application of each of the technologies. The problems with each treatment and control technology also were noted. In addition, the nonwater quality environmental impact, such as the effects of the application of these technologies upon other pollution problems, including air, solid waste, noise and radiation were examined. The energy requirements of each control and treatment technology were determined as well as the cost of the application of such technologies.

The information outlined above was then evaluated in order to determine what levels of technology constitute the "best practicable control technology currently available." In identifying such technologies, various factors were considered. These included the total cost of application of technology in relation to

the effluent reduction benefits to be achieved from such application, the age of equipment and facilities involved, the process employed, the engineering aspects of the application of various types of control techniques, process changes, nonwater quality environmental impact (including energy requirements) and other factors.

The data upon which the above analysis was performed included EPA permit applications, EPA sampling and inspections, consultant reports, and industry submissions.

(2) Summary of conclusions with respect to the char and charcoal briquets subcategory (Subpart A), the gum rosin and turpentine subcategory (Subpart B), the wood rosin, turpentine and pine oil subcategory (Subpart C), the tall oil rosin, pitch and fatty acids subcategory (Subpart D), the essential oils subcategory (Subpart E), and the rosin-based derivatives subcategory (Subpart F) of the gum and wood chemicals manufacturing point source category.

(i) Categorization.

For the purpose of establishing effluent limitations guidelines and standards, the gum and wood chemicals manufacturing point source category was divided into six subcategories which facilitated the study of the gum and wood chemicals manufacturing point source category and provided a basis for the six subcategories. Factors such as type of product, raw waste loads, water requirements, type of manufacturing processing, treatability of wastewaters, and other means were used to establish effluent limitations guidelines and standards of performance for each of the specific subcategories. In general, the largest contributing factors are manufacturing operations and treatability of wastewater based on production volume and specific water requirements.

Hence, this broad base subcategorization scheme simplifies the application of effluent limitations and guidelines for a complex mix of production activity and a large number of selected chemical groupings. These categories reflect differences in the character, the volume, and the treatability of wastewater streams due to manufacturing process variables related to each grouping of chemicals.

(ii) Waste characteristics.

The known significant wastewater pollutants and pollutant properties resulting from the gum and wood chemicals manufacturing include pH, total suspended solids, BOD<sub>5</sub>, COD, TOC, metals, and pesticides. BOD<sub>5</sub>, COD, and TOC, which are primary measurements for organic pollution, are evident in wastewaters from the gum and wood chemicals manufacturing point source category.

(iii) Origin of wastewater pollutants.

Sources of wastewater pollutants from gum and wood chemicals manufacturing include aqueous wastes from reactors, filtration systems, decanting systems, distillation vacuum exhaust scrubbers, caustic scrubbers, process equipment

cleanouts, production area washdowns, refining area washdowns, formulation equipment cleanup, and spill wash-downs.

Pollutant parameters for the gum and wood chemical manufacturing pertain to wastewaters from process operations. Process wastewater pollutants are proportional to the level of production and it was therefore possible to establish limitations and standards on the basis of production. Other pollutant sources within gum and wood chemical manufacturing plants from nonprocess sources such as utilities, labs, terminals and others are generally not related to production unless otherwise noted.

(iv) Treatment and control technology.

Wastewater treatment and control technologies have been studied for each subcategory of this industry to determine what is the best practicable control technology currently available.

The following discussion of treatment technology provides the basis for the effluent limitations guidelines. This discussion does not preclude the selection of other wastewater treatment alternatives which provide equivalent or better levels of treatment.

Subcategory A (production of char and charcoal briquets via carbonization of hardwood and softwood) is a net water consumer and discharges no process wastewaters. Raw materials and intermediate char and charcoal briquets are handled in a dry form. Any materials outside of the production specification range can be reworked or disposed of in dry form. Therefore, no discharge of process wastewater pollutants is consistent with BPT for this subcategory.

For the other five subcategories both biological oxidation and carbon adsorption processes have been shown to be effective in reducing the pollution load in aqueous wastes generated by gum and wood chemicals manufacturing plants in this point source category. The primary design parameter in BPT, NSPS and BAT wastewater treatment models is BOD<sub>5</sub> removal. The BPT percent removal used is 90.

End-of-pipe treatment technologies commensurate with BPT are based on the utilization of equalization and biological treatment, including activated sludge or aerated lagoon with clarification of the effluent. These end-of-pipe systems may include additional treatment operations such as neutralization, dissolved air flotation for subcategories C and D for the separation of insoluble hydrocarbons and nutrient addition.

The parallel-train design is not normally used for treatment plants in the very low flow range because of economic considerations. For subcategories B, E and F, as flow is small, provision is made for single treatment units with adequate holding capacity. However, standby items should be provided for key process functions.

Equalization facilities are provided to minimize short interval fluctuations in the organic loading to the treatment

plant to absorb loads from reactor cleanouts, accidental spills, and other heavy loads, and to minimize the usage or neutralization chemicals. Equalization will provide for continuous (seven days per week) operation of the wastewater treatment facilities even though the manufacturing facilities may operate only five days a week.

Since many wastewater streams are of low pH, neutralization may be necessary. Alkaline neutralization is provided in the form of hydrated lime storage and feed facilities for subcategories C and D and in the form of caustic soda feed for subcategories B, E and F. Since some of the subcategories have high oil RWL concentrations, dissolved air flotation was recommended for subcategories C and D.

An activated sludge process was selected for the biological treatment portion of the system. However, many of the gum and wood chemical plants are located in the southeastern United States, where aerated lagoons could provide a viable treatment alternative. However, to make the subsequent cost estimates universally applicable, activated sludge was selected. The sludge handling scheme proposed has been developed to handle anticipated small quantities of sludge. The aerobic digester will provide a nonputrescible sludge which can be thickened and stored before being trucked for either land spreading or to a regional treatment facility for dewatering.

The BPT treatment model process includes land spreading of the digested biological sludge. If practiced correctly, this disposal method will not create health hazards or nuisance conditions. However, there is a widespread diversity of opinion over the effects of heavy metals on crop toxicity and in the food chain, and the possible nitrate contamination of the ground water. Carefully controlled sludge application should minimize these problems.

Best available technology economically achievable (BAT) is based upon the very best control and treatment technology employed by the existing exemplary plants in each industrial subcategory. In those industrial subcategories where this level of control and treatment technology was found inadequate for the purpose of defining BAT, control and treatment technologies transferable from other industries or technology demonstrated in pilot plant studies were employed.

Treatment commensurate with BAT requires the application of activated carbon adsorption and filtration to the biological treatment system described for BPT, or the use of second-stage biological treatment in series with the BPT. The specific choice of waste treatment systems should depend on the specific process, or group of processes, in operation at any given facility. The model for subcategories C and D includes dual-media filtration followed by carbon adsorption of the BPT biological treatment plant effluent. The BAT model for the subcategories B, E and F consist of BPT

treatment with addition of dual-media filtration and addition of powdered carbon to the aeration basin. A summary of the general design basis used to size the unit processes is presented in the Development Document.

Dual-media filtration was selected for the BAT treatment model to reduce suspended solids in the biological effluent and to protect the carbon column. The pulsed bed upflow carbon system was selected for subcategories C and D to minimize capital investment for a system with a relatively high carbon exhaustion rate compared to the carbon column inventory.

The BAT waste treatment models show the exhausted carbon being hauled to a sanitary landfill. This is because the amount of carbon exhausted per day is generally less than 500 pounds/day, which is considered below the break-even point for on-site carbon regeneration.

BAT effluent limitations and guidelines for subcategory A are no discharge of process wastewater pollutants. Subcategory A has no discharge and therefore end-of-pipe treatment was not applicable.

New source performance standards (NSPS) is based upon the utilization of both in-plant controls and end-of-pipe process treatment technologies, which include biological treatment as proposed for BPT and removal of additional total suspended solids via effluent filtration for subcategories B through F.

In order to evaluate the economic impact on a uniform treatment basis, end-of-pipe treatment models as described above were proposed which will provide the desired level of treatment.

The combination of in-plant controls and end-of-pipe treatment used to attain the effluent limitations and guidelines is left up to the individual manufacturer to choose on the basis of cost-effectiveness.

Wastewater impoundments may be subject to runoff from their drainage area. Some rainfall events may cause these impoundments to overflow. New sources can be properly located and designed to avoid this problem. Furthermore, existing impoundments can be modified by construction of diversion ditches or by increasing the amount of surge capacity of the impoundment with either a higher dam or a lower operating water level. Through use of these techniques, a rainfall up to the 25 year-24 hour event can be prevented from causing the discharge of process wastewater pollutants.

The application and performance of various control and treatment technologies to reduce the quantities of pollutants discharged to navigable waters as a result of the production or processing operations in the gum and wood chemicals manufacturing are specific to the product manufactured or processed. However, many in-process control measures, as well as end-of-pipe treatment systems, may be generally applied to several product subcategories.

Good in-process control is a significant pollution abatement technique for all

products produced in the gum and wood chemicals manufacturing. Practices such as minimization and containment of spills and leaks, segregation of waste streams, monitoring process wastewater, water conservation and reuse, wastewater equalization and good housekeeping, process operation and equipment maintenance are necessary to eliminate or reduce the volume of process wastewater requiring treatment. Those subcategories in which the facilities have process wastewater, i.e., those plants in subcategories other than A, which often contain suspended solids. These can be removed by sedimentation, clarification and filtration.

If thermal processing (incineration) is the choice for disposal, provisions must be made to ensure against entry of hazardous pollutants into the atmosphere. Consideration should also be given to recovery of materials of value in the wastes.

For those waste materials considered to be nonhazardous where land disposal is the choice for disposal, proper sanitary landfill technology must be followed. The principles set forth in the EPA's Land Disposal of Solid Wastes Guidelines 40 CFR Part 241 may be used as guidance for acceptable land disposal techniques.

Best practicable control technology as known today requires disposal of the pollutants removed from wastewaters in this industry in the form of solid wastes and liquid concentrates. In most cases these are nonhazardous substances requiring only minimal custodial care. However, some constituents may be hazardous and may require special consideration. In order to ensure long-term protection of the environment from these hazardous or harmful constituents, special consideration of disposal sites must be made. All landfill sites where such hazardous wastes are disposed should be selected so as to prevent migration of these contaminants to ground or surface waters. In cases where geologic conditions may not reasonably ensure this, adequate legal and mechanical precautions (e.g., impervious liners) should be taken to ensure long-term protection to the environment from hazardous materials. Where appropriate, the location of solid hazardous materials disposal sites should be permanently recorded in the appropriate office of legal jurisdiction.

(v) Cost estimates for control of wastewater pollutants.

Capital and annual costs were computed for each product process within a subcategory on the basis of the cost per 1,000 pounds of production. Due to the complexity and degree of integration in this industry, it was necessary to make some simplifying assumptions in order to determine costs on a product by product basis. These assumptions are:

(1) that each product process is a discrete plant whose process wastewater is treated in a single end-of-process waste treatment system.

(2) that all wastewaters are treated by the model end-of-process treatment system regardless of alternate disposal tech-

niques and in-process changes which may be made.

New plants being built can avoid major future waste abatement costs by inclusion of: (1) dikes, emergency holding ponds, catch basins and other containment facilities, for leaks, spills and wash-downs, (2) piping, trenches, sewers, sumps, and other isolation facilities to keep leaks, spills and process water separate from cooling and sanitary water, (3) noncontact condensers for cooling water, (4) efficient reuse, recycling and recovery of all possible raw materials and by-products and (5) closed cycle water utilization whenever possible. Closed cycle operation eliminates all waterborne wastes to surface water.

Alternate disposal methods such as incineration or like processes are also commonly used for disposal of highly concentrated and difficult wastes. In any specific case, the manufacturer can best determine the most attractive economic alternatives for in-process controls and end-of-process treatment which will meet the limitations required.

Cost information was obtained directly from industry, from engineering firms, equipment suppliers, government sources, and available literature whenever possible. Costs are based on actual industrial installations or engineering estimates for projected facilities as supplied by contributing companies. In the absence of such information, costs estimates have been developed from either plant-supplied costs for similar waste treatment installation at plants making other similar chemicals or general cost estimates for treatment technology.

(vi) Potential benefits to be achieved. The point sources in this category discharge a variety of pollutants which can seriously degrade water quality. In some instances the wastes contain materials which may have human health implications. It is estimated that the volume of wastewaters which result from operations within this category amount to 19 billion gallons each year. Besides discharging materials which reduce the oxygen in receiving waters as a result of biological or chemical reactions, substances such as phenols, phosphorus, zinc and oil and grease are released. Phenols have been identified as having serious human health implications at low levels. Oil and grease can cause taste and odor problems, and are extremely toxic to freshwater fish. Phosphorus is perhaps the greatest cause of premature aging of water bodies known as eutrophication. In small quantities it can stimulate plant growth to the nuisance level. Zinc in as low a level as 0.1 mg/l has been reported to be lethal to fish.

While the technology used to determine achievable pollution reduction for this category does not directly address the above named toxic pollutants and others present in the waste stream, it is well known that use of this technology will bring about general reduction of the level of these toxicants in the waste streams. The benefits to be achieved by compliance with these regulations are especially noteworthy in view of the rel-

ative ease with which the pollution reduction can be achieved.

(vii) Energy requirements and non-water quality environmental impacts.

The major nonwater quality consideration which may be associated with in-process control measures is the use of alternative means of ultimate disposal. As the process raw waste load (RWL) is reduced in volume, alternate disposal techniques become more attractive. Recent regulations are tending to limit the use of ocean discharge and deep-well injection because of the potential long-term detrimental effects associated with these disposal procedures. Incineration is a viable alternative for concentrated waste streams. Associated air pollution and the need for auxiliary fuel, depending on the heating value of the waste, are considerations which must be evaluated on an individual basis for each use.

Other nonwater quality aspects, such as noise levels, will not be perceptibly affected. Most chemical plants generate fairly high noise levels (85-95 decibels) within the battery limits because of equipment such as pumps, compressors, steam jets, flare stacks, etc. Equipment associated with in-process or end-of-pipe control systems would not add significantly to these levels.

Energy requirements associated with treatment and control technologies in the wastewater treatment model are less than 8 percent when compared to the total energy requirements for most plants for this industry.

(viii) Economic and inflationary impact analysis.

Executive Order 11821 (November 27, 1974) requires that major proposals for legislation and promulgation of regulations and rules by agencies of the executive branch be accompanied by a statement certifying that the inflationary impact of the proposal has been evaluated. The Administrator has directed that all regulatory actions that are likely to result in (1) annualized costs of more than \$100 million, (2) additional costs of production more than 5% of the selling price, or (3) an energy consumption increase equivalent to 25,000 barrels of oil per day will require a certified inflationary impact statement. The analysis indicates that the total investment required to meet the regulations is \$5.7 million with an annual cost of \$2.1 million. The costs as a percent of selling price are no more than 2.4% of the selling price. The limits presented in the Administrator's criteria are not expected to be exceeded due to these regulations. The analysis that has been performed satisfies all the requirements for an inflationary impact statement and is certified as such.

The Agency has considered the economic impact of the internal and external costs of the effluent limitations guidelines. Internal costs given in 1975 dollars are defined as investment and annual cost, where annual cost is composed of operating costs, maintenance cost, the cost of capital and depreciation. External cost deals with the assessment of the economic impact of the internal costs in terms of price increases, produc-

tion curtailments, plant closures, resultant unemployment, community and regional impacts, international trade, and industry growth.

Subcategory A (charcoal briquets and char), as noted above, have no process wastewater dischargers. In Subcategory B (gum rosin and turpentine) there are no direct dischargers. In Subcategory C (wood rosin, turpentine and pine oil) three of the five plants have no direct discharges.

The two direct discharging plants have pollution treatment in place that should be capable of attaining the limitations required for 1977. These two plants will only be affected by the 1983 standards. The total investment required for both plants is \$806,000 and the annual cost is \$294,000. The unit cost of treatment is approximately 2.4% of the selling price. Due to the relatively low costs involved, little effect on production or employment in this subcategory is expected.

Ten of the fourteen plants manufacturing tall oil rosin (Subcategory D) are direct dischargers. The pollution treatment that is currently in place is equivalent to technology that will meet the 1977 standards. Thus, there will be no effect on the industry by the 1977 standards. An investment of \$4.1 million and an annual cost of \$1.6 million will be required by the tall oil rosin producers to meet the 1983 standards. This causes a unit cost of treatment that is approximately 0.9% of selling price. Due to the relatively small costs involved, no effect on production or employment in this subcategory is expected from these regulations.

The three plants in the essential oils subcategory (Subcategory E) have no direct discharges. Eight of the sixteen plants that produce rosin derivatives (Subcategory F) are not direct dischargers. Of the remaining eight only one plant will be affected in 1977, and all eight will be affected in 1983. The one plant will incur investment costs of \$200,000 and annualized costs of \$56,000 for meeting 1977 standards, causing a unit treatment cost that is 0.52 to 0.86% of selling price. The eight plants will incur investment costs of \$570,000 and annualized cost of \$220,000 for meeting the 1983 standards, causing a unit treatment cost that is 0.25 to 0.42% of selling cost. Since only one plant is affected in 1977 and the relative costs are quite low, the economic impact to this subcategory is expected to be minimal.

The charcoal manufacturers, gum rosin and turpentine manufacturers, and the essential oil producers will not be economically impacted by these regulations. Charcoal producers use a process that has no wastewater stream; gum, rosin and turpentine and essential oil manufacturers have achieved zero discharge or discharge to a municipal system. Hence, no costs are incurred by these subcategories due to the regulations.

The report entitled "Development Document for Interim Final Effluent Limitations Guidelines and Proposed New Source Performance Standards for the Gum and Wood Chemicals Manu-

facturing Point Source Category" details the analysis undertaken in support of the interim final regulation set forth herein and is available for inspection in the EPA Public Information Reference Unit, Room 2922 (EPA Library), Waterside Mall, 401 M St. S.W., Washington, D.C. 20460, at all EPA regional offices, and at State water pollution control offices. A supplementary analysis prepared for EPA of the possible economic effects of the regulation is also available for inspection at these locations. Copies of both of these documents are being sent to persons or institutions affected by the proposed regulation or who have placed themselves on a mailing list for this purpose (see EPA's Advance Notice of Public Review Procedures, 38 F.R. 21202, August 6, 1973). An additional limited number of copies of both reports are available. Persons wishing to obtain a copy may write the Environmental Protection Agency, Effluent Guidelines Division, Washington, D.C. 20460, Attention: Distribution Officer, WH-552.

When this regulation is promulgated in final rather than interim final form, revised copies of the Development Document will be available from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. Copies of the economic analysis document will be available through the National Technical Information Service, Springfield, VA 22151.

(c) Summary of public participation. Prior to this publication, the agencies and groups listed below were consulted and given an opportunity to participate in the development of effluent limitations, guidelines and standards proposed for the gum and wood chemicals industry manufacturing category. All participating agencies have been informed of project developments. An initial draft of the Development Document was sent to all participants and comments were solicited on that report. The following are the principal agencies and groups consulted: Effluent Standards and Water Quality Information Advisory Committee (established under section 515 of the Act); all State and U.S. Territory Pollution Control Agencies; Academy of Pharmaceutical Sciences; Relchhold Chemical, Inc.; Chemware-Champion; National Institutes of Health; H. B. Fuller Company; Union Camp Corporation; Naval Facilities Engineering Command; Olin Corporation; Mobay Chemical Corporation; Monsanto Company; Shell Chemical Company; Stauffer Chemical Corporation; Union Carbide Corporation; Bell and Howell, Inc.; Micro Photo Division; MTS Chemicals; Hercules, Inc.; Rohm and Haas Company; Defense Mapping Agency; Pfizer, Inc.; CIBA-GEIGY Corporation; U.S. Army Audio Visual Activity; U.S. Department of Health, Education, and Welfare; E. I. du Pont de Nemours and Company; Allied Chemical Corporation; Pepsi Company; Western Agricultural Chemicals Association; Tennessee Eastman Company; Cabot Corporation; CPAC Company; Diamond Shamrock, Inc.; American Cyanamid Corporation; EPAC; Lederle Laborato-

ries; National Ecological Research Center; Office of Pesticides; Dow Chemical Company; National Association of Pharmaceutical Manufacturers; Abbott Laboratories; Eastman Kodak Company; Office of Environmental Affairs; BASF Wyandotte Corporation; Ohio River Valley Sanitation Commission; The Conservation Foundation; Businessmen for the Public Interest; Environmental Defense Fund, Inc.; Natural Resources Defense Council; American Society of Civil Engineers; Water Pollution Control Federation; National Wildlife Federation; Kimberly Clark Corporation; National Pest Control Association; U.S. Army Corps of Engineers; Carbon Adsorption Systems; AFWL Envirionics; WSME; Institute of Makers of Explosives; Pulp Chemical Association; American Carbon Committee; American Hospital Association; Bureau of Explosives; Association of American Railroads; United Pesticides Formulation and Distribution Association; Technical Association of Pulp and Paper Industry; Professional Photographers of America, Inc.; Adhesive and Sealants Council; Smith, Bucklin and Associates, Inc.; Photo Marketing Association; Carbon Black Producers Traffic Committee; Arundale, Inc.; Enviroengineering, Inc.; U.S. Army Environmental Hygiene Agency; American Defense Preparedness Association; The Fertilizer Institute; National Agricultural Chemicals Association; Walden Research; American Pharmaceutical Association; Pharmaceutical Manufacturers Association; Manufacturing Chemists Association; National Microfilm Association; New England Interstate Water Pollution Control Commission; American Society of Mechanical Engineers; American Medical Association, Public Health Division; U.S. Water Resources Council; U.S. Department of Defense; U.S. Department of Interior; Atlas Powder Company; U.S. Department of the Army; National Association of Photographic Manufacturers; M&T Chemicals, Inc.; FRP Company; Swift Chemical Company; Roberts Consolidated Industries; Eli Lilly and Company; Merck and Company, Inc.; and Parke, Davis and Company.

It should be noted that some of the recipients of the contractor draft documents appear to be and are from areas of interest outside the manufacturing activities covered in this regulation. This situation results because eight industries are being handled as one administratively within the project called miscellaneous chemicals.

The following organizations responded with comments for the gum and wood chemicals manufacturing point source category: EPA, Office of Enforcement; EPA, Office of Planning and Evaluation; Effluent Standards and Water Quality Information Advisory Committee; Hercules Incorporated; North Carolina Department of Natural and Economic Resources; Reichhold Chemicals, Incorporated; Union Carbide Corporation; and United States Department of Interior.

The primary issues raised by commenters during the development of the interim final effluent limitations and guidelines and the response to these comments are as follows:

(1) One commenter stated that the effluent limitations as proposed would not be adequate to protect the water quality of low flowing streams.

The effluent limitations guidelines and new source performance standards presented herein essentially are based on the practicability and availability of control and treatment technologies. More stringent standards may be applied to a point source, pursuant to section 303 of the Act, when necessary to preserve water quality.

(2) Variability factors for treatment plant performance transferred from petroleum manufacturing is questionable is the position taken by another commenter.

The gum and wood chemicals manufacturing point source category operates in a manner very similar to the petroleum refining point source category. Both petroleum and gum and wood chemicals wastes are essentially similar in nature and are amenable to biological treatment. The available historical data and the similarity of the two industries indicate that the petroleum manufacturing variability factors are applicable to these production processes. Of course, it is preferable to have long term operating data for each specific plant. However, in this subcategory, such information does not exist, and cannot be assembled, despite repeated requests to industry from the Agency for this data.

(3) Several commenters were concerned that the potential effects on ground water as a result of landfilling wastes were not adequately addressed.

No ground water contamination from the gum and wood chemicals point source category as a result of landfilling has been found. The engineering technology required to design and operate landfill operations to prevent this problem is readily available and widely practiced.

(4) Several commenters felt that the raw waste loads as presented were not correct or were questionable.

The commenters who made this criticism were unable or unwilling to provide the Agency with supporting data. The data used to develop these numbers, derived from survey sampling and historical data, are the most reliable data available at this time.

(5) One commenter felt that an insufficient representation of the gum and wood manufacturers had been surveyed. Seven plants were observed. Of these seven, the commenter states that two discharge to publicly owned treatment plants and one discharges to landfill.

Over 40% of the direct discharging plants were examined by EPA and its contractor. These plants were chosen because they have treatment systems, have segregated wastes from readily identified product lines, have pilot treatment plants in operation and are representa-

tive in size and/or are representative in product grouping.

(6) One commenter felt that not all wastes from the gum and wood chemicals point source category were biodegradable and that the cost model treatment system was not completely applicable.

The cost model is an example of the type of treatment that can treat the wastewater generated in the manufacture of gum and wood chemicals products. It is currently in use in this category. EPA has funded studies on physical/chemical treatment of waste generated from the manufacture of gum and wood chemicals. Results from these studies should identify additional technology that can be used to meet or surpass the effluent limitations. The biological treatment system model used for cost estimating purposes is accepted and used by the manufacturers of gum and wood chemicals products. Of course, this model is not required technology; the individual plant personnel are responsible for selecting the most effective treatment system applicable in their own case.

(7) One commenter felt the recommendations of the addition of a combined filtration and carbon treatment to meet the 1983 limitations appears to have been chosen without benefit of actual performance tests.

The combined filtration and carbon treatment system is, as explained in the development document, for cost model purposes. Whatever treatment systems a company chooses is its decision. The selection of carbon adsorption as the cost model example is based on carbon sorption isotherm results and studies ongoing in the gum and wood chemicals manufacturing point source category. A full scale unit is currently operating at this time in this industry and is a part of the EPA funded ongoing studies.

(8) One commenter felt that BAT standards should be delayed until the results of the BPT regulations were known. If the water quality was acceptable, then no further standards would be necessary.

The U.S. Environmental Protection Agency is required by the Federal Water Pollution Control Act, 33 USC 1251 et seq., to establish effluent limitations, guidelines and standards of performance for point source categories for best practicable control technology currently available, new source and best available technology economically achievable at this time.

(9) One commenter felt that it is unrealistic to set a blanket average limit for BOD<sub>5</sub> reduction of 95 percent for all activated sludge systems. A more reasonable value of 90 percent reduction was suggested.

The Agency and its contractor calculated the BOD removal efficiency of 90% by reference to the historical data for plant number 54 which showed removal efficiencies of 90%. This figure is further supported by both pilot plant data and historical physical/chemical re-

moval efficiencies. The pilot plants were achieving 96 to 98.8% removal and physical/chemical was obtaining 95.4% removal. The Agency has concluded that plant number 54 is an exemplary plant, which may be used as a basis for regulation.

(10) In the contractor's draft development document it was suggested that some of the waste disposal problems be turned over to a private disposal contractor. Commenters stated that this is an ineffective way of solving problems unless the contractor is covered by the same guidelines. They said that such contractors should be covered under the category of "miscellaneous chemicals industry".

The suggestion that contract disposal systems are available was not meant to imply that the generator of the wastes is relieved of the responsibility for proper disposal.

The Agency is subject to an order of the United States District Court for the District of Columbia entered in *Natural Resources Defense Council v. Train* et al. (Cv. No. 1609-73), which requires the promulgation of regulations for this point source category no later than April 30, 1976. This order also requires that such regulations become effective immediately upon publication.

It has not been practicable to develop and publish regulations for this category in proposed form, to provide a comment period, and to make revisions within the time constraints imposed by the court order referred to above. Accordingly, the Agency has determined pursuant to 5 USC § 553(b) that notice and comment on the interim final regulations would be impracticable and contrary to the public interest. Good cause is also found for these regulations to become effective immediately upon publication.

Interested persons are encouraged to submit written comments. Comments should be submitted in triplicate to the Environmental Protection Agency, 401 M St. SW., Washington, D.C. 20460. Attention: Distribution Officer, WH-552. Comments on all aspects of the regulation are solicited. In the event comments are in the nature of criticisms as to the adequacy of data which are available, or which may be relied upon by the Agency, comments should identify and, if possible, provide any additional data which may be available and should indicate why such data are essential to the amendment or modification of the regulation. In the event comments address the approach taken by the Agency in establishing an effluent limitation or guideline EPA solicits suggestions as to what alternative approach should be taken and why and how this alternative better satisfies the detailed requirements of sections 301 and 304(b) of the Act.

A copy of all public comments will be available for inspection and copying at the EPA Public Information Reference Unit, Room 2922 (EPA Library), Water-side Mall, 401 M Street, S.W., Washington D.C., 20460. A copy of preliminary

## Subpart E—Essential Oils Subcategory

- Sec. 454.50 Applicability; description of the manufacture of essential oils subcategory.
- 454.51 Specialized definitions.
- 454.52 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

## Subpart F—Rosin-Based Derivatives Subcategory

- Sec. 454.60 Applicability; description of the manufacture of rosin-based derivatives subcategory.
- 454.61 Specialized definitions.
- 454.62 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

AUTHORITY: Secs. 301, 304(b) and (c), 306(b), 307(b) and (c), Federal Water Pollution Control Act, as amended (33 U.S.C. 1251, 1311, 1314(b) and (c), 1316(b) and 1317(b) and (c), 86 Stat. 816 et. seq.; Pub. L. 92-500) (the Act).

## Subpart A—Char and Charcoal Briquets Subcategory

- § 454.10 Applicability; description of the manufacture of char and charcoal briquets subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of char and charcoal briquets.

## § 454.11 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in Part 401 of this chapter shall apply to this subpart.

(b) The term "product" shall mean char and charcoal briquets.

- § 454.12 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategorization and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the

Dated: April 30, 1976.

RUSSELL R. TRAIN,  
Administrator.

## Subpart A—Char and Charcoal Briquets Subcategory

- Sec. 454.10 Applicability; description of the manufacture of char and charcoal briquets subcategory.
- 454.11 Specialized definitions.
- 454.12 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

## Subpart B—Gum Rosin and Turpentine Subcategory

- 454.20 Applicability; description of the manufacture of gum rosin and turpentine subcategory.
- 454.21 Specialized definitions.
- 454.22 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

## Subpart C—Wood Rosin, Turpentine and Pine Oil Subcategory

- 454.30 Applicability; description of the manufacture of wood rosin, turpentine and pine oil subcategory.
- 454.31 Specialized definitions.
- 454.32 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

## Subpart D—Tall Oil Rosin, Pitch and Fatty Acids Subcategory

- 454.40 Applicability; description of the manufacture of tall oil rosin, pitch and fatty acids subcategory.
- 454.41 Specialized definitions.
- 454.42 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged from the manufacture of char and charcoal briquets by a point source subject to the provisions of this paragraph after application of the best practicable control technology currently available: There shall be no discharge of process wastewater pollutants to navigable waters.

#### Subpart B—Gum Rosin and Turpentine Subcategory

§ 154.20 Applicability; description of the manufacture of gum rosin and turpentine subcategory.

The provisions of this subpart are applicable to discharges resulting from the manufacture of gum rosin and turpentine.

#### § 154.21 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR 401 shall apply to this subpart.

(b) The term "product" shall mean gum rosin and turpentine.

§ 154.22 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment

or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged from the manufacture of gum rosin and turpentine by a point source subject to the provisions of this paragraph after application of the best practicable control technology currently available:

[Metric units, kg/kg of product;  
English units, lb/1,000 lb of product]

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
BOD <sub>5</sub> .....	1.42	0.755
TSS.....	0.07	0.036
pH.....	Within the range 6.0 to 9.0.	

#### Subpart C—Wood Rosin, Turpentine and Pine Oil Subcategory

§ 154.30 Applicability; description of the manufacture of wood rosin, turpentine and pine oil subcategory.

The provisions of this subpart are applicable to discharges resulting from the manufacture of wood rosin, turpentine and pine oil subcategory.

#### § 154.31 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR 401 shall apply to this subpart.

(b) The term "product" shall mean products from wood rosin, turpentine and pine oil.

§ 154.32 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, de-

velop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged from the manufacture of wood rosin, turpentine and pine oil by a point source subject to the provisions of this paragraph after application of the best practicable control technology currently available:

[Metric units, kg/kg of product;  
English units, lb/1,000 lb of product]

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
BOD <sub>5</sub> .....	2.08	1.10
TSS.....	1.34	0.475
pH.....	Within the range 6.0 to 9.0.	

#### Subpart D—Tall Oil Rosin, Pitch and Fatty Acids Subcategory

§ 154.40 Applicability; description of manufacture of tall oil rosin, pitch and fatty acids subcategory.

The provisions of this subpart are applicable to discharges resulting from the manufacture of tall oil rosin, pitch and fatty acids.

#### § 154.41 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR 401 shall apply to this subpart.

(b) The term "product" shall mean tall oil rosin, pitch and fatty acids.

§ 154.42 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged from the manufacture of tall oil rosin, pitch and fatty acids by a point source subject to the provisions of this paragraph after application of the best practicable control technology currently available:

(b) The term "product" shall mean essential oils.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged from the manufacture of tall oil rosin, pitch and fatty acids by a point source subject to the provisions of this paragraph after application of the best practicable control technology currently available:

[Metric units, kg/kg of product;  
English units, lb/1,000 lb of product]

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
BOD <sub>5</sub> .....	0.95	0.520
TSS.....	0.705	0.243
pH.....	Within the range 6.0 to 9.0.	

#### Subpart E—Essential Oils Subcategory

§ 154.50 Applicability; description of the essential oils subcategory.

The provisions of this subpart are applicable to discharges resulting from the manufacture of essential oils.

#### § 154.51 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR 401 shall apply to this subpart.

(b) The term "product" shall mean essential oils.

§ 154.52 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the

discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged from the manufacture of essential oils by a point source subject to the provisions of this paragraph after application of the best practicable control technology currently available:

[Metric units, kg/kg of product;  
English units, lb/1,000 lb of product]

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
BOD <sub>5</sub> .....	0.95	0.520
TSS.....	0.705	0.243
pH.....	Within the range 6.0 to 9.0.	

#### Subpart F—Rosin-Based Derivatives Subcategory

§ 154.60 Applicability; description of manufacture of rosin-based derivatives subcategory.

The provisions of this subpart are applicable to discharges resulting from the manufacture of rosin-based derivatives.

#### § 154.61 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR 401 shall apply to this subpart.

(b) The term "product" shall mean rosin-based derivatives.

§ 154.62 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result,

## ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 454]

[FRL 540-8]

### GUM AND WOOD CHEMICALS MANUFACTURING POINT SOURCE CATEGORY Proposed Rule Making

Notice is hereby given that effluent limitations and guidelines for existing sources, standards of performance and pretreatment standards for new sources set forth in tentative form below are proposed by the Environmental Protection Agency (EPA). The gum and wood chemicals manufacturing point source category covers products manufactured under SIC code 2861. Simultaneously with this notice of proposed rulemaking, EPA is promulgating a regulation adding Part 454 to Chapter 40 of the Code of Federal Regulations. That regulation establishes effluent limitations and guidelines for existing sources based on the best practicable control technology currently available for the gum and wood chemicals manufacturing point source category. The regulation proposed below will amend 40 CFR 454—gum and wood chemicals manufacturing point source category by adding sections 454.13, 454.14, 454.15, and 454.16 to the char and charcoal briquet subcategory (Subpart A); sections 454.23, 454.24, 454.25 and 454.26 to the gum rosin and turpentine subcategory (Subpart B); sections 454.33, 454.34, 454.35 and 454.36 to the wood rosin, turpentine and pine oil subcategory (Subpart C); sections 454.43, 454.44, 454.45 and 454.46 to the tall oil rosin, pitch and fatty acids subcategory (Subpart D); sections 454.53, 454.54, 454.55 and 454.56 to the essential oils subcategory (Subpart E); and sections 454.63, 454.64, 454.65 and 454.66 to the rosin-based derivatives subcategory (Subpart F); pursuant to sections 306(b) and 307 (b) and (c) of the Federal Water Pollution Control Act, as amended (33 U.S.C. 1251, 1316(b) and 1317 (b) and (c), 86 Stat. 816 et seq.; P.L. 92-500) (the Act). Simultaneously with this proposed rule making EPA is promulgating interim final regulations which establish the above listed subparts.

(a) *Legal authority.* Section 301(b) of the Act requires the achievement by not later than July 1, 1977, of effluent limitations for point sources, other than publicly owned treatment works, which require the application of the best practicable control technology currently available as defined by the Administrator pursuant to section 304(b) of the Act. Section 301(b) also requires the achievement by not later than July 1, 1983, of effluent limitations for point sources, other than publicly owned treatment works, which require the application of best available technology economically achievable which will result in reasonable further progress toward the national goal of eliminating the discharge of all pollutants, as determined in accordance with regulations issued by the

## PROPOSED RULES

Administrator pursuant to section 304 (b) of the Act.

Section 304(b) of the Act requires the Administrator to publish regulations providing guidelines for effluent limitations setting forth the degree of effluent reduction attainable through the application of the best practicable control technology currently available and the degree of effluent reduction attainable through the application of the best control measures and practices achievable including treatment techniques, process and procedural innovations, operating methods and other alternatives. The regulation herein sets forth effluent limitations and guidelines, pursuant to sections 301 and 304(b) of the Act, for the char and charcoal briquets subcategory (Subpart A), the gum rosin and turpentine subcategory (Subpart B), the wood rosin, turpentine and pine oil subcategory (Subpart C), the tall oil rosin, pitch and fatty acids subcategory (Subpart D), the essential oils subcategory (Subpart E), and the rosin-based derivatives subcategory (Subpart F) of the gum and wood chemicals manufacturing point source category.

Section 306 of the Act requires the achievement by new sources of a Federal standard of performance providing for the control of the discharge of pollutants which reflects the greatest degree of effluent reduction which the Administrator determines to be achievable through application of the best available demonstrated control technology, processes, operating methods, or other alternatives, including, where practicable, a standard permitting no discharge of pollutants.

Section 306(b)(1)(B) of the Act requires the Administrator to propose regulations establishing Federal standards of performance for categories of new sources included in a list published pursuant to section 306(b)(1)(A) of the Act. Simultaneously with the appearance of the proposed rulemaking is a FEDERAL REGISTER notice titled "Addition to the List of Categories of Sources." This notice adds the gum and wood chemicals manufacturing point source category and is in accordance with the provisions of section 306(b)(1)(A) of the Act. The regulations proposed herein set forth the standards of performance applicable to new sources for the char and charcoal briquets subcategory (Subpart A), the gum rosin and turpentine subcategory (Subpart B), the wood rosin, turpentine and pine oil subcategory (Subpart C), the tall oil rosin, pitch and fatty acids subcategory (Subpart D), the essential oils subcategory (Subpart E), and the rosin-based derivatives subcategory (Subpart F) of the gum and wood chemicals manufacturing point source category.

Section 307(c) of the Act requires the Administrator to promulgate pretreatment standards for new sources at the same time that standards of performance for new sources are promulgated pursuant to section 306. Sections 454.16, 454.26, 454.36, 454.46, 454.56 and 454.66

proposed below, provide pretreatment standards for new sources within the char and charcoal briquets subcategory (Subpart A), the gum rosin, turpentine subcategory (Subpart B), the wood rosin, turpentine and pine oil subcategory (Subpart C), the tall oil rosin, pitch and fatty acids subcategory (Subpart D), the essential oils subcategory (Subpart E), and the rosin-based derivatives subcategory (Subpart F) of the gum and wood chemicals manufacturing point source category. Section 307(b) of the Act requires the establishment of pretreatment standards for pollutants introduced into publicly owned treatment works and 40 CFR 128 establishes that the Agency will propose specific pretreatment standards at the time effluent limitations are established for point source discharges. However, due cause is found to set aside for this regulation the applicability of that portion of 40 CFR 128.133 requiring the Agency to propose pretreatment standards concerning the application of effluent limitations to pretreatment at the time such effluent limitations are promulgated. The Agency may establish pretreatment standards for existing sources within the char and charcoal briquets subcategory (Subpart A), the gum rosin and turpentine subcategory (Subpart B), the wood rosin, turpentine and pine oil subcategory (Subpart C), the tall oil rosin, pitch and fatty acids subcategory (Subpart D), the essential oils subcategory (Subpart E), and the rosin-based derivatives subcategory (Subpart F) of the gum and wood chemicals manufacturing point source category at a future date.

(b) *Summary and basis of proposed standards of performance and pretreatment standards for new sources.* The general methodology and summary of conclusions are discussed in considerable detail in the preamble of the interim final regulations for the char and charcoal briquets subcategory (Subpart A), the gum rosin and turpentine subcategory (Subpart B), the wood rosin, turpentine and pine oil subcategory (Subpart C), the tall oil rosin, pitch and fatty acids subcategory (Subpart D), the essential oils subcategory (Subpart E), and the rosin-based derivatives subcategory (Subpart F) which are being promulgated by EPA simultaneously with publication of this proposed regulation. The information contained in the preamble to the interim final regulation is incorporated herein by reference. The proposed regulation set forth below proposes pretreatment standards for pollutants introduced into publicly owned treatment works. The proposal will establish for each subpart the extent of application of effluent limitations to existing sources and to new sources which discharge to publicly owned treatment works. This regulation is intended to be complementary to the general regulation for pretreatment standards for existing sources set forth at 40 CFR 128. The general regulation was proposed July 19, 1973 (38 FR 19236), and published in final form on Novem-

ber 8, 1973 (38 FR 30982). The regulation proposed below applies to users of publicly owned treatment works which fall within the description of the point source category to which the limitations and standards apply. However, the proposed pretreatment regulation applies to the introduction of pollutants which are directed into a publicly owned treatment works, rather than to discharges of pollutants to navigable waters.

The general pretreatment standard divides pollutants discharged by users of publicly owned treatment works into two broad categories: "compatible" and "incompatible." Compatible pollutants are generally not subject to specific numerical pretreatment standards. However, 40 CFR 128.131 (prohibited wastes) may be applicable to compatible pollutants. Additionally, local pretreatment requirements may apply (See 40 CFR 128.110). Incompatible pollutants are subject generally to pretreatment standards as provided in 40 CFR 128.133.

Sections 454.14, 454.24, 454.34, 454.44, 454.54 and 454.64 of the regulation reserved below are intended to implement the intent of section 128.133, by setting forth specific numeric limitations for particular pollutants subject to pretreatment requirements.

Questions were raised during the public comment period on the proposed general pretreatment standard (40 CFR 128) about the propriety of applying a standard based upon best practicable control technology currently available to all plants subject to pretreatment standards. In general, EPA believes the analysis supporting the effluent limitations and guidelines is adequate to make a determination regarding the application of those standards to users of publicly owned treatment works. However, to ensure that those standards are appropriate in all cases, EPA now seeks additional comments focusing upon the application of effluent limitations and guidelines to users of publicly owned treatment works.

The report entitled "Development Document for Interim Final Effluent Limitations, Guidelines and New Source Performance Standards for the Gum and Wood Chemicals Manufacturing Point Source Category" details the analysis undertaken in support of the regulation being proposed herein and is available for inspection at the EPA Public Information Reference Unit, Room 2922 (EPA Library), Waterside Mall, 401 M St., S.W., Washington, D.C. 20460, at all EPA regional offices, and at State water pollution control offices. A supplementary analysis prepared for EPA of the possible economic effects of the proposed regulation is also available for inspection at these locations. Copies of both of these documents are being sent to persons or institutions affected by the proposed regulation or who have placed themselves on a mailing list for this purpose (see EPA's Advance Notice of Public Review Procedures, 38 FR 21202, August 6, 1973). An additional limited number of copies of both reports are available.

Persons wishing to obtain a copy may write the Environmental Protection Agency, Effluent Guidelines Division, Washington, D.C. 20460, Attention: Distribution Officer, WH-552.

When this regulation is promulgated, revised copies of the Development Document will be available from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. Copies of the Economic Analysis will be available through the National Technical Information Service, Springfield, Virginia 22151.

(c) *Summary of public participation.* A full listing of participants and discussion of comments and responses is included in the preamble of the interim final regulation for the char and charcoal briquets subcategory (Subpart A), the gum rosin and turpentine subcategory (Subpart B), the wood rosin, turpentine and pine oil subcategory (Subpart C), the tall oil rosin, pitch and fatty acids subcategory (Subpart D), the essential oils subcategory (Subpart E), and the rosin-based derivatives subcategory (Subpart F) being simultaneously promulgated by EPA and are incorporated herein by reference.

Interested persons may participate in this rulemaking by submitting written comments in triplicate to the Environmental Protection Agency, 401 M St., S.W., Washington, D.C. 20460, Attention: Distribution Officer, WH-552. Comments on all aspects of the proposed regulation are solicited. In the event comments are in the nature of criticisms as to the adequacy of data which are available, or which may be relied upon by the Agency, comments should identify and, if possible, provide any additional data which may be available and should indicate why such data are essential to the development of the regulations. In the event comments address the approach taken by the Agency in establishing a standard of performance or pretreatment standard, EPA solicits suggestions as to what alternative approach should be taken and why and how this alternative better satisfies the detailed requirements of sections 306 and 307 (b) and (c) of the Act.

A copy of all public comments will be available for inspection and copying at the EPA Public Information Reference Unit, Room 2922 (EPA Library), Waterside Mall, 401 M Street, S.W., Washington D.C. 20460. A copy of preliminary draft contractor reports, the Development Document and economic study referred to above, and certain supplementary materials supporting the study of the industry concerned will also be maintained at this location for public review and copying. The EPA information regulation, 40 CFR Part 2, provides that a reasonable fee may be charged for copying.

All comments received on or before June 17, 1976 will be considered. Steps previously taken by the Environmental Protection Agency to facilitate public response within this time period are outlined in the advance notice concerning

public review procedures published on August 6, 1973 (38 FR 21202).

Dated: April 30, 1976.

RUSSELL E. TRAIN,  
Administrator.

As proposed Part 454 reads as follows:

- Subpart A—Char and Charcoal Briquets Subcategory**
- Sec. 454.13 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
- 454.14 [Reserved]
- 454.15 Standards of performance for new sources.
- 454.16 Pretreatment standards for new sources.
- Subpart B—Gum Rosin and Turpentine Subcategory**
- 454.23 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
- 454.24 [Reserved]
- 454.25 Standards of performance for new sources.
- 454.26 Pretreatment standards for new sources.
- Subpart C—Wood Rosin, Turpentine and Pine Oil Subcategory**
- 454.33 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
- 454.34 [Reserved]
- 454.35 Standards of performance for new sources.
- 454.36 Pretreatment standards for new sources.
- Subpart D—Tall Oil Rosin, Pitch and Fatty Acids Subcategory**
- 454.43 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
- 454.44 [Reserved]
- 454.45 Standards of performance for new sources.
- 454.46 Pretreatment standards for new sources.
- Subpart E—Essential Oils Subcategory**
- 454.53 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
- 454.54 [Reserved]
- 454.55 Standards of performance for new sources.
- 454.56 Pretreatment standards for new sources.
- Subpart F—Rosin-Based Derivatives Subcategory**
- 454.63 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
- 454.64 [Reserved]
- 454.65 Standards of performance for new sources.
- 454.66 Pretreatment standards for new sources.

AUTHORITY: Sec. 301, 304(b) and (c), 306 (b), 307(b) and (c), Federal Water Pollution Control Act, as amended (33 U.S.C. 1251,

1311, 1314 (b) and (c), 1316(b) and 1317(b) and (c), 86 Stat. 616 et. seq.; Publ. L. 92-500 (the Act).

**Subpart A—Char and Charcoal Briquets Subcategory**

§ 454.13 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged from the char and charcoal briquets manufacturing subcategory by a point source subject to the provisions of this subpart after application of the best available technology economically achievable: There shall be no discharge of process wastewater pollutants.

§ 454.14 [Reserved]

§ 454.15 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged from the char and charcoal briquets manufacturing subcategory by a new source subject to the provisions of this subpart: There shall be no discharge of process wastewater pollutants.

§ 454.16 Pretreatment standard for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the char and charcoal briquet manufacturing subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR 128 (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR 128, for existing sources, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

Pollutant or pollutant property	Pretreatment standard
BOD <sub>5</sub> .....	No limitation.
TSS .....	Do.

**Subpart B—Gum Rosin and Turpentine Subcategory**

§ 454.23 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged from

the gum rosin and turpentine subcategory by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

Effluent characteristic	Effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
COD .....	1.36	1.09
BOD <sub>5</sub> .....	0.28	0.22
TSS .....	0.01	0.005
pH .....	Within the range 6.0 to 9.0.	

§ 454.24 [Reserved]

§ 454.25 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged from the gum rosin and turpentine subcategory by a new source subject to the provisions of this subpart:

Effluent characteristic	Effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
COD .....	3.94	3.15
BOD <sub>5</sub> .....	0.86	0.70
TSS .....	0.026	0.013
pH .....	Within the range 6.0 to 9.0.	

§ 454.26 Pretreatment standard for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the gum rosin and turpentine subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR 128 (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR 128, for existing sources, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

Pollutant or pollutant property	Pretreatment standard
BOD <sub>5</sub> .....	No limitation.
TSS .....	Do.

**Subpart C—Wood Rosin, Turpentine and Pine Oil Subcategory**

§ 454.33 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged from the wood rosin, turpentine and pine oil subcategory by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

Effluent characteristic	Effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
COD .....	2.04	1.63
BOD <sub>5</sub> .....	0.41	0.33
TSS .....	0.19	0.065
pH .....	Within the range 6.0 to 9.0.	

§ 454.34 [Reserved]

§ 454.35 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged from the wood rosin, turpentine and pine oil subcategory by a new source subject to the provisions of this subpart:

Effluent characteristic	Effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
COD .....	5.92	4.74
BOD <sub>5</sub> .....	1.25	1.02
TSS .....	0.48	0.24
pH .....	Within the range 6.0 to 9.0.	

§ 454.36 Pretreatment standard for new sources.

The pretreatment standards under section 307(c) of the Act for a new source within the wood rosin, turpentine and pine oil subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR 128 (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR 128, for existing sources, except that, for the pur-

## PROPOSED RULES

pose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

Pollutant or pollutant property	Pretreatment standard
BOD <sub>5</sub> .....	No limitation
TSS.....	Do.

#### Subpart D—Tall Oil Rosin, Pitch and Fatty Acids Subcategory

§ 454.43 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged from the tall oil rosin, pitch and fatty acids subcategory by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

[Metric units, kg/kg of product;  
English units, lb/1,000 lb of product]

Effluent characteristic	Effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
COD.....	1.14.....	0.91
BOD <sub>5</sub> .....	0.20.....	0.16
TSS.....	0.098.....	0.049
pH.....	Within the range 6.0 to 9.0.	

#### § 454.44 [Reserved]

#### § 454.45 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged from the tall oil rosin, pitch and fatty acids subcategory by a new source subject to the provisions of this subpart:

[Metric units, kg/kg of product;  
English units, lb/1,000 lb of product]

Effluent characteristic	Effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
COD.....	3.32.....	2.66
BOD <sub>5</sub> .....	0.60.....	0.49
TSS.....	0.24.....	0.12
pH.....	Within the range 6.0 to 9.0.	

#### § 454.46 Pretreatment standard for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the tall oil rosin, pitch and fatty acids subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR 128 (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR 128, for existing sources, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

Pollutant or pollutant property	Pretreatment standard
BOD <sub>5</sub> .....	No limitation
TSS.....	Do.

#### Subpart E—Essential Oils Subcategory

§ 454.53 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged from the essential oils subcategory by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

[Metric units, kg/kg of product;  
English units, lb/1,000 lb of product]

Effluent characteristic	Effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
COD.....	14.1.....	11.3
BOD <sub>5</sub> .....	4.45.....	3.61
TSS.....	1.25.....	0.63
pH.....	Within the range 6.0 to 9.0.	

#### § 454.54 [Reserved]

#### § 454.55 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged from the essential oils subcategory by a new source subject to the provisions of this subpart:

[Metric units, kg/kg of product;  
English units, lb/1,000 lb of product]

Effluent characteristic	Effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
COD.....	40.8.....	32.6
BOD <sub>5</sub> .....	13.7.....	11.1
TSS.....	3.10.....	1.55
pH.....	Within the range 6.0 to 9.0.	

#### § 454.56 Pretreatment standard for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the essential oils subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR 128 (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR 128, for existing sources, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

Pollutant or pollutant property	Pretreatment standard
BOD <sub>5</sub> .....	No limitation
TSS.....	Do.

#### Subpart F—Rosin-Based Derivatives Subcategory

§ 454.63 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged from the rosin-based derivatives subcategory by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

[Metric units, kg/kg of product;  
English units, lb/1,000 lb of product]

Effluent characteristic	Effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
COD.....	1.40.....	1.12
BOD <sub>5</sub> .....	0.28.....	0.22
TSS.....	0.006.....	0.003
pH.....	Within the range 6.0 to 9.0.	

## PROPOSED RULES

#### § 454.64 [Reserved]

#### § 454.65 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged from the rosin-based derivatives subcategory by a new source subject to the provisions of this subpart:

[Metric units, kg/kg of product;  
English units, lb/1,000 lb of product]

Effluent characteristic	Effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
COD.....	4.04.....	3.23
BOD <sub>5</sub> .....	0.85.....	0.69
TSS.....	0.018.....	0.008
pH.....	Within the range 6.0 to 9.0.	

#### § 454.66 Pretreatment standard for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the rosin-based derivatives subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR 128 (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR 128, for existing sources, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

Pollutant or pollutant property	Pretreatment standard
BOD <sub>5</sub> .....	No limitation
TSS.....	Do.

Title 24—Housing and Urban Development  
SUBTITLE A—OFFICE OF THE SECRETARY  
[Docket No. R-76-297]

PART 58—ENVIRONMENTAL REVIEW PRO-  
CEDURES FOR THE COMMUNITY DE-  
VELOPMENT BLOCK GRANT PROGRAM

Financial Settlement of Urban Renewal  
Projects—Environmental Review

On February 11, 1976, the Department of Housing and Urban Development published in the *FEDERAL REGISTER* (41 FR 6204) a proposed § 58.20 of Title 24 of the Code of Federal Regulations. 24 CFR Part 58 sets forth environmental review requirements and procedures to be observed by applicants for assistance under Title I of the Housing and Community Development Act of 1974 (Pub. L. 93-383, 42 U.S.C. 5301 et seq.) and implements section 104(h) of said Title I. The proposed 24 CFR § 58.20 set forth environmental review requirements and procedures for financial settlements of Urban Renewal Projects under authority of section 112(b) of said Title I and the preamble to the proposed § 58.20 as published, invited interested persons to submit comments on the proposed section on or before March 12, 1976.

A number of comments on the proposed § 58.20 were submitted to the Department in response to the invitation. The comments were to the effect (1) that the proposed section was confusing as a whole and that subsection (d) thereof was particularly confusing; (2) that the requirement for environmental review of an applicant's proposed uses of capital grant funds surplussed by financial settlement of an urban renewal project prior to submission of its application for the Department's approval of such financial settlement was unnecessary; (3) that the proposed section required unnecessary or duplicative environmental review of urban renewal activities which had been federally approved prior to the effective date of the National Environmental Policy Act of 1969 or which had been federally approved after adequate environmental review; and (4) that since deduction of community development block grant funds by HUD for the purpose of urban renewal loan repayment pursuant to section 112(a)(1) of Title I, was not subject to environmental review, the requirement for environmental review of an applicant's proposal to use such funds for loan repayment pursuant to section 105(a)(10) of Title I, should be eliminated. In addition, review of the proposed § 58.20 by Department staff resulted in comments that (5) certain minor technical errors should be corrected; and (6) that a complete definition of the term "substantial completion" in relation to urban renewal projects, should be added which accords with existing Department policy.

Evaluation of all comments received resulted in the following determinations:

(1) That proposals for the use of community development block grant funds for urban renewal loan repayment, whether at the initiative of HUD or of the applicant, should not be subject to environmental review, except in cases

where the proposal would implement a modification of the particular urban renewal project;

(2) That 24 CFR 58.3 and 58.20 should be revised to implement determination (1);

(3) That minor changes and corrections should be made in § 58.20 in order to provide greater clarity;

(4) That the requirement for early environmental review of proposed uses of capital grant funds to be surplussed by an urban renewal project financial settlement is necessary in order to preserve the legal basis for the applicant's environmental review of the proposed financial settlement, and cannot be changed;

(5) That a complete and correct definition of the term "substantial completion" in relation to urban renewal projects should be added to § 58.3; and

(6) That § 58.20(d) should be rewritten to clearly state that an environmental assessment is not required for the financial settlement of an urban renewal project which is substantially completed.

A Finding of Inapplicability respecting the National Environmental Policy Act of 1969 has been made for the changes to § 58.3 and for the modified § 58.20 in accordance with Department procedures (HUD Handbook 1390.1, 38 FR 19182). A copy of the Finding is available for inspection in the Office of the Rules Docket Clerk, Office of the Secretary, Room 10245, Department of Housing and Urban Development, 451-7th Street, S.W., Washington, D.C.

It is hereby certified that the economic and inflationary impacts of the changes to § 58.3 and of the modified § 58.20 have been evaluated in accordance with OMB Circular No. A-107.

Accordingly, Title 24, Part 58 is amended as follows:

1. The definition of the term "project" in § 58.3 is revised and two new definitions are added to read as follows:

§ 58.3 Terminology.

**Project.** An activity, or a group of activities, as determined by the applicant in its sole discretion, to be assisted under Title I. A project is an "action" within the meaning of the CEQ guidelines, 40 CFR 1500.5. However, the following activities or groups of activities assisted under Title I are not regarded as projects for purposes of this Part: (1) The payment of reasonable administrative costs related to the planning and execution of community development and housing activities, as permitted by Section 105(a)(13) of Title I and 24 CFR 570.200(a)(13); or (2) the payment, under authority of Section 105(a)(10) of Title I, of principal and interest on outstanding urban renewal project loans as defined in 24 CFR 570.800(b) where such payment does not fall within the coverage of § 58.20 of this part and/or where such payment is not associated with a change in the related urban renewal project.

**Urban Renewal Project.** A project as defined in § 110(c) of the Housing Act

of 1949, as amended, or a Neighborhood Development Program as defined in § 131(b) of the Housing Act of 1949, as amended.

**Substantial Completion.** As applied to an Urban Renewal Project, this term means that:

(i) Ninety percent (90%) or more of site improvement work has been completed and the remainder is under contract;

(ii) Ninety percent (90%) or more of demolition work has been completed and the remainder is under contract;

(iii) Relocation of all occupants of at least ninety-eight (98%) of the housing units in the relocation workload, or of all but five (5) such housing units, whichever is the lesser, has been completed;

(iv) Relocation for at least ninety-five percent (95%) of all cases in the nonresidential relocation workload, or for all but ten (10) such cases, whichever is the lesser, has been completed;

(v) At least ninety percent (90%), by estimated cost, of all relocation payments have been made;

(vi) With respect to each park, playground, public building or other public facility to be provided as a noncash local grant-in-aid:

A. All land necessary for the provision thereof has been conveyed to or is in the ownership of the providing entity or is covered by an unconditional purchase, or similar, agreement;

B. All necessary planning agency or other public body approvals have been obtained;

C. All, or virtually all, of the funds necessary for the provision thereof have been authorized by the governing body of the providing entity and all and any necessary bond referendums or other public approvals have been obtained;

D. Complete working drawings and specifications have been prepared for the construction thereof and firm supportable estimates of the costs incident to provision thereof have been developed, and

E. A firm assurance exists of timely completion and, in any event, of completion within five (5) years from the date of the assurance;

(vii) With respect to dwelling units not to be demolished, at least ninety-five percent (95%) comply with applicable codes and at least seventy-five percent (75%) comply with applicable property rehabilitation standards established for the Urban Renewal Project; *Provided* that in any event, project activities may be deemed complete in regard to dwelling units not to be demolished where the following conditions exist

A. Area decline has been arrested and stability and self-generating renewal assured;

B. Public facilities and services have been, and will continue to be, provided to support continued stability;

C. Local financial institutions are making property loans in the area, and

D. The community will continue an adequate level of code enforcement activities in the area;

(viii) All project land acquisition has been completed; and

(ix) An amount equal to the HUD approved land disposition value of all acquired project land has been credited to the urban renewal project account(s); *Provided*, that for all project land actually sold, the full sale price thereof shall be so credited and for all leased or unsold project land, the full amount of the HUD approved estimate of the disposition value thereof shall be so credited from community development block grants or local funding sources.

3. A new § 58.20 is added to read as follows:

§ 58.20 Financial settlement of urban renewal projects.

(a) *Project undertaken to facilitate early financial settlement.* If an applicant proposes to submit an application for financial settlement of an urban renewal project prior to substantial completion thereof pursuant to 24 CFR 570.804, which will be coupled with a proposal to use Title I grants pursuant to 24 CFR 570.801 for the purpose of facilitating such financial settlement, the latter proposal shall be deemed a project which is subject to the following additional requirements and conditions:

(1) Section 58.19(c) shall be inapplicable to such project;

(2) The environmental review for such project shall include an assessment of the environmental consequences of the financial settlement of the Urban Renewal Project prior to substantial completion thereof;

(3) The applicant shall insert the following sentence immediately after the first sentence set forth after the word "indicated" in § 58.30(a)(6):

Applicant will use the project to establish a financial basis, and will apply to the Secretary of HUD, for financial settlement prior to substantial completion of the (identify urban renewal project or NDP) pursuant to 24 CFR 570.803 and 570.804.

(b) *Financial settlement prior to substantial completion of Urban Renewal Project involving surplus of capital grant funds.* A financial settlement pursuant to 24 CFR 570.803 and 570.804 of an Urban Renewal Project prior to substantial completion thereof which would result in a surplus of capital grant funds, \$500 or more of which will be devoted to eligible Title I activities other than exempt activities under § 58.21, together with the proposed use(s) of the surplus shall be deemed a project and shall be subject to the following additional requirements and conditions:

(1) Section 58.19(c) shall be inapplicable to such project;

(2) The environmental review for such project shall include an assessment of the environmental consequences of the financial settlement of the Urban Renewal Project prior to substantial completion thereof, and of the proposed use(s) of the surplus except any use(s) set forth in § 58.21;

(3) The application for financial settlement pursuant to 24 CFR 570.803 and 570.804 and use of the surplus resulting therefrom shall be treated as a request for release of funds and shall be subject to the requirements of Subpart C of this

part. However, the applicant shall use the following sentence in lieu of the first sentence set forth after the word "indicated" in § 58.30(a)(6):

(Name of Applicant) will apply for financial settlement prior to substantial completion of (identify urban renewal project or NDP) and will undertake certain activities, all as described above, with surplus capital grant funds resulting from financial settlement.

(4) The surplus of capital grant funds resulting from such financial settlement may be used for a project which consists entirely of exempt activities under § 58.21 and/or activities which are subjected to environmental assessment pursuant to § 58.20(b) without further compliance with this part.

(c) *HUD environmental review of certain financial settlements.* Prior to acting upon any application submitted pursuant to 24 CFR 570.803 and 570.804 for financial settlement of an Urban Renewal Project which is not substantially completed and for which the environmental consequences of financial settlement prior to substantial completion thereof have not been assessed by the applicant pursuant to § 58.20(a) or (b), HUD shall itself conduct an assessment of the environmental consequences of the proposed financial settlement. However, if HUD finds that the applicant should have conducted an environmental assessment pursuant to § 58.20(a) or (b) but failed to do so, the application for financial settlement shall be rejected and the applicant shall be required to comply with the environmental assessment requirements of § 58.20(a) or (b) as appropriate, on a catch-up basis, as a condition precedent to resubmission of its application.

(d) *Financial settlement after substantial completion of Urban Renewal Project.* Notwithstanding any other provision of this Part an assessment of the environmental consequences of financial settlement pursuant to 24 CFR 570.803 and/or 570.804, of an Urban Renewal Project which is substantially completed, is not required. However, the applicant or HUD, as appropriate, shall prepare and maintain in its records a written finding as to the substantial completion of the Urban Renewal Project.

**Effective date.** These regulations are effective on May 18, 1976.

CARLA A. HILLS,  
Secretary of Housing and  
Urban Development.

[FR Doc.76-14273 Filed 5-18-76; 8:45 am]

CHAPTER V—OFFICE OF ASSISTANT SEC-  
RETARY FOR COMMUNITY PLANNING  
AND DEVELOPMENT, DEPARTMENT OF  
HOUSING AND URBAN DEVELOPMENT

[Docket No. R-76-292]

PART 570—COMMUNITY DEVELOPMENT  
BLOCK GRANTS

Urban Renewal Provisions

On February 11, 1976, the Department of Housing and Urban Development published in the *FEDERAL REGISTER* (41 FR 6202) a notice of proposed rulemaking

concerning the urban renewal provisions of the Housing and Community Development Act of 1974. Interested persons were given until March 12, 1976, to submit written comments. All comments received were given careful consideration and many of the changes incorporated in the final regulations reflect the suggestions received from the public.

The following enumerates the changes which are being made and states the reasons for those changes which are substantive.

1. Section 570.800 is revised to include definitions of the terms "unearned grant" and "surplus grant." This clarifies that the costs of any unliquidated claims, which would include relocation costs, must be taken into account in determining the amount of grant funds which are available for loan repayment and the amount which would become surplus.

2. Section 570.801(b)(1) is revised to specify further limitations on the use of block grant funds to pay the costs of noncash local grants-in-aid not otherwise eligible under the block grant program, namely: (a) The noncash local grants-in-aid must be necessary to effectuate project completion and financial settlement, and (b) the use of block grant funds must not exceed the percent of benefit approved in the financing plan, and the statutory limitations on communitywide supporting facilities in the Housing Act of 1949. The purpose of these changes is to conform to the authorization and intent of Section 105(a)(10) of the Act. That section makes eligible the cost of completing a project, and this is construed to mean only the cost of items actually required for completion and financial settlement, and only to the extent of the percentage of benefit previously recognized. This section also makes clear that after financial settlement the eligibility provisions of the block grant program apply to the use of any surplus funds for such facilities.

In addition, this section now incorporates rules pertaining to acquisition of urban renewal project land by the local government with block grant funds and subsequent disposition of such land.

3. Most of the public comments received referred to section 570.802 and this section is most substantially revised.

Section 570.802(a) states that the Secretary will review urban renewal projects in consultation with LPA's and units of general local government to determine whether the Federal financial interest in such projects is protected. Thus, review of the financial status of projects, and consultation on means to repay loans can be carried out at any time and is not limited to the annual 75-day review period for block grant applications. Comments were received objecting to the deduction of block grant funds for loan repayment subsequent to approval of an application. These comments have been noted, and it is the Department's intention to make such deductions during the annual application review and approval period in almost all cases. Nevertheless, it is deemed prudent and reasonable to

reserve the statutory authority to make deductions at other times where necessary and appropriate to protect the Federal financial interest. This authority will be exercised sparingly and only after meaningful consultations as required by the statute.

Section 570.802(a)(1) now refers to temporary loans "made or authorized to be made." This clarifies that the statutory authority to make deductions also applies to providing for repayment of additional borrowing to be made in cases where there is unutilized loan availability remaining under the Loan and Grant contract. This section now also makes clear that all sources of funds will be considered in determining whether the Federal financial interest is adequately protected.

Many comments were made about the Fiscal Year 1978 base period for estimating land proceeds and computing deficits in resources available for loan repayment. Section 570.802(a)(2) has been reformulated in response to those comments. This section now enumerates the factors to be considered by the Secretary in estimating the value and marketability of remaining land. Further, criteria have been incorporated for use of the 1978 base year which makes it applicable to those types of cases where the Federal financial interest is most likely to be adversely affected. This base period may be waived by the Secretary even in such cases, and is optional in others. These criteria are intended to insure that deductions are not made in an arbitrary or inappropriate fashion.

The Fiscal Year 1978 cutoff for estimating land proceeds was adopted based on two considerations: (a) the impossibility of projecting into the indefinite future and the consequent necessity to establish some reasonable cutoff date; (b) the period of maximum hold harmless grants available for loan repayment. This base year applies to determinations to be made in Fiscal Years 1976 and 1977. Contrary to the impression many commentators had, this provision is not intended to result in any mandate by the Department to accelerate land disposition merely to effectuate financial settlements of renewal projects.

A number of commentators questioned the possibility that HUD would make deductions in cases where applicants had already budgeted block grant funds for loan repayment. In response, it is noted that in calculating the amount of deductions for loan repayment HUD will take into account amounts budgeted by the applicant for the same purpose, and the total would generally not exceed 20 percent of the entitlement grant without the consent of the applicant.

4. Section 570.803 has been reorganized for greater clarity. § 570.803(a) defines financial settlement of projects pursuant to the authority of Section 112(b) of the Act and enumerates the classes of projects which are governed by that authority. This enumeration includes projects which have exhausted all funds prior to completion of the approved project activities, and projects

which have completed all activities other than the sale of land. Section 570.803(b) consolidates all conditions on the release of surplus funds, including satisfaction of audit exceptions, repayment of temporary loans, and completion of certain approved activities such as relocation. Section 570.803(c) refers to the environmental review requirements of 24 CFR 58.20 which is adopted concurrently with this Subpart. Section 570.803(d) states the requirement for a close-out agreement for projects covered by this section. Section 570.803(e) now separately enumerates the requirements which apply only to some classes of projects, namely those with incomplete activities which would otherwise be completed, including noncash local grants-in-aid. Section 570.803(e)(5) adds a requirement regarding maintenance of occupied residential property owned by the LPA at the time of financial settlement.

5. Section 570.804 includes a number of minor changes in language for purposes of clarity. In addition, § 570.804(b) has been changed to indicate that an application for financial settlement may be submitted in conjunction with an application for block grant funds, but is not part of such application, and that the statutory 75 day review limit does not apply to such requests. Section 570.804(b)(6) now requires both a Community Development Program and a Budget showing the use of surplus funds. Section 570.804(b)(7) incorporates the rule pertaining to disposition of remaining project land after financial settlement and provides that where local funds other than block grants are used to repay loans, land proceeds subsequently received may be used to reimburse such local expenditures.

6. Section 570.200(a)(10) is revised to include a cross-reference to § 570.801.

In connection with the environmental review of these amendments, a Finding of Inapplicability has been made under HUD Handbook 1390.1, 38 FR 19182. A copy of the Finding is available for inspection in the Office of the Rules Docket Clerk, Office of the Secretary, Room 10245, Department of Housing and Urban Development, 451 7th Street, SW., Washington, D.C.

It is hereby certified that the economic and inflationary impacts of these proposed regulations have been carefully evaluated in accordance with OMB Circular No. A-107.

(Title I of the Housing and Community Development Act of 1974 (Pub. L. 93-383), and sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

Accordingly, 24 CFR Part 570 is revised as set forth below.

1. Section 570.200(a)(10) is amended to read as follows:

§ 570.200 Eligible activities.

(a) . . . . .

(10) Payment of the cost of completing a project funded under Title I of the Housing Act of 1949 as amended, including an urban renewal project pursuant to the provisions of § 570.801 (b), (c), and (d).

2. Subpart I is amended to read as follows:

#### Subpart I—Urban Renewal Provisions

Sec. 570.800 General.

570.801 Payment of the cost of completing project.

570.802 Repayment of temporary loans.

570.803 Financial settlement of projects prior to completion.

570.804 Application for approval of financial settlement.

#### Subpart I—Urban Renewal Provisions

##### § 570.800 General.

This subpart contains regulations governing the use of funds available under this Part for the completion of urban renewal projects and neighborhood development programs; deductions authorized to be made from such funds for the repayment of temporary loans outstanding in connection with such projects and programs; and procedures for the financial settlement of projects and programs meeting the requirements of this subpart. For purposes of this subpart:

(a) A "project" or "urban renewal project" means an urban renewal project or neighborhood development program being carried out in the jurisdiction of the unit of general local government under a contract with HUD pursuant to the provisions of Title I of the Housing Act of 1949, as amended.

(b) A "temporary loan" means any outstanding direct loan or pledge of temporary loan rights for private market financing, including accrued interest, authorized under the HUD contract for the project.

(c) An "unearned grant" means that portion of the total project grant allocation, including any relocation and rehabilitation grant allocation, in excess of the grants payable with respect to the costs incurred and any remaining unliquidated, contingent, or disputed claims or obligations.

(d) A "surplus grant" means the unearned grant remaining after full repayment of the temporary loans.

§ 570.801 Payment of the cost of completing a project.

(a) Urban renewal projects may be continued under their existing contracts with available project funds.

(b) In addition, units of general local government may use funds made available under this Part for payment of the following costs to continue or complete such projects:

(1) Payment of the cost of activities approved under the HUD contract for the project with respect to which the budgeted project funds are insufficient, and non cash local grants-in-aid which either (i) were included in a HUD approved urban renewal financing plan dated prior to August 22, 1974, and which are required to effectuate project completion and financial settlement,

(ii) Are otherwise eligible under § 570.200; provided, however, that funds available under this Part shall not be used to pay the cost of local grants-in-aid with respect to which other funds were expended, obligated or otherwise set aside

by official action of the unit of general local government prior to approval of the application for the funds under this Part. Payment of the cost of noncash local grants-in-aid under this paragraph which are not otherwise eligible under § 570.200 shall not exceed the percent of benefit approved in the project financing plan or, with respect to supporting facilities, the 25 percent benefit or \$3,500,000 maximum cost limitation applicable under section 110(d) of Title I of the Housing Act of 1949. The use of funds under this paragraph is not authorized with respect to incomplete project activities or noncash local grants-in-aid remaining after the financial settlement of a project under § 570.803(a)(1), except to the extent completion is required by the Secretary to comply with the provisions of § 570.803(d)(3) or (4).

(2) Repayment of temporary loans.

(c) Funds made available under this Part for use pursuant to paragraph (b) shall be identified in the Community Development budget as funds for completion of urban renewal projects and their use shall be governed by the procedures under this Part.

(1) The unit of general local government may use funds made available under this Part to acquire cleared project land from the local public agency for a public use or for subsequent disposition to redevelopers. Such acquisition shall be at the fair use value of the property provided under section 110(c)(4) of Title I of the Housing Act of 1949, as amended, and subject to covenants under the provisions of which:

(i) The use of the property by the unit of general local government or its assignees shall be in accordance with the applicable urban renewal plan;

(ii) Any improvements on such property required by the urban renewal plan shall be begun within a reasonable time after the property is acquired for purposes of redevelopment by the unit of general local government or its assignees.

(iii) Any proposed reconveyance of such property by the unit of general local government for purposes of redevelopment shall be subject to the public disclosure requirements otherwise applicable to local public agencies in the disposition of project land to redevelopers under section 105(e) of Title I of the Housing Act of 1949, as amended.

(iv) Discrimination upon the basis of race, color, religion, sex, or national origin, in the sale, lease or rental, or in the use or occupancy of such land or any improvements erected or to be erected thereon shall be prohibited, and the unit of general local government and the United States shall be beneficiaries of and entitled to enforce such covenant.

(2) In the subsequent disposition of project land acquired by the unit of general local government pursuant to paragraph (1) of this section, the provisions of section 110(c)(4) of Title I of the Housing Act of 1949, as amended, regarding fair use value, shall not apply. Any proceeds received by the unit of general local government in the event of

such disposition shall be treated as program income pursuant to § 570.508;

(d) Use of funds made available under this Part for the completion of urban renewal projects shall not increase the maximum loan or grant amount or the requirements for the contribution of local grants-in-aid under the HUD contract for the project.

§ 570.802 Repayment of temporary loans.

(a) *Determination of Federal Government's financial interest.* The Secretary will review urban renewal projects in consultation with local public agencies and units of general local government to determine whether the Federal Government's financial interest in such projects will be sufficiently protected. The Secretary may request submission of a local plan for repayment of temporary loans in connection with such determinations.

(1) The Federal Government's financial interest in existing urban renewal projects shall be determined to be sufficiently protected if the Secretary finds that all temporary loans made or authorized to be made can be repaid without additional project grants, taking into consideration the costs incurred or to be incurred, the estimated proceeds upon any sale or disposition of property, grants approved under the HUD contract for the project, and any other funds which are to be provided for completion of the projects, including the repayment of temporary loans.

(2) In estimating the property disposition proceeds pursuant to paragraph (a)(1), the Secretary will consider the land marketing history of the project, recent appraisals and market studies, the length of time land has been available for sale, comparable sales data, and other generally available data relevant to the value and marketability of remaining land; Provided, however, that with respect to the determinations for Fiscal Years 1976 and 1977, the Secretary shall take into consideration only those proceeds reasonably expected to be paid into the Project Temporary Loan Repayment Account by the end of Fiscal Year 1978 in the event that—

(i) the project has unsold land which has been available for at least three years and is not under contract of sale; or

(ii) twenty percentum of the unit of general local government's entitlement grant will be insufficient over a three year period to provide for any current or anticipated deficit.

The Fiscal Year 1978 base year for estimating land proceeds may be waived if the Secretary determines that the Federal financial interest is otherwise sufficiently protected.

(b) *Deductions at the initiative of the Secretary.* The Secretary may, after consultation with the chief executive of the unit of general local government and the local public agency, deduct up to 20 percent of the funds made available under this Part in any fiscal year to the unit of general local government from allocations pursuant to § 570.101, for appli-

cation to the repayment of temporary loans if the Secretary determines that the Federal financial interest will not otherwise be sufficiently protected. In determining the amount to be deducted, the Secretary shall take into consideration the factors considered in making the findings under § 570.802(a)(1).

§ 570.803 Financial settlement of projects.

(a) Upon written request of the local public agency carrying out the project, approved by resolution of the governing body of the unit of general local government, the Secretary shall approve a financial settlement of any project subject to the requirements of this section and § 570.804, which will result in full repayment of all temporary loans. Up to the full amount of the unearned grant, as well as any additional funds made available for such purpose under the provisions of § 570.801(b)(2) may be applied to repayment of the temporary loans so as to effect the financial settlement. Such financial settlements may be approved by the Secretary pursuant to a financing plan revised on the basis of the noncash local grants-in-aid actually provided. Subject to the requirements of paragraph (b) of this section, any surplus grant funds remaining after settlement will be made available to the unit of general local government for use in accordance with the provisions of this Part.

The provisions for financial settlement under this section are authorized for any project with respect to the settlement of which one or more of the following conditions apply.

(1) All approved project activities (other than the sale of land) for which project funds are available, or noncash local grants-in-aid which would otherwise have been required, will not have been substantially completed prior to the date of the financial settlement;

(2) All available project funds have been exhausted prior to completion of the approved project activities;

(3) The approved project activities have been completed except for the sale of all project land;

(4) The approved project activities have been completed and the settlement will result in a surplus grant.

(b) The release of surplus grant funds may be subject to completion of an audit and satisfaction of any audit exceptions with respect to the project, or any other projects located in the unit of general local government; provided, that the surplus grant funds or other funds available under the provisions of this Part shall not be used for payment of ineligible project costs.

The Secretary may require the application of surplus grant funds to any of the following purposes as a condition to financial settlement:

(1) Activities eligible for funding under § 570.801(b) in any other projects located in the unit of general local government for which the Secretary determines insufficient project funds may be available, consisting of (i) the

repayment of temporary loans; (ii) the completion of approved project activities which are deemed essential to protect the Federal interest in housing for which Federal subsidies have been committed or loans or mortgage insurance provided; (iii) the completion of approved project activities which are deemed essential to assure compliance with any applicable low and moderate income housing requirements under sections 105(f) and 105(h) of Title I of the Housing Act of 1949, as amended; and (iv) the payment of any obligations under the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970.

(2) With respect to the settlement of projects authorized under paragraph (a) (1), the completion of any approved project activities or noncash local grants-in-aid which are deemed essential to meet the requirements of paragraph (c) (3) and (4) and are eligible for funding under § 570.801(b).

(c) The financial settlement of a project under this section shall be subject to the environmental review requirements of 24 CFR § 58.20.

(d) Prior to financial settlement, the local public agency carrying out the project, and the unit of general local government in which the project is located, must execute a closeout agreement pursuant to the requirements of § 570.804(b) (7).

(e) Approval of requests for financial settlement under paragraph (a) (1) of this section shall be subject to the following additional requirements with respect to: any incomplete approved project activities which would otherwise be continued or completed with available project funds; any noncash local grants-in-aid which would otherwise be provided under the HUD contract for the project; and the use of any surplus grant funds remaining after the settlement:

(1) The proposed action must not be plainly inappropriate to meeting the needs and objectives stated in the unit of general local government's Community Development Plan;

(2) The proposed action must be subjected to the citizen participation requirements under this Part, and must be reviewed by the Urban Renewal Project Area Committee where one exists;

(3) Any proposed changes in the scope of renewal treatment must not adversely affect housing for which Federal subsidies have been committed or loans or mortgage insurance provided;

(4) Any proposed change in the scope of renewal treatment must not be inconsistent with the satisfaction of any remaining low and moderate income housing requirements under Sections 105(f) and 105(h) of Title I of the Housing Act of 1949, as amended;

(5) The maintenance of any occupied residential project property owned by the local public agency at the time of the settlement, including such property thereafter transferred for use or disposition to the unit of general local government, with respect to which relocation activities have not been completed, must be consistent with property management

standards applicable to the local public agency under urban renewal requirements.

(6) The unit of general local government shall be responsible to assess the effect of the proposed action on any third party obligations under State and local law.

§ 570.804 Application for approval of financial settlement.

Financial settlement will be approved if the Secretary finds that all applicable requirements of § 570.803 have been met after completion of the following actions:

(a) *Preliminary request.* A preliminary request shall be submitted in order to determine what actions will be necessary to comply with the requirements of § 570.803. The request shall include a report on the status of project activities, an estimate of the amount of surplus grant funds which may remain after financial settlement, and information regarding the financial status of any other projects in the locality of the unit of general local government. The Secretary will review the request and will advise the applicant whether any approved project activities must be completed or noncash local grants-in-aid provided in order to comply with requirements of § 570.803(e) (3) and (4) if the settlement is for a project authorized under § 570.803(a) (1), and whether any surplus grant funds will be required to be applied under the provisions of § 570.803(b). The applicant may then proceed to prepare a formal application, including performance of any environmental reviews required pursuant to 24 CFR Part 58.20.

(b) *Application for financial settlement and release of surplus funds.* The application for financial settlement and release of any surplus funds may be submitted either as a program year amendment described in § 570.305 or in conjunction with the unit of general local government's application for funds under this Part, submitted in accordance with § 570.303, provided, however, that the review and approval requirements of § 570.306(c) shall not apply. A unit of general local government which receives no entitlement amount under Subpart B shall submit an original application in accordance with the requirements of § 570.303. The application shall include:

(1) A written request for financial settlement submitted by the local public agency carrying out the project and concurred in by the governing body of the unit of general local government in which the project is located.

(2) A description of the steps the applicant has taken to comply with the applicable requirements of § 570.803 and any conditions required by HUD pursuant to review of the preliminary request.

(3) A statement indicating the extent to which incomplete activities are proposed to be continued or completed after financial settlement of a project under § 570.803(a) (1).

(4) A Certificate of Completion and Gross and Net Project Costs for the project, with appropriate modifications, reflecting the authority and nature of

the settlement under the applicable provisions of § 570.803(a), and which includes the cost of any remaining incurred, disputed, contingent and unliquidated relocation or other claims and obligations.

(5) A certification that environmental review required of the applicant pursuant to 24 CFR Part 58.20 has been completed, and that the citizen participation requirements under § 570.803(d) (2) have been complied with.

(6) A Community Development Program and Budget which identifies the activities to be carried out with any surplus funds or other funds included in the letter of credit for the purpose of liquidating costs identified pursuant to § 570.804(b) (4).

(7) A closeout agreement for concurrence by the Secretary, executed by the local public agency carrying out the project and by the unit of general local government in which the project is located, under the provisions of which:

(i) All remaining project property owned by the local public agency shall be identified and the proceeds from the sale or lease of such property after financial settlement shall be treated as program income of the unit of general local government under the provisions of § 570.506; provided, however, that such proceeds may be applied to the reimbursement of any funds of the unit of general local government, other than funds made available under this Part or cash local grants-in-aid required on the basis of incurred net project costs, which were used for the payment of temporary loans for the project. Any remaining project land may be retained for disposition by the local public agency, or transferred to the unit of general local government for use or disposition subject to the covenants specified in § 570.801(c) (1) (i), (ii), (iii) and (iv). In the disposition of such land, the provisions of section 110(c) (4) of Title I of the Housing Act of 1949, as amended, regarding fair use value shall not apply.

(ii) All low- and moderate-income housing required to be provided due to the demolition or removal of residential structures with project funds, pursuant to Section 105(h) of Title I of the Housing Act of 1949, as amended, shall be set forth, and the units actually provided shall be identified as to general location and total number. To the extent such housing has not been provided, it shall be incorporated and identified in the unit of general local government's Housing Assistance Plan, described in § 570.303(c).

(iii) All low- and moderate-income housing requirements with respect to which a predominantly residential project was obligated, pursuant to Section 105(f) of the Title I of the Housing Act of 1949, as amended, shall be set forth, and the units actually provided shall be identified as to general location and total number. To the extent such housing has not been provided, it shall be incorporated and identified in the unit of general local government's Housing Assistance Plan. Any change in such remaining housing obligations, or in previ-

ously approved land uses affecting the remaining housing obligations, shall require the approval of the Secretary as long as the area remains predominantly residential under the provisions of the applicable urban renewal plan.

(iv) Any costs or obligations incurred in connection with the project with respect to claims which are disputed, contingent, unliquidated or unidentified, and for the payment of which insufficient project funds have been reserved under the financial settlement, shall be borne by the unit of general local government. Such additional expenses may be paid from funds made available under this Part.

(v) Provision is made for any special conditions regarding the obligations of the local public agency and the unit of general local government with respect to the requirements of § 570.803.

(vi) The obligations under the closeout agreement are made specifically sub-

ject to the Program Management requirements of Subpart J.

(c) *Staged use of surplus funds.* If the unit of general local government wishes to stage the use of surplus urban renewal funds over a period of years, it may request the Secretary to make the funds available on a schedule specified by the unit of general local government. In this event, the community development plan summary included in the application or amendment shall specify the total usage of funds, and the annual Community Development Program and budget submissions shall include only the surplus funds proposed to be used in the program year.

*Effective date.* This regulation shall be effective on May 18, 1976.

DAVID O. MEEKER, Jr., FAIA, AIP,  
Assistant Secretary for  
Community Planning and Development.

Title 45—Public Welfare  
CHAPTER X—COMMUNITY SERVICES  
ADMINISTRATION

PART 1061—CHARACTER AND SCOPE OF  
SPECIFIC COMMUNITY ACTION PRO-  
GRAMS

Subpart—Summer Youth Recreation  
Programs

The Director of the Community Services Administration hereby revises the rules, regulations and grant application procedures set forth below relative to the Summer Youth Recreation Program authorized under Section 222(a) (13) of the Community Services Act of 1974. Interested persons are invited to submit comments on these revisions to James R. King, Chief, Manpower Team, Office of Operations, Community Services Administration, 1200 19th Street, NW., Washington, D.C. 20506. Inasmuch as this program is designed to begin as soon as possible after spring closing of schools and of the deadline for submission of applications is May 31, 1976, comments should be received by June 4, 1976 in order to be considered with regard to further revision of this subpart. In the interim, this subpart will serve as the basis for initiating the grant application process.

Effective date: June 4, 1976.

1. In 45 CFR Chapter X, Part 1061, the table of contents for §§ 1061.20-1 through 1061.20-11 is revised to read as follows:

2. In 45 CFR Chapter X, Part 1061.20-1 through 1061.20-11 is revised to read as follows:

Subpart—Summer Youth Recreation  
Programs

AUTHORITY: Sec. 602, 78 Stat. 530; 42 U.S.C. 2342.

§ 1061.20-1 Applicability.

This subpart applies to grantees funded under section 222(a) (13) of the Community Services Act of 1974 if the assistance is administered by the Community Services Administration.

§ 1061.20-2 Definitions.

(a) "Act" shall mean the "Headstart, Economic Opportunity, and Community Partnership Act of 1974" (Pub. L. 93-644).

(b) "Allocation" shall mean the distribution of funds among prime sponsors designated by the Secretary of Labor under section 102 of the CETA Act according to the formulas contained in the Act.

(c) "Certification" shall mean a legally binding statement that certain requirements have been fulfilled.

(d) "CETA Act" shall mean the Comprehensive Employment and Training Act of 1973 (Pub. L. 93-203).

(e) "Chief Elected Official" and "Chief Executive Officer" shall include their designees.

(f) "Community Action Agency" shall mean a political jurisdiction, public agency, or private non-profit agency which has the power and authority and will perform the functions set forth in section 212 of the Act and is determined to be capable of planning, conducting, administering and evaluating a community action program and is currently designated as a community action program by the Director.

(g) "CSA Regional Director" shall mean the ten Regional Directors of the Community Services Administration in specified geographical areas of the country.

(h) "Director" shall mean the Director of the Community Services Administration.

(i) "Economically Disadvantaged" shall mean a person who is a member of a family as defined under CETA income poverty guidelines.

(j) "Summer Youth Program" shall mean the Summer Program for Economically Disadvantaged Youth funded under Title III, section 304(a) (3) of the Comprehensive Employment and Training Act of 1973 and administered by the U.S. Department of Labor.

§ 1061.20-3 Purpose.

This subpart sets forth the policies, rules and regulations of the Community Services Administration (CSA) in implementing and administering Summer Youth Recreation Programs authorized under section 222(a) (13) of the Community Services Act of 1974.

§ 1061.20-4 Summer Youth Recreation Program—description and components.

(a) Description. (1) The Summer Youth Recreation Program is designed to provide recreational opportunities for economically disadvantaged children during the summer months. The programs will be conducted in conjunction with the Summer Youth Program administered by the U.S. Department of Labor, Summer Youth enrollees should be utilized to the maximum extent possible in the conduct of this program.

(2) The programs shall begin as soon as possible after the Spring closing of school and shall not continue beyond September 30, 1976.

(3) To the maximum extent possible, Summer Youth Recreation Program sites shall be located directly in low-income communities or areas to ensure that disadvantaged youth are the beneficiaries of the programs. Activities shall be conducted in as many low-income areas of the sponsor's jurisdiction and designed to serve as many low-income children as possible within the constraints of effective program management and support.

(b) Components. (1) Summer Youth Recreation Programs will consist of the following components:

(i) Recreation support programs will provide recreation opportunities such as playground activities, organized sports and games, arts and crafts, informational tours, cultural field trips, instruction in the creative arts and special events.

(ii) Transportation support programs will provide transportation services to such cultural, recreational, educational, or employment activities.

§ 1061.20-5 Eligible sponsors/alternates.

(a) Eligible Agencies. Agencies eligible to receive summer recreation funds shall be prime sponsors under Title I of the CETA Act. (See Appendix F.)

(b) Alternative Sponsors. The CSA Regional Director may make provision for the funding of an alternative sponsor if a sponsor, for any reason, is unable or fails to establish or maintain an acceptable Summer Youth Recreation Program.

(c) Delegate Agencies/Subgrants. A Summer Youth Recreation sponsor may enter into contracts or subgrants under the provision set forth in OEO Form 280, Agreement for Delegation of Activities.

§ 1061.20-6 Eligible participation.

Participants in a Summer Youth Recreation Program shall be youth too young to obtain employment and be economically disadvantaged. The main target group for the Summer Youth Recreation Program shall be disadvantaged youth between the ages of eight and thirteen.

§ 1061.20-7 Funding.

(a) Allocation of Funds. Section 222 (a) (13) of the Community Services Act of 1974 provides for the allocation of funds for the Summer Youth Recreation

Program by the Director after consultation with the Secretary of Labor. Funds are allocated on the basis of (1) the relative number of public assistance recipients in the areas served by such prime sponsor or agency, as compared to the Nation; (2) the relative number of unemployed persons in such area as compared with the Nation; and (3) the relative number of related children living with families with incomes below the poverty line in such area, as compared to the Nation. That part of any allotment which the Director determines will not be needed may be reallocated at such dates during the fiscal year as the Director may fix, to the extent feasible in proportion to the original allotments. In making Summer Youth Recreation allocations under the Act, the Director shall insure, to the maximum extent possible, that for the program commencing in the fiscal year ending June 30, 1975, and for the program in each succeeding fiscal year no sponsor shall receive an amount less than the amount received for such programs during the fiscal year ending June 30, 1973, or the fiscal year ending June 30, 1974, whichever is higher.

(b) Non-Federal Share; Waiver of. Non-Federal share required by section 225(c) is waived for all programs funded under section 222(a) (13), Summer Youth Recreation Programs and does not require a request for waiver from applicants for grants.

§ 1061.20-8 Application process.

(a) Role of the CAA. The Community Action Agency or Agencies operating within the jurisdiction of the Summer Youth Recreation Program sponsor shall be given an opportunity to formally comment on the Summer Youth Recreation Program grant application and to recommend approval or disapproval to the CSA Regional Director. Community Action Agencies shall be provided with a copy of the Summer Youth Recreation Program grant application at the same time that the proposal is submitted to the CSA Regional Director. The CAAs will have five days within which to recommend approval or disapproval to the CSA Regional Director. The Community Services Administration retains final approval authority.

(b) Forms/Documentation Required. The forms and other documents to be used in applying for Summer Youth Recreation Programs will be made available to eligible sponsors by the CSA Regional Directors. The forms to be used in applying for a Summer Youth Recreation Program are as follows:

- OEO Form 301, Summary of Grant Application.
- OEO Form 325, Budget Summary.
- OEO Form 325A, Budget Support.
- OEO Form 394, Checkpoint Procedure for Coordination.
- CAP Form 84, Participant Characteristics Plan.
- Statement of Accounting System Certification, Appendix A to this Instruction (for use by public agencies).
- OEO Form 280, Agreement for Delegation of Activities.

(8) Program Narrative Description (See Appendix B).

Note: Detailed instructions for the preparation of the above documents can be found in Appendix C.

(c) Deadline for Submission of Applications. Summer Youth Recreation grant applications shall be submitted to CSA Regional Offices no later than May 31, 1976.

(d) Checkpoint Coordination. A procedural variance in the procedures normally followed in the Project Notification and Review System (A-95) will be in effect. Applicants should simultaneously forward a copy of their applications to the appropriate CSA Regional Office and the appropriate clearinghouse. Applicants should indicate in their clearinghouse submissions that any comments should be forwarded directly to the appropriate CSA Regional Office as soon as possible and no later than June 7, 1976.

§ 1061.20-9 Expenditure of funds.

(a) Allowable Costs. (1) Administration, including salaries, wages and fringe benefits of program administrators (but not program staff); consumable office supplies; rent and utilities; telephone and postage; travel of program administrators and audit costs. Funds in this category are subject to the administrative cost limitations as defined in OEO Instruction 6807-2, Grantee Quarterly Financial Reports.

(2) Recreation services including but not limited to: Purchase of recreation equipment<sup>1</sup> and supplies up to \$200 per unit cost to be used in support of the program; rental of recreational equipment and supplies to be used in support of the program; admission to special events; field trip expenses; salaries; wages, fringe benefits and orientation of program staff, such as art instructors and playground supervisors; transportation for participants and program staff; lunches or food provided as an integral part of a recreation activity; recreation clothing and insurance. The standards to be used for the procurement of supplies, equipment and other material and services with Federal grant funds are described in OEO Instruction 7001-01a, Grantee Property Administration.

(3) Charges above operating costs for the use of grantee owned facilities will not be made to the SYRP program except with the written authorization of the appropriate CSA Regional Director.

(4) Transportation services, including but not limited to: bus tokens, and rental of charter buses, taxis, cars and vans.

(b) Non-Allowable Costs. (1) Summer Youth Recreation Program funds shall not be expended on office equipment, in-place installations, capital improvements, to compensate participants in the program or to purchase transportation vehicles or equipment such as cars, vans, or buses.

<sup>1</sup> Disposition of property will be in accordance with the policy stated in CSA Instruction 7001-01a.

(2) Summer Youth Recreation funds shall not be used to finance any other program activities and services not authorized under the Summer Youth Recreation Program such as, but not limited to, work experience, on-the-job training or public service employment activities.

(3) Summer Youth Recreation Program funds shall not be used to finance trips outside a 100-mile radius of the sponsor's jurisdiction unless the trip has received the specific written approval of the CSA Regional Director or his designee.

§ 1061.20-10 Coordination with other programs.

(a) The Summer Youth Recreation Programs will be closely coordinated with the anti-poverty programs of the Community Action Agency serving the jurisdiction covered by the Summer Youth Recreation Program with a view of minimizing possible duplication of effort and providing efficiencies in the use of common facilities and services.

(b) Sponsors should coordinate Summer Youth Recreation Programs with manpower and social service programs, including the Summer Youth Employment Program and other CETA manpower activities.

(c) The extensive outreach and intake capability of the Community Action Agencies should be utilized to the maximum extent possible. The CAA network of Neighborhood Service Centers in disadvantaged communities provide a ready means of assuring that the disadvantaged are effectively served by the program. In addition, transportation services may be provided as services for participants in the Summer Youth Program and thus supplement transportation support activities carried out under the Summer Youth Recreation Program.

(d) Sponsors may utilize the Summer Feeding Program for low-income children which provides meals (and recreational activities as well in most instances) in schools, community centers, parks, playgrounds, storefronts and other settings. (See Appendix E for listing of State School Lunch Directors who can assist sponsors in applying for the program.)

(e) Participants in the Summer Youth Program and other manpower programs, including public service jobs incumbents under the CETA Act, should be utilized as program and administrative staff in the Summer Youth Recreation Program to the maximum extent feasible by using the Summer Youth Recreation Program sites as work stations.

§ 1061.20-11 General requirements.

(a) Maintenance of Effort. No sponsor shall, because of funds granted under section 222(a) (13) of the Act, reduce or decrease funds already planned for Summer Youth Recreation activities of a nature similar to those provided under the aforementioned section.

(b) Insurance. General liability insurance, including automobile liability insurance must be obtained, in amounts which assure the adequate protection of

## RULES AND REGULATIONS

program participants and the grantee. The required minimum liability coverage shall be \$300,000 per accident and per person and the minimum property damage coverage shall be \$25,000. In the case of those organizations which could raise the defense of sovereign immunity, the insurance policy shall provide that this defense will not be raised by the organization of the insurer.

(c) **Bonding.** Prior to the release of funds to any grantee, public or private, CSA must receive written assurance that arrangements have been made for appropriate bonding of grantee officials. (See Appendix D for CSA's policy statement on Bond Coverage of Officials.)

(d) **Program Progress Report and Evaluation.** Sponsors shall submit a program progress report as outlined in CSA Instruction 7031-1 on the results of the Summer Youth Recreation Program to the appropriate CSA Regional Office no later than October 20, 1976. All grantees are also required to undertake self-evaluations. In addition, CSA may undertake on-site evaluations of selected projects.

(e) **Financial Reporting.** A financial report is to be submitted by October 20, 1976, to the appropriate CSA Regional Office in accordance with the requirements and procedures set forth in OEO Instruction 6801-1, Grantee Fiscal Responsibility and Auditing and OEO Instruction 6807-2, Ch. 1, Grantee Quarterly Financial Reports.

(f) **Auditing.** Audit requirements for this program are to be met by complying with OEO Instruction 6801-1 and Appendix A of this instruction for public agencies and any special conditions that are a part of the grant award.

(g) **Safety and Health Conditions.** Participants shall not be exposed to conditions which are unsanitary or hazardous or dangerous to their safety of health.

(h) **Licensing.** All transportation services under this program will be from sources properly licensed and insured to provide carriage of the public, and which are operated in compliance with all applicable local, State and/or Federal statutes covering public transportation.

## APPENDIX A

STATEMENT TO BE SUBMITTED BY APPROPRIATE PUBLIC FINANCIAL OFFICERS WHEN THE APPLICANT IS A PUBLIC AGENCY OR WHEN THE ACCOUNTING SYSTEMS OF A PRIVATE-NON-PROFIT AGENCY WILL BE MAINTAINED BY A PUBLIC AGENCY

(Address of Regional or Program Office of CSA, as appropriate)

DEAR SIR: I am the chief financial officer of (name of public body) and, in this capacity, I will be responsible for providing financial services adequate to insure the establishment and maintenance of an accounting system for the (name of applicant), which is a public (or non-profit) agency charged with carrying out a CSA program in (name of community). The accounting system will have internal controls adequate to safeguard the assets of such agency(ies), check the accuracy and reliability of accounting data, promote operating efficiency, and encourage compliance with prescribed management policies of the agency(ies).

Signature of financial officer

Name of financial officer

Title

Name of public body

STATEMENT TO BE SUBMITTED WHEN APPLICANT IS A PRIVATE-NONPROFIT AGENCY (OR A PUBLIC AGENCY) WHOSE ACCOUNTING SYSTEM WILL NOT BE MAINTAINED BY A PUBLIC AGENCY

(Address of Regional or Program Office of CSA, as appropriate)

DEAR SIR: I am a certified or duly licensed public accountant and have been engaged to examine and report on the financial accounts of the (name of applicant), which is a private-nonprofit organization (or public agency) carrying out a CSA program in (name of community).

I have reviewed the accounting system that this agency has established and, in my opinion, it includes internal controls adequate to safeguard the assets of the agency, check the accuracy and reliability of accounting data, promote operating efficiency, and encourage compliance with prescribed management policies of the agency.

Signature of accountant

Name of accountant

Name of firm

## APPENDIX B—NARRATIVE DESCRIPTION OF PROGRAM

The above narrative description will be prepared as shown below. Applicants should present a clear and concise description of each item addressed in the narrative using charts, graphs, maps, etc.

## NARRATIVE DESCRIPTION OF PROGRAM

A. Prepare a statement regarding the purpose of the Summer Youth Recreation Program. This statement should focus on the recreational needs of the economically-disadvantaged youth residing in the area covered by this project.

B. Describe the types of recreational activities and services that will be provided to the youth served by the program. Include an estimate of the costs for each activity or service in the program. Specify any field trips, sports, events, cultural, recreational or educational trips outside the jurisdiction(s) covered by the applicant agency.

C. Provide a list of the recreational equipment and supplies that will be purchased for the program, particularly any equipment costing over \$200.00.

D. Describe the community or geographic area(s) that will be served by the recreational opportunities of the program.

E. Prepare an estimate of the number of recreational opportunities to be offered in the program. Include an estimate of the number of opportunities that each type of activity or service described in B above will provide.

F. Prepare a statement describing the results and benefits to be derived from the recreation program in terms of both the community and participants served, in relation to the recreational needs of the community.

G. Describe how the program will be coordinated and linked with other manpower and social service programs. For example, utilizing administrative staff of Summer Youth Program to administer the recreation program. Using the local CAAs assistance in outreach, intake capability and other support services. In addition, transportation services may be provided through the Summer Youth Program and thus supplement transportation support activities carried out under this program.

H. Describe the method in which participants will be recruited, selected and eligibility is determined (to ensure that those most in need are served by the program).

The sponsors application for funding must be consistent with the requirements as outlined in CSA Instruction 7850-1a, Standards for Evaluating the Effectiveness of CSA-Administered Programs and Projects.

Applicants are encouraged to discuss the narrative requirements as well as any other application requirements with CSA Regional Office representatives to ensure that the application is as complete and accurate as possible before it is submitted for approval.

## APPENDIX C—INSTRUCTIONS FOR PREPARATION OF SUMMER YOUTH RECREATION DOCUMENTS

Eligible applicants should submit the original and two copies of all required forms and documents to the appropriate CSA Regional Director by May 1976. One copy of the grant application shall be submitted to the CAA/s serving the jurisdictions covered by the Summer Youth Recreation program at the same time as the application is submitted to the Regional Office. The following instructions are provided to assist applicants in completing grant application forms:

## SUMMARY OF GRANT APPLICATION, OEO FORM 301

Item 1. Type of Application—check "new."

Item 2. Name of OEO Project Manager—to be provided by CSA Regional Office.

Item 3. Name of Applicant Agency—enter the name of the applicant, the name of the primary organizational unit which will undertake the grant supported activity.

Item 4. Address—enter the complete address of the applicant.

Item 5. Applicant Agency Program Manager—enter the name of person(s) directly assigned to this project.

Item 6. Telephone Number of Program Manager—enter the telephone number of person(s) directly assigned to this project.

Item 7. Political Jurisdiction in Which OEO Funded Activities Will Take Place:

a. Counties—enter the counties to be served by this project. If the applicant is the state or "balance of the state," the area served may be indicated as the "balance of the state."

b. Cities—enter the cities or city to be served by the project (e.g., City of Chicago, City of Boston, etc.). If the project is serving balance of state, indicate balance of state.

c. Congressional District—enter the congressional district(s) in which the applicant is located.

Item 8. Type of Area Served by Project—check the appropriate block(s) defined in Item 8 to be served by this project.

Item 9. Total Population in Area Served—enter the total population residing in the area to be served by this project.

Item 10. Type of Agency—"not applicable for this project."

Item 11. Internal Revenue Services Employer Identification Number—enter the employer identification number assigned by the U.S. Internal Revenue Service.

Item 12. Applicant Type—check the appropriate block in which the applicant is located (e.g., city government, county government, etc.); check other if applicant type is not shown in Item 12 and specify type of applicant.

Item 13. Applicant Function—check the most applicable block(s). Check "other" if applicant function is not defined in Item 13 and specify function of applicant.

Item 14. Will the Administration of Any Part of the Work Program be Delegated to Another Agency?—check the appropriate block. If "yes" applicant must submit the required form shown in Item 14.

Item 15. Funding Period For Which Funds Are Requested:

a. Beginning Date—enter the approximate date the project is expected to begin.

b. Ending Date—enter the approximate date the project is expected to end. (All projects will terminate by September 30, 1976).

Item 16. Total Requested Budget Per OEO Form 325:

a. OEO Federal—enter the amount allocated by the Director. CSA Regional Director will provide eligible applicants the amount allocated by the Director.

b. Non-Federal—not applicable.

Section III. Former Office of Economic Opportunity Employees—not applicable.

Sections IV-VII. These Sections are applicable and binding by the applicant on the signature of the chief elected official or the authorized representative of the applicant agency.

The following special instructions for completing the remaining forms are set forth only in those cases where data required is not considered to be self-explanatory.

## BUDGET SUMMARY, OEO FORM 325

Item 3A. Grant No.—this number to be entered by the CSA Regional Office.

Item 3C. Program Account Title and No.—to be provided by CSA Regional Office.

Section I. Budget Summary—eligible applicants will complete Column C only. Column C corresponds with Columns A (Cost Category No.) and B (Cost Category). Enter the estimated expenditures in Columns C.1 (OEO Federal) and C.2 (Non-Federal), based upon the amount of funds allocated by the Director in each applicable cost category. Total for Column C.1 should agree with the amount allocated the applicant. Column C.2—not applicable.

Section II. Estimated Future Costs—not applicable.

Budget Support Sheet, Part I (Salaries and Wages) and Part II (Budget Support Data), OEO Form 325a.

Part I. Salaries and Wages (Itemization of Cost Category No. 1.1)—enter the appropriate data as specified based upon the amount allocated (e.g., estimate expenditures in support of this project).

Part II. Budget Support Data (Itemization of Cost Categories Other Than Salaries and Wages. Show Subtotal for Each Cost Category)—enter the estimated expenditures for each item as specified.

## CHECKPOINT PROCEDURE FOR COORDINATION, OEO FORM 394

This form is to be used to solicit comments from the Community Action Agency in the jurisdiction in which the applicant agency is located.

## APPENDIX D

Bond coverage of officials. Prior to the release of funds to any grantee, public or private, for the first initial grant, OEO must receive written assurance that arrangements have been made for appropriate bonding of grantee officials. This assurance may either take the form of a statement that no bond is needed (in line with the conditions noted below) or it may consist of a letter from a bonding company or agent stating the type of bond, amount and period of coverage, positions covered, and the annual cost of the bond that has been obtained.

A bond does not need to be provided by a grantee, public or private, if funds are to be deposited in a public treasury and disbursed and audited by local or State public officials who normally perform these duties. In this case, the financial role of the officials of the

## RULES AND REGULATIONS

grantee agency must be limited to making withdrawals from the Federal Reserve System for deposit in the public treasury and certifying appropriate expenditures for disbursement. Nor does a grantee which is a public agency need to provide a new bond if all employees who are authorized to sign or countersign checks on the grantee's commercial bank account or to disburse cash are already bonded, in an amount consistent with local requirements and practices.

In all other situations, grantees—whether public or private agencies—must take steps to secure fidelity bond coverage in line with the following guides:

(1) Coverage should be secured in the aggregate amount of \$25,000 for persons authorized to sign or countersign checks or to disburse sizeable amounts of cash (such as for payrolls). Persons who handle only petty cash need not be bonded. Nor is it necessary to bond officials who are authorized to sign Payment Vouchers, but who are not authorized to sign or countersign checks or to disburse cash.

(2) Grantees normally should obtain a 3 year bond, payable annually, with an option to cancel in the event the program terminates before three years. Such terms are available from the most surety companies.

(3) Grantees are responsible for assuring that appropriate officials of delegate agencies are bonded. Existing bond coverage on officials of delegate agencies which are public agencies shall be considered acceptable. Coverage for officials of delegate agencies which are private organizations shall be equal to the average of funds to be expended each month (up to an aggregate amount of \$25,000). If a delegate agency will expend less than \$1,000 per month in program funds, on the average, bond coverage is not required.

(4) Copies of bonds secured by the grantee and by delegate agencies should be filed by the grantee and need not be submitted to OEO.

Documents normally scheduled on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this trial program are invited. Comments should be submitted to the Director of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202-523-5286. For information on obtaining extra copies, please call 202-523-5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202-523-5022.

federal register

Phone 523-5240

Area Code 202

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for \$5.00 per month or \$50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

## rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

### Title 7—Agriculture

#### CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Valencia Orange Regulation 528, Amdt. 1]

#### PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

##### Minimum Size Requirement

This amendment to Valencia Orange Regulation 528 extends from May 21, 1976, through January 15, 1977, the current minimum size regulation of 2.32 inches in diameter for shipments of Valencia oranges grown in Districts 1 or 3 of the California-Arizona production area, and establishes the same size requirement for the same period for Valencia oranges grown in District 2 of such area. More than ample quantities of the larger more desirable sizes of Valencia oranges are available to fill fresh market demand. Hence, the specified minimum size requirement is consistent with the size composition and available supply of the 1975-76 crop of Valencia oranges.

Notice was published in the FEDERAL REGISTER on April 26, 1976 (41 F.R. 17396), that consideration was being given to a continuation of the size regulation for Valencia oranges grown in District 1 or District 3 and to the establishment of the same minimum diameter requirement for oranges grown in District 2, pursuant to the applicable provisions of the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674).

The amendment was recommended by the Valencia Orange Administrative Committee, established under said amended marketing agreement and order as the agency to administer the terms and provisions thereof. The notice provided that written data, views, or arguments in connection with the proposed amendment be submitted by May 10, 1976. None were received.

The minimum size requirement specified herein reflects the Department's appraisal of the crop and current and prospective marketing conditions. The 1975-76 season crop of Valencia oranges is currently estimated at 49,000 cartons. The demand in regulated market channels will require about 36 percent of this volume, and the remaining 64 percent

will be available for utilization in export, processing and other outlets. Fresh shipments of California-Arizona Valencia oranges are now in progress. The volume and size composition of the crop of Valencia oranges grown in the production area are such that ample supplies of the more desirable sizes are available to satisfy the demand in regulated channels. Equivalent fresh on-tree returns for California-Arizona Valencia oranges averaged \$0.68 per carton for the season through April 1976 or 28 percent of the equivalent parity price. The regulation herein specified is necessary to assure shipment of Valencia oranges of the more desirable sizes in the interest of both growers and consumers, and it would contribute to the establishment and maintenance of orderly marketing conditions.

After consideration of all relevant matters presented, including the proposal set forth in the aforesaid notice and other available information, it is hereby found that the regulation of shipments of Valencia oranges, as hereinafter set forth, is in accordance with said amended marketing agreement and order and will tend to effectuate the declared policy of the act.

It is hereby further found that good cause exists for making this amendment effective at the time hereinafter set forth and for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) notice of proposed rulemaking concerning this amendment was published in the FEDERAL REGISTER on April 26, 1976 (41 F.R. 17396), and no objection to it was received; (2) the regulatory provisions are the same as those contained in said notice; (3) the recommendation and supporting information for regulation of Valencia oranges were submitted to the Department after open meetings of the committee in each of the three districts of the production area which were held to consider recommendations for regulation, after giving due notice of such meetings, and interested persons were afforded an opportunity to submit their views at these meetings; (4) information concerning such provisions and effective time has been disseminated among handlers of such oranges; and (5) compliance with the regulation will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

Order. In § 908.828 (Valencia Orange Regulation 528; 41 F.R. 14859) the provisions of paragraphs (a) and (b) are amended to read as follows:

#### § 908.828 Valencia Orange Regulation 528.

(a) During the period May 21, 1976, through January 15, 1977, no handler shall handle any Valencia oranges grown in District 1, District 2, or District 3, which are of size smaller than 2.32 inches in diameter, which shall be the largest measurement at a right angle to a straight line running from the stem to the blossom end of the fruit: *Provided*, That not to exceed 5 percent, by count, of the Valencia oranges contained in any type of container may measure smaller than 2.32 inches in diameter.

(b) As used in this section, "handler", "handler", "District 1", "District 2", and "District 3" shall have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: May 14, 1976, to become effective May 21, 1976.

CHARLES R. BRADER,  
Deputy Director, Fruit and  
Vegetable Division, Agricultural  
Marketing Service.

[FR Doc.76-14584 Filed 5-18-76; 8:45 am]

[Nectarine Regulation 7]

#### PART 916—NECTARINES GROWN IN CALIFORNIA

##### Minimum Grade and Size Requirements

This regulation for California nectarine shipments sets a minimum grade of U.S. No. 1, except that (1) a slightly smaller area of the surface of each fruit may be affected by fairly light colored, fairly smooth scars, and (2) an additional tolerance is provided for individual fruit not well formed but not badly misshapen. It also prescribes minimum sizes for 45 named varieties. These regulatory requirements are necessary to promote orderly marketing and provide consumers with an ample supply of acceptable-quality fruit.

Findings. (1) Pursuant to the amended marketing agreement and Order No. 916 (7 CFR Part 916), regulating the handling of nectarines grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations of the Nectarine Administrative Committee, established under the aforesaid marketing agreement and order, and upon other information, it is hereby found that the regulation of shipments of nectarines, as hereinafter set forth, will tend to effectuate the declared policy of the act.

(2) This regulation is based upon an appraisal of the current and prospective market conditions for California nectarines. The committee estimates that 9,957,000 packages of nectarines will be available for shipment in the 1976 season compared to actual shipment of 9,595,000 packages last season. Industry reports indicate that 1976 shipments of fresh California peaches will total 9,655,000 packages, 657,000 packages more than last year. Likewise, fresh California plum shipments during 1976 are estimated at 9,317,000 packages, 517,000 packages more than last year. The estimated larger crop of California peaches and plums will provide strong market competition for California fresh nectarines. The grade and size requirements hereinafter set forth are necessary to prevent the handling of California nectarines of a lower grade or smaller size than specified herein for such nectarines so as to provide good-quality fruit in the interest of producers and consumers pursuant to the declared policy of the act.

(3) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) in that, as hereinafter set forth, the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than the date hereinafter specified. A reasonable determination as to the supply of, and the demand for, such nectarines, which are currently regulated pursuant to Nectarine Regulation 6 (40 F.R. 21693, 28462, 18804), must await the development of the crop thereof; adequate information thereon was not available to the Nectarine Administrative Committee until the date hereinafter set forth on which an open meeting was held, after giving due notice thereof, to consider the need for, and the extent of, regulation of shipments of such nectarines; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; shipments of the current crop of such nectarines are expected to begin on or about the effective date of this regulation; this regulation should be applicable to all such shipments in order to effectuate the declared policy of the act; the provisions of this regulation are identical with the aforesaid recommendation of the committee; information concerning such provisions and effective time has been

disseminated among handlers of such nectarines; and compliance with the provisions of this regulation will not require of handlers any preparation therefor which cannot be completed by the effective time hereof. Such committee meeting was held on April 29, 1976.

#### § 916.319 Nectarine Regulation 7.

**Order.** (a) During the period June 1, 1976, through July 20, 1976, no handler shall handle:

(1) Any package or container of any variety of nectarines unless such nectarines grade at least U.S. No. 1; *Provided*, That nectarines 2 inches in diameter or smaller, or 4 x 4 size or smaller, shall not have fairly light colored, fairly smooth scars which exceed the aggregate area of a circle  $\frac{3}{8}$  inch in diameter, and nectarines larger than 2 inches in diameter, or larger than 4 x 4 size, shall not have fairly light colored, fairly smooth scars which exceed an aggregate area of a circle  $\frac{1}{2}$  inch in diameter; *Provided further*, That an additional tolerance of 25 percent shall be permitted for fruit that is not well formed but not badly misshapen.

(2) Any package or container of Mayred variety nectarines unless:

(i) Such nectarines, when packed in molded forms (tray pack) in a No. 22D standard lug box, are of a size that will pack, in accordance with the requirements of a standard pack, not more than 118 nectarines in the lug box;

(ii) Such nectarines, when packed in a standard basket, are of a size not smaller than a size that will pack a 4 x 5 standard pack; or

(iii) Such nectarines, when packed in any container other than the containers packed as specified in subdivisions (i) and (ii) of this subparagraph (2), measure not less than  $1\frac{1}{4}$  inches in diameter as measured by a rigid ring; *Provided*, That not more than 10 percent, by count, of the nectarines in any container may fail to meet such diameter requirement.

(3) Any package or container of Crimson Gold or Mayfair variety nectarines unless:

(i) Such nectarines, when packed in molded forms (tray pack) in a No. 22D standard lug box, are of a size that will pack, in accordance with the requirements of a standard pack, not more than 112 nectarines in the lug box;

(ii) Such nectarines, when packed in a standard basket, are of a size not smaller than a size that will pack a 3 x 4 x 5 standard pack; or

(iii) Such nectarines, when packed in any container other than the containers packed as specified in subdivisions (i) and (ii) of this subparagraph (3), measure not less than  $1\frac{1}{4}$  inches in diameter as measured by a rigid ring; *Provided*, That not more than 10 percent, by count, of the nectarines in any container may fail to meet such diameter requirement.

(4) Any package or container of June Belle, June Grand, May Grand, Red June, Spring Grand, Sunbright, Armking, or Zee Gold variety nectarines unless:

(i) Such nectarines, when packed in molded forms (tray pack) in a No. 22D standard lug box, are of a size that will pack, in accordance with the requirements of a standard pack, not more than 108 nectarines in the lug box;

(ii) Such nectarines, when packed in a standard basket, are of a size not smaller than a size that will pack a 4 x 4 standard pack; or

(iii) Such nectarines, when packed in any container other than the containers packed as specified in subdivisions (i) and (ii) of this subparagraph (4), measure not less than 2 inches in diameter as measured by a rigid ring; *Provided*, That not more than 10 percent, by count, of the nectarines in any container may fail to meet such diameter requirement.

(5) Any package or container of Early Sungrand, Grandandy, Independence, Moon Grand, Star Grand I, Star Grand II, Sun Flame, Summer Grand, Sun Grand, Rose, or Kent Grand variety nectarines unless:

(i) Such nectarines, when packed in molded forms (tray pack) in a No. 22D standard lug box, are of a size that will pack, in accordance with the requirements of a standard pack, not more than 96 nectarines in the lug box; or

(ii) Such nectarines, when packed in any container other than in molded forms in a No. 22D standard lug box, measure not less than  $2\frac{1}{4}$  inches in diameter as measured by a rigid ring; *Provided*, That not more than 10 percent, by count, of the nectarines in any container may fail to meet such diameter requirement.

(6) Any package or container of Autumn Grand, Clinton-Strawberry, Fantasia, Flamekist, Flavortop, Gold King, Granderril, Grand Prize, Harry Grand, Hi-Red, Late Le Grand, Le Grand, Niagara Grand, Red Grand, Regal Grand, Richards Grand, Royal Grand, September Grand, Fairlane, Grand Giant, Red Free, Bob Grand, or Tom Grand variety nectarines unless:

(i) Such nectarines, when packed in molded forms (tray pack) in a No. 22D standard lug box, are of a size that will pack, in accordance with the requirements of a standard pack, not more than 88 nectarines in the lug box; or

(ii) Such nectarines, when packed in any container other than in molded forms in a No. 22D standard lug box, measure not less than  $2\frac{1}{4}$  inches in diameter as measured by a rigid ring; *Provided*, That not more than 10 percent, by count, of the nectarines in any container may fail to meet such diameter requirement.

(7) When used herein, "diameter," "U.S. No. 1," and "standard pack" shall have the same meaning as set forth in the United States Standards for Grades of Nectarines (7 CFR 51.3145-51.3160); the terms "standard basket" and "No. 22D standard lug box" shall have the same meanings as set forth in § 1387.11 of the "Regulations of the California Department of Food and Agriculture"; and all other terms shall have the same

meaning as when used in the marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674.)

Dated: May 14, 1976, to become effective June 1, 1976.

CHARLES R. BRADER,  
Deputy Director, Fruit and  
Vegetable Division, Agricultural  
Marketing Service.

[Peach Reg. 7]

#### PART 917—FRESH PEARS, PLUMS, AND PEACHES GROWN IN CALIFORNIA Regulation by Grades and Sizes

This regulation, effective during the period May 20 through July 2, 1976, requires that fresh shipments of California peaches grade at least U.S. No. 1. It also establishes minimum sizes for certain specified varieties and a minimum size for all other varieties. This action is necessary to assure that the peaches shipped will be of suitable quality and size in the interest of consumers and producers.

**Findings.** (1) Pursuant to the amended marketing agreement and Order No. 917 (7 CFR Part 917; 41 F.R. 17528), regulating the handling of fresh pears, plums, and peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations of the Peach Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the regulation of shipments of peaches, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) This regulation is based upon an appraisal of the current and prospective market conditions for California peaches. The committee estimates that 9,655,000 packages of peaches will be available for shipment in the 1976 season compared to actual shipment of 8,998,000 packages last season. Industry reports indicate that 1976 shipments of fresh California plums will total 9,317,000 packages, 517,000 packages more than last year. Likewise, fresh California nectarine shipments during 1976 are estimated at 9,957,000 packages—362,000 packages more than last year. The estimated larger crop of California plums and nectarines will provide strong market competition for California fresh peaches. The grade and size requirements hereinafter set forth are necessary to prevent the handling of California peaches of a lower grade or smaller size than specified herein for such peaches so as to provide good-quality fruit in the interest of producers and consumers pursuant to the declared policy of the act.

(3) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the ef-

fective date of this regulation until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) in that, as hereinafter set forth, the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than May 20, 1976. A reasonable determination as to the supply of, and the demand for, such peaches must await the development of the crop thereof, and adequate information thereon was not available to the Peach Commodity Committee until April 29, 1976, on which date an open meeting was held, after giving due notice thereof, to consider the need for, and the extent of, regulation of shipments of such peaches. Interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified was promptly submitted to the Department on April 30, 1976; shipments of the current crop of such peaches are currently underway; this regulation should be applicable to all such shipments during the period hereinafter specified in order to effectuate the declared policy of the act; the provisions of this regulation are identical, as to minimum grade and size, with the aforesaid recommendation of the committee; information concerning such provisions and effective time has been disseminated among handlers of such peaches; and compliance with the provisions of this regulation will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

#### § 917.440 Peach Regulation 7.

**Order.** (a) During the period May 20, 1976, through July 2, 1976, no handler shall handle:

(1) Any package or container of any variety of peaches unless such peaches meet the requirements of U.S. No. 1 grade.

(2) Any package or container of Armgold, Early Amber, Desertgold, Pat's Pride, Royal April, Royal Gold, Springgold, Springtime or Golden Supreme variety peaches unless:

(i) Such peaches when packed in molded forms (tray pack) in a No. 22D standard lug box are of a size that will pack, in accordance with the requirements of standard pack, not more than 108 peaches in the box; or

(ii) Such peaches, when packed in any container other than molded forms (tray pack) in a No. 22D standard lug box, measure not less than 2 inches in diameter as measured by a rigid ring; *Provided*, That not more than 10 percent, by count, of the peaches in any such container may fail to meet such diameter requirement.

(3) Any package or container of Springcrest, Early Royal May, or May Lady variety peaches unless:

(i) Such peaches when packed in molded forms (tray pack) in a No. 22D standard lug box are of a size that will pack, in accordance with the requirements of standard pack, not more than 96 peaches in the box; or

(ii) Such peaches, when packed in any container other than molded forms (tray pack) in a No. 22D standard lug box, measure not less than  $2\frac{1}{4}$  inches in diameter as measured by a rigid ring; *Provided*, That not more than 10 percent, by count, of the peaches in any such container may fail to meet such diameter requirement.

(4) Any package or container of Robin, any type of Babcock, Blazing Gold, Bonjour, Cardinal, Dixired, Gold Dust, June Lady, Merrill Gemfree, Royal May, or Early Coronet variety peaches unless:

(i) Such peaches when packed in molded forms (tray pack) in a No. 22D standard lug box are of a size that will pack, in accordance with the requirements of standard pack, not more than 88 peaches in the box;

(ii) Such peaches when packed in a No. 12B standard fruit (peach) box are of a size that will pack, in accordance with the requirements of standard pack, not more than 75 peaches in the box; or

(iii) Such peaches, when packed in any container other than a No. 12B standard fruit (peach) box or molded forms (tray pack) in a No. 22D standard lug box, measure not less than  $2\frac{1}{4}$  inches in diameter as measured by a rigid ring; *Provided*, That not more than 10 percent, by count, of the peaches in any such container may fail to meet such diameter requirement.

(5) Any package or container of Aurora, Coronet, Indian Red, Merrill Gem, Peterson Elberta, Redhaven, Regina, or Redtop variety peaches unless:

(i) Such peaches when packed in molded forms (tray pack) in a No. 22D standard lug box are of a size that will pack, in accordance with the requirements of standard pack, not more than 80 peaches in the box; or

(ii) Such peaches when packed in a No. 12B standard fruit (peach) box are of a size that will pack, in accordance with the requirements of standard pack, not more than 72 peaches in the box; or

(iii) Such peaches, when packed in any container other than a No. 12B standard fruit (peach) box or molded forms (tray pack) in a No. 22D standard lug box, measure not less than  $2\frac{1}{4}$  inches in diameter as measured by a rigid ring; *Provided*, That not more than 10 percent, by count, of the peaches in any such container may fail to meet such diameter requirement.

(6) Any package or container of Alamar, Angelus, Belmont, Carnival, Fairtime, Fay Elberta, Fayette, Fiesta, Fortyniner, Franciscan, Halloween, John Gee, Jody Gaye, July Elberta (Early Elberta, Kim Elberta, and Socala), Madera Gem, Mardigras, Merricle,

O'Henry, Pacifica, Pageant, Parade, Paradise, Preuss, Suncrest, Regular Elberta, Redglobe, Red Lady, Rio Oso Gem, Royal Fay, Scarlet Lady, Summerset, Summertime, Suncrest, Toreador, July Lady, Windsor, Williams Gem or Gem Crest variety peaches unless:

(i) Such peaches when packed in molded forms (tray pack) in a No. 22D standard lug box are of a size that will pack, in accordance with the requirements of standard pack, not more than 72 peaches in the box;

(ii) Such peaches when packed in a No. 12B standard fruit (peach) box are of a size that will pack, in accordance with the requirements of standard pack, not more than 65 peaches in the box; or

(iii) Such peaches, when packed in any container other than a No. 12B standard fruit (peach) box or molded forms (tray pack) in a No. 22D standard lug box, measure not less than 2 1/4 inches in diameter as measured by a rigid ring. *Provided*, That not more than 10 percent, by count, of the peaches in any such container may fail to meet such diameter requirement.

(b) During the period May 20 through July 2, 1976, no handler shall handle any package or container of any variety of peaches not specifically named in subparagraphs (2), (3), (4), (5), or (6) of paragraph (a) unless:

(1) Such peaches when packed in molded forms (tray pack) in a No. 22D standard lug box are of a size that will pack, in accordance with the requirements of standard pack, not more than 96 peaches in the box; or

(2) Such peaches when packed in any container, other than molded forms (tray pack) in a No. 22D standard lug box, measure not less than 2 1/4 inches in diameter as measured by a rigid ring. *Provided*, That not more than 10 percent, by count, of the peaches in any such container may fail to meet such diameter requirement.

(c) [Reserved]

(d) Peach Regulation 6 (40 F.R. 21694, 27930) is hereby terminated as of the effective date hereof.

(e) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as given to the respective term in said amended marketing agreement and order; "U.S. No. 1" and "standard pack" shall have the same meaning, respectively, as when used in the United States Standards for Peaches (7 CFR 51.1210-1223); "No. 22D standard lug box" and "No. 12B standard fruit (peach) box" shall have the meanings as set forth, respectively, in § 1387.11 of the "Regulations of the California Department of Food and Agriculture"; and "diameter" shall mean the distance through the widest portion of the cross section of a peach at right angles to a line running from the stem to the blossom end.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated, May 13, 1976, to become effective May 20, 1976.

CHARLES R. BRADER,  
Deputy Director, Fruit and  
Vegetable Division, Agricultural  
Marketing Service.

#### Title 18—Conservation of Power, Water Resources

#### CHAPTER VI—WATER RESOURCES COUNCIL

#### PART 701—COUNCIL ORGANIZATION

##### Procedural Changes

On pages 15425 and 15426 of the FEDERAL REGISTER of April 13, 1976, 41 FR 15425 there was published a notice of proposed rulemaking to amend Part 701 of the Council's rules and regulations. No objections have been received and the proposed rulemaking is hereby adopted without change.

This rulemaking is done by authority of section 402 of the Water Resources Planning Act of 1965 (Sec. 402, Public Law 89-80; 79 Stat. 254, as amended (42 USC 1962d-1)).

*Effective date.* This rulemaking is effective on May 13, 1976.

WARREN D. FAIRCHILD,  
Director, Water Resources Council.

In consideration of the foregoing, it is proposed to amend Part 701, Council Organization, of Chapter VI of Title 18 of the Code of Federal Regulations as follows:

1. By revising § 701.2 to read as follows:

##### § 701.2 Creation and basic authority.

The Water Resources Council was established by the Water Resources Planning Act of 1965 (Pub. L. 89-80, 79 Stat. 244, as amended (42 U.S.C. 1962-1962d-5)). The rules and regulations of this part are promulgated by authority of section 402 of the Act (42 U.S.C. 1962d-1).

2. By revising paragraph (b) of § 701.5 to read as follows:

##### § 701.5 Organization pattern.

(b) The Water Resources Council consists of the following Members: The Secretary of the Interior; the Secretary of Agriculture; the Secretary of the Army; the Secretary of Commerce; the Secretary of Housing and Urban Development; the Secretary of Transportation; the Administrator of the Environmental Protection Agency; and the Chairman of the Federal Power Commission.

3. By revising paragraph (a) of § 701.52 to read as follows:

##### § 701.52 Definitions.

(a) As used in this part the term "Member" means the Secretary of the Interior, the Secretary of Agriculture, the Secretary of the Army, the Secre-

tary of Commerce, the Secretary of Housing and Urban Development, the Secretary of Transportation, the Administrator of the Environmental Protection Agency, and the Chairman of the Federal Power Commission, or Alternates appointed in accordance with § 701.53(a) when the Alternate is acting for one of the above-named.

4. By revising the first sentence of the first paragraph of § 701.53 and paragraph (b) of § 701.53 to read as follows:

##### § 701.53 Council decisions by Members.

Council decisions by Members with respect to the purpose stated in § 701.3 and the functions listed in § 701.4 are determined by majority vote of Members present and voting; except that decisions affecting the authority or responsibility of a Member, within the meaning of section 3(b) of the Act (42 U.S.C. 1962-1(b)), can be made only with his concurrence.

(b) A quorum for the transaction of business consists of six or more Members.

(5) By revising paragraph (e) of § 701.54 to read as follows:

##### § 701.54 Council decisions by Representatives.

(e) A quorum for the transaction of business consists of six or more Representatives of different Members and the Director or in his absence the Acting Director.

6. By revising paragraph (a) (5) of § 701.78 to read as follows:

##### § 701.78 Director—delegation of authorities.

(a) . . . . .

(5) Procure services as authorized by section 15 of the Act of August 2, 1946 (5 U.S.C. 3109), at rates not in excess of the daily equivalent of the rate prescribed for grade GS-18 under section 5332 of Title 5 of the United States Code in the case of individual experts or consultants.

##### Small Purchase Methods

##### Correction

In FR Doc. 76-13612 appearing at page 19221 in the issue for Tuesday, May 11, 1976, on page 19222, in § 14-3.650-2, there should be a line inserted immediately after the 3rd line in column three which reads as follows:

"(3) The purchase does not exceed the . . . . ."

#### Title 24—Housing and Urban Development

#### CHAPTER X—FEDERAL INSURANCE ADMINISTRATION

[Docket No. FI-1135]

#### PART 1915—IDENTIFICATION AND MAPPING OF SPECIAL HAZARD AREAS

##### List of Communities With Special Hazard Areas

The purpose of this notice is the identification of communities with areas of special flood or mudslide or erosion hazards in accordance with Part 1915 of Title 24 of the Code of Federal Regulations as authorized by the National Flood Insurance Program (42 U.S.C. 4001-4128). The identification of such areas is to provide guidance so that communities may adopt appropriate flood plain management measures to minimize damage caused by flood losses and to guide future construction, where practicable, away from locations which are threatened by flood hazards.

The Flood Disaster Protection Act of 1973 requires the purchase of flood insurance on and after March 2, 1974, as a condition of receiving any form of Federal or Federally related financial assist-

ance for acquisition or construction purposes in an identified flood plain area having special flood hazards that is located within any community participating in the National Flood Insurance Program.

One year after the identification of the community as flood prone, the requirement applies to all identified special flood hazard areas within the United States, so that, after that date, no such financial assistance can legally be provided for acquisition and construction in these areas unless the community has entered the program. The prohibition, however, does not apply to loans by a Federally regulated, insured, supervised or approved bank prior to March 1, 1976, to finance the acquisition of a previously occupied residential dwelling.

The effective date of identification shall be 30 days after the date of publication in the FEDERAL REGISTER, or the date which appears in this notice; whichever is later.

This 30 day period does not supersede the statutory requirement that a community, whether or not participating in the program, be given the opportunity for a period of six months to establish

that it is not seriously flood prone or that such flood hazards as may have existed have been corrected by floodworks or other flood control methods. The six months period shall be considered to begin 30 days after the date of publication in the FEDERAL REGISTER or the effective date of the Flood Hazard Boundary Map, whichever is later. Similarly, the one year period a community has to enter the program under Section 201(d) of the Flood Disaster Protection Act of 1973 shall be considered to begin 30 days after publication in the FEDERAL REGISTER or the effective date of the Flood Hazard Boundary Map, whichever is later.

Where several dates appear in the column set forth below marked effective Date of Identification, the first date is the date of initial identification, and all other dates represent modification by additions or deletions to identified areas with special hazards.

Accordingly, § 1915.3 is amended by adding in alphabetical sequence a new entry to the table, which entry reads as follows:

§ 1915.3 List of communities with special hazard areas (FHBMs in effect).

State	County	Location	Map No.	Local map repository	Effective date of identification of areas which have special flood hazard
Alabama	Marshall	Arab, town of	H 010345 01 through H 010345 17 H 010218A 01 through H 010218A 03	Mayor, City Hall, Arab, Ala. 33016	July 9, 1976.

[Docket No. FI-1134]  
**PART 1915—IDENTIFICATION AND MAPPING OF SPECIAL HAZARD AREAS**  
List of Communities With Special Hazard Areas

The purpose of this notice is the identification of communities with areas of special flood or mudslide or erosion hazards in accordance with Part 1915 of Title 24 of the Code of Federal Regulations as authorized by the National Flood Insurance Program (42 U.S.C. 4001-4128). The identification of such areas is to provide guidance so that communities may adopt appropriate flood plain management measures to minimize damage caused by flood losses and to guide future construction, where practicable, away from locations which are threatened by flood hazards.

The Flood Disaster Protection Act of 1973 requires the purchase of flood insurance on and after March 2, 1974, as a condition of receiving any form of Federal or Federally related financial assistance for acquisition or construction purposes in an identified flood plain area

having special flood hazards that is located within any community participating in the National Flood Insurance Program.

One year after the identification of the community as flood prone, the requirement applies to all identified special flood hazard areas within the United States, so that, after that date, no such financial assistance can legally be provided for acquisition and construction in these areas unless the community has entered the program. The prohibition, however, does not apply to loans by a Federally regulated, insured, supervised or approved bank prior to March 1, 1976, to finance the acquisition of a previously occupied residential dwelling.

The effective date of identification shall be 30 days after the date of publication in the FEDERAL REGISTER, or the date which appears in this notice, whichever is later.

This 30 days period does not supersede the statutory requirement that a community, whether or not participating in the program, be given the opportunity for a period of six months to establish that

it is not seriously flood prone or that such flood hazards as may have existed have been corrected by floodworks or other flood control methods. The six months period shall be considered to begin 30 days after the date of publication in the FEDERAL REGISTER or the effective date of the Flood Hazard Boundary Map, whichever is later. Similarly, the one year period a community has to enter the program under Section 201 (d) of the Flood Disaster Protection Act of 1973 shall be considered to begin 30 days after publication in the FEDERAL REGISTER or the effective date of the Flood Hazard Boundary Map, whichever is later.

Where several dates appear in the column set forth below marked Effective Date of Identification, the first date is the date of initial identification, and all other dates represent modification by additions or deletions to identified areas with special hazards.

Accordingly, § 1915.3 is amended by adding in alphabetical sequence a new entry to the table, which entry reads as follows:

## § 1915.3 List of communities with special hazard areas (FHBMs in effect).

State	County	Location	Map No.	State map repository	Local map repository	Effective date of identification of areas which have special flood hazards

#### SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM PART 1916—CONSULTATION WITH LOCAL OFFICIALS

[Docket No. FI-1103]

#### Notice of Changes Made in Determinations of the City of Columbia, Tennessee, Base Flood Elevations

On January 8, 1976, at 41 FR 1476, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas. The list included Flood Insurance Rate Maps for portions of the City of Columbia, Tennessee.

The Federal Insurance Administrator, after consultation with the Chief Executive Officer of the community, has determined that it is appropriate to modify the base (100-year) flood elevations of some locations in the City of Columbia. These modified elevations are currently in effect and amend the Flood Insurance Rate Map, which was in effect prior to this determination. A revised rate map will be published as soon as possible. The modifications are made pursuant to Section 206 of the Flood Disaster Protection Act of 1973 (P.L. 93-234) and are in accordance with the National Flood Insurance Act of 1968, as amended (Title XIII of the Housing and Urban Development Act of 1968, P.L. 90-448) 42 U.S.C. 4001-4128, and 24 CFR Part 1916.

For rating purposes, the new community number is 475423A, and must be used for all new policies and renewals.

Under the above-mentioned Acts of 1968 and 1973, the Administrator must develop criteria for flood plain management. In order for the community to continue participation in the National Flood Insurance Program, the community must use the modified elevations to carry out the flood plain management measures of the Program. These modified elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and contents.

From the date of this notice, any person has 90 days in which he can request

through the community that the Federal Insurance Administrator reconsider the changes. Any request for reconsideration must be based on knowledge of changed conditions or new scientific or technical data. All interested parties are on notice that until the 90-day period elapses, the Administrator's new determination of elevations may itself be changed.

Any persons having knowledge or wishing to comment on these changes should immediately notify:

Mayor J. A. Morgan, City Hall, North Main Street, Columbia, Tennessee.

Also, at this location is the map showing the new base flood elevations. This map is a copy of the one that will be printed. The numerous changes made in the base flood elevations on the City of Columbia Flood Insurance Rate Map make it administratively infeasible to publish in this notice all of the base flood elevation changes contained on the City of Columbia, Tennessee map.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: April 27, 1976.

H. B. CLARK,  
Acting Federal  
Insurance Administrator.

#### PART 1920—PROCEDURE FOR MAP CORRECTION

##### Letter of Map Amendment for Honolulu County, Hawaii

On June 5, 1970, in 35 FR 8734, the Federal Insurance Administrator published a list of communities with special hazard areas which included Honolulu, Hawaii. Map No. H 150001 45 indicates that 46-205 Alaloa Place, Kaneohe, Hawaii, being Lot 10 of Land Court Application 1044 as shown on Map 128 of

Land Court Application 1100, recorded in the office of the Registrar of the Land Court of Hawaii, is in its entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that, with the exception of the easement area as shown on the recorded plat cited above, the above property is not within the Special Flood Hazard Area. Accordingly, Map No. H 150001 45 is hereby corrected to reflect that the above property, with the exception of the easement, is not within the Special Flood Hazard Area identified on June 5, 1970.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: April 27, 1976.

H. B. CLARK,  
Acting Federal  
Insurance Administrator.

#### PART 1920—PROCEDURE FOR MAP CORRECTION

##### Letter of Map Amendment for the County of Forsyth, North Carolina

On August 31, 1972, in 37 FR 17704, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas which included the County of Forsyth, North Carolina. Map No. H 375349 09 indicates that a part of Lot 65, Block 4633, Vienna Township, Forsyth County, North Carolina, as recorded in Deed Book 1006, Page 521, in the office of the Register of Deeds of Forsyth County, North Carolina, is in its entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the

## RULES AND REGULATIONS

## PART 1920—PROCEDURE FOR MAP CORRECTION

Letter of Map Amendment for the Township of Wayne, New Jersey

On February 20, 1973, in FR 4669, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas which included the Township of Wayne, New Jersey. Map No. H 345327 04 indicates that Lot 6, Block 478L, Preakness Valley Gardens, Wayne, New Jersey, as recorded on Map No. 1871, in the office of the Register of Deeds of Passaic County, New Jersey, is in its entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that the above mentioned property is within Zone C, and is not within the Special Flood Hazard Area. The map amendment is not based on the placement of fill on the above named property after the effective date of the Flood Insurance Rate Map of the community. Accordingly, Map No. H 345327 09 is hereby corrected to reflect that the above property is not within the Special Flood Hazard Area identified on February 16, 1973.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: April 23, 1976.

J. ROBERT HUNTER,  
Acting Federal Insurance  
Administrator.

[FR Doc.76-14604 Filed 5-18-76;8:45 am]

On January 8, 1976, in 41 FR 1477, the Federal Insurance Administrator published a list of communities with special hazard areas which included Fairfax County, Virginia. Map No. H & I 515525 19 indicates that Lot 109, Section 3, Keene Mill Station, being 8520 Etta Drive, Fairfax County, Virginia, as recorded in Deed Book 3156, Page 596 in the office of the Clerk of the Court of Fairfax County, Virginia, is in its entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that the above property is within Zone C, and not within the Special Flood Hazard Area. The map amendment is not based on the placement of fill on the above named property after the effective date of the Flood Insurance Rate Map of the community. Accordingly, Map No. H & I 515525 19 is hereby corrected to reflect that the above property is not within the Special Flood Hazard Area identified on January 7, 1972.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

## PART 1920—PROCEDURE FOR MAP CORRECTION

Letter of Map Amendment for the Town of Windsor, Connecticut

On October 11, 1973, in 38 FR 28034, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas which included the Town of Windsor, Connecticut. Map No. H 090041 04 indicates that Lot 39, Darwyn Heights, Windsor, Connecticut, as recorded in Volume 278, Pages 283 and 284, in the office of the Town Clerk of Windsor, Connecticut, is in its entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that the structure on the above mentioned property is not within the Special Flood Hazard Area. Accordingly, Map No. H 090041 04 is hereby corrected to reflect that the structure on the above property is not within the Special Flood Hazard Area identified on October 5, 1973.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

## PART 1920—PROCEDURE FOR MAP CORRECTION

Letter of Map Amendment for the County of New Castle, Delaware

On January 8, 1976, in 41 FR 1472, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas which included the County of New Castle, Delaware. Map No. H & I 105085A 32 indicates that 304 Brookside Drive, New Castle County, Delaware, as recorded in Deed Record M, Volume 90, Page 417, in the office of the Recorder of Deeds of New Castle County, Delaware, is in its entirety within the Special Flood Hazard

Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that the above mentioned property is within Zone C, and is not within the Special Flood Hazard Area. The map amendment is not based on the placement of fill on the above named property after the effective date of the Flood Insurance Rate Map of the community. Accordingly, Map No. H & I 105085A 32 is hereby corrected to reflect that the above property is not within the Special Flood Hazard Area identified on December 7, 1971.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: April 14, 1976.

## PART 1920—PROCEDURE FOR MAP CORRECTION

Letter of Map Amendment for the City of Davenport, Iowa

On July 12, 1974, in 39 FR 25649, the Federal Insurance Administrator published a list of communities with special hazard areas which included the City of Davenport, Iowa. Map No. H 190242 10 indicates that Lots 69 through 73, and 94 through 100, Cedar Vista Annex Third Addition to the City of Davenport, Iowa, as recorded in the office of the Recorder of Scott County, Iowa, as Document Number 8564-75, are in their entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that the above property is not within the Special Flood Hazard Area. Accordingly, Map No. H 190242 10 is hereby corrected to reflect that the above property is not within the Special Flood Hazard Area identified on June 21, 1974.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: April 27, 1976.

J. ROBERT HUNTER,  
Acting Federal Insurance  
Administrator.

## Title 12—Banks and Banking CHAPTER II—FEDERAL RESERVE SYSTEM

### SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Docket No. R-0012, Reg. B]

## PART 202—EQUAL CREDIT OPPORTUNITY

### Miscellaneous Amendments

On January 12, 1976, the Board of Governors of the Federal Reserve System published for comment (41 FR 1789) several proposed amendments to its Regulation B, Equal Credit Opportunity.

After review and consideration of all comments received, pursuant to its authority under section 703(a) of the Equal Credit Opportunity Act (15 U.S.C. 1691b), the Board of Governors has decided to adopt the amendments with the following changes.

#### SECTION 202.4—APPLICATIONS

The Board proposed to substitute the word "the" for the word "each" in § 202.4(d)(1), which requires creditors to furnish applicants with a notice regarding the Act. This amendment was intended to make it clear that a creditor need furnish only one such notice per transaction. Thus, where two or more applicants apply jointly for credit, the notice need be furnished to only one of them. In determining which applicant shall receive the notice, the creditor may not select an applicant who is secondarily liable such as an endorser, co-maker (when designated as a surety) or guarantor. Of course the creditor may, if it wishes, furnish the notice to all joint applicants.

The comments received indicated that the substitution of the word "the" for "each" did not convey the Board's intent with sufficient clarity. Therefore, in addition to making this substitution, the Board has decided to add a new paragraph (3) to § 202.4(d) explaining a creditor's duty to deliver the notice in

a transaction involving multiple applicants.

After consideration of the comments received, the Board determined that the proposed amendment will eliminate unnecessary duplication in the delivery of the notice and, therefore, has adopted it.

#### SECTION 202.5—EVALUATION OF APPLICATIONS

The Board proposed to delete the words "under § 202.4(c)(3)" from § 202.5(d)(2) because this language was superfluous and possibly confusing. The Board has determined that deletion of this phrase is appropriate. Therefore, this amendment has been adopted in the form proposed.

#### SECTION 202.6—FURNISHING OF CREDIT INFORMATION

The Board proposed to amend § 202.6(a)(2)(ii) to indicate that when furnishing credit information, a creditor need furnish information only about the spouse who is the subject of the inquiry. After consideration of the comments received, the Board has determined not to adopt the amendment at this time.

#### SECTION 202.9—PRESERVATION OF RECORDS

The Board proposed to amend section 202.9(a) to require creditors to retain a copy of the notification of action taken furnished to the applicant and a copy of the reasons for denial, if this document is provided to the applicant. If a creditor explains the reasons for denial orally and makes a notation or memorandum regarding this action, the creditor shall retain such notation or memorandum for the required period.

Several commentators explained that they use computer-generated form letters for purposes of complying with sections 202.5(m)(1) and (2), notification of action taken and reasons for denial. The proposed amendment was not intended to require creditors to retain "hard" copies of these form letters. The words "or recorded notation" have been added to the language of the amendment to indicate that if a creditor uses an automated system for generating form letters, the creditor need not retain copies of each letter. The requirement of the regulation is satisfied if the creditor makes a notation in the applicant's file that a particular form letter has been sent.

The Board has adopted the amendment in substantially the same form as proposed.

The Board proposed to amend § 202.9(b) to make it clear that a creditor must retain records when credit is terminated and to provide that creditors need not retain records after revoking credit when the revocation is the result of the customer's delinquency or when the creditor changes the terms of a substantial portion of its accounts.

After consideration of the comments received, the Board has adopted these amendments as proposed.

#### SECTION 202.10—CERTAIN SPECIALIZED CREDIT

The Board proposed to amend § 202.10(c), which relates to business credit, to provide that creditors need not furnish an explanation of reasons for denial in connection with applications for business credit in excess of \$100,000. The Board proposed this amendment because it felt that in large commercial transactions, the benefit to the applicant of receiving reasons for denial is outweighed by the cost to the creditor. The amendment to § 202.10(c) also provides that § 202.4(e) and § 202.5(g) shall not apply to applications for business credit. After consideration of all comments received, the Board has decided to adopt this amendment as proposed.

The Board proposed to add a new paragraph (f) to § 202.10. The new provision relates to credit extended under student loan programs. The Board proposed this amendment because lenders who extend credit under Federal student loan programs are required by the Department of Health, Education, and Welfare to inquire about an applicant's marital status, about the income of the applicant's spouse and to obtain the signature of the applicant's spouse for verification purposes. Information about the applicant's spouse is required because access to credit under these programs is determined on the basis of need. Without this amendment to Regulation B, creditors would be prohibited from making these inquiries and from obtaining the spouse's signature.

As proposed, the amendment referred only to student loan programs administered by the Department of Health, Education, and Welfare. The amendment did not mention State guarantee agencies. Public comments indicated that in certain States, State agencies administer Federal student loan guarantee programs and also administer State guarantee programs that are unconnected with the Federal program. In response to these comments, the Board has added a specific reference to State guarantee agencies to indicate that credit extended under State or Federal student loan programs administered by a State agency is not subject to the restrictions of §§ 202.4(c), 202.5(b) and 202.7(a).

The Board has adopted this amendment in substantially the same form as proposed.

#### SECTION 202.14—TRANSITION PERIODS

The Board proposed to amend § 202.14 by deleting the reference to § 202.5(d) in § 202.14(b) and adding it to § 202.14(d). This change would make the effective date of § 202.5(d) consistent with that of § 202.4(c)(3).

The portions of Regulation B that require changes in creditors' application forms become effective on June 30, 1976. Section 202.5(d)(1) also may require changes in forms and, thus, its effective date should be June 30. However, § 202.5(d)(2) does not require any alteration in application format. Therefore, the Board has decided to change the effective date

of only paragraph (1) of § 202.5(d) to June 30, 1976.

#### EFFECTIVE DATE

These amendments become effective on June 30, 1976, except for § 202.10(f). Since § 202.10(f) grants an exemption, it becomes effective on May 13, 1976.

1. Section 202.4(d) is amended by substituting the word "the" for the word "each" before "applicant" in § 202.4(d)(1) and by adding a new subsection, § 202.4(d)(3).

#### § 202.4 Applications.

(d) Equal Credit Opportunity Act notice. (1) Except where application is made by telephone, or orally for an amount of credit to exceed an existing limit on an applicant's open end account, the creditor shall provide the applicant with the following notice in writing:

(2) . . . . .  
(3) Where two or more applicants jointly apply for credit, the creditor need furnish the notice required by paragraph (1) to only one of them. In determining which applicant shall receive the notice, the creditor may not select an applicant who is secondarily liable, such as an endorser, co-maker (when designated as a surety) or guarantor.

2. The first sentence of § 202.5(d)(2) is amended to read as follows:

#### § 202.5 Evaluation of applications.

(d) Alimony, child support and maintenance income. . . . .

(2) Where an applicant chooses to disclose alimony, child support or maintenance payments, a creditor shall consider such payments as income to the extent that such payments are likely to be consistently made. . . . .

3. Section 202.9 is amended by revising §§ 202.9(a)(1) and 202.9(a)(2) by revising (b)(1)(i) and (ii) as follows, and by adding new §§ 202.9(a)(2)(i), (a)(2)(ii), (b)(2)(i) and (b)(2)(ii).

#### § 202.9 Preservation of records.

(a) For a period ending 15 months after the date a creditor gives the applicant notice of action on an application, the creditor shall retain as to each applicant:

(1) The original or a copy of any application form and all other written or recorded information used in evaluating an application; and

(2) A copy or recorded notation of the following if furnished the applicant in written form (or if furnished orally, and notation or memorandum made by the creditor):

(i) The notification of action taken, and

(ii) If applicable, the reasons for denial provided to an applicant in accordance with section 202.5(m); and

(3) Any written statement submitted by the applicant alleging discrimination prohibited by the Act or this Part.

(b) (1) For a period ending 15 months after the date a creditor adversely changes the terms or conditions of credit for an account or terminates an account, the creditor shall retain as to each account, in original form or a copy thereof:

(i) Any written or recorded information concerning such change or termination; and

(ii) Any written statement submitted by the applicant alleging discrimination prohibited by the Act or this Part.

(2) For purposes of paragraph (1), an adverse change in the terms or conditions of credit for an account does not include:

(i) A reduction of the credit limit on an account taken after the applicant has failed to make payment as provided in the credit agreement; or

(ii) A change in the terms or conditions of credit affecting all or a substantial portion of the creditor's accounts.

5. Section 202.10 is amended by revising paragraph (c) and adding a new paragraph (f) to read as follows:

#### § 202.10 Certain specialized credit.

(c) Business credit. Business credit shall be subject to the provisions specified in §§ 202.10(a), 202.5, 202.7, and 202.9, except that §§ 202.5(m)(2), 202.5(m)(3) and 202.9 shall only apply in those transactions involving an application for credit in the amount of \$100,000 or less where the applicant requests in writing that the creditor provide such reasons or retain such records. Sections 202.4(e) and 202.5(g) shall not apply to business credit extended in the name of a business firm. As used in this part, business credit is credit granted for business, commercial or agricultural purposes.

(f) Credit under student loan programs. Credit granted under student loan programs administered by the Department of Health, Education, and Welfare or by State guarantee agencies shall be subject to all the provisions of this part except that to the extent necessary or appropriate to ascertain and/or verify the applicant's marital status and the financial resources of the applicant and the applicant's spouse, if the applicant is married, §§ 202.4(c), 202.5(b) and 202.7(a) shall not apply.

6. Sections 202.14 (b) and (d) are revised as follows:

#### § 202.14 Transition periods.

Except as provided in § 202.6 with respect to that section, the provisions of this part shall take effect as follows:

(b) Sections 202.4(b), 202.4(e), 202.5(d)(2), 202.5(e), 202.5(f), 202.5(g), 202.9(a) and 202.9(b) shall take effect on November 30, 1975.

(d) Sections 202.4(c), 202.4(d), 202.5(b) and 202.5(d)(1) shall take effect on June 30, 1976.

By order of the Board of Governors,  
May 12, 1976.

[SEAL] THEODORE E. ALLISON,  
Secretary of the Board.

## Title 17—Commodity and Securities Exchanges

### CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-12429]

## PART 200—ORGANIZATION; CONDUCT AND ETHICS; AND INFORMATION AND REQUESTS

### Director of Division of Market Regulation; Delegation of Authority

#### INTRODUCTION

The Securities and Exchange Commission hereby announces the amendment of § 200.30-3 (17 CFR 200.30-3) of the Commission's Statement of Organization, Conduct and Ethics; and Information and Requests to delegate to the Director of the Division of Market Regulation the authority to make findings that the agreements, safeguards, and provisions of registered clearing agencies are adequate for the protection of investors.

Paragraphs (g) of Rules 8c-1 and 15c2-1 under the Securities Exchange Act of 1934 (the "Act") provide that the Commission can make findings that the agreements, safeguards, and provisions of certain entities, including clearing agencies, are adequate for the protection of investors. These findings must be made in connection with any rule change submitted by a registered clearing agency pursuant to Rule 19b-4 under the Act which has an effect on the safeguarding of securities left in the care and custody of the registered clearing agency. Therefore, pursuant to Sections 8(c) and 15(c)(2) of the Act, the rules of the Commission relating to general organization are being amended to delegate authority to the Director of the Division of Market Regulation to make findings, pursuant to paragraphs (g) of Rules 8c-1 and 15c2-1, that the agreements, safeguards, and provisions of registered clearing agencies are adequate for the protection of investors.

#### DELEGATION OF AUTHORITY

Section 200.30-3 is amended by adding paragraph (21) to read as follows:

§ 200.30-3 Delegation of authority to Director of Division of Market Regulation.

(a) . . . . .  
(21) Pursuant to Sections 8(c) and 15(c)(2) of the Act (15 U.S.C. 78h(c) and 78o(2)) and paragraphs (g) of Rules 8c-1 and 15c2-1 thereunder, to make findings that the agreements, safeguards, and provisions of registered clearing agencies are adequate for the protection of investors.

The Commission finds, in accordance with sections 5 U.S.C. 553(b)(3)(B) and

\* 15 U.S.C. 78a et seq., as amended by Pub. L. No. 94-29 (June 4, 1975).

\* 15 U.S.C. 78h(c) and 78o(2).

[Release Nos. 33-5700, 34-12386, FI-45; File No. 87-598]

#### PART 200—ORGANIZATION; CONDUCT AND ETHICS; AND INFORMATION AND REQUESTS

#### PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

##### Confidential Treatment of Information Filed With the Commission and With Any Exchange

The Commission today announced the adoption of new Rule 24b-2 (17 CFR 240.24b-2) under Section 24 of the Securities Exchange Act of 1934 relating to confidential treatment of certain information filed with the Commission. Section 24 of the Securities Exchange Act of 1934, 15 U.S.C. Section 78x, was amended by Section 19 of Public Law No. 94-29 (the Securities Acts Amendments of 1975).<sup>1</sup>

Previously, Section 24 had prohibited, in subsection (a), the disclosure of trade secrets and processes, and had authorized, in subsection (b), the nondisclosure of any other type of information filed with the Commission pursuant to the Securities Exchange Act unless the Commission found disclosure to be in the public interest. See *American Sumatra Tobacco Corp. v. SEC* 1033, affirmed, *American Sumatra Tobacco Corp. v. Securities and Exchange Commission*, 110 F. 2d 117 (C.A.D.C. 1940). As determination under former Section 24 that disclosure of information was not in the public interest could have been made in some circumstances when the information would not otherwise come within the exemptions from disclosure under the Freedom of Information Act ("FOIA"), 5 U.S.C. 552.

Section 24 now defines, in subsection (a), the term "records" to include "all applications, statements, reports, contracts, correspondence, notices, and other documents filed with or otherwise obtained by the Commission pursuant to this title or otherwise." Subsection (b) of the amended Section prohibits disclosure

<sup>1</sup> Public Law No. 94-29 was signed by the President on June 4, 1975 at which time, as provided by Section 31(a) thereof, Section 19 became effective.

of any records in contravention of the rules and regulations of the Commission under the FOIA or in circumstances where the Commission has determined, pursuant to such rules, to afford confidential treatment for information contained in such records.

The amendment to Section 24 removed the statutory basis for Rule 24b-2 and the Commission rescinded it in Securities Exchange Act Release No. 11774 (40 FR 54773).

The rescinded Rule 24b-2 (17 CFR 240.24b-2), promulgated under Section 24, established a procedure whereby persons filing documents with the Commission pursuant to the Securities Exchange Act could request confidential treatment for information contained therein. Pursuant to subsection (c) of the rescinded Rule, and the former provisions of Section 24, until the Commission had made a determination regarding such a request, the information in question could not be disclosed by the staff. Under subsection (e) of the rescinded Rule, a person requesting confidential treatment could also request a hearing thereon. Subsection (h) provided that if the Commission determined that disclosure of materials filed by the issuer of a security registered on any exchange was in the public interest, the issuer could withdraw such materials by withdrawing the registration of each security to which the material filed related.

Under new Rule 24b-2, information will be entitled to confidential treatment only if it is required to be filed and considered nonpublic under the Commission's FOIA rules (17 CFR 200.80). This determination would be made at the time an application for confidential treatment is filed pursuant to Rule 24b-2, but would be reconsidered whenever appropriate, such as when a request for the information is filed under the FOIA. Persons who have applied for and received confidential treatment for information pursuant to the rule will be contacted by the staff whenever additional information is required in order to determine whether continued confidential treatment is warranted. If it is determined that a continuation of confidential treatment is not warranted, the decision to accord such treatment will be revoked and the requesting person will be so notified wherever possible.

Determinations to grant, deny or revoke confidential treatment will be made by the Directors of the Divisions of Corporation Finance and Market Regulation. Persons may petition the Commission for review of their determinations under 17 CFR 201.26 and no disclosure of information will be made until such Commission review has been completed. The Commission will accord expedited treatment to all such petitions for review to the extent necessary to respond to a pending request under the FOIA within the time limits prescribed by that statute. See 5 U.S.C. Section 552(a)(6)(A).

No provision is made in this rule for confidential treatment of information received by the Commission which is not

required to be filed pursuant to the Act. The Commission intends that any records received by the Commission which are not subject to the provisions of any specific rule governing requests for confidential treatment shall be subject to rules which it expects to publish in the near future.

Confidential treatment pursuant to Rule 485 (17 CFR 230.485) of information filed under the Securities Act of 1933 may have the effect of establishing a basis for confidential treatment under Rule 24b-2 when the same information is required to be filed under the Exchange Act. Accordingly, in considering applications for confidential treatment filed under Rule 485 the staff will consider the length of time for which confidential treatment is sought so that the information will not be kept confidential indefinitely for Exchange Act purposes unless appropriate under the FOIA. In the future, applications for confidential treatment pursuant to Rule 485 should justify the length of time for which such treatment is sought.

Pursuant to Section 23(a)(2) of the Securities Exchange Act, the Commission has considered the impact that this amendment will have on competition and has determined that this rule will not impose any burden not warranted by the FOIA on competition. This amendment shall become effective June 18, 1976.

Those who in the past have requested and been granted confidential treatment under the provisions of former Rule 24b-2 are advised that, while that information will continue to be maintained in non-public files until reconsideration of its confidential status, the disclosure requirements of the FOIA are applicable.

17 CFR Part 240 is amended by adopting a new § 240.24b-2 to read as follows:

§ 240.24b-2 Nondisclosure of information filed with the Commission and with any exchange.

(a) Any person filing any registration statement, report, application, statement, correspondence, notice or other document (herein referred to as the material) pursuant to the Act may make written objection to the public disclosure of any information contained therein in accordance with the procedure set forth below. The procedure provided in this rule shall be the exclusive means of requesting confidential treatment of information required to be filed under the Act.

(b) The person shall omit from material filed the portion thereof which it desires to keep undisclosed (hereinafter called the confidential portion). In lieu thereof, it shall indicate at the appropriate place in the material filed that the confidential portion has been so omitted and filed separately with the Commission. The person shall file with the copies of the material filed with the Commission:

(1) As many copies of the confidential portion, each clearly marked "Confidential Treatment," as there are copies of the material filed with the Commis-

sion and with any exchange where such material is required to be filed. Each copy shall contain an appropriate identification of the item or other requirement involved and, notwithstanding that the confidential portion does not constitute the whole of the answer, the entire answer thereto; except that in case the confidential portion is part of a financial statement or schedule only the particular financial statement or schedule need be included. All copies of the confidential portion shall be in the same form as the remainder of the material filed;

(2) An application making objection to the disclosure of the confidential portion. Such application shall be on a sheet or sheets separate from the confidential portion, and shall contain (i) an identification of the portion; (ii) a statement of the grounds of objection referring to, and containing an analysis of, the applicable exemption(s) from disclosure under the Commission's rules and regulations adopted under the Freedom of Information Act (17 CFR 200.80), and a justification of the period of time for which confidential treatment is sought; (iii) a written consent to the furnishing of the confidential portion to other government agencies, offices or bodies and to the Congress; and (iv) the name of each exchange, if any, with which the material is filed.

The copies of the confidential portion and the application filed in accordance with paragraph (b) of this section shall be enclosed in a separate envelope marked "Confidential Treatment" and addressed to The Secretary, Securities and Exchange Commission, Washington, D.C. 20549.

(c) Pending a determination as to the objection filed the material for which confidential treatment has been applied will not be made available to the public.

(d) (1) If it is determined that the objection should be sustained, a notation to that effect will be made at the appropriate place in the material filed. Such a determination will not preclude reconsideration whenever appropriate, such as upon receipt of any subsequent request under the Freedom of Information Act (5 U.S.C. Section 552) and, if appropriate, revocation of the confidential status of all or a portion of the information in question. Where an initial determination has been made under this rule to sustain objections to disclosure, the Commission will attempt to give the person requesting confidential treatment advance notice, wherever possible, if confidential treatment is revoked.

(2) In any case where an objection to disclosure has been disallowed or where a prior grant of confidential treatment has been revoked, the person who requested such treatment will be so informed by registered or certified mail to the person or his agent for service. Pursuant to 17 CFR 201.26, persons making objections to disclosure may petition the Commission for review of a determination by the Division disallowing objections or revoking confidential treatment.

(e) The confidential portion shall be made available to the public at the time and according to the conditions specified in paragraphs (d) (1) and (2) of this section.

(1) Upon the lapse of five days after the dispatch of notice by registered or certified mail of a determination disallowing an objection, if prior to the lapse of such five days the person shall not have communicated to the Secretary of the Commission his intention to seek review by the Commission under 17 CFR 201.26 of the determination made by the Division; or

(2) If such a petition for review shall have been filed under 17 CFR 201.26, upon final disposition thereof adverse to the petitioner.

(f) If the confidential portion is made available to the public, one copy thereof shall be attached to each copy of the material filed with the Commission and with each exchange.

(Secs. 23, 24, 48 Stat. 901, as amended, 80 Stat. 383, as amended, 31 Stat. 54; 15 U.S.C. 78w, 78x, 5 U.S.C. 552).

#### AMENDMENT OF 17 CFR 200.30-3

The Commission has delegated authority to the Director of the Division of Market Regulation to process applications for confidential treatment of information filed under the Act. In order to implement procedures in Rule 24b-2, 17 CFR 200.30-3(a) is amended by adding paragraph (20) to provide as follows:

§ 200.30-3 Delegation of authority to Director of Division of Market Regulation.

(20) (i) To grant and deny applications for confidential treatment filed pursuant to Section 24(b) of the Act (15 U.S.C. 78x(b)) and Rule 24b-2 thereunder (240.24b-2 of this chapter); (ii) To revoke a grant of confidential treatment for any such application.

(Sec. 4, 48 Stat. 885; sec. 1106(a), 63 Stat. 972; 15 U.S.C. 78d; (Pub. L. 87-592, 76 Stat. 394).

The Commission finds that the foregoing delegation action relates solely to agency organization, procedure or practice and that notice and procedures under 5 U.S.C. 553 are unnecessary. Accordingly, the foregoing action, taken pursuant to Public Law 87-592, 76 Stat. 394 and to Section 4 of the Securities Exchange Act of 1934, becomes effective May 19, 1976.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,  
Secretary.

#### Title 20—Employees' Benefits CHAPTER II—U.S. RAILROAD RETIREMENT BOARD PART 200—PROCEDURES AND FORMS Privacy Act Implementation

On August 19, 1975, and on October 2, 1975, the Railroad Retirement Board

published notice of proposed rulemaking to implement the Privacy Act of 1974 (Pub. L. 93-579, 88 Stat. 1895) in the FEDERAL REGISTER (40 FR 36262 and 40 FR 45736). Interested persons were invited to comment on the proposed § 200.4 of Part 200 of the Board's regulations. The Railroad Retirement Board received two comments on its proposed rules and has given due consideration to both of these comments. One of the two comments actually concerned the Board's Notice of Systems of Records and Routine Uses which was published in the FEDERAL REGISTER on August 19, 1975. The other comment received concerned subsections (c) and (g) of the proposed § 200.4.

A commenter suggested that § 200.4(c) be revised to provide a more flexible means for an individual seeking information concerning the existence of or access to a record maintained by the Railroad Retirement Board. The Board has agreed with this proposal and has revised section 200.4(c) to include additional information to guide requesters in framing their requests. Section 200.4(c) is amended to read as follows:

An individual can determine if a particular record system maintained by the Railroad Retirement Board contains any record pertaining to him by submitting a written request for such information to the system manager of that record system as described in the annual notice published in the FEDERAL REGISTER. A current copy of the system notices, published in accordance with paragraph (1) of this section, is available for inspection at all regional and district offices of the Board. If necessary, Board personnel will aid requesters in determining what system(s) of records they wish to review and will forward any requests for information to the appropriate system manager. Also, requests for personal information may be submitted either by mail or in person to the system manager at the headquarters of the Railroad Retirement Board, 844 Rush Street, Chicago, Illinois 60611. Prior to responding to a request for information under this subsection, the system manager shall require the individual requesting such information to provide identifying data, such as his full name, date of birth, and social security number. The system manager shall respond to a request under this subsection within a reasonable time by stating that a record on the individual either is or is not contained in the system.

The commenter also questioned the Board's authority to establish a time limit for filing an appeal of an adverse decision to amend a record (§ 200.4(g)). Since the Privacy Act is silent on time limits for appeals, the Board has reconsidered its position of specifying a time limit to appeal an adverse determination to amend a record. In the interest of fairness and the accuracy of the records that the Railroad Retirement Board maintains, the Board has deleted the time limit for appealing an adverse decision to amend a record. Section 200.4(g) (1) is amended to read as follows:

An individual, whose request for amendment of a record pertaining to him is denied, may appeal that determination to the Board by filing a written appeal with the Secretary of the Board, Railroad Retirement Board, 844 Rush Street, Chicago, Illinois 60611. The written notice of appeal should

include a statement of the information in the record which the individual believes is incorrect, a statement of any information not in the record which the individual believes would correct the record, if included, and a statement of any evidence which substantiates the individual's belief concerning the inaccuracy of the information presently contained in the record.

The Railroad Retirement Board hereby adopts the proposed § 200.4 of Title 20 of the Code of Federal Regulations as published in the *FEDERAL REGISTER* on August 19, 1975 and October 2, 1975, subject to the two aforementioned amendments which the Board has determined to make in accordance with the comments it received on its proposed rules, and several editorial corrections.

Dated: May 12, 1976.

Section 200.4 is added to read as follows:

§ 200.4 Protection of privacy of records maintained on individuals.

(a) *Purpose and scope.* The purpose of this section is to establish specific procedures necessary for compliance with the Privacy Act of 1974 (Pub. Law 93-579). These regulations apply to all record systems containing information of a personal or private nature maintained by the Railroad Retirement Board that are indexed and retrieved by personal identifier.

(b) *Definitions.*—(1) *Individual.* The term "individual" pertains to a natural person who is a citizen of the United States or an alien lawfully admitted for permanent residence and not to a company or corporation.

(2) *System of records.* For the purposes of this section, the term "system of records" pertains to only those records that can be retrieved by an individual identifier.

(3) *Railroad Retirement Board.* For purposes of this section, the term "Railroad Retirement Board" refers to the United States Railroad Retirement Board, an independent agency in the executive branch of the United States Government.

(4) *Board.* For purposes of this section the term "Board" refers to the three member governing body of the United States Railroad Retirement Board.

(c) *Procedure for requesting the existence of personally identifiable records in a record system.* An individual can determine if a particular record system maintained by the Railroad Retirement Board contains any record pertaining to him by submitting a written request for such information to the system manager of that record system as described in the annual notice published in the *FEDERAL REGISTER*. A current copy of the system notices, published in accordance with paragraph (1) of this section, is available for inspection at all regional and district offices of the Board. If necessary, Board personnel will aid requesters in determining what system(s) of records they wish to review and will forward any requests for information to the appropriate system manager. Also, requests

for personal information may be submitted either by mail or in person to the system manager at the headquarters of the Railroad Retirement Board, 844 Rush Street, Chicago, Illinois 60611. Prior to responding to a request for information under this subsection, the system manager shall require the individual requesting such information to provide identifying data, such as his full name, date of birth, and social security number. The system manager shall respond to a request under this subsection within a reasonable time by stating that a record on the individual either is or is not contained in the system.

(d) *Disclosure of requested information to individuals.* (1) Upon request, an individual shall be granted access to records pertaining to himself, other than medical records and records compiled in anticipation of a civil or criminal action or proceeding against him, which are indexed by individual identifier in a particular system of records. Requests for access must be in writing and should be addressed to the system manager of that record system as described in the annual notice published in the *FEDERAL REGISTER*. Requests under this subsection may be submitted either by mail or in person at the headquarters offices of the Railroad Retirement Board, 844 Rush Street, Chicago, Illinois 60611.

(2) The system manager shall, within ten working days following the date on which the request is received in his office, render a decision either granting or denying access and shall promptly notify the individual of his decision. If the request is denied, the notification shall inform the individual of his right to appeal the denial to the Board. An individual whose request for access under this subsection has been denied by the system manager may appeal that determination to the Board by filing a written appeal with the Secretary of the Board, Railroad Retirement Board, 844 Rush Street, Chicago, Illinois 60611 within twenty working days following receipt of the notice of denial. The Board shall render a decision on an appeal within thirty working days following the date on which the appeal is received in the office of the Secretary of the Board. The individual shall promptly be notified of the Board's decision.

(3) In cases where an individual has been granted access to his records, the system manager shall, prior to releasing such records, require the individual to produce identifying data such as his name, date of birth, and social security number.

(4) Disclosure to an individual of his record may be made by providing him, upon written request therefor, a copy of the record or portion thereof which he reasonably describes in his request.

(5) An individual, and if such individual so desires, one other person of his choosing, may review and have a copy made of his record (in a form comprehensible to him) during regular business hours at the location described as the

repository of the record system containing such records in the annual notice published in the *FEDERAL REGISTER* or at such other location convenient to the individual as specified by the system manager. If an individual is accompanied by another person, the system manager may require written authorizations for disclosure in the presence of the other person from the individual before any record or portion thereof is released.

(e) *Special procedures—medical records.* (1) Upon receipt of a request made by an individual for access to medical records pertaining to him maintained by the Railroad Retirement Board, the system manager of the system of records containing the medical records in question shall, within ten working days following the date on which the request is received in his office, respond to such request as follows:

(i) If the system manager has received a written authorization from the physician or practitioner who supplied a particular medical record permitting the individual access to that record, the system manager shall grant the individual access to such record as provided under paragraph (d) of this section; or

(ii) If the system manager has not received a written authorization from the physician or practitioner who supplied a particular medical record permitting the individual access to that record, the system manager shall notify the individual that access to the record cannot be granted without such consent, and he shall further inform the individual of the name and address of the physician or practitioner who supplied the record.

(2) If the physician or practitioner who supplied a particular medical record should need to examine the record in order to determine whether disclosure of the record might be harmful to the individual, the system manager shall inform the individual that the physician or practitioner has requested the record and shall furnish the record or a copy thereof to the physician or practitioner.

(3) If the physician or practitioner who supplied a particular medical record is unavailable to give his authorization for access to that record, the system manager shall inform the individual who requested access that the record may be made available to a physician named by the individual for the purpose of making a determination as to whether disclosure of the record to the individual might be harmful to the individual and as to whether access to the record should be denied for that reason.

(4) Notwithstanding the provisions of subparagraphs (1), (2), and (3) of this paragraph and of paragraph (d) of this section, if a determination made with respect to an individual's claim for benefits under the Railroad Retirement Act or the Railroad Unemployment Insurance Act is based in whole or in part on medical records, disclosure of or access to such medical records shall be granted to such individual when such records are requested for the purpose of

contesting such determination either administratively or judicially.

(5) The procedures for access to medical records set forth in this paragraph shall not apply with respect to requests for access to an individual's disability decision sheet or similar adjudicatory documents, access to which is governed solely by paragraph (d) of this section.

(f) *Request for amendment of a record.* (1) An individual may request that a record pertaining to himself be amended by submitting a written request for such amendment to the system manager as described in the annual notice published in the *FEDERAL REGISTER*. Requests under this subsection may be made either by mail or in person at the headquarters offices of the Railroad Retirement Board, 844 Rush Street, Chicago, Illinois 60611. Such a request should include a statement of the information in the record which the individual believes is incorrect, a statement of any information not in the record which the individual believes would correct the record, if included, and a statement of any evidence which substantiates the individual's belief concerning the inaccuracy of the information presently contained in the record.

(2) Prior to rendering a determination in response to a request under this subsection, the system manager shall require that the individual provide identifying data such as his name, date of birth, and social security number.

(3) The system manager responsible for the system of records which contains the challenged record shall acknowledge receipt of the request in writing within ten working days following the date on which the request for amendment was received in his office and shall promptly render a decision either granting or denying the request.

(i) If the system manager grants the individual's request to amend his record, the system manager shall amend the record accordingly, advise the individual in writing that the requested amendment has been made and where an accounting of disclosures has been made, advise all previous recipients of the record to whom disclosure of such record was made and accounted for of the fact that the amendment was made and the substance of the amendment.

(ii) If the system manager denies the individual's request to amend his record, the system manager shall inform the individual that the request has been denied in whole or in part, the reason for the denial and the procedure regarding the individual's right to appeal the denial to the Board.

(g) *Appeal of initial adverse determination on amendment.* (1) An individual, whose request for amendment of a record pertaining to him is denied, may appeal that determination to the Board by filing a written appeal with the Secretary of the Board, Railroad Retirement Board, 844 Rush Street, Chicago, Illinois 60611. The written notice of appeal should include a statement of the infor-

mation in the record which the individual believes is correct, a statement of any information not in the record which the individual believes would correct the record, if included, and a statement of any evidence which substantiates the individual's belief concerning the inaccuracy of the information presently contained in the record.

(2) The Board shall consider the appeal and render a final decision thereon within thirty working days following the date on which the appeal is received in the office of the Secretary of the Board. An extension of the thirty day response period is permitted for a good cause upon notification of such to the requester.

(3) If, upon consideration of the appeal, the Board upholds the denial, the appellant shall be so informed in writing. The appellant shall be advised that he may file a concise statement with the Board setting forth his reasons for disagreeing with the Board's decision and the procedures to be followed in filing such a statement of disagreement. The individual shall also be informed of his right to judicial review as provided under section 552a(g)(1)(A) of Title 5 of the United States Code. If disclosure has or will be made of a record containing information about which an individual has filed a statement of disagreement, that contested information will be annotated and a copy of the statement of disagreement will be provided to past and future recipients of the information along with which the Board may include a statement of its reasons for not amending the record in question.

(4) If, upon consideration of the appeal, the Board reverses the denial, the Board shall amend the record, advise the appellant in writing that such amendment has been made, and where an accounting of disclosures has been made, advise all previous recipients of the record to whom disclosure of such was made and accounted for, of the fact that the amendment was made and the substance of the amendment.

(h) *Disclosure of record to person other than the individual to whom it pertains.* (1) Records collected and maintained by the Railroad Retirement Board in the administration of the Railroad Retirement Act and the Railroad Unemployment Insurance Act which contain information of a personal or private nature shall not be disclosed to any person or to another agency without the express written consent of the individual to whom the record pertains. Such written consent shall not be required if the disclosure is not otherwise prohibited by law or regulation and is:

(i) To officers or employees of the Railroad Retirement Board who, in the performance of their official duties, have a need for the record;

(ii) Required under section 552 of Title 5 of the United States Code;

(iii) For a routine use of such record as published in the annual notice in the *FEDERAL REGISTER*;

(iv) To the Bureau of the Census for uses pursuant to the provisions of Title 13 of the United States Code;

(v) To a recipient who has provided the Board with advance written assurance that the record will be used solely as a statistical or research record, and the record is to be transferred in a form that is not individually identifiable;

(vi) To the National Archives of the United States as a record which has sufficient historical or other value to warrant its continued preservation by the United States Government or for evaluation by the Administrator of General Services or his designee to determine whether the record has such value;

(vii) To another agency or to an instrumentality of any governmental jurisdiction within or under the control of the United States for a civil or criminal law enforcement activity if the activity is authorized by law, and if the head of the agency or instrumentality has made a written request to the agency which maintains the record specifying the particular portion desired and the law enforcement activity for which the record is sought;

(viii) To a person pursuant to a showing of compelling circumstances affecting the health or safety of an individual if, upon such disclosure, notification is transmitted to the last known address of such individual;

(ix) To either House of Congress, or to the extent of matter within its jurisdiction, any committee or subcommittee thereof, any joint committee of Congress or subcommittee of any such joint committee;

(x) To the Comptroller General, or any of his authorized representatives, in the course of the performance of the duties of the General Accounting Office; or

(xi) Pursuant to the order of a court of competent jurisdiction.

(2) The Railroad Retirement Board shall maintain an accounting of all disclosures of records made under paragraph (h)(1) of this section, except those made under paragraphs (h)(1)(i) and (ii) of this section. This accounting will include:

(i) Date of disclosure;

(ii) Specific subject matter of disclosure;

(iii) Purpose of disclosure; and

(iv) Name and address of the person or agency to whom the information has been released.

The Railroad Retirement Board shall maintain the accounting for five years or the life of the system of records, whichever is longer, and make such accounting, with the exception of disclosures made under paragraph (h)(1)(vii) of this section, available to the individual to whom the record pertains upon his request. If, subsequent to disclosure of a record for which disclosure an accounting has been made pursuant to this subsection, an amendment is made to that record or an individual has filed a statement of disagreement concerning that record, the person or agency to whom such disclosure was made shall be notified of the amendment or statement of disagreement.

(i) *Annual notice of systems of records.* The Railroad Retirement Board

V 4 1 1 9 8  
MAY 19 76  
UMI

shall publish in the FEDERAL REGISTER on an annual basis a listing of the various systems of records which it maintains by individual identifier. That notice shall provide the following for each system:

- (1) The name and location of the system;
  - (2) The categories of individuals on whom records are maintained in the system;
  - (3) The routine uses of the system;
  - (4) The methods of storage, disposal, retention, access controls and retrievability of the system;
  - (5) The title and business address of the individual who is responsible for the system;
  - (6) The procedure whereby an individual can be notified at his request whether or not the system contains a record pertaining to him;
  - (7) The procedure whereby the individual can be notified at his request how he can gain access to any record pertaining to him which is contained in the system;
  - (8) How the individual can contest the contents of such a record; and
  - (9) The categories of sources of records in the system.
- (j) *Collection of information and maintenance of records.* With respect to each system of records indexed by individual identifier which is maintained by the Railroad Retirement Board, the Railroad Retirement Board shall:
- (1) Maintain in each system only such information about an individual as is relevant and necessary in accomplishing the purposes for which the system is kept;
  - (2) To the greatest extent practicable, collect information directly from the individual when that information may result in an adverse determination about such individual's rights, benefits or privileges under programs administered by the Railroad Retirement Board;
  - (3) Inform each individual who is asked to supply information:
- (i) The authority under which the solicitation of such information is carried out;
  - (ii) Whether disclosure of the requested information is mandatory or voluntary and any penalties for failure to furnish such information;
  - (iii) The principal purposes for which the information will be used;
  - (iv) The routine uses and transfers of such information; and
  - (v) The possible effects on such individual if he fails to provide the requested information.
- (4) Maintain all records which are used by the Railroad Retirement Board in making any determination about any individual with such accuracy, relevance, timeliness and completeness as is reasonably necessary to assure fairness to the individual in the determination;
  - (5) Prior to disseminating any record about an individual to any person other than an agency, unless the dissemination is made pursuant to paragraph (h) (1) (i) of this section, make reasonable ef-

orts to assure that such records are accurate, complete, timely and relevant for purposes of the administration of the Railroad Retirement Act and the Railroad Unemployment Insurance Act;

(6) Maintain no record describing how any individual exercises rights guaranteed by the First Amendment unless expressly authorized by statute or by the individual to whom the record pertains or unless pertinent to and within the scope of an authorized law enforcement activity;

(7) Make reasonable efforts to serve notice on an individual when any record on such individual is made available to any person under compulsory legal process when such process becomes a matter of public record; and

(8) At least thirty days prior to publication of information under paragraph (i) of this section, publish in the FEDERAL REGISTER notice of any new use or intended use of the information in the system and provide an opportunity for interested persons to submit written data, views or arguments to the Railroad Retirement Board.

(k) *Fees.* The Railroad Retirement Board may assess a fee for copies of any records furnished to an individual under paragraph (d) of this section. The fees for copies shall be \$10 per copy per page, not to exceed the actual cost of reproduction, and should be paid to the Director of Budget and Fiscal Operations for deposit to the Railroad Retirement Account. If payment is made by check, the check should be payable to the order of the Railroad Retirement Board. Any fee of less than \$10 may be waived by the system manager if he determines that it is in the public interest to do so.

(l) *Government contractors.* When the Railroad Retirement Board provides by a contract or by a subcontract subject to its approval for the operation by or on behalf of the Railroad Retirement Board of a system of records to accomplish an agency function, the Railroad Retirement Board shall, consistent with its authority, cause the requirements of § 552a of Title 5 of the United States Code to be applied to such system. In each such contract or subcontract for the operation of a system of records, entered into on or after September 27, 1975, the Railroad Retirement Board shall cause to be included a provision stating that the contractors or subcontractors and their employees shall be considered employees of the Railroad Retirement Board for purposes of the civil and criminal penalties provided in sections (g) and (i) of the Privacy Act of 1974 (5 U.S.C. 552a (g) and (i)).

(m) *Mailing lists.* The Railroad Retirement Board shall neither sell nor rent information containing any individual's name or address, unless authorized by statute.

(n) *Disclosure of social security account numbers.* Whenever an individual is requested by the Railroad Retirement Board to disclose his social-security account number he shall be informed as to whether such disclosure is mandatory or

voluntary. If disclosure of the individual's social security account number is mandatory, he shall be informed of the statutory authority requiring such disclosure.

(5 U.S.C. 552a)

Effective date: May 19, 1976.

By Authority of the Board.

Dated: May 12, 1976.

[SEAL] R. F. BUTLER,  
Secretary of the Board.

#### Title 40—Protection of Environment

#### CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

##### SUBCHAPTER N—EFFLUENT LIMITATIONS, GUIDELINES AND STANDARDS

[FRL 545-5]

#### PART 418—FERTILIZER MANUFACTURING POINT SOURCE CATEGORY

##### Subpart A—Phosphate Subcategory

##### ALLOWANCES FOR CERTAIN DISCHARGES

Notice is hereby given that the Environmental Protection Agency is amending 40 CFR 418, Fertilizer Manufacturing Point Source Category, Subpart A—Phosphate Subcategory, §§ 418.11, 418.12, 418.13 and 418.15.

40 CFR 418 was promulgated on April 8, 1974 (39 FR 12832) pursuant to sections 301, 304(b) and (c), 306 (b) and (c) and 307(c) of the Federal Water Pollution Control Act as amended, 33 U.S.C. 1251, 1311, 1314 (b) and (c), 1316(b), and 1317(c); 86 Stat. 816 et seq.; Pub. L. 92-500.

On August 6, 1975 notice was published in the FEDERAL REGISTER (40 FR 33052), that the Environmental Protection Agency was proposing to amend 40 CFR Part 418, Fertilizer Manufacturing Point Source Category, Subpart A—Phosphate Subcategory, §§ 418.11, 418.12, 418.13 and 418.15.

Interested persons were invited to participate in the rulemaking by submitting written comments on the proposed amendment within 30 days of the date of publication.

The following responded to the request for written comment: Florida Department of Environmental Regulation, Mississippi Chemical Corporation and Stauffer Chemical Company. Each of the com-

ments received was carefully reviewed and analyzed.

The following is a summary of the significant comments and the Agency's response to these comments:

(1) One commenter objected to the inclusion of leaks and spills under the definition of contaminated non-process wastewater because it would discourage any incentive for good housekeeping and preventative maintenance within the plant.

Accidental spills and accidental leaks have been included in the definition of contaminated non-process wastewater but with specific limitations on maximum discharges and requirements for prompt repair and control.

(2) One commenter objected to the concentration limits for contaminated non-process wastewater because they are too lenient.

No data is available to the Agency to provide a basis for more stringent limitations for contaminated non-process wastewater.

(3) One commenter recommended that the pH range of process wastewater be 8.5 to 9.0 instead of 6.0 to 9.0.

The pH range has been set at 6.0 to 9.5 based on the performance of double lime treatment of process wastewater. Limitations on phosphorus and fluoride are set at a level where a pH in the higher part of the range will generally be required.

(4) One commenter objects to prescribing operating conditions in addition to effluent limitations.

Operating conditions are not prescribed. The regulation provides for no discharge of process wastewater. Under the conditions described in the regulation, exceptions to the no discharge requirement are made.

(5) One commenter proposes that a provision be added that process water may be discharged untreated by overflow when chronic or catastrophic precipitation events cause the water level to exceed the surge capacity.

Process wastewater pollutants from a calcium sulfate storage pile runoff facility operated separately or in combination with a water recirculation system designed, constructed and operated to maintain a surge capacity equal to the runoff from the 10-year, 24-hour rainfall event may be discharged, after treatment to the standards established, whenever chronic or catastrophic precipitation events cause the water level to rise into the surge capacity. Process wastewater must be treated and discharged whenever the water level equals or exceeds the mid point of the surge capacity. In the unlikely event that despite adherence to the requirements of the regulation, rainfall runoff quantity is so great as to exceed this surge capacity, the bypass provision in the standard permit may apply. The standard permit language for the bypass provision is as follows:

"The diversion or bypass of any discharge from facilities utilized by the permittee to maintain compliance with

the terms and conditions of this permit is prohibited, except (i) where unavoidable to prevent loss of life or severe property damage, or (ii) where excessive storm drainage or runoff would damage any facilities necessary for compliance with the terms and conditions of this permit. The permittee shall immediately notify the permit issuing authority in writing of each such diversion or bypass in accordance with the procedure specified above for reporting noncompliance."

In addition to the above comments, phosphate fertilizer manufacturers have contended that the fluoride, phosphate and suspended solids limitations in the proposed amendment are unachievable. In response to this contention, EPA has obtained results from a program of sampling and testing of process wastewater from phosphate manufacturing facilities. Wastewater samples from nine facilities were made available to EPA and removal of fluoride and phosphate was evaluated by appropriate laboratory techniques. From the results of this study, the fluoride and suspended solids limitations have been revised. In addition, the ratio of daily maximum values to 30 day average values has been altered for phosphate, fluoride and suspended solids.

As a result of public comments, the effluent treatability study and continuing review and evaluation of the proposed amendment, the following changes have been made in the amendment:

(1) The maximum for any one day is increased to three times the average values for 30 consecutive days.

(2) The fluoride limitations for the average value for 30 consecutive days was increased to 25 mg/l.

(3) The TSS limitations were revised and a provision for relief from the limitations under conditions where chemically treated effluent is settled to meet the other pollutant limitations was added.

(4) The upper pH limitation was increased to 9.5.

The technology to achieve the limitations in this amendment is the same as in the original regulations and is described in the manual entitled "Development Document for Effluent Limitations Guidelines and New Source Performance Standards for the Basic Fertilizer Chemicals Segment of the Fertilizer Manufacturing Point Source Category" available from the Government Printing Office, Washington, D.C. 20402, for a nominal fee. Information and data collected have led to changes which have made the limitations less stringent. Therefore, the economic impact, energy consequences and non-water quality aspects are less severe than in the original regulations. A summary of these findings may be found in the preamble to the original regulations, 39 FR 12832 (April 8, 1974).

A summary of findings, the data collected and the information received will be available for inspection and copying at the EPA Public Information Reference Unit, Room 2922 (EPA Library), Waterside Mall, 401 M Street, SW., Washington, D.C. 20460.

ton, D.C. The DEA information regulation provides that a reasonable fee may be charged for copying.

In consideration of the foregoing, 40 CFR Chapter I, Subchapter N, Part 418, Fertilizer Manufacturing Point Source Category, Subpart A—Phosphate Subcategory, is amended to read as set forth below. The final regulation is promulgated as set forth below and shall be effective June 18, 1976.

Dated: May 12, 1976.

RUSSELL E. TRAIN,  
Administrator.

Subpart A is amended as follows:

1. In § 418.11, paragraph (b) is revised and (c), (d), (e) and (f) are added to read as follows:

§ 418.11 Specialized definitions.

(b) The term "process wastewater" means any water which, during manufacturing or processing, comes into direct contact with or results from the production or use of any raw material, intermediate product, finished product, by-product, or waste product. The term "process wastewater" does not include contaminated non-process wastewater, as defined below.

(c) The term, "contaminated non-process wastewater" shall mean any water including precipitation runoff which, during manufacturing or processing, comes into incidental contact with any raw material, intermediate product, finished product, by-product or waste product by means of: (1) precipitation runoff; (2) accidental spills; (3) accidental leaks caused by the failure of process equipment and which are repaired or the discharge of pollutants therefrom contained or terminated within the shortest reasonable time which shall not exceed 24 hours after discovery or when discovery should reasonably have been made, whichever is earliest; and (4) discharges from safety showers and related personal safety equipment, and from equipment washings for the purpose of safe entry, inspection and maintenance; provided that all reasonable measures have been taken to prevent, reduce, eliminate and control to the maximum extent feasible such contact and provided further that all reasonable measures have been taken that will mitigate the effects of such contact once it has occurred.

(d) The term "ten year 24 hour rainfall event" shall mean the maximum 24 hour precipitation event with a probable recurrence interval of once in 10 years as defined by the National Weather Service in technical paper No. 40, "Rainfall Frequency Atlas of the United States", May, 1961, and subsequent amendments in effect as of the effective date of this regulation.

(e) The term "25 year 24 hour rainfall event" shall mean the maximum 24 hour precipitation event with a probable recurrence interval of once in 25 years as

defined by the National Weather Service in technical paper No. 40, "Rainfall Frequency Atlas of the United States", May, 1961, and subsequent amendments in effect as of the effective date of this regulation.

(f) The term "calcium sulfate storage pile runoff" shall mean the calcium sulfate transport water runoff from or through the calcium sulfate pile, and the precipitation which falls directly on the storage pile and which may be collected in a seepage ditch at the base of the outer slopes of the storage pile, provided such seepage ditch is protected from the incursion of surface runoff from areas outside of the outer perimeter of the seepage ditch.

2. In § 418.12, paragraphs (a), (b), (c) and (d) are revised to read as follows:

§ 418.12 Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

(a) Subject to the provision of paragraphs (b) and (c) of this section, the following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available: there shall be no discharge of process wastewater pollutants to navigable waters.

(b) Process wastewater pollutants from a calcium sulfate storage pile runoff facility operated separately or in combination with a water recirculation system designed, constructed and operated to maintain a surge capacity equal to the runoff from the 10-year, 24-hour rainfall event may be discharged, after treatment to the standards set forth in paragraph (c) below, whenever chronic or catastrophic precipitation events cause the water level to rise into the surge capacity. Process wastewater must be treated and discharged whenever the water level equals or exceeds the mid point of the surge capacity.

(c) The concentration of pollutants discharged in process wastewater pursuant to the limitations of paragraph (b) shall not exceed the values listed in the following table:

Effluent characteristic	Effluent limitations (mg/l)	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
Total phosphorus (as P)	105	35
Fluoride	75	25
TSS	150	50
pH	Within the range 6.0 to 9.5	

The total suspended solid limitation set forth in this paragraph shall be waived for process wastewater from a calcium

sulfate storage pile runoff facility, operated separately or in combination with a water recirculation system, which is chemically treated and then clarified or settled to meet the other pollutant limitations set forth in this paragraph.

(d) The concentration of pollutants discharged in contaminated non-process wastewater shall not exceed the values listed in the following table:

Effluent characteristic	Effluent limitations (mg/l)	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
Total phosphorus (as P)	105	35
Fluoride	75	25
pH	Within the range 6.0 to 9.5	

3. In § 418.13, paragraphs (a) and (b) are revised and (c) and (d) added to read as follows:

§ 418.13 Effluent limitations and guidelines representing the degree of effluent reduction attained by the application of the best available technology economically achievable.

(a) Subject to the provision of paragraphs (b) and (c) of this section, the following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable: there shall be no discharge of process wastewater pollutants to navigable waters.

(b) Process wastewater pollutants from a calcium sulfate storage pile runoff facility operated separately or in combination with a water recirculation system designed, constructed and operated to maintain a surge capacity equal to the runoff from the 25-year, 24-hour rainfall event may be discharged, after treatment to the standards set forth in paragraph (c) of this section, whenever chronic or catastrophic precipitation events cause the water level to rise into the surge capacity. Process wastewater must be treated and discharged whenever the water level equals or exceeds the midpoint of the surge capacity.

(c) The concentration of pollutants discharged in process wastewater pursuant to the limitations of paragraph (b) of this section shall not exceed the values listed in the following table:

Effluent characteristic	Effluent limitations (mg/l)	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
Total phosphorus (as P)	105	35
Fluoride	75	25
TSS	150	50
pH	Within the range 6.0 to 9.5	

The total suspended solid limitations set forth in this paragraph shall be waived for process wastewater from a calcium sulfate storage pile runoff facility, operated separately or in combination with a water recirculation system, which is chemically treated and then clarified or settled to meet the other pollutant limitations set forth in this paragraph.

(d) The concentration of pollutants discharged in contaminated non-process wastewater shall not exceed the values listed in the following table:

Effluent characteristic	Effluent limitations (mg/l)	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
Total phosphorus (as P)	105	35
Fluoride	75	25
pH	Within the range 6.0 to 9.5	

4. In § 418.15, paragraphs (a) and (b) are revised and (c) and (d) are added to read as follows:

§ 418.15 Standards of performance for new sources.

(a) Subject to the provision of paragraphs (b) and (c) of this section, the following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available demonstrated control technology: there shall be no discharge of process wastewater pollutants to navigable waters.

(b) Process wastewater pollutants from a calcium sulfate storage pile runoff facility operated separately or in combination with a water recirculation system designed, constructed and operated to maintain a surge capacity equal to the runoff from the 25-year, 24-hour rainfall event may be discharged, after treatment to the standards set forth in paragraph (c) below, whenever chronic or catastrophic precipitation events cause the water level to rise into the surge capacity. Process wastewater must be treated and discharged whenever the water level equals or exceeds the midpoint of the surge capacity.

(c) The concentration of pollutants discharged in process wastewater pursuant to the limitations of paragraph (b) shall not exceed the values listed in the following table:

Effluent characteristic	Effluent limitations (mg/l)	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
Total phosphorus (as P)	105	35
Fluoride	75	25
TSS	150	50
pH	Within the range 6.0 to 9.5	

The total suspended solid limitation set forth in this paragraph shall be waived for process wastewater from a calcium sulfate storage pile runoff facility, operated separately or in combination with a water recirculation system, which is chemically treated and then clarified or settled to meet the other pollutant limitations set forth in this paragraph.

(d) The concentration of pollutants discharged in contaminated non-process wastewater shall not exceed the values listed in the following table:

Effluent characteristic	Effluent limitations (mg/l)	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
Total phosphorus (as P)	105	35
Fluoride	75	25
pH	Within the range 6.0 to 9.5

#### CHAPTER II—SOCIAL AND REHABILITATION SERVICE (ASSISTANCE PROGRAMS), DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

#### PART 228—SOCIAL SERVICES PROGRAMS FOR INDIVIDUALS AND FAMILIES: TITLE XX OF THE SOCIAL SECURITY ACT

##### Individual Recipient Basic Data File; Revocation

Notice is given by the Acting Administrator of the Social and Rehabilitation Service with the approval of the Secretary of Health, Education, and Welfare, that 45 CFR 228.63, Individual Recipient Basic Data File, is revoked.

In the regulations published on June 27, 1975 in the FEDERAL REGISTER, § 228.63 required, as a condition for Federal financial participation (FFP), that State agencies administering title XX services programs had to assemble and maintain certain data on every individual receiving social services under title XX. When it became obvious that some States could not readily establish such a file while coping with all the other start-up problems of a new program, § 228.63 was amended on October 3, 1975 to give States until May 15, 1976 to establish the file.

The basis for now revoking § 228.63 is to eliminate the May 15, 1976 deadline for establishment of the file.

The purpose is for the Department to avoid denying FFP to States which cannot meet the May 15 deadline. In addition to this revocation, the Department is reviewing the requirement for the basic data file, including the unique identifier. Because of significant issues and strong views which have been raised, the Department will issue a Notice of Intent which will address the pro and con of a State basic data file. Broad public comment will be solicited, after which a decision will be made whether to rein-

state the requirement for a file as a compliance rather than a Federal financial participation issue, or whether the matter should be left up to the States.

The Department finds that there is good cause to dispense with proposed rule making procedures because of the immediacy of the May 15, 1976 deadline for phase-in of the file. Unless the regulation is revoked by that date, some States will be financially penalized. Because title XX is a new program, still in its first year of operation, the Department wishes to provide relief where possible while the State agencies endeavor to overcome their start-up problems.

#### § 228.63 [Reserved]

Accordingly, § 228.63 is revoked and the section vacated.

(Sec. 1102, 49 Stat. 647 (42 U.S.C. 1302).)

**Effective date:** This revocation is effective upon publication (May 19, 1976) or on May 15, 1976, whichever is earlier.

(Catalog of Federal Domestic Assistance Program No. 13.754, Public Assistance—Social Services.)

It is hereby certified that the economic and inflationary effects of this regulation have been carefully evaluated in accordance with Executive Order No. 11821.

Dated: May 13, 1976.

DON WORTMAN,  
Acting Administrator, Social  
and Rehabilitation Service.

Approved: May 14, 1976.

MARJORIE LYNCH,  
Acting Secretary.

#### Title 46—Shipping

#### CHAPTER IV—FEDERAL MARITIME COMMISSION

##### SUBCHAPTER A—GENERAL PROVISIONS

[General Order 16, Amdt. 14,  
Docket No. 75-36]

#### PART 502—RULES OF PRACTICE AND PROCEDURE

##### Miscellaneous Amendments

This proceeding was instituted by notice of proposed rulemaking published in the FEDERAL REGISTER of September 24, 1975 (40 F.R. 43925). The purpose of the proceeding was to amend various sections of the Commission's rules of practice, primarily to expedite the conduct of formal proceedings.

Comments were submitted by F. Conger Fawcett of the law firm of Graham and James (Fawcett); L. A. Parish, a practitioner (Parish); Matson Navigation Company (Matson); Maritime Administrative Bar Association (MABA); Martin A. Herksher of the law firm of Duane, Morris and Hecksher (Hecksher); and the Commission's Bureau of Hearing Counsel (Hearing Counsel). We

<sup>1</sup> For further explanation of the purpose of the proposed amendments, see notice of proposed rulemaking, cited above.

have considered these comments carefully and herewith publish final rules. A section-by-section discussions of the rules and comments thereon follows.

1. Section 502.21 was proposed to be amended to provide for special appearances; to require attendance by counsel at all hearings and prehearing conferences; and to specify sanctions for failure to abide by these rules.

MABA considers the proposal inappropriate on the ground that attendance is a matter for counsel's judgment, subject to proper notice to the presiding officer. MABA further believes that special appearances are covered by the rules on intervention. Fawcett agrees, believing further that the sanctions are too harsh. Hearing Counsel point out that required attendance could lead to unnecessary expense.

We are satisfied that standards of attendance can be left to and established by the presiding officer. Accordingly, we are withdrawing so much of the proposal that relates to attendance and sanctions for failure to abide by the rules. For clarity, however, the provision for special appearances will be retained.

2. Sections 502.64, 502.71 and 502.73 were proposed to be amended by providing that filing of motions to dismiss or for bills of particulars will not stay the time for filing answer to complaint, thus eliminating an element of delay.

MABA and Fawcett suggest that, rather than following this proposal, we adopt appropriate provisions of Rule 12 of the Federal Rules of Civil Procedure. While we are still concerned with motions which appear to be made for the purpose of delay, the comments are well-taken. Accordingly, the involved sections will be modified to incorporate the time provisions of Rule 12.

3. Section 502.67 was proposed to be amended, in general, to provide for a specially expedited procedure applicable to domestic offshore rate proceedings where suspension of rates is involved.

While generally supporting the concept of the proposal, the commentators point out this is a substantive and not a procedural change and should be made the subject of a separate proceeding.

We are persuaded that the proposal should be withdrawn and a revised version will be noticed in a separate proceeding.

4. Sections 502.69 and 502.73 were proposed to be amended to clarify the procedure for treating petitions by specifying that section 502.69 does not apply to docketed proceedings and that petitions in docketed proceedings will be governed by section 502.73.

MABA and Hearing Counsel do not object to the proposal and suggest minor changes in wording.

The purpose of the proposal was to eliminate confusion in the treatment of petitions. We are satisfied that the rule, as proposed, does this and are adopting it as a final rule.

5. (a) New section 502.95 was proposed to encourage stipulations among parties to proceedings.

MABA, Parish and Hearing Counsel question the need for the proposal, citing other sections of the rules such as section 502.94.

In light of the comments received, we are of the opinion that the current rules are adequate with respect to stipulations. In withdrawing the proposal, however, we wish to stress that all parties to proceedings should, to the utmost extent possible, stipulate or admit noncontroversial matters. This, in itself would contribute significantly to expediting the hearing process.

(b) New section 502.96 was proposed to provide for the submission of prehearing statements by the parties setting forth issues, facts, witnesses, exhibits and like matters.

MABA and Fawcett question the proposal on the ground that it merely increases paperwork. Parish objects to furnishing witness and exhibit lists prior to hearing. Hearing Counsel, while supporting the concept, object to its binding effect.

We remain of the opinion that prehearing statements will contribute materially to reduce the scope of proceedings and consequent delay. Accordingly, we will adopt the proposal. We are, however, following Hearing Counsel's suggestion and permitting deviation from the prehearing statement upon a showing of good cause therefor to the presiding officer.

6. Section 502.105 was proposed to be amended to require that requests for enlargement of time on motions to postpone or cancel hearings or prehearing conferences be made at least five days prior to the appropriate date.

MABA and Hearing Counsel suggest that a "good cause" criterion be inserted in the rule.

We accept the suggestion of the commentators and the final rule will provide an exception for good cause.

7. Section 502.14 was proposed to be amended by providing that date of filing shall be the date a document is lodged with the Secretary or the date a party certified it to be deposited in the mail.

MABA takes issue with the proposal on a variety of grounds and suggests adoption of Rule 6(e) of the Federal Rules of Civil Procedure. Hearing Counsel wants it made clear that the rule does not apply to protests submitted pursuant to § 502.67. Hecksher supports the proposal.

We are satisfied that, of the myriad alternatives available, this proposal is the fairest. The final rule will be amended, however, to specify that it does not apply to complaints filed pursuant to section 22 of the Shipping Act, 1916, or to protests filed pursuant to section 3 of the Intercoastal Shipping Act, 1933. The filing of complaints is governed by statute and, to some extent, by Commission policy. With respect to filing of protests, the instant proposal would not be practicable

\* Sections 502.91, 502.94, 502.157, 502.162, and 502.208(a) (3).

given to severe time restrictions attendant to filing of rates in the domestic off-shore trades. In addition, we are revising the certificate of service set out in § 502.117.

8. Sections 501.118 and 502.201 were proposed to be amended to reduce the number of copies of discovery materials and letters to be provided to the Commission.

All commentators agreed with the purpose of the rule. MABA and Hearing Counsel go further and question whether discovery materials should be filed at all since they are not yet evidence; Fawcett suggests a different procedure for letters.

We are retaining the filing requirement to establish the fact of service. Nevertheless, to allay any fears that non-evidentiary material will find its way into the record, we are striking language in the proposed rule that such materials are for the "use" of the presiding officer or the Commission. As to letters, we believe the rule, as proposed, is most compatible with the Commission's internal procedures. As custodian of the official record, the Secretary should receive the original of any document in the first instance.

9. (a) Section 502.153 was proposed to be amended to distinguish interlocutory appeals from final appeals, to condense leave to appeal and the appeal into one pleading, and to specify that a proceeding need not be stayed pending Commission consideration of the appeal.

No party opposes the proposal but MABA suggests that it allow for oral rulings.

We have accepted MABA's suggestion and provision for oral rulings will be made in the final rule.

(b) The title of § 502.227 will be amended to reflect more accurately its content.

(c) Section 502.227 was proposed to be amended further to provide for appeals from a grant by the presiding officer of a dismissal of a proceeding in whole or in part.

MABA would limit the proposal to dismissal of a proceeding in whole, i.e., a dismissal in part would not grant an automatic leave to appeal. Fawcett suggests that the time for filing appeal be extended to 30 days, "equivalently to that actually now afforded to the filing of exceptions to initial decisions . . ." Hearing Counsel would permit a right of appeal if a petition for leave to intervene is denied or if a grant of intervention is withdrawn.

We cannot accept MABA's position on this proposal; a dismissal in part could be just as crucial to a party's case as a dismissal of the entire proceeding. Fawcett's suggestion is based on an erroneous assumption; current Commission rules only provide for 15 days for the filing of exceptions. Hearing Counsel's suggestion has merit and the final rule will include language to that effect.

(d) Section 502.231 was proposed to be amended to provide that a petition for reconsideration shall not act as a stay

of a proceeding before the presiding officer.

No comment was made to this proposal and it will be incorporated in the final rules.

10. Section 502.156 was proposed to be amended to make the new Federal Rules of Evidence (P.L. 93-595) applicable to Commission proceedings unless inconsistent with the Administrative Procedure Act (APA).

MABA would abolish the present rule and adopt the Federal rules except to the extent they are inconsistent with the APA. Parish states that the Federal Rules are too strict and contrary to the APA. Hearing Counsel are concerned that the Federal Rules not conflict with the Commission's rules as well as the APA.

We are unmoved by the arguments against this proposal. As stated in the notice of proposed rulemaking, the Federal Rules can be of great assistance in resolving evidentiary problems in administrative proceedings. We are, however, further amending the rule to indicate that the Federal Rules will not apply where in conflict with the Commission's own rules.

11. Section 502.162 was proposed to be amended to encourage stipulation during hearings as well as prior to their commencement and to clarify the use of stipulations in the event that one or more parties refuse to enter into them.

MABA and Parish present many of the same arguments which have been made to proposal 5, above. Hearing Counsel want the rule to make clear that the rights of cross-examination and rebuttal of nonsubscribing parties to stipulations are preserved.

We are discarding as unnecessary the language with respect to stipulation at hearing. This, however, should not be construed to mean that the Commission does not encourage such stipulations or admissions. Consistent with our action concerning the proposed new § 502.95 (see 5, above), we likewise are withdrawing the instant proposal. The final rule will also incorporate the suggestion of Hearing Counsel as to rights of nonsubscribing parties to cross-examination and rebuttal.

12. Section 502.166 was proposed to be amended to permit the filing of motions for corrections of transcript within 20 days after service thereof and to delete the current requirement for certification by a party as to the date of receipt.

MABA suggests the 20 days commence after last day of hearing in cases of multi-volume transcripts. Fawcett points out that provision must be made for "service" of the transcript or the time period is meaningless.

Both comments are well taken. Accordingly, we are amending the proposal to indicate that the time period shall commence after the last day of hearing or any session thereof. We are increasing the time period to 25 days in recognition of difficulties currently associated with the postal system.

13. Section 502.201(b) (2) was proposed to be amended to authorize the

presiding officer to order commencement of hearing prior to completion of discovery and inspection procedures.

MABA objects on the ground that the rule is unnecessary in that the presiding officer has the power to set time limits already. MABA also asserts that the proposal has the potential for prejudice to parties.

In the notice of proposed rulemaking instituting this proceeding, we noted that there have been instances in proceedings before the Commission where discovery procedures have been engaged in to an excessive degree causing delay. We remain of that view and are of the opinion that the proposed amendment should be made final.

14. Section 502.210(b) (2) was proposed to be amended to make clear that the presiding officer may draw adverse inferences in case of refusal to answer discovery requests pursuant to order.

Again, MABA contends the rule is unnecessary.

We are of the opinion that this specific provision should be contained in the rules and it will be published as final. MABA properly points out that the proposal refers to "person" which is inappropriate in this context; the term will be deleted in the final rule.

15. Sections 510.210(a) and 502.211(a) were proposed to be amended to require that motions to compel answers to discovery requests and responses thereto be more self-explanatory.

No objections were raised to this proposal and we are adopting it as a final rule.

16. Section 502.221 was proposed to be amended to prescribe the form and length of briefs to the presiding officer.

MABA and Fawcett oppose the page limitations. Fawcett also submits that the order of contents set forth in the proposal be rearranged.

With respect to the contents of the briefs, we do not require that they appear in the exact order in which they appear in the proposal but only that they be included. As to the 50-page limitation on briefs, we are amending the proposal to place the limitation on length of briefs in the discretion of the presiding officer.

17. Section 502.262 was proposed to be revised to permit replies to petitions for reconsideration.

MABA supports the proposal while Hearing Counsel are opposed.

In the notice of proposed rulemaking, it was pointed out that the experience of the Commission under the present rule which does not permit reply has led to confusion and delay. We remain of the opinion that permitting replies is the more practical and expeditious manner with which to process petitions for reconsideration. Accordingly, the proposed rule will be adopted as final.

18. Section 502.223 will be amended to insert the phrase "Administrative Law Judges" for the obsolete phrase "examiners of the Office of Hearing Examiners." Similarly, § 502.42 is amended to insert

"Bureau of Hearing Counsel" in lieu of "Office of Hearing Counsel."

Therefore, pursuant to section 4 of the Administrative Procedure Act (5 U.S.C. 553) and sections 27 and 43 of the Shipping Act, 1916 (46 U.S.C. 826, 841(a)), Part 502 of Title 46, Code of Federal Regulations is amended as set forth herein-after.

1. Section 502.21 is amended by adding a new paragraph (c) as follows:

§ 502.21 Appearances.

(c) *Special Requirement.* An appearance may be either general, that is, without reservation, or it may be special, that is, confined to a particular issue or question. If a person desires to appear specially, he must expressly so state when he enters his appearance and at that time he shall also state the questions or issues to which he is confining his appearance; otherwise, his appearance will be considered as general.

§ 502.12 [Amended]

2. Section 502.42 is amended by deleting the word "Office" in the first sentence and substituting the word "Bureau" therefor.

§ 502.64 [Amended]

3. (a) Section 502.64 is amended by deleting the words "twenty (20) days after service of an order denying such motion" in the first sentence and substituting "ten (10) days after service of an order denying such motion."

4. Section 502.69 is amended by adding the following language at the beginning of the rule:

§ 502.69 Petitions—general.

Except when submitted in connection with a formal proceeding, . . .

§ 502.71 [Amended]

5. Section 502.71 is amended by deleting the words "twenty (20) days" in the penultimate sentence and substituting "ten (10) days."

6. Section 502.73 is amended by deleting the first three sentences and substituting the following language therefor:

§ 502.73 Motions.

In any docketed proceeding, an application or request for an order or ruling not otherwise specifically provided for in the rules in this part shall be by motion. After the assignment of a presiding officer to a proceeding and before the issuance of his recommended or initial decision, all motions shall be addressed to and ruled upon by the presiding officer unless the subject matter of the motion is beyond his authority, in which event he shall refer the matter to the Commission. If the proceeding is not before him, motions shall be addressed to and passed upon by the Commission.

7. A new section 502.95 is added as follows:

§ 502.95 Prehearing statements.

(a) Unless waiver is granted by the presiding officer, it shall be the duty of all parties to a proceeding to prepare a prehearing statement or statements at a time and in the manner to be established by the presiding officer provided that there has been reasonable opportunity for discovery. To the extent possible, joint statements should be prepared.

(b) A prehearing statement shall state the name of the party or parties on whose behalf it is presented and briefly set forth the following matters, unless otherwise ordered by the presiding officer:

(1) Issues involved in the proceeding.  
(2) Facts stipulated pursuant to the procedures together with a statement that the party or parties have communicated or conferred in a good faith effort to reach stipulation to the fullest extent possible.

(3) Facts in dispute.

(4) Witnesses and exhibits by which disputed facts will be litigated.

(5) A brief statement of applicable law.

(6) The conclusion to be drawn.

(7) Suggested time and location of hearing and estimated time required for presentation of the party's or parties' case.

(8) Any appropriate comments, suggestions or information which might assist the parties in preparing for the hearing or otherwise aid in the disposition of the proceeding.

(c) The presiding officer may for good cause shown, permit a party to introduce facts or argue points of law outside the scope of the facts and law outlined in the prehearing statement. Failure to file a prehearing statement, unless waiver has been granted by the presiding officer, may result in dismissal of a party from the proceeding, dismissal of a complaint, judgement against respondents, or imposition of such other sanctions as may be appropriate under the circumstances.

(d) Following the submission of prehearing statements the presiding officer may, upon motion or otherwise, convene a prehearing conference for the purpose of further narrowing issues and limiting the scope of the hearing if, in his opinion, the prehearing statements indicate lack of dispute of material fact not previously acknowledged by the parties or lack of legitimate need for cross-examination and is authorized to issue appropriate orders consistent with the purpose stated in this section.

8. Section 502.105 is amended by adding the following two sentences:

§ 502.105 Waiver of rules governing enlargements of time and postponements of hearings.

. . . Requests for enlargement of time or motions to postpone or cancel a prehearing conference or hearing must be received, whether orally or in writing, at least five (5) days before the scheduled date. Except for good cause shown failure to meet this requirement may

result in summary rejection of the request.

9. Section 502.114 is amended by terminating the last sentence of the rule after the word "prepaid" and adding the following sentence:

§ 502.114 Service by parties.

• • • Except with respect to filing of complaints pursuant to section 502.62 and protests pursuant to section 502.67, the date of filing shall be either the date on which the pleading, document, or paper is physically lodged with the Secretary by a party or the date which a party certifies it to be deposited in the mail.

10. Section 502.117 is amended by revising the body of the certificate of service set out therein to read as follows:

§ 502.117 Certificate of service.

I hereby certify that I have this day served the foregoing document upon all parties of record in this proceeding by mailing (or by delivering in person) a copy to each such person.

11. Section 502.118 is amended by designating the present rule as paragraph (a) and adding a new paragraph (b) as follows:

§ 502.118 Copies of documents for use of the Commission.

(a) • • •

(b) In the case of documents filed, served, or exchanged in connection with discovery procedures set forth in Subpart L, except for motions filed pursuant to § 502.210 or § 502.211, the original shall be filed with the Secretary, and copies shall be served upon the parties as provided by the procedures set forth in Subpart L. In the case of letters or other written communications to the presiding officer, an original with two copies shall be filed with the Secretary for inclusion in the public docket and for the use of the presiding officer.

12. Section 502.153 is revised as follows:

§ 502.153 Appeal from ruling of presiding officer other than orders of dismissal in whole or in part.

Rulings of the presiding officer may not be appealed prior to, during the course of the hearing, or subsequent thereto if the proceeding is still before the presiding officer except where the presiding officer shall find it necessary to allow an appeal to the Commission to prevent substantial delay, expense, or detriment to the public interest, or undue prejudice to a party. Any party seeking to appeal must file a motion for leave to appeal no later than fifteen days after written service or oral notice of the ruling in question unless the presiding officer for good cause shown enlarges or shortens the time. Any such motion shall contain not only the grounds for leave to appeal but the appeal itself. If the motion is granted, the presiding officer shall certify the appeal to the Commission. Unless otherwise provided, the certification of the appeal shall not operate as a stay of the pro-

ceeding before the presiding officer. The provisions of § 502.10 [Rule 1(j)] shall not apply to this section. [Rule 10(m).]

13. Section 502.156 is amended by adding the following sentence:

§ 502.156 Evidence admissible.

• • • Unless inconsistent with the requirements of the Administrative Procedure Act and these Rules, the Federal Rules of Evidence, P.L. 93-595, effective July 1, 1975, will also be applicable.

14. Section 502.162 is amended by adding the following sentence at the end of the rule.

§ 502.162 Stipulations.

• • • A stipulation may be proposed even if not subscribed by all parties without prejudice to any nonsubscribing parties' right to cross-examine and offer rebuttal evidence.

15. Section 502.166 is amended by revising the second and third sentences to read as follows:

§ 502.166 Corrections of transcript.

• • • Motions made after the hearing to correct the record shall be filed with the presiding officer within twenty-five (25) days after the last day of hearing or any session thereof, unless otherwise directed by the presiding officer, and shall be served on all parties. Such motions may be in the form of a letter. • • •

16. Section 502.201 (a) and (b) are amended as follows:

§ 502.201 General.

(a) • • • and, except in the case of motions filed pursuant to § 502.210 or § 502.211, are not governed by the requirements of § 502.118 regarding the furnishing of fifteen (15) copies for the use of the Commission.

(b) • • •

(2) • • • Nothing herein shall be construed to preclude the presiding officer from ordering a hearing to commence before the completion of discovery and inspection procedures conducted pursuant to Subpart L.

17. Section 502.210 (a) and (b) are amended as follows:

§ 502.210 Refusal to make discovery: consequences.

(a) • • • Application for any order made pursuant to this section shall also set forth the text of the information as originally requested, the text of the response thereto, and the reason(s) why such response is deemed inadequate. Replies to such application shall specifically set forth the reason(s) why such response is deemed to be in full compliance with the request. Failure of either party to comply with this rule may result in summary denial or granting of the application.

17. Section 502.210(b) (2) is amended by adding the following language:

(b) • • •

(2) • • • or an order that with respect to matters regarding which the

order was made or any other designated fact, inferences will be drawn adverse to the person or party refusing to obey such order made under paragraph (a) of this section;

18. Section 502.211(a) is amended by adding the following sentence at the end of the section:

§ 502.211 Witnesses and evidence located in a foreign country.

• • • Application for any order made pursuant to this section shall also set forth the text of the information as originally requested, the text of the response thereto, and the reason(s) why such response is deemed inadequate. Replies to such application shall specifically set forth the reason(s) why such response is deemed to be in full compliance with the request. Failure of either party to comply with this rule may result in summary denial or granting of the application.

19. Section 502.221 is amended by revising the last three sentences to read as follows:

§ 502.221 Briefs; requests for findings.

• • • Unless otherwise ordered by the presiding officer, opening or initial briefs shall contain the following matters in separately captioned sections: Introductory section describing the nature and background of the case, proposed findings of fact in serially numbered paragraphs with reference to exhibit numbers and pages of the transcript, argument based upon principles of law with appropriate citations of the authorities relied upon, and conclusions. The Presiding Officer may limit the number of pages to be contained in a brief. All briefs shall contain a subject index or table of contents with page references and a list of authorities cited. [Rule 13(a).]

§ 502.223 [Amended]

20. Section 502.223 is amended by deleting the words "examiners of the Office of Hearing Examiners" and substituting the words "Administrative Law Judges" therefor.

21. Section 502.227 is amended by revising the title and by designating the present rule as paragraph (a) and adding a new paragraph (b) to read as follows:

§ 502.227 Exceptions to decisions or orders of dismissal of Administrative Law Judges; replies thereto; and review of decisions or orders of dismissal by Commission.

(b) If an Administrative Law Judge has granted a motion for dismissal of the proceeding in whole or in part, any party desiring to appeal must file such appeal no later than fifteen days after service of the ruling on the motion in question. The denial of a petition to intervene or withdrawal of a grant of intervention shall be deemed to be a dismissal within the meaning of this paragraph.

22. Section 502.261 is amended by adding the following language to the last sentence of the rule:

§ 502.261 Petitions.

• • • or of an Administrative Law Judge if the proceeding is before him.

23. Section 502.262 is revised to read as follows:

§ 502.262 Reply.

Any party may file a reply to a petition for reconsideration within fifteen days in accordance with § 502.74 [Rule 5(n)]. The reply shall be served in conformity with Subpart H (Rule 8). [Rule 16(b).]

*Effective date.* Inasmuch as the expeditious adoption of these rules is desirable and inasmuch as they are procedural in nature, they shall be effective May 19, 1976, and shall be applicable to proceedings instituted on and after that date.

By the Commission.

[SEAL] FRANCIS C. HURNEY,  
Secretary.

[FR Doc.76-14581 Filed 5-18-76; 8:45 am]

General Order 17; Amdt. 1]  
SUBCHAPTER B—REGULATIONS AFFECTING MARITIME CARRIERS AND RELATED ACTIVITIES  
PART 521—TIME FOR FILING AND COMMENTING ON CERTAIN AGREEMENTS  
Clarification of Statement of Policy

Section 521.2 of this Part prescribes a notice period for the filing of amendments to extend agreements containing termination dates. It has been the practice of the Commission staff to notify parties that the time for filing such applications has come due. Nevertheless, the Commission notes that, in many instances, parties have filed on less than the prescribed notice. This inhibits orderly consideration of the application and frustrates the intent of the policy and procedures set forth in this Part.

The Commission wishes to make clear that it is the duty of the policy and procedures set forth in this Part.

The Commission wishes to make clear that it is the duty of the parties to the agreement to conform to the requirements of section 521.2, irrespective of any actions taken by the Commission's staff. Accordingly, section 521.1 of this Part, Statement of Policy, is amended by addition of the following sentence:

§ 521.1 Statement of policy.

• • • Although the Commission may, from time to time, advise parties to

agreements that the agreement is due to expire, parties to agreements cannot rely on Commission notice but are themselves solely responsible for the timely filing of amendments to extend agreements containing termination dates.

Inasmuch as this amendment is merely a clarification of existing Commission policy, notice of proposed rulemaking procedure is deemed unnecessary.

*Effective date.* This amendment is effective May 19, 1976.

By the Commission May 11, 1976.

[SEAL] FRANCIS C. HURNEY,  
Secretary.

[FR Doc.76-14580 Filed 5-18-76; 8:45 am]

Title 50—Wildlife and Fisheries  
CHAPTER I—U.S. FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR  
PART 33—SPORT FISHING  
Sherburne National Wildlife Refuge

The following special regulation is issued and is effective on May 19, 1976.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

MINNESOTA  
SHERBURNE NATIONAL WILDLIFE REFUGE

Sport fishing on the Sherburne National Wildlife Refuge is permitted only on the areas designated by signs as open to public fishing. These open areas, comprising approximately 1,000 acres, are delineated on maps available at the refuge headquarters, Route 2, Zimmerman, Minnesota 55398, and from the office of the Regional Director, U.S. Fish and Wildlife Service, Federal Building, Fort Snelling, Twin Cities, Minnesota 55111. Sport fishing shall be in accordance with all applicable State regulations subject to the following special conditions:

(1) The open season for sport fishing extends from May 1, 1976 to March 1, 1977, inclusive.

(2) During periods when no ice exists, fishing activity is confined to the St. Francis River.

(3) Access to all fish areas is permitted only at designated access sites.

(4) Boats, without motors, may be used on the St. Francis River only from designated access sites.

(5) The use of snowmobiles, all terrain vehicles, trail bikes, motorcycles,

mini-bikes, and other such conveyances are prohibited on the refuge at all times.

JOHN E. WILBRECHT,  
Refuge Manager, Sherburne National Wildlife Refuge, Zimmerman, Minn.

MAY 11, 1976.

CHAPTER II—NATIONAL MARINE FISHERIES SERVICE, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE  
PART 216—REGULATIONS GOVERNING THE TAKING AND IMPORTING OF MARINE MAMMALS

Subpart F—Penalties and Procedures for Their Assessment

On November 24, 1975, notice of an amendment to Part 216 was published in the *Federal Register* (40 FR 54427). The amendment modified §§ 216.53, 216.54, 216.56, 216.57, 216.59 and 216.60 by deleting the term "administrative law judge" and substituting in lieu thereof the term "presiding officer." The amendment failed to effect one technical change in § 216.54. The purpose of this rulemaking is to correct that oversight.

In view of the fact that cases are awaiting a hearing, this amendment is made without notice and an opportunity for the public to comment, pursuant to 5 U.S.C. 553(b). Under 5 U.S.C. 553(d), it is effective immediately.

Issued at Washington, D.C., on May 12, 1976.

ROBERT W. SCHONING,  
Director.

Accordingly, § 216.54(a) is revised as follows:

§ 216.54 Assignment of presiding officer and agency representative; notice of hearing.

(a) If a written request for a hearing has been timely made, or the Secretary determines, pursuant to § 216.53(b), that a hearing should be held, the Secretary shall assign a presiding officer to the case. Written notice of the assignment shall be promptly given to the respondent, together with the name and address of the person who will present evidence on behalf of the Secretary at the hearing (the agency representative), and thereafter all pleadings and other documents shall be filed directly with the presiding officer, with a copy served on the agency representative or the respondent as the case may be.

[FR Doc.76-14547 Filed 5-18-76; 8:45 am]

## proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

### DEPARTMENT OF THE TREASURY

Internal Revenue Service

[ 26 CFR Part 1 ]

#### CHANGE OF ANNUAL ACCOUNTING PERIOD FOR FOREIGN CORPORATIONS

##### Public Hearing on Proposed Regulations

Proposed regulations under section 442 of the Internal Revenue Code of 1954, relating to the procedure foreign corporations must follow in order to change their annual accounting period, appear in the FEDERAL REGISTER for March 23, 1976 (41 F.R. 12017).

A public hearing on the provisions of such proposed regulations will be held on June 29, 1976, beginning at 10 a.m. in the George S. Boutwell Auditorium, Seventh Floor, 1400 Corridor, Internal Revenue Building, 1111 Constitution Avenue, N.W., Washington, D.C. 20224.

The rules of § 601.601(a)(3) of the "Statement of Procedural Rules" (26 CFR Part 601) shall apply with respect to such public hearing. Copies of these rules may be obtained by a request directed to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, or by telephoning (Washington, D.C.) 202-964-3935. Under such § 601.601(a)(3) persons who have submitted written comments or suggestions within the time prescribed in the notice of proposed rule making, and who desire to present oral comments at the hearing on such proposed regulations, should submit an outline of the comments to be presented at the hearing and the time they wish to devote to each subject by June 16, 1976. Such outlines should be submitted to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224. Under § 601.601(a)(3) (26 CFR Part 601) each speaker will be limited to 10 minutes for an oral presentation exclusive of time consumed by questions from the panel for the Government and answers thereto.

Persons who desire a copy of such written comments or suggestions or outlines and who desire to be assured of their availability on or before the beginning of such hearing should notify the Commissioner, in writing, at the above address by June 23, 1976. In such a case, unless time and circumstances permit otherwise, the desired copies are deliverable only at the above address. The charge for copies is ten cents (\$.10) per page.

An agenda showing the scheduling of the speakers will be made after outlines are received from the speakers. Copies of this agenda will be available free of

charge at the hearing, and information with respect to its contents may be obtained on June 28, 1976, by telephoning (Washington, D.C.) 202-964-3935.

JAMES F. DRING,  
Director,

Legislation and Regulations Division.

[FR Doc. 76-14582 Filed 5-18-76; 8:45 am]

### DEPARTMENT OF TRANSPORTATION

Coast Guard

[ 33 CFR Part 183 ]

[ CGD 75-176 ]

#### BOATS AND ASSOCIATED EQUIPMENT

##### Proposed Amendments Affecting the Safe Loading and Flotation Standards

##### Correction

In FR Doc. 76-13206 appearing on page 18679 of the issue for May 6, 1976, on page 18680, in the sixth complete paragraph of the second column, the sixth line now reading "ceived before 1976, will be considered be", should read "ceived before June 21, 1976, will be considered be-".

### CIVIL AERONAUTICS BOARD

[ 14 CFR Parts 207, 208, 296 ]

[ EDR-297; Docket 28256; Dated May 5, 1976 ]

#### CHARTERING BY COOPERATIVE SHIPPERS ASSOCIATIONS AND JOINT LOADING BETWEEN COOPERATIVE SHIPPERS ASSOCIATIONS AND AIR FREIGHT FORWARDERS

##### Notice of Proposed Rulemaking

##### Correction

In FR Doc. 76-13661, appearing at page 19227 in the issue of Tuesday, May 11, 1976 in the second column on page 19228 the third full paragraph should read as follows:

We have also decided that this proceeding will consider whether Part 296 of our Economic Regulations should be amended to allow cooperative shippers associations to engage in joint loading with air freight forwarders. This second matter also was raised by HACSA, in an application for exemption to allow it to joint load with a particular forwarder, filed in Docket 27267 on December 16, 1974. In that application HACSA alleged that the Board's original purpose in prohibiting joint loading between forwarders and cooperative shippers associations was to prevent the joint-loading forwarder from gaining undue influence over the members of such associations,

thus resulting in tariff abuses and in that forwarder obtaining an undue competitive advantage over other forwarders. These potential problems, HACSA alleges, would not arise with respect to its operations, since it is a strong association and has no business connections with any forwarder.

### FEDERAL RESERVE SYSTEM

[ 12 CFR Part 217 ]

[ Docket No. R-0024; Reg. Q ]

#### INTEREST ON DEPOSITS

##### Pooling of Funds; Extension of Comment Period

By notice published in the FEDERAL REGISTER of March 15, 1976 (41 FR 10917), the Board of Governors proposed to amend Regulation Q (12 CFR 217) to prohibit member banks from paying interest on time deposits of \$100,000 or more at rates in excess of those established by Regulation Q for deposits of less than \$100,000, where the bank knows or has reason to know that such time deposits consist of funds acquired or solicited for the purpose of pooling such funds primarily to obtain the exemption from interest rate ceilings provided in § 217.7(a).

This proposal was based in part upon the belief that the practice of pooling violates Regulation Q interest rate ceiling limitations and upon the belief that pooling may have potentially adverse effects on member and nonmember financial institutions due to potentially disruptive shifts of funds.

Public comments on this proposal were to have been received no later than May 10, 1976. Requests from the public have been received by the Board to extend the comment period. These requests state that they plan to submit additional economic and statistical data that should prove of assistance to the Board in this matter and that such data will not be available until after May 10, 1976. The Board has reviewed these requests and has decided that it is in the public interest to extend the period for receipt of comments from the public for an additional 60 days. Accordingly, the comment period for receipt of submissions from the public on the Board's proposal of March 8, 1976, to prohibit the payment of interest on pooled funds by member banks in excess of the rate established for deposits of less than \$100,000 is hereby extended to July 9, 1976.

To assist the Board in its consideration of this matter, interested persons are invited to submit relevant data,

views, or arguments. Any such material should be submitted in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, and should be received not later than July 9, 1976. All material sub-

mitted should include the docket number R-0024. Such information will be made available for inspection and copying upon request except as provided in § 261.6(a) of the Board's Rules Regarding Availability of Information.

By order of the Board of Governors,  
May 12, 1976.

[SEAL]

THEODORE E. ALLISON,  
Secretary of the Board.

## DEPARTMENT OF THE TREASURY

Comptroller of the Currency  
**MERCANTILE NATIONAL BANK,  
 ATLANTA, GEORGIA**  
 Suspension of Trading

It appearing that the summary suspension of trading in the securities of Mercantile National Bank, Atlanta, Georgia, on the over-the-counter market is required in the public interest and for the protection of investors;

Therefore, pursuant to Sections 12(i) and 12(k) of the Securities Exchange Act of 1934, trading in the securities of Mercantile National Bank, Atlanta, Georgia, on the over-the-counter market is hereby suspended for the ten-day period commencing at 9:00 a.m. (e.d.t.) on May 13, 1976, and terminating at midnight (e.d.t.) on May 22, 1976.

Dated: May 13, 1976.

[SEAL] **JAMES E. SMITH,**  
 Comptroller of the Currency.

## Customs Service

[T.D. 76-138]

## TUNA FISH

## Tariff-Rate Quota

MAY 12, 1976.

The tariff-rate quota for the calendar year 1976 on tuna classifiable under item 112.30, Tariff Schedules of the United States.

It has now been determined that 98,124,941 pounds of tuna may be entered for consumption or withdrawn from warehouse for consumption during the calendar year 1976 at the rate of 6 per centum ad valorem under item 112.30, Tariff Schedules of the United States. Any such tuna which is entered, or withdrawn from warehouse, for consumption during the current calendar year in excess of this quota will be dutiable at the rate of 12.5 per centum ad valorem under item 112.34 of the tariff schedules.

Pursuant to the provisions of item 112.30, Tariff Schedules of the United States, the above quota is based on the United States pack of canned tuna during the calendar year 1975.

**VERNON D. ACREE,**  
 Commissioner of Customs.  
 [FR Doc.76-14434 Filed 5-18-76;8:45 am]

## DEPARTMENT OF DEFENSE

Department of the Army  
**ARMED FORCES EPIDEMIOLOGICAL  
 BOARD**  
 Meeting

1. In accordance with section 10(a) (2) of the Federal Advisory Committee Act (P.L. 92-463) announcement is made of the following committee meeting:

Name of Committee: Armed Forces Epidemiological Board.  
 Date of Meeting: 11 June 1976.  
 Place: Conference Room 3092, Walter Reed Army Institute of Research, Walter Reed Army Medical Center, Washington, D.C.  
 Time: 0800-1700.

## PROPOSED AGENDA

This meeting was previously scheduled for 16 April 1976 and subsequently cancelled. Subjects to be considered include briefings on disease and environmental problems which have confronted military forces operating in the Middle-East during and since WWI, Army Medical Department planning for Middle-East operations, reports from Preventive Medicine Officers, review of influenza vaccine field trial data, discussion of Health and Environment Division objectives, programs and priorities and organizational matters.

2. That portion of the meeting to be held from 0800-1030 will involve discussion of information classified SECRET pursuant to Executive Order 11652 in the interest of National Defense, and will be closed to the public. It is necessary to provide the Board information on the threat to our Nation and on planning for National Defense in order that the Board can formulate recommendations on planning for medical support of National Defense. This type of information is exempt from public disclosure under section 552(b) (1) of Title 5, U.S. Code. Accordingly, it has been determined necessary to close a portion of this meeting to the public pursuant to section 10(d), P.L. 92-463.

3. All subsequent portions of this meeting will be open to the public, but limited by space accommodations. Any interested person may attend, appear before, or file statements with the committee at the time and in the manner permitted by the committee. Interested persons wishing to participate should advise the Executive Secretary, DASG-

AFEB, Room 1B472, Pentagon, Washington, D.C.20310.

**DUANE G. ERICKSON,**  
 LTC, MSC, USA,  
 Executive Secretary.

MAY 13, 1976.

## ARMY BALLISTIC RESEARCH LABORATORIES SCIENTIFIC ADVISORY COMMITTEE (SAC)

## Closed Meeting

In accordance with Section 10(a) (2) of the Federal Advisory Committee Act (P.L. 92-463), announcement is made of the following Committee meeting:

Name of committee: US Army Ballistic Research Laboratories Scientific Advisory Committee (SAC).  
 Date of meeting: 9 June 1976.  
 Place: US Army Ballistic Research Laboratories, Aberdeen Proving Ground, Maryland 21005.  
 Time: 0900 Hours.

The agenda includes a discussion of current and proposed research programs of the US Army Ballistic Research Laboratories. The relation of these scientific programs to the future role of the Ballistic Research Laboratories will be considered in detail.

This meeting will be closed to the public since classified research and development programs will be discussed. This information is classified and is specifically required by Executive Order to be kept secret in the interest of the national defense or foreign policy in accordance with Section 552, paragraph (4) (b) (1), Title 5 U.S.C., The Freedom of Information Act.

Dated: May 13, 1976.

**SAMUEL M. LINDSAY,**  
 Acting Director.

## NOTES FROM.....

Director (FWS/LE)  
 U.S. Fish & Wildlife Serv.  
 Box 19183  
 Wash. D.C. 20036.

Sir,

I require the following birds to  
 cross with my existing stock to prevent  
 inbreeding and provide a strong  
 vigorous captive supply.

Brown Faced Pheasant - Crossed with Mottelonein  
 Szechuan White Faced Pheasant - Crossed with Crossed with Crossed with  
 Swinhoe's Pheasant - Crossed with Szechuan  
 Hume's Partridge - Crossed with Hume's  
 M. Red Pheasant - Crossed with M. Red

I shall require 1 each of 1976 Hatch  
 of each sex. The above subjects will  
 be born in captivity at the  
 premises of Charles Kalmus Rt 1 Courtland,  
 Minn 56021.

Birds will be domiciled at the  
 location in #6 of form OMB #42-R1670.

Birds will be paired with some  
 of my stock to provide good breeding  
 stock in 1977 and subsequent years.

## A Continuing Education Program

NORTH CAROLINA STATE UNIVERSITY

## NOTES FROM.....

I have been raising pheasants for the  
 past 9 years and have hatched, reared  
 and cared for from 25 to 50 birds  
 of various breeds. I have acquired a  
 local reputation as a good breeder  
 and have a ready sale for all  
 surplus birds.

I will of course participate in any  
 worthwhile breeding program.

Birds will be shipped in the  
 following container. Fig 1. by air  
 Express, on same plane I'll be  
 flying on.

Fig 1

Montalities have been very limited  
 lessons have been limited to stress,  
 internal physical defects and rigid culling.  
 A strict sanitation program from Bio-Lab  
 Inc. Decatur, Ga is followed.

## A Continuing Education Program

NORTH CAROLINA STATE UNIVERSITY

## NOTES FROM.....

There will be no despoilation of  
subject birds they will be retained  
for duration of their life.

No birds will be recovered from  
the wild thus will have no effect  
on wild population. I will submit no  
program. I will make available for  
release if desired.

The expertise, facilities and  
resources are adequate to accomplish  
the objectives.

A. L. Cunningham  
Box 356  
Watkinsville, Ga  
30677

Attachment: Federal Fish and Wildlife License and permit application

Investigators: David G. Roseneau, 8 Mile Farmers Loop Road, SR 3-30096, Fairbanks, Alaska 99701, Ph. 479-2669. Alan M. Springer, Division of Life Sciences, Bunnell Building, University of Alaska 99701, Ph. 479-7542.

The following information applies directly to part 17.22, Title 50, Code of Federal Regulations as amended 26 September 1975:

1. Species: Peregrine Falcon (*Falco peregrinus anatum*).

Activity: A. To survey the Alaska portion of the Porcupine River for Peregrine Falcons; to re-evaluate nesting habitat and to locate all currently active nest sites and historical nest sites; to gather data on current productivity including clutch size, brood size, hatching success and fledgling success; to salvage addled eggs, dead young and dead adults for analysis of organochloride residue, PCB residue and other environmental pollutant residue levels; to salvage prey remains from nest sites for identification.

B. To survey the lower Yukon River for peregrine nesting habitat; to locate nesting pairs and nesting sites.

C. To analyze all Peregrine Falcon tissues salvaged in Alaska during 1976 for organochlorine pesticide residues, PCB residues and other environmental pollutant residues.

2. All birds, their eggs and their young which will be studied are in the wild.

3. Addled eggs, dead young and dead adults discovered during the study will be salvaged. All surveys and salvage operations will be conducted in a manner which will insure that harassment, injury, death or removal from the wild of all living adult birds, their living eggs and their living young does not occur.

4. N.A.

5. Prey remains will be identified at the Division of Life Sciences, University of Alaska, Fairbanks, Alaska 99701, and will be placed in the custody of the curator University of Alaska Museum, Terrestrial Vertebrates Collection, University of Alaska, Fairbanks, Alaska 99701.

Pollutant residue analyses will be made at the Division of Life Sciences, University of Alaska, Fairbanks, Alaska 99701, and the University of California, Bodega Marine Laboratory, P.O. Box 247, Bodega Bay, California 94923.

6. N.A.

7. Logistical support and funding are being sought from the Alaska Department of Fish and Game, the U.S. Forest Service, Bureau of Sport Fisheries and Wildlife, Bureau of Land Management, U.S. Park Service and the National Audubon Society. All solicitations are being coordinated with the Alaska Peregrine Falcon Recovery Team. Copies of the contracts awarded for these studies will be sent to Mr. Henry Hanson, Endangered Species Coordinator, Bureau of Sport Fisheries and Wildlife, 813 D Street, Anchorage, Alaska 99501.

8. Methods. A. One ground survey along the Porcupine River will be made between its mouth and the Canadian border during the period 1 July 1976—15 July 1976. The survey will be conducted from a riverboat and on foot. Aerial surveys are valuable in certain phases and types of raptor research, however, most interior Alaskan peregrine habitat is poorly suited to the use of this technique except as a preliminary survey tool. In the case of the Porcupine River where previous data are available, where investigators have prior knowledge of the area and where most nesting habitat is located in a restricted canyon situation this technique is unnecessary and undesirable.

Nests will be viewed from distant vantage points whenever possible. When this is not practicable, one investigator will rope down beside the nest. The same method will be used to salvage all specimen material. No visits to nest sites will be attempted until after the eggs have hatched and the young are thermoregulatory. No nests will be visited more than once during occupancy; however, certain nests may be revisited after fledging so that prey remains, addled eggs, dead young and dead adults may be salvaged.

B. One aerial survey will be made along the lower Yukon River from Tanana to Mountain Village between 15 July 1976 and 31 July 1976. The survey will be conducted from a fixed-wing aircraft. The flight path of the aircraft will not be near enough to possible nest sites that harassment of young or adult birds will occur.

The major emphasis of this survey will be directed towards identifying and describing potential nesting habitat rather than towards locating actual nest sites and nesting pairs.

C. Dead young and dead adult peregrines will be frozen intact until analyzed. Contents from addled eggs will be stored in pre-cleaned and tested glass containers and frozen. Care will be taken to insure that egg shells remain intact so that shell thickness determinations can accurately be made. All

quots of each sample will be homogenized with anhydrous sodium sulfate and extracted in Soxhlet thimbles using a hot mixture of two parts hexane and one part acetone (vol:vol). Quantification of PCB will be accomplished by saponification on an alkaline side-arm of the main chromatographic column. Comparisons will be made between the resulting chromatograms and chromatograms from injections of standard mixtures of pentachlorobiphenyls and hexachlorobiphenyls.

Justification

Peregrine Falcons in particular appear to be highly susceptible to sublethal physiological effects of certain agricultural and industrial pollutants. Several populations have declined drastically with the accumula-

tion of these residues in their trophic systems. The steady loss of suitable nesting habitat is another major factor which has contributed to recent population declines. In Alaska, where environmental quality is still generally high and resource development is relatively new but rapidly expanding, the habitat factor is increasing in importance.

Arctic and subarctic peregrines depend in large measure on the protection afforded them by the inaccessibility of much of their habitat. The current state-wide trend in resource development could easily jeopardize this advantage. A concerted effort should be made, therefore, to identify all portions of the State in which peregrines are found so that they will be given proper consideration in land use planning decisions. The Porcupine River is known to support breeding peregrines. This region is also proposed as part of

Current data on the utilization of this drainage by peregrines will be valuable in decisions concerning the classification of this river.

Furthermore, this survey will coincide with a survey to be conducted on the major portion of the Porcupine River in Canada and of other rivers in Alaska for peregrines. Data from the Porcupine River will be of particular use in describing the status of peregrines in Alaska in 1976.

Unfortunately the same remoteness which buffers peregrines against certain aspects of civilization does not appear to protect them from the ubiquity of environmental pollution. Peakall et al. (1975) suggest that if the current rate of decline continues the last "tundra" peregrines will have fledged from the Colville River in 1975 and that the remaining adult segment of the population will disappear by 1980. White et al. (1973) suggest that populations of Peale's peregrines in the Aleutian Islands are considerably more stable. Eggshell thickness has been reduced by 21.7 percent or more and has been shown to be associated with population declines (Anderson and Hickey 1972). Anatum peregrines from interior Alaska have declined drastically in the Tanana River drainage but appear to be relatively stable along the upper Yukon River and its major tributaries above Circle (White and Cade 1975). Shell thickness of eggs from Yukon peregrines have decreased 16.8 percent since pre-DDT years (Cade et al. 1971). Anatum peregrine populations in interior Alaska may be critically near DDT induced declines. Current data on the status of the Porcupine River population would be particularly valuable in assessing the status of this subpopulation. Furthermore, because of the precarious position in which peregrines in general find themselves as a result of pollution effects and because they have become a biological index of certain global pollution patterns (Peakall et al. 1975; Walker et al. 1973; Walker et al. 1973), pollutant residues in this species from throughout the State should be continually monitored.

Attachment: Federal Fish and Wildlife License and Permit Application

Investigators: David G. Roseau, 8 Mile Farmers Loop Road, SR 3-30096, Fairbanks, Alaska 99701, Ph. 479-2869. Alan M. Springer, Division of Life Sciences, Bunnell Building, University of Alaska 99701, Ph. 479-7542.

The following information applies directly to part 17.22, Title 50, Code of Federal Regulations as amended 26 September 1975:

1. Species: Peregrine Falcon (*Falco peregrinus anatum*).

Activity: A. To survey the Alaskan portion of the Porcupine River for Peregrine Falcons; to re-evaluate nesting habitat and to locate all currently active nest sites and historical nest sites; to gather data on current productivity including clutch size, brood size, hatching success and fledging success; to salvage added eggs, dead young and dead adults for analysis of organochlorine residue, PCB residue and other environmental pollutant residue levels; to salvage prey remains from nest sites for identification.

B. To survey the lower Yukon River for peregrine nesting habitat; to locate nesting pairs and nesting sites.

C. To analyze all Peregrine Falcon tissues salvaged in Alaska during 1976 for organochlorine pesticide residues, PCB residues and other environmental pollutant residues.

2. All birds, their eggs and their young which will be studied are in the wild.

3. Added eggs, dead young and dead adults discovered during the study will be salvaged. All surveys and salvage operations will be conducted in a manner which will insure that harassment, injury, death or removal from the wild of all living adult birds, their living eggs and their living young does not occur.

4. N. A.

5. Prey remains will be identified at the Division of Life Sciences, University of Alaska, Fairbanks, Alaska 99701, and will be placed in the custody of the curator, University of Alaska Museum, Terrestrial Vertebrates Collection, University of Alaska, Fairbanks, Alaska 99701.

Pollutant residue analyses will be made at the Division of Life Sciences, University of Alaska, Fairbanks, Alaska 99701, and the University of California, Bodega Marine Laboratory, P.O. Box 247, Bodega Bay, California 94923.

6. N. A.

7. Logistical support and funding are being sought from the Alaska Department of Fish and Game, the U.S. Forest Service, Bureau of Sport Fisheries and Wildlife, Bureau of Land Management, U.S. Park Service and the National Audubon Society. All solicitations are being coordinated with the Alaska Peregrine Falcon Recovery Team. Copies of the contracts awarded for these studies will be sent to Mr. Henry Hanson, Endangered Species Coordinator, Bureau of Sport Fisheries and Wildlife, 813 D Street, Anchorage, Alaska 99501.

8. Methods. A. One ground survey along the Porcupine River will be made between its mouth and the Canadian border during the period 1 July 1976—15 July 1976. The survey will be conducted from a riverboat and on foot. Aerial surveys are valuable in certain phases and types of raptor research, however, most interior Alaskan peregrine habitat is poorly suited to the use of this technique except as a preliminary survey tool. In the case of the Porcupine River where previous data are available, where investigators have prior knowledge of the area and where most nesting habitat is located in a restricted canyon situation this technique is unnecessary and undesirable.

Nests will be viewed from distant vantage points whenever possible. When this is not practicable, one investigator will rope down beside the nest. The same method will be used to salvage all specimen material. No visits to nest sites will be attempted until after the eggs have hatched and the young are thermoregulatory. No nests will be visited more than once during occupancy; however, certain nests may be revisited after fledging so that prey remains, added eggs, dead young and dead adults may be salvaged.

B. One aerial survey will be made along the lower Yukon River from Tanana to Mountain Village between 15 July 1976 and 31 July 1976. The survey will be conducted from a fixed-wing aircraft. The flight path of the aircraft will not be near enough to possible nest sites that harassment of young or adult birds will occur.

The major emphasis of this survey will be directed towards identifying and describing potential nesting habitat rather than towards locating actual nest sites and nesting pairs.

C. Dead young and dead adult peregrines will be frozen intact until analyzed. Contents from added eggs will be stored in pre-cleaned and tested glass containers and frozen. Care will be taken to insure that egg shells remain intact so that shell thickness determinations can accurately be made. Aliquots of each sample will be homogenized with anhydrous sodium sulfate and extracted in Soxhlet thimbles using a hot mixture of two parts hexane and one part acetone (vol.:vol). Quantification of PCB will be accomplished by saponification on an alkaline side-arm of the main chromatographic column. Comparisons will be made between the resulting chromatograms and chromatograms from injections of standard mixtures of pentachlorobiphenyls and hexachlorobiphenyls.

#### Justification

Peregrine Falcons in particular appear to be highly susceptible to sublethal physiological effects of certain agricultural and industrial pollutants. Several populations have declined drastically with the accumulation of these residues in their trophic systems. The steady loss of suitable nesting habitat is another major factor which has contributed to recent population declines. In Alaska, where environmental quality is still generally high and resource development is relatively new but rapidly expanding, the habitat factor is increasing in importance.

Arctic and subarctic peregrines depend in large measure on the protection afforded them by the inaccessibility of much of their habitat. The current state-wide trend in resource development could easily jeopardize this advantage. A concerted effort should be made, therefore, to identify all portions of the State in which peregrines are found so that they will be given proper consideration in land use planning decisions. The Porcupine River is known to support breeding peregrines. This region is also proposed as part of

Current data on the utilization of this drainage by peregrines will be valuable in decisions concerning the classification of this river.

Furthermore, this survey will coincide with a survey to be conducted on the major portion of the Porcupine River in Canada and of other rivers in Alaska for peregrines. Data from the Porcupine River will be of particular use in describing the status of peregrines in Alaska in 1976.

Unfortunately the same remoteness which buffers peregrines against certain aspects of civilization does not appear to protect them from the ubiquity of environmental pollu-

tion. Peakall et al. (1975) suggest that if the current rate of decline continues the last "tundra" peregrines will have fledged from the Colville River in 1975 and that the remaining adult segment of the population will disappear by 1980. White et al. (1973) suggest that populations of Peale's peregrines in the Aleutian Islands are considerably more stable. Eggshell thickness has been reduced by 21.7 percent or more and has been shown to be associated with population declines (Anderson and Hickey 1972). Anatum peregrines from interior Alaska have declined drastically in the Tanana River drainage but appear to be relatively stable along the upper Yukon River and its major tributaries above Circle (White and Cade 1975). Shell thickness of eggs from Yukon peregrines have decreased 16.8 percent since pre-DDT years (Cade et al. 1971). Anatum peregrine populations in interior Alaska may be critically near DDT induced declines. Current data on the status of the Porcupine River population would be particularly valuable in assessing the status of this subpopulation. Furthermore, because of the precarious position in which peregrines in general find themselves as a result of pollution effects and because they have become a biological index of certain global pollution patterns (Peakall et al. 1975; Walker et al. 1973; Walker et al. 1973), pollutant residues in this species from throughout the State should be continually monitored.

Documents and complete information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in Suite 600, 1612 K Street, N.W., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/LE), U.S. Fish and Wildlife Service, Post Office Box 19183, Washington, D.C. 20036. All relevant comments received on or before June 18, 1976 will be considered.

Dated: May 13, 1976.

#### OLYMPIC NATIONAL PARK Notice of Public Workshops

Notice is hereby given that two public workshops will be held for the purpose of considering the various alternatives to possible concession expansion at Kalaloch in Olympic National Park. Printed information regarding the possible alternatives is available from the Superintendent, Olympic National Park, 600 East Park Avenue, Port Angeles, Washington 98362, or from the Regional Director, National Park Service, 601 Fourth and Pike Building, Seattle, Washington 98101.

The first workshop is scheduled to be held at the Courtesy Room of the Rainier National Bank in Aberdeen, Washington, at 7:30 p.m., Wednesday, June 23, 1976. The second workshop is scheduled to be held at the Little Theater, Peninsula College, Port Angeles, Washington, at 7:30 p.m., Thursday, June 24, 1976.

Dated: May 5, 1976.

#### NOTICES

Office of the Secretary  
[INT FES 76-25]

#### AUTHORIZED NARROWS UNIT, COLORADO

##### Notice of Availability of Final Environmental Statement

Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a final environmental statement on a proposed water resource development project designated as the Narrows Unit, Colorado.

The proposed project is for the purpose of supplying a supplemental irrigation water supply providing flood control, preserving fish and wildlife resources, and developing recreational opportunities in the South Platte River Basin in eastern Colorado. A potential project purpose would provide for supplying municipal and industrial water needs of the area.

The Final Environmental Statement includes letters of comment received on the draft statement and addresses those comments as well as comments and issues received at the public hearings held on the draft statement on January 13 and 14, 1976.

Copies are available for inspection at the following locations:

Office of Assistant to the Commissioner—Ecology, Department of the Interior, Bureau of Reclamation, Room 7626, Interior Building, Washington, D.C. 20240, Telephone (202) 343-4991.

Division of Engineering Support, Technical Services and Publications Branch, Engineering and Research Center, Denver Federal Center, Denver, Colorado 80225, Telephone (303) 234-3022.

Office of the Regional Director, Bureau of Reclamation, Lower Missouri Region, Building 20, Denver Federal Center, Denver, Colorado 80225, Telephone (303) 234-3779.

Central Colorado Water Conservancy District, 135 Denver Avenue, Fort Lupton, Colorado 80621.

#### FEDERAL METAL AND NONMETAL MINE SAFETY ADVISORY COMMITTEE

##### Notice of Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92-463), notice is hereby given that the Federal Metal and Nonmetal Mine Safety Advisory Committee, authorized to be established under section 7(a) of the Federal Metal and Nonmetal Mine Safety Act (Public Law 89-577, as amended by Public Law 94-41 on June 27, 1975), will meet on Tuesday—June 29, 1976, Wednesday—June 30, 1976, and Thursday—July 1, 1976, starting at 8:30 a.m. each day until the Advisory Committee concludes its business, in the Sussex Room, Parliament House Motor Hotel, 420 5th Ave. North, Birmingham, Alabama 35205 (mailing address P.O. Box 2245, Birmingham, Alabama 35201)—Telephone Number: Area Code 205-323-7211.

The matters to be discussed at this public meeting include suggested new and revised health and safety standards and revocation of certain standards applicable to metal and nonmetal mining operations and concerning air quality, ventilation, radiation, and physical agents, drilling, rotary jet piercing, use of equipment, material storage and handling, personal protection, safety programs, man hoisting, posting of communication instructions, and loading, hauling, dumping. Copies of the agenda and the suggested new and revised standards are available for the public and may be obtained from or may be examined in the office of the Executive Secretary to the Advisory Committee.

The meeting of the Advisory Committee is open to the public. Public attendance is limited to seating available in the Sussex Room of the Parliament House. Persons desiring to attend this meeting are requested to notify the Executive Secretary in writing of their intention to attend the meeting by Friday, June 25, 1976.

Any member of the public may file a written statement with the Advisory Committee before, during, or within 30 days after the meeting.

The Committee Chairman, if he deems it appropriate may permit members of the public to present oral statements at the meeting.

All written statements, notices, and requests should be addressed to the Executive Secretary as follows:

Mr. Herbert P. LeVan, Executive Secretary,  
Federal Metal and Nonmetal Mine Safety  
Advisory Committee, Room 702, Ballston  
Tower No. 3, 4015 Wilson Boulevard, Ar-  
lington, Virginia 2203, Telephone Number:  
Area Code 703-235-8686.

Dated: May 13, 1976.

RAYMOND A. PECK, Jr.,  
Deputy Assistant Secretary  
of the Interior.

##### Forest Service

#### TIMBER MANAGEMENT PLAN, TALLADEGA NATIONAL FOREST

##### Notice of Availability of Final Environmental Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a Final Environmental Statement for the Timber Management Plan, Talladega National Forest, Alabama, USDA-FS-R8-FES-ADM-75-21.

The plan proposes even-aged forest management on that part of the forest which is suitable for sustained yield timber production as well as maintaining and, where possible, enhancing the soil, water, recreation, and wildlife resources.

This Final Environmental Statement was transmitted to CEQ on May 11, 1976. Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Bldg., Room 3210, 12th St. & Independence Ave., SW, Washington, D.C. 20250.

USDA, Forest Service, 1720 Peachtree Rd., NW., Room 804, Atlanta, Georgia 30309.

USDA, Forest Service, National Forest in Alabama, Box 40, Montgomery, Alabama 36101.

A limited number of single copies are available upon request to Forest Supervisor, A. D. Woody, Box 40, Montgomery, Alabama 36101.

Copies of the environmental statement have been sent to various Federal, state, and local agencies as outlined in the CEQ guidelines.

Dated: May 12, 1976.

DAVID F. JOLLY,  
Regional Environmental  
Coordinator, Southern Region.

#### MATERIAL PREPARATION SUBCOMMITTEE OF THE SEMICONDUCTOR MANUFACTURING AND TEST EQUIPMENT TECHNICAL ADVISORY COMMITTEE

##### Partially Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. IV, 1974), notice is hereby given that a meeting of the Material Preparation Subcommittee of the Semiconductor Manufacturing and Test Equipment Technical Advisory Committee will be held on Wednesday, June 9, 1976, at 9:30 a.m. in Room 4833, Main Commerce Building, 14th and Constitution Avenue, N.W., Washington, D.C.

The Semiconductor Manufacturing and Test Equipment Technical Advisory Committee was initially established on January 3, 1973. On December 20, 1974, the Acting Assistant Secretary for Administration approved the recharter and extension of the Committee for two additional years, pursuant to Section 5(c) (1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App. Sec. 2404(c) (1) and the Federal Advisory Committee Act. The Material Preparation Subcommittee of the Semiconductor Manufacturing and Test Equipment Technical Advisory Committee was established on March 3, 1976, by the Director, Office of Export Administration, pursuant to the charter of the Committee.

The Committee advises the Office of Export Administration, Bureau of East-West Trade, with respect to questions involving technical matters, world-wide availability and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to semiconductor manufacturing and test equipment, including technical data related thereto, and including those whose export is subject to multilateral (COCOM) controls. The Material Preparation Subcommittee was formed to provide advice to the Committee with respect to methods and equipment used for the preparation of semiconductor materials.

The Subcommittee meeting agenda has five parts:

##### General Session

(1) Opening remarks by the Subcommittee's Acting Chairman.

(2) Presentation of papers or comments by the public.

(3) Preliminary comments from each member on suggested equipment to be reviewed by the Subcommittee.

(4) Set goals and time schedule for Subcommittee actions.

##### Executive Session

(5) Discussion of matters properly classified under Executive Order 11652, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The public will be permitted to attend the General Session, at which a limited number of seats will be available. To the extent time permits members of the public may present oral statements to the Subcommittee. Written statements may be submitted at any time before or after the meeting.

With respect to agenda item (5), the Assistant Secretary of Commerce for Administration, with the concurrence of the delegate of the General Counsel, formally determined on November 25, 1975, pursuant to Section 10(d) of the Federal Advisory Committee Act that the matters to be discussed in the Executive Session should be exempt from the provisions of the Act relating to open meetings and public participation therein, because the Executive Session will be concerned with matters listed in 5 U.S.C. 552(b) (1), i.e., it is specifically required by Executive Order 11652 that they be kept confidential in the interest of the national security. All materials to be reviewed and discussed by the Committee during the Executive Session of the meeting have been properly classified under the Executive Order. All Committee members have appropriate security clearances.

Copies of the minutes of the open portion of the meeting will be available upon written request addressed to the Freedom of Information Officer, Room 3100, Domestic and International Business Administration, U.S. Department of Commerce, Washington, D.C. 20230.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Domestic and International Business Administration, Room 1617M, U.S. Department of Commerce, Washington, D.C. 20230, telephone: A/C 202-377-4196.

The complete Notice of Determination to close portions of the series of meetings of the Semiconductor Manufacturing and Test Equipment Technical Advisory Committee and of any subcommittees thereof, was published in the FEDERAL REGISTER (41 FR 4623, appearing in the issue of January 30, 1976).

Dated: May 14, 1976.

LAWRENCE J. BRADY,  
Acting Director,  
Office of Export Administration.

**PATTERN GENERATION AND IMAGE TRANSFER AND INSPECTION SUBCOMMITTEE OF THE SEMICONDUCTOR MANUFACTURING AND TEST EQUIPMENT TECHNICAL ADVISORY COMMITTEE**

**Partially Closed Meeting**

Pursuant to the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. IV, 1974), notice is hereby given that a meeting of the Pattern Generation and Image Transfer and Inspection Subcommittee of the Semiconductor Manufacturing and Test Equipment Technical Advisory Committee will be held on Wednesday, June 9, 1976 at 9:30 a.m. in Room 3881, Main Commerce Building, 14th and Constitution Avenue, N.W., Washington, D.C.

The Semiconductor Manufacturing and Test Equipment Technical Advisory Committee was initially established on January 3, 1973. On December 20, 1974, the Acting Assistant Secretary for Administration approved the recharter and extension of the Committee for two additional years, pursuant to Section 5(c) (1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App. Sec. 2404(c) (1) and the Federal Advisory Committee Act. The Pattern Generation and Image Transfer and Inspection Subcommittee of the Semiconductor Manufacturing and Test Equipment Technical Advisory Committee was established on March 3, 1976, by the Director, Office of Export Administration, pursuant to the charter of the Committee.

The Committee advises the Office of Export Administration, Bureau of East-West Trade, with respect to questions involving technical matters, world-wide availability and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to semiconductor manufacturing and test equipment, including technical data related thereto, and including those whose export is subject to multilateral (COCOM) controls. The Pattern Generation and Image Transfer and Inspection Subcommittee was formed to provide advice to the Committee with respect to equipment and techniques used in the formation of precision microelectronics artwork and masks.

The Subcommittee meeting agenda has six parts:

**GENERAL SESSION**

- (1) Opening remarks by the Subcommittee Chairman.
- (2) Presentation of papers or comments by the public.
- (3) Discussions of purpose and definition of specific tasks.
- (4) Preliminary comments from each member on suggested equipment to be reviewed by the Subcommittee.
- (5) Establish future activities plan.

**EXECUTIVE SESSION**

- (6) Discussion of matters properly classified under Executive Order 11652, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The public will be permitted to attend the General Session, at which a limited number of seats will be available. To the extent time permits members of the public may present oral statements to the Subcommittee. Written statements may be submitted at any time before or after the meeting.

With respect to agenda item (6), the Assistant Secretary of Commerce for Administration, with the concurrence of the delegate of the General Counsel, formally determined on November 25, 1975, pursuant to Section 10(d) of the Federal Advisory Committee Act that the matters to be discussed in the Executive Session should be exempt from the provisions of the Act relating to open meetings and public participation therein, because the Executive Session will be concerned with matters listed in 5 U.S.C. 552(b) (1), i.e., it is specifically required by Executive Order 11652 that they be kept confidential in the interest of the national security. All materials to be reviewed and discussed by the Committee during the Executive Session of the meeting have been properly classified under the Executive Order. All Committee members have appropriate security clearances.

Copies of the minutes of the open portion of the meeting will be available upon written request addressed to the Freedom of Information Officer, Room 3100, Domestic and International Business Administration, U.S. Department of Commerce, Washington, D.C. 20230.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Domestic and International Business Administration, Room 1617M, U.S. Department of Commerce, Washington, D.C. 20230, telephone: A/C 202-377-4196.

The complete Notice of Determination to close portions of the series of meetings of the Semiconductor Manufacturing and Test Equipment Technical Advisory Committee and of any subcommittees thereof, was published in the FEDERAL REGISTER (41 FR 4623, appearing in the issue of January 30, 1976).

Dated: May 14, 1976.

LAWRENCE J. BRADY,  
Acting Director,  
Office of Export Administration.

[FR Doc 76-14589 Filed 5-18-76; 8:45 am]

**WAFER PROCESSING SUBCOMMITTEE OF THE SEMICONDUCTOR MANUFACTURING AND TEST EQUIPMENT TECHNICAL ADVISORY COMMITTEE**

**Partially Closed Meeting**

Pursuant to the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. IV, 1974), notice is hereby given that a meeting of the Wafer Processing Subcommittee of the Semiconductor Manufacturing and Test Equipment Technical Advisory Committee will be held on Wednesday, June 9, 1976 at 1:30 p.m. in Room 4833, Main Commerce Building, 14th and Constitution Avenue, N.W., Washington, D.C.

The Semiconductor Manufacturing and Test Equipment Technical Advisory Committee was initially established on January 3, 1973. On December 20, 1974, the Acting Assistant Secretary for Administration approved the recharter and extension of the Committee for two additional years, pursuant to Section 5(c) (1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App. Sec. 2404(c) (1) and the Federal Advisory Committee Act. The Wafer Processing Subcommittee of the Semiconductor Manufacturing and Test Equipment Technical Advisory Committee was established on March 3, 1976, by the Director, Office of Export Administration, pursuant to the charter of the Committee.

The Committee advises the Office of Export Administration, Bureau of East-West Trade, with respect to questions involving technical matters, world-wide availability and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to semiconductor manufacturing and test equipment, including technical data related thereto, and including those whose export is subject to multilateral (COCOM) controls. The Wafer Processing Subcommittee was formed to provide advice to the Committee with respect to processes and processing equipment including but not limited to cleaning wafer surfaces, applying resist materials, and developing circuit patterns.

The Subcommittee meeting agenda has five parts:

**GENERAL SESSION**

- (1) Opening remarks by the Subcommittee Chairman.
- (2) Presentation of papers or comments by the public.
- (3) Review of technology and equipment currently commercially available in the U.S. and comparison of this availability with the availability of technology and equipment in Western Europe and the Eastern Bloc.
- (4) Specific areas to be discussed: (a) chemical vapor deposition systems; (b) photo resist equipment; (c) photo resist strippers; (d) wet photo resist processes; (e) etching equipment and chemicals; (f) diffusion equipment; (g) ion implantation; and (h) vacuum metalization.

**EXECUTIVE SESSION**

- (5) Discussion of matters properly classified under Executive Order 11652, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The public will be permitted to attend the General Session, at which a limited number of seats will be available. To the extent time permits members of the public may present oral statements to the Committee. Written statements may be submitted at any time before or after the meeting.

With respect to agenda item (4), the Assistant Secretary of Commerce for Administration, with the concurrence of the

delegate of the General Counsel, formally determined on November 25, 1975, pursuant to Section 10(d) of the Federal Advisory Committee Act that the matters to be discussed in the Executive Session should be exempt from the provisions of the Act relating to open meetings and public participation therein, because the Executive Session will be concerned with matters listed in 5 U.S.C. 552(b) (1), i.e., it is specifically required by Executive Order 11652 that they be kept confidential in the interest of the national security. All materials to be reviewed and discussed by the Committee during the Executive Session of the meeting have been properly classified under the Executive Order. All Committee members have appropriate security clearances.

Copies of the minutes of the open portion of the meeting will be available upon written request addressed to the Freedom of Information Officer, Room 3100, Domestic and International Business Administration, U.S. Department of Commerce, Washington, D.C. 20230.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Domestic and International Business Administration, Room 1617M, U.S. Department of Commerce, Washington, D.C. 20230, telephone: A/C 202-377-4196.

The complete Notice of Determination to close portions of the series of meetings of the Semiconductor Manufacturing and Test Equipment Technical Advisory Committee and of any subcommittees thereof, was published in the FEDERAL REGISTER (41 FR 4623, appearing in the issue of January 30, 1976).

Dated: May 14, 1976.

LAWRENCE J. BRADY,  
Acting Director,  
Office of Export Administration.

**National Oceanic and Atmospheric Administration**

**OREGON STATE UNIVERSITY**

**Receipt of Application for a Marine Mammal Permit: Amendment**

On April 21, 1976, notice was published in the FEDERAL REGISTER (41 F.R. 16676) that Dr. Bruce Mate, Oregon State University, Newport, Oregon 97365 had applied in due form for a permit to take forty (40) California sea lions (*Zalophus californianus*) and twenty (20) Pacific harbor seals (*Phoca vitulina richardii*) for scientific research as authorized by the Marine Mammal Protection Act of 1972 and the Regulations Governing the Taking and Importing of Marine Mammals.

The Applicant desires to amend his application in the following manner: eighty (80) California sea lions (*Zalophus californianus*) and forty (40) Pacific harbor seals (*Phoca vitulina richardii*) will be taken over a 2½ year period, with no more than forty (40) seal lions and twenty (20) harbor seals taken annually.

Documents submitted in connection with this application as amended, are available in the following Offices:

Director, National Marine Fisheries Service, 3800 Whitehaven Street, N.W., Washington, D.C.; and Regional Director, National Marine Fisheries Service, Northwest Region, 1700 Westlake Avenue North, Seattle, Washington 98109.

Concurrent with the publication of this notice in the FEDERAL REGISTER, the Secretary of Commerce is sending copies of the amendment to the Marine Mammal Commission and the Committee of Scientific Advisors.

Interested parties may submit written data or views on this application as amended on or before June 18, 1976 to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235.

HARVEY M. HUTCHINGS,  
Acting Associate Director for  
Resource Management, National  
Marine Fisheries Service.

MAY 13, 1976.

**MYSTIC MARINE AQUARIUM**

**Modification of Permit**

Notice is hereby given that, pursuant to the provisions of Sections 216.33 (d) and (e) of the Regulations Governing the Taking and Importing of Marine Mammals (39 FR 1851, January 15, 1974), the scientific research permit issued to Dr. J. Lawrence Dunn, D.V.M., Staff Veterinarian, Mystic Marine Aquarium, on April 18, 1975, is modified, by means of modification of Section B in the following manner:

The Period of validity of the Permit is extended from July 31, 1976 to October 31, 1977.

This modification is effective on May 19, 1976.

The permit as modified is available for review in the following offices:

Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235; and Regional Director, National Marine Fisheries Service, Northeast Region, Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930.

JACK W. GERINGER,  
Deputy Director,

National Marine Fisheries Service.

APRIL 14, 1976.

**MARINE FISHERIES ADVISORY COMMITTEE**

**Notice of Change of Meeting**

Notice of public meetings of the Marine Fisheries Advisory Committee (MAFAC) and the MAFAC subcommittees on Extended Jurisdiction and on Marine Recreational Fisheries had been published in the FEDERAL REGISTER (41 FR 16996), on April 23, 1976, pursuant to Section 10(a) (2) of the Federal Advisory Committee Act, 5 U.S.C., Appendix I.

This is to advise the public that the subcommittee on extended jurisdiction meeting scheduled for 9:00 a.m. on May 24, 1976, in Room 6802 of the Commerce Department Building is hereby canceled. Items on extended jurisdiction which require discussion will be included with the subcommittee chairman's report, presently scheduled for 8:30 a.m. on May 26, 1976, in Room 6802.

Changes, if any, in the MAFAC meeting agenda will be described at the meeting at 8:30 a.m. on May 25, 1976.

ROBERT W. SCHONING,  
Director,

National Marine Fisheries Service.

MAY 14, 1976.

# DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

## Office of Education

### NATIONAL ADVISORY COUNCIL ON EDU- CATION PROFESSIONS DEVELOPMENT, PLANNING COMMITTEE

#### Meeting

Notice of Public Meeting of the National Advisory Council on Education Professions Development, Planning Committee.

Notice is hereby given, pursuant to Section 10(a) (2) Public Law 92-463, that the next meeting of the National Advisory Council on Education Professions Development Planning Committee will be held on Wednesday, June 9, 1976, 9 a.m. to 5 p.m., Thursday, June 10, 1976, 9 a.m. to 5 p.m., and Friday, June 11, 1976, 9 a.m. to 12 noon, local time, at the Executive Tower Inn, Denver, Colorado.

The National Advisory Council on Education Professions Development is established under Section 502 of the Education Professions Development Act (Public Law 90-35). The Council is charged with the review of the Education Professions Development Act and of all other Federally supported programs for the training and development of educational personnel.

The meeting of the Committee is open to the public. The proposed agenda includes discussion of legislative proposals concerning education professions development, and a report which will address basic issues in that area.

Since the meeting of Thursday, June 10, 1976 involves a site visit, members of the public planning to attend must provide their own transportation and should give advance notice of their intention to attend the meeting by calling the Council (202-653-6169) or by mail no later than Monday, June 7, 1976.

Records are kept of all Council proceedings and are available for public inspection at the Council offices, located at 1111 20th Street, N.W., Suite 306, Washington, D.C. 20036.

Signed at Washington, D.C. on May 14, 1976.

GEORGE E. ARNSTEIN,  
Executive Director.

[FR Doc. 76-14720 Filed 5-18-76; 8:45 am]

### THE NATIONAL ADVISORY COUNCIL ON EXTENSION AND CONTINUING EDU- CATION

#### Public Meeting

Notice is hereby given, pursuant to the Federal Advisory Committee Act, P.L. 92-463 that a meeting of the Council will be held on June 16-18, 1976, at the Holiday Inn-Union Square, 480 Sutter Street, San Francisco, California. The meetings on June 16 and 17 are scheduled from 9:00 a.m. to 5:00 p.m.; and June 18, from 9:00 a.m. to 12:00 noon.

The National Advisory Council on Extension and Continuing Education is authorized under Public Law 89-329. The

Council is directed to advise the Commissioner of Education in the preparation of general regulations and with respect to policy matters arising in the administration of Title I, and to report annually to the President on the administration and effectiveness of all federally supported extension and continuing education programs, including community service programs.

The meetings of the Council will be open to the public. The agenda will include: (1) a review of the impact of the reauthorization by Congress of the Higher Education Act; (2) discussion of major trends in postsecondary education; (3) review of Federal policies and priorities for postsecondary education with the Under Secretary of the Department of Health, Education, and Welfare and others; (4) a discussion of Council activities for FY 77; and (5) election of Council officers. All records of Council proceedings are available for public inspection at the Council's staff office, located in Suite 529, 425 Thirteenth Street, N.W., Washington, D.C.

Dated: May 12, 1976.

JAMES A. TURMAN,  
Executive Director.

[FR Doc. 76-14490 Filed 5-18-76; 8:45 am]

#### Food and Drug Administration

##### ADVISORY COMMITTEES

#### Notice of Meetings

This notice announces forthcoming meetings of the public advisory committees of the Food and Drug Administration. It also sets out a summary of the procedures governing the committee meetings and the methods by which interested persons may participate in the open public hearings conducted by the committees. The notice is issued under section 10(a) (1) and (2) of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770-776 (5 U.S.C. App. I)). The following advisory committee meetings are announced:

Committee name	Date, time, and place	Type of meeting and contact person
1. Medical Devices Classification Panel Chairmen.	June 4, 9 a.m., Room 1813, FH-8, 200 C St. SW., Washington, D.C.	Open public hearing 9 to 10 a.m.; open committee discussion 10 a.m. to 4 p.m.; Robert S. Kennedy, Ph.D. (HFK-440), 8757 Georgia Ave., Silver Spring, Md. 20910, 301-427-7234.

**General function of the committee.** Reviews and evaluates available data concerning the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

**Agenda—Open public hearing.** Interested parties wishing to address the

panel chairmen concerning the classification of medical devices should contact Robert S. Kennedy, Ph.D.

**Open committee discussion.** Discussion of Medical Devices Amendments of 1976 and the future role of classification panels and their subcommittees.

Committee name	Date, time, and place	Type of meeting and contact person
1a. Pediatric Advisory Subcommittee of the Psychopharmacological Agents Advisory Committee.	June 21, 9 a.m., Room 1813, Parklawn Bldg., 5600 Fishers Lane, Washington, D.C.	Open public hearing/open committee discussion, 9 a.m. to 5 p.m.; Jay Cinque (HFD-120), 5600 Fishers Lane, Rockville, Md. 20852, 301-413-3800.

**General function of the committee.** Reviews and evaluates available data concerning the safety and effectiveness of marketed and investigational prescription drugs for use in the practice of psychiatry and related fields.

**Agenda—Open public hearing/open committee discussion.** Discussion of pedi-

atric clinical guidelines; protocol on long-term effects of stimulants; final report on the review of the phenothiazines for the nonmentally retarded. Interested persons may present data, information, or views, orally or in writing, on issues pending before the committee.

Committee name	Date, time, and place	Type of meeting and contact person
2. Neurologic Drugs Advisory Committee.	June 21 and 22, 9:30 a.m., Conference Room G, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open public hearing June 21, 9:30 to 10:30 a.m.; open committee discussion June 21, 10:30 to 11:15 a.m.; closed committee deliberations June 21, 11:30 a.m. to 12:30 p.m.; open committee discussion June 21, 1:30 to 2:30 p.m.; closed committee deliberations June 21, 2:45 to 4 p.m., June 22, 10:30 a.m. to 12:30 p.m.; Stephen C. Graft (HFD-120), 5600 Fishers Lane, Rockville, Md. 20852, 301-413-3800.

**General function of the committee.** Reviews and evaluates available data concerning the safety and effectiveness of marketed and investigational prescription drugs for use in neurologic disease.

**Agenda—Open public hearing.** Any interested person may present data, information, or views, orally or in writing, on issues pending before the committee.

**Open committee discussion.** Discussion of Transderm Scop-210 (NDA 17-874, Alza); Lissiril (NDA 17-821, Merck Sharp and Dohme); and Lioresal (NDA 17-851, Ciba-Geigy).

**Closed committee deliberations.** Discussion of Transderm Scop-210 (NDA 17-874); Lissiril (NDA 17-821); and Lioresal (NDA 17-851). This portion of

the meeting will be closed to protect the free exchange of internal views and to permit the formulation of recommendations (5 U.S.C. 552(b) (5)).

Committee name	Date, time, and place	Type of meeting and contact person
3. Conception Control Devices Subcommittee of the Panel on Review of Obstetrical-Gynecological Devices.	June 21, and 22, 9 a.m., Room 6821, FB-8, 200 C St. SW., Washington, D.C.	Open public hearing June 21, 9 a.m. to 2 p.m.; open committee discussion June 21, 2 to 4 p.m.; open public hearing June 22, 9 a.m. to 12 noon; open committee discussion June 22, 1 to 3 p.m.; Lillian Yin, Ph.D. (HFK-470), 8757 Georgia Ave., Silver Spring, Md. 20910, 301-427-7238.

**General function of the committee.** Reviews and evaluates available data concerning the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

**Agenda—Open public hearing.** Interested parties are encouraged to present information pertinent to formulation of guidelines for a product development protocol for tubal occlusion devices for female sterilization. The following people will speak during the open public hearing: Theodore M. King, M.D., Ph.D., will speak on tubal occlusion devices for female sterilization; Jaroslav F. Hulka, M.D., will speak on preclinical and clinical testing of tubal occlusion devices for female sterilization; David A. Edelman, Ph.D., will speak on relative safety of spring loaded clips, tubal bands and electrocoagulation for female sterilization; and Leo Morris, M.P.H., will speak on statistical evaluation of tubal occlusion devices and electrocoagulation for female sterilization. The subcommittee will review the draft guidelines of preclinical and clinical studies for a product development protocol for IUD's.

**Open committee discussion.** The subcommittee will draft guidelines for a product development protocol for tubal occlusion devices for female sterilization.

Committee name	Date, time, and place	Type of meeting and contact person
4. Panel on Review of Topical Analgesics.	June 22 and 23, 9 a.m., Conference Room B, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open public hearing June 22, 9 to 10 a.m.; closed committee deliberations June 22, 10 a.m. to 4:30 p.m., June 23, 9 a.m. to 4:30 p.m.; Lee Geismar (HFD-610), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4900.

**General function of the committee.** Reviews and evaluates available data concerning the safety and effectiveness of nonprescription drug products.

**Agenda—Open public hearing.** During this portion any interested person may present data, information, or views, orally or in writing, on issues pending before the committee.

**Closed committee deliberations.** The panel will review data submitted in confidence pursuant to the OTC (over-the-counter drug products) review's call for data for this panel (see also 21 CFR 330.10(a) (2)). This will include product names, formulas and formulation process data, sales data and, in some cases, portions of pending or approved new drug applications (NDA's). Also, discussions relating to labeling, drug class stand-

ards and testing will often be intermixed with discussion of formulas, sales data or NDA material in such a way that the two discussions often cannot be separated without seriously impeding the progress of the panel's deliberations.

The panel will be reviewing, voting upon and modifying the content of summary minutes and categorization of ingredients and claims.

The panel will be reviewing, voting upon and modifying draft No. 1 of its final report in preparation for submission to the Commissioner. This portion of the meeting will be closed to permit discussion of trade secret data, to protect the free exchange of internal views, and for formulation of recommendations (5 U.S.C. 552(b) (4) and (5)).

5. Panel on Review of Viral Vaccines and Rickettsial Vaccines.	June 22, 23, and 24, 9 a.m., Room 121, NIH Building 29, 6800 Rockville Pike, Bethesda, Md.	Open public hearing June 22, 9 to 10 a.m.; open committee discussion June 22, 10 a.m. to 1 p.m.; closed committee deliberations June 22, 1:20 p.m. to adjournment, June 23, 9 a.m. to 6 p.m.; open committee discussion June 24, 9 a.m. to 2 p.m.; closed committee deliberations June 24, 2 to 4 p.m.; Jack Gertzog (HFD-6), 6110 Executive Blvd., Rockville, Md. 20852, 301-443-1916.

**General function of the committee.** Reviews and evaluates available data concerning the safety and effectiveness of biological products.

**Agenda—Open public hearings.** Interested persons may present data, information, or views, orally or in writing, on issues pending before the committee.

**Open committee discussion.** Discussion of previous meeting's minutes, communications received; comments from observ-

ers; discussion of influenza vaccine; and discussion of HBsAg immune globulin.

**Closed committee deliberations.** Discussion of the panel report on the safety and effectiveness of licensed viral and rickettsial vaccines. This portion of the meeting will be closed to protect the free exchange of internal views, for formulation of final recommendations, and to avoid undue interference with committee operations (5 U.S.C. 552(b) (5)).

6. Biometric and Epidemiological and Methodology Advisory Committee.	June 23, 9 a.m., Conference Room F, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open public hearing 9 to 10 a.m.; open committee discussion 10 a.m. to 4 p.m.; closed committee deliberations 4 to 5 p.m.; Robert T. O'Neill (HFD-232), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4394.

**General function of the committee.** Reviews and evaluates scientific studies and data with respect to, and otherwise advises the Commissioner on, epidemiological and biometrical methodology.

**Agenda—Open public hearing.** Any interested person may present data, information, or views, orally or in writing, on issues pending before the committee.

**Open committee discussion.** Statistical considerations for crossover design for drug studies and statistical considerations in the evaluation of combina-

tion drug studies. Interested parties who wish to make a formal presentation on either of these topics should contact the Executive Secretary. The presentation should be submitted in writing to the Executive Secretary. The presentation

**Closed committee deliberations.** Discussion of the subjects shown in the open session. This portion of the meeting will be closed to protect the free exchange of internal views and for formulation of recommendations (5 U.S.C. 552(b)(5)).

Committee name	Date, time, and place	Type of meeting and contact person
7. Panel on Review of General and Plastic Surgery Devices.	June 24, 8 a.m., Room 1131, HFW-N, 330 Independence Ave., S.W., Washington, D.C.	Open public hearing 8 a.m. to 12 m.; open committee discussion 1 to 3:30 p.m.; Mark E. Parrish (HFK-470), 8757 Georgia Ave., Silver Spring, Md. 20910, 301-457-7238.

**General function of the committee.** Reviews and evaluates available data concerning the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

**Agenda—Open public hearing.** Presentations will be made by the following: Charles T. Patrick and Alan G. Furler (NDM Corp.), "Patient Return Electrode Requirements for Electrosurgery"; Dr. Leon Goldman (Director, Laser Laboratory, Medical Center, University of Cincinnati, Ohio), "Safety and Efficacy of Surgical Lasers"; Dr. Robert M. Johnson (Evergreen Eye Clinic, Kirkland, Washington), "Flammability of Disposable Surgical Drapes."

**Open committee discussion.** The Panel on Review of General and Plastic Surgery Devices has made a preliminary classification of the following medical devices into the Class II regulatory category—Standards: drapes and drape packs; electrosurgical units and accessories; surgical lasers.

Following this preliminary recommendation, an inter-panel ranking of devices has resulted in the placement of electrosurgical devices among those judged by all classification panels to most urgently

require the development of standards. Surgical lasers received an inter-panel ranking immediately below that for electrosurgical devices. Surgical drapes have received no inter-panel consideration since these devices were placed in a low priority category by the Panel on Review of General and Plastic Surgery Devices. Because of special interests directed to the agency relative to flammability characteristics of disposable surgical drapes, these devices are being reexamined.

The panel will discuss the above-listed devices, specifically addressing (1) any potential for hazard in their use, and their efficacy and (2) whether the development of standards will be an effective and appropriate method to reduce potential hazards and ensure the efficacy of these devices (Item "2" does not apply to electrosurgical devices since the agency is already having a standard developed for these devices.)

The panel will also discuss and formulate their recommendations for the content of performance and safety standards for these devices.

The panel invites the participation of representatives of the concerned medical device industries.

Committee name	Date, time, and place	Type of meeting and contact person
8. Panel on Review of Antiperspirant Drug Products.	June 24 and 25, 9 a.m., Conference Room B, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open public hearing June 24, 9 to 10 a.m.; closed committee deliberations June 24, 10 a.m. to 4:30 p.m., June 25, 9 a.m. to 4:30 p.m.; Lee Gelsman (HFD-510), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4394.

**General function of the committee.** Reviews and evaluates available data concerning the safety and effectiveness of nonprescription drug products.

**Agenda—Open public hearing.** During this portion any interested person may present data, information, or views, orally or in writing, on issues pending before the committee.

**Closed committee deliberations.** The panel will review data submitted in con-

fidence pursuant to the OTC (over-the-counter drug products) review's call for data for this panel (see also 21 CFR 330.10(a)(2)). This will include product names, formulas and formulation process data, sales data, and in some cases, portions of pending or approved new drug applications (NDA's). Also, discussions relating to labeling, drug class standards and testing will often be intermixed with discussion of formulas, sales data or

9. Panel on Review of Ophthalmic Devices.	June 24 and 25, 9:30 a.m., Room 6821, FH-8, 200 C St., S.W., Washington, D.C.	Open public hearing June 24, 9:30 to 10:30 a.m.; open committee discussion June 24, 10:30 a.m. to 4:30 p.m.; open public hearing June 25, 9:30 to 10:30 a.m.; open committee discussion June 25, 10:30 a.m. to 4:30 p.m.; Richard Hawkins, Ph.D. (HFK-470), 8757 Georgia Ave., Silver Spring, Md. 20910, 301-457-7238.

**General function of the committee.** Reviews and evaluates available data concerning the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

**Agenda—Open public hearing.** Interested parties are encouraged to submit pertinent information in writing or to make an oral presentation to the panel. Any interested person who wishes to make a presentation should inform Richard Hawkins, Ph.D., Executive Secretary, orally or in writing prior to the meeting. Any person attending the meeting who did not request an opportunity to make a presentation shall be given an opportunity to do so at the conclusion of the open session, at the discretion of the chairman and to the extent that time permits. It should be noted

that although 1 hour has been set aside for public participation at the beginning of each day that this is a minimum. Should more time be required, the open session may be extended at the discretion of the chairman.

**Open committee discussion.** The panel will review guidelines for the development of intraocular lenses including manufacturing practices, preclinical toxicity testing, microbiology and clinical testing. The panel will complete the establishment of priorities for all ophthalmic devices.

The panel, having completed the tentative classification of ophthalmic devices, will begin to summarize the reasons for the recommendations and identification of any risks to health which may be associated with the device.

10. Diagnostic and Monitoring Instruments and Devices Subcommittee of the Panel on Review of Neurological Devices.	June 25, 9 a.m., Room 1409, FB-8, 200 C St., S.W., Washington, D.C.	Open public hearing 9 to 10 a.m.; open committee discussion 10 a.m. to 4 p.m.; James R. Veale (HFK-450), 8757 Georgia Ave., Silver Spring, Md. 20910, 301-457-7226.

**General function of the committee.** Reviews and evaluates available data concerning the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

**Agenda—Open public hearing.** Interested parties are encouraged to present information relative to the prior classification of neurological diagnostic and monitoring devices to James R. Veale, Executive Secretary.

**Open committee discussion.** The panel will review the status of the medical device bill; review of previous classification of neurological diagnostic and monitoring devices; establish priorities for devices subject to standards and premarket approval; and identify device applicability for electrical safety standards, electromagnetic interference standards, and environmental standards.

Committee name	Date, time, and place	Type of meeting and contact person
11. Panel on Review of Blood and Blood Derivatives.	June 25 and 26, 9 a.m., Room 121, NIH, Building 29, 8900 Rockville Pike, Bethesda, Md.	Open public hearing/open committee discussion June 25, 9 to 10 a.m.; closed committee deliberations June 25, 10 a.m. to 5 p.m., June 26, 9 a.m. to 5 p.m.; Clay Sisk (HFB-5), 6110 Executive Blvd., Rockville, Md. 20852, 301-443-1910.

**General function of the committee.** Reviews and evaluates available data concerning the safety and effectiveness of biological products.

**Agenda—Open public hearing/open committee discussion.** Discussion of previous meeting's minutes; letters and communications received; and comments or presentations from the public.

**Closed committee deliberations.** Review of data submissions from producers of plasma fractionation products in-

cluding Fibrinogen (Human), Antihemophilic Factor (Human), Factor IX Complex (Human), Normal Serum Albumin (Human), Plasma Protein Fraction (Human), and Rho (D) Immune Globulin (Human). This portion of the meeting will be closed to permit discussion of trade secret data, to allow for the free exchange of internal views, and for formulation of recommendations (5 U.S.C. 552(b)(4) and (5)).

Kennedy (HFD-510), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4960.

**General function of the committee.** Reviews and evaluates available data concerning the safety and effectiveness of nonprescription drug products.

**Agenda—Open public hearing.** During this portion any interested person may present data, information, or views, orally or in writing, on issues pending before the committee.

**Closed committee deliberations.** The panel will review data submitted in confidence pursuant to the OTC (over-the-counter drug products) review's call for data for this panel (see also 21 CFR 330.10(a)(2)). This will include product names, formulas and formulation process data, sales data, and in some cases, portions of pending or approved new drug applications (NDA's). Also, discussions relating to labeling, drug class standards and testing will often be intermixed with discussion of formulas, sales data or NDA material in such a way that the two discussions often cannot be separated without seriously impeding the progress of the panel's deliberations. This portion of the meeting will be closed to permit discussion of trade secret data, to protect the free exchange of internal views, and for formulation of

recommendations (5 U.S.C. 552(b)(4) and (5)).

Each public advisory committee meeting listed above may have as many as four separable portions: (1) An open public hearing, (2) an open committee discussion, (3) a closed presentation of data, and (4) a closed committee deliberation. Every advisory committee meeting shall have an open public hearing. Whether or not it also includes any of the other three portions will depend upon the specific meeting involved. The dates and times reserved for the separate portions of each committee meeting are listed above.

The open public hearing portion of each meeting shall be at least 1 hour long unless public participation does not last that long. It is emphasized, however, that the 1 hour time limit for an open public hearing represents a minimum rather than a maximum time for public participation, and an open public hearing may last for whatever longer period the committee chairman determines will facilitate the committee's work.

Meetings of advisory committees shall be conducted, insofar as is practical, in accordance with the agenda published

in this FEDERAL REGISTER notice. Changes in the agenda will be announced at the beginning of the open portion of a meeting.

Any interested person who wishes to be assured of the right to make an oral presentation at the open public hearing portion of a meeting shall inform the contact person listed above, either orally or in writing, prior to the meeting. Any person attending the hearing who does not in advance of the meeting request an opportunity to speak will be allowed to make an oral presentation at the hearing's conclusion, if time permits, at the chairman's discretion.

Persons interested in specific agenda items to be discussed in open session may ascertain from the contact person the approximate time of discussion.

The Commissioner, with the concurrence of the Chief Counsel, has determined for the reasons stated that those portions of the advisory committee meetings so designated in this notice shall be closed. Both the Federal Advisory Committee Act and 5 U.S.C. 552(b) permit such closed advisory committee meetings in certain circumstances. Those portions of a meeting designated as closed shall, however, be closed for the shortest time possible consistent with the intent of the cited statutes.

Generally, FDA advisory committees will be closed because the subject matter is exempt from public disclosure under 5 U.S.C. 552(b)(4), (5), (6), or (7), although on occasion the other exemptions listed in 5 U.S.C. 552(b) may also apply. Thus, a portion of a meeting may be closed where the matter involves a trade secret; commercial or financial information that is privileged or confidential; personnel, medical, and similar files, disclosure of which could be an unwarranted invasion of personal privacy; and investigatory files compiled for law enforcement purposes. A portion of a meeting may also be closed if the Commissioner determines: (1) That it involves inter-agency or intra-agency memoranda or discussion and deliberations of matters that, if in writing would constitute such memoranda, and which would, therefore, be exempt from public disclosure; and (2) that it is essential to close such portion of a meeting to protect the free exchange of internal views and to avoid undue interference with agency or committee operations.

Examples of matters to be considered at closed portions are those related to the review, discussion, evaluation or ranking of grant applications; the review, discussion, and evaluation of specific drugs or devices; the deliberation and voting relative to the formation of specific regulatory recommendations (general discussion, however, will generally be done during the open committee discussion portion of the meeting); review of trade secrets or confidential data; consideration of matters involving FDA investigatory files; and review of medical records of individuals.

Examples of matters that ordinarily will be considered at open meetings are those related to the review, discussion,

Health Resources Administration  
GRADUATE MEDICAL EDUCATION  
NATIONAL ADVISORY COMMITTEE  
Notice of Establishment

Pursuant to the Federal Advisory Committee Act of October 6, 1972, Public Law 92-463, (86 Stat. 770-776) the Health Resources Administration announces the establishment by the Secretary, HEW, with concurrence by the Office of Management and Budget Committee Management Secretariat, of the following advisory committee:

Designation: Graduate Medical Education National Advisory Committee.  
Purpose: The Committee shall advise, consult with and make recommendations to the Secretary on overall strategies on the present and future supply and requirements of physicians by specialty and geographic locations; translations of physician requirements into a range of types and numbers of graduate training opportunities needed to approach a more desirable distribution of physician services, taking into account National Health Planning goals, guidelines, standards, and, as appropriate, the health system plans developed by health system agencies; factors which affect physician career choice; the impact of various activities which influence specialty distribution and the availability of training opportunities, including systems of reimbursement of services and financing of graduate medical education; and the relationship of graduate medical education to the provision of services in training institutions, including alternatives for the provision of these services.

The Committee shall advise on data requirements and systems needed to conduct the activities of the Committee; propose national goals for the distribution of physicians in graduate training; and recommend Federal policies, strategies, and plans to achieve the established goals in concert with the private sector and non-Federal agencies.

Authority for this Committee will expire two years from date of the filing of the Charter, unless the Secretary, HEW, with the concurrence of the Office of Management and Budget Committee

## NOTICES

Management Secretariat, formally determines that continuance is in the public interest.

Dated: May 13, 1976.

URBAN DEVELOPMENT

Office of Interstate Land Sales Registration  
[Docket No. N-76-533]

COQUINA RANCHETTES  
Notice of Hearing

In the matter of: COQUINA RANCHETTES—76-62-IS OILSR No. 0-2571-09-715, Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), Notice is hereby given that:

1. Coquina Ranchette, Viking Communities Corporation, Robert Birenbaum, President, its officers and agents, hereinafter referred to as "Respondent" being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. Law 90-448) (15 U.S.C. 1701, et seq.) received a Notice of Proceedings and Opportunity for Hearing issued March 15, 1976, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b)(1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for Viking Communities Corporation, Robert Birenbaum, President, and their agents contain untrue statements of material fact or omit to state material facts required to be stated therein or necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received April 5, 1976, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), it is hereby ordered That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street, S.W., Washington, D.C., on June 17, 1976 at 10:00 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before June 3, 1976.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b)(1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

By the Secretary.  
Dated: April 14, 1976.

JAMES W. MAST,  
Administrative Law Judge.

KINGMON PARK ESTATES  
Notice of Hearing

In the matter of: KINGMON PARK ESTATES—76-77-IS OILSR No. 0-2160-02-433; pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), Notice is hereby given that:

1. Kingmon Park Estates, Units 1 and 2, Desert Subdividers, Inc., and Roger A. Franklin, Authorized Agent, its officers and agents, hereinafter referred to as "Respondent" being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. Law 90-448) (15 U.S.C. 1701, et seq.) received a Notice of Proceedings and Opportunity for Hearing issued March 19, 1976, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b)(1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for Desert Subdividers, Inc. and Roger A. Franklin, Authorized Agent contain untrue statements of material fact or omit to state material facts required to be stated therein or necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received April 16, 1976, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), it is hereby ordered, That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street, S.W., Washington, D.C., on June 14, 1976 at 10:00 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before June 1, 1976.

## NOTICES

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b)(1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

By the Secretary.

Dated: April 23, 1976.

MIAMI WEST DADE ACRES  
Notice of Hearing

In the matter of: MIAMI WEST DADE ACRES—76-63-IS OILSR No. 0-0882-09-209; pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), Notice is hereby given that:

1. Miami West Dade Acres, Viking Communities Corporation, Robert Birenbaum, President, its officers and agents, hereinafter referred to as "Respondent" being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. Law 90-448) (15 U.S.C. 1701, et seq.) received a Notice of Proceedings and Opportunity for Hearing issued March 15, 1976, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b)(1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for Viking Communities Corporation, Robert Birenbaum, President, and their agents contain untrue statements of material fact or omit to state material facts required to be stated therein or necessary to make the statements therein not misleading.

2. The respondent filed an Answer received April 2, 1976, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), it is hereby ordered That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street, S.W., Washington, D.C., on June 17, 1976 at 10:00 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before June 3, 1976.

Building, Room 10150, Washington, D.C., 20410 on or before June 3, 1976.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b)(1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

By the Secretary.

Dated: April 14, 1976.

PALM BEACH NORTH  
Notice of Hearing

In the matter of: PALM BEACH NORTH—76-73-IS OILSR No. 0-0269-09-63; pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), Notice is hereby given that:

1. Palm Beach North, Viking Communities Corporation, Robert Birenbaum, President, its officers and agents, hereinafter referred to as "Respondent" being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. Law 90-448) (15 U.S.C. 1701, et seq.) received a Notice of Proceedings and Opportunity for Hearing issued March 19, 1976, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b)(1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for Palm Beach North, Viking Communities Corporation, Robert Birenbaum, President, and their agents contain untrue statements of material fact or omit to state material facts required to be stated therein or necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received April 5, 1976, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), it is hereby ordered That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street, S.W., Washington, D.C., on June 17, 1976 at 10:00 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before June 3, 1976.

be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before June 3, 1976.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b)(1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

By the Secretary.

Dated: April 14, 1976.

PELICAN HARBOR  
Notice of Hearing

In the matter of: PELICAN HARBOR—76-65-IS OILSR No. 0-2343-09-715; pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), Notice is hereby given that:

1. Pelican Harbor, Viking Mobile Homes, Inc., Bennett Cole, President, its officers and agents, hereinafter referred to as "Respondent" being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. Law 90-448) (15 U.S.C. 1701, et seq.) received a Notice of Proceedings and Opportunity for Hearing issued March 15, 1976, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b)(1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for Viking Mobile Homes, Inc., contain untrue statements of material fact or omit to state material facts required to be stated therein or necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received April 5, 1976, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), it is hereby ordered That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street, S.W., Washington, D.C., on June 17, 1976 at 10:00 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before June 3, 1976.

6. The respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b) (1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

By the Secretary.

Dated: April 14, 1976.

# PUNTO DE VISTA Notice of Hearing

In the matter of: PUNTO DE VISTA UNITS I, II, III—76-270-18 OILSR No. 0-0296-02-47; pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), Notice is hereby given that:

1. Punto de Vista Units I, II, III, Ken Bahme, General Partner, Thumb Butte Investment Company, its officers and agents, hereinafter referred to as "Respondent" being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. Law 90-448) (15 U.S.C. 1701, *et seq.*) received a Notice of Proceedings and Opportunity for Hearing issued November 14, 1975, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b) (1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for Thumb Butte Investment Company, Punto de Vista Units I, II, III, and their agents contain untrue statements of material fact or omit to state material facts required to be stated therein or necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received February 27, 1976, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), it is hereby ordered That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street, S.W., Washington, D.C., on June 21, 1976 at 10:00 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C. 20410 on or before June 7, 1976.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b) (1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

By the Secretary.

Dated: April 22, 1976.

# PUNTO DE VISTA Notice of Hearing

In the matter of: PUNTO DE VISTA UNIT 4—76-271-18 OILSR No. 0-2225-02-455, pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), Notice is hereby given that:

1. Punto de Vista Unit 4, Lawrence Mercer, General Partner, Thumb Butte Investment Company No. 2, its officers and agents, hereinafter referred to as "Respondent" being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. Law 90-448) (15 U.S.C. 1701, *et seq.*) received a Notice of Proceedings and Opportunity for Hearing issued November 14, 1975, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b) (1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for Thumb Butte Investment Co. No. 2, and their agents contain untrue statements of material fact or omit to state material facts required to be stated therein or necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received February 26, 1976, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), it is hereby ordered That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street, S.W., Washington, D.C., on June 21, 1976 at 10:00 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before June 6, 1976.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b) (1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

By the Secretary.

Dated: April 22, 1976.

# ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

## SUBCOMMITTEE ON ADMINISTRATIVE DISCRETION OF THE COMMITTEE ON INFORMAL ACTION

### Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given of a meeting of the Subcommittee on Administrative Discretion of the Committee on Informal Action of the Administrative Conference of the United States, to be held at 11:30 a.m., June 3, 1976 in the office of the Energy Action Committee, 1523 L Street, N.W., Suite 302, Washington, D.C.

The Subcommittee will meet to consider Professor William Lockhart's draft study of prosecutorial discretion in the Food and Drug Administration.

Attendance is open to the interested public, but limited to the space available. Persons wishing to attend should notify the Administrative Conference of the United States, 2120 L Street, N.W., Suite 500, Washington, D.C. 20037, at least two days in advance. The Committee Chairman may, if he deems it appropriate, permit members of the public to present oral statements at the meeting; any member of the public may file a written statement with the Subcommittee before, during or after the meeting.

For further information concerning this Subcommittee meeting contact David Pritzker (202-254-7065). Minutes of the meeting will be available on request.

RICHARD K. BERG,  
Executive Secretary.

MAY 13, 1976.

### HAWAIIAN AIRLINES, INC. AND AEROLINEE ITAVIA, S.P.A.

#### Proposed Approval or Disclaimer of Jurisdiction

Application of Hawaiian Airlines, Inc., and Aerolinee Itavia, S.P.A., for approval or disclaimer of jurisdiction under section 408 of the Federal Aviation Act of 1958, as amended, Docket 29174.

Notice is hereby given, pursuant to the statutory requirements of section 408 (b) of the Federal Aviation Act of 1958, as amended, that the undersigned intends to issue the attached order under delegated authority. Interested persons are hereby afforded until May 25, 1976 within which to file comments or request a hearing with respect to the action proposed in the order.

Dated at Washington, D.C., May 13, 1976.

[SEAL] BRUCE E. CUNNINGHAM,  
Director,  
Bureau of Operating Rights.  
HAWAIIAN AIRLINES, INC., AEROLINEE ITAVIA,  
S.P.A., LEASE TRANSACTION

Docket 29174

Issued under delegated authority

Application of Hawaiian Airlines, Inc., and Aerolinee Itavia, S.P.A., for approval or disclaimer of jurisdiction under section 408 of the Federal Aviation Act of 1958, as amended.

#### ORDER OF APPROVAL

Hawaiian Airlines, Inc. (Hawaiian), and Aerolinee Itavia, S.P.A. (Itavia), request that the Board approve, pursuant to the third proviso of section 408 (b) of the Federal Aviation Act of 1958, as amended (the Act) or in the alternative, disclaim jurisdiction over, the lease of one DC-9-50 aircraft by Hawaiian to Itavia.

The term of the lease is for 12½ months beginning May 10, 1976. Itavia will pay to Hawaiian a basic monthly rent of \$100,000 per month plus a usage charge of \$50 per block hour of flight time.

Itavia will be responsible for maintaining the aircraft to FAA standards, for maintaining U.S. registration of the aircraft, and for securing necessary insurance on the aircraft. The DC-9-50 to be leased to Itavia is currently leased by Hawaiian from Wells Fargo Bank, N.A., as owner trustee.

In support of their request, Hawaiian and Itavia assert that because of Hawaiian's short-range aircraft needs, it would be more advantageous to sublease the aircraft for 12½ months; that the lease, which was entered into as a result of arm's-length bargaining, is a standard form of aircraft lease for the industry; that the lease would have been subject to the exemption provided by Part 299 of the Board's Regulations but for the fact that Itavia is not an air carrier within the meaning of that Part or within the meaning of the Act; and that the aircraft to be leased is not, in fact, a substantial part of Hawaiian's properties.

No objections to this application or requests for a hearing have been received.

Notice of intent to dispose of this application without a hearing has been published in the FEDERAL REGISTER, and a copy of such notice has been furnished by the Board to the Attorney General not later than the day following the date of such publication, both in accordance with the requirements of section 408 (b) of the Act.

Upon consideration of the above, it is concluded that the proposed lease may involve a substantial part of the properties of an air carrier, Hawaiian; that Itavia is a person engaged in a phase of aeronautics; and that the lease therefore may be subject to section 408 (a) (2) of the Act. However, it is further

The Board has in the past held that it will disclaim jurisdiction under sec. 408 (a) (2) of the Act if the equipment constitutes less than 10 percent of the carrier's fleet in terms of market value, lift capacity, and number of aircraft. (CF. orders 70-11-13 and

concluded that the transaction does not affect control of an air carrier directly engaged in the operation of aircraft in air transportation, or tend to unreasonably restrain trade, substantially lessen competition, or create a monopoly. The lease was entered into after arm's-length bargaining, and there appear to be no interlocking or common control relationships between or among Hawaiian, Itavia, or any of their affiliates. The lease appears to be the result of a decision by Hawaiian's management that the DC-9-50 was superfluous to Hawaiian's operational needs for the next year, and as a result, it does not appear that the lease will impair Hawaiian from performing its certificate obligations. Moreover, the lease itself would have fallen within the exemption of Part 299 of the Board's Regulations but for the fact that Itavia is not an air carrier. On the basis of these considerations, it appears that the lease transaction is not inconsistent with the public interest and will not leave the requirements of section 408 of the Act unfulfilled.

Pursuant to authority duly delegated by the Board in the Board's Regulations, 14 CFR 385.3 and 385.13, it is found that the foregoing transaction should be approved pursuant to the third proviso of Section 408 (b) of the Act and that all other requests in the application in docket 29174 should be dismissed.

#### ACCORDINGLY, IT IS ORDERED THAT:

1. The subject lease of one DC-9-50 aircraft by Itavia from Hawaiian, as hereinabove described, be and it hereby is approved; and

2. To the extent not specifically granted herein, all other requests in the application in docket 29174 be and they hereby are dismissed.

Persons entitled to petition the Board for review of this order pursuant to the Board's Regulations, 14 CFR 385.50, may file such petitions within 10 days of the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period unless within such period a petition for review thereof is filed or the Board gives notice that it will review this order on its own motion.

By Bruce Cunningham, Director, Bureau of Operating Rights.

Acting Secretary.

[Docket 28800]

#### PHOENIX-DES MOINES/MILWAUKEE ROUTE PROCEEDING Hearing

Notice is hereby given, pursuant to the provisions of the Federal Aviation Act of 1958, as amended, that a hearing in the above-entitled proceeding will be held on July 13, 1976 at 9:00 a.m. (mountain standard time), in the Phoenix Room, Phoenix Civic Plaza, 235 E.

70-11-14, Nov. 4, 1970, and 72-2-60, Feb. 16, 1972.) The DC-9-50 to be leased constitutes 10 percent of the number of aircraft in Hawaiian's fleet, 10.4 percent of the fleet's seating capacity, and 11.4 percent of its market value. In calculating these percentages, certain aircraft which Hawaiian has leased to other persons for a term of more than 6 months were excluded from the inventory base, consistent with the procedure of Sterling Airways A/S and Overseas National Airways, Inc., Dry-Lease Transaction, order 75-9-80 Sept. 23, 1975, n. 2.

Adams Street, Phoenix, Arizona, before the undersigned.

If the hearing has not concluded before July 16, 1976, the session for July 18, 1976 will be held in the Phoenix Ball Room, Hyatt Regency Phoenix, 122 N. Second Street, Phoenix, Arizona.

For information concerning the issues involved and other details in this proceeding, interested persons are referred to the prehearing conference report served March 31, 1976, and other documents which are in the docket of this proceeding on file in the Docket Section of the Civil Aeronautics Board.

Dated at Washington, D.C., May 13, 1976.

[SEAL] BURTON S. KOLKO,  
Administrative Law Judge.

[FR Doc.76-14543 Filed 5-18-76; 8:45 am]

#### FEDERAL POWER COMMISSION

[Docket No. ER76-659]

#### ALABAMA POWER CO.

#### Tariff and Interconnection Agreement Change

MAY 13, 1976.

Take notice that Alabama Power Commission on April 30, 1976, tendered for filing proposed changes in its FPC Electric Tariff, Original Volume No. 1. The proposed changes would increase revenues from jurisdictional sales and service by \$9,298,869 based on the 12-month period ending May 31, 1977. In addition, Alabama Power Company filed on the same date proposed revisions and changes to an Interconnection Agreement dated February 23, 1972 (FPC Rate Schedule No. 133) with Alabama Electric Cooperative, Inc. Such proposed revisions and changes would increase the rates and charges for Purchase Capacity transactions under that Agreement. This revision would increase capacity charges by \$4,036,113 for the year ending May 31, 1977. The Company states that it cannot with complete accuracy predict the energy transactions associated with Purchase Capacity transactions with Alabama Electric Cooperative, Inc. because use of Purchase Capacity is within the sole discretion of the Cooperative; however, the Company estimates that it will receive \$1,138,070 in additional revenue from such energy transactions during the year ending May 31, 1977.

The Company estimates its rate of return on its rate base from its sales to distribution cooperatives and municipalities in year ending May 31, 1977 to be (1) 4.96 percent from its sales to municipalities, and (ii) 5.62 percent from its sales to rural electric cooperatives under existing rates. The Company estimates that the Purchase Capacity transactions with Alabama Electric Cooperative, Inc. for the same period results in a negative return on its investment. The Company states that the average rate of return is far below its embedded cost of debt and is inadequate to attract capital required by the Company to pay for necessary expansions of its electric plant.

Copies of the filing were served upon the affected distribution cooperatives and municipalities, Alabama Electric Cooperative, Inc., Alabama Public Service Commission and Southeastern Power Administration.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 27, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc.76-14558 Filed 5-18-76; 8:45 am]

[Docket No. RP76-98]

#### ALGONQUIN GAS TRANSMISSION CO. Proposed Tariff Sheet Filing

MAY 12, 1976.

Take notice that on April 29, 1976, Algonquin Gas Transmission Company (Algonquin Gas) filed the following proposed tariff sheets to its FPC Gas Tariff, First Revised Volume No. 1:

First Revised Sheet No. 20-A  
First Revised Sheet No. 20-B  
First Revised Sheet No. 20-C

Algonquin Gas states that the proposed tariff sheets institute a Purchased Feedstock Adjustment Clause (PFAC) applicable to Algonquin Gas' Rate Schedule SNG-1 for one additional cycle. The PFAC would provide, through a Deferred Gas Cost Account with related amortization, surcharges for reimbursement to Algonquin Gas for undercharges or reimbursement to the Company's customers for overcharge resulting from the difference between (i) the actual feedstock costs for manufacturing gas delivered under such Rate Schedule SNG-1, and (ii) the base feedstock costs included in the charges to such customers for service under such rate schedule. The PFAC is proposed to be effective for an additional cycle as follows: (i) the period October 16, 1976 through April 15, 1977, with respect to the accumulation of such Deferred Gas Cost Account, and (ii) the period October 16, 1977 through April 15, 1978, with respect to the effectiveness of the amortization adjustment of such Deferred Gas Cost Account.

Algonquin Gas further states that copies of the filing have been served upon all of its customers and interested state regulatory commissions.

Any persons desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol

Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8, 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 26, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc.76-14560 Filed 5-18-76; 8:45 am]

[Docket No. CP76-361]

#### COLUMBIA GAS TRANSMISSION CORP. Application

MAY 13, 1976.

Take notice that on May 5, 1976, Columbia Gas Transmission Corporation (Applicant), P.O. Box 1273, Charleston, West Virginia 25325, filed in Docket No. CP76-361 an application for a disclaimer of jurisdiction or, in the alternative, pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale of natural gas in interstate commerce to The Sylvania Corporation (Sylvania) from the Sylvania No. 1 Well in the Thomas Corners Field, Town of Bath, Steuben County, New York, all as more fully set forth in the application on file with the Commission and open to public inspection.

The application states that the gas produced by Applicant and its co-owners would be delivered into Applicant's pipeline in Steuben County, in exchange for equal volumes of gas to be delivered to National Fuel Gas Supply Corporation for Sylvania's account at Applicant's Ellwood City compressor station in Beaver County, Pennsylvania. Applicant alleges that the gas delivered from the Sylvania No. 1 Well can not physically leave the State of New York although it would be introduced into Applicant's interstate pipeline system. Applicant submits, therefore, that the sale of the gas would not be a sale for resale in interstate commerce and, accordingly, requests a disclaimer of jurisdiction by the Commission.

In the alternative, Applicant requests a certificate of public convenience and necessity authorizing the sale for resale of the gas from the Sylvania No. 1 Well. Applicant would sell the gas at the rate provided by Section 2.56a of the Commission's General Policy and Interpretations (18 CFR 2.56a). Applicant requests that any certificate authorization terminate August 28, 1982, when its commitment to sell gas expires, and states that after that time Applicant's share of gas from the well would be added to Applicant's gas supply.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 7, 1976, file with the Federal Power Com-

mission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[FR Doc.76-14563 Filed 5-18-76; 8:45 am]

[Rate Schedule Nos. 284, et al.]

#### CONTINENTAL OIL CO., ET AL.

#### Rate Change Filings

MAY 12, 1976.

Take notice that the producers listed in the Appendix attached hereto have filed proposed increased rates to the applicable new gas national ceiling based on the interpretation of vintaging concepts set forth by the Commission in its Opinion No. 639, issued December 12, 1972, and in Opinion No. 699-H, issued December 4, 1974. The rates filed pursuant to Opinion No. 699-H, if accepted, will become effective as of the date of filing.

The information relevant to each of these sales is listed in the Appendix.

Any person desiring to be heard or to make any protest with reference to said filing should on or before May 28, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). A protest will not serve to make the protestant a party to the proceeding must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,  
Secretary.

[Docket No. ER76-651]

**GPU SERVICE CORP.****Notice of Filing**

MAY 13, 1976.

Take notice that on April 28, 1976, GPU Service Corporation (GPU) tendered for filing proposed Schedule 4.04, 8.04 and 11.01 modifying the Power Pooling Agreement (Agreement) among Pennsylvania Electric Company (Penelec), Metropolitan Edison Company (Met-Ed), and Jersey Central Power & Light Company (JC), dated July 21, 1969, as heretofore amended and supplemented, which is on file with the Commission under the following Rate Schedule designations:

Penelec, FPC No. 62  
Met-Ed, FPC No. 40  
JC, FPC No. 31

GPU states that the proposed schedules provide for the accounting and billing among the parties to the Agreement for excess and deficiencies of regulating capability as defined in proposed Schedule 4.04. The parties request that the proposed schedules become effective on June 1, 1976.

GPU states that copies of the proposed tariff have been served on the Regulatory Commissions of Pennsylvania and New Jersey.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 26, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this

filing are on file with the Commission and are available for public inspection.

[Docket No. RP73-8 (PGA76-9)]

**NORTH PENN GAS CO.****Proposed Changes in FPC Gas Tariff**

MAY 13, 1976.

Take notice that North Penn Gas Company (North Penn) on May 7, 1976, tendered for filing proposed changes in its FPC Gas Tariff, First Revised Volume No. 1, pursuant to its PGA Clause for rates to be effective June 1, 1976. North Penn has included in its filing increases under:

Section 14.1, Pipeline Suppliers.  
Section 14.3 and 14.5, Unrecovered Purchased Gas Cost Account and Flow-through of Refunds.

North Penn states that the increase under Section 14.1 was triggered by a revision of a PGA filing from Consolidated Gas Supply Corporation filed April 23, 1976, to become effective May 1, 1976 and will increase jurisdictional revenues by \$25.3 thousand annually.

The rate change under Sections 14.3 and 14.5 reflects a surcharge of 0.324¢ per Mcf which results from amounts accumulated in the Unrecovered Purchased Gas Account for the period September, 1975 through February, 1976, the jurisdictional portion of refunds received by North Penn from its suppliers for the same six-month period and a carry-over balance from the surcharge credit filed April 15, 1975, effective June, 1975 through November, 1975. The 0.324¢ surcharge will increase North Penn's jurisdictional revenues by \$14.1 thousand over the period June 1, 1976 through November, 1976.

North Penn is requesting a waiver of any of the Commission's Rules and Regulations in order to permit the proposed rates to go into effect on June 1, 1976.

North Penn states that copies of this filing were served upon North Penn's jurisdictional customers, as well as interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 26, 1976. Protests will be considered by the Commission in determining the appropriate action to be

taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc.76-14561 Filed 5-18-76;8:45 am]

[Docket No. ER76-666]

**PACIFIC POWER & LIGHT CO.****Filing of Service Agreements**

MAY 12, 1976.

Take notice that on May 3, 1976, Pacific Power & Light Company (Pacific) tendered for filing Service Agreements under its FPC Electric Tariff, Original Volume No. 2 for the following additional customers:

**PURCHASER AND DATE OF EXECUTION**

Puget Sound Power &amp; Light Company, 1/13/76.

Public Service Company of Colorado, 1/16/76.

Nevada Power Company, 1/16/76.

Also submitted was an updated Index of Purchasers under the tariff.

Pacific states that copies were sent to these three additional customers.

Pacific has requested a waiver of the notice requirements of the Commission's regulation to allow these schedules to become effective as of the date of execution.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 1, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc.76-14564 Filed 5-18-76;8:45 am]

[Docket No. RP73-36 (PGA No. 76-2)]

**PANHANDLE EASTERN PIPE LINE CO.****Change in Tariff**

MAY 13, 1976.

Take notice that on April 19, 1976, Panhandle Eastern Pipe Line Company (Panhandle) tendered for filing Substitute Sixteenth Revised Sheet No. 3-A to its FPC Gas Tariff, Original Volume No. 1, such sheet proposed to be effective April 1, 1976.

Panhandle states that the Commission issued its Order in Docket No. RP73-36 (PGA No. 76-2) on March 31, 1976 accepting for filing Panhandle's proposed PGA rate adjustment to reflect increased purchase gas costs occasioned by

Opinion No. 749, such rate adjustment to be revised to reflect the elimination of the effects of any supplier costs which would not be incurred by Panhandle as of April 1, 1976.

The Company submits that Substitute Sixteenth Revised Sheet No. 3-A reflects only purchase gas cost increases authorized by the Commission in Opinion No. 749 which are effective at April 1, 1976. Also, the revised tariff sheet reflects the effect of the flow through of amounts relating to Trunkline Gas Company's rate adjustment to be effective April 1, 1976.

To the extent required, if any, Panhandle requests waiver of those sections of the regulations as the Commission may deem necessary for the acceptance of this filing.

Copies of this filing were served on Panhandle's jurisdictional customers and applicable state regulatory agencies.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Section 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 28, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[Docket No. E-9659]

**SOUTH CAROLINA ELECTRIC & GAS CO.**  
Notice of Application

MAY 12, 1976.

Take notice that on May 4, 1976, South Carolina Electric & Gas Company (Applicant) filed an application seeking an order pursuant to Section 203 of the Federal Power Act authorizing it to sell certain electric transmission facilities to the City of Orangeburg, South Carolina. Applicant is incorporated under the laws of the State of South Carolina, with its principal business office at Columbia, South Carolina, and is engaged in the electric utility business in parts of 23 of the 46 counties of the State.

The Applicant proposes, subject to regulatory approval, to perform its agreement of January 5, 1976 with the City of Orangeburg, South Carolina to sell approximately 25.94 miles of 48 KV transmission line to be located in and near the City of Orangeburg, South Carolina. The City will pay the sum of \$53,734.77 in exchange for said property.

Any person desiring to be heard or to make any protest with reference to said

application should, on or before June 3, 1976, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc.76-14565 Filed 5-18-76; 8:45 am]

[Docket No. CP76-362]

**TEXAS EASTERN TRANSMISSION CORP., ET AL.**  
Notice of Application

MAY 13, 1976.

Take notice that on May 5, 1976, Texas Eastern Transmission Corporation (Texas Eastern), P.O. Box 2521, Houston, Texas 77001, Transcontinental Gas Pipe Line Corporation (Transco), P.O. Box 1396, Houston, Texas 77001, and Northern Natural Gas Company (Northern), 2223 Dodge Street, Omaha, Nebraska 68102, filed in Docket No. CP76-362 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of natural gas pipeline facilities offshore Louisiana and the transportation of natural gas in interstate commerce, all as more fully set forth in the application on file with the Commission and open to public inspection.

The application states that in order to obtain additional supplies of natural gas for their systems from a common source of supply in Block 480, West Cameron Area, offshore Louisiana, Applicants have agreed to construct jointly as co-owners a pipeline from Block 480 to a point on Texas Eastern's existing offshore pipeline in Block 245, East Cameron Area, offshore Louisiana, and that Texas Eastern has agreed to use its offshore pipeline system to transport such gas supplies onshore for redelivery to Transco and Northern or to others for their account. Applicants request authorization to construct and operate approximately 11.9 miles of 16-inch pipeline between West Cameron Block 480 and East Cameron Block 245, a connection to Texas Eastern's existing pipeline system, and 2,200 horsepower of compression on the Block 480 platform. Texas Eastern requests authorization to transport the gas for Transco and Northern. The facilities are estimated to cost \$10,418,000 and would be financed initially with revolving credit or short-term financing, the application states.

Applicants state that the cost, ownership, and capacity of the proposed facilities would be shared as follows:

	Ownership share (percent)	Cost	Maximum capacity (1,000 ft <sup>3</sup> /d)
Texas Eastern...	20	\$2,082,000	18,000
Transco.....	60	6,252,000	54,000
Northern.....	20	2,082,000	18,000
Total.....	100	10,418,000	90,000

It is stated that the facilities would be constructed and operated by Texas Eastern and the operating and maintenance costs would be shared in like proportion to ownership.

Applicants estimate that gas is available from Block 480 in the following amounts:

	Reserves (1,000 ft <sup>3</sup> )	Initial deliveries (1,000 ft <sup>3</sup> /d)
Texas Eastern.....	22,000,000	18,000
Transco.....	67,000,000	54,000
Northern.....	22,000,000	18,000
Total.....	111,000,000	90,000

Texas Eastern proposes to transport on a firm basis for Transco a maximum daily quantity of 54,000 Mcf of gas and for Northern a maximum daily quantity of 18,000 Mcf of gas from East Cameron Block 245 to points onshore Louisiana and to redeliver such quantities less 1 1/2 percent for gas used and lost and unaccounted for in providing the transportation service and less the volume of fuel and shrinkage lost through processing if such gas is processed. Gas transported for Transco would be redelivered to Transco at an existing interconnection of Texas Eastern's and Transco's pipelines near Ragley, Beauregard Parish, Louisiana, and/or, but mutual agreement, at other points in the supply area where delivery could be accomplished to or for the account of Transco. Gas transported for Northern would be redelivered to Trunkline Gas Company (Trunkline) for Northern's account at the existing interconnection of Texas Eastern's and Trunkline's pipelines in Allen Parish, Louisiana, and/or, by mutual agreement with Northern, at other points in the supply area where delivery could be accomplished to or for the account of Northern. Based upon the maximum daily quantities proposed to be transported, Texas Eastern would charge Transco \$209,090.25 per month and would charge Northern \$69,696.75 per month.

The application notes that Texas Eastern has on file an application in Docket No. CP74-102<sup>1</sup> for authorization to construct and operate a compressor station and liquid receiving facilities near Grand Chenier, Louisiana, and states that authorization for such facilities is required for the service proposed in the instant application.

<sup>1</sup> Notice published November 9, 1973 (38 FR 31060).

Any person desiring to be heard or to make any protest with reference to said application should on or before June 11, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[FR Doc.76-14560 Filed 5-18-76; 8:45 am]

[Docket No. G-6508]

**TEXAS EASTERN TRANSMISSION CORP. AND TRUNKLINE GAS CO.**  
Petition To Amend

MAY 13, 1976.

Take notice that on May 7, 1976, Texas Eastern Transmission Corporation (Texas Eastern), P.O. Box 2521, Houston, Texas 77001, and Trunkline Gas Company (Trunkline), P.O. Box 1642, Houston, Texas 77001, filed in Docket No. G-6508 a petition to amend the order issuing a certificate of public convenience and necessity in said docket pursuant to Section 7(c) of the Natural Gas Act, by which petition Petitioners request authorization to construct and operate facilities and to exchange natural gas at a point where Texas Eastern's 30-inch pipeline crosses Trunkline's 20-inch pipeline in Beauregard Parish, Louisiana, all as more fully set forth in the petition to amend on file with the Commission and open to public inspection.

In the instant docket Petitioners are authorized to operate facilities and to exchange natural gas. Petitioners state that due to changes in operating conditions on Petitioners' systems which may

occur from time to time, deliveries of natural gas by Trunkline to Texas Eastern at an existing Allen Parish, Louisiana, interconnection could limit Texas Eastern's ability to utilize its 30-inch Gillis-to-Opelousas pipeline. It is stated that operation of the proposed Beauregard Parish exchange point would increase the operating flexibility on both Petitioners pipeline systems.

Texas Eastern proposes to construct and operate a tap on its pipeline and the crossover, measuring, and regulating facilities. Trunkline proposes to construct and operate a tap on its pipeline. The facilities are estimated to cost \$66,179.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before June 8, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,  
Secretary.

[FR Doc.76-14562 Filed 5-18-76; 8:45 am]

[Docket No. CP76-359]

**UNITED GAS PIPE LINE CO. AND TRANSCONTINENTAL GAS PIPE LINE CORP.**  
Notice of Application

MAY 13, 1976.

Take notice that on May 4, 1976, United Gas Pipe Line Company (United), P.O. Box 1478, Houston, Texas 77001, and Transcontinental Gas Pipe Line Corporation (Transco), P.O. Box 1396, Houston, Texas 77001, filed in Docket No. CP76-359 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the exchange of natural gas between them, all as more fully set forth in the application on file with the Commission and open to public inspection.

United proposes to deliver or cause to be delivered to Transco up to 7,500 Mcf of gas per day at a point on Transco's 10-inch pipeline in Section 17, T, 15 S., R. 14 W., Cameron Parish, Louisiana; and Transco proposes to deliver equivalent volumes of gas to United at a mutually agreeable existing point of exchange. Existing points of exchange are said to be near Victoria, Victoria County, Texas; near Cameron, Cameron Parish, Louisiana; at the Egan Plant in Acadia Parish, Louisiana; at the Gibson Plant Nos. 1 and 2 in Terrebonne Parish, Louisiana; near Magnolia and Holmesville, Pike County, Mississippi; near Walthall,

Walthall County, Mississippi; and at the Harmony Plant in Clarke County, Mississippi.

Applicants state that the proposed exchange is necessary to assist United in taking into its system volumes of gas available to it in the Johnson Bayou Field in Cameron Parish. Applicants would continue to exchange gas until the later of July 1, 1976, or the date the Williams Brothers Pipeline Company's intrastate pipeline is completed and ready to receive such gas into its system. It is stated that the exchange would be on an Mcf-for-Mcf basis and that there would be no charge for the gas delivered.

The application states that the proposed exchange would give Applicants added flexibility and reliability to their systems, eliminate the need for additional facilities, and allow United to take additional gas into its system.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 10, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[FR Doc.76-14557 Filed 5-18-76; 8:45 am]

[Docket No. CP76-364]

**NATIONAL FUEL GAS SUPPLY CORP.**  
Application

MAY 13, 1976.

Take notice that on May 7, 1976, National Fuel Gas Supply Corporation (Ap-

plicant), 308 Seneca Street, Oil City, Pennsylvania 16301, filed in Docket No. CP76-364 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction on gas wells in the West Independence Field in the Towns of Independence and Willing, Allegany County, Pennsylvania, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant proposes to engage in construction on 13 gas wells in the West Independence Pool in Allegany County, which pool is said to be a nearly depleted Oriskany sand gas pool which covers approximately 1,491 acres and lies southwest of the East Independence Pool which is currently being used for gas storage. Applicant proposes to engage immediately in emergency construction on each of the wells to alleviate conditions said to be created by increased pressure experienced in two West Independence wells and anticipated to spread to the other 11 wells. The application states that such higher pressures are believed to originate from the East Independence Pool.

Applicant states that it further proposes to complete construction on each of the 12 wells during the summer and fall of 1976 with a view to developing this zone for the storage of gas. Nine of the 13 wells are said to be presently active and would be reconditioned. The other 4 wells are said to be presently plugged and 3 would be re-plugged and 1 would be reclaimed. The application states that the construction would include the removal of existing casing, redrilling, installation of new casing, insertion of down-hole valves, installation of necessary related surface and sub-surface facilities, and undertaking of testing procedures. It is said that no additional compressor capacity and no new pipelines connecting the wells to be reconditioned or reclaimed are proposed at this time.

The application states that immediate commencement of construction upon wells now experiencing increased pressure levels is necessary to assure public safety, prevent loss of gas, and determine the exact cause of the increased pressure found in these wells. The application notes that pipe which was originally designed to withstand then-existing pressures may have deteriorated since original installation commencing in 1937. Further, Applicant states, it is necessary to undertake well construction to obtain necessary pressure-volume data so as to calculate the volume of gas which may migrate from the East Independence Pool to the West Independence Pool. It is said that the steps which would be taken immediately to meet increased pressure in the West Independence Pool would also be directed toward ultimate development of this pool for gas storage purposes and that in the near future it is anticipated that Applicant and National Gas Storage Corporation will seek authorization under the Natural Gas Act for such storage development and the

rendition by the latter of storage service. Applicant estimates that the instant proposal would cost \$1,804,270 which would be financed with funds obtained from National Fuel Gas Company.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 7, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[Docket No. RP74-100; PGA76-6]  
NATIONAL FUEL GAS SUPPLY CORP.  
Filing of Comments Concerning  
Emergency Purchases

MAY 12, 1976.

Take notice that on April 28, 1976, National Fuel Gas Supply Corporation filed in the above-referenced proceeding information and comments relating to certain emergency purchases of gas which are reflected in the PGA amounts claimed by National Fuel in the subject proceeding. The comments were submitted by National Fuel in response to the Commission's order issued herein on March 31, 1976.

Any person wishing to do so may submit comments in writing concerning the filing made by National Fuel. All such comments should be submitted to the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C.

20426, on or before June 7, 1976. National Fuel's comments are on file with the Commission and available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 76-14577 Filed 5-18-76; 8:45 am]

[Docket No. RP76-92]

NATIONAL FUEL GAS SUPPLY CORP.  
Proposed Tariff Change

MAY 12, 1976.

Take notice that on April 28, 1976, National Fuel Gas Supply Corporation (National) tendered for filing as part of its FPC Gas Tariff, Original Volume No. 1, First Revised Sheet No. 22, proposed to be effective June 1, 1976.

National states that the revised tariff sheet is intended to change the payment date under Section 5.2 of the General Terms and Conditions from the 20th day of the month in which bill is received to the 25th day of the month in which bill is received. The stated purpose of the change is to provide more flexibility in the payment schedule of National's customers. According to National, no change in rates, volumes, delivery points or other aspects of delivery are proposed.

It is stated that copies of the filing have been mailed to all of its jurisdictional customers and affected state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before May 25, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 76-14574 Filed 5-18-76; 8:45 am]

[Docket No. RP76-96]

NATIONAL FUEL GAS SUPPLY CORP.  
Proposed Changes in FPC Gas Tariff

MAY 12, 1976.

Take notice that National Fuel Gas Supply Corporation ("National"), on April 30, 1976, tendered for filing proposed changes in its FPC Gas Tariff, Original Volume No. 1. The proposed changes would increase revenues from jurisdictional sales and service by approximately \$6,536,000, based on the 12 month period ended December 31, 1975, as adjusted. The proposed effective date of the filed tariff sheets is June 1, 1976.

National states that the increased rates are required to recoup increased costs incurred in operating and maintaining its system, including, but not limited to, increased cost of capital, increased depreciation, increased wages, and increased taxes and gas costs. The rates proposed reflect an overall rate of return of 10.4%. The filing also reflects a continuing decline in National's gas supply with a consequent reduction in annual sales volumes. Further, National states that the proposed rates do not include the appropriate surcharge as provided by its purchased gas adjustment clause. At such time as the increased rates are to become effective National will make the appropriate filing to reflect the applicable surcharge adjustment in effect at that time.

National states that it has included in this filing costs applicable to facilities acquired from The Sylvania Corporation pursuant to the approved merger of Sylvania and National which was the subject of Docket No. CP75-344.

National states that copies of this filing were served upon the company's jurisdictional customers and the regulatory commissions of the States of New York, Ohio and Pennsylvania.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 28, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 76-14576 Filed 5-18-76; 8:45 am]

[Docket No. CP76-340]

NORTHERN NATURAL GAS CO.  
Application

MAY 12, 1976.

Take notice that on April 19, 1976, Northern Natural Gas Company (Applicant), 2223 Dodge Street, Omaha, Nebraska 68102, filed in Docket No. CP76-340 an application pursuant to Section 7(b) of the Natural Gas Act for permission and approval to abandon and remove its Keewatin TBS #2 sales measuring station in Itasca County, Minnesota, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The application shows that the Keewatin TBS #2 station was used to sell natural gas to Inter-City Natural Gas Limited, Incorporated (Inter-City), for resale to the U.S. Bureau of Mines. Applicant states that the Bureau of Mines dis-

continued operations at this location on March 6, 1974, and that by letter of October 14, 1975, Inter-City advised Applicant the Keewatin #2 was no longer being used and requested that Applicant proceed with removal of the facilities. Applicant asserts that inadvertently, and absent Commission approval, its field personnel removed the measuring station facilities on November 11, 1975.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 1, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[Docket No. CP76-365]

**TENNESSEE GAS PIPELINE CO., A  
DIVISION OF TENNECO INC.**  
Application

MAY 13, 1976.

Take notice that on May 7, 1976, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Applicant), P.O. Box 2511, Houston, Texas 77001, filed in Docket No. CP76-365 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas in interstate commerce for Lowell Gas Company (Lowell) to and from National Fuel Gas Supply Company (National Fuel), all as more fully set forth in the application on file with the Commission and open to public inspection.

The application states that pursuant to an agreement between Lowell and National Fuel dated March 9, 1976, National Fuel has agreed to provide Lowell with a storage service from April 1, 1976, through March 31, 1977, of up to 12,500 Mcf of natural gas per day of injection and/or withdrawal volumes and a total storage volume of 1,500,000 Mcf of gas. Applicant proposes to transport and deliver until October 31, 1976, to National Fuel for the account of Lowell up to 12,500 Mcf of gas per day, which Lowell shall make available to Applicant, up to a total of 1,500,000 Mcf of gas. It is stated that the gas would be stored by National Fuel for Lowell during the 1976-77 winter for sale by Lowell to its Priority 1 and 2 customers. Applicant also proposes to transport and deliver to Lowell from November 1, 1976, through March 31, 1977, up to 12,500 Mcf of gas per day which National Fuel would make available to Applicant for the account of Lowell. It is stated that Applicant would deliver gas to Lowell at the point of interconnection of Applicant's and Lowell's facilities at Applicant's existing Tewksbury sales meter station delivery point to Lowell in Middlesex County, Massachusetts. It is stated further that Applicant would deliver gas to National Fuel and receive gas from National Fuel at the point of interconnection of Applicant's and National Fuel's facilities at Applicant's Ellisburg sales meter station delivery point to National Fuel in Potter County, Pennsylvania, or at other existing connections between Applicant and National Fuel as mutually agreed by Applicant and National Fuel.

The application states that Applicant is presently serving Lowell with a contract demand of 34,680 Mcf of gas per day under Applicant's Rate Schedule CD-6. It is stated that the daily volumes which Applicant proposes to transport for Lowell are volumes which Lowell would nominate for such transportation and make available to Applicant from the daily volumes purchased under Rate Schedule CD-6.

Applicant would charge Lowell 39.60 cents per Mcf of gas delivered to Lowell from storage plus 39.60 cents per Mcf of gas not delivered from storage as of

April 1, 1977. Lowell would provide Applicant for system fuel and use requirements a volume of gas equivalent to three percent of the gas transported to Lowell by Applicant from storage. The application indicates that the price to be charged Lowell for transportation is based upon Applicant's system average haul cost per Mcf per 100 miles of 2.958496 cents applied to a haul distance between the Ellisburg and Tewksbury meter stations of 440.08 miles for an equivalent of a 120-day service or a 32.88 percent load factor.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 8, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[FR Doc 76-14567 Filed 5-18-76; 8:45 am]

[Docket No. CP76-341]

**UNITED GAS PIPE LINE CO.**  
Application

MAY 13, 1976.

Take notice that on April 20, 1976, United Gas Pipe Line Company (Applicant), P.O. Box 1478, Houston, Texas 77001, filed in Docket No. CP76-341 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas facilities in Bienville Parish, Louisiana, and an increase in the capacity of Applicant's Bistineau Stor-

age Field, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to construct and operate the following facilities at the Bistineau underground storage field:

1. 1.76 miles of 16-inch pipeline; 0.80 miles of 12-inch pipeline; 1.54 miles of 8-inch pipeline; 0.16 mile of 6-inch pipeline; and 8 meter stations.

2. Seven injection-withdrawal wells.

3. Rework one existing observation well for use as an injection-withdrawal well.

4. Two additional 8000 horsepower compressor units.

The application indicates the total estimated cost of the proposed project to be \$15,193,620, which cost Applicant proposes to finance from funds on hand, internally generated funds, and short-term bank loans.

Applicant also requests authorization to increase the capacity of the Bistineau storage field from 123,524,000 Mcf to 134,000,000 Mcf.

Applicant states that it has explored numerous ways to ameliorate the effects of its system-wide curtailments and has concluded that expansion of the Bistineau Storage Field, as proposed herein, would provide a significant contribution in that regard and that the proposed expansion would permit more of Applicant's annual gas supply to be made available during winter seasons when Category I requirements are the greatest. Moreover, it is indicated that the instant proposal would provide added safety and reliability during temporary periods of supply losses due to hurricanes or other unexpected factors.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 9, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding.

Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or

**GENERAL ACCOUNTING OFFICE  
REGULATORY REPORTS REVIEW**

**Receipt and Approval of a Proposed Report**

A request for clearance of a proposed report intended for use in collecting information from the public was received by the Regulatory Reports Review Staff, GAO, on May 4, 1976. See 44 U.S.C. 3512 (c) and (d). The purpose of publishing this notice is to inform the public of such receipt and the action taken by GAO.

**FEDERAL ENERGY ADMINISTRATION**

Request for clearance on an emergency basis for the form entitled, Foreign Crude Oil Cost Report, FEA P328-Q-O. This is a new quarterly report, authorized under P.L. 93-275 and 94-163, to collect detailed information on crude oil acquisition costs from the foreign trading affiliates of United States companies. Data are to be provided for exports of crude oil acquired under concessionary or similar terms and for crude oil purchased under market terms from exporting country governments and their national companies. According to FEA, this information will allow the FEA and the United States Government to carry out its obligations for exchange of information about crude oil costs in the International Energy Program.

Respondents are from 15 to 20 firms which acquired an average of 100,000 or more barrels of crude oil per day in the previous calendar year from countries that are not members of the International Energy Agency. The estimated burden of the new form is 10 hours per response.

According to FEA, an emergency clearance was required for this form because of a number of extraordinary circumstances. The United States is a member of the International Energy Agency. The member countries, under an agreement of November 18, 1974, were to provide foreign crude oil cost data within 90 days. However, many problems arose concerning what data should be reported and how the cost data of individual companies could be provided without revealing proprietary information. After resolving these issues, the member companies agreed that the first collection of data was needed by June 15. FEA states that it is critically important that the United States supply its data by that date.

Because of the need for this information by June 15, GAO cleared this form on May 10. Further information may be obtained from the Regulatory Reports Review Officer, (202) 376-5425.

CARL F. BOGAR,  
Assistant Director.

[FR Doc.76-14540 Filed 5-18-76; 8:45 am]

if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

**NATIONAL SCIENCE FOUNDATION  
ADVISORY PANEL FOR POLITICAL  
SCIENCE**

**Meeting**

In accordance with the Federal Advisory Committee Act, P.L. 92-463, the National Science Foundation announces the following meeting:

Name: Advisory Panel for Political Science.  
Date and time: June 4, 1976—9:00 a.m. to 5:00 p.m.

Place: Rm. 338, National Science Foundation, 1800 G Street, N.W., Washington, D.C.

Type of meeting: Closed.

Contact person: Dr. David C. Leege, Program Director, Political Science Program, Rm. 205, National Science Foundation, Washington, D.C. 20550, telephone (202) 632-4348.

Purpose of panel: To provide advice and recommendations concerning support for research in Political Science.

Agenda: To review and evaluate research proposals and projects as part of the selection process for awards.

Reason for closing: The proposals and projects being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals and projects. These matters are within exemptions (4) and (6) of 5 U.S.C. 552(b), Freedom of Information Act. The rendering of advice by the panel is considered to be a part of the Foundation's deliberative process and is thus subject to exemption (5) of the Act.

Authority to close meeting: This determination was made by the Committee Management Officer pursuant to provisions of Section 10(d) of P.L. 92-463. The Committee Management Officer was delegated the authority to make determinations by the Director, NSF, on February 11, 1976.

Dated: May 14, 1976.

M. REBECCA WINKLER,  
Acting Committee  
Management Officer.

# SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-12428; File No. SR-DSE-76-4]

## DETROIT STOCK EXCHANGE Self-Regulatory Organizations

In the matter of proposed rule change by Detroit Stock Exchange; SR-DSE-76-4.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, § 16 (June 4, 1975), notice is hereby given that on May 10, 1976, the above mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

A. *Statement of the Terms of Substance of the Proposed Rule Change.* The proposed rule change would amend the Rules of the Detroit Stock Exchange to eliminate any restriction on the ability of members to transact agency business otherwise than on the Exchange.

B. *Statement of Basis and Purpose.* The proposed amendment to Chapter I, Section 5(a) would permit Detroit Stock Exchange members to transact agency business on any other exchange or over-the-counter with third-market-makers or block positioners as defined in the Rule or "in-house" as agent for both buyer and seller. The proposed rule, moreover, would not require that public limit orders on the books be satisfied prior to, concurrent with, or subsequent to the execution in the over-the-counter market or in-house as agent for both buyer and seller.

On March 31, 1976, Rule 19c-1 under the Act, governing off-board trading by members of national exchanges became effective. The proposed amendment to Chapter I, Section 5(a) eliminates any restriction on the ability of its members to transact agency business otherwise than on the Detroit Stock Exchange.

Comments on the proposed amendment were not solicited from members, participants or others, and no unsolicited comments were received.

The proposed amendment would impose no burden on competition.

Within 35 days of the date of publication of this notice in the FEDERAL REGISTER, or within such longer period as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reason for so finding or as to which the above-mentioned self-regulatory agency consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written sub-

missions will be available for inspection and copying in the Public Reference Room, 1100 L Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before June 18, 1976.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,  
Secretary.

MAY 11, 1976.

[FR Doc.76-14495 Filed 5-18-76; 8:45 am]

[Release No. 34-12419; File No. SR-PCC-76-5]

## PACIFIC CLEARING CORP.

### Self-Regulatory Organizations

In the matter of proposed rule change by Pacific Clearing Corporation.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, § 16 (June 4, 1975), notice is hereby given that on April 29, 1976, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

### STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

The proposed change establishes a satellite facility of the Pacific Clearing Corporation ("PCC") in Denver, Colorado for handling securities receipts and deliveries for local brokers and banks for processing at the San Francisco and Los Angeles offices of PCC and Pacific Securities Depository Trust Company ("PSD"). The facility is similar to the facilities currently in operation in Seattle, Washington and Portland, Oregon, which were approved by the Commission in Rel. No. 34-11857 (November 20, 1975) and Rel. No. 34-12324 (April 7, 1976), respectively.

Pursuant to the establishment of the satellite facility, participants in the Denver, Colorado area can:

1. Use the facility to make deliveries to and obtain receipts of securities from PCC and PSD;

2. Input forms for bookkeeping movements of securities in connection with clearance and settlement of securities; and

3. Become linked with other clearing corporations and depositories by means of interfaces available through PSD and PCC.

### STATEMENT OF BASIS AND PURPOSE

The basis and purpose of the foregoing proposed rule change is as follows:

The purpose of the Denver facility is to provide access for broker-dealers, banks and other qualified users in the Denver area to the clearing operations of PCC and, to the extent permitted by applicable law, the depository operations of PSD.

The Denver facility increases the capacity of PCC to facilitate prompt and accurate clearance and settlement of securities transactions for a broader group of broker-dealers; increases the ability of broker-dealers and other qualified users outside of the San Francisco and Los Angeles area to become participants in the clearing and depository operations of PCC and PSD; and, by making clearing and certain depository services available in Denver, helps perfect the mechanism for a national system for the prompt and accurate clearance and settlement of securities transactions.

Comments were not solicited from participants. PSD and PCC officials did, however, hold meetings in Denver to determine the interest of firms in those cities in the Denver facility. At these meetings several broker-dealers and banks commented that they believed such a facility was needed and that they would expect to use it.

PCC is of the opinion that the Denver facility will not impose any burden on competition. Rather, like the PCC facilities in Seattle, Washington and Portland, Oregon, the facility will encourage competition. It will do this by making available to firms in the Southwest clearing and settlement methods not previously economically feasible for such firms. These firms will thus be better able to compete for business with larger firms headquartered in the nation's money centers.

Within 35 days of the date of publication of this notice in the FEDERAL REGISTER, or within such longer period (1) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection in the Public Reference Room, 1100 L Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before June 8, 1976.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,  
Secretary.

MAY 10, 1976.

[FR Doc.76-14495 Filed 5-18-76; 8:45 am]

[Release No. 12427; SR-DTC-76-2]

## THE DEPOSITORY TRUST CO.

Order Approving Proposed Rule Change Submitted by the Depository Trust Company Amending Certain Operating Procedures To Permit the Pre-Authorized Release of Collateral Pledged by Participants Pursuant to Its Over-Night Collateral Loan Program

MAY 11, 1976.

On March 11, 1976, The Depository Trust Company (New York, New York) ("DTC") submitted a proposed change to the Operating Procedures of DTC pursuant to Rule 19b-4 under the Securities Exchange Act of 1934, 15 U.S.C. 78(s) (the "Act").

In accordance with Section 19(b) of the Act and Rule 19b-4 thereunder, the rule change was published in the FEDERAL REGISTER (41 Fed. Reg. 14453, April 5, 1976) and the public was invited to comment thereon. Notice of the filing and an invitation for comments also appeared in Securities Exchange Act Release No. 12282 on March 30, 1976. No letters of comment were received.

As described in Securities Exchange Act Release No. 12282, the rule change permits pledgees in DTC's book-entry pledge program to authorize the automatic release of securities pledged for overnight bank loans and, thus, to permit book-entry deliveries by pledgors to other DTC Participants by 9:30 a.m. on the business day following the overnight loan unless the release is cancelled before such time. The rule change is intended to eliminate preparation and processing of separate release forms and to facilitate timely completion of book-entry deliveries which are dependent upon release of the pledged securities.

The Commission has reviewed the proposed rule change and finds that it is consistent with the requirements of the Act and the rules and regulations thereunder.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the rule change referenced above, be, and hereby is, approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,  
Secretary.

[FR Doc.76-14492 Filed 5-18-76; 8:45 am]

[Release No. 12431; SR-DTC-76-1]

## THE DEPOSITORY TRUST CO.

Order Approving Proposed Rule Change Submitted by the Depository Trust Company In Regard to Operating Procedures Respecting Its Institutional Delivery System

MAY 12, 1976.

On March 16, 1976, The Depository Trust Company, New York, New York ("DTC") submitted a proposed change to the Operating Procedures of DTC pursuant to Rule 19b-4 under the Securities Exchange Act of 1934, 15 U.S.C. 78(s) (the "Act").

In accordance with Section 19(b) of the Act and Rule 19b-4 thereunder, the rule change was published in the FEDERAL REGISTER (41 FR 14798, April 7, 1976) and the public was invited to comment thereon. Notice of the filing and an invitation for comments also appeared in Securities Exchange Act Release No. 12273 on March 26, 1976. No letters of comment were received.

As described in Securities Exchange Act Release No. 12273, the rule change permits Participants who have been excepting deliveries in DTC's Institutional Delivery System ("ID System") to comply with certain segregation requirements by limiting the exceptions to only that portion of a security position actually required for segregation requirements while permitting the remaining portion of the position to become available for deliveries in the PDQ part of DTC's ID System.

The Commission has reviewed the proposed rule change and finds that it is consistent with the requirements of the Act and the rules and regulations thereunder.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the rule change referenced above, be, and hereby is, approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,  
Secretary.

[FR Doc.76-14493 Filed 5-18-76; 8:45 am]

[Release No. 12426; File No. 600-16]

## NEW ENGLAND SECURITIES DEPOSITORY TRUST CO.

### Notice of Filing of an Application for Registration of Clearing Agency

The New England Securities Depository Trust Company has made an application to become a registered clearing agency under Sections 17A and 19(a) of the Securities Exchange Act of 1934 (the "Act") and pursuant to Section (c)(1) of Rule 17Ab2-1 [17 CFR 240.17Ab2-1] under the Act. The New England Securities Depository Trust Company intends to engage in the business of holding, receiving and delivering securities and making book entries with respect to the transfer and/or pledge thereof as a clearing corporation and as a custodian bank for other clearing corporations.

Within ninety days of the date of publication of this notice in the FEDERAL REGISTER, or within such longer period as to which the applicant consents, the Commission will, in accordance with Section 19(a) of the Act:

(A) By order grant such registration, or

(B) Institute proceedings to determine whether registration should be denied.

Pursuant to subsection (c)(1) of Rule 17Ab2-1 under the Act, if requested by an applicant, the Commission may grant the applicant registration as a clearing agency in accordance with Sections

17A(b) and 19(a)(1) of the Act, but exempt the applicant from one or more of the requirements as to which the Commission is directed to make a determination pursuant to subparagraphs (A)-(I) of Section 17A(b)(3) of the Act. Registration pursuant to subsection (c)(1) of Rule 17Ab2-1 shall not be effective for more than eighteen (18) months from the date on which registration is made effective by the Commission.

Subsection (c)(2) of Rule 17Ab2-1 requires that, in the case of any clearing agency registered in accordance with subsection (c)(1) of Rule 17Ab2-1, the Commission, not later than nine months from the date such registration is made effective, will either grant registration without exempting the registrant from one or more of the requirements as to which the Commission is directed to make a determination pursuant to subparagraphs (A)-(I) of Section 17A(b)(3) or will institute proceedings to determine whether registration should be denied at the expiration of 18 months.

Interested persons are invited to submit written data, views and arguments concerning the foregoing applications within six weeks from the date of publication of this notice in the FEDERAL REGISTER. Such written data, views and arguments will be considered by the Commission in granting registration or instituting proceedings to determine whether registration should be denied in accordance with Section 19(a) of the Act and subsection (c)(2) of Rule 17Ab2-1. Persons desiring to make written submissions should file six copies thereof with the Secretary of the Commission, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Reference should be made to the appropriate file number.

Copies of the applications and of all written comments will be available for inspection at the Securities and Exchange Commission's Public Reference Room, 1100 L Street, N.W., Washington, D.C. 20006.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,  
Secretary.

MAY 11, 1976.

[FR Doc.76-14496 Filed 5-18-76; 8:45 am]

[Rel. No. 19524; 70-5845]

## THE POTOMAC EDISON CO.

Notice of Proposed Issue and Sale of Preferred Stock and First Mortgage Bonds at Competitive Bidding

MAY 12, 1976.

Notice is hereby given that The Potomac Edison Company, Downsville Pike, Hagerstown, Maryland 21740 ("Potomac"), an electric utility subsidiary of Allegheny Power System, Inc., a registered holding company, has filed a declaration and amendments thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act") designating Sections 6 and 7 of

the Act and Rule 50 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the declaration as amended, which is summarized below, for a complete statement of the proposed transactions.

Potomac proposes to issue and sell, subject to the competitive bidding requirements of Rule 50, up to 150,000 shares of its \$100 cumulative preferred stock ("Preferred Stock"), par value \$100 per share. The dividend rate, to be stated in terms of the dollar amount payable annually, which amount will be a multiple of \$0.04, and the price per share to be paid to Potomac, which price will not be less than \$100 nor more than \$102.75, will be determined by the competitive bidding. The terms of the Preferred Stock also provide that no shares may be redeemed prior to June 1, 1981, if the funds for such redemption are obtained by Potomac through the issuance of debt securities or other preferred stock at an interest or dividend cost, as the case may be, less than the dividend rate of the Preferred Stock.

Potomac also proposes to issue and sell at competitive bidding up to \$25,000,000 aggregate principal amount of its first mortgage bonds ("Bonds"), in one or more series, each such series to have a single maturity of not less than five and not more than thirty years from the date of issuance. Potomac states that it will notify prospective bidders of the maturity and the number of series of the Bonds not later than 72 hours prior to the bidding. The price of the Bonds, which will not be less than 100% (unless Potomac authorizes a lower percentage, not less than 99%) nor greater than 102 3/4% of the principal amount, and their interest rate, which will be a multiple of 1/8 of 1%, will be determined by the competitive bidding.

The Bonds will be issued under Potomac's Indenture, dated October 1, 1944, to Chemical Bank and Thomas J. Foley, trustees, as herebefore amended and supplemented and as to be further amended and supplemented by a Supplemental Indenture to be executed in connection with the issuance of the Bonds. The terms of the Bonds prohibit Potomac from redeeming them prior to June 1, 1981, if the funds for such redemption are obtained by Potomac at a lower interest cost than that of the Bonds.

Potomac states that the proceeds realized from the sale of the Preferred Stock and of the Bonds will be applied to pay or prepay short-term debt and to finance its construction program. Potomac states that on March 31, 1976, it had \$13,200,000 of short-term notes outstanding and that it expects to have about \$11,000,000 of such notes outstanding at the time of issuance of the Preferred Stock and Bonds. As of March 31, 1976, Potomac's construction program for 1976-1977 was estimated to cost about \$139,000,000.

Estimates of the fees and expenses to be incurred by Potomac in connection with the proposed transactions and the fees of counsel for the successful bidders, which will be paid by the successful bid-

ders, will be supplied by amendment. It is stated that the Public Service Commission of Maryland, the State Corporation Commission of Virginia, and the Pennsylvania Public Utility Commission (with regard to registration of a securities certificate) have jurisdiction over the proposed transactions and that no other state commission nor any federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than June 4, 1976, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration, as amended, which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as amended, or as it may be further amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulations, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,  
Secretary.

#### IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

##### Elimination of Gateway Letter Notices

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before May 28, 1976. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 29886 (Sub-No. E93), (Correction), filed May 16, 1974, republished in the *Federal Register* October 21, 1975, and republished in the *Federal Register* December 4, 1975, and republished, as corrected, this issue. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 W. Sample St., South Bend, Ind. 46627. Applicant's representative: Charles Pieroni (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Dumptruck bodies*, which because of size or weight require the use of special equipment, from those points in Ohio on, north, and west of a line beginning at the Ohio-Indiana State line . . . those in Nebraska on and west of U.S. Highway 281, those in South Dakota on and west of U.S. Highway 281, and the District of Columbia. The purpose of this filing is to eliminate the gateways of Marion, Ohio, and points within five miles thereof. The purpose of this correction is to correct the commodity description above. The remainder of the letter-notice remains as previously published.

No. MC 29886 (Sub-No. E113) (Correction), filed May 23, 1974, and published in the *Federal Register* September 25, 1975, and republished, as corrected, this issue. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 West Sample Street, South Bend, Ind. 46627. Applicant's representative: Charles Pieroni (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *New automobiles and new trucks*, in secondary movements, in driveway service, . . . (2) from points in Maryland, New Jersey, New York, North Carolina, Ohio, Pennsylvania, West Virginia, the Lower Peninsula of Michigan, and the District of Columbia, to points in Utah (Detroit, Mich.); (4) from points

in Maryland, New Jersey, New York, Pennsylvania, West Virginia, those in Fulton and Henry Counties, Ohio, on and east of Ohio Highway 108, and those in Ohio in and north of Hancock, Wyandot, Marion, Morrow, Knox, Licking, Muskingum, Noble, and Monroe Counties, those in North Carolina on and east of U.S. Highway 25, those points in Michigan on and east of U.S. Highway 23 and south of Michigan Highway 25 and the District of Columbia, to points in Iowa . . . (5) from points in Maryland, New Jersey, New York, Pennsylvania, West Virginia, those in the Lower Peninsula of Michigan on and east of U.S. Highway 23 and on and south of Michigan Highway 25, those in Ohio in and east of Williams, Defiance, Putnam, Allen, Hardin, Union, Franklin, Pickaway, Hocking, Vinton, Jackson, and Lawrence Counties, those in North Carolina on and east of U.S. Highway 21, and the District of Columbia, to points in Nebraska; (6) from points in Maryland, New Jersey, New York, Pennsylvania, those in Ohio in and east of Defiance, Putnam, Allen, Harding, Union, Delaware, Licking, Perry, Morgan, and Washington Counties, those in Michigan on and east of U.S. Highway 23 and on and south of Michigan Highway 25; and the District of Columbia, to points in Kansas; (9) from points in Maryland, New Jersey, New York, North Carolina, Pennsylvania, West Virginia, those in Ohio in and east of Lucas, Wood, Hancock, Hardin, Union, Madison, Fayette, Ross, Pike, and Scioto Counties, and the District of Columbia, to points in Wisconsin (Toledo, Ohio). The purpose of this filing is to eliminate the gateways indicated by asterisks above. The purpose of this correction is to correct origin points. The remainder of the letter-notice remains as previously published.

No. MC 59271 (Sub-No. E1), filed June 4, 1974. Applicant: Boston Truck Co., Inc., 194 First St., Cambridge, Mass. 02142. Applicant's representative: Sheldon Silverman, Suite 550, 1819 H Street NW., Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Uncrated new furniture*, between points in Maine, on the one hand, and, on the other, points in Connecticut and Rhode Island. The purpose of this filing is to eliminate the gateway of Cambridge or Brookline, Mass.

No. MC 59271 (Sub-No. E2), filed June 4, 1974. Applicant: BOSTON TRUCK CO., INC., 194 First St., Cambridge, Mass. 02142. Applicant's representative: Sheldon Silverman, Suite 550, 1819 H St. NW., Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Uncrated new furniture*, between points in New Hampshire except those in Cheshire County, on the one hand, and on the other, points in Rhode Island. The purpose of this filing is to eliminate the gateway of Cambridge, Mass.

No. MC 59271 (Sub-No. E3), filed June 4, 1974. Applicant: BOSTON TRUCK CO., INC., 194 First St., Cambridge, Mass. 02142. Applicant's representative: Sheldon Silverman, Suite 550, 1819 H Street NW., Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Uncrated new furniture*, between points in that part of New Hampshire on and east of a line beginning at the Massachusetts-New Hampshire State line and extending north along Interstate Highway 93 to junction New Hampshire Highway 25, and thence along New Hampshire Highway 25 to the Main-New Hampshire State line and (b) between points in that part of New Hampshire on, north, and east of a line beginning at the Maine-New Hampshire State line and extending along New Hampshire Highway 25 to the junction of U.S. Highway 3 thence over U.S. Highway 3 to the International boundary line between the United States and Canada, on the one hand, and, on the other, points in Connecticut. The purpose of this filing is to eliminate the gateway of Brookline or Cambridge, Mass.

No. MC 59271 (Sub-No. E4), filed June 4, 1974. Applicant: BOSTON TRUCK CO., INC., 194 First St., Cambridge, Mass. 02142. Applicant's representative: Sheldon Silverman, Suite 550, 1819 H Street NW., Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Uncrated new furniture*, between points in Maine, on the one hand, and, on the other, points in Delaware, District of Columbia, Maryland, New Jersey, Pennsylvania, and Virginia. The purpose of this filing is to eliminate the gateway of Boston, Mass., and points within 25 miles of Boston.

No. MC 59271 (Sub-No. E5), filed June 4, 1974. Applicant: BOSTON TRUCK CO., INC., 194 First St., Cambridge, Mass. 02142. Applicant's representative: Sheldon Silverman, Suite 550, 1819 H St. NW., Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Uncrated new furniture*, between points in New Hampshire Highway 11, thence along New Hampshire Highway 11 to junction U.S. Highway 3, thence along U.S. Highway 3 to the New Hampshire-Canadian border, on the one hand, and, on the other, points in New Jersey. The purpose of this filing is to eliminate the gateway of Boston, Mass., and points within 25 miles of Boston.

No. MC 59271 (Sub-No. E6), filed June 4, 1974. Applicant: BOSTON TRUCK CO., INC., 194 First St., Cambridge, Mass. 02142. Applicant's representative: Sheldon Silverman, Suite 550, 1819 H St. NW., Washington, D.C. 20006.

Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Uncrated new furniture*, between points in New Hampshire on and east of U.S. Highway 3, on the one hand, and, on the other, points in New Jersey. The purpose of this filing is to eliminate the gateway of Boston, Mass., and points and places within 25 miles of Boston.

No. MC 59271 (Sub-No. E7), filed June 4, 1974. Applicant: BOSTON TRUCK CO., INC., 194 First St., Cambridge, Mass. 02142. Applicant's representative: Sheldon Silverman, Suite 550, 1819 H St. NW., Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Uncrated new furniture*, between points in New Hampshire, on the one hand, and, on the other, points in Pennsylvania. The purpose of this filing is to eliminate the gateway of Boston, Mass., and points within 25 miles of Boston.

No. MC 59271 (Sub-No. E8), filed June 4, 1974. Applicant: BOSTON TRUCK CO., INC., 194 First St., Cambridge, Mass. 02142. Applicant's representative: Sheldon Silverman, Suite 550, 1819 H St. NW., Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Uncrated new furniture*, between points in New Hampshire, on the one hand, and, on the other, points in Delaware. The purpose of this filing is to eliminate the gateway of Boston, Mass., and points within 25 miles of Boston.

No. MC 59271 (Sub-No. E9), filed June 4, 1974. Applicant: BOSTON TRUCK CO., INC., 194 First St., Cambridge, Mass. 02142. Applicant's representative: Sheldon Silverman, Suite 550, 1819 H St. NW., Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Uncrated new furniture*, between points in New Hampshire, on the one hand, and, on the other, points in Virginia, Maryland, and the District of Columbia. The purpose of this filing is to eliminate the gateway of Boston, Mass., and points within 25 miles of Boston.

No. MC 59271 (Sub-No. E10), filed June 4, 1974. Applicant: BOSTON TRUCK CO., INC., 194 First St., Cambridge, Mass. 02142. Applicant's representative: Sheldon Silverman, Suite 550, 1819 H St. NW., Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Uncrated new furniture*, between points in Connecticut, on the one hand, and, on the other, Wilmington, Del.; Chicago, Ill.; Baltimore, Md.; Detroit, Mich.; and points in New Jersey, Ohio, Pennsylvania, Virginia, and the District of Columbia. The purpose of this filing is to eliminate the gateway of New York, N.Y.

No. MC 59271 (Sub-No. E11), filed June 4, 1974. Applicant: BOSTON TRUCK CO., INC., 194 First St., Cam-

bridge, Mass. 02142. Applicant's representative: Sheldon Silverman, Suite 550, 1819 H St. NW., Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Uncrated new furniture*, between points in Rhode Island, on the one hand, and, on the other, Wilmington, Del.; Chicago, Ill.; Detroit, Mich.; and points in New Jersey, Ohio, Pennsylvania, Virginia, and the District of Columbia. The purpose of this filing is to eliminate the gateway of New York, N.Y.

No. MC 59271 (Sub-No. E12), filed June 4, 1974. Applicant: BOSTON TRUCK CO., INC., 194 First St., Cambridge, Mass. 02142. Applicant's representative: Sheldon Silverman, Suite 550, 1819 H St. NW., Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Uncrated new furniture*, between points in Rhode Island, on the one hand, and, on the other, Washington, D.C., and points in Pennsylvania and Maryland. The purpose of this filing is to eliminate the gateway of New York, N.Y.

No. MC 59271 (Sub-No. E13), filed June 4, 1974. Applicant: BOSTON TRUCK CO., INC., 194 First St., Cambridge, Mass. 02142. Applicant's representative: Sheldon Silverman, Suite 550, 1819 H St. NW., Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Uncrated new furniture*, between points in Massachusetts on and east of Massachusetts Highway 12, on the one hand, and, on the other, points in Virginia, New Jersey (New York\*), Delaware, Pennsylvania, Maryland, District of Columbia (New York and Boston)\*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 59271 (Sub-No. E14), filed June 4, 1974. Applicant: BOSTON TRUCK CO., INC., 194 First St., Cambridge, Mass. 02142. Applicant's representative: Sheldon Silverman, Suite 550, 1819 H St. NW., Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Uncrated new furniture*, between points in Maine, on the one hand, and, on the other, points in Illinois, Indiana, Michigan, Ohio, and Wisconsin. The purpose of this filing is to eliminate the gateway of Boston, Mass., and points within 25 miles of Boston.

No. MC 59271 (Sub-No. E15), filed June 4, 1974. Applicant: BOSTON TRUCK CO., INC., 194 First St., Cambridge, Mass. 02142. Applicant's representative: Sheldon Silverman, Suite 550, 1819 H St. NW., Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Uncrated new furniture*, between points in Rhode Island, on the one hand, and, on the other, points in Illinois, Indiana, Michigan, Ohio, and Wisconsin. The purpose of this filing is to eliminate the gateway of Bos-

ton, Mass., and points within 25 miles of Boston.

No. MC 59271 (Sub-No. E16), filed June 4, 1974. Applicant: BOSTON TRUCK CO., INC., 194 First St., Cambridge, Mass. 02142. Applicant's representative: Sheldon Silverman, Suite 550, 1819 H St. NW., Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Uncrated new furniture*, between points in New Hampshire, on the one hand, and, on the other, points in Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, and Tennessee. The purpose of this filing is to eliminate the gateway of Boston, Mass., and points within 25 miles of Boston.

No. MC 59271 (Sub-No. E17), filed June 4, 1974. Applicant: BOSTON TRUCK CO., INC., 194 First St., Cambridge, Mass. 02142. Applicant's representative: Sheldon Silverman, Suite 550, 1819 H St. NW., Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Uncrated new furniture*, between points in Maine, on the one hand, and, on the other, points in Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee, and West Virginia. The purpose of this filing is to eliminate the gateway of Boston, Mass.

No. MC 59271 (Sub-No. E18), filed June 4, 1974. Applicant: BOSTON TRUCK CO., INC., 194 First St., Cambridge, Mass. 02142. Applicant's representative: Sheldon Silverman, Suite 550, 1819 H St. NW., Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Uncrated new furniture*, between points in Maine and those in Stratford and Rockingham Counties, N.H., on the one hand, and, on the other, points in New York on and south of a line beginning at the Massachusetts-New York State line, and extending along Interstate Highway 90 to the International boundary line between Canada or points in that part of New York on and west of a line beginning at the New York-Pennsylvania State line and extending along U.S. Highway 81 to the United States-Canadian Boundary line and west over U.S. Highway 90 to the New York-Canadian Border. The purpose of this filing is to eliminate the gateway of Cambridge or Brookline, Mass.

No. MC 59271 (Sub-No. E19), filed June 4, 1974. Applicant: BOSTON TRUCK CO., INC., 194 First St., Cambridge, Mass. 02142. Applicant's representative: Sheldon Silverman, Suite 550, 1819 H St. NW., Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Uncrated new furniture*, between points in Rhode Island, on the one hand, and, on the other, points in New York on and west of a line beginning at the New York-Pennsylvania State line, and extending along U.S.

Highway 11 to junction New York Highway 12, thence along New York Highway 12 to junction New York Highway 8, thence along New York Highway 8 to junction U.S. Highway 9, thence along U.S. Highway 9 to junction New York Highway 254, thence along New York Highway 254 to junction U.S. Highway 4, thence along U.S. Highway 4 to the New York-Vermont State line. The purpose of this filing is to eliminate the gateway of Cambridge or Brookline, Mass.

No. MC 59271 (Sub-No. E20), filed June 4, 1974. Applicant: BOSTON TRUCK CO., INC., 194 First St., Cambridge, Mass. 02142. Applicant's representative: Sheldon Silverman, Suite 550, 1819 H Street NW., Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Uncrated new furniture*, between Newport County, R.I., on the one hand, and, on the other, points in New York on and west of a line beginning at the New York-Pennsylvania State line, thence along U.S. Highway 11 to junction New York Highway 7, thence along New York Highway 7 to junction New York Highway 30, thence along New York Highway 30 to junction New York Highway 29, thence along New York Highway 29 to junction U.S. Highway 4, thence along U.S. Highway 4 to the New York-Vermont State line. The purpose of this filing is to eliminate the gateway of Cambridge or Brookline, Mass.

No. MC 59271 (Sub-No. E21), filed June 4, 1974. Applicant: BOSTON TRUCK CO., INC., 194 First St., Cambridge, Mass. 02142. Applicant's representative: Sheldon Silverman, Suite 550, 1819 H St. NW., Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Uncrated new furniture*, between points in Rhode Island, on the one hand, and, on the other, points in Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, and Tennessee. The purpose of this filing is to eliminate the gateway of Boston, Mass.

No. MC 59271 (Sub-No. E22), filed June 4, 1974. Applicant: BOSTON TRUCK CO., INC., 194 First St., Cambridge, Mass. 02142. Applicant's representative: Sheldon Silverman, Suite 550, 1819 H St. NW., Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Uncrated new furniture*, between points in Connecticut (except those in Fairfield County), on the one hand, and, on the other, points in Alabama, Florida, Mississippi, and Tennessee. The purpose of this filing is to eliminate the gateway of Boston, Mass.

No. MC 59271 (Sub-No. E23), filed June 4, 1974. Applicant: BOSTON TRUCK CO., INC., 194 First St., Cambridge, Mass. 02142. Applicant's representative: Sheldon Silverman, Suite 550, 1819 H St. NW., Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular

routes, transporting: *Uncrated new furniture*, between points in Massachusetts, on the one hand, and, on the other, points in Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina and Tennessee. The purpose of this filing is to eliminate the gateway of Boston, Mass.

No. MC 59271 (Sub-No. E24), filed June 4, 1974. Applicant: BOSTON TRUCK CO., INC., 194 First St., Cambridge, Mass. 02142. Applicant's representative: Sheldon Silverman, Suite 550, 1819 H St. NW., Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Uncrated new furniture*, between points in New Hampshire, on the one hand, and, on the other, points in Illinois, Indiana, Michigan and Wisconsin. The purpose of this filing is to eliminate the gateway of Boston, Mass.

No. MC 59271 (Sub-No. E25), filed June 4, 1974. Applicant: BOSTON TRUCK CO., INC., 194 First St., Cambridge, Mass. 02142. Applicant's representative: Sheldon Silverman, Suite 550, 1819 H St. NW., Washington, D.C. 20006. above, between points in Indiana, on the one hand, and, on the other, points in Pennsylvania, New York, Maryland, and Delaware. The purpose of this filing is to eliminate the gateway of Warren, Ohio.

Note.—The purpose of this correction is to state the correct publication.

No. MC 65941 (Sub-No. E1) (Correction), filed April 11, 1974, and published in the *FEDERAL REGISTER* May 9, 1974, and republished, as corrected, this issue. Applicant: TOWER LINES, INC., P.O. Box 6010, Wheeling, W. Va. 26003. Applicant's representative: George V. Thieroff (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: General commodities (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment) between points in that part of Pennsylvania bounded by a line beginning at the Ohio-Pennsylvania State line, thence along U.S. Highway 422 to Pennsylvania Highway 66, thence along Pennsylvania Highway 66 to U.S. Highway 119, thence along U.S. Highway 119 to the Pennsylvania-West Virginia State line, thence along the Pennsylvania-West Virginia State line to the Pennsylvania-Ohio State line, thence along the Pennsylvania-Ohio State line to point of beginning including points on the indicated portions of the highways specified on the one hand, and, on the other, points in that part of Georgia on and north of a line beginning at Augusta and extending along U.S. Highway 1 to Louisville, thence along Georgia Highway 24 to junction Georgia Highway 22, and thence along Georgia Highway 22 through Macon to Columbus, and points in that part of North Carolina and South Carolina on, north, and west of U.S. Highway 1. The purpose of this filing is to eliminate the gateways of Wheeling, W. Va., or points in West Virginia within 30 miles of Wheeling, Clarksburg or Mannington, W. Va., or Martins Ferry, Ohio. The purpose of this correction is to correct the territorial description.

No. MC 65941 (Sub-No. E9), (Partial correction), filed April 28, 1974. Published in the *FEDERAL REGISTER* October 20, 1975, and republished, as corrected, this issue. Applicant: TOWER LINES, INC., P.O. Box 6010, Wheeling, W. Va. 26003. Applicant's representative: George V. Thieroff (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: oil, grease, and materials, equipment and supplies, used or useful in the production and packing of metal and clay products restricted to the petroleum products (except petrochemicals), in containers, (9) from points in Ohio on, north and east of U.S. Highway 250, to points in Virginia south of U.S. Highway 60. The purpose of this filing is to eliminate the gateway of Congo or St. Marys, W. Va. The purpose of this partial correction is to insert paragraph (9) that

was deleted in the publication. The remainder of the letter-notice remains as previously published.

No. MC 102567 (Sub-No. E128), (Correction), filed June 3, 1974, published in the *FEDERAL REGISTER* June 4, 1975, republished in the *FEDERAL REGISTER* August 4, 1975, and republished in the *FEDERAL REGISTER*, as shown, this issue. Applicant: MCNAIR TRANSPORT, INC., P.O. Drawer 5357, Bossier City, La. 71010. Applicant's representative: Joe Day (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Petroleum products, as described in Appendix XIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, in bulk, in tank vehicles (except liquefied petroleum gases), from those in Louisiana within 150 miles of Henderson, Tex., which are south and east of a line beginning at Monroe, La., and extending along U.S. Highway 165 to junction Louisiana Highway 2, thence along Louisiana Highway 2 to junction U.S. Highway 79, thence along U.S. Highway 79 to junction Louisiana Alternate Highway 2, thence along Louisiana Alternate Highway 2 to junction Louisiana Highway 9, thence along Louisiana Highway 9 to junction Louisiana Highway 147, thence along Louisiana Highway 147 to junction U.S. Highway 167, thence along U.S. Highway 167 to Alexandria, La., to points in Oklahoma. The purpose of this filing is to eliminate the gateway of Cotton Valley, La., and points within 10 miles thereof. The purpose of this correction is to correct the origin territorial description above.

No. MC 107403 (Sub-No. E694), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes transporting: Dry chemicals (other than liquids, and except fly ash), in bulk, in tank vehicles, from points in Kentucky, to points in Pennsylvania. The purpose of this filing is to eliminate the gateways of Riverview, Ohio, and those points in Ashtabula, Cuyahoga, Lake, Summit, Muskingum, Licking, Franklin, and Wayne Counties, Ohio, which are within 150 miles of Monongahela, Pa.

No. MC 108207 (Sub-No. E70), (Correction), filed May 13, 1974, and published in the *FEDERAL REGISTER* April 21, 1976. Applicant: FROZEN FOOD EXPRESS, P.O. Box 5888, Dallas, Texas 75222. Applicant's representative: Mike Smith (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Frozen foods and fresh meats, (1) from points in Iowa and points in that part of Kansas and Nebraska on and east of U.S. Highway 183, to points in New Mexico and Arizona; and (2) from points in Iowa, points in that part of Kansas on and east of U.S. Highway 183, and points in Nebraska on and east

of U.S. Highway 81, to points in that part of California on, south, and east of a line beginning at the Pacific Ocean, thence along California Highway 17 to junction U.S. Highway 101, to junction California Highway 152, to junction California Highway 99, to junction California Highway 58, to junction Interstate Highway 15, to the California-Nevada State line. The purpose of this filing is to eliminate the gateway of points in Texas. The purpose of this correction is to correct E33, published April 21, 1976, which should be E70.

No. MC 108341 (Sub-No. E4) (Partial correction), filed May 13, 1974, published in the *FEDERAL REGISTER* October 1, 1975, and republished, as corrected, this issue. Applicant: MOSS TRUCKING CO., INC., P.O. Box 8409, Charlotte, N.C. 28208. Applicant's representative: Jack F. Counts (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Gypsum, gypsum products, and building materials (except stone, marble, granite, and slate), restricted to the transportation of commodities which because of size or weight require the use of special equipment, and commodities which because of size or weight do not require the use of special equipment when transported as part of the same shipment with commodities which because of size or weight require the use of special equipment, \* \* \* (4) Between points in and south of Brevard, Lake, Orange, Pasco and Sumter Counties, Fla., on the one hand, and, on the other, points in that part of Tennessee east of a line beginning at the Tennessee-North Carolina State line and extending along U.S. Highway 25 to junction U.S. Highway 25E, thence along U.S. Highway 85E to the Tennessee-Kentucky State line; \* \* \* (10) Between points in that part of North Carolina bounded by a line beginning at the North Carolina-Tennessee State line and extending along U.S. Highway 321 to junction U.S. Highway 64, thence along U.S. Highway 64 to junction North Carolina Highway 87, thence along North Carolina Highway 87 to the North Carolina-Virginia State line, thence along the North Carolina-Virginia State line to the North Carolina-Tennessee State line, thence along the North Carolina-Tennessee State line to the points of beginning, on the one hand, and, on the other, points in that part of Tennessee bounded by a line beginning at the Tennessee-Kentucky State line and extending along U.S. Highway 231 to junction Tennessee Highway 130, thence along Tennessee Highway 130 to junction Tennessee Highway 55, thence along Tennessee Highway 55 to junction Tennessee Highway 30, thence along Tennessee Highway 30 to junction Tennessee Highway 101, thence along Tennessee Highway 101 to junction Interstate Highway 40, thence along Interstate Highway 40 to junction U.S. Highway 11W, thence along U.S. Highway 11W to junction U.S. Highway 23, thence along U.S. Highway

23 to the Tennessee-Virginia State line, thence along the Tennessee-Virginia State line to the point of beginning, and \* \* \* The purpose of this filing is to eliminate the gateway of Plasteco, Virginia. The purpose of this correction is to correct the origin description. The remainder of the letter-notice remains as previously published.

No. MC 108341 (Sub-No. E6) (Partial correction), filed May 13, 1974, and published in the *FEDERAL REGISTER* October 1, 1975, and republished, as corrected, this issue. Applicant: MOSS TRUCKING CO., INC., P.O. Box 8409, Charlotte, N.C. 28208. Applicant's representative: Jack F. Counts (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Flat glass, and glass glazing units, restricted to the transportation of commodities which because of size or weight require the use of special equipment and commodities which because of size or weight do not require the use of special equipment when transported as part of the same shipment with commodities which because of size or weight require the use of special equipment, (10) from points in that part of North Carolina south and east of a line beginning at the North Carolina-South Carolina State line and extending along U.S. Highway 401 to junction North Carolina Highway 24, thence along North Carolina Highway 24 to the White Oak River, thence along White Oak River to the Atlantic Ocean, to points in Alabama, Illinois, Indiana, Iowa, Kansas, Kentucky, Maine, Michigan, Minnesota, Missouri, New Hampshire, Ohio, Vermont, West Virginia, Wisconsin, and those in Pennsylvania west of the Susquehanna River; \* \* \* The purpose of this filing is to eliminate the gateway of Clinton and Laurinburg, N.C. The purpose of this correction is to correct the origin description in part (10) above. The remainder of the letter-notice remains as previously published.

No. MC 113676 (Sub-No. E51), filed June 4, 1974. Applicant: ROTHERY STORAGE AND VAN COMPANY, 1525 Chase Avenue, Elk Grove Village, Ill. 60007. Applicant's representative: Robert J. Gallagher, 1000 Connecticut Ave., N.W., Washington, D.C. 20036. Gallagher, 1000 Connecticut Ave., N.W., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Michigan, on the one hand, and, on the other, points in Colorado. The purpose of this filing is to eliminate the gateways of points in Illinois and Missouri.

No. MC 113676 (Sub-No. E74), filed June 4, 1974. Applicant: ROTHERY STORAGE AND VAN COMPANY, 1525 Chase Ave., Elk Grove Village, Ill. 60007. Applicant's representative: Robert J. Gallagher, 1000 Connecticut Ave., N.W., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Michigan, on the one hand, and, on the other, points in Arkansas. The purpose of this filing is to eliminate the gateways of points in Illinois and Missouri.

No. MC 113676 (Sub-No. E75), filed June 4, 1974. Applicant: ROTHERY STORAGE AND VAN COMPANY, 1525 Chase Ave., Elk Grove Village, Ill. 60007. Applicant's representative: Robert J. Gallagher, 1000 Connecticut Ave., N.W., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Indiana, on the one hand, and, on the other, points in Texas. The purpose of this filing is to eliminate the gateways of points in Illinois and Missouri.

No. MC 113676 (Sub-No. E76), filed June 4, 1974. Applicant: ROTHERY STORAGE AND VAN COMPANY, 1525 Chase Ave., Elk Grove Village, Ill. 60007. Applicant's representative: Robert J. Gallagher, 1000 Connecticut Ave., N.W., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Indiana, on the one hand, and, on the other, points in Wisconsin. The purpose of this filing is to eliminate the gateway of points in Illinois.

No. MC 113676 (Sub-No. E77), filed June 4, 1974. Applicant: ROTHERY STORAGE AND VAN COMPANY, 1525 Chase Ave., Elk Grove Village, Ill. 60007. Applicant's representative: Robert J. Gallagher, 1000 Connecticut Ave., N.W.,

Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Indiana, on the one hand, and, on the other, points in Louisiana. The purpose of this filing is to eliminate the gateway of points in Illinois.

No. MC 113676 (Sub-No. E78), filed June 4, 1974. Applicant: ROTHERY STORAGE AND VAN COMPANY, 1525 Chase Ave., Elk Grove Village, Ill. 60007. Applicant's representative: Robert J. Gallagher, 1000 Connecticut Ave., N.W., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Indiana, on the one hand, and, on the other, points in Colorado. The purpose of this filing is to eliminate the gateways of points in Illinois and Missouri.

No. MC 113676 (Sub-No. E79), filed June 4, 1974. Applicant: ROTHERY STORAGE AND VAN COMPANY, 1525 Chase Ave., Elk Grove Village, Ill. 60007. Applicant's representative: Robert J. Gallagher, 1000 Connecticut Ave., N.W., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Michigan, on the one hand, and, on the other, points in Louisiana. The purpose of this filing is to eliminate the gateways of points in Illinois and Missouri.

No. MC 113676 (Sub-No. E80), filed June 4, 1974. Applicant: ROTHERY STORAGE AND VAN COMPANY, 1525 Chase Ave., Elk Grove Village, Ill. 60007. Applicant's representative: Robert J. Gallagher, 1000 Connecticut Ave., N.W., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in New York, on the one hand, and, on the other, points in Texas. The purpose of this filing is to eliminate the gateways of points in Illinois and Missouri.

No. MC 113676 (Sub-No. E81), filed June 4, 1974. Applicant: ROTHERY STORAGE AND VAN COMPANY, 1525 Chase Ave., Elk Grove Village, Ill. 60007. Applicant's representative: Robert J. Gallagher, 1000 Connecticut Ave., N.W., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Ohio, on the one hand, and, on the other, points in Maryland. The purpose of this filing is to eliminate the gateway of points in New York.

No. MC 113676 (Sub-No. E82), filed June 4, 1974. Applicant: ROTHERY STORAGE AND VAN COMPANY, 1525 Chase Ave., Elk Grove Village, Ill. 60007. Applicant's representative: Robert J.

Gallagher, 1000 Connecticut Ave., N.W., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Ohio, on the one hand, and, on the other, points in Delaware. The purpose of this filing is to eliminate the gateways of points in New York.

No. MC 113855 (Sub-No. E84), (Partial correction), filed May 30, 1974, and published in the FEDERAL REGISTER January 19, 1976, and republished, as corrected, this issue. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Rd., S.E., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First Nat'l Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting:

(1) *Commodities* which because of their size or weight require the use of special equipment (except boats and iron and steel articles), and *related machinery, parts and related contractors' materials and supplies*, when their transportation is incidental to the transportation by said carrier of the above-described commodities, and \* \* \* (A) (4) between points in Kansas on, west and north of a line beginning at the Nebraska-Kansas State line extending along U.S. Highway 281 to junction U.S. Highway 56, thence along U.S. Highway 56 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction U.S. Highway 54, thence along U.S. Highway 54 to the Kansas-Oklahoma State line (except points described in (3) above), on the one hand, and, on the other, points in West Virginia on and north of U.S. Highway 33 and on and west of U.S. Highway 250. The purpose of this filing is to eliminate the gateways of South Dakota, Davenport, Iowa, and Elgin, Ill., in (A) above; and South Dakota and points in Pennsylvania on and east of a line beginning at the Pennsylvania-Maryland State line extending along unnumbered highway to junction Business U.S. Highway 15 near Fairplay, thence to junction U.S. Highway 15, thence along unnumbered highway through Clear Spring to junction U.S. Highway 15, thence along U.S. Highway 15 to the Pennsylvania-New York State line (except points in Berks, Bucks, Chester, Delaware, Montgomery, and Philadelphia Counties, Pa., and points in Pennsylvania on and east of the above-described line in Adams, York, Cumberland, Perry, Dauphin, Lebanon, and Lancaster Counties, Pa., and points on and east of U.S. Highway 15 and north of the East Branch of the Susquehanna River in Tioga, Bradford, Lycoming, Sullivan, Union, Snyder, Northumberland, Montour, and Columbia Counties, Pa., in (B) above. The purpose of this correction is to correct the publication to properly identify the particular highway. The remainder of the letter-notice remains as previously published.

No. MC 113855 (Sub-No. E84), (Partial correction), Filed May 30, 1974, and published in the FEDERAL REGISTER October

21, 1975, and republished, as corrected, this issue. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Rd., S.E., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First Nat'l Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities* which because of their size or weight, require the use of special equipment, and *related machinery, parts, and related contractors' materials, and supplies*, when their transportation is incidental to the transportation of the specified commodities \* \* \* The purpose of this filing is to eliminate the gateways of points in Minnesota within 50 miles of Sioux Falls, S. Dak. The purpose of this partial correction is to correct an error in the first portion of the commodity description. The remainder of the letter notice remains as previously published.

No. MC 113855 (Sub-No. E84), (Correction), filed May 30, 1974, published in the FEDERAL REGISTER November 26, 1975, and republished, as corrected this issue. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Rd., S.E., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First Nat'l Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) (2) *self-propelled articles* described in (1) above, each weighing 15,000 pounds or more and related machinery, and parts moving in connection therewith (restricted to commodities transported on trailers), from points in Montana, to points in Maine, Vermont, New Hampshire, Tennessee, South Carolina, Georgia, Florida, Alabama, Mississippi, Arkansas, New York, Delaware, Virginia, North Carolina, Michigan, Louisiana, Maryland and the District of Columbia, (points in South Dakota east of the Missouri River and Minneapolis, Minn.) \* (B) (2) *self-propelled articles*, described in (1) above each weighing 15,000 pounds or more (restricted to commodities transported on trailers), from points in Montana, to points in Maine, Vermont, New Hampshire, Tennessee, South Carolina, Georgia, Florida, Alabama, Mississippi, Arkansas, New York, Delaware, Virginia, North Carolina and Michigan, (points in South Dakota east of the Missouri River, and points in Minnesota within 15 miles of the Minneapolis-St. Paul commercial zone) \* (C) *road construction machinery and equipment*, as defined by the Commission, and *lift trucks*, in flat bed trailers only, restricted to commodities which because of size or weight require the use of special equipment, provided that the loading and/or unloading which necessitates the special equipment, is performed by the consignor or consignee or both, between points in Montana, on the one hand, and on the other, points in Maine, Vermont, New Hampshire, Tennessee, South Carolina, Georgia, Florida, Alabama, Mississippi, Arkansas, New York, Delaware,

Virginia, North Carolina and Michigan (except Benton Harbor and Battle Creek); (points in South Dakota east of Missouri River and points in Minnesota within 15 miles of Minneapolis-St. Paul commercial zone). \* The purpose of this filing is to eliminate the gateways indicated by asterisks above. The purpose of this correction is to correct the territorial description. The remainder of the letter-notice remains as previously published.

No. MC 113855 (Sub-No. E85), (Correction), filed May 30, 1974, and published in the FEDERAL REGISTER October 21, 1975, and republished, as corrected, this issue. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Rd., S.E., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First Nat'l Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Commodities*, which, because of size or weight, require the use of special equipment, and *related machinery, parts, and related contractors' materials, and supplies*, when their transportation is incidental to the transportation of the specified commodities, and . . . (a) (ii) between points in North Dakota on and west of U.S. Highway 83 on the one hand, and, on the other, points in North Carolina west of Hartford, Bertie, Martin, Beaufort, and Pamlico Counties, and east of U.S. Highway 15, and points in South Carolina on and east of U.S. Highway 52 (South Dakota and points in Pennsylvania on and east of a line beginning at the Maryland-Pennsylvania State line and extending along unnumbered highway (formerly portion U.S. Highway 15) to junction Business U.S. Highway 15, near Fairplay in junction U.S. Highway 15, thence along U.S. Highway 15 to junction unnumbered highway (formerly portion U.S. Highway 15), through Clear Spring, to junction U.S. Highway 15, thence along U.S. Highway 15 to the Pennsylvania-New York State line (except points in Berks, Bucks, Chester, Delaware, Montgomery, and Philadelphia Counties, Pa., and points in Pennsylvania, on and east of the above described line in Adams, York, Cumberland, Perry, Dauphin, Lebanon, and Lancaster Counties, Pa., and points in Pennsylvania on and east of U.S. Highway and north of the East Branch of the Susquehanna River in Tioga, Bradford, Lycoming, Sullivan, Union, Snyder, Northumberland, Montour, and Columbia Counties, Pa.).

(b) Between points in South Dakota, on the one hand, and, on the other, points in New York on and east of U.S. Highway 15, points in Maryland (except Garrett County), the District of Columbia, points in North Carolina on and east of a line beginning at the Virginia-North Carolina State line and extending along North Carolina Highway 87 to junction U.S. Highway 301, thence along U.S. Highway 301 to the North Carolina-South Carolina State line, and points in Virginia east of Alleghany, Rockbridge,

Bedford, and Pittsylvania Counties (points in Pennsylvania on and east of a line beginning at the Maryland-Pennsylvania State line and extending along unnumbered highway (formerly portion U.S. Highway 15), to junction Business U.S. Highway 15, near Fairplay, to junction U.S. Highway 15, thence along U.S. Highway 15 to junction unnumbered highway (formerly portion U.S. Highway 15), through Clear Spring to junction U.S. Highway 15 thence along U.S. Highway 15 to the Pennsylvania-New York State line (except points in Berks, Bucks, Chester, Delaware, Montgomery, and Philadelphia Counties, Pa., and points in Pennsylvania on and east of the above described line in Adams, York, Cumberland, Perry, Dauphin, Lebanon, and Lancaster Counties, Pa., and points in Pennsylvania on and east of U.S. Highway 15 and north of the East Branch of the Susquehanna River in Tioga, Bradford, Lycoming, Sullivan, Union, Snyder, Northumberland, Montour, and Columbia Counties, Pa.). \* The purpose of this filing is to eliminate the gateways indicated by asterisks above. The purpose of this correction is to correct the reference of the elimination of a gateway and to correct an error made in part (a) (ii) above. The remainder of the letter-notice remains as previously published.

No. MC 113855 (Sub-No. E90), (Partial correction), filed May 30, 1974, and published in the FEDERAL REGISTER November 5, 1975, and republished, as shown, this issue. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Road, S.E., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First Nat'l Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *commodities* which, because of their size or weight require the use of special equipment (except boats and iron and steel articles), and *related machinery parts and related contractors' materials and supplies*, when their transportation is incidental to the transportation by said carrier of the above-described commodities, and (2) *self-propelled articles*, each weighing 15,000 pounds or more and *related machinery, tools, parts and supplies*, moving in connection therewith (restricted to commodities transported on trailers), . . . (3) between points in Colorado, on and north of a line beginning at the Colorado-Kansas State line and extending along U.S. Highway 36 to junction U.S. Highway 6, thence along U.S. Highway 6 to Colorado-Utah State line on the one hand, and, on the other, points in Indiana south of Interstate Highway 74 and on and north of a line beginning at the Indiana-Illinois State line and extending along Interstate Highway 70 to the junction of Indiana State Highway 46, thence along Indiana State Highway 46 to junction Interstate Highway 65, thence along Interstate Highway 65 to the Indiana-Kentucky State line, and points in Kentucky on and east of Kentucky State Highway 61. The purpose of this filing is to eliminate

the gateways indicated in asterisks above. The purpose of this correction is to insert part (3) which was deleted in the publication. The remainder of the letter-notice remains as previously published.

No. MC 113855 (Sub-No. E94), (Partial correction), filed May 30, 1974, and published in the FEDERAL REGISTER November 26, 1975, and republished, as corrected, this issue. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Rd., S.E., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First Nat'l Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *commodities* which, because of their size or weight, require the use of special equipment, and *related machinery, parts and related contractors' materials and supplies*, when their transportation is incidental to the transportation of the above-specified commodities, and . . . (B) (vi) between points in Montana, on the one hand, and, on the other, points in Kansas on and east of Kansas Highway 25; (points in South Dakota east of the Missouri River) . . . The purpose of this filing is to eliminate the gateways indicated by asterisks above. The purpose of this partial correction is to correct the second part (B) (v) to read as (B) (vi) above. The remainder of the letter-notice remains as previously published.

No. MC 113855 (Sub-No. E111), (Partial correction), filed May 30, 1974, and published in the FEDERAL REGISTER October 21, 1975, and republished, as corrected, this issue. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Road S.E., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First Nat'l Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *airplane loading, maintenance and baggage handling equipment*, which by reason of size or weight requires the use of special equipment, and . . . (E) from points in Nevada on, west, and north of a line beginning at the Oregon-Nevada State line and extending along U.S. Highway 95 to junction U.S. Highway 40 to the Nevada-California State line, to points in Florida. The purpose of this filing is to eliminate the gateway of San Leandro, Calif. The purpose of this correction is to correct an error in part (1) of the commodity description and part (E) the destination state should be Florida. The remainder of the letter-notice remains as previously published.

No. MC 113855 (Sub-No. E118), (Partial correction), filed May 30, 1974, and published in the FEDERAL REGISTER January 19, 1976, and republished, as corrected, this issue. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Road, S.E., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First Nat'l Bank Bldg., Fargo, N. Dak. 58102. Authority

sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Signs, sign parts, and sign accessories*, which, because of size or weight, require the use of special equipment; . . . (5) from points in Wisconsin, Iowa, Michigan, Ohio, Pennsylvania, Delaware, New Jersey, New York, Connecticut, Rhode Island, Massachusetts, District of Columbia, points in Illinois on and north of Illinois Highway 9, points in Indiana on and north of Indiana Highway 26, points in West Virginia on, north, and east of U.S. Highway 60, and points in Virginia on and north of U.S. Highway 60 and on and east of U.S. Highway 29, to points in Arizona on, west, and north of a line beginning at the Utah-Arizona State line and extending along U.S. Highway 89 to junction Interstate Highway 17, thence along Interstate Highway 17 to junction U.S. Highway 80, thence along U.S. Highway 80 to the Arizona-California State line and points in Maryland. (Clearfield, Utah); . . . (8) from points in Minnesota to points in Arizona on, west, and north of a line beginning at the Utah-Arizona State line and extending along U.S. Highway 89 to junction Interstate Highway 17, thence along Interstate Highway 17 to junction U.S. Highway 80, thence along U.S. Highway 80 to the Arizona-California State line (points in Minnesota within 50 miles of Sioux Falls, S. Dak.; South Dakota; and Clearfield, Utah). \* The purpose of this filing is to eliminate the gateways indicated by asterisks above. The purpose of this correction is to correct origin point in part (5) to include the State of Maryland and to correct part (8) to clarify the correct highway. The remainder of the letter-notice remains as previously published.

No. MC 113855 (Sub-No. E119), (Partial correction), filed May 30, 1974, published in the FEDERAL REGISTER November 26, 1975, and republished, as corrected, this issue. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Road, S.E., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First Nat'l Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *agricultural machinery and implements, tractors, attachments and parts* which because of their size or weight require the use of special equipment and *related machinery parts*, when their transportation is incidental to the transportation by the above-described commodities, and (2) *self-propelled articles*, described in (1) above, each weighing 15,000 pounds or more, and *related parts*, moving in connection therewith, restricted to commodities transported on trailers, . . . (C) (v) from points in South Dakota on and north of a line beginning at the Minnesota-South Dakota State line and extending along U.S. Highway 12 to junction South Dakota Highway 73, thence along South Dakota Highway 73 to the South Dakota-North Dakota State line, to points in Louisiana and Arkansas; . . . The purpose of this filing is to eliminate the gateways indicated by as-

terisks above. The purpose of this correction is to correct part (C) (v) above. The remainder of this letter-notice remains as previously published.

No. MC 113855 (Sub-No. E155), (Partial correction), filed May 30, 1974, and published in the FEDERAL REGISTER October 21, 1975, and republished as corrected this issue. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Road, S.E., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First Nat'l Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Commodities*, the transportation of which, because of their size or weight, require the use of special equipment, and (2) *Self-propelled articles*, each weighing 15,000 pounds or more and *related machinery, tools, parts, and supplies*, moving in connection therewith, restricted to commodities transported on trailers (except boats, aircraft, aircraft parts, aircraft engines, missiles, missile parts, missile propelling parts, missile engines, self-propelled street sweepers, tension wire stringing equipment, truck concrete mixers, trenching machines, lift trucks, front end shovel loaders, trucks, automobiles, buses, trailers, and machinery and equipment used in the maintenance, servicing, repair, and operation of airplanes); . . . (D) (1) between points in Nevada on, west, and south of a line beginning at the Nevada-Oregon State line and extending along Nevada Highway 51 to junction U.S. Highway 50, thence along U.S. Highway 50 to the Utah-Nevada State line, on the one hand, and, on the other, points in Tennessee, and (2) between points in Nevada east and north of the line described in (1) above on the one hand, and, on the other, points in Tennessee on and south of U.S. Highway 64. The purpose of this filing is to eliminate the gateways of California. The purpose of this partial correction is to clarify the correct highway designation in part (D) (2) above. The remainder of the letter-notice remains as previously published.

No. MC 113855 (Sub-No. E165), (Correction), filed May 30, 1974, published in the FEDERAL REGISTER March 31, 1976, and republished, as corrected, this issue. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Rd., S.E., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First Nat'l Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (C) (1) *Road construction machinery and equipment*, as defined by the Commission, and (2) *lift trucks* in flat bed trailers only, restricted in (1) and (2) to the transportation of commodities which because of size or weight require the use of special equipment, provided that the loading and/or unloading which necessitates the special equipment is performed by consignor or consignee or both; (ii) between points in North Dakota on and north of a line beginning at the Montana-North

Dakota State line and extending along U.S. Highway 2 to junction North Dakota Highway 1, to the United States-Canada International Boundary line (except Minot), on the one hand, and, on the other, points in Maine, Vermont, New Hampshire, Tennessee, South Carolina, Georgia, Florida, Alabama, Mississippi, Arkansas, New York, Virginia, North Carolina, The Lower Peninsula of Michigan (except Benton Harbor and Battle Creek). \* (South Dakota; Minneapolis or St. Paul, Minn., or points within 15 miles thereof). \* The purpose of this filing is to eliminate the gateways indicated by asterisks above. The purpose of this correction is to correct the territorial description. The remainder of the letter-notice remains as previously published.

No. MC 113855 (Sub-No. E171), (Partial correction), filed May 30, 1974, published in the FEDERAL REGISTER November 5, 1975, and republished, as corrected, this issue. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Rd., S.E., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First Nat'l Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (B) *Road construction machinery and equipment*, as defined by the Commission, and lift trucks (except commodities which because of size or weight require the use of special equipment), in flat bed trailers, . . . (4) from points in Tennessee on and east of Interstate Highway 65, points in South Carolina, Georgia, Florida, (except Escambia, Santa Rosa, Okaloosa, Walton Holmes, Washington, and Bay Counties), Alabama (except Washington Mobile, Baldwin, and Escambia Counties) and Indiana, (except points in the corporate limits of Hammond, Whiting, East Chicago, and Gary) to points in Box Elder, Cache, Rich, Weber, Toole, Davis, Morgan, Salt Lake, Utah, and Wasatch Counties, Utah. (Minneapolis or St. Paul, Minn., or points within 15 miles thereof). \* The purpose of this filing is to eliminate the gateways indicated by asterisks above. The purpose of this partial correction is to reflect the destination point in part (B) (4). The remainder of this letter-notice remains as previously published.

No. MC 123639 (Sub-No. E9), (Correction), filed May 14, 1974, published in the FEDERAL REGISTER issue of June 24, 1974, and republished, as corrected, this issue. Applicant: J. B. MONTGOMERY, INC., 5150 Brighton Blvd., Denver, Colorado 80216. Applicant's representative: John F. DeCock (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products, and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides, dry acids and chemicals, in bulk, and liquid commodities, in bulk, in tank vehicles), from the plant site of storage facilities of Griffith

Provision Company, Inc., at or near Downs, Kans., to points in California, Idaho, Oregon, Utah, and Washington. The purpose of this filing is to eliminate the gateways of Lexington, Nebr. and Minden, Nebr.

NOTE.—The purpose of this correction is to state the correct gateway points. The above authority was transferred from J. B. Montgomery, Inc. (an Iowa Corporation) to J. B. Montgomery, Inc. (a Delaware Corporation) in No. MC-FC-7501A.

No. MC 127187 (Sub-No. E5), (Partial correction), filed May 13, 1974, and published in the *FEDERAL REGISTER* August 20, 1975, and republished, as corrected, this issue. Applicant: FLOYD DUENOW, INC., 215 East Cherry, Fergus Falls, Minn. Applicant's representative: Gene P. Johnson, 425 Gate City Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (A) *Dry animal feed and poultry feed* (except commodities in bulk, in tank vehicles, and frozen animal feed); (7) from points in that part of Minnesota east of U.S. Highway 71 and on and north of U.S. Highway 52 and 12, to points in that part of Iowa on and west of a line beginning at the Iowa-Missouri State line, and extending along U.S. Highway 71 to junction Iowa Highway 141, thence along Iowa Highway 141 to junction U.S. Highway 75, thence along the northern Monona County line to the Missouri River, that part of Iowa on and west of U.S. Highway 75 from the Minnesota-Iowa State line to the northern Plymouth County line, and points in Plymouth, Woodbury, and Monona Counties; The purpose of this filing is to eliminate the gateways of South Dakota in (A) (1) through (9), points in South Dakota within the Sioux City, Iowa, commercial zone in (A) (10), South Dakota and that part of Minnesota on and west of U.S. Highway 71, in (A) (11) and (12), and that part of North Dakota on and east of North Dakota Highway 1 in (B) (1) through (4). The purpose of this correction is to clarify the correct highway description. The remainder of the letter-notice remains as previously published.

No. MC 127187 (Sub-No. E7), (Partial correction), filed May 13, 1974, and published in the *FEDERAL REGISTER* August 20, 1975, and republished, as corrected, this issue. Applicant: FLOYD DUENOW, INC., 215 East Cherry, Fergus Falls, Minn. 56537. Applicant's representative: Gene P. Johnson, 425 Gate City Building, Fargo, N. Dak. 58102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Dry animal and poultry feed* (except frozen animal feed) and *dry animal and poultry feed ingredients* (except commodities in bulk, in tank vehicles): (D) from points in Iowa on and north of U.S. Highway 18 (except points west of Iowa Highway 170 from the Minnesota State line to junction U.S. Highway 18 near Everly) to points in Nebraska (except that part of Nebraska east of a line beginning at the Nebraska-South Dakota State line, and extending along U.S. Highway 281 to junction U.S. Highway 275, thence along U.S. Highway 275 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Nebraska-Kansas State line);

and west of U.S. Highway 71 (or South Dakota on movements to Wisconsin). The purpose of this correction is to correct the territorial description. The remainder of the letter-notice remains as previously published.

No. MC 127187 (Sub-No. E6), (Partial correction), filed May 13, 1974, published in the *FEDERAL REGISTER* August 20, 1975, and republished, as corrected, this issue. Applicant: FLOYD DUENOW, INC., 215 East Cherry, Fergus Falls, Minn. Applicant's representative: Gene P. Johnson, 425 Gate City Building, Fargo, N. Dak. 58102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (A) *Dry animal feed and dry poultry feed* (except commodities in bulk, in tank vehicles, and frozen animal feed); (7) from points in that part of Minnesota east of U.S. Highway 71 and on and north of U.S. Highway 52 and 12, to points in that part of Iowa on and west of a line beginning at the Iowa-Missouri State line, and extending along U.S. Highway 71 to junction Iowa Highway 141, thence along Iowa Highway 141 to junction U.S. Highway 75, thence along the northern Monona County line to the Missouri River, that part of Iowa on and west of U.S. Highway 75 from the Minnesota-Iowa State line to the northern Plymouth County line, and points in Plymouth, Woodbury, and Monona Counties; The purpose of this filing is to eliminate the gateways of South Dakota in (A) (1) through (9), points in South Dakota within the Sioux City, Iowa, commercial zone in (A) (10), South Dakota and that part of Minnesota on and west of U.S. Highway 71, in (A) (11) and (12), and that part of North Dakota on and east of North Dakota Highway 1 in (B) (1) through (4). The purpose of this correction is to clarify the correct highway description. The remainder of the letter-notice remains as previously published.

No. MC 127187 (Sub-No. E7), (Partial correction), filed May 13, 1974, and published in the *FEDERAL REGISTER* August 20, 1975, and republished, as corrected, this issue. Applicant: FLOYD DUENOW, INC., 215 East Cherry, Fergus Falls, Minn. 56537. Applicant's representative: Gene P. Johnson, 425 Gate City Building, Fargo, N. Dak. 58102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Dry animal and poultry feed* (except frozen animal feed) and *dry animal and poultry feed ingredients* (except commodities in bulk, in tank vehicles): (D) from points in Iowa on and north of U.S. Highway 18 (except points west of Iowa Highway 170 from the Minnesota State line to junction U.S. Highway 18 near Everly) to points in Nebraska (except that part of Nebraska east of a line beginning at the Nebraska-South Dakota State line, and extending along U.S. Highway 281 to junction U.S. Highway 275, thence along U.S. Highway 275 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Nebraska-Kansas State line);

The purpose of this filing is to eliminate the gateway of that part of Minnesota on and west of U.S. Highway 71. The purpose of this correction is to reflect a deletion of a destination point in part (D) above. The remainder of the letter-notice remains as previously published.

No. MC 127187 (Sub-No. E8), (Partial correction), filed May 13, 1974, and published in the *FEDERAL REGISTER* August 20, 1975, and republished, as corrected, this issue. Applicant: FLOYD DUENOW, INC., 215 East Cherry, Fergus Falls, Minn. 56537. Applicant's representative: Gene P. Johnson, 425 Gate City Building, Fargo, N. Dak. 58102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Dry animal feed and dry poultry feed* (except frozen animal feed): (F) from points in that part of South Dakota east of the Missouri River, and south and west of a line beginning at the Missouri River on South Dakota Highway 47, thence along South Dakota Highway 47 to junction South Dakota Highway 34, thence along South Dakota Highway 34 to South Dakota Highway 25 near Vilas, thence south on South Dakota Highway 25 to U.S. Highway 16, thence along U.S. Highway 16 to U.S. Highway 81, thence along U.S. Highway 81 to the South Dakota-Nebraska State line (except points in Yankton County) to points in: (1) that part of Kansas on and east of U.S. Highway 75, and on and south of U.S. Highway 40, (2) Missouri (except points in that part of Missouri north of U.S. Highway 40 and west of U.S. Highway 65), (3) that part of Oklahoma, on and east of U.S. Highway 75, and (4) that part of Texas on, south, and east of a line beginning at the United States-Mexican Border, and extending along U.S. Highway 67 to Fort Worth, thence along U.S. Highway 77 to the Texas-Oklahoma State line; The purpose of this filing is to eliminate the gateway of that part of Minnesota on and west of U.S. Highway 71. The purpose of this correction is to correct an error in part (F) above. The remainder of the letter-notice remains as previously published.

By the Commission.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[Notice No. 63]

#### MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

May 14, 1976.

Important Notice: The following are notices of filing of applications for temporary authority under Section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 C.F.R. § 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the *FEDERAL REGISTER* publication no later than June 3, 1976. One copy of the protest must be served

on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the I.C.C. Field Office to which protests are to be transmitted.

No. MC 19945 (Sub-No. 56TA), filed May 4, 1976. Applicant: BEENKEN TRUCK SERVICE, INC., Route No. 13, New Athens, Ill. 62264. Applicant's representative: Ernest A. Brooks II, 1301 Ambassador Bldg., St. Louis, Mo. 63101. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Dry fertilizer*, in bulk, in dump vehicles, from Springfield, Ill., to Toledo, Iowa, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: William M. Johnson, Plant Manager, Agro Marketing Co., P.O. Box 745, Meredosia, Ill. 62665. Send protests to: Harold C. Jolliff, District Supervisor, Interstate Commerce Commission, P.O. Box 2418, Springfield, Ill. 62705.

No. MC 102567 (Sub-No. 189TA) (Correction), filed April 8, 1976, published in the FR issue of April 27, 1976, republished as corrected this issue. Applicant: McNAIR TRANSPORT INC., P.O. Drawer 5357, Bossier City, La. 71010. Applicant's representative Charles L. Taylor, Jr., 2040 North Loop West, Suite 208, Houston, Tex. 77018. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except liquid bromine), in bulk, in tank vehicles, from Columbia County, Ark., to points in Alabama, Florida, Georgia, Illinois, Kansas, Kentucky, Missouri, and South Carolina, for 180 days. Supporting shipper: Dow Chemical U.S.A., Eastern Division, P.O. Box 3600, Cleveland, Ohio 44136. Send protests to: Ray C. Armstrong, Jr., District Supervisor, 9038 Federal Bldg., 701 Loyola Ave., New Orleans, La. 70113. The purpose of this republication is to correct the commodity description.

No. MC 107002 (Sub-No. 488TA), filed May 4, 1976. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: John J. Borth (same address

as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Vegetable oil*, in bulk, in tank vehicles, from Memphis, Tenn., to Wichita, Kans., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Hunt-Wesson Foods, Inc., 1645 W. Valencia Drive, Fullerton, Calif. 92634. Send protests to: Alan C. Tarrant, District Supervisor, Interstate Commerce Commission, Room 212, 145 East Amite Bldg., Jackson, Miss. 39201.

No. MC 107295 (Sub-No. 814TA), filed May 5, 1976. Applicant: PRE-FAB TRANSIT CO., 100 South Main St., Farmer City, Ill. 61842. Applicant's representative: Richard D. Vollmer (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Wire, nails, mesh, staples, gates, rods, reinforcement bars, ingots, billets, fencing, and fence posts*, from Kokomo, Ind., to points in New Jersey, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Robert M. Hamilton, Penn-Dixie Steel Corporation, 1109 South Main St., Kokomo, Ind. 48901. Send protests to: Harold C. Jolliff, District Supervisor, Interstate Commerce Commission, P.O. Box 2418, Springfield, Ill. 62705.

No. MC 109397 (Sub-No. 327TA), filed May 4, 1976. Applicant: TRI-STATE MOTOR TRANSIT CO., P.O. Box 113, Joplin, Mo. 64801. Applicant's representative: Max G. Morgan, 223 Ciudad Bldg., Oklahoma City, Okla. 73112. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Radioactive waste materials*, from the plant site of General Atomic Co., at or near San Diego, Calif., to the burial site of Nuclear Engineering Company, Inc., at or near Richland, Wash., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Nuclear Engineering Company, Inc., P.O. Box 156, San Ramon, Calif. 94583. Send protests to: John V. Barry, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 600 Federal Bldg., 911 Walnut St., Kansas City, Mo. 64106.

No. MC 111302 (Sub-No. 89TA), filed May 4, 1976. Applicant: HIGHWAY TRANSPORT, INC., P.O. Box 10470, 1500 Amherst Road, Knoxville, Tenn. 37919. Applicant's representative: David A. Petersen (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Polypropylene glycol and isocyanates*, in bulk, in tank vehicles, from Farwell, Mich., to Parsons, Tenn., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Reynolds Chemical Products, Div. Hoover Ball & Bearing Co., 5500 South State Road, Ann Arbor, Mich. 48104. Send protests to: Joe J. Tate, District Supervisor, Interstate

Commerce Commission, Bureau of Operations, Suite A-422 U.S. Courthouse, 801 Broadway, Nashville, Tenn. 37203.

No. MC 111729 (Sub-No. 652TA), filed May 5, 1976. Applicant: PUROLATOR COURIER CORP., 3333 New Hyde Park Road, New Hyde Park, N.Y. 11040. Applicant's representative: Elizabeth L. Henoch (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Fresh and dried cut flowers, decorative greens, green plants and floral supplies*, when moving at the same time and in the same vehicle with commodities the transportation of which is subject to economic regulation, from Minneapolis, Minn., to Omaha, Nebr.; Ironwood, Mich.; and points in Iowa, North Dakota, South Dakota, and Wisconsin, for 180 days. Supporting shipper: Flowers, Incorporated, 16 Glenwood, Minneapolis, Minn. 55403. Send protests to: Maria B. Reiss, Transportation Assistant, Interstate Commerce Commission, 26 Federal Plaza, New York, N.Y. 10007.

No. MC 124328 (Sub-No. 100TA), filed May 4, 1976. Applicant: BRINK'S, INCORPORATED, 1 Crossroads of Commerce, Algonquin Road & Rt. 53, Suite 710, Rolling Meadows, Ill. 60008. Applicant's representative: Chandler L. van Orman, 704 Southern Bldg., Washington, D.C. 20005. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Precious metals*, between Chicago, Ill., and Winslow, N.J., under a continuing contract with Simmons Refining Company, for 180 days. Supporting shipper: Simmons Refining Company, Ellis H. Brown, Vice-President, 1704 S. Normal, Chicago, Ill. Send protests to: Patricia A. Roscoe, Transportation Assistant, Interstate Commerce Commission, Everett McKinley Dirksen Bldg., 219 S. Dearborn St., Room 1386, Chicago, Ill. 60604.

No. MC 126276 (Sub-No. 149TA), filed April 29, 1976. Applicant: FAST MOTOR SERVICE, INC., 9100 Plainfield Road, Brookfield, Ill. 60513. Applicant's representative: Albert A. Andrin, 180 N. La Salle St., Chicago, Ill. 60601. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Metal containers and metal container ends*, from the plant site of American Can Company, at Whitehouse, Ohio, to Edison and Hillside, N.J., under a continuing contract with American Can Company, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: American Can Company, Richard P. Edwards, Asst. Trans. Mgr., Operations, American Lane, Greenwich, Conn. 06830. Send protests to: Patricia A. Roscoe, Transportation Assistant, Interstate Commerce Commission, Everett McKinley Dirksen Bldg., 219 S. Dearborn St., Room 1386, Chicago, Ill. 60604.

No. MC 134387 (Sub-No. 31TA), filed May 4, 1976. Applicant: BLACKBURN TRUCK LINES, INC., 4998 Branyon Ave., South Gate, Calif. 90280. Applicant's rep-

representative: David P. Christianson, 606 South Olive St., Suite 825, Los Angeles, Calif. 90014. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cased paper products*, from the manufacturing facility of American Can Company's paper mill at Halsey, Oreg., to points in California, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: American Can Company, Serramonte Plaza, 355 Gellert Blvd., Daly City, Calif. 94105. Send protests to: Walter W. Strakosch, District Supervisor, Room 321, Federal Bldg., 300 North Los Angeles St., Los Angeles, Calif. 90012.

No. MC 134922 (Sub-No. 168TA), filed May 5, 1976. Applicant: B. J. McADAMS, INC., Route 6, Box 15, North Little Rock, Ark. 72118. Applicant's representative: Bob McAdams (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pneumatic rubber tires and tubes*, from Marion and Shelby, Ohio, to points in Colorado and Texas, for 180 days. Supporting shippers: Mansfield Tire & Rubber Company; Pennsylvania Tire Company; Inland Rubber Corp., also dba Fleet Tire Mart, Pennsylvania Tire & Rubber Co., of Miss., Inc., 515 Newman St., Mansfield, Ohio 44902. Send protests to: William H. Land, Jr., District Supervisor, 3108 Federal Office Bldg., 790 West Capitol, Little Rock, Ark. 72201.

No. MC 135364 (Sub-No. 28TA), filed April 29, 1976. Applicant: MORWALL TRUCKING, INC., R.D. #3, Box 76-C, Moscow, Pa. 18444. Applicant's representative: Joseph G. Dall, Jr., 1111 E St., NW., Washington, D.C. 20004. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Enameled, glazed, and surface coated paper*, from the facilities of Coated Products, Inc., at or near Monmouth Junction, N.J., to points in Georgia, Illinois, Indiana, Kansas, Michigan, Minnesota, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, Virginia, West Virginia, Wisconsin, Missouri and California; and (2) *Materials, equipment, and supplies* used in the manufacture of commodities described in (1) above, from points in Georgia, Illinois, Indiana, Kansas, Michigan, Minnesota, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, Virginia, West Virginia, Wisconsin, Missouri and California, to the facilities of Coated Products, Inc., at or near Monmouth Junction, N.J., under a continuing contract with Coated Products, Inc., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Coated Products, Inc., 275 Lincoln Blvd., Middlesex, N.J. 08846. Send protests to: Paul J. Kenworthy, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 134 U.S. Post Office Bldg., Scranton, Pa. 18503.

No. MC 135553 (Sub-No. 8TA), filed April 26, 1976. Applicant: HENRY ANDERSEN, INC., P.O. Box 75, King George, Va. 22485. Applicant's representative: Chester A. Zyblut, 366 Executive Bldg., 1030 Fifteenth St., N.W., Washington, D.C. 20005. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Cellulose film, cellulose edible flour, plastic film and plastic strapping*, from the plantsites and storage facilities of FMC Corporation, located at Marcus Hook, Pa., Dowingtown, Pa., Newark, Del., and Fredericksburg, Va., to Shreveport and New Orleans, La., Dallas, Houston, Fort Worth and San Antonio, Tex.; Little Rock, Ark.; Oklahoma City, Okla.; Salt Lake City and Ogden, Utah, Los Angeles, Oakland, San Diego and Stockton, Calif., and Tukwila, Wash., and points in their respective commercial zones, under a continuing contract with FMC Corporation, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: FMC Corporation, Wendell Harkleroad, Manager, Freight Rates, 2000 Market St., Philadelphia, Pa. 19103. Send protests to: Paul D. Collins, District Supervisor, Bureau of Operations, Room 10-502 Federal Bldg., 400 North 8th St., Richmond, Va. 23240.

No. MC 136257 (Sub-No. 1TA), filed May 5, 1976. Applicant: RABBIT TRAN-SIT, 220 Erie St., Pomona, Calif. 91766. Applicant's representative: James H. Gulseth, 125 University Ave., Berkeley, Calif. 94710. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plumber's goods, and materials and supplies* used in the manufacture of plumber's goods, between the plantsites and warehouse facilities of Norris Industries at City of Industry, Calif., on the one hand, and, on the other, points in Arizona, California, Colorado, Kansas, New Mexico, Oklahoma, Oregon, Texas, Washington and Wyoming, for 180 days. Supporting shipper: Norris Industries, Plumbing Fixtures Division, 700 Fairway Drive, City of Industry, Calif. 91744. Send protests to: Philip Yallowitz, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 1321 Federal Bldg., 300 North Los Angeles St., Los Angeles, Calif. 90012.

No. MC 136489 (Sub-No. 1TA), filed May 4, 1976. Applicant: RALPH L. NORTON, Route 15, P.O. Box 27, Jericho, Vt. 05465. Applicant's representative: W. Norman Charles, 80 Bay St., Glens Falls, N.Y. 12801. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Malt beverages*, from Secaucus, N.J., and Allentown, Pa., to Burlington, Vt.; (2) *Soda*, from Burlington, Vt., to Claremont, N.H., Malone and Ogdensburg, N.Y.; (3) *Empty glass bottles*, from New York, N.Y., and Glenshaw, Pa., to Burlington, Vt., and (4) *Wine*, from Newark, N.J., and Long Island City, N.Y., to Burlington, Vt., under a continuing contract with Vermont Fruit & Grocery Company,

Inc., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Vermont Fruit & Grocery Company, Inc., 212 Battery St., Burlington, Vt. 05401. Send protests to: David A. Demers, District Supervisor, Interstate Commerce Commission, Bureau of Operations, P.O. Box 548, 87 State St., Montpelier, Vt. 05602.

No. MC 138875 (Sub-No. 31TA), filed May 5, 1976. Applicant: SHOEMAKER TRUCKING COMPANY, 11900 Franklin Road, Boise, Idaho 83705. Applicant's representative: F. L. Sigloh (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wood and steel trusses and wooden laminated beams*, from Eugene, Oreg., to points in Washington and Montana, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Trus Joist Corp., 110 W. 31st Ave., B. Boise, Idaho. Send protests to: Bayney L. Hardin, District Supervisor, Interstate Commerce Commission, 550 West Fort, Box 07, Boise, Idaho 83724.

No. MC 139493 (Sub-No. 147TA), filed May 4, 1976. Applicant: LESCO TRANSPORTATION COMPANY, INC., 7540 LBJ Freeway, Dallas, Tex. 75240. Applicant's representative: Chandler L. Van Orman, 704 Southern Bldg., Washington, D.C. 20005. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel scrap*, from points in Louisiana, Mississippi, Arkansas and Oklahoma to Lone Star, Tex., under a continuing contract with T & N Lone Star Warehouse Company, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: T & N Lone Star Warehouse Company, 7540 LBJ Freeway, #224, Dallas, Tex. 75251. Send protests to: Opal M. Jones, Transportation Assistant, Interstate Commerce Commission, 1100 Commerce St., Room 13C12, Dallas, Tex. 75242.

No. MC 141076 (Sub-No. 6TA), (Correction), filed April 22, 1976, published in the FEDERAL REGISTER issue of May 5, 1976, republished as corrected this issue. Applicant: ROGERS MOTOR LINES, INC., R.D. #2, Box 388 D2, Hackettstown, N.J. 07840. Applicant's representative: Morton E. Kiel, Suite 6139, 5 World Trade Center, New York, N.Y. 10048. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs* (except in bulk), in vehicles equipped with mechanical refrigeration, from Newburgh, N.Y., to the District of Columbia, for 180 days. Supporting shipper: Avoset Food Corporation, 80 Grand Ave., Oakland, Calif. 94612. Send protests to: Joel Morrows, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 9 Clinton St., Newark, N.J. 07102. The purpose of this republication is to correct the territorial description in this proceeding.

No. MC 141804 (Sub-No. 7TA), filed May 5, 1976. Applicant: WESTERN EXPRESS, DIV. of INTERSTATE RENTAL, INC., Box 422, Goodlettsville, Tenn. 37072. Applicant's representative: R. Connor Wiggins, Jr., 100 North Main Bldg., Suite 909, Memphis, Tenn. 38103. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Alcoholic beverages* (except commodities in bulk), from Louisville, Ky.; Frankfort, Ky.; St. Louis, Mo.; Detroit, Mich., and Lynchburg, Tenn., to the plantsite and storage facilities of Young's Market Company, in Realto, Anaheim, Los Angeles and San Diego, Calif., for 180 days. Supporting shipper: Young's Market Company, 500 S. Central Ave., Los Angeles, Calif. Send Protests to: Joe J. Tate, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Suite A-422 U.S. Courthouse, 801 Broadway, Nashville, Tenn. 37203.

No. MC 141976TA (Correction), filed April 20, 1976, published in the FEDERAL REGISTER issue of April 29, 1976, republished as corrected this issue. Applicant: BALTIMORE FREIGHTWAYS, INC., P.O. Box 321, Randallstown, Md. 21133. Applicant's representative: Charles E. Creager, 1329 Pennsylvania Ave., P.O. Box 1417, Hagerstown, Md. 21740. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Welding wire and rods, welding electrodes, welding flux and compounds*, from Baltimore, Md. and its commercial zone, to points in Washington, Oregon, Idaho, Montana, Wyoming, California, Nevada, Utah, Arizona, Colorado, New Mexico, Oklahoma, Texas and Louisiana, under a continuing contract with The Reid-Avery Company, for 180 days. Supporting shipper: John R. Colgan, Traffic Manager, The Reid-Avery Company, Cleveland & Chesapeake Aves., Baltimore, Md. 21222. Send protests to: William L. Hughes, District Supervisor, Interstate Commerce Commission, 814-B Federal Bldg., Baltimore, Md. 21201. The purpose of this republication is to correct the territorial description in this proceeding.

No. MC 142008 (Sub-No. 1TA), filed May 4, 1976. Applicant: WILLIAM C. THOMAS, Route 1, Box 189, Trappe, Md. 21637. Applicant's representative: Robert B. Pepper, 168 Woodbridge Ave., Highland Park, N.J. 08904. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Plastic garden hose and rolls*, from Shipper's Plants, located in Brooklyn, N.Y., and Belleville, N.J., to points in Georgia, Illinois, Massachusetts, Missouri, North Carolina, South Carolina, Tennessee and Virginia; Scrap plastics, from the above destination states to shipper's plants located in Brooklyn, N.Y., and Belleville, N.J., under a continuing contract with Plymouth Apex Company and its subsidiary, Flexon Industries Corp., for 180 days. Supporting shipper: Alex Folkman, President, Plymouth Apex Company, Inc., & Subsidiary, Flexon Industries Corp., 110 Birdge St., Brooklyn, N.Y. 11201. Send protests to: William L.

Hughes, District Supervisor, Interstate Commerce Commission, 814-B Federal Bldg., Baltimore, Md. 21201.

No. MC 142028 TA, filed May 3, 1976. Applicant: ELI G. TRAVIS, doing business as TRAVIS TRUCKING COMPANY, R.D. #1, Benton, Pa. 17814. Applicant's representative: Chester A. Zyblut, 366 Executive Bldg., 1030 Fifteenth St., N.W., Washington, D.C. 20005. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Wood and plastic products, toothpick dispensers, sporting goods, and accessories*, from Wilton, Maine, to points in Florida, Georgia, Alabama, Mississippi, Kansas, Louisiana, North Carolina, South Carolina, Tennessee, Arkansas, Texas, Oklahoma, New Mexico, Colorado, Wyoming, Montana, Washington, Idaho, Oregon, Utah, Nevada, Arizona and California, under a continuing contract with Forster Manufacturing Company, Inc., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Forster Manufacturing Company, Inc., Depot St., Wilton, Maine, 04294. Send protests to: Paul J. Kenworthy, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 314 U.S. Post Office Bldg., Scranton, Pa. 18503.

No. MC 142029TA, filed May 5, 1976. Applicant: COMMERCIAL TRAILER PARTS & SERVICE, INC., 1701 Salco Ave., Baltimore, Md. 21230. Applicant's representative: Chester A. Zyblut, 355 Executive Bldg., 1030 15th St., N.W., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *Empty trailers*, other than house trailers; (B) *Empty specialty modular units*, with or without undercarriages, and (C) *Materials, supplies, replacement parts* used or useful in the manufacture, repair and distribution of trailers and specialty modular units, in shipper owned trailers, between points in Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Pennsylvania, Ohio, West Virginia, Virginia, Maryland, Delaware, North Carolina and the District of Columbia, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shippers: There are approximately 5 statements of support attached to the application, which may be examined at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: William L. Hughes, District Supervisor, Interstate Commerce Commission, 814-B Federal Bldg., Baltimore, Md. 21201.

No. MC 142032TA, filed May 7, 1976. Applicant: KEEP ON TRUCKING, INC., 1 Madison St., East Rutherford, N.J. 07073. Applicant's representative: George A. Olsen, 69 Tonnele Ave., Jersey City, N.J. 07306. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Electrical goods and equipment, mate-*

*rials and supplies*, used in the manufacture, production, distribution, and repair of such commodities, between the facilities of Sony Corp., of America at Moonachie, N.J., on the one hand, and, on the other, New York, N.Y. Commercial Zone as defined by the Commission, under a continuing contract with Sony Corporation of America, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Sony Corporation of America, 1 Sony Drive, Moonachie, N.J. 07074. Send protests to: Joel Morrows, District Supervisor, Interstate Commerce Commission, 9 Clinton St., Newark, N.J. 07102.

No. MC 142033TA, filed May 5, 1976. Applicant: TUYA CARTAGE & WAREHOUSE CORP., 1351 N.W. 78th Ave., Miami, Fla. 33126. Applicant's representative: John P. Bond, 2766 Douglas Road, Miami, Fla. 33133. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, restricted against the transportation of said commodities in bulk, Classes A and B explosives, household goods, livestock and commodities requiring special handling and special equipment, between points in Dade County, Fla., all shipments having prior or subsequent movement by water, under a continuing contract with Tuya International Corp., for 180 days. Supporting shipper: Tuya International Corp., 6595 N.W. 36th St., Miami, Fla. Send protests to: Joseph B. Teichert, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Monterey Bldg., Suite 101, 8410 N.W. 53rd Terrace, Miami, Fla. 33166.

No. MC 142034TA, filed May 5, 1976. Applicant: UNION TRUCKING & WAREHOUSING, INC., 3900 N.W. 79th Ave., Miami, Fla. 33166. Applicant's representative: John P. Bond, 2766 Douglas Road, Miami, Fla. 33133. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, restricted against the transportation of said commodities in bulk, Classes A and B explosives, household goods, livestock, commodities requiring special handling and special equipment and commodities requiring refrigeration between points in Dade County, Fla.; all shipments having a prior or subsequent movement by water, under a continuing contract with Union Shipping Co., for 180 days. Supporting shipper: Union Shipping Co., 3900 N.W. 79th Ave., Miami, Fla. 33166. Send protests to: Joseph B. Teichert, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Monterey Bldg., Suite 101, 8410 N.W. 53rd Terrace, Miami, Fla. 33166.

No. MC 142035TA, filed May 6, 1976. Applicant: FMC DISTRIBUTING, 2740 North Bruin, South El Monte, Calif. 91733. Applicant's representative: James R. Butler, Jr., 8383 Wilshire Blvd., Suite 750, Beverly Hills, Calif. 90211. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Tires and tubes* sold by Grand Auto, Inc., from Memphis,

Tenn., to Whittier, Fresno, National City, and Oakland Calif., on split deliveries; and between the listed California points, under a continuing contract with Grand Auto, Inc., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Grand Auto, Inc., 7200 Edgewater Drive, Oakland, Calif. 94621. Send protests to: Walter W. Strakosch, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 1321 Federal Bldg., 300 North Los Angeles St., Los Angeles, Calif. 90012.

No. MC 142036TA, filed May 4, 1976. Applicant: J. A. MODULAR HOMES, INC., 3400 Mt. View Drive, Anchorage, Ark. 99501. Applicant's representative: Jonas Arnbrister (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Buildings*, in sections, between points in Alaska (except the Panhandle), for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shippers: John Graham & Co., 1110 Third Ave., Seattle, Wash. 98101. Modular Pacific Corp., 9407 E. Marginal Way, S.W., Seattle, Wash. 98108. Doug Weeks Construction, Inc., 4260 E. Mercer Way, Mercer Island, Wash. 98040. Solar Crown Assoc., 7217 Violet, Anchorage, Ark. 99502, and Navajo Crane, Inc., P.O. Drawer 8-AA, Anchorage, Ark. 99508. Send protests to: Hugh H. Chaffee, Interstate Commerce Commission, P.O. Box 1532, Anchorage, Ark. 99510.

No. MC 142037TA, filed May 7, 1976. Applicant: SCHULTZ BROS., INC., P.O. Box 373, Guy, Tex. 77444. Applicant's representative: Thomas F. Sedberry, 1102 Perry-Brooks Bldg., Austin, Tex. 78701. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Tractors*, from Wharton, Tex., to points in Louisiana, Arkansas, Mississippi, Kansas, Oklahoma, California, Idaho, Montana, Washington, Illinois, Indiana and Iowa, for 180 days. Supporting shipper: Woods & Copeland Mfg., Inc., P.O. Box 591, Wharton, Tex. 77488. Send protests to: Mensing, District Supervisor, Interstate Commerce Commission, 515 Rusk, Room 8610, Houston, Tex. 77002.

No. MC 142038TA, filed May 5, 1976. Applicant: DARIO GUERRA, doing business as DARIO GUERRA TRANSFER, 1040 Biscayne Bldg., Suite 303, Miami, Fla. 33132. Applicant's representative: Richard B. Austin, Suite 214, Palm Coast

II Bldg., 5255 N.W. 87th Ave., Miami, Fla. 33178. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Semi-trailers*, loaded or empty between Port Everglades and the Port of Miami, and points in Dade County, Fla., on and north of North Kendall Drive (SR 94), on and east of Krome Ave., (SR 27), restricted to traffic having an immediately prior or subsequent movement by water in interstate or foreign commerce, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: There are approximately 24 statements of support attached to the application, which may be examined at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: Joseph B. Telchert, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Monterey Bldg., Suite 101, 8410 N.W. 53rd Terrace, Miami, Fla. 33166.

No. MC 142039TA, filed May 6, 1976. Applicant: MARTIN VER MULM, Route 3, Box 93, Newberg, Ore. 97132. Applicant's representative: Martin Ver Mulm, (same address as applicant). Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Animal feed*, in bulk and in sacks, between points in Idaho, Oregon, Washington and California, under a continuing contract with McDaniel Grain and Feed Co., for 180 days. Supporting shipper: McDaniel Grain and Feed Co., P.O. Box 208, McMinnville, Ore. 97128. Send protests to: A. E. Odoms, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 114 Pioneer Courthouse, Portland, Ore. 97204.

No. MC 142041TA, filed May 4, 1976. Applicant: GOLDEN STATE EXPRESS, INC., 930 East Walnut, Santa Ana, Calif. 92701. Applicant's representative: Bill J. Brink (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *General commodities* with the usual exceptions, to pick up, warehouse, consolidate and transport said commodities in containers, from points in Orange County, Calif., to Los Angeles, Calif., and Los Angeles Harbor, for 180 days. Supporting shipper: Transway Corporation, 4366 East 26th St., Los Angeles, Calif. 90023. Send protests to: Philip Yallowitz, District Supervisor, Interstate Commerce Commission, Room

1321 Federal Bldg., 300 North Los Angeles St., Los Angeles, Calif. 90012.

No. MC 142043 (Sub-No. 1TA) filed May 5, 1976. Applicant: CONCRETE TRUCKING, INC., doing business as AGGREGATE TRUCKING, 36450 Mission Blvd., P.O. Box 2715, Fremont, Calif. 94536. Applicant's representative: Martin J. Rosen, 256 Montgomery St., San Francisco, Calif. 94104. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Ferro alloys*, in bulk, from Vernalis and Hayward, Calif., to Portland, Ore.; Phoenix, Ariz., and Tempe, Ariz., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Derby & Co., Inc., 400 Holiday Drive, Pittsburgh, Pa. 15220. Send protests to: A. J. Rodriguez, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 450 Golden Gate Ave., Box 36004, San Francisco, Calif. 94102.

By the Commission.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[Amdt. No. 3 to I.C.C. Order No. 149 Under Revised S.O. No. 994]

#### REROUTING TRAFFIC

TO ALL RAILROADS: Upon further consideration of I.C.C. Order No. 149 (WM) and good cause appearing therefor:

It is ordered, That: I.C.C. Order No. 149 be, and it is hereby, amended by substituting the following paragraph (g) for paragraph (g) thereof:

(g) *Expiration date.* This order shall expire at 11:59 p.m., November 15, 1976, unless otherwise modified, changed, or suspended.

It is further ordered, That this amendment shall become effective at 11:59 p.m., May 15, 1976, and that this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., May 7, 1976.

INTERSTATE COMMERCE  
COMMISSION,  
[SEAL] LEWIS R. TEEPLE,  
Agent.

## AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

Ten agencies have agreed to a six-month trial period based on the assignment of two days a week beginning February 9 and ending August 6 (See 41 FR 5453). The participating agencies and the days assigned are as follows:

Monday	Tuesday	Wednesday	Thursday	Friday
NRC	USDA/ASCS		NRC	USDA/ASCS
DOT/COAST GUARD	USDA/APHIS		DOT/COAST GUARD	USDA/APHIS
DOT/NHTSA	USDA/FNS		DOT/NHTSA	USDA/FNS
DOT/FAA	USDA/REA		DOT/FAA	USDA/REA
	CSC			CSC
	LABOR			LABOR

Documents normally scheduled on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this trial program are invited. Comments should be submitted to the Director of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

**ATTENTION:** Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202-523-5286. For information on obtaining extra copies, please call 202-523-5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202-523-5022.

federal register

Phone 523-5240  
Area Code 202

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for \$5.00 per month or \$50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

## list of cfr parts affected in this issue

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, follows beginning with the second issue of the month. A Cumulative List of CFR Sections Affected is published separately at the end of each month. The guide lists the parts and sections affected by documents published since the revision date of each title.

## Title 3—The President

PROCLAMATION 4440

## Prayer for Peace

Memorial Day, May 31, 1976

*By the President of the United States of America*

### A Proclamation

In this, our Nation's 200th year, Memorial Day has special significance. As we honor those who gave their lives that our experiment with liberty might succeed, we can be proud of what America has accomplished. We are at peace. Our Nation and our way of life endure. The sacrifices of 200 years have preserved both individual freedom and national unity.

As we mark this milestone of our national independence, however, we must not forget the lessons of history. Other nations have risen to great heights only to weaken in their resolve. We must not repeat their error. We must remain strong in our defense and steadfast in our resolve to uphold the principles with which we began two centuries ago.

In accord with the request of the Congress, by joint resolution of May 11, 1950 (64 Stat. 158), let us especially pray on Memorial Day that our continued resolve and our eternal vigilance will bring lasting peace to peoples yearning for peace, and that our honored dead shall not have died in vain.

NOW, THEREFORE, I, GERALD R. FORD, President of the United States of America, do hereby designate Memorial Day, Monday, May 31, 1976, as a day of prayer for permanent peace, and I designate the hour beginning in each locality at 11 o'clock in the morning of that day as a time to unite in prayer.

I urge the press, radio, television, and all other information media to join in this observance.

I also call upon the appropriate officials of all levels of government to fly the flag at half-staff until noon during Memorial Day on all buildings, grounds, and naval vessels throughout the United States and in all areas under its jurisdiction and control, and I request the people of the United States to display the flag at half-staff from their homes for the same customary forenoon period.

IN WITNESS WHEREOF, I have hereunto set my hand this nineteenth day of May, in the year of our Lord nineteen hundred seventy-six, and of the Independence of the United States of America the two hundredth.

*Gerald R. Ford*

# rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

## Title 10—Energy CHAPTER I—NUCLEAR REGULATORY COMMISSION

### PART 9—PUBLIC RECORDS

#### Amendments of Privacy Act and Freedom of Information Act Regulations

Paragraphs § 9.53(b), 9.65(b), 9.66(b), and 9.67(a) of the Nuclear Regulatory Commission's regulation, 10 CFR Part 9, require that appropriate legends be placed on the envelope or letter such as "Privacy Act Request," "Privacy Act Disclosure Accounting Request," "Privacy Act Correction Request," "Privacy Act Appeal—Denial of Access," "Privacy Act Correction Appeal," and "Privacy Act Statement of Disagreement." Paragraphs § 9.8(a) and 9.11(a), which pertain to requests under the Freedom of Information Act, also require appropriate legends on the envelope or letter.

The legends are intended to facilitate prompt handling of requests under the Privacy Act of 1974 and the Freedom of Information Act.

The amendments of §§ 9.53(b), 9.65(b), 9.66(b), 9.67(a), 9.8(a), and 9.11(a) set forth below suggest that these legends be placed on the envelope or letter, but make it clear that the use of such legends is not mandatory. Language is added to §§ 9.53(b), 9.65(b), 9.66(b), and 9.11(a), however, to provide notice that a request not clearly marked on the envelope and in the letter will be deemed not to have been received by the NRC until it is actually received by the appropriate office specified in 10 CFR Part 9.

Paragraphs 9.65(b) and 9.66(b) are amended as set forth below to increase the time for filing appeals from denials of access to records and denials of correction of records, to 60 working days from date of receipt of an initial determination denying access to a record or a refusal to amend or correct a record. This is not a mandatory time limit, however, and appeals will be considered if filed after the 60-day period.

Because these amendments relate solely to minor matters, good cause exists for omitting notice of proposed rule making, and public procedure thereon, as unnecessary, and for making the amendments effective May 20, 1976.

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, as amended, and sections 552, 552a, and 553 of Title 5 of the United States Code, the following amendments to Title 10, Chapter I, Code of Federal Regulations, Part 9, are published as a document subject to codification.

1. In § 9.8, the third sentence of paragraph (a) is amended to read as follows:

§ 9.8 Request for records.

(a) \* \* \* The request should clearly state on the envelope and in the letter that it is a "Freedom of Information Act request". \* \* \*

2. In § 9.11, paragraph (a) is revised to read as follows:

§ 9.11 Appeal from initial determination.

(a) Except as provided in § 9.15, a requester may within 30 days of receipt of a notice of denial of the request for records pursuant to this subpart appeal such denial to the Executive Director for Operations. The appeal shall be in writing, addressed to the Executive Director for Operations, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and should clearly state on the envelope and in the letter, that it is an "Appeal from Initial FOIA Decision." An appeal that is not so marked will be deemed not to have been received by the NRC until it is actually received by the Executive Director for Operations.

3. In § 9.53, paragraph (b) is revised to read as follows:

§ 9.53 Requests: How and where presented.

(b) All written requests shall be made to the Director, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and should clearly state on the envelope and in the letter, as appropriate: "Privacy Act Request," "Privacy Act Disclosure Accounting Request," "Privacy Act Correction Request." A request that is not so marked will be deemed not to have been received by the NRC until it is actually received by the Director, Office of Administration.

4. In § 9.65, paragraph (b) is revised to read as follows:

§ 9.65 Access determinations: appeals.

(b) *Appeals from denials of access.* If an individual has been denied access to a record the individual may request a final review and determination of his request by the Executive Director for Operations. A request for final review of an initial determination should be filed within 60 working days of the receipt of the initial determination, shall be in

writing, shall be addressed to the Executive Director for Operations, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and should be clearly marked on the envelope and in the letter "Privacy Act Appeal—Denial of Access." A request that is not so marked will be deemed not to have been received by the NRC until it is actually received by the Executive Director for Operations.

5. In § 9.66, paragraph (b) is revised to read as follows:

§ 9.66 Determinations authorizing or denying correction of records: appeals.

(b) *Appeals from initial adverse determinations.* If an individual's request to amend or correct a record has been denied, in whole or in part, the individual may request a final review and determination of his request by the Executive Director for Operations. A request for final review of an initial determination should be filed within 60 working days of the receipt of the initial determination, shall be in writing, shall be addressed to the Executive Director for Operations, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and should be clearly marked on the envelope and in the letter "Privacy Act Correction Appeal." An appeal that is not so marked will be deemed not to have been received by the NRC until it is actually received by the Executive Director for Operations. Requests for final review shall set forth the specific item of information sought to be corrected or amended and should include, where appropriate, documents supporting the correction or amendment.

§ 9.67 [Amended]

6. In section 9.67, paragraph (a) is amended by deleting "shall be clearly marked" and substituting therefor "should be clearly marked".

*Effective date.* These amendments become effective on May 20, 1976.

(Sec. 161, Pub. L. 83-703, 68 Stat. 948 (42 U.S.C. 2201); Sec. 201, Pub. L. 93-438, 88 Stat. 1242 (42 U.S.C. 5841); 5 U.S.C. 552a).

Dated at Bethesda, Maryland this 10th day of May 1976.

For the Nuclear Regulatory Commission.

LEE V. GOSSICK,  
Executive Director  
for Operations.

**Title 14—Aeronautics and Space**  
**CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION**  
 [Docket No. 15713; Amdt. 39-2618]

**PART 39—AIRWORTHINESS DIRECTIVES**  
**Dornier GmbH Models Do 28 D and Do 28 D-1 Airplanes**

There have been reports of the elevator trim drive chain jumping off the elevator trim sprocket on Dornier Model Do 28 airplanes that could have resulted in a loss of elevator trim control. Since this condition is likely to exist or develop in other airplanes of the same type design, an airworthiness directive is being issued which requires replacement of the existing chain guard with a new chain guard with slip-off protection and the installation of a chain guide on certain Dornier Model Do 28 D and Do 28 D-1 airplanes. Since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

(Secs. 313(a), 601, and 603 Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) Sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)).)

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

DORNIER GmbH. Applies to Model DO 28 D and DO 28 D-1 airplanes, certificated in all categories, serial numbers 0401, 4002 through 4035, and 4040 through 4049.

Compliance is required within the next 100 hours time in service after the effective date of this AD, unless already accomplished.

To prevent the possible loss of elevator trim control, replace the elevator trim chain guard with a new chain guard with slip-off protection and install a chain guide in accordance with the "Procedure" section of Dornier Service Bulletin No. 1034-1403, dated

February 21, 1973, or an FAA-approved equivalent.

This amendment becomes effective June 3, 1976.

Issued in Washington, D.C. on May 13, 1976.

J. A. FERRARESE,  
*Acting Director,*  
*Flight Standards Service.*  
 [FR Doc.76-14661 Filed 5-19-76;8:45 am]

[Airworthiness Docket No. 76-SW-29; Amdt. 39-2609]

**PART 39—AIRWORTHINESS DIRECTIVE**  
**Fairchild Model F-27 Aircraft**

A report has indicated the inadvertent opening of the large cargo door incorporated into Fairchild FH-227 type airplanes. This door installation is also incorporated into Fairchild F-27 type airplanes. Inasmuch as this deficiency can develop in airplanes of similar type designs, an airworthiness directive is being issued which will require a more positive means of lock engagement and retention. Because the deficiency is one which requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

FAIRCHILD. Applies to all F-27 airplanes incorporating the outward opening large cargo door installed in accordance with STC No. SA932SW.

Compliance required within the next 300 hours' or 30 days' time in service, whichever occurs first, after the effective date of this AD unless already accomplished.

To prevent inadvertent opening of the large cargo door in flight, accomplish the alteration in paragraph 2, Accomplishment Instructions, in Fairchild Service Bulletin F27-52-31 dated January 8, 1976, for F-27 airplanes or an equivalent alteration approved by the Chief, Engineering and Manufacturing Branch, Federal Aviation Administration, Southwest Region.

This amendment becomes effective June 14, 1976.

(Secs. 313(a), 601, and 603 Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) Sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Fort Worth, Texas, on May 7, 1976.

HENRY L. NEWMAN,  
*Director, Southwest Region.*  
 [FR Doc.76-14658 Filed 5-19-76;8:45 am]

[Airworthiness Docket No. 76-WE-6; Amdt. 39-2611]

**PART 39—AIRWORTHINESS DIRECTIVES**  
**Hughes 269 Series Helicopters**

There has been a bond failure in the Lateral Cyclic Trim Control Assembly, P/N 269A7316-9, on Hughes Model 269 Series helicopter that resulted in a restriction of the right lateral cyclic control. The bond failure between the 269A-

7142 tube and the 269A7318-1 housing of the trim control assembly will result in a restriction of the right lateral cyclic control with hazardous degradation of the primary right lateral control of the helicopter. Since this condition is likely to exist or develop in other lateral cyclic trim assemblies of the same design, an airworthiness directive is being issued to require a one-time inspection of the structural bond between the 269A7142 tube and the 269A7318-1 housing of the lateral cyclic trim control assemblies.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

HUGHES HELICOPTERS. Applies to Hughes Model 269 series helicopters equipped with P/N 269A7316-3, -5, -7, -9, or -11 cyclic trim control assembly, certificated in all categories, including military TH-55A.

Compliance required as indicated.

To prevent the restriction of right lateral cyclic control which will result in the loss of right lateral control of the helicopter, accomplish the following:

(a) Within the next 25 hours time in service after the effective date of this AD, unless already accomplished:

(1) Remove the lateral cyclic trim control assembly from the helicopter in accordance with Hughes 269 Helicopter Basic Handbook of Maintenance Instructions and inspect the structural bond for any slippage between the 269A7142 tube and the 269A7318-1 housing of the 269A7316-3, -5, -7, -9, or -11 Lateral Cyclic Trim Control Assembly. The inspection of the bond consist of applying a 75 to 80 pound load to the 269A7142 tube in accordance with Hughes Service Information Notice No. N-138, dated April 30, 1976 or later FAA-approved revision.

(2) Those assemblies with no slippage may be reinstalled per Hughes 269 Helicopter Basic Handbook of Maintenance Instructions.

(3) Those assemblies with slippage, repair per Hughes Service Information Notice No. N-138, dated April 30, 1976 or later FAA-approved revision or replace with a serviceable part prior to further flight.

(b) After the effective date of this AD, inspect and repair, if necessary, the lateral cyclic trim control assembly in spare inventory per Hughes Service Information Notice No. N-138, dated April 30, 1976 or later FAA-approved revision on or prior to installation on a helicopter.

(c) Equivalent inspections and repair may be approved by the Chief, Aircraft Engineering Division, Western Region.

NOTE.—For the requirements regarding the listing of compliance and method of compliance with this AD in the rotocraft maintenance record, see FAR 91.173.

(d) Rotorcraft may be flown to a base for accomplishment of the inspections required by this AD per FAR's 21.197 and 21.199.

This amendment becomes effective May 21, 1976.

(Secs. 313(a), 601 and 603 Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) Sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Los Angeles, California on May 7, 1976.

LYNN L. HINK,  
*Acting Director,*  
*FAA Western Region.*  
 [FR Doc.76-14657 Filed 5-19-76;8:45 am]

[Airworthiness Docket No. 76-SW-32; Amdt. 39-2607]

**PART 39—AIRWORTHINESS DIRECTIVES**  
**Mooney Models M20C, M20E, and M20F Airplanes**

There have been failures of the fuel pressure warning switch on Mooney Models M20C, M20E, and M20F airplanes that resulted in fuel leaking from the switch into the area behind the instrument panel. Since this condition is likely to exist or develop in other airplanes of the same type design, an airworthiness directive is being issued to require removal of the pressure switch. The fuel pressure warning switch is not a required item of equipment.

Since a situation exists which requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable, and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

MOONEY. Applies to Models M20C (Serial Numbers 20-0010, 20-1147 through 20-1172), M20E (Serial Numbers 21-0038, 21-1161 through 21-1181), and M20F (Serial Numbers 22-1179 through 22-1272) airplanes certificated in all categories.

Compliance required within the next ten hours' time in service after the effective date of this airworthiness directive unless already accomplished.

To prevent fuel from leaking in the cabin as a result of a cracked diaphragm in the low fuel pressure switch, accomplish the following:

(a) Remove the low fuel pressure warning system in accordance with Mooney Service Bulletin Number M20-193A dated April 1, 1976, or later FAA approved revision. A copy of this Service Bulletin can be obtained from Mooney Aircraft Corporation, Box 72, Kerrville, Texas 78028.

(b) Any alternative equivalent method of compliance with this airworthiness directive must be approved by the Chief, Engineering and Manufacturing Branch, Flight Standards Division, Southwest Region, Federal Aviation Administration.

This amendment becomes effective May 19, 1976.

(Secs. 313(a), 601, and 603 Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) Sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Fort Worth, Texas on May 4, 1976.

HENRY L. NEWMAN,  
*Director, Southwest Region.*  
 [FR Doc.76-14660 Filed 5-19-76;8:45 am]

[Docket No. 76-EA-30; Amdt. 39-2613]  
**PART 39—AIRWORTHINESS DIRECTIVE**  
**Piper Aircraft**

The Federal Aviation Administration is amending § 39.13 of Part 39 of the Federal Aviation Regulations so as to issue an airworthiness directive applicable to Piper PA-31 type airplane.

There have been reports of improper wing flap operation on the subject aircraft which has resulted in asymmetrical flap positioning. The deficiency has been determined to result from excessive wear in the wing flap transmission.

Since this deficiency can exist or develop in airplanes of similar type design, an airworthiness directive is being issued which will require repetitive inspections and repair where necessary.

In view of the foregoing and because the deficiency is one which affects air safety, notice and public procedure hereon are impractical and good cause exists for making the amendment effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 (31 FR 13697) § 39.13 of Part 39 of the Federal Aviation Regulations is amended by issuing a new Airworthiness Directive as follows:

PIPER AIRCRAFT CORP. Applies to all PA-31 Series airplanes, certificated in all categories.

Compliance with paragraph a. required within 100 hours in service after the effective date of this AD, unless already accomplished. Compliance with paragraph b. required within the next 25 hours in service after the effective date of this AD for airplanes having 500 or more hours in service, and within the next 100 hours in service for all other airplanes, unless already accomplished, and thereafter at intervals not to exceed 100 hours in service from the last inspection, for all airplanes.

a. To detect and correct improper flap flexible drive shaft connections, accomplish the "Instructions" of Section 1 of Piper Service Bulletin 494, dated April 21, 1976.

b. To detect excessive wear which could cause failure of the flaps to operate properly, accomplish the inspection, and rework or replacement where necessary, of the wing flap transmission assembly, P/N's 489380, 489381, 489418, or 489419, described in the "Instructions" of Section 2 of Piper Service Bulletin 494, dated April 21, 1976, or an equivalent procedure approved by the Chief, Engineering and Manufacturing Branch, FAA, Eastern Region.

This amendment is effective May 21, 1976.

(Secs. 313(a), 601 and 603 of the Federal Aviation Act of 1958 [49 U.S.C. 1354(a), 1421 and 1423], and section 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)].)

Issued in Jamaica, N.Y., on May 7, 1976.

L. J. CARDINALI,  
*Acting Director,*  
*Eastern Region.*  
 [FR Doc.76-14659 Filed 5-19-76;8:45 am]

[Airworthiness Docket No. 76-WE-1-AD; Amdt. 39-2600]  
**PART 39—AIRWORTHINESS DIRECTIVES**  
**McDonnell Douglas Model DC-8 Series Airplane**  
**Correction**

FR Doc. 76-13143 which appeared at page 18649 in the FEDERAL REGISTER of Thursday, May 6, 1976 was published in the wrong format. The document is republished as follows:

Amendment 39-2522 (41 F.R. 7937), AD 76-04-04, requires initial and repetitive inspections of the wing front spar lower cap on McDonnell Douglas DC-8 Series airplanes and replacement of a section of the spar cap if cracked. Since the issuance of Amendment 39-2522, the manufacturer has issued Service Bulletin 57-82 which provides instructions for preventative rework of those spar caps which do not have cracks. The preventative rework improves the fatigue life of the spar cap to such an extent that the repetitive inspection of AD 76-04-04 may be discontinued.

The manufacturer has also developed a repair for cracked spars if the cracks are within certain specified limits. For those airplanes with cracks within those limits, the spar cap may be repaired in accordance with Douglas Service Rework Drawing 5802723, in lieu of the replacement of a section of spar per the Service Rework Drawing 5802712 specified in AD 76-04-04.

Several airlines have requested an extension of the initial and repetitive inspection times specified in AD 76-04-04, because the specified times would require them to remove airplanes from service in order to meet the inspection requirements. They represent that the inspection of approximately 20% of the fleet, most aircraft having between 40,000 and 55,000 hours time in service, without finding any cracks is justification for allowing more time for the remainder of the fleet, consisting of generally lower time airplanes. The FAA agrees.

Therefore, AD 76-04-04 is being amended to provide for a reduction of inspection times and the rework and repair provisions of the above Service Bulletin and Service Rework Drawing.

Since this amendment provides alternative means of compliance and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 F.R. 13697), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39-2522 (41 F.R. 7937), AD 76-04-04, is amended as follows:

1. By amending paragraph (a) to read:

"(a) For those airplanes which have had the original 17 interference fit fasteners replaced that attach the #1 and #14 pylon cant bulkhead shear clips to the wing lower spar cap forward flange, comply with Paragraph (c) within the next 1600 hours time in service after the effective date of this AD or before the accumulation of 30,000

hours total time in service, whichever occurs later, unless accomplished within the last 2600 hours time in service, and thereafter at intervals not to exceed 4200 hours time in service."

2. By amending paragraph (b) to read:

"(b) For those airplanes which have not had the original 17 interference fit fasteners replaced that attach the #1 and #4 pylon cant bulkhead shear clips to the wing lower spar cap forward flange, comply with Paragraph (c) within the next 3200 hours time in service after the effective date of this AD or before the accumulation of 30,000 hours total time in service, whichever occurs later, unless accomplished within the last 1000 hours time in service, and thereafter at intervals not to exceed 4200 hours time in service."

3. By amending paragraph (d) to read:

"(d) If cracks are found which are limited to the lower forward horizontal tang and have not progressed aft into the lower aft tang or vertical leg of the cap, repair before further flight in accordance with DC-8 Service Bulletin 57-82 dated March 17, 1976, or later FAA-approved revisions, or DC-8 Service Rework Drawing 5802723, or an equivalent approved by the Chief, Aircraft Engineering Division, FAA Western Region. If cracks are found which exceed the above limits, repair before further flight in accordance with DC-8 Service Rework Drawing 5802712, Revision "B", or an equivalent approved by the Chief, Aircraft Engineering Division, FAA Western Region."

4. By adding a new paragraph (f) to read:

"(f) The repetitive inspections required by Paragraphs (a) or (b) may be discontinued for those airplanes which have incorporated the preventative rework, involving stress relieving of the fasteners holes and installation of interference fit fasteners in accordance with either Service Rework Drawing 5802712, Revision "B", or Service Rework Drawing 5802723, or McDonnell Douglas DC-8 Service Bulletin 57-82, dated March 17, 1976, or later FAA-approved revisions, or in accordance with an equivalent rework method approved by the Chief, Aircraft Engineering Division, FAA Western Region."

This amendment becomes effective May 13, 1976.

(Secs. 313(a), 601, and 803 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Los Angeles, California on April 27, 1976.

ROBERT H. STANTON,  
Director,  
FAA Western Region.

[Airspace Docket No. 76-OK-1]

#### PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

##### Designation of Transition Area

On page 4296 of the FEDERAL REGISTER

dated January 29, 1976, the Federal Aviation Administration published a Notice of Proposed Rule Making which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a transition area at Oconto, Wisconsin.

Interested persons were given 30 days to submit written comments, suggestions or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective 0901 GMT, July 15, 1976.

(Section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Des Plaines, Illinois on April 27, 1976.

JOHN M. CYROCKI,  
Director, Great Lakes Region.

In § 71.181 (41 FR 440), the following transition area is added:

##### OCONTO, WISCONSIN

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Oconto Municipal Airport (latitude 44°52'00" N., longitude 87°34'30" W.); and within 3 miles each side of the 280° bearing from the Oconto Airport, extending from the 5-mile radius area to 8 miles west of the airport.

[FR Doc. 76-14597 Filed 5-19-76; 8:45 am]

[Airspace Docket No. 76-GL-3]

#### PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

##### Designation of Transition Area

On page 9369 of the FEDERAL REGISTER dated March 4, 1976, the Federal Aviation Administration published a Notice of Proposed Rule Making which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a transition area at Waupaca, Wisconsin.

Interested persons were given 30 days to submit written comments, suggestions or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective 0901 Gmt, July 15, 1976.

(Section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Des Plaines, Illinois on April 27, 1976.

JOHN M. CYROCKI,  
Director, Great Lakes Region.

In § 71.181 (41 FR 440), the following transition area is added:

##### WAUPACA, WISCONSIN

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Waupaca Municipal Airport (latitude 44°20'02" N., longitude 89°00'51" W.); and within 3 miles each side of the 118° bearing from the airport, extending from the 5-mile radius area to 8 miles southeast of the airport.

[FR Doc. 76-14598 Filed 5-19-76; 8:45 am]

[Airspace Docket No. 76-GL-6]

#### PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

##### Alteration of Transition Area

On page 11323 of the FEDERAL REGISTER dated March 18, 1976, the Federal Aviation Administration published a Notice of Proposed Rule Making which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the transition area at Fergus Falls, Minnesota.

Interested persons were given thirty days to submit written comments, suggestions, or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective 0901 GMT, July 15, 1976.

(Section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Des Plaines, Illinois on April 27, 1976.

JOHN M. CYROCKI,  
Director, Great Lakes Region.

In § 71.181 (41 FR 440), the following transition area is amended to read:

##### FERGUS FALLS, MINNESOTA

That airspace extending upward from 700' above the surface within a 6½-mile radius of Fergus Falls Municipal Airport (latitude 46°17'15" N., longitude 96°09'45" W.); within 3 miles each side of the 187° bearing from the airport, extending from the 6½-mile radius area to 8 miles south of the airport; and within 3 miles each side of the 343° (bearing from the airport), extending from the 6½-mile radius area to 8 miles northwest of the airport.

[FR Doc. 76-14599 Filed 5-19-76; 8:45 am]

[Airspace Docket No. 76-EA-17]

#### PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

##### Alteration of Control Zone and Transition Area

On page 12902 of the FEDERAL REGISTER for March 29, 1976, the Federal Aviation Administration published a proposed

rule which would alter the Allentown, Pa., Control Zone (41 FR 357) and Transition Area (41 FR 443).

Interested parties were given 30 days after publication in which to submit written data or views. No objections to the proposed regulations have been received.

In view of the foregoing, the proposed regulation is hereby adopted, effective 0901 GMT July 15, 1976.

(Section 307(a) of the Federal Aviation Act of 1958 (73 Stat. 749; 49 U.S.C. 1348), and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Jamaica, N.Y., on May 4, 1976.

LOUIS J. CARDINALL,  
Acting Director,  
Eastern Region.

1. Amend Section 71.171 of Part 71 of the Federal Aviation Regulations by adding the following to the description of the Allentown, Pa. control zone: "within 3 miles each side of the Allentown-Bethlehem-Easton Airport localizer northwest course, extending from the localizer to 8.5 miles northwest of the OM."

2. Amend Section 71.181 of Part 71 of the Federal Aviation Regulations by adding the following to the description of the Allentown, Pa. transition area: "within 4.5 miles northeast and 6.5 miles southwest of the Allentown-Bethlehem-Easton Airport localizer northwest course, extending from the OM to 11.5 miles northwest of the OM."

[FR Doc. 76-14600 Filed 5-19-76; 8:45 am]

[Airspace Docket No. 76-GL-4]

#### PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

##### Designation of Federal Airways

On March 11, 1976, a Notice of Proposed Rule Making (NPRM) was published in the FEDERAL REGISTER (41 FR 10447) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would designate a VOR Federal Airway from Fort Dodge, Iowa, to Mankato, Minn.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 GMT, July 15, 1976, as hereinafter set forth.

Section 71.123 (41 FR 307) is amended to add the following:

V-456 From Fort Dodge, Iowa, to Mankato, Minn.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Washington, D.C., on May 11, 1976.

EDWARD J. MALO,  
Acting Chief, Airspace and  
Air Traffic Rules Division.

[FR Doc. 76-14459 Filed 5-19-76; 8:45 am]

[Airspace Docket No. 76-CE-1]

#### PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

##### Alteration of Federal Airways

On March 4, 1976, a Notice of Proposed Rule Making (NPRM) was published in the FEDERAL REGISTER (41 FR 9371) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would limit several airways to the airspace below 8,000 feet MSL in the vicinity of Farmington, Mo. during certain times.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. The only comment received expressed no objection.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 GMT, July 15, 1976, as hereinafter set forth.

Section 71.123 (41 FR 307) is amended as follows:

(a) In V-72 "The airspace at and above 8,000 feet MSL between Maples and Farmington is excluded during the time that the Meramec Military Operations Area is activated by NOTAM." is added.

(b) In V-88 "The airspace at and above 8,000 feet MSL between Vichy and the INT Vichy 091° and St. Louis, Mo., 171° radials is excluded during the time that the Meramec Military Operations Area is activated by NOTAM." is added.

(c) In V-175 "The airspace at and above 8,000 feet MSL from 43 miles northwest of Malden to Vichy is excluded during the time that the Meramec Military Operations Area is activated by NOTAM." is added.

(d) In V-178 "The airspace at and above 8,000 feet MSL between Vichy and Farmington is excluded during the time that the Meramec Military Operations Area is activated by NOTAM." is added.

(e) In V-190 "The airspace at and above 8,000 feet MSL between Maples and Farmington is excluded during the time that the Meramec Military Operations Area is activated by NOTAM." is added.

(f) In V-234 "The airspace at and above 8,000 feet MSL between Vichy and the INT of Vichy 091° and St. Louis, Mo., 171° radials is excluded during the time that the Meramec Military Operations Area is activated by NOTAM." is added.

(g) In V-238 "The airspace at and above 8,000 feet MSL between Maples and the INT of Maples 052° and Farmington, Mo., 327° radials is excluded during the time that the Meramec Military Operations Area is activated by NOTAM." is added.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Washington, D.C., on May 12, 1976.

EDWARD J. MALO,  
Chief, Airspace and  
Air Traffic Rules Division.

[FR Doc. 76-14463 Filed 5-19-76; 8:45 am]

[Airspace Docket No. 76-RM-3]

#### PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

##### Extension of Federal Airway; Correction

On March 4, 1976, a Notice of Proposed Rule Making (NPRM) was published in the FEDERAL REGISTER (41 FR 9370) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would extend V-113 from Butte, Mont., to Lewistown, Mont., via Helena, Mont. On April 26, 1976, Federal Register Document 76-11923 concerning this NPRM was published in the FEDERAL REGISTER (41 FR 17372) as a rule. This rule, however, inadvertently omitted the amendatory language required to change Part 71. The purpose of this correction to FR Document 76-11923 is to include the correct language that will assure the action necessary to amend Part 71 as proposed.

In consideration of the foregoing, Federal Register Document 76-11923 is amended by deleting all after the first paragraph and substituting the following therefor:

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. Both comments received expressed no objection.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 GMT, July 15, 1976, as hereinafter set forth.

Section 71.123 (41 FR 307) is amended as follows:

In V-113 "to Butte, Mont." is deleted and "Butte, Mont.; Helena, Mont.; to Lewistown, Mont." is substituted therefor.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Washington, D.C., on May 11, 1976.

EDWARD J. MALO,  
Acting Chief, Airspace and  
Air Traffic Rules Division.

[FR Doc. 76-14464 Filed 5-19-76; 8:45 am]

[Airspace Docket No. 75-GL-68]

**PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS****Alteration of Federal Airways**

On March 4, 1976, a Notice of Proposed Rule Making (NPRM) was published in the *FEDERAL REGISTER* (41 FR 9371) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would cap small segments of airways in the vicinity of Alpena, Mich.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. The only comment received expressed no objection.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 GMT, July 15, 1976, as hereinafter set forth.

Section 71.123 (41 FR 307) is amended as follows:

1. In V-45 "The airspace from Alpena to 30 miles north of Alpena at and above 10,000 feet MSL is excluded during the time that the Collins Military Operations Area is activated by NOTAM." is added.

2. In V-78 "The airspace northeast of the Alpena 316° radial from Alpena to 25 miles north of Alpena at and above 10,000 feet MSL is excluded during the time that the Collins Military Operations Area is activated by NOTAM." is added.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Washington, D.C., on May 11, 1976.

EDWARD J. MALO,  
Acting Chief, Airspace and  
Air Traffic Rules Division.

[FR Doc. 76-14662 Filed 5-19-76; 8:45 am]

[Airspace Docket No. 75-EA-82]

**PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS****Alteration of VOR Federal Airways**

On March 4, 1976, a Notice of Proposed Rule Making (NPRM) was published in the *FEDERAL REGISTER* (41 FR 9369) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would exclude the airspace from 10,000 feet to 15,000 feet MSL within 15 NM of Tidoute, Pa., VORTAC from several airways during the times that the Youngstown Military Operations Area (MOA) is in use.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. The only comment received expressed no objection.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., July 15, 1976, as hereinafter set forth.

§ 71.123 [Amended]

Section 71.123 (41 FR 307, 10418) is amended as follows:

In V-72, V-115, V-116, V-126, V-170, V-184 and V-188, "The airspace within a 15 NM radius of Tidoute, Pa., at and above 10,000 feet MSL to and including 15,000 feet MSL is excluded during the times that the Youngstown Military Area (MOA) is activated by NOTAM." is added.

(Sec. 307(a) Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and Sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Washington, D.C., on May 13, 1976.

EDWARD J. MALO,  
Acting Chief, Airspace and  
Air Traffic Rules Division.

[FR Doc. 76-14663 Filed 5-19-76; 8:45 am]

[Airspace Docket No. 75-EA-53]

**PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS****Alteration of VOR Federal Airways; Correction**

In FR Doc. 76-12030 appearing on page 17878 in the *FEDERAL REGISTER* of April 29, 1976, paragraph (1.) is corrected in the seventh line by deleting the figure "185°" and substituting "186°" therefor. Also, paragraph (4.) is corrected in the third line by deleting the figure "005°" and substituting "006°" therefor. Also, paragraph (6.) is corrected in the second line by deleting "Norfolk, Va." and substituting "Norfolk, Va." therefor.

Issued in Washington, D.C., on May 13, 1976.

EDWARD J. MALO,  
Acting Chief, Airspace and  
Air Traffic Rules Division.

[FR Doc. 76-14666 Filed 5-19-76; 8:45 am]

[Airspace Docket No. 76-SO-41]

**PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS****Redesignation of Federal Airways**

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to renumber the airway from Myrtle Beach, S.C., to Raleigh-Durham, N.C., and to reduce the ceiling restriction between Myrtle Beach and Fayetteville, N.C., from a 71-mile segment to a 21-mile segment. Because this action merely renumbers present airway segments and reduces an altitude restriction it is a minor matter on which the public would have no particular desire to comment. Therefore, notice and public procedure thereon are unnecessary. In order to provide sufficient time for changes to be depicted on appropriate charts, this amendment will be made effective July 15, 1976.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is

amended, effective 0901 G.m.t., July 15, 1976, as hereinafter set forth.

§ 71.123 [Amended]

Section 71.123 (41 FR 307) is amended as follows:

In V-39 all before "From Pinehurst, N.C." is deleted.

In V-136 "Raleigh-Durham, N.C." is deleted and "Raleigh-Durham, N.C.; Fayetteville, N.C.; to Myrtle Beach, S.C." The airspace at and above 7,000 feet MSL from 17-miles south to 38-miles south of Fayetteville is excluded during the time that the Gamecock A Military Operations Area is activated by NOTAM." is substituted therefor.

(Sec. 307(a) Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) Sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Washington, D.C., on May 13, 1976.

EDWARD J. MALO,  
Acting Chief, Airspace and  
Air Traffic Rules Division.

[FR Doc. 76-14662 Filed 5-19-76; 8:45 am]

[Airspace Docket No. 76-SO-47]

**PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS****VOR Federal Airways (NAVAID Name) Change**

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to change the name of the Anderson, S.C., VORTAC to Electric City, S.C., VORTAC wherever it appears in V-20, V-35 and V-311.

On March 8, 1976, a nonrulemaking circular was issued proposing to change the name of the Anderson, S.C., VORTAC. The reason for this amendment is the fact that several incidents have been recorded where pilots have mistaken a clearance via Athens, Ga., to be via Anderson and vice versa. Careful consideration and local coordination preceded the selection of the name Electric City. This name was requested by Mr. T. Ree McCoy who is Chairman of the Anderson County Airport Commission.

Because this action merely changes the name of an air navigation aid, it is a minor matter on which the public would have no particular desire to comment further. Therefore, notice and public procedure thereon are unnecessary. In order to provide sufficient time for changes to be depicted on appropriate charts, this amendment will be made effective on July 15, 1976.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., July 15, 1976, as hereinafter set forth.

§ 71.123 [Amended]

Section 71.123 (41 FR 307) is amended as follows:

a. In V-20 "Anderson, S.C." is deleted and "Electric City, S.C." is substituted therefor.

b. In V-35 "Anderson, S.C." is deleted and "Electric City, S.C." is substituted therefor.

c. In V-311 "Anderson, S.C. 274° radials; Anderson;" is deleted and "Electric City, S.C., 274° radials; Electric City;" is substituted therefor.

(Sec. 307(a) Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) Sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Washington, D.C., on May 13, 1976.

EDWARD J. MALO,  
Chief, Airspace and  
Air Traffic Rules Division.

[FR Doc. 76-14667 Filed 5-19-76; 8:45 am]

[Airspace Docket No. 76-SO-36]

**PART 73—SPECIAL USE AIRSPACE**  
**Designation of Restricted Areas**

On April 22, 1976, a Notice of Proposed Rule Making (NPRM) was published in the *FEDERAL REGISTER* (41 FR 16830) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 73 of the Federal Aviation Regulations that would designate two restricted areas near Tyndall Air Force Base, Fla. The restricted areas would be used to contain BQM-34 drone aircraft during launch and recovery operations. The Department of the Air Force Air Defense Weapons Center (ADWC) has a requirement to conduct these operations at any time. Under adverse weather conditions, when visual monitoring of the drone flight is limited, the operations would constitute a hazard to other flight activities.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. No comments were received.

In consideration of the foregoing, Part 73 of the Federal Aviation Regulations is amended, effective 0901 GMT, July 15, 1976, as hereinafter set forth.

In § 73.29 (41 FR 664) the following restricted areas are added:

R-2905A TYNDALL AFB, FLA.

Boundaries. Beginning at Lat. 30°01'30" N., Long. 85°32'30" W., to Lat. 30°01'15" N., Long. 85°30'00" W., to Lat. 29°56'00" N., Long. 85°33'00" W., thence 3 nautical miles from and parallel to the shoreline to Lat. 29°59'00" N., Long. 85°36'30" W. to point of beginning.

Designated altitudes. Surface to 10,000 feet MSL.

Time of designation. Intermittent, as announced by NOTAM, for periods of approximately 10 minutes during launch or recovery.

Controlling agency. Federal Aviation Administration, Jacksonville ARTC Center.

Using agency. Air Defense Weapons Center, Tyndall AFB, Fla.

R-2905B TYNDALL AFB, FLA.

Boundaries. Beginning at Lat. 30°01'15" N., Long. 85°30'00" W., to Lat. 30°01'00" N., Long. 85°27'00" W., to Lat. 29°54'00" N., Long. 85°27'00" W., thence 3 nautical miles from and parallel to the shoreline to Lat. 29°56'00" N., Long. 85°33'00" W., to point of beginning.

Designated altitudes. Surface to 10,000 feet MSL.

Time of designation. Intermittent, as announced by NOTAM, for periods of approxi-

[Airspace Docket No. 76-WE-1]

**PART 75—ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES****Alteration of Jet Routes**

On March 4, 1976, a Notice of Proposed Rule Making (NPRM) was published in the *FEDERAL REGISTER* (41 FR 9372) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 75 of the Federal Aviation Regulations that would realign three jet routes over the western shores of the United States.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. We received one response to the NPRM in which the commentator posed no objection to the proposal.

In consideration of the foregoing, Part 75 of the Federal Aviation Regulations is amended, effective 0901 GMT, July 15, 1976, as hereinafter set forth.

Section 75.100 (41 FR 704) is amended as follows:

In J-88 "INT of the Salinas 310° and the Oakland, Calif., 170° radials; to Oakland." is deleted and "to Point Reyes, Calif." is substituted therefor.

In J-110 "INT of the Oakland 170° and the Salinas, Calif., 310° radials; Salinas;" is deleted and "Salinas, Calif.;" is substituted therefor.

In J-501 "Oakland, Calif., via INT Oakland 305° and Ukiah, Calif., 172° radials; Ukiah;" is deleted and "Point Reyes, Calif., via" is substituted therefor.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Washington, D.C., on May 11, 1976.

EDWARD J. MALO,  
Chief, Airspace and  
Air Traffic Rules Division.

[Airspace Docket No. 76-SO-20]

**PART 75—ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES****Designation and Redesignation of Jet Routes**

On April 5, 1976, a Notice of Proposed Rule Making (NPRM) was published in the *FEDERAL REGISTER* (41 FR 14395) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 75 of the Federal Aviation Regulations that would designate J-99 from Augusta, Ga., to Louisville, Ky., and realign a segment of J-73 to extend from Tallahassee, Fla., to Nashville, Tenn.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. No comments were received.

In consideration of the foregoing, Part 75 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., July 15, 1976, as hereinafter set forth.

## § 75.100 [Amended]

Section 75.100 (41 FR 704) is amended as follows:

J-73 title and text are deleted and "From Tallahassee, Fla., via LaGrange, Ga.; Nashville, Tenn.; Lewis, Ind.; to Northbrook, Ill." is substituted therefor. J-99 is added to read as follows:

"From Augusta, Ga., via Knoxville, Tenn.; to Louisville, Ky."

(Sec. 307(a) Federal Aviation Act 1958 (49 U.S.C. 1348(a)) Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Washington, D.C., on May 13, 1976.

EDWARD J. MALO,  
Chief, Airspace and  
Air Traffic Rules Division

[FR Doc. 76-14864 Filed 5-19-76; 8:45 am]

[Docket No. 15711, Amdt. No. 1021]

## PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

## Recent Changes and Additions

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAPs) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAPs for the changes and additions covered by this amendment are described in FAA Forms 8260-3, 8260-4, or 8260-5 and made a part of the public rule making dockets of the FAA in accordance with the procedures set forth in Amendment No. 97-696 (35 FR 5609).

SIAPs are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue, S.W., Washington, D.C. 20591. Copies of SIAPs adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAPs may be purchased from the FAA Public Information Center, AIS-230, 800 Independence Avenue, S.W., Washington, D.C. 20591 or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft, or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of \$150.00 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for \$30.00 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

## § 97.23 [Amended].

1. Section 97.23 is amended by originating, amending, or canceling the following VOR-VOR/DME SIAPs, effective July 15, 1976.

Poteau, OK—Robert S. Kerr Arpt., VOR/DME Rwy 36, Original

Bend, OR—Bend Muni. Arpt., VOR/DME Rwy 16, Amdt. 4

## CHAPTER II—CIVIL AERONAUTICS BOARD

## SUBCHAPTER E—ORGANIZATION REGULATIONS

[Reg. OR-102, Amdt. 8]

## PART 384—STATEMENT OF ORGANIZATION, DELEGATION OF AUTHORITY, AND AVAILABILITY OF RECORDS AND INFORMATION

## Proxy Voting for Board Members

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. May 17, 1976.

For many years various Members of the Board have made limited use of a proxy<sup>1</sup> to vote for them in matters coming before the Board for resolution. The proxy has exercised no discretion in voting for the Member but has simply carried out the instructions given to him which embody an exercise of the Member's own discretion.

Board decisions are made in two ways. The first is by personal vote cast at a meeting of the Board Members assembled together and subsequently recorded in the Board's minutes. The other is by the so-called notation procedure. Under the notation procedure, which has received judicial sanction,<sup>2</sup> a copy of the proposed action is circulated to each member under cover of a "tally sheet" on which each member indicates his vote—approving, disapproving, not voting, not participating, or requesting that the matter be calendared. Once the votes of all members have been conveyed to the Board's Minutes Section and a majority of a voting quorum<sup>3</sup> has approved, the proposal is treated as adopted and is appropriately recorded.<sup>4</sup> Actions taken by notation are subsequently formally ratified by the Board at a meeting of the Board Members assembled together.<sup>5</sup>

The Board's practice with respect to proxy voting varies with its two methods of decisionmaking. When action is taken by the Board assembled, a Board Member (but only a Board Member)<sup>6</sup> may state that his absent colleague concurs in (or disapproves) the proposed action. In the case of action taken by notation an absent Board Member's assistant may indicate that Member's vote by initialing the tally sheet in the appropriate place or signing the signature sheet.<sup>7</sup>

In recent months we have received inquiries from Congress concerning our practices with respect to proxy voting. For this reason, and because the public

should know our practices in this area, the Board is amending its Organization Regulations to set forth this information. Further, we shall provide certain new internal recordkeeping requirements which will enable us to document our complete record on proxy voting more easily in the future.

Since this amendment relates solely to matters of agency procedure, notice and public procedures hereon are not required, and it may become effective immediately.

Accordingly the Board hereby amends Part 384 of its Organization Regulations (14 CFR Part 384) effective May 17, 1976, as follows:

1. The table of contents of Part 384 is amended by adding a new § 384.3a as follows:

§ 384.3a Proxy voting for Board Members.

2. A new § 384.3a is added to Part 384 as follows:

§ 384.3a Proxy voting for Board Members.

(a) Use of proxies. In all cases, even though a proxy may be used, the Board Member shall exercise his own discretion and determine how a vote shall be cast. However, unless otherwise prohibited by law, his assistant or other members of his personal staff or another Board Member may actually cast the vote in the manner determined by and pursuant to the instructions of the Board Member, as set forth below.

(b) Board Meetings. A proxy may only be exercised at a Board meeting by another Board Member. The recorder shall enter in the minutes of the Board meeting every exercise of a proxy by one Board Member for another and a description of the matter which was the subject of the proxy vote. The recorder shall also maintain a proxy journal, entering therein the information recorded in the minutes with respect to proxy voting, including the date of the minute involved.

(c) Notation Items. A proxy may be exercised by a Member's assistant or other member of his personal staff. The proxy shall be exercised by placing the Member's initials on the tally sheet accompanying the notation followed by the signature of the person exercising the proxy, or by placing the Board Member's name on the signature sheet followed by the initials of the person signing. Each Board Member's office shall keep a notation proxy journal showing with respect to each notation item the date when the proxy was exercised, the name of the person who exercised the proxy and the number or other description of the action. Each Board Member is expected to be aware of all proxy votes on his behalf on all notation items when such matters are before the Board for ratification in accordance with normal ratification procedures.

<sup>1</sup> A "proxy" is "[a] person who is substituted or deputed by another to represent him and act for him, particularly in some meeting or public body." Black's Law Dictionary (Rev. Fourth Ed.), 1968.

<sup>2</sup> *Brantiff Airways v. C.A.B.*, 379 F.2d (D.C. Cir. 1967); *T.S.C. Motor Freight Lines v. United States*, 186 F. Supp. 777 (S.D. Tex. 1960), affirmed sub. nom. *Herrin Transportation Co. v. United States*, 366 U.S. 419 (1961).

<sup>3</sup> A quorum is three, 49 U.S.C. 1321(c).  
<sup>4</sup> This was termed "adoption and entry" in the *Brantiff* case, supra, note 1, at 459, and characterized as "official action" in *Saturn Airways v. C.A.B.*, 478 F.2d 907, 909 (D.C. Cir. 1973).

<sup>5</sup> Ratification, once thought to be a legal safeguard for the notation procedure, continued even though the legality of the notation procedure has received judicial sanction.  
<sup>6</sup> At an earlier time Member's assistants were permitted to cast votes for absent Members. The practice was sustained in *Eastern Air Lines, Inc. v. C.A.B.*, 271 F. 2d 752, 758 (2nd Cir. 1959), cert. denied 362 U.S. 970 (1960).

<sup>7</sup> The courts have held that a signature by an assistant for a Board Member is valid. *Brantiff Airways v. C.A.B.*, supra, note 1.

(Secs. 204 and 1001, 72 Stat. 743 and 788, 49 U.S.C. 1324 and 1481; 81 Stat. 54, 5 U.S.C. 552.)

Effective: May 17, 1976.

Adopted: May 17, 1976.

By the Civil Aeronautics Board.

[SEAL] PHYLLIS T. KAYLOR,  
Acting Secretary.

## Title 16—Commercial Practices

## CHAPTER I—FEDERAL TRADE COMMISSION

[Docket 8996-o]

## PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

## Chrysler Corp.

Subpart—Advertising falsely or misleadingly; § 13.10 Advertising falsely or misleadingly; § 13.20 Comparative data or merits; § 13.20-20 Competitors' products; § 13.170 Qualities or properties of product or service; § 13.170-34 Economizing or saving; § 13.175 Quality of product or service; § 13.190 Results; § 13.205 Scientific or other relevant facts; § 13.210 Scientific tests. Subpart—Disparaging competitors and their products—Competitors' products; § 13.1000 Performance; § 13.1010 Qualities or properties; § 13.1020 Results; § 13.1035 Tests. Subpart—Misrepresenting oneself and goods—Goods; § 13.1575 Comparative data or merits; § 13.1710 Qualities or properties; § 13.1730 Results; § 13.1740 Scientific or other relevant facts. Subpart—Using deceptive techniques in advertising; § 13.2275 Using deceptive techniques in advertising. Subpart—Using misleading name—Goods; § 13.2325 Qualities or properties.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45)

In the Matter of Chrysler Corporation, a corporation.

Order requiring a Detroit, Mich., automobile manufacturer, among other things to cease misrepresenting the superiority of their products over those of their competitors with regard to quality or properties, characteristics, performance and/or fuel economy.

The final order, including further order requiring report of compliance therewith, is as follows:

## FINAL ORDER

This matter having been heard by the Commission upon respondent's appeal from the Initial Decision; and

The Commission having considered the oral arguments of counsel, their briefs, and the whole record; and

<sup>1</sup> Copies of the Complaint, Initial Decision, Opinion and Final Order, filed with the original document.

The Commission, for reasons stated in the accompanying Opinion, having denied the appeal; accordingly.

It is ordered, That, except to the extent that it is inconsistent with the Commission's Opinion, the Initial Decision of the Administrative Law Judge be, and it hereby is, adopted together with the Opinion accompanying this Order as the Commission's final findings of fact and conclusions of law in this matter;

It is further ordered, That the following order be, and it hereby is, entered:

## ORDER

It is ordered, That respondent Chrysler Corporation and its officers, representatives, and agents and employees, directly or through any corporate or other device, in connection with the advertising, offering for sale, sale or distribution of products sold by the respondent in or affecting commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or by implication, by reference to a test or tests, that any of respondent's automobiles are superior with regard to fuel economy to any other automobiles whether manufactured by respondent or others unless:

a. such superiority has been demonstrated as to the model(s) for which it is claimed by such test or tests with respect to each sample, or the valid average of all identical samples, of each model represented to have been tested; or

b. the valid test results for each sample, or the valid average of all identical samples, of each model so compared, including the advertised model as well as such makes and models to which the advertised model is compared, are clearly and conspicuously disclosed.

For the purpose of this Order, "sample" shall mean an actual automobile tested.

2. Representing, directly or by implication, that any performance or other characteristic of any automobile or automotive product has been tested, either alone or in comparison with other products, unless such representation(s) fully and accurately reflect the test results and unless the tests themselves are so devised and conducted as to completely substantiate each representation concerning any characteristic tested in the featured test.

3. Misrepresenting in any manner, directly or by implication, the purpose, content, or conclusion of any test, report, study, research, demonstration, or analysis.

4. Misrepresenting in any manner the fuel economy of any automobile or the superiority of any automobile over competing products in terms of fuel economy.

It is further ordered, That the respondent corporation shall forthwith distribute a copy of this Order to each of its operating divisions.

It is further ordered, That respondent notify the Commission at least 30 days prior to any proposed change in the corporate respondent such as dissolution, assignment, or sale resulting in the

emergence of a successor corporation, the creation or dissolution of subsidiaries, or any other change in the corporation which may affect compliance obligations arising out of the Order.

It is further ordered, That respondent shall, within sixty (60) days after this Order becomes "final," file with the Commission a report, in writing, setting forth in detail the manner and form of its compliance with this Order.

Opinion of the Commission by Commissioner Dole.

Not having participated in the oral argument in this matter, Chairman Collier did not participate in the resolution of it.

The Final Order was issued by the Commission Apr. 13, 1976.

CHARLES A. TOBIN,  
Secretary.

[FR Doc.76-14689 Filed 5-19-76;8:45 am]

**Title 26—Internal Revenue**  
**CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY**  
**SUBCHAPTER A—INCOME TAX**  
**[T.D. 7420]**

**PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953**  
**Requirements of a Domestic International Sales Corporation (DISC)**

On June 30, 1975, two notices of proposed rulemaking were published in the *FEDERAL REGISTER* with respect to the amendments of the Income Tax Regulations (26 CFR Part 1) under sections 992 and 995 of the Internal Revenue Code of 1954 in order to amend the rules relating to a domestic international sales corporation (DISC). The first notice was published as three paragraphs: paragraph (1) relating to the separate bank account requirement under § 1.992-1(a); paragraph (2) relating to manner of election under § 1.992-2(a)(1)(i); and paragraph (3) relating to the computation under § 1.995-5(b)(5) of earnings and profits offset (40 FR 27483, as amended by a correction published on July 11, 1975, 40 FR 29296). The second notice was published as one paragraph relating to deficiency distributions to meet qualification requirements under § 1.992-3(a)(4) (40 FR 27484) and now becomes paragraph (4) of this Treasury decision. The amendments are effective generally for taxable years ending after December 31, 1971, except that the amendment of § 1.992-2(a)(1)(i) was effective on June 30, 1975 (the date the proposed amendment was published in the *FEDERAL REGISTER* as a notice of proposed rule making).

The Treasury decision under § 1.992-1 adds a new paragraph (i) which would generally lengthen the grace period allowed for satisfying the separate bank account requirement as presently set forth in the first two sentences of the flush material following paragraph (a)(8) of § 1.992-1. As amended, § 1.992-2(a)(1)(i) no longer requires that a copy of the completed Form 4876 be filed with the Commissioner of Internal Revenue in

Washington, D.C. Section 1.995-5(b)(5) (i) (relating to foreign investment attributable to producer's loans), as amended, makes clear that the offset allowed by § 1.995-5(b)(5) would be reduced by a distribution from earnings and profits by a foreign corporation to another foreign corporation.

Section 1.992-3(a)(4) was reserved in a Treasury decision published in the *FEDERAL REGISTER* for September 25, 1974, as T.D. 7323 (39 FR 34400). The Treasury decision under § 1.992-3(a)(4) requires that in order for a DISC to make a deficiency distribution, it must meet the qualification requirements after the close of the taxable year with respect to which the distribution is made. A transitional rule is included which allows corporations to make a distribution made on or before September 29, 1975 (90 days after the date on which this proposed amendment was published) at any time during or after the taxable year with respect to which it is made.

**ADOPTION OF AMENDMENTS TO THE REGULATIONS**

After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the amendments of the regulations as proposed in the two notices of proposed rule making are hereby adopted without change, except that the notice amending § 1.992-3(a)(4) is adopted as paragraph (4) of this Treasury decision.

(This Treasury decision is issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).)

DONALD C. ALEXANDER,  
Commissioner of Internal Revenue.

Approved: May 12, 1976.

CHARLES M. WALKER,  
Assistant Secretary of the Treasury.

1. Section 1.992-1 is amended by revising paragraph (a)(8), deleting the first two sentences of the flush material following paragraph (a)(8), and adding paragraph (i). These revised and added provisions read as follows:

**§ 1.992-1 Requirements of a DISC.**

(a) . . . . .  
(6) Has its bank account on each day of the taxable year, except as provided in paragraph (a)(8)(i) of this section.

(i) *Time for satisfying the separate bank account requirement.* The separate bank account requirement referred to in paragraph (a)(8) of this section shall be satisfied for a taxable year by a corporation if—

(1) In the case of a corporation which elects to be treated as a DISC for its first taxable year, such corporation has a separate bank account either—

(i) Within 90 days after the beginning of such taxable year and on each succeeding day of such taxable year or

(ii) Within the period prescribed in subparagraph (2) of this paragraph, if applicable.

(2) For any taxable year which—  
(i) Ends before October 31, 1974, such corporation has a separate bank account at any time during that taxable year or  
(ii) Ends with or includes October 31, 1974, such corporation has a separate bank account on October 31, 1974, and on each succeeding day of that taxable year.

2. Section 1.992-2 is amended by deleting the phrase "and a copy of the completed Form 4876 with the Commissioner of Internal Revenue (Attention: ACTS:A:AO), Washington, D.C. 20224" from the second sentence of paragraph (a)(1)(i). As amended, such second sentence reads as follows:

§ 1.992-2 Election to be treated as a DISC.

(a) *Manner and time of election.*—(1) *Manner.*—(i) *In general.* . . . Except as provided in paragraph (a)(1)(ii) of this section, the election is made by the corporation filing Form 4876 with the service center with which it would file its income tax return if it were subject for such taxable year to all the taxes imposed by subtitle A of the Internal Revenue Code of 1954. . . .

3. Section 1.995-5 is amended by revising the first sentence of paragraph (b)(5)(i) to read as follows:

§ 1.995-5 Foreign investment attributable to producer's loans.

(b) . . . . .  
(5) *Earnings and profits.* (i) An offset allowed by this subparagraph is one-half the aggregate of the earnings and profits accumulated for all taxable years beginning after December 31, 1971, computed (without regard to any distributions from earnings and profits by a foreign corporation to a domestic corporation) in accordance with § 1.964-1 (relating to a controlled foreign corporation's earnings and profits), of each foreign member of the group which is controlled directly or indirectly (as determined under the principles of section 958 and the regulations thereunder) by a domestic member of the group and each foreign branch of a domestic member of the group (computed as if the branch were a foreign corporation). . . .

4. Section 1.992-3(a)(4) is revised to read as follows:

§ 1.992-3 Deficiency distributions to meet qualification requirements.

(a) . . . . .  
(4) The corporation designates the distribution, at the time of the distribution, as a deficiency distribution, pursuant to section 992(c), to meet the qualification requirements to be a DISC. Such designation shall be in the form of a communication sent at the time of such distribution.

bution to each shareholder and to the service center with which the corporation has filed or will file its return for the taxable year to which the distribution relates. A corporation may not retroactively designate a prior distribution as a deficiency distribution to meet qualification requirements. Subject to the limitation described in paragraph (c)(3) of this section, a corporation may make a deficiency distribution with respect to a taxable year at any time after the close of such taxable year or, in the case of a deficiency distribution made on or before September 29, 1975, at any time during or after such taxable year.

[FR Doc.76-14844 Filed 5-19-76;8:45 am]

**Title 40—Protection of Environment**  
**CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY**  
**[FRL 543-7]**

**GENERAL AND GRANT REGULATIONS**  
**Guidance for Cooperation**

Pursuant to the authorities cited in 40 CFR 30.101, Sections 102, 103 of 83 Stat. 854 (42 U.S.C. 4321 et seq.), and Section 602 of the Civil Rights Act of 1964, 42 U.S.C. 2000d-1, Parts 6, 7, 12, 30, 35, and 40 are hereby amended.

Section 30.305 of Part 30 is deleted and new §§ 30.305 through 30.305-8 are added. This amendment implements the requirements of Office of Management and Budget Circular A-95 published in the *FEDERAL REGISTER* on January 13, 1976. (41 FR 2052) The Circular furnished guidance to Federal agencies for cooperation with State and local governments in the evaluation, review and coordination of Federal and Federally assisted programs and projects.

In addition, this promulgation includes several technical amendments to Parts 6, 7, 12, 30, 35, and 40.

Comments, suggestions, or objections may be submitted in writing to Director, Grants Administration Division (PM-216), U.S. Environmental Protection Agency, 401 M Street, S.W., Room 435 WSMW, Washington, D.C. 20460. Consideration will be given to all comments, suggestions, or objections received on or before June 15, 1976 for possible revision of these regulations.

Effective date: These regulations shall become effective May 20, 1976.

Date: May 14, 1976.

RUSSELL E. TRAIN,  
Administrator.

**PART 6—PREPARATION OF ENVIRONMENTAL IMPACT STATEMENTS**  
**§ 6.106 Applicability.**

1. Add the following paragraph (e) at the end of § 6.106:

(e) *Applicability to the A-95 Review Process.* Applicants applying for grants covered by these regulations must assure compliance with all applicable requirements of Office of Management and Budget (OMB) Circular A-95, pursuant to § 30.305 of this Chapter.

**PART 7—NONDISCRIMINATION IN PROGRAMS RECEIVING FEDERAL ASSISTANCE FROM THE ENVIRONMENTAL PROTECTION AGENCY—EFFECTUATION OF TITLE VI OF THE CIVIL RIGHTS ACT OF 1964**

2. Delete the first two (2) sentences from § 7.3(a) and substitute the following:

§ 7.3 Applicability.

(a) This part applies to any program for which Federal financial assistance is authorized under a statute administered by the Agency, including all EPA grant programs and activities and assistance under the Uniform Relocation Assistance and Land Acquisition Policies Act of 1970, 42 U.S.C. 4621 et seq. and the Disaster Relief Act of 1970, 42 U.S.C. 4401 et seq. It applies to any such program or activity to which money was paid, property transferred, or other Federal financial assistance extended after the effective date of this part including assistance extended pursuant to an application approved prior to the effective date. . . .

§ 7.4 [Amended]

3. In § 7.4(c)(1), second sentence, insert a "comma" between the words "advertising, employment".

4. In § 7.4(e) insert a "comma" and the word "to" between the words "of any".

§ 7.8 [Amended]

5. In § 7.8(e) in the first sentence insert the words "or she" between the words "he has".

§ 7.10 [Amended]

6. In § 7.10(a) in the last sentence correct the word "th" to read "the"; in § 7.10(b) in the second sentence change the words "a hearing examiner" to read "an administrative law judge".

§ 7.11 [Amended]

7. In § 7.11(a) in the title change the words "hearing examiner" to read "an administrative law judge"; and in the first sentence change the words "hearing examiner" to read "an administrative law judge". In § 7.11(b) in the first sentence change the words "a hearing examiner" to read "an administrative law judge". In § 7.11(d) in the first sentence change the words "a hearing examiner" to read "an administrative law judge".

§ 7.13 [Amended]

8. In § 7.13(c) delete the last sentence.

**PART 12—NONDISCRIMINATION IN PROGRAMS RECEIVING ASSISTANCE FROM THE ENVIRONMENTAL PROTECTION AGENCY—EFFECTUATION OF SECTION 13 OF THE FEDERAL WATER POLLUTION CONTROL ACT AMENDMENTS OF 1972**

9. Section 12.11(f) is revised to read as follows:

**§ 12.11 Decisions and notices.**

(f) Content of orders. The final decision may provide for termination of, or refusal to grant or continue, Federal financial assistance, in whole or in part, to the program involved and may contain such terms, conditions, and other provisions as are consistent with and will effectuate the purpose of the act and this part, including provisions designed to assure that no Federal financial assistance will thereafter be extended under such program to the applicant or recipient determined by such decision to have failed to comply with requirements imposed by or under this part unless and until it corrects its noncompliance and satisfies the Administrator that it will fully comply with this part.

**§ 12.12 [Amended]**

10. Delete the last sentence from § 12.12(c).

**PART 30—GENERAL GRANT REGULATIONS AND PROCEDURES**

11. In the Table of Contents under Subpart B—Application and Award, add the following under § 30.305 entitled A-95 Procedures:

- 30.305-1 Specific areas of clearinghouse evaluation.
- 30.305-2 Notification of intent (A-95, Part I).
- 30.305-3 Time limitations.
- 30.305-4 EPA processing.
- 30.305-5 Programs requiring state plans and jointly funded projects (A-95, Part III).
- 30.305-6 Coordination of planning in multi-jurisdictional areas (A-95, Part IV).
- 30.305-7 Confidential information.
- 30.305-8 Specific requirements for the construction grant program.

12. Section 30.135-3 is revised to read as follows:

**§ 30.135-3 Allowable costs.**

Those eligible, reasonable, necessary, and allocable costs which are permitted under the appropriate Federal cost principles, in accordance with EPA policy, within the scope of the project and authorized for EPA participation.

13. Section 30.135-8 is revised to read as follows:

**§ 30.135-8 Eligible costs.**

Those costs in which Federal participation is authorized pursuant to applicable statute.

14. Section 30.135-22 is revised to read as follows:

**§ 30.135-22 Subagreement.**

A written agreement between an EPA grantee and another party (other than another public agency) and any tier of

agreement thereunder for the furnishing of services, supplies, or equipment necessary to complete the project for which a grant was awarded, including contracts and subcontracts for personal and professional services and purchase orders.

**§ 30.225-3 [Amended]**

15. Delete § 30.225-3(c).

16. Section 30.305 is revised and 30.305-1 through 30.305-8 are added to read as follows:

**§ 30.305 A-95 procedures.**

(a) Office of Management and Budget Circular A-95 (revised) (41 FR 2052, January 13, 1976) provides for State and areawide clearinghouse evaluation, review, and coordination of Federally-assisted programs and projects. Therefore, applicants applying for a planning, program, survey, demonstration, or construction grant must comply with appropriate coordination procedures outlined in the A-95 Circular. Generally, coordination is required prior to submitting an application. However, in certain cases clearinghouses will be afforded the opportunity to comment during the initial phases of project work in conjunction with the development of plans and application materials.

(b) A-95 procedures include but are not limited to the provisions set forth below in § 30.305-1 through § 30.305-8.

**§ 30.305-1 Specific areas of clearinghouse evaluation.**

The following specific areas are normally considered during clearinghouse evaluation. It should be recognized, however, that clearinghouses are responsible for the comprehensive planning needs of their jurisdictional area and may, therefore, consider areas other than those listed.

(a) The extent to which the project is consistent with or contributes to the fulfillment of the State, areawide, and local comprehensive plans.

(b) The extent to which the proposed project:

- (1) Duplicates, runs counter to, or needs to be coordinated with other projects or activities being carried out in or affecting the area; or
- (2) Might be revised to increase its effectiveness or efficiency.

(c) The extent to which the project contributes to the achievement of State, areawide, and local objectives and priorities relating to natural and human resources and economic and community development as specified in Section 401 of the Intergovernmental Cooperation Act of 1968, including:

(1) Appropriate land uses for housing, commercial, industrial, government, institutional, and other purposes;

(2) Wise development and consideration of natural resources, including land, water, mineral, wildlife, and others;

(3) Balanced transportation systems, including highway, air, water, pedestrian, mass transit, and other modes for the movement of people and goods;

(4) Adequate outdoor recreation and open space;

(5) Protection of areas of unique natural beauty, historical, archeological, architectural, and scientific interest;

(6) Properly planned community facilities, including utilities for the supply of power, water, and communications, for the safe disposal of wastes, and for other purposes; and

(7) Concern for high standards of design.

(d) The extent to which the project significantly affects the environment including:

(1) The environmental impact of the proposed project;

(2) Any adverse environmental effects which cannot be avoided should the proposed project be implemented;

(3) Alternatives to the proposed project;

(4) The relationship between local short term uses of man's environment and the maintenance and enhancement of long term productivity; and

(5) Any irreversible or irretrievable commitments of resources which would be involved in the proposed project or action, should it be implemented.

(e) The extent to which the project contributes to more balanced patterns of settlement and delivery of services to all sectors of the area population, including minority groups.

(f) In the case of a project for which assistance is being sought by a special purpose unit of government, whether the unit of general local government having jurisdiction over the area in which the project is to be located has applied for or plans to apply for assistance for the same or a similar type project.

**§ 30.305-2 Notification of intent (A-95, Part I).**

(a) General (for specific requirements for the construction grants program see § 30.305-8). Applicants or potential applicants for assistance under an EPA grant are required to notify both State and areawide planning and development clearinghouses, in the jurisdiction in which the project is to be located, of their intent to apply for EPA assistance. In the case of an application in any State for an activity that is Statewide or broader in nature (such as for various types of research) and does not affect nor have specific applicability to areawide or local planning and programs, the notification need be sent only to the State clearinghouse. Involvement of areawide clearinghouses in the review in such cases will be at the initiative of the State clearinghouse. If notification of intent to apply for EPA assistance was not furnished the clearinghouse(s), the completed application must be submitted to the clearinghouse(s) prior to submission to EPA. However, prior notification of intent to apply is preferable to submitting the final completed application. In addition, grantees must notify State and areawide clearinghouse(s) of any major modifications in a project. The current list of EPA grant programs which must comply with the A-95 procedures are listed below. Any additions to this listing will be indicated in the Catalog of Federal Domestic Assistance (see § 30.305-2.c.(5)).

(b) Submission of comments. (1) Identity of the applicant agency organization, or individual.

(2) The geographic location of the project to be assisted. A map should be provided, if appropriate.

(3) A brief description of the proposed project by type, purpose, general size or scale, estimated cost, beneficiaries, or other characteristics which will enable the clearinghouses to identify agencies of State or local government having plans, programs, or projects that might be affected by the proposed projects.

(4) A statement as to whether or not the applicant has been advised by EPA that he will be required to submit environmental impact information in connection with the proposed project.

(5) The EPA program title and number under which assistance will be sought as indicated in the latest Catalog of Fed-

eral Domestic Assistance (The Catalog is issued annually in the spring and is updated during the year). In the case of programs not listed therein, programs will be identified by Public Law number or U.S. Code citation. Applicants uncertain as to appropriate program identification should contact the EPA program or grants administration office.

(6) The estimated date the applicant expects to formally file an application.

(7) When available any more detailed documentation describing the proposed project (e.g., plans and preapplication material).

§ 30.305-3 Time limitations.

(a) Time limitations. (1) State and areawide clearinghouse(s) may have a period of 30 calendar days after receipt of a project notification of intent to apply for assistance in which to inform State and multistate agencies and local or regional governments or agencies that may be affected by the project, to arrange, as may be necessary, to consult with the applicant thereon and to complete review and submit comments to the applicant. If the review cannot be completed during this period, however, the clearinghouse(s) may work with the applicant in the resolution of any problems raised by the proposed project during the period in which the application is being completed. Clearinghouses are strongly urged to notify applicants if they cannot complete their review within the 30 day comment period.

(2) When no notification of intent to apply for assistance has been submitted and the clearinghouse has received instead a completed application, it may have 60 calendar days from date of receipt to review the completed application. However, if clearinghouses cannot complete their reviews within a 30 calendar day period they are strongly urged to give the applicant formal notice to that effect at the beginning of the comment period. Where reviews have been completed prior to completion of an application, a copy of the completed application will be supplied to the clearinghouse, upon request, when the application is submitted to EPA.

(b) Submission of Comments. (1) Areawide clearinghouses will include, as attachments to their comments: (i) all written comments submitted to the areawide clearinghouse by other jurisdictions, agencies, or parties, when they are at variance with the clearinghouse comments; and (ii) a list of parties from whom comments were solicited.

(2) Applicants will include with the completed application all comments and recommendations made by or through clearinghouse(s), with a statement that such comments have been considered prior to submission of the application. Where no comments have been received from a clearinghouse(s) a statement must be included with the application that the procedures outlined in this section have been followed and that no comments or recommendations have been received.

(3) Jointly Funded Projects. A jointly funded project is a project for which assistance is sought, on a combined or

(1) 66.001—Air Pollution Control Program Grants;

(2) 66.005—Air Pollution Control Survey and Demonstration Grants;

(3) 66.027—Solid Waste Disposal Planning Grants;

(4) 66.028—Solid Waste Disposal Demonstration Grants;

(5) 66.418—Construction Grants for Wastewater Treatment Works;

(6) 66.419—Water Pollution Control-State and Interstate Program Grants;

(7) 66.420—Water Pollution Control-State and Local Manpower Program Development;

(8) 66.426—Water Pollution Control State and Areawide Waste Treatment Management Planning Grants;

(9) 66.432—State Public Water System Supervision Program Grants;

(10) 66.433—State Underground Water Source Protection Program Grants;

(11) 66.505—Water Pollution Control-Research, Developmental, and Demonstration Grants (Demonstration only);

(12) 66.506—Safe Drinking Water Research and Demonstration Grants (Demonstration only);

(13) 66.600—Environmental Protection Consolidated Grants-Program Support;

(14) 66.602—Environmental Protection Consolidated Grants-Special Purpose.

Applications from Federally recognized Indian Tribes are excluded from this requirement. However, they may voluntarily participate in the procedures of this section and are encouraged to do so. EPA will notify the appropriate State and areawide clearinghouse(s) of any applications from Federally recognized Indian tribes upon their receipt.

(b) Notification will normally precede the preparation of the application. It will be mailed to the clearinghouse at the earliest feasible time to assure maximum time for effective coordination and to avoid delay in the timely submission of the completed application to EPA. Earliest feasible time means at such time as the applicant determines it will develop an application.

(c) The notification to each clearinghouse will be accompanied by a summary description which should include the following:

(1) Identity of the applicant agency organization, or individual.

(2) The geographic location of the project to be assisted. A map should be provided, if appropriate.

(3) A brief description of the proposed project by type, purpose, general size or scale, estimated cost, beneficiaries, or other characteristics which will enable the clearinghouses to identify agencies of State or local government having plans, programs, or projects that might be affected by the proposed projects.

(4) A statement as to whether or not the applicant has been advised by EPA that he will be required to submit environmental impact information in connection with the proposed project.

(5) The EPA program title and number under which assistance will be sought as indicated in the latest Catalog of Fed-

eral Domestic Assistance (The Catalog is issued annually in the spring and is updated during the year). In the case of programs not listed therein, programs will be identified by Public Law number or U.S. Code citation. Applicants uncertain as to appropriate program identification should contact the EPA program or grants administration office.

(6) The estimated date the applicant expects to formally file an application.

(7) When available any more detailed documentation describing the proposed project (e.g., plans and preapplication material).

§ 30.305-3 Time limitations.

(a) Time limitations. (1) State and areawide clearinghouse(s) may have a period of 30 calendar days after receipt of a project notification of intent to apply for assistance in which to inform State and multistate agencies and local or regional governments or agencies that may be affected by the project, to arrange, as may be necessary, to consult with the applicant thereon and to complete review and submit comments to the applicant. If the review cannot be completed during this period, however, the clearinghouse(s) may work with the applicant in the resolution of any problems raised by the proposed project during the period in which the application is being completed. Clearinghouses are strongly urged to notify applicants if they cannot complete their review within the 30 day comment period.

(2) When no notification of intent to apply for assistance has been submitted and the clearinghouse has received instead a completed application, it may have 60 calendar days from date of receipt to review the completed application. However, if clearinghouses cannot complete their reviews within a 30 calendar day period they are strongly urged to give the applicant formal notice to that effect at the beginning of the comment period. Where reviews have been completed prior to completion of an application, a copy of the completed application will be supplied to the clearinghouse, upon request, when the application is submitted to EPA.

(b) Submission of Comments. (1) Areawide clearinghouses will include, as attachments to their comments: (i) all written comments submitted to the areawide clearinghouse by other jurisdictions, agencies, or parties, when they are at variance with the clearinghouse comments; and (ii) a list of parties from whom comments were solicited.

(2) Applicants will include with the completed application all comments and recommendations made by or through clearinghouse(s), with a statement that such comments have been considered prior to submission of the application. Where no comments have been received from a clearinghouse(s) a statement must be included with the application that the procedures outlined in this section have been followed and that no comments or recommendations have been received.

(3) Jointly Funded Projects. A jointly funded project is a project for which assistance is sought, on a combined or

that both areawide and State clearinghouses have been given an opportunity to review the application will be returned to the applicant with instruction to fulfill the requirements of Part I of OMB Circular A-95.

(b) Any comments accompanying applications must be utilized in evaluating the applications.

(c) EPA will notify clearinghouse(s) within seven (7) working days of any major action taken on applications reviewed by the clearinghouse(s). Major actions will include awards (including subsequent Step 2 and Step 3 awards for wastewater treatment projects), rejections, returns for amendments, deferrals, or withdrawals. The standard multipurpose form, Standard Form 424, as prescribed by Federal Management Circular 74-7, will be used for this purpose.

(d) Where a clearinghouse has recommended against approval of an application or approval only with specific and major substantive changes, and EPA approves the project without incorporating the recommendations of the clearinghouse, EPA will provide the clearinghouse, in writing, with an explanation therefor along with the notice of action under subsection 30.305-4c.

(e) Where a clearinghouse has recommended against approval of a project because it conflicts with or duplicates another Federal or Federally-assisted project, the EPA program office reviewing the application will consult with the agency or agencies assisting the referenced projects prior to approving the application.

(f) If comments accompanying an application from a special purpose unit of government indicate that a similar application is forthcoming from the general purpose unit of government in the areas in which the applicant and/or the proposed project is located, preference will be given to the general purpose unit as specified in Section 402 of the Intergovernmental Cooperation Act of 1968. Where such preference cannot be so accorded, EPA will notify in writing, the unit of general local government and the Office of Management and Budget of the reasons therefor.

§ 30.305-5 Programs requiring state plans and jointly funded projects (A-95 Part III).

(a) Applicability. This section applies only to Air Pollution Control Program Grants and Water Pollution Control State and Interstate Program Grants to the extent that they involve State plans.

(b) Definitions. (1) State Plan. A State plan is a plan prepared by a State agency that includes any required supporting planning reports or documentation that indicates the programs, projects, and activities for which EPA funds will be used.

(2) Jointly Funded Projects. A jointly funded project is a project for which assistance is sought, on a combined or

eral Domestic Assistance (The Catalog is issued annually in the spring and is updated during the year). In the case of programs not listed therein, programs will be identified by Public Law number or U.S. Code citation. Applicants uncertain as to appropriate program identification should contact the EPA program or grants administration office.

(6) The estimated date the applicant expects to formally file an application.

(7) When available any more detailed documentation describing the proposed project (e.g., plans and preapplication material).

§ 30.305-3 Time limitations.

(a) Time limitations. (1) State and areawide clearinghouse(s) may have a period of 30 calendar days after receipt of a project notification of intent to apply for assistance in which to inform State and multistate agencies and local or regional governments or agencies that may be affected by the project, to arrange, as may be necessary, to consult with the applicant thereon and to complete review and submit comments to the applicant. If the review cannot be completed during this period, however, the clearinghouse(s) may work with the applicant in the resolution of any problems raised by the proposed project during the period in which the application is being completed. Clearinghouses are strongly urged to notify applicants if they cannot complete their review within the 30 day comment period.

(2) When no notification of intent to apply for assistance has been submitted and the clearinghouse has received instead a completed application, it may have 60 calendar days from date of receipt to review the completed application. However, if clearinghouses cannot complete their reviews within a 30 calendar day period they are strongly urged to give the applicant formal notice to that effect at the beginning of the comment period. Where reviews have been completed prior to completion of an application, a copy of the completed application will be supplied to the clearinghouse, upon request, when the application is submitted to EPA.

(b) Submission of Comments. (1) Areawide clearinghouses will include, as attachments to their comments: (i) all written comments submitted to the areawide clearinghouse by other jurisdictions, agencies, or parties, when they are at variance with the clearinghouse comments; and (ii) a list of parties from whom comments were solicited.

(2) Applicants will include with the completed application all comments and recommendations made by or through clearinghouse(s), with a statement that such comments have been considered prior to submission of the application. Where no comments have been received from a clearinghouse(s) a statement must be included with the application that the procedures outlined in this section have been followed and that no comments or recommendations have been received.

(3) Jointly Funded Projects. A jointly funded project is a project for which assistance is sought, on a combined or

that both areawide and State clearinghouses have been given an opportunity to review the application will be returned to the applicant with instruction to fulfill the requirements of Part I of OMB Circular A-95.

(b) Any comments accompanying applications must be utilized in evaluating the applications.

(c) EPA will notify clearinghouse(s) within seven (7) working days of any major action taken on applications reviewed by the clearinghouse(s). Major actions will include awards (including subsequent Step 2 and Step 3 awards for wastewater treatment projects), rejections, returns for amendments, deferrals, or withdrawals. The standard multipurpose form, Standard Form 424, as prescribed by Federal Management Circular 74-7, will be used for this purpose.

(d) Where a clearinghouse has recommended against approval of an application or approval only with specific and major substantive changes, and EPA approves the project without incorporating the recommendations of the clearinghouse, EPA will provide the clearinghouse, in writing, with an explanation therefor along with the notice of action under subsection 30.305-4c.

(e) Where a clearinghouse has recommended against approval of a project because it conflicts with or duplicates another Federal or Federally-assisted project, the EPA program office reviewing the application will consult with the agency or agencies assisting the referenced projects prior to approving the application.

(f) If comments accompanying an application from a special purpose unit of government indicate that a similar application is forthcoming from the general purpose unit of government in the areas in which the applicant and/or the proposed project is located, preference will be given to the general purpose unit as specified in Section 402 of the Intergovernmental Cooperation Act of 1968. Where such preference cannot be so accorded, EPA will notify in writing, the unit of general local government and the Office of Management and Budget of the reasons therefor.

§ 30.305-5 Programs requiring state plans and jointly funded projects (A-95 Part III).

(a) Applicability. This section applies only to Air Pollution Control Program Grants and Water Pollution Control State and Interstate Program Grants to the extent that they involve State plans.

(b) Definitions. (1) State Plan. A State plan is a plan prepared by a State agency that includes any required supporting planning reports or documentation that indicates the programs, projects, and activities for which EPA funds will be used.

(2) Jointly Funded Projects. A jointly funded project is a project for which assistance is sought, on a combined or

that both areawide and State clearinghouses have been given an opportunity to review the application will be returned to the applicant with instruction to fulfill the requirements of Part I of OMB Circular A-95.

(b) Any comments accompanying applications must be utilized in evaluating the applications.

(c) EPA will notify clearinghouse(s) within seven (7) working days of any major action taken on applications reviewed by the clearinghouse(s). Major actions will include awards (including subsequent Step 2 and Step 3 awards for wastewater treatment projects), rejections, returns for amendments, deferrals, or withdrawals. The standard multipurpose form, Standard Form 424, as prescribed by Federal Management Circular 74-7, will be used for this purpose.

(d) Where a clearinghouse has recommended against approval of an application or approval only with specific and major substantive changes, and EPA approves the project without incorporating the recommendations of the clearinghouse, EPA will provide the clearinghouse, in writing, with an explanation therefor along with the notice of action under subsection 30.305-4c.

(e) Where a clearinghouse has recommended against approval of a project because it conflicts with or duplicates another Federal or Federally-assisted project, the EPA program office reviewing the application will consult with the agency or agencies assisting the referenced projects prior to approving the application.

(f) If comments accompanying an application from a special purpose unit of government indicate that a similar application is forthcoming from the general purpose unit of government in the areas in which the applicant and/or the proposed project is located, preference will be given to the general purpose unit as specified in Section 402 of the Intergovernmental Cooperation Act of 1968. Where such preference cannot be so accorded, EPA will notify in writing, the unit of general local government and the Office of Management and Budget of the reasons therefor.

§ 30.305-5 Programs requiring state plans and jointly funded projects (A-95 Part III).

(a) Applicability. This section applies only to Air Pollution Control Program Grants and Water Pollution Control State and Interstate Program Grants to the extent that they involve State plans.

(b) Definitions. (1) State Plan. A State plan is a plan prepared by a State agency that includes any required supporting planning reports or documentation that indicates the programs, projects, and activities for which EPA funds will be used.

(2) Jointly Funded Projects. A jointly funded project is a project for which assistance is sought, on a combined or

that both areawide and State clearinghouses have been given an opportunity to review the application will be returned to the applicant with instruction to fulfill the requirements of Part I of OMB Circular A-95.

(b) Any comments accompanying applications must be utilized in evaluating the applications.

(c) EPA will notify clearinghouse(s) within seven (7) working days of any major action taken on applications reviewed by the clearinghouse(s). Major actions will include awards (including subsequent Step 2 and Step 3 awards for wastewater treatment projects), rejections, returns for amendments, deferrals, or withdrawals. The standard multipurpose form, Standard Form 424, as prescribed by Federal Management Circular 74-7, will be used for this purpose.

(d) Where a clearinghouse has recommended against approval of an application or approval only with specific and major substantive changes, and EPA approves the project without incorporating the recommendations of the clearinghouse, EPA will provide the clearinghouse, in writing, with an explanation therefor along with the notice of action under subsection 30.305-4c.

(e) Where a clearinghouse has recommended against approval of a project because it conflicts with or duplicates another Federal or Federally-assisted project, the EPA program office reviewing the application will consult with the agency or agencies assisting the referenced projects prior to approving the application.

(f) If comments accompanying an application from a special purpose unit of government indicate that a similar application is forthcoming from the general purpose unit of government in the areas in which the applicant and/or the proposed project is located, preference will be given to the general purpose unit as specified in Section 402 of the Intergovernmental Cooperation Act of 1968. Where such preference cannot be so accorded, EPA will notify in writing, the unit of general local government and the Office of Management and Budget of the reasons therefor.

§ 30.305-5 Programs requiring state plans and jointly funded projects (A-95 Part III).

(a) Applicability. This section applies only to Air Pollution Control Program Grants and Water Pollution Control State and Interstate Program Grants to the extent that they involve State plans.

(b) Definitions. (1) State Plan. A State plan is a plan prepared by a State agency that includes any required supporting planning reports or documentation that indicates the programs, projects, and activities for which EPA funds will be used.

(2) Jointly Funded Projects. A jointly funded project is a project for which assistance is sought, on a combined or

that both areawide and State clearinghouses have been given an opportunity to review the application will be returned to the applicant with instruction to fulfill the requirements of Part I of OMB Circular A-95.

(b) Any comments accompanying applications must be utilized in evaluating the applications.

(c) EPA will notify clearinghouse(s) within seven (7) working days of any major action taken on applications reviewed by the clearinghouse(s). Major actions will include awards (including subsequent Step 2 and Step 3 awards for wastewater treatment projects), rejections, returns for amendments, deferrals, or withdrawals. The standard multipurpose form, Standard Form 424, as prescribed by Federal Management Circular 74-7, will be used for this purpose.

(d) Where a clearinghouse has recommended against approval of an application or approval only with specific and major substantive changes, and EPA approves the project without incorporating the recommendations of the clearinghouse, EPA will provide the clearinghouse, in writing, with an explanation therefor along with the notice of action under subsection 30.305-4c.

(e) Where a clearinghouse has recommended against approval of a project because it conflicts with or duplicates another Federal or Federally-assisted project, the EPA program office reviewing the application will consult with the agency or agencies assisting the referenced projects prior to approving the application.

(f) If comments accompanying an application from a special purpose unit of government indicate that a similar application is forthcoming from the general purpose unit of government in the areas in which the applicant and/or the proposed project is located, preference will be given to the general purpose unit as specified in Section 402 of the Intergovernmental Cooperation Act of 1968. Where such preference cannot be so accorded, EPA will notify in writing, the unit of general local government and the Office of Management and Budget of the reasons therefor.

§ 30.305-5 Programs requiring state plans and jointly funded projects (A-95 Part III).

(a) Applicability. This section applies only to Air Pollution Control Program Grants and Water Pollution Control State and Interstate Program Grants to the extent that they involve State plans.

(b) Definitions. (1) State Plan. A State plan is a plan prepared

coordinated basis, involving two or more Federal programs or funding authorities.

(c) *Review.* (1) Prior to funding any grant requiring, by statute or EPA administrative regulations, a State plan as a condition of assistance, the EPA program office must insure that the Governor, or his designated agency, has been given the opportunity to comment on the relationship of the program to be funded to the State plan. EPA encourages the Governor to include the appropriate areawide clearinghouse in State plan review.

(2) Prior to funding a jointly funded project, the EPA program office must insure that the State and areawide clearinghouse(s) have been given the opportunity to comment on the relationship of the proposed jointly funded project to State or areawide comprehensive plans and programs.

(d) *Time Limitations and Submission of Comments.* (1) The Governor or his designated agency may have a period of 45 calendar days for review and comment.

(2) Applicants must secure and submit with the application comments received pursuant to § 30.305-5c. If the applicant fails to receive comments within the prescribed 45 calendar day period, a statement must be included with the application that the procedures outlined in this section have been followed and no comments or recommendations have been received.

§ 30.305-6 Coordination of planning in multijurisdictional areas (A-95, Part IV).

(a) *Applicability.* This section applies only to Water Pollution Control State and Areawide Waste Treatment Management Planning Grants.

(b) *Requirements of Applicants.* (1) Applicants for State and Areawide Waste Treatment Management Planning grants must demonstrate in the application that the proposed activity is consistent and takes into account the relationship with affected State, local and Federal programs, and with other applicable resource and developmental planning programs in the multijurisdictional areas.

(c) For areawide designated planning agencies, the application must adequately:

(A) Certify that affected general purpose units of local governments within the boundaries of the designated planning area have submitted or intend to submit resolutions of intent to have in operation a coordinated waste treatment management system and that such affected units of local government have the legal authority to enter into agreements for coordinated wastewater management.

(B) Provide a certification document submitted by the State designated planning agency which states that the State has reviewed the application pursuant to 40 CFR 35.408-2(b).

(i) For State designated planning agencies, the application must show evidence that adequate communication was

made with chief elected officials of local units of governments in the designation of local multijurisdictional areas.

(iii) For intrastate and interstate areawide planning agencies, the application must provide a certification document submitted by the State planning agency in the State which includes the largest portion of the area's population pursuant to 40 CFR 35.210-1(d).

(2) The completed application will be submitted to the Office of the Governor(s) of the State(s) before it is submitted to EPA. The Governor(s) shall have 45 calendar days in which to certify that the proposed work complies or does not comply with all State requirements; that the proposed planning work program is or is not adequate and necessary to accomplish the development of a plan; that the planning will or will not duplicate any work which has been done or is being done to meet the facilities planning requirements of 40 CFR 35.917 through 35.917-9; and that the State(s) either recommends or does not recommend that the grant application should be approved by EPA.

§ 30.305-7 Confidential information.

Under some programs, applicants are required to submit confidential information to EPA. Such information may relate to the applicant's financial status or structure, personnel, or may involve proprietary information and need not be included with applications submitted to clearinghouse(s) for review. EPA's policy concerning disclosure of information under the Freedom of Information Act, 5 U.S.C. 552, is stated in 40 CFR Chapter 1, Part 2.

§ 30.305-8 Specific requirements for the Construction Grant Program.

(a) *General.* Applicants for grants for the planning or construction of a wastewater treatment facility (P.L. 92-500, 40 CFR Part 35) must comply with the following specific requirements. Where provisions of this section differ from the general A-95 procedures set forth in other sections of Part 30 the requirements of this section shall prevail.

(b) *Specific Procedures.* (1) *Plans of Study (POS) for facilities planning* and any related Step 1 application materials should be submitted to the appropriate A-95 clearinghouse prior to the time for formal submission to the State and EPA of application for Step 1 assistance. The submission of the POS and related materials shall constitute a notification of intent to apply for assistance as provided in § 30.305-2 and § 30.305-3 above. The clearinghouse shall have 30 calendar days to review the POS and related materials. The comments of the clearinghouse on the POS should then accompany the application through the review process. The POS should be sent to the clearinghouse sufficiently early to avoid delays in the later submission of the Step 1 application.

(2) Thirty (30) calendar or more days prior to the public hearing on the draft facility plan, or, if no public hearing is held, a reasonable time before submit-

tal of a facility plan to the State and EPA for approval, the draft facility plan, and any associated grant application materials, should be submitted to the A-95 clearinghouse for a second review. The submission of the draft facility plan and related materials shall constitute a notification of intent to apply for assistance as provided in § 30.305-2 and § 30.305-3 above. The clearinghouse shall have 30 calendar days to review the draft facility plan.

(3) Any prior clearinghouse comments on the facility plan will be considered as part of the application for any subsequent Step 2 or Step 3 grant. EPA will notify the clearinghouse of subsequent Step 2 or Step 3 awards within 7 work days after grant award. Where an application is approved over clearinghouse objections, an explanation must be furnished to the clearinghouse as to why any specific recommendation was not followed.

(4) Once A-95 review has been obtained on a POS and a Step 1 facility plan, no further A-95 review of the Step 2 and Step 3 applications, which implement the plan, will be required except (i) when there are significant departures from or additions to what was covered in the Step 1 facility, (ii) when the clearinghouse requests opportunity for additional review on a specific project, or (iii) when State policy requires additional A-95 review of Step 2 or 3 grant applications. The clearinghouse shall have 30 calendar days to make these additional reviews, when required."

17. Section 30.710(d) is revised to read as follows:

§ 30.710 Federal cost principles.

(d) *For all other grants and subagreements.* Federal Procurement Regulations (41 CFR Ch. I, Subpart 1-15.2 or 1-15.4, as appropriate) provide, to the greatest practical extent, comparable principles and procedures for use in cost-reimbursement for all other grants and subagreements.

18. Section 30.715-2 is revised to read as follows:

§ 30.715-2 Indirect costs.

Indirect costs are those incurred for a common or joint purpose but benefiting more than one cost objective, and not readily identifiable to the cost objectives specifically benefited. Federal Management Circulars 73-6 and 74-4 govern the methods that may be used in determining the amount of grantee departmental indirect cost allocable to a grant program. These directives provide for the assignment of cognizance to single Federal Departments and agencies for conducting indirect cost negotiations and audits at educational institutions and State and local governments. Procedures governing the application and disposition of indirect costs for subagreements with commercial organizations and architectural and engineering firms are covered by 41 CFR 1-15.2 and 1-15.4 respectively. The rate(s) negotiated by the cognizant Federal agency are normally

accepted by all Federal agencies. Organizations not covered by the above directives may have rates established by negotiation with EPA or another Federal agency. The following guidance is furnished:

(a) EPA uses the latest available negotiated rate as a basis for computing indirect costs for the applicant. In those cases where the grantee's approved indirect cost rate is a provisional rate, subject to later finalization after the actual costs for the applicable fiscal period are known, the amount budgeted for indirect costs shall not exceed the amount derived under the provisional rate contained in the grant agreement, for the current budget period.

(b) A special indirect cost rate may be applied to a project (or portion of a project) to be carried out at an off-campus or off-site location. A special indirect cost rate may be negotiated for a large nonrecurring project when such project costs would distort the normal direct cost base used in computing the overhead rate.

§ 30.720 Cost sharing.

19. Delete the first sentence in § 30.720 (a) and substitute the following:

(a) Except as may be otherwise provided by law or this Subchapter, EPA grantees must share project costs. . . .

#### PART 35—STATE AND LOCAL ASSISTANCE

20. Add paragraph (h) at the end of § 35.315-2:

§ 35.315-2 Application requirements.

(h) Assure compliance with all applicable requirements of Office of Management and Budget (OMB) Circular A-95, pursuant to § 30.305 of this subchapter. § 35.555 [Amended]

21. Section 35.555(b)(3) is revised to read as follows:

(b) . . . .

(b) Pursuant to § 30.305 of this subchapter, the final program shall reflect comments received through the State office with clearinghouse responsibilities. It shall also present evidence of participation by the agencies responsible for statewide land use planning, or general or comprehensive planning.

§ 35.562 [Amended]

22. Section 35.562(b) (Promulgated at 40 FR 17698 on April 27, 1976), is revised to read as follows:

(b) A final program (grant application) by September 1 for each fiscal year consisting of the initial program (not including the final State project priority list to be submitted pursuant to § 35.563(b)) described in § 35.562(a), modified as appropriate to reflect the results of public participation, and comments of the Regional Administrator. In addition, all agencies applying for grants under this section must comply with all applicable requirements of Office of Manage-

ment and Budget (OMB) Circular No. A-95, pursuant to § 30.305 of this subchapter.

23. Section 35.920-3(a)(3) and (b)(8) are revised to read as follows:

§ 35.920-3 Contents of application.

(a) . . . .

(3) Required comments or approvals of relevant State, local, and Federal agencies, including clearinghouse requirements of Office of Management and Budget Circular A-95, as revised (see § 30.305 of this subchapter).

(b) . . . .

(8) Required comments or approvals of relevant State, local, and Federal agencies, including clearinghouse requirements of Office of Management and Budget Circular A-95, as revised (see § 30.305 of this subchapter).

24. Section 35.935-15 is revised to read as follows:

§ 35.935-15 Utilization of small and minority businesses.

Positive efforts shall be made by grantees to utilize small business and minority-owned business sources of supplies and service. Such efforts should allow these sources the maximum feasible opportunity to complete for subagreements and contracts to be performed utilizing Federal grant funds.

In Appendices C-1 and C-2 to 40 CFR Part 35 Subpart E, appearing on pages 9340 through 9344 of the FEDERAL REGISTER of March 4, 1976, the following editorial corrections are made:

Appendix C-1 [Amended]

25. In Appendix C-1, clause 6, in paragraph (a), the word "owner" in the fifth line should read "Owner"; in paragraph (b), the word "Agreement" in the third line should read "agreement"; and in paragraph (c), the word "counter-claims" starting on the eleventh line should read "counter-claim".

26. In Appendix C-1, clause 10, in the parenthetical phrase following the heading, the figure "\$1,00,000.00" appearing in the third line should read "\$100,000"; in paragraph (a), insert a comma after the word "profit" in the second line; and in the parenthetical phrase following paragraph (b), the word "Architect-Engineer" appearing in the fifth and eighth lines should read "Engineer" in both places.

27. In Appendix C-1, clause 12, paragraph (d) should end with the semicolon in the fourth line and the remainder of the paragraph, beginning with the word "and" should start a new line at the margin.

28. In Appendix C-1, clause 12, delete the "\$" in the third line.

29. In Appendix C-1, clause 18, paragraph (b), insert the word "the" between the words "to" and "engineer" in the tenth line.

Appendix C-2 [Amended]

30. In Appendix C-2, clause 2, in paragraph (a), change the word "agreement"

in the fifth line to "contract"; in paragraph (b), the word "contractor" on the third line should read "Contractor"; and in paragraph (f), the word "contractor" in the twentieth line should read "Contractor".

31. In Appendix C-2, clause 4, the word "contractor" in the first line should read "Contractor"; paragraph (d) should end with the semicolon in the fourth line and the remainder of the paragraph, beginning with the word "and" should start a new line at the margin; and in paragraph (d) the word "Engineer" in the fourth line should be changed to read "Contractor".

32. In Appendix C-2, clause 6, the word "contractor" in the ninth line should read "Contractor".

33. In Appendix C-2, clause 10, in paragraph (b)(2), insert the word "the" between the words "means" and "Federal" in the first line; in paragraph (b)(3) the word "Clean" in the ninth line should be deleted; in paragraph (b)(3) the second closing parentheses should be deleted after the phrase "Section 111(d)" in the eleventh line; in paragraph (b)(4), the word "state" in the seventh line should read "State"; and in paragraph (b)(5), the word "requirement" in the eighth line should read "requirements".

#### PART 40—RESEARCH AND DEMONSTRATION GRANTS

34. Delete § 40.135-1(b)(1) and (2) and insert the following:

§ 40.135-1 Preapplication coordination.

(b) Demonstration grants. All applicants for demonstration grants must comply with all applicable requirements of Office of Management and Budget (OMB) Circular No. A-95 as revised, see § 30.305 of this subchapter.

[FRL 509-3]

#### PART 60—STANDARDS OF PERFORMANCE FOR NEW STATIONARY SOURCES

##### Ferroalloy Production Facilities

##### Correction

In FR Doc. 76-12814 appearing at page 18498 in the FEDERAL REGISTER of Tuesday, May 4, 1976 the following corrections should be made:

1. On page 18498, second column, last paragraph designated "(1)", second line, fourth word should read "representativeness".

2. On page 18501, first column, the subpart heading immediately preceding the text, should read "Subpart Z—Standards of Performance for Ferroalloy Production Facilities".

3. On page 18501, in § 60.260, second column, fourth line from the top, the third word should read "silicomanga-".

4. On page 18501, second column, in § 60.261 (i), second line, third word should read "evolution".

5. On page 18503, third column, in § 60.266(h) the equation should have appeared as follows:

V  
4  
1  
9  
9  
  
M  
A

[OPP-280019; FRL 545-8]

## SUBCHAPTER E—PESTICIDE PROGRAMS

## PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

## Oxamyl

The Environmental Protection Agency (EPA) promulgated regulations with respect to the establishment of tolerances for the pesticide oxamyl in Title 40 of the Code of Federal Regulations, Part 180, Subpart C, § 180.303. These regulations appeared in the FEDERAL REGISTER on October 14, 1975 (40 FR 48133).

This pesticide chemical is a member of the class of cholinesterase-inhibiting pesticides and was so identified at the time the tolerances were established. Pesticides which have been identified as cholinesterase-inhibitors are listed in 40 CFR 180.3(e)(5). This list is being amended at this time by alphabetically inserting the pesticide chemical oxamyl.

The Agency is amending 40 CFR 180.3 effective May 20, 1976 to read as follows. (Sec. 408(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a).)

Dated: May 13, 1976.

EDWIN L. JOHNSON,  
Deputy Assistant Administrator  
for Pesticide Programs.

Section 180.3 is amended by alphabetically inserting oxamyl (methyl N',N'-dimethyl-N-[methylcarbamoyl]oxy]-1-thioxoamimidate) into 40 CFR 180.3(e)(5) as follows:

§ 180.3 Tolerances for related pesticide chemicals.

(e) . . . . .  
(5) . . . . .  
Naled . . . . .  
Oxamyl (methyl N',N'-dimethyl-N-[methylcarbamoyl]oxy]-1-thioxoamimidate) . . . . .  
Parthion . . . . .

[FR Doc. 76-11446 Filed 5-19-76; 8:45 am]

(FRL 546-3)

## SUBCHAPTER N—EFFLUENT GUIDELINES AND STANDARDS

## PART 457—EXPLOSIVES MANUFACTURING POINT SOURCE CATEGORY

## Extension of Comment Period and Notice of Availability

On March 9, 1976 the Agency published a notice of interim final rulemaking (41 FR 10180) establishing effluent limitations and guidelines for the explosives manufacturing point source category, based upon use of best practicable

## RULES AND REGULATIONS

control technology currently available. The due date for comments provided in the notice was April 8, 1976.

The Agency anticipated that the document entitled "Development Document for Interim Final Effluent Limitations Guidelines and Proposed New Source Performance Standards for the Explosives Manufacturing Point Source Category," which contains information on the analysis undertaken in support of the regulations, would be available to the public throughout the comment period. Production difficulties delayed the availability of this document. Copies of the document are now available and have been forwarded to those persons having submitted written requests to the Environmental Protection Agency. A limited number of additional copies are available for distribution from the Environmental Protection Agency, Effluent Guidelines Division, Washington, D.C. 20460, Attention: Distribution Officer, WH-552.

Accordingly, the date for submission of comments is hereby extended to June 21, 1976.

Dated: May 14, 1976.

JOHN T. RHETT,  
Acting Assistant Administrator  
for Water and Hazardous Materials.  
[FR Doc. 76-14648 Filed 5-19-76; 8:45 am]

Title 47—Telecommunication  
CHAPTER I—FEDERAL  
COMMUNICATIONS COMMISSION

[FCC 76-429]

## PART 63—EXTENSION OF LINES AND DISCONTINUANCE OF SERVICE BY CARRIERS

## Application Procedures

1. The Commission has reviewed Part 63 of its rules and has determined that a number of changes are needed to update the rules and clarify various matters. We believe these rule modifications will improve the processing procedures and simplify the filing and consideration of section 214 applications. Several of these changes are briefly discussed below.

2. Sections 63.02, 63.03, 63.04, and 63.05 of the rules are amended to increase certain construction, installation, and lease costs which establish upper limits on the proposed small projects with respect to extensions, supplementation of facilities, temporary or emergency service, and the commencement and completion of construction. This change is made in recognition of the inflation in costs of facilities and to more fairly relate lease costs to construction costs. A subparagraph will be added to § 63.01 to refer to the environmental requirements in Subpart I of Part 1 of the Commission's Rules. Also, applicants will be required to submit airline mileage between terminal communities for the computation of applicable grant fees, in accordance with our recent amendment of Subpart G of Part 1 of

the Commission's Rules relating to the schedule of fees.<sup>1</sup>

3. Section 63.52 of the rules, Copies required; fees, will be amended by reducing the number of copies of applications to be submitted as requested in paragraph (a), and by adding new paragraphs (b) and (c) to specify filing periods for petitions and responsive pleadings. Heretofore the filing periods for petitions against applications filed pursuant to section 214 of the Communications Act and Part 63 of the rules have generally been established by the Commission's public notice of applications accepted for filing. We believe that for purposes of consistency and clarity, it is valuable to specify in Part 63 these pleading periods. Section 63.52, as amended, specifies a 30-day period for the filing of petitions to deny applications. The applicant may file an opposition to any petition to deny, and the petitioner may file a reply to such opposition within the time specified by § 1.45 and allegations of fact of denials thereof shall similarly be supported by affidavit.

4. Sections 63.03 and 63.04 are revised to change the effective grant date from the current 15th day to the 21st day following the date of filing applications pursuant to such sections, to permit additional processing time by the Commission. We are expanding § 63.03 to clarify the circumstances under which the authorization of facilities as supplemental small projects will be considered appropriate under this section. Also, § 63.51 is revised to specify that if an applicant fails to respond to official correspondence or request for additional market, the application will be dismissed without prejudice.

5. Section 63.50 is added to specify procedures for amending applications filed under Part 63 of the rules. This addition is necessary to eliminate any uncertainties with respect to procedures for filing amendments to application submitted.

6. Authority for these changes is contained in section 4 (i) and (j) and 303 (r) of the Communications Act of 1934, as amended. (47 U.S.C. 154 (i) and (j), 303(r)). Because they reflect only procedural changes and since early implementation would simplify and expedite the processing of applications, compliance with the prior notice and effective date provision of 5 U.S.C. 533 is not required.

7. In view of the foregoing, it is ordered, effective May 26, 1976, That Part 63 of the Commission's rules and Regulations is amended as set forth below.

(Secs. 4, 303, 48 Stat., as amended, 1086, 1082; 47 U.S.C. 154, 303.)

Adopted: May 11, 1976.

Released: May 18, 1976.

FEDERAL COMMUNICATIONS  
COMMISSION,  
VINCENT J. MULLINS,  
Secretary.

<sup>1</sup> See Report and Order in Docket No. 19658, released January 20, 1975, 50 F.C.C. 3d 906.

## RULES AND REGULATIONS

Part 63 of Title 47 of the Code of Federal Regulations is amended to read as follows:

1. In § 63.01 the introductory paragraph and paragraphs (e) and (f) are revised, and a new paragraph (g) is added to read as follows:

## § 63.01 Contents of applications.

Except as otherwise provided in this part, any party proposing to undertake any construction of a new line, extension of any line, acquisition, lease, or operation of any line or extension thereof or engage in transmission over or by means of such line, for which authority is required under the provisions of Section 214 of the Communications Act of 1934, as amended, shall request such authority by formal application which shall be accompanied by a statement showing how the proposed construction, etc. will serve the public interest, convenience, and necessity. Such statement must include the following information as applicable:

(e) A statement as to whether the facilities covered by the application will be used to extend communication service into territory at present not directly served by the applicant or to supplement existing facilities of the applicant, and the nature and classification of the communication services to be provided (e.g., telephone, telegraph, facsimile, data, private line, voice, television relay, etc.);

(i) Applicant's present and estimated future requirements, both for the route of the proposed facilities and for routes from which any rerouting to the proposed facilities is contemplated within the period of the estimate. Where 60 domestic circuits or more are to be derived from the proposed construction, acquisition, or lease, list the principal circuit groups currently operated, the number of circuits in each group, and the estimate number of circuits required in each group to meet the load demands for the ensuing one year, two year, or five year period, as may be appropriate in order to provide adequate justification for said increases, including current traffic load trends, as indicated by periodic traffic load studies.

(q) A statement whether any new construction would be considered a major action under the Commission's environmental rules. If a major action is involved, attach an environmental statement. (See Subpart I of Part 1 of this chapter.)

2. Section 63.02 is revised to read as follows:

## § 63.02 Special provisions relating to extensions involving small projects.

Applications involving extension of service into domestic territory at present not directly served by the applicant by the construction, acquisition, or operation of facilities, the cost of which to the applicant does not exceed \$50,000 or the annual rental of which does not

exceed \$10,000, may omit the information called for by § 63.01 that is clearly not relevant to such extension. (Normally the information required by § 63.01(h) (1), (h) (2), (i), (j), and (k) (1) may be omitted.) At minimum, the application shall contain a general description of the existing and proposed facilities, points of service, and cost.

3. Section 63.03 is revised and paragraphs (d) and (e) are added to read as follows:

## § 63.03 Special provisions relating to small projects for supplementing of facilities.

(a) Facilities authorized under this section are limited to those that supplement existing facilities. Excluded from consideration under this section are applications that would involve:

(1) A new or modified service;  
(2) One or more points of service not previously authorized to the applicant for the type of service involved;  
(3) New transmission facilities (excluding supplemental radio transmitters) over which applicant has not previously received authority under Part 63;

(4) A major action under the environmental rules (Part 1, Subpart I of this chapter);

(5) International channels exceeding 7 voice grade circuits for voice carriers or 2 voice grade circuits for record carriers; or

(6) Domestic channels where the construction or acquisition cost exceeds \$500,000 or where the annual rental exceeds \$100,000.

(b) Applications submitted under this section shall be clearly identified as requesting authority pursuant to this section and the original shall be accompanied by two copies. The application shall contain a statement showing how the proposed acquisition, lease, operation or construction would serve the public interest, convenience, and necessity. Such statement must include information concerning:

(1) The terminal communities between which the proposed facilities are to be located;

(2) A statement as to the type of communication services which will be provided on the proposed facilities;

(3) The need for the proposed construction, acquisition, lease or operation;

(4) A description of the proposed facilities giving the number of each type of communication channel to be provided thereby;

(5) The estimated construction cost, annual rental, or purchase price, as appropriate for the proposed facilities;

(6) The route mileage of the facilities involved (excluding leased facilities) and airline mileage between terminal communities in the proposed project; and

(7) The accounting to be performed by the carrier with respect to the proposed project.

(c) In addition to the requirements of paragraph (b), applications involving overseas circuits shall:

(1) Cite by file number and date of adoption a currently effective Commission Order granted pursuant to § 63.01

granting the applicant authority to acquire like facilities for the provision of service between the points for which authority for additional circuitry is being requested. Where the applicant has been granted a currently effective authorization (Blanket Order) which specifies in an appendix to that Commission Order all or most of the facilities of a specific type (e.g., satellite circuits provided by satellites over a given ocean basin, circuits in a single submarine cable system, etc.), the applicant has been authorized to use to serve the ocean basin, area or country to which applicant is seeking to acquire supplemental facilities, the applicant shall cite that authorization.

(2) Contain a specific statement that applicant will construct, acquire and/or operate the requested facilities in accordance with the terms and conditions of the Order cited pursuant to (1) above.

(3) When the Commission Order cited pursuant to (1) above is a Blanket Authorization, applicant shall submit a revised Appendix showing the changes thereto which will occur on grant of its application.

(d) Such supplementing of facilities shall be deemed to have been authorized by the Commission effective as of the 21st day following the date of filing of such application unless on or before the 21st day the Commission shall notify the applicant to the contrary. Where supplemental facilities are authorized under this section, they shall be considered subject to the same terms and conditions, if any, that the Commission has imposed upon a prior authorization which is being supplemented.

(e) Any carrier may request continuing authority, subject to termination by the Commission at any time upon 10 days' notice to the carrier, or commence small projects for the supplementing of existing facilities. Such an application shall set forth the need for such authority; however, it shall not be considered granted pursuant to paragraph (d) of this section. Upon authorization of such continuing authority by the Commission, the carrier may commence small projects subject to the limitations set forth in Paragraph (a) of this section, except that the construction, installation and acquisition cost for each project shall be limited to \$35,000 or an annual rental of \$7,000. Moreover, not later than the 30th day following the end of each 6 month period covered by such authority, the carrier shall file a statement in writing making reference to this paragraph and setting forth, with respect to each project (construction, installation, acquisition, lease, including any renewal thereof, and operation) which was commenced thereunder, the following information:

(1) The type of facility constructed, installed, acquired, or leased;

(2) The route mileage thereof (excluding leased facilities);

(3) The terminal communities served and airline mileage between such communities;

(4) The cost thereof, including construction, installation, acquisition, or lease; and

(5) Where appropriate, the name of the lessor company and the dates of commencement and termination of the lease.

4. Section 63.04 (b), (c) and (d) are revised to read as follows:

§ 63.04 Special provisions relating to temporary or emergency service.

(b) Requests for immediate authority for temporary service or for emergency service may be made by letter or telegram setting forth why such immediate authority is required, the nature of the emergency, the type of facilities proposed to be used, the route mileage thereof, the terminal communities to be served, and airline mileage between such communities; how these points are presently being served by the applicant or other carriers, the need for the proposed service, the cost involved including any rentals, the date on which the service is to begin and where known, the date or approximate date on which the service is to terminate.

(c) Without regard to the other requirements of this part, and by application setting forth the need therefor, any carrier may request continuing authority, subject to termination by the Commission at any time upon 10 days' notice to the carrier, to provide temporary or emergency service by the construction or installation of facilities where the estimated construction, installation, and acquisition costs do not exceed \$35,000 or an annual rental of not more than \$1,000 provided that such project does not involve a major action under the Commission's environmental rules. (See Subpart I of Part 1 of this chapter.) Any carrier to which continuing authority has been granted under this paragraph shall, not later than the 30th day following the end of each 6-month period covered by such authority, file with the Commission a statement in writing making reference to this paragraph and setting forth, with respect to each project (construction, installation, lease, including any renewals thereof), which was commenced or, in the case of leases, entered into under such authority, and renewal or renewals thereof which were in continuous effect for a period of more than one week, the following information:

(1) The type of facility constructed, installed, or leased;

(2) The route mileage thereof (excluding leased facilities);

(3) The terminal communities served and the airline mileage between terminal communities in the proposed project;

(4) The cost thereof, including construction, installation, or lease;

(5) Where appropriate, the name of the lessor company, and the dates of commencement and termination of the lease.

(d) (1) A request may be made by any carrier for continuing authority to lease and operate, during any emergency

when its regular facilities become inoperative or inadequate to handle its traffic, facilities of any other carrier between points between which applicant is authorized to communicate by radio for the transmission of traffic which applicant is authorized to handle.

(2) Such request may be made by letter or telegram making reference to this paragraph and setting forth the points between which applicant desires to operate facilities of other carriers and the nature of the traffic to be handled thereover.

(3) Continuing authority for the operation thereafter of such alternate facilities during emergencies shall be deemed granted effective as of the 21st day following the filing of the request unless on or before that date the Commission shall notify the applicant to the contrary; provided, however, Applicant shall, not later than the 30th day following the end of each quarter in which it has operated facilities of any other carrier pursuant to authority granted under this paragraph, file with the Commission a statement in writing making reference to this paragraph and describing each occasion during the quarter when it has operated such facilities, giving dates, points between which such facilities were located, hours or minutes used, nature of traffic handled, and reasons why its own facilities could not be used.

5. Section 63.05 is revised to read as follows:

§ 63.05 Commencement and completion of construction.

Unless otherwise determined by the Commission upon proper showing in any particular case, in the event construction shall not have been begun upon a project involving an expenditure of more than \$500,000, or where facilities authorized have not been leased or acquired, within 12 months from the date of the Commission's authorization, or all or part of the proposed facilities shall not have been placed in operation within 36 months after such date, such authorization shall terminate at the end of such 12 or 36 months' period, as the case may be; in the case of projects involving an expenditure of \$500,000 or less, the authorization therefor shall terminate at the end of 9 months or 18 months, as the case may be, in the event construction thereof shall not have been commenced, or the facilities placed in operation, within such respective periods.

6. Section 63.50 is added to read as follows:

§ 63.50 Amendment of applications.

Any application may be amended as a matter of right prior to the date of any final action taken by the Commission or designation for hearing. Amendments to applications shall be signed and submitted in the same manner, and with the same number of copies as was the original application. If a petition to deny or other formal objections have been filed to the application, the amendment shall be served on the parties.

7. Section 63.51 is revised to read as follows:

§ 63.51 Additional information.

The applicant shall furnish any additional information which the Commission may require after a preliminary examination of the application or request. Where an applicant fails to respond to official correspondence or request for additional material, the application may be dismissed without prejudice.

8. In § 63.52, the headnote and text are revised, and paragraphs (b) and (c) are added to read as follows:

§ 63.52 Copies required; fees; and filing periods.

(a) Unless otherwise specified the Commission shall be furnished with an original and 5 copies of applications filed under section 214 of the Communications Act of 1934, as amended; Provided, however, that where applications involve only the supplementation of existing domestic facilities, and the issuance of a certificate is not required, an original and 2 copies of the application shall be furnished. Upon request by the Commission additional copies of the application shall be furnished. Each application shall be accompanied by the fee prescribed in Subpart G of Part 1 of this chapter.

(b) No application accepted for filing and subject to the provisions of §§ 63.01, 63.02, 63.54, 64.63 (with the exception of 63.62(a)), 68.69, 63.91, 63.502, or 63.505 of the rules shall be granted by the Commission earlier than 30 days following issuance of public notice by the Commission of the acceptance for filing of such application or any major amendment unless said public notice specifies another time period.

(c) Any interested party may file a petition to deny an application within the 30-day or other time period specified in paragraph (b) above. The petitioner shall serve a copy of such petition on the applicant no later than the date of filing thereof with the Commission. The petition shall contain specific allegations of fact sufficient to show that the petitioner is a party in interest. Such allegations of fact shall, except for those of which official notice may be taken, be supported by affidavit of a person or persons with personal knowledge thereof. The applicant may file an opposition to any petition to deny, and the petitioners may file a reply to such opposition (see § 1.45 of this chapter), and allegations of facts or denials thereof shall similarly be supported by affidavit. These responsive pleadings shall be served on the applicant or petitioners, as appropriate, and other parties to the proceeding.

[Docket No. 20632; RM-2594]

#### PART 73—RADIO BROADCAST SERVICES Table of Assignments; Television Broadcast Stations; Fort Dodge, Iowa

1. The Commission here considers its Notice of Proposed Rule Making, adopted November 12, 1975 (40 FR 55367), which

proposed the amendment of the Television Table of Assignments (§ 73.606(b) of the Rules) to substitute Channel \*21 for Channel \*46 and channel 50 for the present Channel 21 assignment at Fort Dodge, Iowa. The only commenting parties in this proceeding are the joint petitioners, Northwest Television Company ("Northwest") and the State Educational Radio and Television Facility Board ("Board"). Northwest is the licensee of Station KVFD-TV (Channel 21), Fort Dodge, Iowa, and the Board is the holder of a construction permit for noncommercial educational station KTIN-TV (Channel \*46), also at Fort Dodge.<sup>1</sup>

2. The Notice of Proposed Rule Making in this proceeding explained that Northwest is in a position of severe financial hardship and may be forced to discontinue operation. Changes in the Table were sought to prevent this and to enable the Board to expand its educational service at considerable savings.

3. Northwest has operated a commercial television station in Fort Dodge for twenty-two years. The company moved the transmitter and antenna to a new site at Bradgate, Iowa, in 1970 (approximately 24 miles northwest of Fort Dodge). The antenna height was increased and a new antenna and transmission line were purchased. Northwest expected that the new transmitting equipment would establish a greater coverage area which would in turn produce a growth in income. The company counted upon this increase in income in order to meet its financial obligations. However, the increase in revenues never materialized and Northwest has suffered large annual losses since 1971.

4. Northwest believes it can return to a profitable financial state if it is allowed to change channels and relocate the KVFD-TV transmitter and antenna at the station's original site in Fort Dodge. New equipment for operation on Channel 46 would cost approximately \$500,000, Northwest estimates, but used equipment, capable of operation on Channel 50 is available for \$120,000.

5. To this end, Northwest and the Board entered into an agreement on July 16, 1975, in which the Board would, contingent upon the Commission's approval of the instant petition, buy Northwest's antenna, tower, and transmission line and would thereafter assume certain of Northwest's financial obligations. Northwest also agreed to lease to the Board, the property on which the antenna is located and enough additional land to enable the Board to construct a transmitter building. After a comparative analysis, the Board estimates that it could save a substantial amount of money by purchasing Northwest's used equipment. It was on this basis that the Commission issued its Notice.

6. In the comments filed by Northwest and the Board, Northwest reports that it

<sup>1</sup> The Board additionally holds construction permits for noncommercial educational TV stations at Council Bluffs, Red Oak and Mason City and is the licensee of noncommercial educational TV stations at Des Moines, Iowa City, Waterloo and Sioux City.

has entered into a settlement with Palmer Broadcasting Company, one of its creditors, which will result in a reduction in Northwest's annual operating expenses. Although the reported settlement is substantial, it is still relatively small in proportion to the annual losses suffered by Northwest since 1971.

7. It appears to the Commission that the change in channel assignments is warranted and would benefit the public interest in Fort Dodge. The Board may expand its educational facilities at a considerable savings and Northwest's operating expenses may be reduced to the extent that the needed commercial service will be preserved.

8. In view of the foregoing, and pursuant to the authority found in sections 4 (i), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b) (6) of the Commission's rules, it is ordered, That effective June 24, 1976, the TV Table of Assignments (§ 73.606(b) of the Commission's Rules and Regulations) IS AMENDED as follows:

§ 73.606 [Amended]  
City: Fort Dodge, Iowa..... Channel No. \*21, 50+

9. It is further ordered, That effective June 24, 1977, and pursuant to section 316 of the Communications Act of 1934, as amended, the outstanding license of Northwest Television Company, for Station KVFD-TV, Fort Dodge, Iowa, is modified to specify operation on Channel 50+ in lieu of Channel 21, subject to the following conditions:

(a) The licensee shall inform the Commission in writing by no later than July 24, 1976, of its acceptance of this modification.

(b) The licensee shall submit to the Commission by October 22, 1976, all necessary information complying with the applicable technical rules for modification of authorization to cover the operation of Station KVFD-TV on Channel 50+ at Fort Dodge, Iowa.

(c) The licensee may continue on Channel 21 under its outstanding authorization for one year from the effective date of this Order, or effect the change sooner should it so desire. Prior to commencing operation on Channel 50+ the licensee shall submit the same measurement data normally required in an application for a TV broadcast station license.

(d) The licensee shall not commence operation on Channel 50+ until the Commission specifically authorizes it to do so.

10. It is further ordered, That effective June 24, 1977, and pursuant to Section 316 of the Communications Act of 1934, as amended, the construction permit of the State Educational Radio and Television Facility Board, for Station KTIN-TV, Fort Dodge, Iowa, is modified to specify operation on Channel \*21 in lieu of Channel \*46 subject to the following conditions:

(a) The permittee shall inform the Commission in writing by no later than

July 24, 1976, of its acceptance of this modification.

(b) The permittee shall submit to the Commission by October 22, 1976, all the necessary information complying with the applicable technical rules for modification of authorization to cover the operation of Station KTIN-TV on Channel \*21 at Fort Dodge, Iowa.

(c) Prior to commencing operation on Channel \*21, the permittee shall submit the same measurement data normally required in an application for a TV broadcast station license.

(d) The permittee shall not commence operation on Channel \*21 until the Commission specifically authorizes it to do so.

11. It is further ordered, That this proceeding is terminated.

Adopted: May 11, 1976.

Released: May 17, 1976.

(Secs. 4, 5, 303, 307, 48 Stat., as amended, 1068, 1068, 1082, 1083; 47 U.S.C. 154, 155, 303, 307)

FEDERAL COMMUNICATIONS COMMISSION,  
WALLACE E. JOHNSON,  
Chief, Broadcast Bureau.

[FR Doc.76-14722 Filed 5-19-76;8:45 am]

[Docket No. 20632; RM-2461]

#### PART 73—RADIO BROADCAST SERVICES

Table of Assignments; FM Broadcast Stations; Holiday and Dunedin, Florida

1. The Bureau has under consideration its Notice of Proposed Rule Making (40 FR 29303) released July 2, 1975, proposing the assignment of Channel 221A to Holiday, Florida, as its first FM assignment. Comments have been received from petitioner, Ralph M. Hansen, Jr. and Richey Airwaves, Inc. ("WGUL"), licensee of Station WGUL(AM) and WGUL-FM, New Port Richey, Florida, and a late-filed counterproposal has been received from Manley St. Jean. The counterproposal suggests that Channel 221A be assigned to Dunedin and Channel 292A be assigned to Holiday. No reply comments were received.

2. Holiday is an unincorporated community located in Pasco County (pop. 75,955) on the west coast of central Florida. It has no local aural service. Its population is not reported in the U.S. Census but its 1973 population has been estimated at 11,591. Holiday is purported to be made up of nine residential subdivisions.

3. Dunedin (pop. 17,639) is located in Pinellas County (pop. 522,329) about 12 miles south of Holiday. It is part of the St. Petersburg Urbanized Area and is adjacent to Clearwater, Florida (pop. 52,074). Dunedin is served by one AM station, WDCL (daytime-only).

<sup>1</sup> We make reference to a subsequently filed mutually exclusive petition, not considered herein for reasons stated infra, to assign Channel 292A to Port Richey, Florida (RM-2806) filed October 16, 1975.

<sup>2</sup> Population data is taken from the 1970 U.S. Census.

4. The status of Holiday as a community has been disputed. Petitioner states that the New Port Richey Chamber of Commerce in its "Statistic Review" of the West Pasco County Area recognizes Holiday as a distinct and separate community and estimates its population growth to be 5,791 in 1969 to 11,591 in 1973. It also states that separate mail service for Holiday commenced last year from a new post office facility located in and designated as Holiday. Petitioner determines that the community boundaries are delineated by mail service routes and by the road signs placed along Route 19 by the Florida Highway Department. Further, petitioner notes the recent addition of a Holiday Chamber of Commerce, a Holiday Mall shopping center and the many businesses that are identified by a Holiday address.

5. In opposing comments, WGUL argues that the area's residents do not function as residents of a community. It states that Holiday has no local government, no high school, no separate post office, no central shopping area, no Chamber of Commerce and no police or fire departments.<sup>1</sup> Instead it alleges that the nine residential housing developments each have their own separate identity. According to WGUL many of the businesses identifying with Holiday and mentioned by petitioner are no longer in operation. It also notes that Holiday, like Dunedin, is a community which would be precluded by the proposed assignment, is located in the Tampa-St. Petersburg SMSA and receives the same service as Dunedin from that area.

6. St. Jean asserts that his counterproposal offers a more efficient utilization of the available channels. He states that from the reference point at Dunedin, less preclusion on Channel 221A and adjacent channels would result and a greater population area would be served within the 3.15 mV/m contour of the station. In addition St. Jean shows that Channel 292A can be used only in a small area, which includes Holiday, and no new preclusion areas on adjacent channels would be created.

7. First, the status of Holiday as a community for channel assignment purposes should be resolved. The residents of Holiday, although living in separate residential subdivisions, also appear to relate to a larger integral unit. The designations given to the new post office, shopping center and chamber of commerce demonstrate this common reference. As stated in the Notice, boundaries need not be specifically known, however petitioner has nevertheless indicated borders recognizable by highway signs and postal routes. The commercial enterprises serving the area, for the most part, identify themselves as Holiday businesses. Finally, petitioner's attached ap-

<sup>1</sup> We note that a conflict exists in the pleadings. However petitioner provided us with photographs in its Appendix which clearly depict the existence of a Holiday post office, shopping center and Chamber of Commerce.

pendices reveal that Holiday has the requisite indicia of a typical community, two banks, a post office, a shopping center, a chamber of commerce, and several churches all identifying themselves with the name of Holiday. Thus, we are convinced that Holiday has the ascertainable boundaries, identifiable population and community of interest, necessary to be considered a community under Sections 73.202(a) and 73.203(a) of the Commission's Rules. We note that for present purposes, Holiday's exact size and the extent of its needs for a channel need not be determined because we have determined for reasons stated infra that it will not be considered with a pending mutually exclusive petition to assign Channel 292A to Port Richey, Florida.

8. As noted before, a petition to assign Channel 292A to Port Richey, Florida, was filed subsequent to the cut-off period for comments in the present proceeding. Further, the petitioner, Frank D. Ward, for Port Richey did not seek consolidation of his petition herein. A "motion for consolidation" was filed, however, by WGUL, in which it was argued that the Commission should consider the proposals involving the West Pasco County area together. Petitioner Hansen filed an "Opposition to Motion to Consolidate" noting that the petition was filed nearly two months after the cut-off date and that Ward, the Port Richey proponent, does not seek consolidation. Ward responded to the Motion to Consolidate with a "Motion to Strike" in which he opposes consolidation and argues that Section 1.420 of the Commission's Rules is a bar to such combined consideration.

9. At the outset, we believe that consolidation of the petition to assign Channel 292A to Port Richey herein should be denied. The petition was filed too late to be commented upon in connection with the issues in this proceeding. Our cut-off procedures which were expressly spelled-out in the Appendix attached to the Notice prohibit consolidation of late filed comments. Although the proposals involved are mutually exclusive, if Channel 292A is assigned to Holiday, the Port Richey petition could be treated as a proposal to reassign the channel to Port Richey and the proper comparison could then be in the context of a separate proceeding. Port Richey's interests will not be prejudiced thereby and the present proposals will not be unnecessarily delayed.<sup>2</sup>

10. Before we consider the proposals before us in this proceeding, we must also rule on the proper disposition of St. Jean's late-filed counterproposal. We note that in St. Jean's certification of service the comments were mailed to petitioner on August 19, 1975, well before the cut-off date of August 25, 1975. The Commission received the comments only two days late. However, we believe that sufficient time was given for all parties

<sup>2</sup> See *Anamosa, Iowa*, 48 F.C.C. 2d 530 (1974).

to the proceeding to file reply comments and no party has complained of the late filing. In addition we believe that the public interest would be better served by considering a proposal which offers a first local FM service to two communities. We will therefore accept the counterproposal.

11. After consideration of the proposals before us, we have decided that the public interest would be best served by providing both Holiday and Dunedin with its first FM assignment. The residents of Dunedin, a sizeable community, would receive a first local nighttime service. Although a multitude of stations from the Clearwater-St. Petersburg-Tampa area are presently received, we believe that Dunedin is entitled to local service. We note that, contrary to WGUL's assertion, Holiday is not located in the Tampa-St. Petersburg SMSA. From a technical standpoint, the assignments represent efficient utilization of available frequencies since only a small area remains for the use of each channel, no new adjacent channel preclusion will be created on Channel 292A and less preclusion will occur on Channel 221A. Furthermore, the assignments allow us to allocate two channels for use at two communities formerly without fulltime local service, and, in the case of Holiday, without any local service. We note that Dunedin is situated adjacent to Clearwater and it is our policy to look askance at proposals which purport to serve a smaller community but in reality seek to program for a larger nearby community.<sup>3</sup> However, we have no reason to believe that the Dunedin proponent seeks to serve Clearwater (pop. 52,074) in light of the manner in which Dunedin's present AM station operates and the unequal competition that would exist between the Class A channel to be assigned herein and Clearwater's two Class C assignments. Therefore, we believe the public interest would be served by assigning Channel 292A to Holiday and Channel 221A to Dunedin.

12. Accordingly, it is ordered, That effective June 24, 1976, the FM Table of Assignments (Section 73.202(b) of the Commission's Rules and Regulations) is amended to read as follows for the communities listed:

City	Channel No.
Holiday, Fla.	292A
Dunedin, Fla.	221A

13. Authority for the actions taken herein is found in Sections 4(d), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and in Section 0.281 of the Commission's Rules and Regulations.

14. It is further ordered, That the Motion to Consolidate filed by Richey Airwaves, Inc. is denied.

<sup>3</sup> See *Bervick Broadcasting Co.*, 12 F.C.C. 2d 8 (1968); *Policy to Govern Requests for Additional FM Assignments*, 8 F.C.C. 2d 79 (1967); *Portage and Kalamazoo, Mich.*, 55 F.C.C. 2d 576 (1975).

15. It is further ordered, That this proceeding is terminated.  
(Secs. 4, 303, 307, 48 Stat., as amended, 1966, 1962, 1963; 47 U.S.C. 154, 303, 307.)

Adopted: May 11, 1976.

Released: May 17, 1976.

FEDERAL COMMUNICATIONS  
COMMISSION,

WALLACE E. JOHNSON,  
Chief, Broadcast Bureau.

[FR Doc. 76-14723 Filed 5-19-76; 8:45 am]

[Docket No. 20508; FCC 76-313]

#### PART 76—CABLE TELEVISION SERVICE Cable Television Channel Capacity and Access Channel Requirements

By the Commission: Commissioner Hooks concurring in part and dissenting in part and issuing a statement; Commissioners Washburn and Robinson concurring and issuing statements.

1. Effective March 31, 1972, the Commission adopted the Cable Television Report and Order, FCC 72-108, 36 FCC 2d 143 (1972), which, inter alia, included various channel capacity and access channel requirements for systems located in the major television markets.<sup>1</sup> In general, systems commencing service after March 31, 1972 (hereinafter referred to as new systems) were expected to fully comply with these requirements on commencing service, while systems already in operation as of that date (old systems) were given five years, that is until March 31, 1977, to reconstruct their plant and distribution networks, purchase new equipment, provide minimum studio facilities for the public access channel, and come into full compliance with these requirements.

2. In Public Notices respectively dated May 15 and 17, 1974, the Commission announced the creation of Re-Regula-

<sup>1</sup> These requirements have been contained in § 76.251 of the rules, the pertinent provisions of which may be summarized as follows:

##### Channel Capacity Requirements

- 20 channel capacity available for immediate or potential use (76.251(a)(1));
- For each broadcast channel used, an equivalent amount of bandwidth available for non-broadcast purposes (76.251(a)(2));
- Technical capacity for non-voice return communication (76.251(a)(3));

##### Access Channel Requirements

- A single channel each for public, educational, local government and leased channel use (76.251(a)(4)-(a)(7));
- Equipment and facilities necessary for the production of programming on the public access channel (76.251(a)(4));
- The provision of additional access channels based upon the utilization of those in existence (76.251(a)(6));
- The provision of public, educational and governmental access services under certain circumstances at no charge (76.251(a)(10)(i)-(ii)).

tion and 1977 Task Forces. In an effort to continually review its regulatory program, the Commission charged these Task Forces with conducting an examination of all of its rules and regulations respecting cable television. The common goal of the two Task Forces was to study the problems posed by the cable television rules and regulations for the Commission, local franchising authorities and the cable television industry, and to make appropriate recommendations with respect to how these rules might be refined to more fully serve the public interest. The 1977 Task Force was specifically established to study the problems posed by the March 31, 1977 deadline for achieving compliance with the cable television rules.

3. Responding to the recommendations of the 1977 Task Force the Commission adopted the Notice of Proposed Rulemaking in Docket 20363, FCC 75-211, 51 FCC 2d 519 (1975), which requested comment upon the necessity of postponing or cancelling the March 31, 1977 reconstruction deadline in view of economic considerations. In that Notice the Commission confined its inquiry to the amount of capital required to comply with its reconstruction requirements, the availability of such capital in the marketplace and the overall ability of the industry to achieve compliance by March, 1977. The Commission indicated that an additional Notice would be issued inquiring into alternative methods by which it might reaffirm its commitment to access cablecasting for old systems while recognizing the economic realities posed by system reconstruction. It also stated that in the additional rulemaking Notice it would address certain other matters respecting its channel capacity and access channel requirements for both new and old systems.

4. On June 3, 1975, the Commission adopted the Notice of Proposed Rulemaking in Docket 20508, FCC 75-644, 53 FCC 2d 782 (1975), which constituted that additional Notice. On July 9, 1975, the Commission adopted its Report and Order in Docket 20363, FCC 75-821, 54 FCC 2d 207 (1975), which cancelled the March 31, 1977 reconstruction date and suspended any requirement that older systems reconstruct to comply with the channel capacity and access channel requirements pending the outcome of its June 3, 1975 Notice.

5. In its June 3, 1975 Notice, the Commission requested comment on a variety of matters which related to its channel capacity and access channel requirements. In addition to soliciting views on various alternatives to the March 31, 1977 uniform reconstruction deadline, the Commission determined to reexamine the criterion (location within the 35-mile zone of a major television market) presently utilized to trigger its channel capacity and access requirements for both new and old systems. Also included in that Notice was a reexamination of the "two-way," "one-for-one" and "convert-

er" requirements for both new and old systems.<sup>2</sup>

6. In an effort to obtain the views of as many interested parties as possible, the Commission gave broad notice of the matters contained in Docket 20508 and individually solicited the opinions of over 100 public interest, access, educational and citizens groups. The Commission has received a significant number of responses from various parties, including cable television interests; broadcast interests; public interest and access organizations; individual members of the public; state and municipal cable regulators; educational authorities; and electronic equipment suppliers, submitting diverse observations, opinions and proposals. Comments of all parties were carefully studied and considered. While some parties' comments touched upon matters of more direct relevance to the Commission's Notice in Docket 20363, they were largely responsive to this more general Notice, and many will be noted accordingly.

7. Based on the comments filed, our experience with the existing channel capacity and access rules since 1972, and a general re-evaluation of these rules in connection with this proceeding, we have determined that several major modifications in our requirements are necessary. In making these changes we have taken into account a number of important and frequently countervailing considerations.

8. First, we continue to believe that the public interest can be significantly advanced by the opening of cable channels for use by the public and other specified users who would otherwise not likely have access to television audiences. A commitment was made to the provision of these channels in the 1972 rules which should not be abandoned. There is, we believe, a definite societal good in keeping open these channels of communication. While the overall impact that use of these channels can have may have been exaggerated in the past, nevertheless we believe they can, if properly used, result in the opening of new outlets for local expression, aid in the promotion of diversity in television programming, act in some measure to restore a sense of community to cable subscribers and a sense of openness and participation to the video medium, aid in the functioning of democratic institutions, and improve the informational and educational communications resources of cable television communities.

9. On the other hand, these public benefits must be carefully weighed against the costs the requirements impose. Not only are there costs involved that are directly passed on to subscribers and reflected in the profit and loss state-

<sup>2</sup> The "one-for-one" and "two-way" requirements are contained in Sections 76.251(a)(2) and (a)(3) respectively. The installation of a converter is necessary for certain systems to actually provide the four access channels required pursuant to Sections 76.251(a)(4)-(a)(7) of the Rules. This requirement is discussed in greater detail in paragraph 84 et seq.

ments of cable operators, there are opportunity costs involved as well. Monies expended to comply with these requirements could have been expended in the construction of new cable systems where none now exist or in the development and provision of different services which might be given a higher value by the public. And, in addition to the direct capital and other expenditures which the requirements entail, there are the other costs in lost flexibility and initiative which are likely to follow with any attempt to impose detailed governmental regulations on private business concerns. Thus, abstract notions of public good must be carefully tested as to their cost and practical, realistic impact.

10. Bearing in mind these conflicting concerns, we have determined to make a number of significant changes in the rules. These changes may be briefly summarized as follows:

Delete from the rules entirely the requirement that major market cable systems have the capacity to provide one nonbroadcast channel for each channel used to distribute broadcast programming.

Cease applying the channel capacity and access rules to those systems which, based on a headend or integrated system count, have fewer than 3,500 subscribers.

Apply all of the channel capacity and access rules to all systems or conglomerates of systems with 3,500 or more subscribers, regardless of whether they are located inside or outside of one of the major television markets.

Apply the access channel rules on a headend or conglomerate system rather than a community basis so that, in those situations where an access channel or channels are required, only one channel of each type will be required per integrated system even if that system serves more than one community.

Modify our requirements that old systems reconstruct to provide four dedicated access channels, and new systems provide such channels from the commencement of operations.

Require the provision of four access channels only on those systems that have sufficient activated capacity to provide such channels and only require such channels to be activated as an actual demand for their use develops. For those systems with insufficient activated capacity to provide four channels, require the provision of one composite access channel, except in the case of existing systems whose activated channel capacity is completely full, require that access be provided on exclusivity and nonduplication time.

Require that systems expand the number of channels available for access programming up to the limit of each system's activated channel capability based upon demonstrated use. In no case require the installation of a converter to meet access needs.

Require those systems with greater than 3,500 subscribers to reconstruct and comply with our channel capacity requirements by 1986.

Require that two-way capacity be installed on all systems with 3,500 or more subscribers, but not require that any system reconstruct solely to provide this capacity.

11. Each of these matters is discussed in detail below along with a summary of the comments received in response to the Notice in this proceeding. However, in view of our basic determination to retain channel capacity and access rules of some type, it is appropriate, before turning to the specific changes adopted, to address a number of arguments raised in the comments that challenge either the constitutionality of the channel capacity and access requirements, or the authority of the Commission to impose them.

12. By far the most extensive comments filed raising these points were those of the Midwest Video Corporation. These arguments in general parallel those raised by Midwest in its appeal of the Commission's adoption of Section 76.253 (the equipment availability requirement) in the Report and Order in Docket 19988, FCC 74-1279, 49 FCC 2d 1090 (1974). Their argument has basically five parts: (a) that the access rules are equivalent to common carrier regulation and that the Commission has no authority to convert cable systems into common carriers; (b) that the requirement to provide channels free for the use of others is an unconstitutional taking of private property for public use without just compensation in violation of the Fifth Amendment to the Constitution; (c) that even if not an unconstitutional taking the regulations violate the Fifth Amendment as restrictions on a lawful business activity, for they constitute an unnecessary interference with personal or property rights and are not reasonably structured to attain a valid legislative purpose; (d) that the due process clause prohibits governmental requirements necessitating a change in the basic nature of a business enterprise; and (e) that the access and channel capacity requirements violate the First Amendment by interfering with the rights of cable operators to communicate.

13. These arguments do not persuade us that the adoption of reasonable channel capacity and access channel rules are either unconstitutional or beyond our jurisdiction. The Communications Act allows the Commission significant discretion in dealing with the developments, demands, and public interest benefits inherent in the dynamic field of communications. The Commission's authority to adopt reasonable cable regulations has been upheld on a number of occasions in several different contexts.<sup>2</sup>

<sup>2</sup> *United States v. Southwestern Cable Co.*, 392 U.S. at 157 (1968); *Black Hills Video Corp. v. FCC*, 399 F.2d 65 (8th Cir. 1968); *United States v. Midwest Video Corp.*, 406 U.S. 649 (1972); *General Telephone Co. of California v. FCC*, 413 F.2d 390, 398 (D.C. Cir. 1969); *General Telephone of the Southwest v. U.S.*, 449 F.2d 846, 863-64 (5th Cir. 1971); *A.C.L.U. v. FCC*, 523 F.2d 1344, 1351 (9th Cir. 1971).

14. In adopting rules to develop the potential of cable television with its abundant channel capacity, as a purveyor of diverse programming, the Commission was affirmed in *United States v. Midwest Video Corp.*, 406 U.S. 649 (1972). The Supreme Court affirmed the Commission's decision to go beyond mere protective measures and also regulate cable with a view to "promote the objectives for which the Commission had been assigned jurisdiction over broadcasting." 406 U.S. 649, 665. Among those objectives recognized by the Court are increasing the number of outlets for local self-expression and augmenting the diversity of programs and types of services available to the public.

15. The Supreme Court upheld the agency's determination that the program-origination rule would serve those objectives. It is equally plain that channel capacity and access requirements will promote those objectives. In fact, the concept of access was included within the Commission's policy determination which was before the Supreme Court in the *Midwest Video* case. The Commission had stated in its First Report and Order, adopting the origination rule, that one of the reasons for origination requirements was "to insure that cablecasting equipment will be available for use by others." 20 FCC 2d at 214, quoted in 406 U.S. at 653n.5; see also 20 FCC 2d at 209. The Supreme Court in affirming the Commission's authority was clearly aware that the cablecasting contemplated by the Commission included not only programs produced by the cable system but also programs produced by others. We believe the rules under consideration in this proceeding will further the achievement of long-standing communications regulatory objectives by increasing outlets for local self-expression and augmenting the public's choice of programs and that as such they are within the scope of the Commission's regulatory authority over cable television systems that has been upheld by the Supreme Court.

16. Arguments that the rules deny due process, are unduly burdensome, confiscatory, and force cable operators to change the nature of their business are also arguments which were before the Court in *U.S. v. Midwest Video* and, although in that proceeding the charge was that the Commission had forced cable operators into the broadcasting business against their will, we believe the rationale of the Supreme Court's holding in that proceeding is equally applicable here.

17. With respect to the argument that the access requirements are in effect common carrier obligations which are beyond our authority to impose, we have said that in our view cable systems "are neither broadcasters nor common carriers within the meaning of the Communications Act" but rather that "cable is a hybrid that requires identification and regulation as a separate force in communications." *Cable Television Report and Order*, supra at paragraph 191. So

long as the rules adopted are reasonably related to achieving objectives for which the Commission has been assigned jurisdiction we do not think they can be held beyond our authority merely by denominating them as somehow "common carrier" in nature. The proper question, we believe, is not whether they fall in one category or another of regulation—whether they are more akin to obligations imposed on common carriers or obligations imposed on broadcasters to operate in the public interest—but whether the rules adopted promote statutory objectives. We think they do.

18. Finally, we cannot agree that rules of the type under consideration, which have as their foundation an increased opportunity for communications and a furtherance of First Amendment objectives can be found wanting, as an intrusion on the First Amendment rights of cable operators. When broadcasting, or related activity by cable television systems is involved, First Amendment values are furthered by "an uninhibited marketplace of ideas" in lieu of "monopolization of that market" by the government or a private broadcaster or cable owner. *Red Lion Broadcasting Co. v. FCC*, 395 U.S. 367, 390 (1969).

19. In sum, we do not agree that there are either jurisdictional or constitutional arguments that require us to terminate this proceeding by eliminating the channel capacity and access rules. Having reached that conclusion, we turn to a discussion of the particular rules changes under consideration in this proceeding.

#### CRITERION FOR THE IMPOSITION OF THE CHANNEL CAPACITY AND ACCESS CHANNEL REQUIREMENTS

##### INTRODUCTION

20. In adopting the *Cable Television Report and Order*, supra, we tied our channel capacity and access channel requirements to those systems which were located in the major markets. By allowing these systems greater distant signal carriage we hoped to stimulate the expansion of cable into the major markets; and by imposing channel capacity and access channel obligations on such systems we sought to insure that the growth was accompanied by the provision of non-broadcast services to these presumably more populous communities. In addition, systems serving these communities were selected to provide access services as a result of the belief that

• • • cities in the top 100 markets have, as a general rule, more diverse minority groups (ethnic, racial, economic, or age) who are most greatly in the need of both an opportunity to express their views and a more efficient method by which they may be apprised of governmental actions and educational opportunities. 36 FCC 2d at 197.

<sup>4</sup> We note that although the cable television access rules were not before the Supreme Court in *Columbia Broadcasting System v. Democratic National Committee*, 412 U.S. 94 (1973), the Court there discussed the possibility of a "limited right of access that is both practicable and desirable" and then referred specifically to the Commission's cable television public access channel rules.

21. In commencing this proceeding we noted our continued belief that potential access need is most apparent in larger communities. We also indicated that the major market rule is often inappropriate to meet that need. Within 35 miles of a major market television station there exists not just the central core city but many smaller communities. Many of these communities because of their size cannot realistically be expected to have in the near future a demand for the complete range of access services required by our rules. And because of their limited subscriber and revenue potential, compliance with our requirements has posed, we felt, an undue burden for many of these systems.

22. In addition, many very large systems serving large regional population centers have never been required to comply with our access or channel capacity requirements merely because they are located outside of the 35 mile zone of a major television market, yet there may be an equal need for access services in many of these communities. A system operating outside of a television market may provide its community with the only potential for access to a medium of visual communication. As we noted in our June 3rd Notice:

• • • the lack of adequate off-the-air television service in many of these larger communities has resulted in the operating systems obtaining large penetration rates and, generally, financial viability. This viability would seemingly facilitate compliance with our requirements. By providing requisite access services, it is our belief that these systems would more fully serve the communities within which they operate. 53 FCC 2d 782, 792.

23. In our June 3 Notice, we sought comment on various alternatives to the present major market trigger. In lieu of this criterion, comment was sought on the possibility requiring compliance with these requirements based upon system or community size, system profitability, penetration rates or other related indices. The major thrust of these proposals was to exempt from the requirements some smaller systems to which they now apply and to apply the requirements to some larger systems which are not now subject to the requirements. Comment was also requested on the advisability of determining subscriber count based upon the present definition of a cable television system, which focuses on individual political subdivisions, or alternatively employing for this purpose a conglomerate headend approach.

##### COMMENTS

24. Parties responding to this part of the Commission's inquiry provided diverse proposals. Midwest Video, as previously noted, argues that the imposition of any channel capacity and access channel requirements regardless of whatever trigger is chosen exceeds the Commission's jurisdiction, violates their constitutional rights and is contrary to public policy. Others assert that marketplace demand is sufficient to foster the provisions of expanded services and that the perceived need to adopt regulations over

these matters is evidence that the services required will not be profitable. Thirty cable system operators filing joint comments favored the adoption of an approach tied to number of subscribers as most reflective of a system's ability to finance access channel and channel capacity obligations. These parties suggest the adoption of a 25,000 subscriber figure as the level upon which to base the Commission's requirements. Other cable television interests including the National Cable Television Association urge either the complete elimination of channel capacity and access channel requirements or alternatively an exemption for smaller systems within major television markets. Central California Communications Corporation, for example, suggests the maintenance of the present criteria with an exemption for those systems which have fewer than 3500 subscribers. Michigan CATV Company and Coldwater Cable Television, Inc. urge the Commission to raise any exemption to 5000 and exempt systems with either less than that number of subscribers or systems which operate in communities with fewer than 15,000 people.

25. Other parties including various members of the Cable Television Information Center of the Urban Institute, Urban Planning Aid Inc., the Joint Council on Educational Telecommunications and private citizens, Linda Therkelson and Elaine O'Neil, suggest a multitiered approach based on subscriber count. Under these proposals, a system operator's access and channel capacity obligations would increase in incremental amounts in direct proportion to the number of subscribers which the system has. Accordingly, systems with, for example, fewer than 1,000 subscribers might have to provide a channel for access use without providing the facilities for the production of programming. Systems with between 1,000 and 3,500 subscribers might provide one channel with limited production facilities. Once a system obtains 3500 subscribers under several of these proposals it would be subject to the full panoply of channel capacity and access channel obligations imposed by our rules.

26. In support of limited access requirements for smaller systems, the Joint Council of Educational Telecommunications argues that many local school systems, colleges and universities have their own production facilities and access could, therefore, be provided "at a cost . . . no greater than that of an audio visual modulator." In a similar vein, Dr. Robert Fina points to the fact that Kutztown State College originates programming into the Borough of Kutztown through a cable system "which has far less than 3500 subscribers" and provides the Borough "with its only means of local television news coverage."

27. Various other parties including Storer Broadcasting, the City of Eugene, Oregon, Leon County Public Library, and the Committee on Regulation and Legislation of Video and Cable of the Communications Section of the American Association of Libraries, while favoring the adoption of an approach tied to sub-

scriber count or percent of cable system penetration do not suggest what the appropriate subscriber count or percent of penetration might be.

28. Opposing an approach tied to subscriber count, Metromedia argues that a cable system's channel capacity is already determined by the time that the first subscriber is signed up and, therefore, any trigger based upon subscriber count leaves the operator unable to determine his responsibilities. Other broadcast interests in urging the retention of the major market criteria for the imposition of the access rules assert that these requirements are the *quid pro quo* for the additional signal carriage permitted systems in the major markets.

29. An opposite approach is suggested by various members of the San Diego School system and the National Education Association who argue that any requirement that a cable system provide access services should be based upon the absence of other electronic communications services within the community. In support of this position, it is asserted that many smaller communities which do not have local radio or television coverage actually have a greater need for access channels, and this need should be reflected in the Commission's requirements. Other suggestions would tie the provision of access services to an undertaking by the franchising authority, local educational authority or individual member of the public that such body will be responsible for programming one or more access channels.

30. Lastly, a majority of the parties directly referencing it, urged the adoption of a conglomerate headend approach to determining subscriber count. This approach, it is asserted, more totally reflects a system size and corresponds in generally with measurement standards followed by the industry.

#### RESOLUTION

31. The question of what criterion should be used in applying the access and channel capacity rules involves three component parts: a) should the rules apply on a headend or conglomerate rather than community-by-community basis; b) should certain types of systems in the major television markets that are now subject to these rules be relieved of their obligations; and c) should some systems outside of the major markets that are not now subject to the rules become subject to them.

32. We turn first to the question of whether we should discontinue our prior practice of requiring that separate access channels be provided to each community served—whether it is not sufficient for one set of channels and facilities to serve more than one community if the system is so constructed that one integrated cable plant serves more than one community. The basic problem is that community boundaries do not correspond to the technical and economic realities of cable television system construction. Technical and economic factors frequently dictate that one technically integrated cable television plant serve

many communities. We have, in the process of considering numerous waiver requests involving the question of whether one set of channels could serve more than one community, come to recognize that the provision of access channels is more appropriately related to the realities of system construction than it is to community boundaries. We have, accordingly, determined to reflect this in the rules by applying the rules to integrated cable entities regardless of the number of community boundaries which they may cross. In our pending proceeding looking to fundamental changes in the definition of a cable system (See Notice of Proposed Rulemaking in Docket 20561, FCC 75-896, 54 FCC 2d 824 (1975)), we indicated our intent to amend our rules to more nearly reflect the technical and economic demands of cable television system operation. While the action taken here is consistent with our proposals in that proceeding, it should be made clear that it is not our intent here to prejudice in any way the broader issues involved in that proceeding.

33. The second major question involving the applicability of these rules concerns whether it is appropriate that they apply to all systems of whatever size that are located in the major television markets. We recognized in the Notice in this proceeding that there are systems in the major markets far too small to bear the burdens of providing access services. (See 53 FCC 2d 791-792.) In addition, the audiences viewing access programming on such systems may reasonably be expected to be so small that a federally imposed requirement would appear inappropriate. We accordingly have determined to exempt from our channel capacity and access channel obligations those systems that cannot in general reasonably be expected to have a need for, or be able to support, these services.

34. We have examined community size, penetration rates, and several measures of system profitability, as well as various combinations of these in attempting to determine what criterion should bring the rules into play. Based upon this examination we have determined to alter our channel capacity and access channel requirements to apply only to those systems which have 3500 or more subscribers.<sup>1</sup>

35. We have reached this conclusion for several reasons. While the development of a formula which in all cases accurately projects community need as well as system financial viability would be ideal, we have been unable to construct such a formula. The profitability of a cable television system depends on numerous, often interrelated, considera-

<sup>1</sup> The decision as to criteria for applying these rules is, of course, intimately related to the substantive nature of the requirements themselves. Although for the sake of convenience the applicability criteria are discussed here separately, the criteria were selected with due regard for the impact of the changed obligations which were briefly reviewed above and which are discussed in greater detail in subsequent sections of this document.

tions—the adequacy of off-the-air television reception, the nature and amount of non-broadcast services provided, subscribers per mile of distribution plant, business acumen of the system operator, to name but a few. Similarly, while the need of a community for access services does, we believe, increase with community size, there are other factors including the availability of alternate media within the community which also effect such need. Some generalizations are however possible. A cable system's administrative, service and general expense charges are comparatively fixed cost items. The per subscriber costs imposed by these expense items falls more heavily on smaller systems which as a result are often less profitable. As subscriber count increases some economies of scale advantages become increasingly apparent as the system approaches the 3500 subscriber level. At that level a system also usually employs several fulltime experienced staff members, has gross revenues of at least a quarter of a million dollars ( $3500 \times \$6.50/\text{per month} \times 12 \text{ months} = \$295,750$ ) and can, we believe, absorb the comparatively small additional expense involved in meeting our requirements. In addition, for a system to obtain 3500 or more subscribers it must, in general, serve a community of 25,000 or more population.<sup>2</sup> A community of this size or larger may reasonably be presumed to have a need for expanded channel capacity and access services. This is particularly true if the community does not have sufficient alternate sources of local electronic media to which its citizens can gain direct access. By setting our level at 3500 subscribers we have acted to exempt smaller often less profitable systems from complying with our requirements and insured that larger communities will have the benefits associated with expanded channel capability and the provision of access services. At the same time, we have established a reasonable margin of insurance that the costs imposed on larger systems can be equitably distributed over a sufficient number of subscribers so as not to impose an undue burden on either the system operator or the public.

36. Several parties in opposing an option tied to subscriber count have argued that such an approach may lead to uncertainty, for the channel capacity of a system must be determined prior to its construction whereas the number of subscribers which a system will obtain cannot be determined until it has been in operation for a reasonable period of time. We do not believe that this is an insurmountable problem. Prior to bidding on a

<sup>2</sup> Generalizations respecting the relationship between community size and system size are, of course, imprecise. For the most part, however, if a system operates in a community of 25,000 and passes all homes within that community it may reasonably be expected to approach the 3500 subscriber level mark. The equation is as follows:  $25,000 \div 2.9$  (U.S. Census Bureau est. of persons per home for 1975)  $\times 40$  percent (a reasonable saturation level)  $= 3,448$  subscribers.

franchise or constructing a system most cable operators conduct marketing surveys either for their own revenue projections or in order to obtain outside financing. These surveys typically include projections of population growth of the franchise area, the number of homes passed each year, the availability of off-the-air television coverage as affecting penetration rates, etc. A key element in these surveys is the number of subscribers which the system can expect to attain in various years of operation. Should these projections indicate that a system might ultimately in fact reach the 3500 subscriber mark, common sense will dictate that in constructing the system our requirements must be observed. Should there be isolated situations where an operator in good faith for whatever reason misjudges the size of his system we shall of course entertain waivers of our requirements.

37. In choosing 3500 subscribers as the level upon which to base our requirements we have rejected the arguments of those who believe that a multitiered approach to the provision of access services is appropriate. While we continue to urge the provision of access services by all systems we do not think that, based on the record before us, additional federally imposed requirements are at this time appropriate. The limited public interest benefits which might be derived from a multitiered approach are, we believe, more than balanced by a need to simplify our requirements and to avoid imposing additional economic burdens on system operators, cable subscribers, and the public.

38. Having determined that it is appropriate to exempt from the obligations of these rules those systems within the major television markets that have fewer than 3500 subscribers, we next turn to the question of whether these requirements ought not also be applied to those 3500 or more subscriber systems that are not located in the major television markets. We believe they should and are no longer persuaded that the applicability of these rules should depend on the market location of the system involved. While there are certain differences between the number of signals that are available in the major television markets and in other areas and while there may be some differences between the types of communities, we do not believe these are sufficient to rationally distinguish where the rules should apply. In fact, some of the differences, as for example, the paucity of television programming that may be available in certain areas outside of the major markets, suggest that there may be a greater need for access services in these areas. It is important to remember that there are systems of very considerable size in these markets. As we noted in footnote 16 of the Notice in this proceeding:

Of the top 25 operating cable television systems in the United States listed in *Cable Sourcebook 1974* and ranked according to number of subscribers, 13 systems serving 277,000 subscribers are either located outside of all television markets (6) or within a smaller television market (7).

In sum, we believe it appropriate to trigger the applicability of these rules by system size rather than by system location.

39. By changing the criterion for applying the rule, we have shifted the group subject to the rules so that only 3500 subscriber systems must comply. Based on the data presently available to us it appears that, because the rules will now apply to all larger systems without regard to location, more than 50 percent of all cable subscribers will now be on systems providing the full range of the required access services. Between 700 and 800 systems or combinations of systems will be subject to our new rules. While our requirements will impose new burdens on some systems it is important to remember that all systems with more than 3500 subscribers are already subject to the obligations imposed by section 76.253 of the Rules. That rule provides that as of January 1, 1976, cable television systems with 3500 or more subscribers must make available to the public, equipment for local production and presentation of cablecast programs and permit local non-operator production and presentation of such programs. Many of the reasons which led us to arrive at the 3500 subscriber figure in that context are applicable to our decision herein. Moreover, by adopting the same trigger for our access channel requirements and our facilities requirement we have acted to simplify our rules. By complying with our access rules in the past, a system in effect also complied with our facilities requirements, for the equipment which is required to comply with § 76.253 is included in the equipment we mandate for the public access channel.<sup>3</sup>

<sup>3</sup> By requiring that system operators provide equipment for the local production and presentation of cablecast programs and permitting local non-operator production and presentation of such programs, § 76.253 has been in essence an access requirement. This section was previously set out from the rest of the Commission's access rules due to its history. Unlike the other access requirements, § 76.253 has its origin in the Commission's former mandatory origination rule which required, in addition to facilities for public production of programming, that an operator with 3500 or more subscribers engage in programming himself. (See former §§ 74.1111 and 76.201 of the Rules.) Although upheld in *United States v. Midwest Video, supra*, the mandatory origination requirement was subsequently eliminated from the rules based upon the Commission's belief that the availability of cablecasting equipment to the public is a more appropriate means to foster local programming than imposing mandatory programming requirements on system operators whose primary responsibility is to build and maintain their systems and who may not be motivated to produce quality programming of local interest.

<sup>4</sup> In specifying the type of equipment which a cable system with 3500 or more subscribers must have we stated in paragraph 39 of the *Report and Order in Docket No. 15988*, FCC 74-1279, 49 FCC 2d 1080 (1974):

... in order to comply with the rule, the operator must have at least the capacity to afford live programming with one or more black and white cameras, the capacity to

We have determined, therefore, to delete both §§ 76.251 and 76.253 from our rules and merge the requirements contained in those sections in the rules we are adopting today. (See appendix)

#### THE ONE-FOR-ONE RULE

##### INTRODUCTION

40. We turn next to a consideration of those specific provisions of the rules on which we have sought and received comments. Although in our Notice we indicated that we were not considering changing the 20-channel capacity rule, some comments have suggested we do so. The difference in cost between constructing a system with the capacity for 12 channels and building a system with the capacity for 20 channels is small. We also observed that many systems, although not required to do so by our rules, are installing equipment capable of providing 20 or more channels. (See footnote 11, 53 FCC 2d at 790.) Nothing in the comments has caused us to alter our initial opinion. We continue to believe that retaining this rule will aid in insuring the availability of capacity on cable television systems for future broadband communications uses.

41. We did, however, indicate our intent to review the need for § 76.251(a)(2) of the rules. This section requires that a system subject to our channel capacity rules must maintain bandwidth capable of transmitting one non-broadcast channel for each broadcast channel used. As we observed in our June 3 Notice, this requirement has no effect upon any system which furnished its subscribers with ten or fewer broadcast signals because compliance with our 20 channel capacity rule will also satisfy the one-for-one requirement. However, for those systems which provide their subscribers with over ten broadcast signals, compliance with the one-for-one rule may pose a very significant burden by requiring the installation of a second cable or the construction of systems with extremely large amounts of non-broadcast bandwidth for which there is no reasonably foreseeable future need. For these reasons we raised for consideration in this proceeding the possibility of deleting the Section 76.251(a)(2) "one-for-one" requirement.

##### COMMENTS

42. Comments provided with respect to this portion of our Notice have confirmed our initial judgment. The vast majority of parties who directly referenced this requirement in their comments urged its deletion. For example, the State of Minnesota Cable Communications Board states that compliance

video tape record remote programs, edit, and play them back, and the capacity to modulate the resulting video and audio production on a cable channel.

In footnote 12 of that document we stated: As an example, a one-half inch portable video tape recorder with a camera and appropriate adaptors to connect to an editing/playback video tape deck and to a modulator would constitute a very basic requirement.

V 4 1 1 9 9

M A Y 2 0

7 6 U M I

with this requirement may unfairly require operators to rebuild their systems even if there is no use for the multiple non-broadcast services which could be provided. When applied to the three systems it owns in the San Francisco Bay area, Western Communications Inc. states that compliance with this requirement would necessitate the construction of a system with between 44 and 54 channel capacity, at an additional cost of between \$2.1 and \$4.6 million. Such cost, Western argues, may exceed its present \$4.3 million investment in these three systems, and cannot be justified in terms of any evidence of future need. Various parties urged that we replace this requirement with a two-for one rule; that is, for every two broadcast signals carried the system must maintain one channel for non-broadcast use. Such a requirement is argued would more reasonably insure the future availability of capacity.

## RESOLUTION

43. In indicating the need for a reconsideration of this rule we stated:

"We believe that by framing our channel capacity requirements to mirror the number of television channels which a system provides its subscribers we have created an artificial formula unrelated to the realistic needs of each community which may result in the imposition of unjustifiable costs to system operators and ultimately to the public (footnote omitted). 53 FCC 2d 782, 795.

The comments filed and our further consideration of this matter confirm our belief that this particular rule does not provide the most advantageous means of assuring adequate cable system channel capacity. Nor do we believe the problems inherent in relating channel capacity to broadcast signals carried can be remedied by changing the form of the rule so that only one non-broadcast channel must be provided for every two broadcast television channels carried. To the burdensome nature of this rule and the lack of any necessary relation between signals carried and the need for non-broadcast channel space we would add a practical problem with the rule which renders it counter-productive in some respects and impractical of application in others. This problem relates once again, to the realities of system construction. Channel capacity is to some extent set once the system's distribution plant is installed. If the addition of a signal were to trigger a massive reconstruction requirement in order to comply with the one-for-one requirement this would, in the case of a signal whose carriage was voluntary, tend to discourage that signal's addition and, in the case of newly authorized stations whose carriage was mandatory, create great uncertainty at the time of initial instruction as to what capacity would be eventually required. In view of these considerations and consistent with the belief that restrictions should be maintained only when there is reasonable evidence of their need, we have determined to eliminate this requirement.

## TWO-WAY REQUIREMENT

## INTRODUCTION

44. Our two-way requirement contained in Section 76.251(a)(3) poses a more difficult problem. At present, systems affected by our channel capacity and access channel trigger must construct their distribution networks so as to provide the capacity for non-voice return communications. In setting for comment the appropriate approach which we should take with respect to this rule, we indicated our tentative belief that compliance with this requirement has not been unreasonably burdensome at least for new systems. We also specifically requested data relating to the incremental costs imposed by this requirement and opinions as to whether compliance with this requirement does in fact tend to facilitate the provision of two-way services.

## COMMENTS

45. Most system operators and cable television interests as well as a few other parties favored the deletion of the two-way requirement. Urging its elimination, California Community Cablevision asserts that while the rule presently provides a burden to system operators, economically viable two-way operation are at least five years away. The Community Antenna Television Association asserts that compliance with this Commission requirement can increase construction costs from 10 percent to 140 percent. The Berkeley Community access center also urges the deletion of this requirement but its replacement by a local standard. Coldwater Cable Television in urging its elimination notes, however, that several experiments are presently underway in the State of Michigan including "an ambitious two-way study at Adrian . . . involving several schools, a resource center, two-way cable TV and expert instructors."

46. The Broadband Communications Section, Communications Division of The Electronic Industries Association urges the retention of our two-way requirements, arguing that without such built-in capacity systems will tend to stifle or delay the provision of bi-directional communications. This view is echoed in com-

\* It should be recalled that the rule in its present form does not require that the cable system be operational in the return mode. Rather, as we stated in our Notice in this proceeding, it was an attempt:

... to insure that new systems would be constructed so as to be capable of furnishing two-way services "without having to engage in timeconsuming and costly system rebuild," when and if a demand arises for such services. As a practical matter, this requirement necessitates the installation of certain passive equipment in the system's distribution network and the use of downstream amplifiers which possess minimum second order distortion characteristics. These amplifiers must also be contained in a "dual housing" unit capable of receiving a second amplifier for upstream use. The actual installation of this second amplifier, however, is not required to comply with our rules. 53 FCC 2d 782, 795-794.

ments filed by Hendrix Corp. which also favors the adoption of limited operational two-way capability for digital data transmission on an experimental basis noting:

We have no crystal ball capable of identifying which of the many proposed services or combinations thereof will succeed. We know, however, as practitioners of high-technology in a computer oriented industry, that the existence of and access to broadband bi-directional digital communications will be necessary when computer and cable technologies merge.

47. A majority of educational authorities also urged the retention of the Commission's two-way requirement. In support of retention of this requirement, the Joint Council on Educational Telecommunications asserts that the present requirement as interpreted leaves up to the system operator the choice of whether to inaugurate two-way services while its elimination would reduce the Commission's future options should two-way operations prove economically feasible. The National Association of Educational Broadcasters urges retention of the requirement, arguing that without such a requirement, systems would in the near future have to undergo lengthy and costly rebuild as "two-way instructive uses continue to develop and assume increased significance in the educational process." Also urging the retention of the Commission's rule, the City of Imperial Beach, California asserts:

Within the past several years cities such as Imperial Beach have begun joining together to provide government services and to increase governmental efficiency pursuant to intermunicipal cooperative agreements. Cities are sharing data processing and computer time. Cities are reducing capital and operating costs by cooperating in the provision of fire and police services. As this trend continues to develop it is reasonable to expect that cities will utilize the two-way capacity of cable systems in a way that will both reduce the cost of government and be of economic benefit to the system.

Finally, in favoring a partial retention of the two-way rule, various staff members of the Cable Television Information Center have provided a study of the costs entailed in compliance with this rule. This study indicates that while the incremental cost of compliance with our two-way requirement is in the order of \$200-\$300 per strand mile for new systems or systems which have to reconstruct to meet our 20 channel capacity requirement, the cost, \$1500, to reconstruct to provide two-way capacity for a system otherwise in compliance with our requirements is substantially higher. In addition, CTC provided cost estimates to convert our capacity requirement to the theoretical capability to provide two-way service, absent terminal charges. These estimates are in the order of \$700-\$2000 per strand mile.

## RESOLUTION

48. In attempting to resolve the question of whether to retain, delete or in some fashion modify the two-way capac-

ity requirement we are faced with several distinct, interrelated and competing considerations. Initially, as with the channel capacity requirements generally, there seems to be no necessary relationship between a system's location, within or outside of the major television markets, and the need for a two-way requirement. And it is also apparent that without a sufficient subscriber base upon which to distribute fixed costs, smaller cable systems will not be in a position to support two-way cable operations of the type our existing requirement is intended to foster. Thus, some adjustment in the applicability of these rules would appear to be in order.

49. A second consideration involves the relatively untried nature of those two-way services which may be provided by cable. The theoretical problems of how to conduct two-way cable operations seem well on the way to solution, but practical problems, both technical and economic, remain. While a number of experiments with two-way cable operations are in progress, practical commercial two-way services are not yet in general operation, and developments in this area have been far slower than was anticipated at the time the requirement was first adopted. In view of this, we cannot say with complete assurance that these services will ever be fully developed, that facilities constructed in anticipation of their development will wholly correspond to the facilities needed after all technical questions are resolved, or that some of the projected services will not turn out to be more efficiently accomplished by using existing telephone circuits or other communications systems.

50. On the other hand, the public benefits of many of the predicted two-way cable services are substantial and worth some considerable effort to facilitate. Moreover, the obstacles faced by these services may be almost insurmountable if the necessary capacity is not generally installed on cable systems as they are constructed. There is a very real entrepreneurial "chicken-and-egg" problem which has to be overcome for two-way services to develop. If systems generally do not have the capacity to provide these services, then there is little incentive to develop the services. And if the services are not developed, then there is little incentive to install the capacity. Moreover, it seems likely that many of these services will not be economically efficient until economies of scale bring subscriber terminal, headend communications processing equipment, and software costs to some reasonable level. All of this is compounded significantly by a second problem. As the comments make clear, the failure to install two-way capacity at the time of initial construction or at a major reconstruction, undertaken for other reasons, creates very substantial barriers to the later introduction of the capacity. While the costs of adding this capacity initially are modest, it costs almost seven times as much to add the capacity at a later date.

51. A careful review of these considerations with particular emphasis on the modest costs involved in constructing with two-way capacity, the substantial obstacles failure to install this capacity throws in the way of the development of two-way services, and the very substantial public benefits that such services may offer, have persuaded us that there is a need to retain our limited requirement in this area. We believe a continued two-way capacity requirement for those larger (3500 subscriber) systems commencing construction in the major markets and the expansion of this requirement to larger systems outside of the major markets will materially advance the day when two-way services are generally implemented. For those smaller systems in the major markets and for those which, under prior rules, would have been required to reconstruct to provide this capacity, we believe the requirement is unduly burdensome and we have accordingly deleted its application to these systems. Those systems with 3500 or more subscribers that formerly would have had, by March 1977, to reconstruct to provide this capacity will now only be required to provide the capacity when they are otherwise undergoing reconstruction to comply with our channel capacity rules.<sup>10</sup>

52. In taking this action we are mindful of the recent decision of the United States Court of Appeals for the District of Columbia in *NARUC v. FCC*, Case No. 75-1075, decided February 10, 1976. At issue in that proceeding was the Commission's authority to preempt state regulation of cable system leased access channels for intra-state, two-way, point-to-point non-video communications. The Court held that the Commission, in attempting to preempt state regulation of this area, had exceeded its authority. Consistent with this decision we are amending the rules to make it clear that we no longer regard the regulation of these services at the state or local level to be preempted by our regulations. The point decided was, however, a narrow one which, we believe, ought not foreclose our continued authority to require that cable systems construct with the capacity to provide two-way services. Some of the important services which two-way capacity makes possible, such as operational monitoring of the system's functioning, are so clearly related to the distribution of broadcast programming as to bring our capacity requirement within the holding of that case.

<sup>10</sup> That is, a system in full compliance with the 20 channel capacity rule is under no obligation to reconstruct to provide two-way capacity. However, a system required to reconstruct to provide 20-channel capacity will also be required to add two-way capacity as part of that reconstruction. As existing 20-channel systems naturally rebuild it is also contemplated, although not required, that they may take this opportunity to add two-way capacity.

## DEDICATED ACCESS CHANNEL REQUIREMENTS AND COMPOSITE ACCESS

## INTRODUCTION

53. Pursuant to § 76.251 of the Commission's rules old major market systems have been required not only to reconstruct and provide capacity for 20 channels and two-way by 1977; they were also required once reconstruction was completed to dedicate four separate access channels: one free public channel, one educational and one governmental channel each free of charge to the users for five years after completion of the system's basic trunk line, and one leased channel of a type which could be received by subscribers generally. New major market systems have been required to meet these requirements from the date that operations were commenced.

54. The dedication of these four access channels requires, in the majority of cases, that a system with 20 channel capacity install a converter<sup>11</sup> in each subscriber's home. By installing a converter in each subscriber's home, a system with 20 channel capacity can in fact deliver 20 or more channels of programming to that home. Without installing a converter such systems can at best deliver only 12 channels of programming. Accordingly, the installation of a converter was required to meet the four dedicated access channel requirement if a system as a practical matter provided its subscribers with 9 or more broadcast signals (i.e., 9+4>12).<sup>12</sup> See *Clarification of the Rules and Notice of Proposed Rule Making*, FCC 74-384, 46 FCC 2d 175, para. 20 (1974).

55. In our June 3, 1975 Notice we indicated our intent to proceed on an *ad hoc* basis to waive our requirement to install converters based upon a showing that compliance with this requirement was unreasonably burdensome.<sup>13</sup> In addition we proposed to maintain our commit-

<sup>11</sup> A converter is a device that changes non-standard frequency channels (e.g., ones above 216 Mhz) to standard VHF channels enabling such channels to be tuned directly to the television set. The installation of a converter can also be used to diminish interference from strong over-the-air signals.

<sup>12</sup> Generalizations about usable channel space are in actuality imprecise in view of the reduction in usable channel space caused by a number of factors including co-channel interference from strong over-the-air signals. Because the number of usable channels is reduced by these factors many systems providing 8 or fewer channels would also have to install a converter in order to have sufficient activated capability to provide 4 channels for access use.

<sup>13</sup> In delineating the type of sharing we would require we stated:

We would envision entertaining requests to waive our converter requirement only in the case of smaller systems whose projected revenues and subscriber potential are such that the imposition of this requirement would appear to be demonstrably burdensome. These systems should also be prepared to demonstrate that there is no present nor reasonably foreseeable future demand for the channels to be added and that should such a demand arise, converters would be installed within a reasonable period of time.

ment to access services by requiring all systems ultimately affected by our access channel criteria to make available existing portions of their bandwidth for composite access purposes regardless of the approach which we ultimately took to rebuilding or installing converters.

#### COMMENTS

56. Many parties specifically addressing the question of what action should be required to make these dedicated channels available, urged that the costs of adding converters or rebuilding system plant were so substantial as to far outweigh whatever public benefits there might be in maintaining the multiple dedicated channel concept. This was particularly urged to be the case in situations where it was alleged that existing activated capability already offered for access uses remained unused over long periods of time. Many system operators pointed to the expense involved in installing converters in each subscriber's home.<sup>14</sup> For example, Central California Communications Corporation and Cable-Com General state that the installation of converters doubles the cost of system rebuild. Storer Broadcasting Company indicates that a rate increase of \$1.75 to \$2.00 per month would be necessary merely to cover the costs of installing converters on its systems. Viacom International Inc. notes the following:

The average converter presently costs approximately \$40. Installation and fittings bring this figure to approximately \$50. If this converter is depreciated over a four year period, it will cost approximately one dollar per month to furnish each subscriber with a converter. Since this is eventually passed on to the subscriber, the subscriber who now pays for example \$5.50 per month for basic cable service will pay an additional 18 percent of his present charge for access channels he may not want. These costs do not consider converter maintenance, loss of devices, and financing costs for the units. . . . This increase in the subscriber rate will lead to the loss of subscribers and inevitably an even higher rate.

57. Many parties including various cities and public interest groups urged the provision of composite access services rather than the installation of a converter if such is necessary to provide the four separate access channels required by the rules. Gill Cable notes that while it is presently programming over 100 hours a week on its system's public access channel in San Jose and Campbell, California that viewership identification will be enhanced if systems are permitted to provide all-access programming on one channel rather than the designation of multiple separate access channels. The City of Eugene, Oregon, in a similar vein notes that public agencies are reluctant to invest the significant amounts of money necessary to utilize

<sup>14</sup>In our June 3d Notice we estimated that the cost of installing a converter in each subscriber's home is between \$25-40 per subscriber, exclusive of labor.

separate designated access channels at this stage of cable's development. "Programming a composite channel would require less investment for each participating agency and would give viewers more reason to turn to that channel since it would be more consistently utilized. . . . It is more realistic to initially require a composite access channel. . . . to encourage the desired use of cable and allow for expansion with need. At the same time, it is important that stimulus for expansion be provided." Other parties argued that the Commission should never require the installation of a converter solely to provide access services; or that cable operators should be permitted to assess a direct charge on those subscribers who wish a converter to view access programming. Lastly, several parties point to the results of various studies on access channel use and viewership conducted either by themselves or independent organizations<sup>15</sup> which they allege demonstrate that there is very little present demand for the provision of four access channels and our rules should be modified accordingly.

#### RESOLUTION

58. This is a difficult area. It is clear that cable systems generally could, from a technical point of view, be reconstructed or otherwise modified to provide the four dedicated access channels now required of major market systems. The question, however, is whether the public benefits of having these multiple dedicated channels outweigh the costs that may be incurred in order to provide them. If it is concluded that the requirements in their present form are unduly burdensome we need then consider what lesser obligations might nevertheless be appropriate.

59. There seems no dispute that the costs to provide these channels are frequently very substantial. To comply, some systems would have not only to replace all of their trunk and distribution cable and amplifiers, but also install converters. Just looking at the converter cost alone, a 3500 subscriber system would have to invest, at \$40 per converter, at least \$140,000 or more to meet this requirement.<sup>16</sup> The installation of a converter is one of the single most costly items involved in cable system reconstruction. It is also clear that there is an equivalent burden placed on new systems which may, pursuant to our rules, have to acquire the additional

<sup>15</sup>See, e.g., Bretz, R., *Public Access Cable TV: Audiences*, Journal of Communications, Summer 1975 at 15. Doty, P., *Public Access Cable TV: Who Cares*, Journal of Communications, Summer 1975 at 33. Johnson, R. C. and Agostino, D., *The Columbus Video Access Center: A Research Evaluation of Audience and Public Attitudes*, Institute for Communication Research, Indiana University, 1974.

<sup>16</sup>This is an overly simplified calculation because, among other things, systems using converters frequently need not only one converter for each subscriber but a substantial inventory of spare converters to replace those broken, lost, or stolen.

capital to provide converters prior to the commencement of operations and the generation of any revenues. Compliance with this requirement may very well therefore have had the undesirable effect of retarding new system growth and expansion of access services generally.

60. While the requirement poses an equivalent burden for both new and old systems it also equally effects large and small. The per subscriber cost of compliance with this requirement, unlike other portions of our access and facilities requirements, does not significantly diminish with system size. Whether a system operator has 500 subscribers or 5,000 he still must pay, exclusive of labor charges, at least \$25-\$40 per subscriber if he wishes to install converters.

61. Upon further examination, of this area we think that the burden we have required system operators to meet is unreasonable and that our requirement to rebuild or to install converters if such is necessary to provide four dedicated access channels should be eliminated. By retaining and expanding our 20 channel capacity and two-way requirements for larger systems we insure that larger new systems and those being rebuilt will provide capacity which will facilitate the provision of access and broadband services in the future. By mandating the installation of converters we have required present excess capability at a substantial cost not only to the subscriber who must ultimately pay for the installation of that device whether or not he wishes to view the programming being provided but also to the citizen in the community where the benefits of new cable service will not be realized because the funds available in the marketplace have been diverted as a result of our requirements.

62. Based upon the comments filed in this proceeding as well as those filed in Docket 20363 and our experience generally, while it would appear that the use of access channel is growing, in the vast majority of communities presently providing multiple channels for access use, these channels are at best sporadically programmed. Rather than requiring the separate dedication of access channels for different uses which necessitates the installation of converters, we believe that our goals for access cable casting will be furthered by allowing the provision of access services on one or more channels which may be shared among different access users. The provision of access services on a shared or composite basis will, we believe, foster the success of access efforts by enhancing viewer identification with a channel which is more fully programmed, rather than dispersing individual access efforts among several channels which are not. Several of the parties filing comments in this proceeding have recommended such an approach, and it is in fact consistent with our prior observations. See paragraphs 14 and 15 of the Clarification, supra.

63. Many systems without installing converters have one or more channels available to provide access services. A review of data submitted to the Com-

mission indicates that cable systems throughout the country provide their subscribers with an average of approximately 9 broadcast signals, thus leaving up to three channels for potential access use. Many systems which do not possess a full channel can provide access programming on the "black out time" which occurs as a result of compliance with our exclusivity and nonduplication requirements. We think that the provision of access services under these circumstances for systems with limited activated channel capability will be sufficient to meet most present access channel needs.

64. We have, accordingly, modified our rules in several major respects. First, while we shall maintain our commitment to the provision of four specially designated access channels we have modified this requirement to make clear that (a) it will only apply to those systems with 3500 or more subscribers which have sufficient channel capability, without installing converters, to provide such multiple channels, and (b) each specially designated channel need only be provided when there is a demand for such channels full time use. Second, in view of our belief that the majority of cases, all access needs can be met by the provision of one access channel for composite access programming, we have determined to modify our rules to require that cable television systems with 3500 or more subscribers provide at least one designated access channel for shared use among public, educational, local government and leased users, if such a systems' activated channel capability is sufficient to provide such channel.<sup>17</sup> For those systems which do not have sufficient activated capability to provide even one full channel, the designation of "black out time" will be required, though it is a less desirable alternative.<sup>18</sup> Consistent with

<sup>17</sup>Pursuant to § 76.253 old major market systems with 3500 subscribers which did not have to comply with the provisions of § 76.251 until March 31, 1977 as well as all those systems with 3500 or more subscribers located outside of the major markets were required to make at least a reasonable effort to provide channel time for the local non-operator presentation of cablecast programs. We intend to initially maintain that policy and not require such systems to dedicate a separate channel for access use until March 31, 1977. As of that date, however, such systems will be required to dedicate one access channel for composite access programming provided their activated capability permits them to do so. Such systems will also not be required until such date to provide five minutes free production time for public access use or studio facilities. By retaining this one year leeway we seek to avoid any inequity caused by our decision to merge the requirements formerly contained in §§ 76.253 and 76.251. As of March 31, 1977 all systems with 3500 or more subscribers will be required to comply with our access rules uniformly.

<sup>18</sup>The selection of "black out time" to fulfill the system operators access responsibilities is less than an optimal approach. Black out time occurs on different channels at different times depending upon various factors including the scheduling practices of the local television station licensee. Neither predictability of time nor channel is fostered under these circumstances. In general, how-

this approach, we do not envision certifying new systems or the addition of new signals whose carriage is not mandatory to existing systems, if the activated channel capability available for the provision of access services is insufficient to provide at least one full channel for access programming. We have also amended our channel expansion formula to make clear that it does not require the dedication of channels beyond the systems activated capability. (See § 76.254.) In no case will the use of this formula therefore require the installation of a converter in each subscriber's home. In addition, we have modified our rules to make clear that all times when any of the access channels are not in use, such channels may be used for other broadcast and non-broadcast purposes, provided such use is consistent with other provisions of our rules. (See § 76.254(b).)

65. In determining a system's activated channel capability available for the provision of access services we shall look first to the number of usable channels actually provided to each subscriber's home. A channel which cannot be programmed due to co-channel interference, for example, is of course not a usable channel. A channel which could be provided to each subscriber's home merely by installing a modulator, at a cost of \$800-\$1200, and making some comparatively inexpensive modifications to the systems headend is deemed a channel provided to each subscriber's home for purposes of the application of this requirement. In determining the number of channels available for access programming we have specifically excluded those channels already programmed by the system operator for which a separate charge is made. Those channels are most frequently used to provide pay entertainment programming to only those subscribers who desire such programming and are willing to pay an extra charge for it. We do not include these channels as available for the provision of access services in view of the costs which have been incurred by the system in purchasing and installing "traps" and otherwise providing this service as well as the benefits to subscribers in terms of increased diversity of viewing choices derived therefrom. From the total number of usable channels provided to each subscriber, those channels used to provide traditional cable television service, i.e. channels providing television broadcast signals, are subtracted. We are left with activated channel capability available for the provision of access services. These channels include channels provided the subscriber

ever, much of the black out time which occurs as a result of our network nonduplication requirements occurs during the hours of 1-4 in the afternoon and during "prime time" in the evening. An operator might wish to give priority to educational access use during this afternoon period while reserving the evening for other access programming. The establishment of such reasonable classes and the allocation of separate times to them in a system operator's access channel rules would be entirely consistent with the objectives of the revised rules.

but not programmed as well as those providing other non-broadcast programming, i.e. automated programming, origination channels, etc. for which a separate assessment is not made.<sup>19</sup>

66. By requiring the expansion of access channels only up to the limitations of the systems activated capability, we desire to foster the provision of access services without imposing converter costs on all subscribers, some of whom may be uninterested in viewing the access programming provided. Consistent with this approach our rules may not be construed as permitting a system operator to exclude a potential access user who intends to use a channel, install converters himself, and pass such costs along to those who wish to view the additional programming provided thereby.<sup>20</sup> Where leased channels are involved, charges may be assessed for channel time, provided they are not designed to prohibit entry. See Clarification, supra, at paragraph 34.

67. We expect the operator in general to administer all access channels on a first come, first served non-discriminatory basis. We recognize that some of the potential educational, governmental, as well as leased channel uses may not by their very nature permit the shared use of the channel provided, e.g. classroom educational access programming, the interconnection of governmental agencies, etc. To the extent that this is the case we shall except the operator to make additional channels available for the provision of other access uses up to the limit of his activated capability. In administering the access channels provided we shall rely on the good faith of the operator to meet his access obligations.

68. There are, however, certain actions which we shall consider as evidence of bad faith on the part of system operators in meeting his access obligations. We do not consider as acting in good faith an operator with a system of limited activated channel capability who attempts to displace existing access uses with his own origination efforts. While we shall continue to encourage operators to

<sup>19</sup>It is our intention that every reasonable effort be made to accommodate the various competing channel uses. It is not our intention that established cablecast services provided by system operators be automatically displaced. While we generally believe that automated services such as time and weather channels should give way to access uses, if other irreconcilable conflicts between channel uses develop, we are prepared to consider each such situation individually on its merits. We recognize that many of the services provided on these channels, such as community information, consumer price lists, etc., clearly provide a substantial benefit to subscribers.

<sup>20</sup>We note for example that even systems possessing "12 channel capacity" amplifiers can often obtain an additional channel or channels by installing a converter and programming on the "mid-band." Should a potential educational, governmental or leased channel user desire to program this channel and pass the costs of converters on to those who desire to view whatever service is provided, we shall require the system operator to permit him to do so.

originate, we do not believe that the public interest will be served if such efforts are at the expense of others who wish to provide access programming. We shall scrutinize the actions of operators who, while providing their own programming, assert that their activated capability is insufficient to permit the leasing of a channel to potential competitors. Should the need arise we shall take whatever action is appropriate to prevent system operators from using their control over their system to exclude the presentation or alternate sources of programming. (See § 76.254(c)).

69. A closely related matter concerns the presentation of pay entertainment programming. We have sought to encourage the presentation of such programming for it provides diversity of viewing choices to the public. We do not, however, believe that the public interest will be served if this programming is provided at the expense of local access efforts which are displaced. Should a system operator for example have only one complete channel available to provide access services we shall consider it as clear evidence of bad faith in complying with his access obligations if such operator decides to use that channel to provide pay programming. Should it appear that the growth of pay services is in fact substantially infringing on the public's ability to obtain access on cable television systems we shall promptly revisit this area and take whatever action is appropriate to prevent such an occurrence.

70. As a result of our decision to merge our access rules and facilities requirements and to allow the provision of composite access services in many cases rather than separately dedicating different access channels, our rules have been modified in several additional ways. Consistent with our previous actions respecting our facilities requirement, we shall expect system operators to identify the type of service being presented on the composite channel (i.e. origination, cablecasting, access cablecasting, or inclusion of television station identification) and the person or group presenting the program. Whether other provisions of the rules, e.g. equal time, fairness, sponsorship identification, and advertising are applicable, will continue to depend upon which type of cablecasting is being provided. (See e.g. §§ 76.205, 209, 213 and 215.) In the case of access programming we shall continue to require compliance with the applicable regulations concerning program content control, assessment of costs and operating rules. See § 76.246 (b), (c) and (d).

71. A related matter concerns the provision of a studio. At least a minimal studio has been required in order to comply with our access requirements whereas our facilities equipment "although requiring the capacity to provide live programming," has been silent on this matter. In delineating the type of studio required to meet our present rules, we have been liberal. A system may choose to designate one room on a full time basis as its studio. Alternately,

should sufficient space not be available, it may choose to designate part of a room on perhaps a part time basis as its studio. In merging our two requirements we shall continue this approach. So long as there exists some inhouse capacity for members of the public to record programming, we shall consider our studio requirement satisfied for all systems with more than 3500 subscribers.

72. We have also determined to modify our prior requirement for the five year free availability of the government and educational access channels. Instead of running from the date of completion of the system's basic trunk line, the five years shall be triggered from the date the system first offers channel time to such entities for cablecasting. Our intent in adopting our original requirement was to allow a five year experimental period for the free provision of the government and educational access channels. As a practical matter, however, such provision was not in fact required by our rules for many older systems until March 31, 1977. In many cases, this date was more than 5 years after such systems' trunk lines were completed. Our intent remains the same under the new rules and we have modified them in an effort to insure that some reasonable period of experimentation will in fact occur in all cases.

73. Several additional editorial changes have also been made that are designed to implement prior policy statements or clear up misunderstandings under the prior rules. Our leased channel rule has been modified to specify, for those systems which possess sufficient activated capability to provide four access channels, the provision of a full channel for leased use. This is in accord with our prior policy. (See Clarification, supra, at para. 20.) We have also modified our channel activation requirement now contained in § 76.254(c) to specify that the time trigger employed (channel use for 80 percent of the time during any consecutive three hour period for six consecutive weeks) applies to each channel individually. (See Clarification, supra, at para. 21.) Lastly, we have added equipment and personnel costs to the section specifying what charges can and cannot be made for the provision of access services (see § 76.256(c)(3)). Our prior rule merely specified "production cost" and it was our intent to include equipment and personnel costs within such cost. By specifying equipment and personnel costs in the rules we adopt today we have attempted to clarify our prior policy.

74. Once older systems are rebuilt to provide expanded channel capacity and converters are installed as a result of the individual business judgment of system operators many of the problems presently encountered in this area will disappear. Until that time the administration of the composite access channel approach will undoubtedly present many difficulties. We shall, after some experience with these new rules has been gathered, issue a primer on various matters respecting our access channel obligations

by which we hope to further clarify our position on these matters. We shall also administer our approach in a flexible manner and shall not hesitate to revisit this entire area should our experience dictate that our public interest goals are not being met.

#### ALTERNATIVES TO THE MARCH 31, 1977, REBUILD DATE FOR OLD SYSTEMS

##### INTRODUCTION

75. Having determined which systems must comply with our access and channel capacity requirements and eliminated or modified some of these requirements, we focus now on how and when to require compliance on the part of old systems which would have to reconstruct to meet our channel capacity rules.

76. In lieu of the imposition of the March 31, 1977 reconstruction deadline for old systems, we sought comment upon the possible elimination of the channel capacity and access channel requirements for old systems and their replacement by a rule requiring such service only upon demand within the individual community. Alternatively, comment was sought upon either postponing rebuild beyond March 31, 1977 to a distant date certain or postponing compliance until each cable system individually undergoes "natural rebuild." We shall summarize the comments directed to each of these options in turn.

##### COMMENTS

77. *Elimination.* Many cable television interests urged the elimination of the present mandatory rebuild requirements and the provision of access services, if at all, only upon documented demand for such services within the individual community. The National Cable Television Association argues that when the costs of compliance are measured against the supposed public interest benefits to be derived, the rules cannot be justified. It argues that public demand for such services as well as the revenue to be derived therefrom are negligible, and rate increases to finance technologically unnecessary rebuild are impossible to obtain. The Community Antenna Television Association and Midwest Video favor the elimination of the Commission's rebuild requirements, arguing that their imposition is beyond the Commission's jurisdiction and constitutes government taking without due process in violation of the Fifth Amendment to the Constitution. Other parties argue that these requirements create substantial barriers to entry thereby slowing the expansion of cable service to the public in general.

78. Not all parties favoring the elimination of the present requirements were system operators. Various parties urged the Commission to permit states or local authorities to set rebuild obligations which it is argued could more easily be tailored to the individual needs of communities. For example, in supporting the Commission's decision to cancel the March 31, 1977 deadline, the Cable Television Committee of the City of Berkeley favored complete elimination of federal

requirements and their replacement by local standards. The proposal that the Commission adopt a more restricted role and that federal rules be replaced by local requirements is mirrored in comments filed by Publicable, various members of the Cable Television Information Center of the Urban Institute and the Virginia Public Telecommunications Council, the lattermost urging an increased state role.

79. Other parties favored the retention or expansion of the Commission's requirements. Metromedia opposed all changes in the Commission's rebuild standards. Florida CATV urged a total federal preemption of access and rebuild matters. The National Black Media Coalition urged the maintenance of federal standards stating that "access channels for educational use are too important to be left to the vagaries of local franchising."

80. Those in opposition to any elimination of the Commission's rebuild requirement advance many different arguments. The United Church of Christ asserts that such action "would betray the expectations of hundreds of local franchising authorities, thousands of actual or potential users of access channels and literally millions of subscribers who have embraced CATV during the past three years relying on the Commission's . . . regulatory program." Opposing a trigger based upon demands, the Leon County Public Library asserts that difficulties in defining what constitutes demand would render the use of this criterion "grossly ineffective and in neglect of the public interest." Favoring a retention of our channel capacity requirements Broadband Communications, Inc., argues that a system not having additional channels available "can reasonably be expected to stifle or delay possible promising new applications of cable." Citing its efforts to provide 25 cable systems with its production of "A Time for Art," the Cable Arts Foundation opposes the elimination of the Commission's channel capacity and rebuild requirements. In a similar vein various educational authorities in the County of San Diego note that during the 1974-1975 school year 1736 hours of instructional programming were furnished over the cable systems in the county and over ¼ million dollars has been spent by the school systems in developing the possibilities for educational access programming.

81. *Postponement.* Some parties urge that postponing the deadline for system reconstruction merely postpones the problem of compliance rather than resolving it. Other parties including the United Church of Christ, the New Jersey Coalition for Fair Broadcasting, the United States Catholic Conference, the National Association of Educational Broadcasters and the American Broadcasting Company urge that if postponement is necessary the Commission should postpone the deadline for no more than two to five years. In support of this view various educational authorities and public interest organizations point to the work and substantial expenditures which have been undertaken in their communi-

ties in preparing to use the access channels to be made available in 1977. Other parties particularly various members of the San Diego school system urge that any postponement of the Commission's requirements should be granted only on a case-by-case basis and then only to a date certain.

82. Opposing such an approach the Central California Communications Corporation argues that postponement to a date certain would merely repeat the Commission's prior mistake of selecting an arbitrary deadline and would involve the Commission in new projections which, it alleges, are bound to be as inaccurate as those made in the past. Also opposing any substantial postponement but for different reasons the Indiana Public Interest Research Group notes that some cable systems pledged to local authorities to rebuild by 1977 and in reliance on these promises were granted rate increases by local governments to cover the costs of this reconstruction.

83. *Natural Rebuild.* Another option posed by our June 3rd Notice was to require compliance with our channel capacity requirements at such time as each individual system is rebuilt as a result of its natural obsolescence or because of necessary channel expansion to accommodate new services. Parties responding to our inquiry were urged to provide a definition of natural rebuild as well as their suggestions as to how such a requirement might be enforced.

84. A majority of the parties responding to our Notice favored the adoption of an approach tied to natural rebuild but disagreed on the means by which this approach could be implemented and enforced. A view shared by the Cable Arts Foundation, various members of the San Diego school system, as well as other parties would permit individual cable operators to postpone compliance until natural rebuild only if a specific construction schedule is provided to the Commission. Many of these parties also urge the Commission to require system operators to obtain comments of the franchising authority upon the adequacy of the reconstruction plan, and to require firm commitments on the part of system operators as to the date which reconstruction will be completed.

85. A different view is expressed by a group of 21 system operators and the Florida CATV Association. These parties while favoring an approach tied to natural rebuild assert that no fixed date by which rebuild must be completed would be appropriate. In support of this view it is noted that while the average useful life of the component parts which make up a cable system is between 10 and 15 years, the life cannot be uniformly calculated. These parties assert that "cable companies anticipate that an industry wide rebuild will occur naturally during the next 10-15 years." Rather than setting a uniform date many of these parties urge that monitoring to insure compliance with the Commission's technical standards will insure that technologically obsolete systems will be rebuilt.

86. *Urging the adoption of an approach tied to natural rebuild.* Various members of the staff of the Cable Television Information Center of the Urban Institute suggest that compliance with our rules should be required within ten years of the date of any Commission decision to require rebuild for systems not previously on notice of our requirements. This ten year period it is argued "exceeds the customary equipment lifetime expectation used in the financial planning at the time of its installation." Comments filed by The American Civil Liberties Union also imply that the useful life of most equipment is between 8-10 years. A practical example of natural rebuild is also provided by Coldwater Cable Television which notes that it is in the process of upgrading its 12-channel capacity system to provide 30 to 35 channels and that at the present rate of expansion such rebuilding should be completed by 1980, e.g. 12 years after its initial amplifiers were installed.

87. Other parties assert that the adoption of an approach tied to the replacement of obsolescent parts is administratively unenforceable. An alternative suggested by several parties would be to link a system's rebuild requirement to the inauguration of pay entertainment programming on a cable system.

88. *Resolution.* Having reviewed the comments filed in response to this section of the Notice we have determined to adopt an approach which we believe combines the best aspects of natural rebuild and postponement to a date certain. Accordingly, we have determined to require systems with 3500 or more subscribers to reconstruct and comply with our requirements within ten years. We have chosen this period because we believe that it corresponds to the time within which the vast majority of systems will, even absent our requirements, have completed natural rebuild.

89. In arriving at this result we have rejected the arguments of those who favor the complete elimination of our rebuild requirements. Our reasons for rejecting this approach are essentially the same as those which caused us to reject the arguments of those who opposed any channel capacity or access channel obligations whatsoever. We are mandated to encourage the larger and more effective use of radio in the public interest. Cable television with its potential to provide many channels of programming is an ideal medium to provide additional telecommunications services to the public. We would be derelict in our responsibilities to the public were we to sit by and do nothing to insure that the expanded channel capability provided by cable television serves valid public interest objectives. Were we at this stage of cable's evolution to leave the provision of channel capacity and access services entirely to the marketplace, such action could have the practical effect of providing a barrier to the growth of access services as well as a disincentive to the furnishing of new services which we expect of

cable. We agree with the comments of those who assert that unless the cable operator has existing built-in capacity to provide access services he may reasonably be expected to frustrate their provision. By requiring larger system operators to reconstruct and comply with our channel capacity requirements we hope also to foster the provision of such services in those communities which are served by old systems.

90. In promoting the beneficial uses of cable we recognize, however, an obligation to temper our expectations for the future with a realization of the economic realities of the present. We must insure that in formulating policies designed to facilitate the future provision of services, we do not create unreasonable barriers to the present expansion of cable in general. In setting for comment an option which would require old systems to meet our requirements upon natural rebuild we hoped to minimize the present cost to the cable system operator and the public while insuring that when reconstruction naturally occurred it would be accomplished in such a manner as to provide expanded capacity which would facilitate the provision of future services.

91. In our June 3 Notice we specifically requested parties to provide a definition of how natural rebuild might be defined and such a requirement enforced. Unfortunately the comments responding to this portion of our inquiry contained a paucity of suggestions or proposals by which we might define and enforce this concept. In addition, upon independent analysis we have been unable to formulate such a definition which while providing the requisite degree of certainty to cable operators of their obligations would not be unduly complex and administratively impossible to enforce. Systems vary in age, type and useful life of equipment as well as profitability. No one approach can take into account all these variables.<sup>22</sup>

92. Some parties have suggested that we in effect permit cable operators to define when natural rebuild will occur and pledge either to use or to local franchising authorities that upon completion of rebuild the expanded services required by our rules would be provided. We have closely considered this proposal but do not believe that its adoption would be appropriate. In order to administer such a provision equitably, guidelines or standards defining natural obsolescence would have to be established. Without such guidelines many franchising authorities might have insufficient resources to make informed judgment as to an equitable period for requiring rebuild, and a few cable operators might artificially retard rebuild in order to postpone the provision of expanded services required by our rules. The same difficulties encountered in formulating a definition of natural rebuild are encountered

<sup>22</sup> For a discussion of the problems encountered in system reconstruction see paras. 6-10 of Notice of Proposed Rulemaking in Docket 20598, *supra*.

tered in attempting to establish these guidelines.

93. Some generalizations may however be made. The amplifiers and cable used to provide cable television service do have a limited useful life expectancy. The estimates provided in the comments indicate that amplifiers installed on old cable systems must in general be replaced sometime between 8 and 15 years after their initial installation. In general, these projections are in accord with our own estimates. Until the middle 1960's the amplifiers used in cable television systems employed vacuum tubes. These earlier amplifiers had in general a very limited useful life span. In the mid 1960's up until approximately 1969-1970, the first generation of solid state single ended 12-channel capacity amplifiers were introduced. With the initial introduction of solid state components various problems were encountered, e.g., inadequate surge protection and accumulative heat. Though some of these amplifiers may last much longer, these problems, in general, necessitate the replacement of most first generation solid state components by the tenth to twelfth year after initial installation. With the refinements in technology which occurred in the very late 1960's and early 1970's push pull amplifiers were introduced which provide 20+ channel capacity by permitting the carriage of midband and frequently super band channels. These amplifiers have, in general, a substantially longer useful life span.

94. Because the vast majority of systems constructed prior to 1972 were constructed with either vacuum tubes or single ended amplifiers with limited useful technological lives we would expect that many of these either have been replaced, or will be replaced, in the near future. Based upon the comments and our experience, we think that in the vast majority of situations a complete turnover of this older equipment will be accomplished naturally within ten years. Accordingly, we have determined to use this ten year standard in our rules. Those systems regardless of market location which have 3500 or more subscribers shall be required to reconstruct their plant and distribution network in order to comply with our access and channel capacity requirements and to complete such reconstruction within ten years of the date of this decision.

95. We recognize that this reconstruction will in many cases be accomplished prior to our deadline and that a few systems may in fact have to reconstruct to meet our technical requirements. We recognize also that the selection of any time frame is to a certain extent arbitrary. We have chosen the ten year period, however, based upon our belief that it represents a liberal estimate of the reasonable time within which the vast majority of systems will be naturally rebuilt. By framing our requirements to correspond to the time within which the vast majority of systems will be rebuilt, even without our requirements, we have insured that such rebuilding will be accomplished

with components which will allow for the future expansion of services without presenting an artificial inflationary burden to system operators which must ultimately be borne by the public.

96. Those systems with 3500 or more subscribers located in major television markets have been on notice since 1972 of rebuild obligations. By extending our deadline for such systems we have substantially mitigated the burdens placed on them. Those systems with 3500 or more subscribers outside of the major markets were not previously subject to any rebuild requirements. Our reasons for extending our rebuild requirements to these systems are identical to our reasons discussed earlier, for altering the criteria upon which we impose our access obligations in general. Moreover, we do not believe that our extension of rebuild requirements to these systems will be substantially burdensome. The earliest cable systems were generally constructed in communities which could not obtain adequate over-the-air television coverage. Most of these communities are outside the major television markets. In some such communities the only television service that is generally available is that provided by the cable system and such systems are financially strong as well, free by virtue of their locations, from some of those incentives that might induce other systems to upgrade the quality of the service they offer. Moreover, because many such systems were in fact constructed some time ago, reconstruction may naturally be expected to occur earlier than for other systems that were constructed later in the less desirable cable markets. Accordingly, we believe our ten-year reconstruction deadline is also appropriate for these cable systems. Should the imposition of this requirement prove unduly burdensome in some isolated instances we shall treat such matters on an individual basis and, if appropriate, grant relief.<sup>23</sup>

#### THE ROLE OF THE LOCAL FRANCHISING AUTHORITY

97. Under our prior rules, local authorities, in those communities where our rules did not apply, were permitted to adopt their own channel capacity and access channel requirement provided that these requirements were not in excess of those we had adopted for major market systems. See §§ 76.251(a) (11) (iv) and 76.251(b). While the reasons that have caused us to remove our requirements from smaller systems in the major markets might suggest the need to preclude their reimposition by local authorities

<sup>23</sup> We recognize that a particular problem may be encountered if there are 12 channel systems presently under construction outside of the major television markets which will eventually attain 3500 subscribers. These systems were not formerly subject to this requirement and should therefore be given some fair margin to complete work in progress. If such systems do go into operation prior to March 31, 1977, they will be given 10 years within which to reconstruct and provide 20 channel and two-way capacity. (See § 76.252(b))

ties, we believe that room remains for local authorities to exercise their own best judgment in balancing between the needs of their citizens and the costs which must ultimately be borne by them. Accordingly, with respect to systems with under 3500 subscribers, we will not preclude local authorities from mandating channel capacity and access obligations as long as these do not exceed what our rules require of systems with 3500 or more subscribers.

98. In addition, even for systems with more than 3500 subscribers, we are generally prepared to see local requirements continue in effect if they do not exceed the twenty channel, two-way and four dedicated channel concepts in our rules, even if the timing on system rebuild is shorter than our own, or there is a local requirement that converters be installed to activate all of the dedicated channels, provided it can be shown that such local requirements are based on a reasoned analysis of the costs and needs for the services involved and that they will not interfere with compliance with federal obligations. However, we believe that all such obligation in excess of the rules adopted herein, if they are to be continued, should be subject to review in light of the revisions we have made in our rules because many of these requirements were adopted in reliance on our rules and without independent evaluation of them.

99. Accordingly, we shall continue to allow the imposition of local requirements which do not exceed our own. Lesser local requirements will also not be foreclosed, although for systems with over 3500 subscribers, these would be superseded by our own rules. Local requirements which do exceed our own, may also be permitted upon individual showings and with Commission approval. Such showings will be considered in the certification process for those systems not yet certified and for those systems seeking recertification by March 31, 1977. Other situations will be considered pursuant to the special relief provisions of § 76.7 of the rules. In the absence of such showings, provisions exceeding our own will be considered to have no force or effect in accordance with the procedures adopted in the Report and Order in Docket 20272, FCC 75-897, 54 FCC 2d 855 (1975). In those situations where such showings were made and accepted under prior rules, they need not be repeated and our rulings therein will continue in effect.

100. Petitions to justify access or rebuild requirements in excess of those we are adopting today should indicate the number of channels available to provide access programming without imposing these additional requirements and how these channels are insufficient to meet demonstrated need within the community or communities. In addition, such showings should include estimates of the expected expenses involved in complying with these additional requirements, how these expenses will contribute to the quality of cable service in the community and what the effect those ex-

penses will be upon the financial viability of the system. To the extent that a system has pledged to comply with our prior requirements and as a result of such pledge been granted a rate increase, this also is a relevant factor in deciding whether to permit the enforcement of such a provision. It is only with a complete showing of this nature that we can realistically determine if additional rebuild or access requirements are justified, and they will not adversely affect the operator's ability to accomplish federal objectives.

#### ADDITIONAL MATTERS

101. In addition to those comments already discussed, various parties advance other observations. The Ohio Educational Television Network urges, for example, the maintenance of the policy we announced in our Notice not to postpone rebuild requirements for those systems which do not have sufficient activated channel capacity to provide full time carriage for those television stations which are "must carry" under our rules. In support of this view OETN cites difficulties which it has encountered in obtaining carriage of "must carry" educational television stations which have within the recent past either begun broadcasting or increased transmitter power.

102. We recognize that this is a serious problem and that many of the same difficulties encountered in requiring cable systems to reconstruct to meet our channel capacity and access obligations are encountered when requiring systems to reconstruct to provide full time carriage to "must carry stations." Clearly there are equities and public interest considerations on both sides of this situation. A television station which newly goes on the air or increases its transmitter power should be carried by a cable system operating within its area of service. On the other hand a cable system which constructs its distribution network with sufficient activated capability to provide full time carriage to all existing "must carry" stations should not, perhaps, be required to immediately reconstruct its distribution network and install converters in each subscriber's home merely because one new station goes on the air or increases its transmitter power. We do not intend to finally resolve this matter in this proceeding which, as we have noted, is concerned with the channel capacity and access requirements formerly contained in § 76.25. We shall however continue to analyze this area and if appropriate take further action.

103. While the majority of parties filing comments in this proceeding recognized the reasons which cause us to cancel the March 31, 1977 reconstruction deadline, a few organizations urged its reinstatement. Some of these parties also oppose our decision to separate the issues contained in Docket 20363 from those under consideration in this proceeding. Additionally, it is argued that instead of reducing our channel capacity and access channel requirements in view of economic considerations, the Commission

should increase the signal carriage available to cable television systems which will lead to the acquisition of new subscribers and an improved financial picture for the industry in general. In opposition to this suggestion, various broadcast interests argue that in view of the failure of the cable television industry to rebuild, that the entire area of signal carriage should be revisited with an eye toward adopting more restrictive limitations.

104. We have previously set out the reasons which caused us to cancel the March 31, 1977 deadline in our Report and Order in Docket 20363, *supra*, as well as the reasons which have led us to separate the issue in that docket from the issues herein under review.<sup>24</sup> The difficulties which we have encountered in formulating an equitable rebuild plan as well as the difficulties encountered in determining the appropriate approach to take with respect to other areas of this Notice have reaffirmed our belief in the wisdom of both decisions.

105. Moreover, the public interest objectives which have caused us to impose channel capacity and access channel requirements on larger cable systems are to a certain extent, different than the reasons which cause us to set various limitations on the amount of product available to cable systems in general. In the former case we seek to promote the expansion of communications services as well as the expansion of the public's access thereto, while in the latter we seek to insure that the interest of the public in maintaining a healthy commercial television structure will not be undermined. Although there is some relationship between the two considerations, each must be considered on its merits. In either case, when it appears, based upon our experience in administering our rules, that they are unnecessarily burdensome and do not further the objectives for which they were designed, we change them. Such is the case with respect to the channel capacity access channel and rebuild requirements under review today. Recently, such has also been the case with respect to various aspects of our signal carriage and subscription rules.<sup>25</sup>

Authority for the amendments to the rules adopted below is contained and in Sections 2, 3, 4 (1) and (j), 301, 303, 307, 308, 309, 315 and 317 of the Communications Act of 1934, as amended.

<sup>24</sup> See Footnote 2 in Report and Order in Docket 20363, *supra*, and Footnote 2 in Notice of Proposed Rulemaking in Docket 20508, *supra*.

<sup>25</sup> For example, the Commission has recently made substantial modifications to its rules applicable to specialty stations, Report and Order in Docket 20553, 76 FCC 189, 44 FCC 2d 111 (1976); eliminated its leap-frogging restrictions, Report and Order in Docket 20487, FCC 75-1409, 57 FCC 2d 825, eliminated its ban on the subscription presentation of series programming, Second Report and Order in Docket No. 19554, 75-1218 44 FCC 2d 111 (1975), all of which increase the product available to cable television systems, hence the public, without undermining the conventional television structure.

Accordingly, *It is ordered*, That Part 76 of the Commission's Rules and Regulations is amended, effective June 21, 1976, as set forth below. *It is further ordered*, That this proceeding is terminated.

(Secs. 2, 3, 4, 301, 303, 307, 308, 309, 315, 317, 48 Stat., as amended, 1064, 1065, 1086, 1081, 1082, 1083, 1084, 1085, 1088, 1089; 47 U.S.C. 152, 153, 154, 301, 303, 307, 308, 309, 315, 317.)

Adopted: April 1, 1976.

Released: May 13, 1976.

FEDERAL COMMUNICATIONS  
COMMISSION,  
VINCENT J. MULLINS,  
Secretary.

Part 76 of Chapter I of title 47 of the Code of Federal Regulations is amended as follows:

**§ 76.13 [Amended]**

1. In § 76.13, paragraphs (a)(4), (b)(4), and (c)(3) are amended to delete "§ 76.251 and 76.253" after the words "provisions of" and substitute "§ 76.252, 76.254, 76.256, and 76.258".

**§ 76.251 [Deleted]**

2. Section 76.251 is deleted.

3. A new § 76.252 is added, as follows:

**§ 76.252 Channel capacity.**

(a) Any conglomerate of commonly-owned and technically-integrated cable television systems having a total of 3500 or more subscribers, or any system having 3500 or more subscribers which is not part of such a system conglomerate, shall comply with the following requirements respecting channel capacity:

(1) *Minimum channel capacity.* Each such system shall have at least 120 MHz of bandwidth (the equivalent of 20 television broadcast channels) available for immediate or potential use for the totality of cable services to be offered.

(2) *Two-way communications.* Each such system shall maintain a plant having technical capacity for nonvoice return communications.

(b) This section applies to all cable television systems that commence operations on or after March 31, 1972, in a community located in whole or in part within a major television market. Systems which commence operations after March 31, 1977 in a community located outside of a major television market shall comply upon commencement of operations. All other systems shall comply on or before June 21, 1976. Systems that are in compliance with the provisions of subparagraph (a)(1) of this section on or before June 21, 1976 are not required to modify their facilities in order to comply with subparagraph (a)(2) of this section.

**§ 76.253 [Deleted]**

4. Section 76.253 is deleted.

5. A new § 76.254 is added, as follows:

\* Statements of Commissioners Hooks, Washburn, and Robinson filed as part of the original document.

**§ 76.254 Number and designation of access channels.**

Any conglomerate of commonly-owned and technically-integrated cable television systems having a total of 3500 or more subscribers, or any system having 3500 or more subscribers which is not part of such a system conglomerate, shall comply with the following requirements respecting the number and designation of access channels:

(a) Each such system shall, to the extent of its available activated channel capability, comply with the following requirements:

(1) *Public access channel.* Each such system shall maintain at least one specially designated, noncommercial public access channel available on a first-come, nondiscriminatory basis;

(2) *Education access channel.* Each such system shall maintain at least one specially designated channel for use by local educational authorities;

(3) *Local government access channel.* Each such system shall maintain at least one specially designated channel for local government uses;

(4) *Leased access channel.* Each such system shall maintain at least one specially designated channel for leased access uses. In addition, other portions of its nonbroadcast bandwidth, including unused portions of the specially designated channels, shall be available for leased uses. On at least one of the leased channels, priority shall be given part-time users.

(b) Until such time as there is demand for each channel full time for its designated use, public, educational, government, and leased access channel programming may be combined on one or more cable channels. To the extent time is available therefor, access channels may also be used for other broadcast and nonbroadcast services.

(c) Each such system shall, in any case, maintain at least one full channel for shared access programming: *Provided, however*, That, in the case of systems in operation on June 21, 1976 if insufficient activated channel capability is available to provide one full channel for shared access programming it shall provide whatever portions of channels are available for such purposes. Each such system in meeting its access obligations shall make reasonable efforts in programming its bandwidth to avoid the displacement of access service.

(d) Whenever any of the channels described in paragraph (a) or (c) of this section is in use during 80 percent of the weekdays (Monday-Friday) for 80 percent of the time during any consecutive three-hour period for six consecutive weeks, such system shall have six months in which to make a new channel available for the same purposes: *Provided, however*, That the channel expansion mandated by this paragraph shall not exceed the activated channel capability of the system.

(e) Each such system shall make available all other unused channels, in addition to those which are part of the

system's activated channel capability, for the purposes specified in paragraph (a): *Provided, however*, That in making available such additional channels the system operator shall be under no obligation to install converters.

(f) Until March 31, 1977, systems outside the major television markets and systems that commenced operation prior to March 31, 1972 may comply with the requirements of this section by making a reasonable effort to provide channel time for local non-operator presentation of cablecast programs.

6. A new § 76.256 is added, as follows:

**§ 76.256 Access services.**

Any conglomerate of commonly-owned and technically-integrated cable television systems having a total of 3500 or more subscribers, or any system having 3500 or more subscribers which is not part of such a system conglomerate, shall comply with the following requirements respecting the provision of access services:

(a) *Equipment requirement.* Each such system shall have available equipment for local production and presentation of cablecast programs other than automated services and permit its use for the production and presentation of public access programs. No such system shall enter into any contract, arrangement, or lease for use of its cablecasting equipment which prevents or inhibits the use of such equipment for a substantial portion of time for public access programming.

(b) *Program content control.* Each such system shall have no control over the content of access cablecast programs; however, this limitation shall not prevent it from taking appropriate steps to insure compliance with the operating rules described in paragraph (d) of this section.

(c) *Assessment of costs.* (1) The channels described in § 76.254(a)(2) and (a)(3) shall be made available free of charge until five (5) years after the system first offers channel time for such cablecasting purpose.

(2) One of the public access channels described in § 76.254(a)(1) shall always be made available without charge.

(3) Charges for equipment, personnel, and production of public access programming shall be reasonable and consistent with the goal of affording users a low-cost means of television access. No charges shall be made for live public access programs not exceeding five minutes in length.

*NOTE.*—Systems outside the major television markets and systems that commenced operation prior to March 31, 1972 are not required to provide any free production facilities prior to March 31, 1977.

(d) *Operating rules.* (1) For public access programming, such systems shall establish rules requiring first-come, non-discriminatory access; prohibiting the presentation of: any advertising material designed to promote the sale of commercial products or services (including advertising by or on behalf of candidates

for public office); lottery information; and obscene or indecent matter (modeled after the prohibitions in §§ 76.213 and 76.215, respectively); and permitting public inspection of a complete record of the names and addresses of all persons or groups requesting access time. Such a record shall be retained for a period of two years.

(2) For educational access programming, such system shall establish rules prohibiting the presentation of: any advertising material designed to promote the sale of commercial products or services (including advertising by or on behalf of candidates for public office); lottery information; and obscene or indecent matter (modeled after the prohibitions in §§ 76.213 and 76.215, respectively); and permitting public inspection of a complete record of the names and addresses of all persons or groups requesting access time. Such a record shall be retained for a period of 2 years.

(3) For leased access programming, such system shall establish rules requiring first-come, nondiscriminatory access; prohibiting the presentation of lottery information and obscene or indecent matter (modeled after the prohibitions in §§ 76.213 and 76.215, respectively); requiring sponsorship identification (see § 76.221); specifying an appropriate rate schedule; and permitting public inspection of a complete record of the names and addresses of all persons or groups requesting time. Such a record shall be retained for a period of 2 years.

(4) The operating rules governing public, educational, and leased access programming shall be filed with the Commission within 90 days after a system first activities any such channels, and shall be available for public inspection as provided in § 76.305(b). Except on Commission authorization, or with respect to local government access programming, no local entity shall prescribe any other rules concerning the number or manner of operation of access channels.

*NOTE.*—Nothing in this section shall be construed as limiting the authority of state and local entities to regulate two-way, point-to-point, intrastate non-video cable transmissions.

7. A new § 76.258 is added, as follows:

**§ 76.258 Non-federal access regulation; voluntary access.**

No cable television system shall be required by a state or local entity to exceed the provisions of §§ 76.252, 76.254, and 76.256 concerning channel capacity, activated channel capability, and equipment, absent Commission authorization, even if such a system has previously been certificated, pursuant to § 76.11, based on proposals or operations in excess of these provisions. If a conglomerate of commonly-owned and technically-integrated cable television systems having a total of fewer than 3500 subscribers, or any system having fewer than 3500 subscribers which is not part of

such a system conglomerate, provides access services, it shall comply with the provisions of § 76.256 (b) and (d).

**§ 76.305 [Amended]**

8. In § 76.305, paragraph (a)(7) is revised to read as follows and paragraph (c) is amended to delete "Section 76.205(c), 76.251(a)(11), and 76.311(f)" after the words "periods specified in" and substitute "§ 76.95(d), 76.205(c), 76.221(f), 76.225(a), 76.256(d), and 76.311(f)".

(a) \* \* \*

(7) A copy of all records which are required to be kept by § 76.95(d) (network program nonduplication private agreements); § 76.205(c) (origination cablecasts by candidates for public office); § 76.221(f) (sponsorship identification); § 76.225(a) (subscription cablecasting); § 76.256(d) (operating rules for access channels); § 76.311(f) (equal employment opportunities);

[FCC 76-427]

**PART 94—PRIVATE OPERATIONAL-FIXED MICROWAVE SERVICE**

**Revision and Consolidation of FCC Forms 402 and 402-S**

1. On April 23, 1975, the Commission adopted a Report and Order in Docket 19869, FCC 75-469, 52 FCC 2d 894 (1975), establishing a new rule part (Part 94) governing the licensing and operation of private operational-fixed microwave (above 952 MHz) stations. One of the provisions of the new rules is that applicants for new or modified stations perform detailed technical analysis of the interference potential to existing stations. Applicants must certify that the interference to existing stations will be less than certain levels. While certain technical information was contained on FCC Form 402, the Commission felt that this was not enough.

2. In order to obtain and store in the Commission's microwave computer data base the technical information necessary for performing these analyses, the Commission adopted Form 402-S as a supplement to Form 402, FCC 74-442, 51 FCC 2d 480 (1975). Form 402-S was mailed to existing licensees on May 12, 1975, and has been required for all new applications filed after August 1, 1975.

3. This form was adopted as an interim measure until Form 402 could be completely revised to include all the necessary information. In keeping with this, the Commission has adopted a revised Form 402 to be used in applying for private microwave station licenses.

4. The revised Form 402 is basically a consolidation of Forms 402 and 402-S. Certain questions have been eliminated and others changed or clarified to facilitate the accurate filing of applications.

To assure uniformity in the collection of information and in our application processing procedures, we have concluded that the revised form should be used by applicants on a certain date. Therefore, while this form may be used as soon as it is available (tentatively October 1, 1976,) all applications for new or modified private operational-fixed microwave stations will not be accepted after January 1, 1977, unless they are filed on the revised Form 402.

5. Therefore, *it is ordered*, pursuant to section 4(i) and 308(b) of the Communications Act of 1934, as amended, That, revised FCC Form 402 is adopted and. That applications for new or modified private operational-fixed microwave stations must be filed on revised FCC Form 402 after January 1, 1977, and that effective January 1, 1977, § 94.27 of the Commission's rules is amended to require the use of the revised FCC Form 402. The rule amendments as well as the revised form adopted herein relate to procedural matters. Therefore, compliance with the prior notice and procedure requirements of section 4(a) of the Administrative Procedure Act, 5 USC 553, is not required.

Adopted: May 11, 1976.

Released: May 17, 1976.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303.)

FEDERAL COMMUNICATIONS  
COMMISSION,  
VINCENT J. MULLINS,  
Secretary.

Part 94 of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

1. In § 94.27, paragraphs (a) and (b) are amended to read as follows:

**§ 94.27 Application and Standard Forms.**

(a) A separate application shall be submitted on FCC Form 402 dated July 1976 or later, for the following:

(1) New station authorization for private operation-fixed microwave station.

(2) New authorization to operate one or more fixed stations at temporary locations in this service.

(3) Modification of station licensee.

(b) When the holder of a station authorization desires to assign to another person the privilege to use a radio station, he shall submit to the Commission a letter setting forth his desire to assign all right, title, and interest in and to such authorization, stating the call sign and location of the station. This letter shall also include a statement that the assignor will submit his current station authorization for cancellation upon completion of the assignment. An application on FCC Form 402 dated September 1975 or later, prepared by and in the name of the person to whom the station is being assigned (See § 94.47), shall also be filed.

## Title 49—Transportation

## SUBTITLE A—OFFICE OF THE SECRETARY OF TRANSPORTATION

(OST Docket No. 1, Amdt. 1-118)

## PART 1—ORGANIZATION AND DELEGATION OF POWERS AND DUTIES

## Delegations Under the Railroad Revitalization and Regulatory Reform Act of 1976

The purpose of this amendment is to delegate to the Deputy Secretary, the Federal Railroad and Urban Mass Transportation Administrators, the General Counsel, and the Assistant Secretary for Administration certain functions vested in the Secretary by the Railroad Revitalization and Regulatory Reform Act of 1976 (Pub. L. 94-210).

Since this amendment relates to Departmental management, procedures, and practices, notice and public procedures thereon are unnecessary and it may be made effective in fewer than 30 days after publication in the FEDERAL REGISTER.

In consideration of the foregoing Part I of Title 49 of the Code of Federal Regulations is amended as follows:

## § 1.49 [Amended]

1. In § 1.49, paragraph (q) is amended by inserting immediately after the words "executive committee" the words "and finance committee" and substituting the words "Title II" in place of the words "sections 201(d) (2) and (h)", and a new paragraph (u) is added at the end thereof to read as follows:

## § 1.49 Delegations to Federal Railroad Administrator.

The Federal Railroad Administrator is delegated authority to:

(u) Carry out the functions vested in the Secretary by the following sections of the Railroad Revitalization and Regulatory Reform Act of 1976 (Pub. L. 94-210): 204(c); 401, except authority to issue subpoenas; 402; 403; 502; 503; 504; 505; 508, except (c); 507; 508; 511; 512; 513; 515; 517; 608; 610; 703; 704, except (c); 706; 803, except insofar as it relates to audits; 810; 901; 905, as applicable; and 906.

2. Section 1.51 is amended by adding at the end thereof a new paragraph (k) to read as follows:

## § 1.51 Delegations to Urban Mass Transportation Administrator.

The Urban Mass Transportation Administrator is delegated authority to exercise the functions vested in the Secretary by:

(k) sections 404, insofar as it relates to 45 U.S.C. 744(e) (5); and 905, as applicable, of the Railroad Revitalization and Regulatory Reform Act of 1976 (Pub. L. 94-210).

## § 1.55 [Amended]

3. In § 1.55, paragraph (h) is amended by inserting immediately after the words

"executive committee" the words "and finance committee" and the term "as amended" immediately after the term "(Pub. L. 93-236)".

## § 1.56 [Amended]

4. In § 1.56, paragraph (n) is amended by inserting the words "and Finance Committee" immediately after the words "Executive Committee" and the term "as amended" immediately after the term "(Pub. L. 93-236)".

5. In § 1.59, paragraph (1) is amended by adding at the end thereof a new subparagraph (3), to read as follows:

## § 1.59 Delegations to Assistant Secretary for Administration.

The Assistant Secretary for Administration is delegated authority for the following:

(1) Audit.

(3) Carry out the functions vested in the Secretary by sections 803 and 805 of the Railroad Revitalization and Regulatory Reform Act of 1976 (Pub. L. 94-210), insofar as they relate to audits.

Effective date: This amendment is effective March 10, 1976.

(Sec. 9(e), Department of Transportation Act, 49 U.S.C. 1657(e)).

Issued in Washington, D.C., on May 13, 1976.

WILLIAM T. COLEMAN, Jr.,  
Secretary of Transportation.

[FR Doc.76-14715 Filed 5-19-76; 8:45 am]

Title 50—Wildlife and Fisheries  
CHAPTER I—U.S. FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR  
PART 28—PUBLIC ACCESS, USE, AND RECREATION

## Izembek National Wildlife Range, Alaska

The following special regulation is issued and is effective April 16, 1976.

## § 28.28 Special regulations, public access, use, and recreation; for individual wildlife refuge areas.

## ALASKA

## IZEMBOK NATIONAL WILDLIFE RANGE

Boats are permitted on the Izembek National Wildlife Range for public access, use, and recreation subject to the following special condition:

(1) The use of water-jet driven boats or boats driven by air propellers, commonly known as air boats, is prohibited.

The provisions of this special regulation supplement the regulations which govern public access, use, and recreation on wildlife refuge areas generally, which are set forth in 50 CFR Part 28, and are effective through December 31, 1976.

JOHN E. SARVIS,  
Refuge Manager.

MAY 12, 1976.

[FR Doc.76-14697 Filed 5-19-76; 8:45 am]

## Title 7—Agriculture

## CHAPTER I—AGRICULTURAL MARKETING SERVICE (STANDARDS, INSPECTION, MARKETING PRACTICES), DEPARTMENT OF AGRICULTURE

## COTTON AND COTTONSEED

## Revision in Fees

## STATEMENT OF CONSIDERATIONS

Pursuant to the statutory authorities cited below, the fees relating to cotton classing, standards and inspection, sampling, and certification of cottonseed and for cotton fiber and processing tests are hereby amended to reflect increased costs since the last adjustment in fees including the increase in Federal employees' salaries authorized by the Federal Employees Salary Act of 1970 (Pub. L. 91-231).

## PART 27—COTTON CLASSIFICATION UNDER COTTON FUTURES LEGISLATION

1. Sections 27.80 and 27.81 are revised to read as follows:

## § 27.80 Fees: classification, Micronaire, and supervision.

For services rendered by the Cotton Division pursuant to this subpart, whether the cotton involved is tenderable or not, the person requesting the services shall pay fees as follows:

(a) Initial classification and certification—60 cents per bale.

(b) Review classification and certification—80 cents per bale.

(c) Micronaire determination and certification—15 cents per bale.

(d) Combination service—\$1.20 per bale. (Initial classification, review classification, and Micronaire determination covered by the same request and only the review classification and Micronaire determination results certified on cotton class certificates.)

(e) Supervision, by a supervisor of cotton inspection, of the inspection, weighing, or sampling of cotton when any two or more of these operations are performed together—70 cents per bale.

(f) Supervision, by a supervisor of cotton inspection, of the inspection, weighing, or sampling of cotton when any one of these operations is performed individually—70 cents per bale.

(g) Supervision, by a supervisor of cotton inspection, of transfers of cotton to a different delivery point, including issuance of new cotton class certificates in substitution for prior certificates—\$1.70 per bale.

(h) Supervision, by a supervisor of cotton inspection, of transfers of cotton to a different warehouse at the same delivery point, including issuance of new cotton class certificates in substitution for prior certificates—\$1.00 per bale.

## § 27.81 Fees: certificates.

For each new certificate issued in substitution for a prior certificate at the request of the holder thereof, for his business convenience, or when made necessary by the transfer of the cotton under the supervision of an exchange inspection agency as provided in § 27.73, the

person making the request shall pay a fee of 30 cents for each certificate issued.

(Sec. 4863, 68 A Stat. 582; 26 U.S.C. 4863)

## PART 28—COTTON CLASSING, TESTING AND STANDARDS

2. Sections 28.116, 28.117, 28.120, 28.122, 28.123, 28.148, 28.149, and 28.151 are revised to read as follows:

## § 28.116 Amounts of fees for classification; exemption.

(a) For the classification of any cotton or samples, the person requesting the service shall pay a fee, as follows, subject to the minimum fee provided in paragraph (c) of this section:

(1) Grade, staple, and micronaire reading—75 cents per sample.

(2) Grade and staple only—60 cents per sample.

(3) Grade only or staple only—40 cents per sample.

(4) Micronaire reading only—15 cents per sample.

(b) When a comparison is requested of any samples with a type or with other samples, the fees prescribed in paragraph (a) of this section shall apply to every sample involved, including each of the samples of which the type is composed.

(c) A minimum fee of \$4.00 shall be assessed for services described in paragraphs (a) and (b) of this section for each lot or mark of cotton reported or handled separately, unless the request for service is so worded that the samples become Government property immediately after classification.

(d) For any review of classification or comparison of any cotton, the fees prescribed in paragraph (a) of this section shall apply. The minimum fee prescribed in paragraph (c) of this section is not applicable to review of classification or comparison.

(e) The fees provided for in paragraphs (a) and (b) of this section may be waived in whole or in part, as to the classification and comparison and the review, if any, of any cotton (1) for any governmental agency; (2) to facilitate a cotton program of any governmental agency; and (3) for a charitable or philanthropic organization if such cotton will be used in accordance with an act of Congress or a congressional resolution for the relief of distress or will be exchanged for goods to be so used. The samples accumulated in the classification or certification of cotton for a governmental agency or to facilitate a cotton program of any governmental agency shall be disposed of as required by such agency.

## § 28.117 Fee for new memorandum or certificate.

For each new memorandum or certificate issued in substitution for a prior memorandum or certificate at the request of the holder, thereof, on account of the breaking or splitting of the lot of cotton covered thereby or otherwise for his business convenience, the person requesting

such substitution shall pay a fee of \$1.35 per sheet.

## § 28.120 Expenses to be borne by party requesting classification.

For any samples submitted for Form A or Form D determinations, the expenses of inspection and sampling, the preparation of the samples, and the delivery of such samples to the classification room of the board or other place specifically designated for the purpose by the Director or by the chairman of such board, shall be borne by the party requesting the classification. For samples submitted for Form C determination, the party requesting the classification shall pay the fees prescribed in this subpart and, in addition, a fee of \$12 per hour, or each portion thereof, plus the necessary traveling expenses and subsistence, or per diem in lieu of subsistence, incurred on account of such request, in accordance with the fiscal regulations of the Department applicable to the Division employee supervising the sampling.

## § 28.122 Fee for practical classing examination.

The fee for the practical classing examination for cotton or cotton linters shall be \$60.00. Any applicant who passes the examination may be issued a certificate indicating this accomplishment.

## § 28.123 Costs of practical forms of cotton standards.

The cost of practical forms of the cotton standards of the United States shall be as follows:

GRADE STANDARDS	Domestic shipments L.O.B. Memphis, Tenn.	Shipments delivered outside the continental United States
American Upland:		
15-sample official boxes (universal standards).....	20	23
6-sample guide boxes.....	12	15
American Pima:		
6-sample official boxes.....	20	23

## TENTATIVE STANDARDS FOR PREPARATION

GRADE STANDARDS	Dollars each box
American Upland long-staple cotton:	
6-sample boxes.....	13

## STANDARDS FOR LENGTH OF STAPLE

GRADE STANDARDS	Dollars each length
American Upland (prepared in 1-pound rolls for each length).....	4
American Pima (prepared in 1-pound rolls for each length).....	4

(Sec. 205, 60 Stat. 1090, as amended; 7 U.S.C. 1024.)

## 4. Section 28.911 is revised to read as follows:

## § 28.911 Review classification.

A producer may request one review classification for each bale of eligible cotton. The fee for review classification is 60 cents per sample. Samples for review classification may be drawn by samplers bonded pursuant to § 28.906, or by samplers at warehouses which issue negotiable warehouse receipts, or by employees of the United States Department of Agriculture. Each sample for review classification

## § 28.148 Fees and costs; classifications; reviews; other.

The fee for the classification, comparison, or review of linters with respect to grade, staple, and character or any of these qualities shall be at the rate of 55 cents for each bale or sample involved. The provisions of §§ 28.115 through 28.128 relating to other fees and costs shall, so far as applicable, apply to services performed with respect to linters.

## § 28.149 Fees and costs; Form C determinations.

For samples submitted for Form C determination, the party requesting the classification shall pay the fees prescribed in this subpart and, in addition, a fee of \$12 per hour, or each portion thereof, plus the necessary traveling expenses and subsistence, or per diem in lieu of subsistence, incurred on account of such request, in accordance with the fiscal regulations of the Department applicable to the Division employee supervising the sampling.

## § 28.151 Cost of practical forms; period effective.

Practical forms of the official cotton linters standards of the United States will be furnished to any person subject to the applicable terms and conditions specified in § 28.105: *Provided*, That no practical form of any of the official cotton linters standards of the United States for grade shall be considered as representing any of said standards after the date of its cancellation in accordance with this subpart, or, in any event, after the expiration of 12 months following the date of its certification. The cost of the official standards for grade shall be at the rate of \$15.00 each, f.o.b., Memphis, Tenn., for shipments within the continental United States, and \$18.00 each, delivered to destination, for shipments outside the United States. The cost of the official standards for staple shall be at the rate of \$3.50 each, f.o.b., Memphis, Tenn., for shipments within the continental United States, and \$4.00 each, delivered to destination, for shipments outside the continental United States.

(Sec. 10, 42 Stat. 1519; 7 U.S.C. 61.)

3. Section 28.184 is revised to read as follows:

## § 28.184 Cotton linters; general.

Requests for the classification or comparison of cotton linters pursuant to this subpart and the samples involved shall be submitted to the Board of Cotton Linters Examiners. All samples classed shall be on the basis of the official cotton linters standards of the United States. The fee for classification or comparison and the issuance of a memorandum showing the results of such classification or comparison shall be 55 cents per sample.

(Sec. 205, 60 Stat. 1090, as amended; 7 U.S.C. 1024.)

4. Section 28.911 is revised to read as follows:

## § 28.911 Review classification.

A producer may request one review classification for each bale of eligible cotton. The fee for review classification is 60 cents per sample. Samples for review classification may be drawn by samplers bonded pursuant to § 28.906, or by samplers at warehouses which issue negotiable warehouse receipts, or by employees of the United States Department of Agriculture. Each sample for review classification

V 41 199

MAY 20

76 UMI

fication shall be taken, handled, and submitted according to § 28.908 and to supplemental instructions issued by the Director or his representatives. Costs incident to sampling, tagging, identification, containers, and shipment for samples for review classification shall be without expense to the Government.

(Sec. 10, 42 Stat. 1519, Sec. 3c, 50 Stat. 62; 7 U.S.C. 61, 473c.)

5. Sections 28.956 and 28.958 are revised to read as follows:

#### § 28.956 Prescribed fees

Fees for fiber and processing tests shall be assessed as listed below:

Item No.	KIND OF TEST	
1	Furnishing U.S.D.A. calibration cotton in the short, medium, long and extra long staple lengths, including standard values for length by both array and Fibrograph methods, strength by flat bundle method at $\frac{1}{8}$ -in gauge, and maturity and fineness by the Caustic method:	
	a. By surface delivery, 1-lb sample.....	\$12.00
	b. By air delivery within the U.S., 1-lb sample.....	14.00
	c. By air delivery outside the U.S., 1-lb sample.....	16.00
2	Furnishing international calibration cotton standards with standard values for micronaire reading and Pressley fiber strength at zero gauge:	
	a. By surface delivery, $\frac{1}{2}$ -lb sample.....	8.00
	b. By air delivery within U.S., $\frac{1}{2}$ -lb sample.....	10.00
	c. By air delivery outside U.S., $\frac{1}{2}$ -lb sample.....	12.00
3	Fiber length array of cotton samples. Reporting the average percentage of fibers by weight in each $\frac{1}{8}$ -in group, average length, and average length variability as based on 3 specimens from a blended sample:	
	a. Ginned cotton lint, per sample.....	30.00
	b. Cotton comber noils, per sample.....	40.00
	c. Other cotton wastes, per sample.....	50.00
3.1	Fiber length array of cotton samples. Reporting the average percentage of fibers by weight in each $\frac{1}{8}$ -in group, average length, and average length variability as based on 2 specimens from a blended sample:	
	a. Ginned cotton lint, per sample.....	20.00
	b. Cotton comber noils, per sample.....	27.00
	c. Other cotton wastes, per sample.....	35.00
3.2	Fiber array of cotton samples, including purified or absorbent cotton. Reporting the average percentage of fibers $\frac{1}{2}$ -in and longer by weight, the average of fibers shorter than $\frac{1}{2}$ -in by weight, average length, and average length variability as based on 3 specimens from each sample, per sample.....	25.00

Item No.		
4	Fiber length of ginned cotton lint by Fibrograph method. Reporting the average length and average length uniformity as based on 4 specimens from a blended sample, per sample.....	2.50
	Minimum fee unless performed in connection with other tests requiring a blended specimen.....	5.00
4.1	Fiber length of ginned cotton lint by Fibrograph method. Reporting the length of each sub-sample and average length and average length uniformity for each group of replicate sub-samples as based on 2 specimens from each of 3 or more replicate unblended sub-samples, per sub-sample.....	1.75
	Minimum fee.....	5.25
5	Pressley strength of ginned cotton lint by flat bundle method for either zero or $\frac{1}{8}$ -in gauge as specified by applicant. Reporting the average strength as based on specimens from a blended sample, per sample.....	2.50
	KIND OF TEST	
	Minimum fee unless performed in connection with other tests requiring a blended sample.....	7.50
5.1	Pressley strength of ginned cotton lint by flat bundle method for either zero or $\frac{1}{8}$ -in gauge as specified by applicant. Reporting the strength of each sub-sample and the average strength for each group of replicate sub-samples as based on 2 specimens from each of 3 or more replicate unblended sub-samples, per sub-sample.....	1.75
	Minimum fee.....	5.25
5.2	Stelometer strength and elongation of ginned cotton lint by the flat bundle method for $\frac{1}{8}$ -in gauge. Reporting the average strength and elongation as based on 6 specimens from a blended sample, per sample.....	4.00
	Minimum fee unless performed in connection with other tests requiring a blended sample.....	12.00
5.3	Stelometer strength and elongation of ginned cotton lint by the flat bundle method for $\frac{1}{8}$ -in gauge. Reporting the strength and elongation of each sub-sample and the average of the group of replicate sub-samples as based on 2 specimens from each of 3 or more unblended samples, per sub-sample.....	2.00
	Minimum fee.....	6.00
6	Fiber maturity and fineness of ginned cotton lint by the Caustic method. Reporting the average maturity, fineness, and micronaire reading as based on 2 specimens from a blended sample, per sample.....	4.00
	Minimum fee.....	12.00

Item No.		
7	Micronaire readings on ginned cotton lint. Reporting the micronaire reading as based on 1 specimen from each sample, per sample.....	1.50
	Minimum fee.....	1.50
8	Neps content of ginned cotton lint. Reporting the neps per 100 square inches as based on the web prepared from a 3-g specimen by using accessory equipment with the mechanical fiber blender, per sample.....	5.00
	Minimum fee unless performed in connection with other tests requiring a blended specimen.....	10.00
9	Blending samples of ginned cotton lint, including the blending of a 10-g sample on the mechanical fiber blender and returning the blended sample to the applicant, per sample.....	2.00
10	Cotton carded yarn spinning test. Reporting data on waste extracted, yarn skein strength, yarn appearance, yarn imperfections, and classification and fiber length as specified in items 27 and 4 as well as comments summarizing any unusual observations as based on the processing of 6 pounds of cotton in accordance with standard laboratory procedures at one of the standard rates of carding of $6\frac{1}{2}$ , 9 $\frac{1}{2}$ , or 12 $\frac{1}{2}$ pounds-per-hour into two of the standard carded yarn numbers of 8s, 14s, 22s, 36s, 44s, or 50s, employing a standard twist multiplier unless otherwise specified, per sample.....	65.00
	Minimum fee.....	130.00
11	Spinning potential test. Determining the finest yarn which can be spun with no ends down and reporting spinning potential yarn number. This test is made in connection with item 10 and requires an additional 4 pounds of cotton, per sample.....	65.00
	Minimum fee.....	130.00
12	Cotton combed yarn spinning test. Reporting data on waste extracted, yarn skein strength, yarn appearance, yarn imperfections, and classification and fiber length as specified in items 27 and 4 as well as comments summarizing any unusual observations as based on the processing of 8 pounds of cotton in accordance with standard procedures at one of the standard rates of carding of $4\frac{1}{2}$ , $6\frac{1}{2}$ , or $9\frac{1}{2}$ pounds-per-hour into two of the standard combed yarn numbers of 22s, 36s, 44s, 50s, 60s, 80s, or 100s employing a standard twist multiplier unless otherwise specified, per sample.....	80.00
	Minimum fee.....	160.00

Item No.		
13	Cotton carded and combed yarn spinning test. Reporting the results specified in item numbers 10 and 12 in combination as based on the processing of 10 pounds of cotton into two of the standard carded and two of the standard combed yarn numbers employing the same carding rate and the same yarn numbers for both the carded and the combed yarns, per sample.....	100.00
	Minimum fee.....	200.00
14	Cotton carded and combed yarn spinning test. Reporting the results specified in item numbers 10 and 12 in combination as based on the processing of 9 pounds of cotton into two of the standard carded and two of the standard combed yarn numbers employing different carding rates and/or yarn numbers for the carded and combed yarns, per sample.....	120.00
	Minimum fee.....	240.00
15	Two-pound cotton carded yarn spinning test available to cotton breeders only. Reporting data on yarn skein strength, yarn appearance, yarn imperfections, and the classification and fiber length of the cotton as specified in item numbers 27 and 4 as well as comments on any unusual processing performance as based on the processing of 2 pounds of cotton in accordance with standard procedures into two standard carded yarn numbers employing a standard twist multiplier, per sample.....	40.00
	Minimum fee.....	80.00
16	Processing and testing of additional yarn. Any carded or combed yarn number processed in connection with spinning tests as specified in item numbers 10, 12, 13, and 14 including either additional yarn numbers or additional twist multipliers employed on the same yarn numbers, per additional lot of yarn.....	10.00
16.1	Processing and furnishing of additional yarn. Any yarn number processed in connection with spinning tests as specified in items 10, 12, 13, and 14. Approximately 300 yards on each of 16 paper tubes for testing by the applicant, per additional lot of yarn.....	20.00
17	Twist in yarns by direct-counting method. Reporting direction of twist and average turns per inch of yarn.	
	a. Single yarns based on 40 specimens per lot of yarn.....	45.00
	b. Piled or cabled yarns based on 10 specimens per lot of yarn.....	12.00
18	Skein strength of yarn. Reporting data on the strength and the yarn numbers based on 26 skeins from yarn furnished by the applicant, per sample.....	5.50

Item No.		
18.1	Appearance grade of yarn furnished on bobbins by applicant. Reporting the appearance grade in accordance with ASTM standards as based on yarn wound from one bobbin, per bobbin.....	2.00
18.2	Furnishing yarn wound on boards in connection with yarn appearance tests as specified in item numbers 10, 12, 13, 14, and 15, per yarn number.....	2.00
19	Processing, weaving, and testing of fabric. Reporting data on the warp and the filling strength by the grab method.	
	a. Processed in connection with spinning tests as specified in item numbers 10, 12, 13, and 14, per lot of fabric.....	145.00
	b. Processed from yarns furnished by the applicant, per lot of fabric.....	120.00
20	Strength of cotton fabric. Reporting the average warp and filling strength by the grab method as based on 5 breaks for both warp and filling of fabric furnished by the applicant, per sample.....	8.00
20.1	Cotton fabric analysis. Reporting data on the number of warp and filling threads per inch and the weight per yard of fabric as based on at least three (3) 6 x 6-in. specimens of fabric which was processed as specified in item number 19, or furnished by the applicant, per sample.....	15.00
	Minimum fee.....	30.00
21	Color of ginned cotton lint. Reporting data on the reflectance in terms of Rd values and the degree of yellowness in terms of b values as based on color tests employing the Nickerson-Hunter Colorimeter on samples which have a uniform surface measuring 5 x 6 $\frac{1}{2}$ in. and weighing approximately 50 grams in order to provide specimens which are sufficiently thick to be opaque, per sample.....	.85
	Minimum fee.....	2.80
22	Furnishing color standards, including a set of standard tiles and a master diagram for use in calibrating Nickerson-Hunter Cotton Colorimeters, per set.....	65.00
22.1	Furnishing replacement calibration tiles for above sets, each tile.....	6.50
22.2	Furnishing a Colorimeter calibration sample box containing 6 cotton samples with color values Rd and +b plotted on a color diagram based on the Nickerson-Colorimeter, per box.....	12.00
22.3	Furnishing new Colorimeter readings on samples in calibration boxes returned for check readings, per 6-sample box.....	2.50
23	Furnishing copies of test data worksheets. Includes individual observations and calculations which are not routinely furnished to the applicant, per sheet.....	1.50

Item No.		
24	Foreign matter content of cotton samples. Reporting data on the non-lint content as based on the Shirley Analyzer separation of lint and foreign matter.	
	a. For samples of ginned lint or comber noils, per 100-g specimen.....	3.25
	Minimum fee.....	6.50
	b. For samples of ginning and processing wastes other than comber noils, per 100-g specimen.....	10.00
	Minimum fee.....	20.00
25	Furnishing identified cotton samples. Includes samples of ginned lint, stock at any stage of processing or testing, waste of any type, yarn or fabric selected and identified in connection with fiber and/or spinning tests, per identified sample.....	1.30
26	Furnishing additional copies of test reports. Includes extra copies in addition to the 2 copies routinely furnished in connection with each test item, per additional sheet.....	65
26.1	Furnishing a certified relisting of test results. Includes samples or sub-samples selected from any previous tests, per sheet.....	3.25
27	Classification of ginned cotton lint in connection with fiber tests. Classification includes grade, staple and mike reading which requires a 6-oz sample, per sample.....	.75
28	Combination fiber tests:	
	a. Test items 4, 5, and 8, per sample.....	8.00
	b. Test items 4, 5.2, and 7, per sample.....	9.50
28.1	Combination fiber tests:	
	a. Tests items 4, 5, and 7, per sample.....	4.50
	b. Test items 4, 5.2, and 7, per sample.....	6.00
28.2	Combination fiber tests:	
	a. Test items 4.1, 5.1 and 7 on 3 or more replicate sub-samples, per sub-sample.....	3.00
	Minimum fee.....	9.00
	b. Test items 4.1, 5.3 and 7 on 3 or more replicate sub-samples, per subsample.....	3.50
	Minimum fee.....	10.50
29	Mercerizing and testing of cotton yarn. Reporting data on the luster of two 120-yd skeins and strength of the yarn as based on twenty-five 120-yd skeins mercerized in accordance with standard laboratory procedures.	
	a. Including the processing of the extra yarn in connection with spinning test item numbers 10, 12, 13, and 14, per lot of yarn.....	20.00
	Minimum fee.....	80.00
	b. For yarn furnished by the applicant, 27 skeins of 120 yds each required, per lot of yarn.....	18.00
	Minimum fee.....	64.00

Item No.		
30	Bleaching and testing of cotton yarn. Reporting data on the color of the yarn in terms of Rd reflectance values and plus b degree of yellowness values as based on the measurement of two 120-yd skeins either processed in connection with spinning test item numbers 10, 12, 13, and 14 or furnished by the applicant and bleached in accordance with standard laboratory procedures, per lot of yarn.	6.50
	Minimum fee.	65.00
31	Bleaching, dyeing, and testing of cotton yarn. Reporting data on the color of the dyed yarn in terms of Rd reflectance values and minus b degree of blueness values as based on the measurement of two 120-yd skeins either processed in connection with spinning test item numbers 10, 12, 13, and 14 or furnished by the applicant and bleached then dyed in accordance with standard laboratory procedures, per lot of yarn.	10.00
	Minimum fee.	100.00
32	Dyeing and testing of grey cotton yarn. Reporting data on the color of the dyed yarn in terms of Rd reflectance values and minus b degree of blueness values as based on the measurement of two 120-yd skeins either processed in connection with spinning test item numbers 10, 12, 13, and 14 or furnished by the applicant and dyed in accordance with standard laboratory procedures, per lot of yarn.	6.50
	Minimum fee.	65.00
33	Luster of cotton yarn. Reporting data on the percent luster of grey or mercerized yarn either processed in connection with spinning test item numbers 10, 12, 13, and 14 or furnished by the applicant as based on the measurement of two 120-yd skeins, per lot of yarn.	2.00
	Minimum fee.	6.00
34	Color of cotton yarn. Reporting data on the color of grey, bleached, dyed, or bleached and dyed yarn either processed in connection with spinning test items 10, 12, 13, and 14 or furnished by the applicant as based on the measurement of two 120-yd skeins, per lot of yarn.	2.00
	Minimum fee.	6.00

**§ 28.958 Fees and charges for inspection and checkloading services.**

(a) *Base rate.* Fees to be charged and collected for inspection and checkloading services furnished on a fee basis shall be based on the time required to render such service including but not limited to, the time required for the travel of the inspector or inspectors in connection therewith, at the rate of \$12.00 per hour for each inspector for the time actually required, except as provided in paragraph (b) of this section.

(b) *Overtime rate.* If an applicant requires that any inspection or checkloading service be performed on a holiday, Saturday, Sunday, or outside the inspector's regularly scheduled tour of duty on Monday through Friday, he shall be charged for such service at the rate of \$16.00 per hour.

(c) *Travel expense and other charges.* Charges may be made to cover the cost of travel and other expenses incurred by the Service in connection with the performance of any inspection or checkloading service on a fee basis. Such charges shall include the costs of travel, per diem, and other expenses.

(Sec. 3c, 50 Stat. 62; 7 U.S.C. 473c)

**PART 61—COTTONSEED SOLD OR OFFERED FOR SALE FOR CRUSHING PURPOSES (INSPECTION, SAMPLING, AND CERTIFICATION)**

6. Sections 61.43, 61.44, 61.45 and 61.46 are revised to read as follows:

**§ 61.43 Fee for sampler's license.**

For the examination of an applicant for a license to sample and certificate official samples of cottonseed the fee shall be \$12.00, but no additional charge shall be made for the issuance of a license. For each renewal of a sampler's license the fee shall be \$10.00.

**§ 61.44 Fee for chemist's license.**

For the examination of an applicant for a license as a chemist to analyze and certificate the grade of cottonseed the fee shall be \$200.00, but no additional charge shall be made for the issuance of a license. For each renewal of a chemist's license the fee shall be \$65.00.

**§ 61.45 Fee for certificates to be paid by licensee to Service.**

To cover in part the cost of administering the regulations in this part each licensed cottonseed chemist shall pay to the Service 70 cents for each certificate of the grade of cottonseed issued by him. Upon receipt of a statement from the Service each month showing the number of certificates issued by the licensee, such licensee will forward the appropriate remittance in the form of a check, draft, or money order payable to the "Agricultural Marketing Service, USDA."

**§ 61.46 Fees for review of grading of cottonseed.**

For the review of the grading of any lot of cottonseed, the fee shall be \$25.00. Remittance to cover such fee, in the form of a check, draft, or money order payable to the "Agricultural Marketing Service, USDA," shall accompany each application for review. Of each such fee collected, \$7.00 shall be covered into the Treasury and \$9.00 disbursed to each of the two licensed chemists designated to make reanalyses of such seed.

(Sec. 205, 60 Stat. 1090, as amended; 7 U.S.C. 1624.)

The need for these increased fees and the amount thereof are dependent upon facts within the knowledge of the Agri-

cultural Marketing Service. Therefore, under the provisions of 5 U.S.C. 553, it is found that notice and other procedure with respect to these revisions are impracticable and unnecessary.

The conduct of all services and the licensing of inspection/grading/sampling personnel under these regulations shall be accomplished without discrimination as to race, color, religion, sex, or national origin.

*Effective Date:* These revisions shall become effective July 1, 1976.

Dated: May 17, 1976.

WILLIAM T. MANLEY,  
Deputy Administrator,  
Program Operations.

[FR Doc. 76-14839 Filed 5-19-76; 8:45 am]

**CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE**

[Navel Orange Reg. 381]

**PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA**

Limitation of Handling

This regulation fixes the quantity of California-Arizona Navel oranges that may be shipped to fresh market during the weekly regulation period May 21-27, 1976. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 907. The quantity of Navel oranges so fixed was arrived at after consideration of the total available supply of Navel oranges, the quantity currently available for market, the fresh market demand for Navel oranges, Navel orange prices, and the relationship of season average returns to the parity price for Navel oranges.

**§ 907.681 Navel Orange Regulation 381.**

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the respective quantities of Navel oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Navel orange industry.

(i) The committee has submitted its recommendation with respect to the

quantities of Navel oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Navel oranges is strengthening particularly for first grade fruit. Prices f.o.b. averaged \$3.14 a carton on a reported sales volume of 1,077 carlots last week, compared with an average f.o.b. price of \$3.05 per carton and sales of 1,207 carlots a week earlier. Track and rolling supplies at 460 cars were down 55 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Navel oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication

hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period

herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on May 18, 1976.

(b) *Order.* (1) The respective quantities of Navel oranges grown in Arizona and designated part of California which may be handled during the period May 21, 1976, through May 27, 1976, are hereby fixed as follows:

- (i) District 1: 1,200,000 cartons;
  - (ii) District 2: Unlimited movement;
  - (iii) District 3: Unlimited movement.
- (2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674.)

Dated: May 19, 1976.

CHARLES R. BRADER,  
Director, Fruit and Vegetable  
Division, Agricultural Mar-  
keting Service.

## proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

### DEPARTMENT OF DEFENSE

Office of the Secretary

[ 32 CFR Part 251 ]

#### TOXIC CHEMICAL HAZARDS OR COMBINED TOXIC AND EXPLOSIVES HAZARDS SAFETY STANDARDS

##### Proposed Toxic Chemical Safety Standards

The proposed standards are authorized by Department of Defense Directive 5154.4, "The Department of Defense Explosives Safety Board," dated October 23, 1971 (36 FR 22777, November 30, 1971). Pursuant to the authority vested in the Secretary of Defense in accordance with Title 10, United States Code, section 172, this Directive established the Department of Defense Explosives Safety Board (DDESB) as a joint activity of the Department of Defense, subject to the direction, authority and control of the Secretary of Defense.

Notice is hereby given that the Chairman, Department of Defense Explosives Safety Board proposes to establish Toxic Chemical Safety Standards as an addition to DoD 5154.4S, "DoD Ammunition and Explosives Safety Standards," dated July 1974. (DoD 5154.4S is available from Superintendent of Documents, Government Printing Office, Washington, D.C. 20402). These standards are applicable to existing stockpiles of chemicals which are maintained in support of national policy in full conformance with current legislation and international law.

The standards for toxic chemical agents and ammunition containing such agents are designed to provide a degree of safety to the public, equivalent to or greater than that provided for other types of ammunition and explosives by existing provisions of DoD 5154.4S. It is proposed to make the toxic chemical safety standards effective on the date of their republication in the FEDERAL REGISTER.

Inquiries may be addressed to, and data, views, and arguments concerning the proposed standards may be submitted to, the Chairman, Department of Defense Explosives Safety Board, Department of Defense, Washington, D.C. 20314. All material received on or before June 21, 1976, will be considered. All comments in response to these standards will be available for public inspection during normal business hours at the foregoing address.

The proposed standards will be contained in a new Part 251 to this subchapter and will read as follows:

Sec.  
251.1 General.  
251.2 Maximum Credible Event

Sec.  
251.3 Hazard Zone Calculations.  
251.4 Public Access Exclusion Distance.  
251.5 Intraline Distance.  
251.6 Magazine Distance.  
251.7 Exclusion.  
251.8 Containment.

AUTHORITY: The provisions of this Part 251 issued under Title 10, United States Code, section 172.

##### § 251.1 General.

Items in this class are chemical agent filled ammunition, chemical agents, and chemical agent filled components. As used in this standard, "agent" means a toxic chemical agent, a substance which in intended for military use with lethal or incapacitating effects upon man through its chemical properties. Excluded from toxic chemical agents for purposes of this standard are riot control agents, chemical herbicides, smoke and flame producing items, and individual disassociated components of chemical agent ammunition.

(a) Depending upon the type of agent, its persistency, volatility, toxicity, or other characteristics, the primary safety consideration may be the area of agent dispersal rather than blast or fragment distance which usually control in the case of other ammunition. Items which contain only toxic chemical agents are assigned to Class 6, Division 1.

(b) Items which contain both explosives and toxic chemical components are assigned to Class 1, Divisions 1 through 4, as appropriate; Class 6, Division 1 requirements must also be applied so that the explosives and toxic chemical hazards are both considered.

##### § 251.2 Maximum credible event.

A maximum credible event (MCE) is defined as that unintended, unplanned, or accidental adverse occurrence which causes release of agent from an ammunition item, bulk container, or process. It must be realistic with a reasonable probability of occurrence. It is necessary to hypothesize a MCE to enable calculation of the magnitude of a worst case hazard.

(a) The hypothetical MCE for any given situation will be based upon the nature and characteristics of the agent involved, ammunition, container, configuration, and location.

(b) The number of ammunition items involved, the quantity of agent released, and the percentage of agent disseminated shall be assumed, based upon available test data or, in the absence of data, the best technical judgment available.

(c) In the instance of a bulk container or an ammunition item without explosives components, the MCE will be developed from the hypothesis of a leak or rupture resulting in a release of agent.

(d) In the instance of ammunition with explosive components, the MCE will be developed from the assumption of an explosion or detonation of one of the most disruptive explosive components which would produce the worst results regarding release of agent; the propagation characteristics of the ammunition will be considered in developing the overall MCE.

(e) The amount of agent released and the nature of release (evaporation or aerosolization) as a result of MCE will then be used to make the hazard-zone calculations required by this standard.

##### § 251.3 Hazard zone calculations.

(a) Because of the diversity of items which may be present at an installation, and the wide variation in hazard associated with MCEs involving different items, it is necessary that calculations be made for each item individually.

(b) Considerations of hazard zones for chemical items at each installation shall include: agents present, their amounts, and storage or handling configurations; the normal types of operations and handling to which they are subjected; and the MCE that may result directly from such operations.

(1) The chemical agent source strength which would result from the MCE that could occur in the usual storage and handling configuration or during other specialized operations shall be calculated for each chemical item. Such MCE shall be evaluated and the worst case hazard-source strength shall be selected, based on the type and quantity of agent released and type of release; e.g., by aerosolization or evaporation.

(2) These hazardous sources shall become the basis of subsequent hazard-distance calculations performed in accordance with the methodology described in DDESB Technical Paper Number 10.

(c) In performing hazard calculations, prime consideration shall be given to: type of agent, source strength and geometry, and time of day that the agent release occurs.

(1) Distances will be calculated to show whether or not the hazards from the chemical agents exceed the safety zones required to protect against the explosive hazards if both are present.

(2) The hazard distances shall then be displayed as the radius of a circle drawn on a map of the installation and its environs if the distance extends beyond the installation boundaries. The indicated worst case distance to the contour line

at which the following values would exist:

Agent:	mg-min/m <sup>3</sup>
GB	10.0
VX	4.3
HD	150.0

shall be used as public access exclusion distance for Class 6, Division 1 chemical agents.

##### § 251.4 Public access exclusion distance.

This distance requires consideration not only of blast or fragment hazard from Class 1 items, but also of the effect of release of agent because of the agent's persistency, volatility, toxicity, nature of release (aerosolization or evaporation), or other special features.

(a) Inhabited building quantity-distance standards for chemical agents in Class 1 or Class 6 items cannot be conveniently stated in the manner prescribed for other Class 1 items.

(b) Based on meteorological, topographical and other local conditions, a downwind-hazard zone in which certain effects may be expected shall be calculated for accidental agent release from the potential source of agent.

(c) The downwind-hazard zone shall be calculated as indicated in § 251.3.

(d) For protection analogous to the inhabited-building distance for explosives, the hazard zone calculated from the MCE shall represent that arc from the agent source containing no more than 10.0, 4.3, and 150.0 mg-min/m<sup>3</sup> of GB, VX, or HD respectively.

(e) Positive means shall be taken to assure that no persons, not directly associated with chemical weapons operations, enter areas so defined.

(f) In the event this calculation results in a lesser distance than that required by the associated blast or fragment hazard, the blast or fragment distance shall be applied as determined for Class 1, Divisions 1 through 4.

(g) Positive control of an area which can assure that all persons can be removed prior to exposure in the case of an MCE may be developed in lieu of absolute exclusion. Full details of such control must be presented to the DDESB for approval if proposed to be used in lieu of exclusion.

##### § 251.5 Intraline Distance.

Since the primary purpose of intraline distance is to prevent the propagation of explosions, there is no requirement for intraline separation of Class 6 items. The intraline distances for Class 1 ammunition containing both agents and explosive components shall be those specified for Class 1, Divisions 1 through 4, as if the chemical agents were not present.

##### § 251.6 Magazine Distance.

Since the primary purpose of magazine distance is to provide a high degree of protection against propagation of explosions (in the case of aboveground magazines), or to provide virtually complete protection against propagation of explosions (in the case of igloo magazines), there is no requirement for magazine separation of Class 6 items.

### PROPOSED RULES

(a) The magazine distance for Class 1 ammunition containing both agent and explosive components shall be that appropriate if chemical agent were not present, using the appropriate table for Hazard Class 1, Division 1 through 4.

(b) For chemical agents requiring differing decontamination procedures, the controlling DoD Component shall specify appropriate minimum-separation distances.

##### § 251.7 Exclusion.

This standard does not apply to situations where the immediate disposal or detoxification of chemical ammunition or agents is necessitated by an emergency when delay would clearly cause a greater danger to human life, or health.

##### § 251.8 Containment.

Safety criteria for containment of operations:

(a) Certain operations are inherently hazardous and appropriate containment of the various hazards involved is necessary for the protection of the employees performing such work, the protection of other employees at the installation who are not associated with such work, and the protection of the general public outside the installation.

(1) Personnel responsible for planning, designing, and accomplishing such operations must assure that adequate safety is provided by incorporating the appropriate types of hazard containment.

(2) The various circumstances and facilities that may be encountered at such operations prevent pre-definition of specific detailed containment specifications for each agent, each ammunition and each operation.

(3) Nevertheless, the general principles of hazard containment set forth below will be normally incorporated in operations such as manufacture, disassembly, demilitarization, and disposal.

(b) There are two types of containment: "total containment," and "vapor containment." Irrespective of which type of containment is provided, the containment structure or facility will be equipped with a means of entrapping or detoxifying the evaporated or aerosolized chemical agent by filters, scrubbers, incinerators, or other appropriate means. Total containment and vapor containment are described as follows:

(1) Total containment requires a facility designed and tested to be of sufficient capacity and strength to contain combustion or detonation gases, fragments, and agent from the largest explosion that could occur, based upon the propagation characteristics of the ammunition. Currently, there are two basic designs for such total containment.

(i) One design consists of a chamber capable of retaining all of the fragments and explosion effects; and preventing release of detectable quantities of agent.

(ii) The other design consists of a suppressive shield capable of retaining the fragments and sufficiently attenuating the blast forces while a plenum chamber (outer envelope surrounding the suppressive shield) retains the combustion

gases and prevents release of detectable quantities of agent.

(2) Vapor containment will consist of a facility designed to provide negative pressure, controlled air flow, and walled or multiple walled enclosures which will contain any detectable quantities of agent released. Designs for vapor containment are usually tailored to the operation involved.

(3) Containment is not required for operations associated with storage activities. Examples of such operations include shipping, storing, receiving, rewarehousing, minor maintenance, surveillance inspection, repair, and encapsulation.

(i) Emergency agent transfer in the event of agent leakage is also permitted without containment. These activities normally present an acceptable degree of safety except in the event of an agent leaker, and then the increased hazard is only to those operating personnel in proximity.

(ii) In the event of a leaker, measures such as personal protective clothing and equipment are mandatory to protect operating personnel during the application of decontamination procedures to neutralize the escaping agent, and to repair, encapsulate, or transfer agent from the leaking ammunition or container.

(4) The selection of the type of containment is dependent upon the nature of the operation involved.

(i) Total containment is required for those operations involving ammunition which contain explosive components as well as toxic agents, whenever the operation may subject the explosive components to a potential initiating stimulus.

(ii) Vapor containment is required for those operations involving toxic agents in bulk or in ammunition without explosives components; and for those operations involving ammunition containing both toxic agent and explosive components wherein the operation does not subject the explosive components to a potential initiating stimulus.

(iii) Examples of disassembly, demilitarization, and disposal operations which normally require total containment and those which require vapor containment are listed below. For situations not specifically listed, selection of the type of containment required will be in accordance with the above principles.

(a) Operations requiring total containment include:

(i) Machine tool operations; e.g., cutting, sawing, milling, drilling, punching, or shearing of ammunition if the operation requires the cutting tool to remove or displace metal before or after contact with the explosives.

(ii) Situations in which the ammunition arming and functioning environments can be duplicated by the sequence of operations and process machinery.

(iii) Disassembly of armed or possibly armed ammunition.

(iv) Disassembly of explosive components from ammunition where there is evidence of significant damage, exudation of explosives, corrosion, or deterioration; unless testing, analysis or evaluation

I

ation by DDESE determines that total containment is not required.

(v) Disassembly of explosive components from ammunition where undue force is required to accomplish the disassembly; e.g., where tools used for disassembly must apply significantly greater leverage or torque than those which were used for the assembly.

(b) Operations requiring vapor containment are:

(i) Machine tool operations; e.g., punching, drilling, or sawing of ammunition to remove the agent provided the equipment is designed to prevent contact of its cutting tool with explosives.

(ii) Burstier well removal, after removal of explosive components.

(iii) Transfer of agent from bulk storage tanks, containers or ammunition into holding tanks, chemical detoxification reactors, incinerators, or similar processing equipment, such as may be found in a production, demilitarization or disposal line. This is not to be construed as requiring vapor containment for agent transfer during field operations involving leak repair activities.

ARIZ.

Proposed Revisions

Pursuant to the authority vested in the Secretary of the Interior for issuance of irrigation operation and maintenance orders fixing per acre assessments against lands included in Indian Irrigation Projects, delegated to the Commissioner of Indian Affairs by Order No. 2508 (10 BIAM 2.1, Section 15a) and redelegated to the Area Directors, by 10 BIAM 4.1, notice is hereby given that it is proposed to modify § 221.63 Assessment, Joint Works, of Title 25, Code of Federal Regulations, dealing with operation and maintenance assessments against the irrigable lands of the San Carlos Irrigation Project, Arizona, by increasing the total basic assessment from \$600,000 to \$1,185,000 per annum and the per acre assessment rate from \$6.00 to \$11.85 for each acre of land, the revised section would read as follows:

§ 221.63 Assessment, Joint Works.

(a) Pursuant to the Act of Congress approved June 7, 1924 (43 Stat. 476), and supplementary acts, the repayment contract of June 8, 1931, as amended, between the United States and the San Carlos Irrigation and Drainage District, and in accordance with applicable provisions of the order of the Secretary of the Interior June 15, 1938 (§§ 221.69a-221.69m), the cost of the operation and

maintenance of the Joint Works of the San Carlos Indian Irrigation Project for the fiscal year 1978 is estimated to be \$1,185,000 and the rate of assessment for the said fiscal year and subsequent fiscal years until further order, is hereby fixed at \$11.85 for each acre of land.

It is the policy of the Department of the Interior whenever practicable to afford the public an opportunity to participate in the rule making process. Accordingly, interested persons may submit written comments, suggestions, or objections with respect to the proposed amendment, to John H. Artichoker, Area Director, Phoenix Area Office, P.O. Box 7007, Phoenix, Arizona, 85011, on or before June 11, 1976.

JOHN ARTICHOKE, JR.,  
Area Director.

[Docket No. 76P-0129]

INDIVIDUALLY WRAPPED PIECES OF  
CONFECTIONERY

Proposed Exemption From Required Label  
Statements; Withdrawal of Proposal, De-  
nial of Petition, and Termination of Rule  
Making Proceeding

The Food and Drug Administration  
(FDA) is withdrawing the proposal con-

cerning an exemption from labeling requirements for individually wrapped candies of 2 ounces or less net weight (published in the FEDERAL REGISTER of March 13, 1975 (40 FR 11731)), denying the petition on which the proposal was based, and terminating the rule making proceeding in that matter.

The proposed amendment, if adopted, would have revised § 1.1c(a)(4) (21 CFR 1.1c(a)(4)) by deleting the words "penny candy and other" and by exempting individually wrapped pieces of confectionery of not more than 2 ounces net weight from the net quantity of contents declaration required by § 1.8b (21 CFR 1.8b). The proposal was published in response to a petition submitted by the National Confectioners Association (NCA), Washington, DC 20036.

One thousand thirty-nine comments were received in response to the proposal: 1,002 from consumers (one comment included letters from a class of 40 students), 18 from government agencies (Federal, State, and local), 6 from consumer organizations, 6 from the industry, 4 from trade associations, 2 from universities, and 1 from a Congressman. Only 13 of these comments favored the proposal. A summary of the comments and the Commissioner of Food and Drug responses follow:

1. Many comments disagreed with the petitioner's economic arguments. One comment included a cost analysis which showed the potential savings to be a maximum of \$59 million, not the \$106 million claimed by the petitioner. Other comments pointed out that there would be no legally enforceable way to make manufacturers pass on savings to the consumer. Some comments stated that many consumers are willing to pay for the minimal extra cost of net weight labeling on individual packages. Other comments disagreed with the petitioner's argument alleging marketing difficulties due to "odd-cents pricing"; the comments pointed out that candy bar prices of 12, 13, 17, and 18 cents are common in New York City. A few of these comments stated that if manufacturers changed their prices to reflect changes in their costs, the need to discard candy bar wrappers outdated from continual fluctuations of net weight would be eliminated.

The Commissioner agrees that the maximum potential savings may be less than the petitioner estimated. The Commissioner recognizes that when manufacturers are granted relief from requirements with the anticipation that savings will be passed on to the consumer, some manufacturers may not pass on all of the savings to the consumer since there is no legal requirement that this be done. The Commissioner also notes the existence of "odd-cents pricing" in New York City and the potential for the confectionery industry to reflect cost changes in price. Having reviewed the many comments received, the Commissioner has concluded that the desire of many consumers for net weight labeling on the individual packages of candy bars outweighs any potential benefits of cost savings that would result from the proposed exemption regulation.

2. Citing what were considered to be deceptive and misleading news reports on the proposal, the petitioner submitted a comment contending that due to such reports some persons based their opposition to the proposal on inaccurate, deceptive, and untruthful information. The petitioner requested that FDA "... consider only those comments which make it clear that the individual submitting the comment clearly and fairly understands the proposal ..."

The Commissioner has reviewed the newspaper articles and editorials submitted by the petitioner. He notes that almost all the articles failed to explain the proposed alternate quantity of contents labeling on boxes or counter cards. The Commissioner therefore agrees that the failure of these articles to explain the proposed alternate labeling is a significant omission of fact that may have unfairly prejudiced some comments on the proposal. The Commissioner has considered all the comments on the proposal, and each comment has been evaluated according to its merits. The Commissioner's decision has not been influenced by those comments that reflect a misunderstanding of the proposal.

3. Some comments favored the proposal, stating that the consumer does not need net weight information or does not care about net weight on candy bar labels. Other comments stated that children do not look at net weight declarations.

The Commissioner notes that substantial numbers of the comments in opposition to the proposal, many of which were from children, did express concern that proper value comparisons would not be possible if the net weight does not appear on candy labels.

4. A few comments objected to the proposal by stating that there are other solutions for the confectionery industry's labeling problems. Some comments suggested that labels be printed with the portion of the label that contains the net weight declaration left blank; as needed, the net weight labels could be machine-stamped quickly and inexpensively. Other comments suggested that outdated wrappers be reconditioned with adhesive net weight labels. Several comments contended that the confectionery industry could reduce its losses if fewer wrappers were ordered at one time and if the orders were scheduled more properly.

The Commissioner agrees that some of these alternatives are available to manufacturers and would permit accurate net weight labeling on candy without causing excessive waste or costs.

5. A few comments suggested that the proposed exemption be granted on a temporary basis.

The Commissioner disagrees with this suggestion since the consumer's desire for net weight information would not be satisfied during such a temporary exemption.

6. Some comments opposed to the proposal pointed out that any special treatment or subsidy given to this industry would set a bad precedent that would

enable other food industries to be considered for similar treatment.

The Commissioner does not intend to give special treatment to any industry. In deciding whether petitions warrant publication as proposals, the Commissioner evaluates the petition on the basis of merit and the petitioner's supporting grounds. In ruling on proposals, the Commissioner again considers these factors along with the comments received.

7. Some comments pointed out that candy bar fillings can be inflated with air or deceptively shaped. One comment suggested that the ½ ounce exemption for confectionery should be reduced. Another favored the proposal on condition that all candy bars weigh exactly 1 ounce.

The Commissioner advises that the proposal was not intended to affect the apparent size of candy bars, the amount of air that a manufacturer could include in candy fillings, or the deception resulting from candy bar shapes. Where such factors result in deception, the provisions of the Federal Food, Drug, and Cosmetic Act regarding deception will apply. A reduction in the size of confectionery under the exemption was not within the scope of the proposal. Congress has given FDA no statutory authority to require that all candy bars weigh exactly 1 ounce.

8. Many comments considered counter card and box labeling impractical or ineffective for candy bars. Some mentioned retail practices such as putting new stock on top of old stock, displaying boxes together on the shelves. Other comments pointed out that the proposed exemption would limit merchandising methods and would be an unfair burden on the retailer.

The Commissioner notes that consumer deception could result, given existing retail practices, if only counter card or box labeling were required for candy bars. The Commissioner also notes that a counter card or box labeling exemption for candy bars would limit merchandising methods and might well result in an unfair burden on retailers.

9. A few comments advised that the proposed exemption would place an unfair burden on vending machine operators.

The Commissioner notes that one candy-vending machine may be used to dispense many different bars during a given period of time. This fact, coupled with the frequent weight changes of candy bars, might well result in even the most conscientious vending machine operator failing to keep net weight display cards accurate and in place.

10. Some comments stated that many enforcement problems would occur with the proposed exemption. One comment stated that the lack of enforcement activity by FDA for minor labeling violations indicates that FDA would not be apt to enforce the regulation. Some comments stated that FDA does not have enough inspectors to ensure adequate enforcement of such labeling requirements

at the retail level. Recognizing the enforcement problems of FDA, the petitioner suggested that all reference to counter card display of quantity of contents labeling be deleted from the exemption. The petitioner stated that "even with the manufacturer providing with each shipment the necessary counter cards, they might not, in some instances, be properly and prominently displayed." The petitioner stated that no such problem would occur if confectionary items weighing 2 ounces or less are offered for retail sale in a container with the net weight prominently displayed on the container.

The Commissioner acknowledges that FDA does not have the resources to ensure total compliance of net weight display, as proposed, at the retail level. The Commissioner concludes that although enforcement of the proposed regulation might be simplified by deletion of the provision for counter cards, the unavailability of net weight declarations on individual wrappers would not be adequately compensated by net weight declarations on display containers only.

11. A few comments pointed out that State or local officials would have difficulties evaluating consumer complaints for short weight because, due to frequent candy weight changes, they might not be able to coordinate the complainant's product with the appropriate alternate labeling on the retailer's counter card or box.

The Commissioner agrees that State and local officials might encounter enforcement difficulties due to frequent weight changes of candy bars.

12. Many comments stated that the proposal would cause more consumer confusion and accidental or willful deception. Some comments stated that in many cases the absence of net weight on individual candy bars would make it necessary for the consumer to remember or record weights from the counter card or box labeling to make value comparisons or for later use. Some claimed it would be difficult to teach children to make value comparisons since the parents would not see the net weight declaration. Other comments suggested that it would be unsafe for insulin-dependent diabetics or people on low carbohydrate or calorie-restricted diets.

The Commissioner is persuaded by these comments that many consumers do place significant value on net weight information on candy bars and that the proposed regulation would result in practices that consumers do not consider to be in their best interest. The Commissioner agrees that the potential for consumer deception outweighs any potential savings to the consumer and concludes that the regulation (§ 1.1c) should not be amended to increase the weight exemption for confectionery to 2 ounces.

13. A few comments supported deletion of the term "penny candy" for clarification purposes.

The Commissioner advises that the word "penny" does not refer to the intended retail price but rather to a class

of confectionery having nominal value and weighing less than ½ ounce. This class of confectionery is subject to retailing practices differing substantially from those for other classes of confectionery, particularly candy bars, which were of concern in many of the comments submitted in response to the proposal. Since the Commissioner is of the opinion that the concept of the "penny candy" class of confectionery should not be removed from the regulation, the proposed deletion of the words "penny candy" and "other" is withdrawn.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 403, 701 (a), 52 Stat. 1047-1048 as amended, 1055 (21 U.S.C. 343, 371(a))) and under authority delegated to him (21 CFR 2.120), the Commissioner hereby denies the National Confectioners Association's petition, withdraws the proposed amendment to § 1.1c(a)(4) (21 CFR 1.1c(a)(4)) published in the FEDERAL REGISTER of March 13, 1975 (40 FR 11731), and terminates the rule making proceeding initiated by that proposal.

Dated: May 13, 1976.

SAM D. FINE,  
Associate Commissioner  
for Compliance.

[FR Doc. 76-14655 Filed 5-19-76; 8:45 am]

#### [21 CFR Part 19]

[Docket No. 76P-0128]

#### CHEESE, PROCESSED CHEESES, CHEESE FOODS, CHEESE SPREADS AND RELATED FOODS

##### Italian Cheeses; Optional Use of Safe and Suitable Antimicrobials and Label Declaration of Optional Ingredients

The Food and Drug Administration proposes to amend the standards of identity for certain varieties of Italian cheeses to permit the addition of safe and suitable antimicrobial agents during the manufacturing process, and to require a label declaration of all optional ingredients. The proposal affects the standards of identity for the following cheeses: provolone, caciocavallo siciliano, mozzarella, and low moisture mozzarella cheeses, and by cross-reference, part-skim mozzarella and low moisture part-skim mozzarella. Interested persons have until July 19, 1976, to comment.

The National Cheese Institute, Inc., 110 North Franklin St., Chicago, IL 60606, has filed a petition proposing that the standards of identity for provolone, caciocavallo siciliano, mozzarella, and low moisture mozzarella cheeses be amended to provide for the optional addition of safe and suitable antimicrobials to the cheeses during the manufacturing process. The petition and supporting documents are on file in the office of the Hearing Clerk, Food and Drug Administration. The grounds given by the petitioner in support of the proposed amendments are that (1) mold growth on the cheese while in the package, represents an economic loss and a potential health hazard to the consumer, and (2) the addition of appropriate anti-

microbials during the manufacturing process will greatly reduce the possibility of mold growth on the surface of packaged cheese.

A supporting research study involving a series of experiments in which shredded, sliced, and diced low moisture part-skim mozzarella cheese with potassium sorbate added to the curd were tested indicates that addition of the antimicrobial during the manufacturing process has a beneficial effect on the keeping quality of packaged cheeses. Each style of cheese was packaged in different quantities in polyethylene, and incubated at 40° F and 50° F under varying circumstances. All packages were visually examined for fungal growth at weekly intervals and some packages were examined periodically for flavor changes. The results of the experiments indicate that potassium sorbate used in concentrations up to half the current limit of 0.3 percent by weight is effective in assuring at least a 2-week shelf life at 40° F in an unopened package, when combined with effective packaging, sanitary procedures, and good manufacturing practice. As the concentration of the sorbate increases, the length of the fungus-free shelf life would be increased. However, either poor manufacturing practices or storage temperatures of 50° F or above will have an adverse effect on shelf life.

The Commissioner believes that the petition and the supporting research study establish reasonable grounds to publish the proposed amendment.

The type of cheeses included in this proposal are pasta filata (pulled curd) type cheeses. The manufacturing procedure (make process) for these types of cheeses is similar to that for other natural cheeses (e.g., 21 CFR 19.500(b)) up to the matting and cutting of the curd. At this point, the curd of pasta filata cheeses is immersed in hot water, steam, or hot whey and kneaded and stretched until it is smooth and free from lumps, after which it is cut or molded into shapes of varying size. This pulling and stretching action, which is unique to pasta filata cheeses, facilitates the use and even distribution of an antimicrobial agent in the cheese curd.

At present, specific antimicrobial agents are allowed in a maximum amount of 0.3 percent by weight on the surfaces of cuts and slices of provolone (21 CFR 19.590), caciocavallo siciliano (21 CFR 19.591), and low moisture mozzarella (21 CFR 19.605) cheese in consumer-sized packages. The antimicrobial agents are usually applied to the cheese either as a coating on the interior of the wrapper or by dipping or spraying the cheese. The standard of identity for mozzarella cheese (21 CFR 19.600) does not provide for the optional use of antimicrobial agents.

The cheeses included in the proposal are most often sold in cut, sliced, shredded, and diced forms. These smaller cuts have a proportionately larger surface area exposed to air, and thus provide favorable conditions for fungal, especially mold, growth. Furthermore, it is not possible or practical to eliminate microorganisms from the packaging en-

vironment, in spite of the sanitary and good manufacturing precautions taken. An antimicrobial agent, such as sorbic acid, functions to suppress the growth of small numbers of unavoidable microorganisms, but, used in a safe and suitable amount, is incapable of controlling the large number of microorganisms indicative of bad manufacturing practices.

The Commissioner of Food and Drugs is proposing to amend the standards to permit the use of any safe and suitable antimicrobial agent and to delete the provisions that limit the specific agents and amounts that may be used. The existing restrictions are unnecessary to assure the safety of the food, because the ingredients can only be used if they are "safe and suitable" as defined in § 1.10 (21 CFR 1.10).

To further the policy set forth in § 3.88 (21 CFR 3.88), the Commissioner, on his initiative, proposes to amend the standards of identity for these four cheeses to require ingredient labeling of optional ingredients in accordance with Part 1 (21 CFR Part 1). All ingredients in these cheeses, with the exception of salt in provolone (21 CFR 19.590) and caciocavallo siciliano (21 CFR 19.591), are optional, i.e., while cheese must contain milk, the manufacturer has the option of choosing the type of milk or milk ingredient he prefers, such as whole milk, whole milk and skim milk combined, etc. The Commissioner advises that benzoyl peroxide used to bleach milk from which cheese is made is an optional ingredient and must be declared in the ingredient statement of the cheese either as "benzoyl peroxide" or "milk bleached with benzoyl peroxide."

As set forth in § 3.88, the Commissioner has determined that "There is significant consumer interest that the labels of standardized foods bear complete information of the ingredients contained in the food" and accordingly, "The Food and Drug Administration intends to amend the definitions and standards of identity of food by setting into motion as rapidly as possible the provisions of section 401 of the act to require label declaration of all optional ingredients with the exception of optional spices, flavoring, and colorings which may continue to be designated as such without specific ingredient declaration." Section 403(k) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 343(k)) specifically exempts cheese from any label declaration of optional artificial coloring. Salt, a mandatory ingredient in two of the cheeses, provolone and caciocavallo siciliano, is also exempt from the requirement that ingredients be declared in the ingredient statement. However, to promote honesty and fair dealing in the interest of consumers, the Commissioner urges that manufacturers declare the presence of these ingredients.

The Commissioner proposes that, except as to any provisions that may be stayed by the filing of proper objections, all products initially introduced into interstate commerce on or after January 1, 1978 shall comply with the final regulation.

The Commissioner has considered the environmental effects of the issuance or amendment of food standards and has concluded in § 6.1(d)(4) (21 CFR 6.1(d)(4)) that food standards are not major agency actions significantly affecting the quality of the human environment. Therefore, an environmental impact statement is not required for this amendment. The Commissioner has also considered the inflation impact of this proposed regulation and has found that the proposal, if adopted, would not cause a major inflation impact as defined in Executive Order 11821, OMB Circular A-107, and Guidelines issued by the Department of Health, Education, and Welfare. Copies of the FDA inflation impact assessment are on file with the Hearing Clerk, Food and Drug Administration.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 401, 701 (e), 52 Stat. 1046 as amended, 70 Stat. 919 as amended (21 U.S.C. 341, 371(e))) and under authority delegated to the Commissioner (21 CFR 2.120), it is proposed that Part 19 be amended in §§ 19.590, 19.591, 19.600, and 19.605 as follows:

1. In § 19.590 by revising paragraphs (d) and (e) and by adding new paragraph (f) to read as follows:

§ 19.590 Provolone cheese, pasta filata cheese; identity; label statement of optional ingredients.

(d) Safe and suitable antimicrobial agent(s) may be added to the cheese during the make process or applied to the surface of cut, sliced, diced and/or shredded forms.

(e) The name "provolone cheese" ("pasta filata cheese") may include the common name of the shape of the cheese, such as "salami provolone." If provolone cheese is not smoked, the name includes the words "not smoked." If a clear aqueous solution prepared by condensing or precipitating wood smoke in water is added to the provolone cheese, the name is immediately followed by the words "with added smoke flavoring" with all words in this phrase of the same type size, style, and color without intervening written, printed, or graphic matter.

(f) Label declaration of optional ingredients: Each of the optional ingredients used in the food shall be declared on the label as required by the applicable sections of Part 1 of this chapter.

2. In § 19.591 by revising paragraphs (d) and (e) and by adding new paragraph (f) to read as follows:

§ 19.591 Caciocavallo siciliano cheese; identity; label statement of optional ingredients.

(d) Safe and suitable antimicrobial agent(s) may be added to the cheese

during the make process or applied to the surface of cut, sliced, diced, and/or shredded forms.

(e) When caciocavallo siciliano cheese is made solely from cow's milk, the name of such cheese is "Caciocavallo siciliano cheese." When made from sheep's milk or goat's milk or mixtures of these, or one or both of these with cow's milk, the name is followed by the words "made from \_\_\_\_\_," the blank being filled in with the name or names of the milks used, in order of predominance by weight.

(f) Label declaration of optional ingredients: Each of the optional ingredients used in the food shall be declared on the label as required by the applicable sections of Part 1 of this chapter.

3. In § 19.600 by adding "label statement of ingredients" to the section heading and by adding new paragraphs (d), (e), and (f) to read as follows:

§ 19.600 Mozzarella cheese, scamorza cheese; identity; label statement of ingredients.
